### **Public Comment**

Mark Johns, 123 Lennon Drive, stated he works with a landscape and hardscape company. Today he went to the site of the proposed rezoning. One tree on the site might have been three-inch caliper and the rest look like Charlie Brown's Christmas tree. Nothing was planted in the rear of the development to provide a buffer zone. He is concerned lighting will affect the residents behind the development. The dirt stored on the property needs to be moved. It is important the developer follows through with things discussed in previous meetings.

### Regular Agenda

8. Conduct a public hearing and discuss, consider and act on ordinance amending its comprehensive zoning ordinance and official zoning map by amending an existing planned development Ordinance No. 2020-08-857 for that certain tract of land legally described as A0915a M.E.P. & P.R.R. TR 15 (pt), 10.22 acres of land located in the 3000 Block of FM 2181; and establishing revised development standards.

John Smith, Town Manager, provided an overview of the request to amend the existing planned development ordinance.

Bobby Mendoza, EVP, Real Estate, Victory Group, provided an overview of the development and proposed changes to the conceptual site plan discussed at previous meetings.

Mayor Clark called the public hearing to order at 6:23 p.m.

Denine Taylor, 142 Lennon Drive, stated traffic noise can be 60-decibels. Due to the multiplication factor of decibels, a 70-decibel noise is 100 more times intense, and an 80-decibel noise would be 1,000 more times intense than 60-decibels. Power tools are generally 90-decibels. It takes 100 feet for decibels to reduce, and the automotive locations are planned within 50 feet of homes in her neighborhood. Even though the noise will not be constant it will be consistent. During the last meeting, the developer suggested seven drive- thrus if the automotive was not approved, that is a bit of an insult to her and the neighbors. The landscape the developer has proposed will be beautiful but will not reduce the noise. City of Corinth does not allow an automotive location within 300 feet of a residential property line.

Scott Leavelle, 142 Lennon Drive, stated the last time he spoke he was not comparing Hickory Creek to Grapevine. He was just merely sharing his experience as the assistant building official in Grapevine over the last seven years. He is still amazed that the development plans have gone through Planning and Zoning and Town Council without a dimensional landscape site plan that shows every tree, the location, the species and the caliber. Keep the C1 zoning that was approved and do not allow automotive. There is plenty of automotive within 3/10 of a mile.,

Mark Johns, 123 Lennon Drive, stated the inspector should check the caliper of the trees, they are not three-inch caliper. Lot 2 is now 2a and 2b which adds an additional lot. There is plenty of automotive in the area already. The developer states the commercial land was purchased quickly. The Town should not accommodate the developer by approving the rezoning request. The residents made a significant investment and knew the zoning before purchasing their homes.

With no one else wishing to speak, Mayor Clark closed the public hearing at 6:34 p.m.

#### AGENDA INFORMATION SHEET

APPLICATION FOR AUTHORITY TO INCREASE RATES SUBMITTED BY ONCOR ELECTRIC DELIVERY COMPANY LLC ON ABOUT JUNE 26, 2025

### **BACKGROUND**

On or about June 26, 2025, Oncor Electric Delivery Company LLC ("Oncor" or "Company") filed a Statement of Intent to increase its revenues by approximately \$833.6 million, which equates to a net increase of approximately 13.0% in Oncor's overall revenue. Oncor proposes to implement its proposed increase in rates effective July 31, 2025. For a Residential customer using 1,000 kWh per month, their bill would increase by about \$7.00 per month.

Earlier, sometime in about July, 2025, to allow time for review of Oncor's proposed increase in rates and to maintain current rates in effect, the City took its initial action on Oncor's application and suspended Oncor's proposed effective date until October 29, 2025.

The City must now take its *final* action on Oncor's application to increase rates and must do so no later than October 29, 2025.

### INTERVENTION AT THE PUBLIC UTILITY COMMISSION OF TEXAS

Oncor filed its Statement of Intent to raise rates with the City and with the Public Utility Commission of Texas ("PUCT") on the same date, June 26, 2025. Because Oncor filed its application with the City and with the PUCT on the same date, the City, as part of the Alliance of Oncor Cities ("AOC") intervened in the proceedings before the PUCT.

During the suspension period, through AOC the City participated in the proceedings, including hearings, at the PUCT. AOC through its Special Counsel, Herrera Law & Associates, PLLC, engaged rate consultants to evaluate Oncor's proposal to increase rates and will participate in the hearings to be held as directed by the PUCT. Under the procedural schedule in the case before the PUCT, AOC's experts' recommendations are due on October 17, 2025 and the hearings regarding Oncor's proposal to increase rates are scheduled to begin November 17, 2025 and are slated to end by November 21, 2025, after which the administrative law judges ("ALJs") will issue a proposal for decision ("PFD"). The ALJs' proposal for decision will be presented to the PUCT commissioners in April, 2026, for a final decision.

While there are numerous issues raised by Oncor's application to increase rates, AOC focused on several key issues that standing alone have the greater effect on Oncor's proposed increase: Oncor's rate of return, its depreciation expense, Oncor's funding for its self-insurance reserve and its incentive compensation for its employees including its executives, and Oncor's post Test Year adjustment to its payroll expense.

Regarding Oncor's rate of return, Oncor has requested an overall rate of return of 7.47%. While AOC's rate expert has not concluded his analysis, his preliminary assessment suggests that Oncor's requested rate of return is too high and will likely recommend a materially lower overall rate of return. But to provide an order of magnitude on the effect on rates of a relatively small change in the rate of return, a one percent change in overall rate of return is about \$264 million in return dollars.

But at this juncture AOC's experts have not concluded their analysis. Their recommendations will be completed by October 17, 2025.

### CITY JURISDICTION TO SET ONCOR'S RATES

Municipalities have exclusive, original jurisdiction over an electric utility's rates, services, and operations within a city's boundaries. This means that for a utility like Oncor to change its rates it must seek approval to do so from the city in which it provides its service. Even if a city has ceded its jurisdiction to the PUCT, a city nonetheless has the statutory right to participate in rate proceedings before the PUCT.

But, the PUCT has appellate jurisdiction over rate-setting decisions a city makes. This means that Oncor may appeal to the PUCT, a city's decision regarding rates. And to be clear: Oncor will appeal to the PUCT, the City's decision regarding rates.

### **PRIOR CITY ACTION**

The City previously acted to suspend the effective date of Oncor's requested rate increase by 90 days. Contemporaneously with the City's prior action to suspend the rate increase, the City also: (1) authorized intervention in proceedings related to Oncor's proposed rate increase as a member of the coalition of cities known as the Alliance of Oncor Cities; (2) directed Oncor to reimburse AOC's rate case expenses; and (3) retained the law firm of Herrera Law and Associates, PLLC with respect to rate proceedings involving Oncor before the Public Utility Commission of Texas, including exploration of a settlement of the case, and courts of law and to retain consultants to review Oncor's rate application, all subject to AOC's approval.

We fully expect the parties to begin settlement discussions in earnest in the next few weeks.

### **RATE CASE EXPENSES**

Cities, by statute, are entitled to recover their reasonable rate case expenses from the utility. The accompanying Resolution directs Oncor to continue to reimburse AOC's rate case expenses on a monthly basis based on presentation of approved invoices from the cities.

#### **DENIAL**

The attached Resolution denies Oncor's proposed increase in revenue and changes in rates and directs Oncor to reimburse AOC's rate case expenses.

### RECOMMENDATION: DENY ONCOR'S PROPOSED INCREASE

AOC's Special Counsel and consultants have not concluded their analyses of Oncor's proposed increase in rates. Nonetheless, AOC's experts' preliminary assessment is that Oncor's proposed increase is not warranted and is too high.

So, because that analysis will not be complete in time for AOC cities to take final action by October 29, 2025, AOC's Special Counsel recommends that the City take action to deny Oncor's proposed increase in revenue and change in rates.

Oncor will file an appeal with the PUCT of the City's action denying Oncor its requested increase in rates, and the PUCT ultimately will rule on the merits of Oncor's request. AOC will continue its participation in Oncor's appeal at the PUCT.

A denial of Oncor's proposed increase maintains the status quo in rates until the PUCT issues its final order regarding Oncor's rates.

The City must take final action on Oncor's proposed increase by no later than October 29, 2025. <u>If the City does not take action by October 29, 2025, Oncor's proposed rates are deemed approved by operation of law.</u>

### FY 2026 Asset Forfeiture Sharing Agreement HIDTA Task Force Group 1 (Dallas) Hickory Creek Police Department

The U.S. Department of Justice, 2018 Joint Guide to Equitable Sharing for State, Local, and Tribal Law Enforcement Agencies, governs this Agreement. The State and Local Law Enforcement members ("Participants"), of the DEA HIDTA Task Force Group 1 (Dallas) ("Task Force"), hereby agree to the following terms and conditions of this Memorandum of Understanding ("MOU") governing the Task Force's equitable sharing requests and participation in the United States Department of Justice ("DOJ") Equitable Sharing Program.

The following are the Task Force Participants and their contribution to the Task Force:

- Dallas Police Department/One (1) officer assigned to the Task Force
- Richardson Police Department/One (1) officer assigned to the Task Force
- Dallas District Attorney Office/One (1) officer assigned to the Task Force
- Hickory Creek Police Department/One (1) officer assigned to the Task Force
- Carrollton Police Department/One (1) officer assigned to the Task Force

Participants acknowledge that equitable sharing is at the discretion of the Attorney General and not guaranteed in any case. Participants acknowledge that sharing will not be awarded in a case if victims have not been fully compensated. State and Local government entities can be considered victims. Participants acknowledge that the DOJ Money Laundering and Asset Recovery Section (MLARS) will be the sole decider for 100% property requests.

Sharing percentages shall be based upon the following formula:

Agencies with one or more full time deputized Task Force Officers (TFOs) assigned to the Task Force will receive an equitable, prearranged sharing percentage that fairly reflects the overall agencies' investigative, financial, or administrative contributions to the task force and/or the agencies' efforts resulting in federal forfeiture of the asset, including accounting for any participation by a federal agency.

The maximum amount available for sharing is currently 80% of the asset value minus expenses related to the seizure, and minus any percentages allotted for agencies not a part or recently added to this Sharing Agreement who have also participated quantitatively or qualitatively in the asset seizure. The new minimum sharing amount is \$500. Sharing is not automatically 80%. The actual sharing amount allocated to participating agencies may be impacted by numerous factors. The sharing percentages awarded to State and Local Law Enforcement agencies is based on qualitative and quantitative contributions, and is no longer deducted from the 20% federal share.

Participants understand that if a non-MOU member receives an equitable share based upon their contribution, then the MOU Participants' shares shall be reduced proportionately (e.g., if non-MOU agency receives 10% based upon their contribution, then the MOU Participants' percentages shall be based upon 90% of the maximum amount available for sharing).

Participants further understand that additional adjustments may be necessary so to ensure that DOJ receives a minimum of 20%.

Participants further understand that the federal decision-makers, including DEA, on each equitable sharing request retain discretion to modify percentages as deemed appropriate based on the facts and circumstances in each case.

The additional and/or departure of Participant agencies and personnel shall not require renewal of this Sharing Agreement. Rather, the equitable, prearranged sharing percentages shall continue to fairly reflect Participant agencies investigative, financial, or administrative contributions to the task force and/or the agencies' efforts resulting in federal forfeiture of the asset.

This Sharing Agreement shall remain in force upon the addition or departure of law enforcement agencies in the DEA HIDTA Task Force Group 1 (Dallas). This agreement shall be reviewed for the coming Fiscal Year. Termination shall be by mutual consent in writing by all Task Force Participants or by the withdrawal of DEA, (the latter upon 30 days advance written notice to all current Task Force Participants).

#### AGREEMENT

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements of the parties hereto, it is agreed as follows:

#### ARTICLE I. COVERAGE

- State assumption of maintenance and operations described in this Agreement shall be effective on the date of execution of this agreement by the Texas Department of Transportation.
- 2. In this Agreement, the use of the words "State Highway" shall be construed to mean all numbered highways that are part of the State's Highway System.

- 3. This Agreement is intended to cover and provide for State participation in the maintenance and operation of the following classifications of State Highways within the City:
  - **A.** Non-Controlled Access highways or portions thereof which are described as "State Maintained and Operated" highways in the document attached and incorporated as **Exhibit A**.
  - **B.** All State highways or portions thereof which have been designated by the Texas Transportation Commission, or are maintained and operated, as Controlled Access Highways and which are described in the document attached and incorporated as **Exhibit B**.
- 4. In the event that the present system of State highways within the City is changed by cancellation, modified routing, new routes, or a change to City boundaries, the State shall terminate maintenance and operation and this Agreement shall become null and void on those portions of the highways which are no longer on the State Highway System; and this Agreement shall apply to the new highways on the State Highway System within the City; and they shall be classified as "State Maintained and Operated" under paragraph 3 above, unless the execution of a new agreement on the changed or new portions of the highways is requested by either the City or the State.
- 5. Exhibits that are a part of this Agreement may be changed with both parties' written concurrence. Additional exhibits may also be added with both parties' written concurrence. The Parties shall periodically update any exhibits to reflect changes to the State Highway System under paragraph 3. Paragraph 4 shall apply to changes to the State Highway System regardless of whether an exhibit has been updated under this Paragraph.
- **6.** The terms of the Agreement apply to a State Highway described by paragraphs 2-4 of this Article, unless provided otherwise in a specific project agreement.

#### ARTICLE II. GENERAL CONDITIONS

- 1. The City authorizes the State to maintain and operate the State highways covered by this agreement in the manner set out herein.
- 2. This agreement is between the State and the City only. No person or entity may claim third party beneficiary status under this contract or any of its provisions, nor may any non-party sue for personal injuries or property damage under this contract.
- 3. This agreement is for the purpose of defining the authority and responsibility of both parties for maintenance and operation of State highways through the City. This agreement shall supplement any special agreements between the State and the City for the maintenance, operation, and/or construction of the State highways covered herein, and this agreement shall supersede any existing Municipal Maintenance Agreements.

- **4.** Traffic regulations, including speed limits, shall be established only after traffic and engineering studies have been completed by the State or City, as applicable and in accordance with 43 Tex. Admin. Code Ch. 25, Subch. B, and approved by the State.
- **5.** The State shall install, maintain, and operate, when required, all traffic signs and associated pavement markings necessary to regulate, warn, and guide traffic on State highways within the State right-of-way, including main lanes and frontage roads, except as otherwise provided in this paragraph and elsewhere in this Agreement.
  - A. At the intersections of off-system approaches to State highways, the City shall install and maintain (1) all stop signs, yield signs, and one-way signs to regulate, warn, and guide traffic on the off-system street, even if such signs are to be installed on State right-of-way, and (2) any necessary stop or yield bars and pedestrian crosswalks outside the main lanes or outside the frontage roads, if such exist. These signs and markings must meet or exceed the latest State breakaway standards, if applicable, and be in accordance with the latest edition/revision of the Texas Manual on Uniform Traffic Control Devices
  - **B.** The City shall install and maintain all street name signs except for those mounted on State-maintained traffic signal poles or arms or special advance street name signs on State right-of-way.
  - **C.** Any other signs or pavement markings desired by the City on State right-of-way shall require prior written authorization by the State, and shall be installed and maintained by the City.
  - D. All signs and markings installed by the City under this Paragraph must meet or exceed the latest State breakaway standards, if applicable, and be in accordance with the latest edition/revision of the Texas Manual on Uniform Traffic Control Devices. All existing signs or markings shall be upgraded on a maintenance replacement basis to meet these requirements.
- **6.** Traffic control devices such as signs, traffic signals, and pavement markings, with respect to type of device, points of installation, and necessity, shall be determined by traffic and engineering studies as provided by regulation in the Texas Administrative Code.
  - A. The City shall not install, maintain, or permit the installation of any type of traffic control device which will affect or influence the use of State highways unless approved in writing by the State. Traffic control devices installed prior to the date of this agreement are hereby made subject to the terms of this agreement and the City agrees to the removal of such devices which affect or influence the use of State highways unless their continued use is approved in writing by the State.
  - **B.** It is understood that basic approval for future installations of traffic control signals by the State or as a joint project with the City, shall be indicated by the

- proper City official's signature on the title sheet of the plans. Both parties should retain a copy of the signed title sheet or a letter signed by both parties acknowledging which signalized intersections are covered by this agreement. Any special requirements not covered within this agreement shall be covered under a separate agreement.
- **C.** This Agreement satisfies the agreement requirements of 43 Tex. Admin. Code § 25.5 concerning traffic signal installation, unless the parties determine a separate agreement is necessary to address project-specific issues that are not otherwise addressed by this Agreement.
- 7. Subject to approval by the State, any State highway lighting system may be installed by the City provided the City shall pay or otherwise provide for all cost of installation, maintenance, and operation, except in those installations specifically covered by separate agreements between the City and State.
  - **A.** For all highway lighting system projects, including those covered by separate agreements unless provided otherwise therein, (1) costs shall include the electricity required to construct and operate the lighting system, (2) the State shall not begin the trial phase of a newly installed lighting system until the applicable utility account is established by the City.
  - **B.** Attached as **Exhibit D** is a list of lighting installations subject to this Agreement, but which do not have a separate agreement. Exhibit D shall be updated as necessary pursuant to Article 1, Section 6.
- 8. The City shall enforce the State laws governing the movement of loads which exceed the legal limits for weight, length, height, or width as prescribed by Chapters 621, 622, and 623 of the Transportation Code for public highways inside corporate limits of cities. The City shall also, by ordinance/resolution and enforcement, prescribe and enforce lower weight limits when mutually agreed by the City and the State that such restrictions are needed to avoid damage to the highway and/or for traffic safety.
- 9. The City shall prevent future encroachments within the right-of-way of the State highways and assist in removal of any present encroachments when requested by the State except where specifically authorized by separate agreement; and prohibit the planting of trees or shrubbery or the creation or construction of any other obstruction within the right-of-way without prior approval in writing from the State. Permitted landscaping and public art installations shall be handled through separate agreements.
- 10. New construction of sidewalks, shared use pathways, curb ramps, or other accessibility-related items by either Party shall comply with current ADA standards. Except as otherwise provided in this paragraph, the City is responsible for the maintenance of these items, regardless of whether the City or the State constructed the item. Maintenance includes keeping sidewalks clear of debris and vegetation, but does not

include pavement work except as provided in the next sentence. If a Party's highway project is considered an "alteration" under the ADA that triggers the requirement to construct or upgrade accessibility-related items, that Party is responsible for the construction or upgrade, unless provided otherwise in a separate agreement.

- 11. If the City has a driveway permit process that has been submitted to and approved by the State, the City shall issue permits for access driveways on State highway routes and shall assure the grantee's conformance, for proper installation and maintenance of access driveway facilities, with either a Local Access Management Plan that the City has adopted by ordinance and submitted to the State or, if the City has not adopted by ordinance and submitted to the State a Local Access Management Plan, the State's Access Management Manual. If the City does not have an approved city-wide driveway permit process, the State shall issue access driveway permits on State highway routes in accordance with the City's Local Access Management Plan, adopted by city ordinance and submitted to the State or, if the City has not adopted by ordinance and submitted a Local Access Management Plan, the State's Access Management Manual.
- **12.** The use of unused right-of-way and areas beneath structures for public functions, such as parking, recreation, and law enforcement use, shall be determined by a separate agreement.

- **14.** The State shall be responsible for installation, repair, and maintenance of any roadside barriers including guardrail, guardrail end treatments, cable barriers, and concrete barriers needed for traffic safety on the state highway system.
- **15.** The State shall be responsible for any structural repairs needed at bridges, culverts, drainage pipes, embankments, and retaining walls on the state highway system.
- **16.** For purposes of this Agreement, "grade separation structure" is defined as any bridge, overpass, or similar structure that raises the roadway above ground level, regardless of what is underneath the structure.

#### ARTICLE III. NON-CONTROLLED ACCESS HIGHWAYS

The following specific conditions and responsibilities shall apply to the non-controlled access State highways described in Exhibit A, in addition to the General Conditions in Article II above.

#### 1. State's Responsibilities (Non-Controlled Access)

**A.** Maintain the traveled surface and foundation beneath such traveled surface necessary for the proper support of vehicular loads encountered, and maintain the shoulders.

Page 6 of 9

- **B.** Assist in mowing and litter pickup within the right of way to supplement City resources, when requested by the City and if State resources are available.
- **C.** Assist in sweeping and otherwise cleaning the traveled surface and shoulders to supplement City resources, when requested by the City and if State resources are available.
- **D.** Assist in snow and ice control to supplement City resources, when requested by the City and if State resources are available.
- **E.** Structural maintenance and repairs of drainage facilities within the limits of the right-of-way and State drainage easements. This does not relieve the City of its responsibility for drainage of the State highway facility outside of the right of way or State easements but within its corporate limits.
- **F.** In cities with less than 50,000 population, the State shall install and maintain school safety devices, school crosswalks, and crosswalks installed in conjunction with pedestrian signal heads. This does not include other pedestrian crosswalks.
- **G.** Install, operate, and maintain traffic signals in cities with less than 50,000 population.
- **H.** In cities equal to or greater than 50,000 population, the State may provide for installation of traffic signals when the installation is financed in whole or in part with federal-aid funds, if the City agrees to enter into an agreement setting forth the responsibilities of each party.

#### 2. City's Responsibilities (Non-Controlled Access)

- **A.** Prohibit angle parking, except upon written approval by the State after traffic and engineering studies have been conducted to determine if the State highway is of sufficient width to permit angle parking without interfering with the free and safe movement of traffic.
- **B.** Install and maintain all parking restriction signs, pedestrian crosswalks (except as provided in Art. II.5), parking stripes, and special guide signs when agreed to in writing by the State. Cities greater than or equal to 50,000 population shall also install, operate, and maintain all school safety devices and school crosswalks.
- **C.** Signing and marking of intersecting city streets with State highways shall be the full responsibility of the City (except as provided under Art. II.5).
- **D.** Require installations, repairs, removals or adjustments of publicly or privately owned utilities or services to be performed in accordance with Texas Department of Transportation specifications and subject to approval of the State in writing.

- E. Regular cleanups and litter control to ensure drainage facilities are clear. Further, State structural maintenance and repair of drainage facilities within the right-of-way does not relieve the City of its responsibility for drainage of the State highway facility outside of the right-of-way or State easements but within its corporate limits, except where participation by the State is specifically covered in a separate agreement between the City and the State.
- **F.** Install, maintain, and operate all traffic signals in cities equal to or greater than 50,000 population. Any variations shall be handled by a separate agreement.
- **G.** Perform mowing and litter pickup.
- **H.** Sweep and otherwise clean the pavement, including grade separation structures. This includes cleaning and removing litter, trash, discarded personal property, unauthorized temporary shelters, or any other unauthorized item from all areas within the right of way, including underneath a grade separation structure.
- I. Perform snow and ice control.
- **J.** Retain all functions and responsibilities for maintenance and operations which are not specifically described as the responsibility of the State.

#### ARTICLE IV. CONTROLLED ACCESS HIGHWAYS

The following specific conditions and responsibilities shall apply to the controlled access State highways described in Exhibit B, in addition to the General Conditions in Article II above.

#### 1. State's Responsibilities (Controlled Access)

- **A.** Maintain the traveled surface and foundations of the main lanes, ramps, and frontage necessary for the proper support of vehicular loads encountered.
- **B.** Mow and clean up litter within the outermost curbs of the frontage roads or the entire right-of-way width where no frontage roads exist. Assist in performing these operations between the right-of-way line and the outermost curb or crown line of the frontage roads on the City's request and if State resources are available.
- **C.** Sweep and otherwise clean the traveled surface and shoulders of the main lanes, ramps, grade separation structures, and frontage roads.
- **D.** Remove snow and control ice on the main lanes and ramps. Assist in these operations on the frontage roads and grade separation structures on the City's request and if State resources are available.

- (Rev. 02/24) Page 8 of 9
  - **E.** Install and maintain school safety devices, school crosswalks, and crosswalks installed in conjunction with pedestrian signal heads on frontage roads. This does not include other pedestrian crosswalks.
  - **F.** Install, operate and maintain traffic signals at ramps and frontage road intersections, unless covered by a separate agreement.
  - **G.** Structural maintenance and repair of drainage facilities within the limits of the right-of-way and State drainage easements. This does not relieve the City of its responsibility for drainage of the State highway facility outside of the right-of-way or State easement but within its corporate limits.

#### 2. City's Responsibilities (Controlled Access)

- A. Prohibit, by ordinance or resolution and through enforcement, all parking on frontage roads except when parallel parking on one side is approved by the State in writing. Prohibit all parking on main lanes and ramps and at such other places where such restriction is necessary for satisfactory operation of traffic, by passing and enforcing ordinances or resolution and taking other appropriate action in addition to full compliance with current laws on parking.
- **B.** When considered necessary and desirable by both the City and the State, the City shall pass and enforce an ordinance or resolution providing for one-way traffic on the frontage roads except as may be otherwise agreed to by separate agreements with the State.
- C. Secure the approval of the State before any utility installation, repair, removal or adjustment is undertaken, crossing over or under the highway facility or entering the right-of-way. In the event of an emergency, it being evident that immediate action is necessary for protection of the public and to minimize property damage and loss of investment, the City, without the necessity of approval by the State, may at its own responsibility and risk make necessary emergency utility repairs, notifying the State of this action as soon as practical.
- **D.** Pass necessary ordinances or resolutions and retain responsibility for enforcing the control of access to an expressway/freeway facility.
- **E.** Sweep and otherwise clean the pavement other than the traveled surface and shoulders, including underneath grade separation structures. This includes cleaning and removing litter, trash, discarded personal property, unauthorized temporary shelters, or any other unauthorized item.
- **F.** Mow and clean up litter between the right-of-way line and the outermost curb or crown line of the frontage roads, including drainage facilities in this area.

- **G.** Install and maintain all parking restriction signs, pedestrian crosswalks (except as provided by Art. II.5), and parking stripes when agreed to by the State in writing.
- **H.** Signing and marking of intersecting city streets to State highways shall be the full responsibility of the City (except as provided by Art. II.5).
- I. Retain all functions and responsibilities for maintenance and operations which are not specifically described as the responsibility of the State. State maintenance of drainage facilities within the right-of-way does not relieve the City of its responsibility for drainage of the State highway facility outside of the right-of-way but within its corporate limits except where participation by the State is specifically covered in a separate agreement between the City and the State.

#### ARTICLE V. TERMINATION

THE LOCAL GOVERNMENT

- 1. All obligations of the State to maintain and operate a State highway covered by this agreement shall terminate if and when such highway ceases to be designated as part of the State highway system.
- 2. Should either party fail to properly fulfill its obligations under this Agreement, the other party may terminate this agreement upon 30 days written notice.
- 3. Upon termination, all maintenance and operation duties on non-controlled access State highways shall revert to City responsibilities, except that the State shall retain all maintenance and operation responsibilities on controlled access State highways.

# Site Improvement Map

- 1. Please update the Site Analysis Table to the most recent one provided separately by email to the Town. This appears to be an older version. (See Markups)
  - 1st Review Response: None
  - 2<sup>nd</sup> Review: Site Analysis Updated to latest parking counts. Comment addressed.
- 2. Please confirm the count for EV Parking spaces. Should it be 16 EV Spaces? There are 4 proposed stations, with the understanding that a max of 4 hookups will/can be provided per the HYC 400 product detail/specifications. Are these additional hookups meant to be installed now or at later date? Either way, it would appear 16 EV spaces are being installed. Please clarify (See Markups)
  - 1<sup>st</sup> Review Response: Each charger is to provide EV charging to 2 designated EV charging stalls per the locations on the site plan. Confirmed count is 8 EV spaces
  - 2<sup>nd</sup> Review: Comment addressed.
- 3. Note: Net Parking Space reduction/loss will be 27 spaces (19 spaces if providing 16 EV spaces as noted in previous comment). Total spaces is under the 1,021 spaces required per Town Ordinances (Previous parking space requirements appear to have been waived/granted variance with original Addition improvements)
  - 1<sup>st</sup> Review Response: Net parking space reduction is 27 spaces.
  - 2<sup>nd</sup> Review: Comment addressed
- 4. Required parking count under the Proposed Column on Site Analysis Table should be the same as existing since store SF is unchanged, i.e. 1,021 spaces. Please update.
  - 2<sup>nd</sup> Review Response: Proposed parking count requirement updated to match existing parking count requirement of 1,021 spaces.
  - 3rd Review: Comment addressed

## Site Plan

- 1. Please confirm the relocated overhead light pole location will not impact the existing tree or tree root system. Looks very close to the trunk. (See Markups)
  - 1st Review Response: Hand trenching around the existing tree where the light pole is being located to avoid impact to root system.
  - 2<sup>nd</sup> Review: Comment addressed
- 2. Please confirm if any of the large EV spaces are intended to be ADA or Van Accessible spaces. Or just for larger/wider EVs? There is an ADA Parking Signage detail provided in the construction plans, so that is the reason for the comment. (See Markups)
  - 1<sup>st</sup> Review Response: The larger spaces are intended to be ADA EV charger stations with ADA signage and striping per details. This has been labeled and updated on the site plan.
  - 2<sup>nd</sup> Review: Comment addressed
- 3. Is the linework shown around the underground electric conduit/linework intended to be a proposed electric utility easement? Please verify and show on Modified Alta sheet as needed. (See Markups)
  - 1st Review Response: Yes, proposed electric easement has been labeled on sheet C3.0 Site Plan and on the modified ALTA
  - 2<sup>nd</sup> Review: Comment partially addressed. Easement shown/labeled on site plan, but not on ALTA.
  - 2<sup>nd</sup> Review Response: Modified ALTA is included in the sheet set to provide existing conditions of the site prior to developments related to the EV charging stalls. Since the easement is proposed and will go into effect during/after construction, the proposed electric utility easement is not to be shown on the ALTA.

3rd Review: Comment addressed

# **Tree Preservation and Landscape Plan**

1. Please show actual existing tree locations (per the included Legend) and corresponding protection fence circulating the trees since there will be pole relocations, signage and other improvements within these median areas currently outlined with protection fencing. (See Markups)

1<sup>st</sup> Review Response: Please see sheet 6500 for existing tree location tag number and improvements in the landscape islands.

2<sup>nd</sup> Review: Comment addressed

2. Please provide which tree # each of the trees are on the plan in order to better reflect the tree preservation chart in terms of their size and species. (See Markups)

1<sup>st</sup> Review Response: Please see sheet 6500 for existing tree location tag number and improvements in the landscape islands.

2<sup>nd</sup> Review: Comment addressed

3. Please confirm the intent of any proposed irrigation for the extended median on the west and the added median on the east. Existing irrigation is called to be protected and restored. (See Markups)

1<sup>st</sup> Review Response: Please see sheet 6600 "All proposed landscape shall be irrigated and connected to the existing irrigation system on site. Contractor to confirm all landscape has 100% coverage" Note.

RE: Bank OZK Monument Sign, 4400 FM 2181

The Town of Hickory Creek has reviewed the plan submitted for the proposed Bank OZK Monument sign with an electronic message center located at 4400 FM 2181 and has denied the request. The proposed sign includes a central panel designed to display moving text and images. Moving, flashing, intermittently lighted, changing color, beacons, revolving or similarly constructed signs shall not be allowed. Alternating electronic data control components showing time, temperature and similar data may be allowed."

Section 3.08.004 Exemptions (c) states "In order to determine the suitability of alternate materials and methods of construction and to provide for reasonable interpretation of the provisions of this article, the town council shall hear appeals with respect to any actions of the building official in the interpretation and enforcement of this article. Any such appeal shall be brought by written application filed by an interested party to the town council through the town secretary within ten days after the action of the building official which is the subject of the appeal. Enforcement of this article shall be stayed pending such appeal. In hearing such appeals, the town council shall review the determination of the building official and in so doing may consider whether or not the regulations and standards of this article will, by reason of exceptional circumstances or surroundings, constitute a practical difficulty or unnecessary hardship. Following review, the town council shall act on the subject of the appeal." If you wish to apply for a variance in accordance with this section, please provide a letter stating the reason for the variance to Hickory Creek's Town Secretary, Kristi Rogers. The variance request will be placed on the next available Town Council agenda. If there are any further questions, please contact me.

RE: Bank OZK 4400 FM 2181 Hickory Creek, TX 75065

To whom it may concern,

SignArt is the sign vendor for Bank OZK. We are working on the site listed above for the branch signage. We are requesting consideration for a variance to have an EMC (electronic message center) in the monument.

- I. We are requesting a variance for an EMC for the monument sign located at the address above. We have scouted the area and there is a location that currently has an EMC. That location is located 0.31 nautical miles from the bank. The business that currently has an EMC is Clean & Green Car Wash located at 3950 FM2181, Hickory Creek, TX 75065. We will comply to all regulations & be in compliance to have the EMC.
- 2. We are requesting permission to be granted for the variance for the EMC to also allow customers & potential customers to locate us clearly. As drivers approach the bank, the existing trees and buildings somewhat block the standard sign but would allow for a properly controlled EMC to be viewed.

We do have photos that support the above. We appreciate all the consideration given to this request.

Sincerely, Jill Campbell SignArt
