 Subject: Regarding Petition for Right of Way Juniper St/Jessop Ave
 To: manager@hildalecity.com <manager@hildalecity.com>

Dear City Council,

It has come to my attention that there has been a petition for the closure of the right-of-way on the corner of Juniper St and Jessop Ave.

I ask the city to not grant the petition. As a lifetime resident of the community and a resident of Juniper St for 7 years, this closure would greatly affect me and my neighborhood. This right-of-way accesses a trail into BLM land that has been a neighborhood favorite for walking, biking, and horseback riding. It is my favorite trail to run my dogs and access the wilderness area. With so much land becoming privatized and fenced off, this is one of the few trails left that is accessible to the public.

Closing this road would also disrupt the grid system that the town is built on, potentially causing the increase of turnaround traffic and the interference of deliveries.

I do not support the closure of the right-of-way on Juniper St and Jessop Ave.

Sincerely,

Jessica Chatwin

Council Member Musser Motions to close this Public Hearing.

Subject: Resolution 2023-06-002 Fraud Risk Assessment FY22

The Office of the Utah State Auditor oversees compliance with statutory requirements from Cities and Towns. One of the oversight responsibilities the State Auditor must fulfil is to guard against financial fraud or abuse by local government officials. As such, the State Auditor Office provides direction on how to prevent such occurrences. The Fraud Risk Assessment is a self-evaluation tool to help measure and reduce the risk of undetected fraud, abuse, and noncompliance.

The Assessment is submitted to the State Auditor each year. In April 2022 we submitted the FY21 Assessment to the State Auditor which indicated the city was in the Low-Risk category (320 of 395 points).

Resolution 2022-05-003 complies with the audit requirement for FY22 (ending June 30, 2022) and indicates the city was in the Low-Risk category (345 of 395 points).

Staff recommends approval of Resolution 2023-06-002.

Not a specific number.

Their portion of the hotel will be about \$500, any spending money, and then food for about five days.

I think their cost will be about \$1,500-\$1,700. We took care of their whole tickets (about \$700 each) and got them in shared rooms for less cost of hotels.

Whatever the city would be willing to help would be great. I love that they get the opportunities to go to these things, but understand that they are a large cost for families so we tried to do our part as well.

Thanks in advance!

We have two students that are attending the FBLA Conference as winning students from Utah that we were hoping the city would be willing to help with some funding for the trip. The school is paying their flights and helping with rooms, but they will still require some spending money, food, etc.

Please let me know if they could get on the agenda for this week as an option for any scholarship money.

Thank you!

Recommendation

Staff recommends approval of the zone change request as it remains consistent with Hildale City' General Plan. Additionally, it may accommodate the city's goal of increased density.

Sec 152-11-2 Zone Purposes

In addition to the general purposes of this chapter as set forth in section 152-1-3 of this chapter, the various zones each serve more specific purposes as set forth below:

Agricultural Zones:

Agricultural 40 (A-40)

Agricultural 20 (A-20)

Agricultural 10 (A-10)

Agricultural 5 (A-5)

Agricultural zones preserve and protect agricultural lands and related activities, permit activities normally and necessarily related to agricultural production, and prohibit land uses that may undermine continued agricultural activity.

Residential Agriculture Zones:

Residential-agricultural 1 (RA-1)

Residential-agricultural .5 (RA-.5)

Residential agriculture zones allow a mix of agricultural and residential uses on large lots. Limited agriculture activities, the keeping of limited numbers of animals, and the enjoyment of a "gentleman farmer" type neighborhood are the purpose of these zones.

- The purpose of the RA-1 and RA-.5 zones is to foster very low and low density development with little impact on its surroundings and municipal services; to preserve the character of the city's semi-rural areas; and to promote and preserve conditions favorable to large-lot family life, including the keeping of limited numbers of farm animals and fowl. The predominant use in these zones is intended to be large lot neighborhoods with detached single-family dwellings, protected from encroachment by commercial and industrial uses. Other major uses in these zones are small farms, hobby farms and agricultural developments. Ancillary uses include churches, schools, and parks to serve neighborhood areas.

Residential Zones:

Single-family residential 15 (R1-15)

Single-family residential 10 (R1-10)

Single-family residential 8 (R1-8)

Single-family residential 6 (R1-6)

Multiple-family residential 1 (RM-1)

Multiple-family residential 2 (RM-2)

Multiple-family residential 3 (RM-3)

Mobile home/RV park (MH/RV)

Residential zones allow a wide range of residential land uses at various densities. These zones protect the stability of neighborhoods and encourage, collectively, diverse types of desirable new residential development and protect existing residential uses.

- The purpose of the R1-15, R1-10, R1-8 and R1-6 zones is to permit development of detached single-family homes on individual lots at medium to high densities. Ancillary uses include churches, schools, and parks to serve neighborhood areas.
- The purpose of the RM-1, RM-2, and RM-3 zones is to permit well designed apartments, townhomes, twin homes, and condominiums at medium to high density that are appropriately buffered from and compatible with surrounding land uses. Ancillary uses include churches, schools, and parks to serve neighborhood areas.
- The purpose of the MH/RV zone is to provide locations where neighborhoods consisting of manufactured/mobile homes and recreational vehicle parks and subdivisions may be created, maintained, and preserved. Ancillary uses include churches, schools, and parks to serve neighborhood areas.

Commercial Zones:

Neighborhood commercial (NC)

General commercial (GC)

Highway commercial (HC)

Planned commercial (PC)

Pedestrian-oriented commercial (POC)

Mixed-Used (MU)

Commercial zones provide areas where a combination of business, commercial, entertainment, office, and related activities may be established, maintained and protected. Commercial zones are intended to provide a suitable environment for those commercial and service uses vital to the economic base of the city.

- The purpose of the NC zone is to provide areas where convenience buying outlets, having small trade areas, may be established to serve surrounding residential neighborhoods. This zone is intended to promote a combination of retail and service facilities that meet day to day needs of nearby residents and which are compatible in character and scale with adjacent development.
- The purpose of the GC zone is to accommodate a wide range of commercial uses developed without an overall plan or design scheme. Use of the GC zone for new commercial development should be avoided unless integrated shopping center development in another zone is not practical or desirable because of difficult size, shape, topography, or similar problems related to land otherwise deemed appropriate for commercial use. Typical uses in this zone may include offices, retail stores, personal services, heavy commercial, and institutional uses.

- The purpose of the HC zone is to provide commercial areas with visibility and access from SR-59 and major arterial roads for the convenience of commuters and the traveling public. Typical uses include lodging facilities, personal services, travel plazas, restaurants and fast food facilities, and commuter parking.
- The purpose of the PC zone is to provide areas where a combination of destination oriented business, retail commercial, entertainment, and related uses may be established, maintained and protected to serve both residents and nonresidents of the city. Typical uses in this zone include large scale, master planned commercial centers with outlying commercial pads, big box stores, offices, and various types of high density residential uses.
- The purpose of the POC zone is to provide walkable commercial areas which are generally oriented toward local residents rather than out of town patrons. Uses typical of this zone include planned retail and office development and limited medium to high density residential uses that can be harmoniously mixed with commercial development.

Business And Industrial Zones:

Business/manufacturing park (BMP)

Professional office (PO)

Light industrial (M-1)

Heavy industrial (M-2)

Business and industrial zones provide areas for conducting business, manufacturing and industrial activities.

- The purpose of the BMP zone is to provide aesthetically attractive planned developments having a mix of office, research and development, light manufacturing, and limited retail uses. Typical uses in this zone include offices, clean indoor manufacturing facilities, service retail, restaurants, athletic clubs, personal service shops, medical offices, office/warehouse buildings, and research facilities.
- The purpose of the PO zone is to provide locations primarily along arterial or major collector streets which will accommodate offices or laboratories for professional persons and other related uses. The zone is intended to provide availability of professional services conveniently to all neighborhoods in the city. Typical uses in this zone include offices for doctors, dentists, accountants, and other similar professions, medical and dental laboratories, and pharmacies.
- The purpose of the M-1 zone is to provide areas for uses involving processing and assembly of manufactured goods, warehousing, and material storage. Uses which generate excessive noise, vibration, odor, dust, and fumes are excluded from this zone.
- The purpose of the M-2 zone is to provide areas where uses involving industrial processes and natural resource extraction may be permitted without negatively impacting other areas of the city, especially when undertaken on a large scale.

Open Space And Public Facility Zones:

Open space (OS)
Public facilities (PF)

Open space and public facility zones allow public or quasi-public uses.

- The purpose of the OS zone is to recognize on the official zoning map areas which are open and generally undevelopable due to government ownership, their sensitive environmental nature and/or the unavailability of adequate public facilities, such as conservation areas and national park land.
- The purpose of the PF zone is to provide areas for facilities owned by public and quasi-public entities and which utilize relatively large areas of land. This zone is intended to provide immediate recognition of such areas on the official zoning map. Typical uses in this zone are cemeteries, hospitals, open air theaters, public parks, public schools, and public utility facilities.

Special Purpose And Overlay Zones:

Agriculture protection overlay (APO)
Historic district overlay (HDO)
Planned development overlay (PDO)
Sensitive lands overlay (SLO)
Runway protection (RPZ)
Recreation resort (RR)
Extraction industries overlay

Special purpose zones are intended to accomplish objectives unique to the particular zone. Overlay zones implement supplemental regulations that apply geographically, regardless of the underlying base zone. Whenever the regulations of a base zone and an overlay zone conflict, overlay zone regulations apply.

- The purpose of the APO zone is to protect and preserve existing agricultural areas from encroachment of development and to allow ongoing agricultural operations to continue without unreasonable regulations, except for those needed to protect public health and safety.
- The purpose of the HDO zone is to implement regulations designed to promote the preservation of structures and sites having historical, cultural, or architectural significance, and to foster economic development consistent with historic preservation plans adopted by the city.
- The purpose of the PDO zone is to permit a compatible, master planned mix of various uses in combination with open space components on land that has unique or unusual characteristics that warrant customized development requirements. Although development size may vary from location to location, each development is intended to

consist of well designed, architecturally integrated structures which are appropriately landscaped and buffered from surrounding land uses.

- The SLO zone provides regulations to protect sensitive land areas such as hillsides, floodplains, and river parkway areas.
- The RPZ zone provides regulations to promote and protect the Hildale City airport.
- The recreation resort zone is established to designate certain areas within the city of Hildale where it is desirable and beneficial to the area economy to allow for a mix of limited commercial, public, and residential uses. Specifically, to authorize recreation and resort developments in which residential dwelling units may be occupied by the owners thereof on a full or part time basis, to authorize the rental of residential units on an overnight or short term basis by owners who reside elsewhere; and to authorize limited commercial and public uses that are incidental to and compatible with resort developments.
- The general purpose of the extraction industries overlay zone is to provide for the operation of extraction industries in Hildale City, while regulating the operation of such industrial uses particularly on properties in close proximity to residential districts and to provide regulatory standards and procedures to ensure the reclamation of the extraction industry sites upon completion of the extraction processes.

HILDALE CITY FY24 BUDGET

Introduction

The city's annual budget is a comprehensive financial plan that outlines its revenue sources, expenditures, and capital projects for the upcoming fiscal year, which runs from July 1 to June 30.

The budget process typically starts with the city's finance department collecting revenue and expenditure data from various departments, analyzing it, and preparing a draft budget proposal. The city council then reviews and approves the proposal after taking input from the public and making any necessary changes. Once the budget is approved, it becomes the city's official financial plan for the fiscal year.

Hildale's annual budget includes various types of funds, such as the general fund, which covers the city's day-to-day operating expenses, and special revenue funds, which are used to finance specific programs and services. The budget also includes capital improvement funds, which are used to finance major construction or renovation projects, and debt service funds, which are used to pay off the city's outstanding debts.

Overall, the annual budget plays a crucial role in helping Hildale achieve its goals and objectives by ensuring that it has adequate financial resources to provide high-quality services and maintain a healthy financial position.

DRAFT

General Administrative Fund (Worksheet A)

A General Administration Fund is a type of fund that is typically established by local governments like Hildale City to support the administrative and managerial activities of the city government. This fund is used to finance the general operations of various departments within the city, such as the mayor's office, city council, finance department, human resources department, and legal department.

The General Administration Fund is a critical component of the city's budget as it supports the core administrative functions that enable the city to provide public services effectively. This fund covers expenses such as salaries, employee benefits, office supplies, equipment, training, and other administrative costs.

General Administrative Fund Highlights

- Operating an annual \$190,000 reserve transfer for FY 22 & 23
- Projected transfer of \$751,341 reserves for FY 24

Revenue

The revenue for the General Administration Fund in Hildale City comes from various sources, including:

1. **Property Taxes:** Hildale City collects property taxes from property owners within its boundaries. A portion of the property taxes collected goes towards funding the General Administration Fund.
2. **Sales Taxes:** Hildale City imposes a sales tax on goods and services sold within the city. A percentage of the sales tax revenue goes towards funding the General Administration Fund.
3. **Licenses and Fees:** Hildale City charges fees for various services such as building permits, business licenses, and other fees. The revenue generated from these fees goes towards funding the General Administration Fund.
4. **Intergovernmental Revenue:** Hildale City receives revenue from other levels of government, such as state and federal grants, which are used to finance various administrative activities.
5. **Miscellaneous Revenue:** Hildale City may also generate revenue from various sources such as interest on investments, rent on city-owned properties, and other miscellaneous sources. This revenue is also used to finance the General Administration Fund.

General Fund Revenue Highlights

- **Drop in General Sales Tax Revenue of 35% due to census recalculations.**

General Administration Fund Expenditures

Some of the specific activities that are funded through the General Administration Fund may include:

1. Executive and administrative support for the mayor, city council, and other city officials.
2. Oversight of the city's finances and financial reporting, including budgeting and accounting.
3. Human resources management, including employee recruitment, retention, and training.
4. Legal services, including advice and representation for the city in legal matters.
5. Communication and public relations, including media relations and public information.

General Fund Expenditure Highlights

- **Increases in Training and Education**
- **Expansion of Services Offered**
- **Increases in Public Safety Costs**
- **South Zion Estates Impact Fee Waiver**

Capital & Debt

The General Fund of Hildale City may include expenditures related to capital and debt, which are essential components of the city's financial management. Here are some descriptions of each:

1. **Capital Expenditures:** Capital expenditures refer to the investments made by Hildale City in assets that are expected to benefit the community over the long term, typically with a useful life of more than one year. Examples of capital expenditures for the city may include the purchase of new equipment, construction or renovation of buildings, or the acquisition of land for public use. These expenditures are generally funded through the city's capital improvement fund, which may be separate from the General Fund.
2. **Debt Service Expenditures:** Debt service expenditures refer to the payments made by Hildale City to service its outstanding debts, which may include bonds, loans, or other forms of borrowing. These payments typically include both principal and interest payments and are made over a specified period, known as the debt service period. The debt service expenditures for the city may be funded through a dedicated debt service fund, which may be separate from the General Fund.

Transfers to Other Funds

Transfers can be an important component of the General Fund expenditures for Hildale City, as they represent the movement of funds from one account to another within the city's overall budget. Here are some descriptions of transfers:

1. **Interfund Transfers:** Interfund transfers refer to the movement of funds between different funds within Hildale City's budget. For example, the city may transfer funds from the General Fund to the Capital Improvement Fund to finance a specific project. Alternatively, the city may transfer funds from the General Fund to a special revenue fund to support a particular program or

service. These transfers are typically used to balance the overall budget and ensure that the city has adequate resources to meet its various financial obligations.

2. **Intrafund Transfers:** Intrafund transfers refer to the movement of funds within a specific fund, such as the General Fund. For example, the city may transfer funds from one department within the General Fund to another department to cover a budget shortfall or to fund a new initiative. These transfers are used to allocate resources within the fund to ensure that each department has the resources necessary to provide high-quality services to residents.
3. **South Zion Estates Impact Fee Waiver:** With the potential construction of 25 lots for the South Zion Estates project, the cost of impact fees for those properties will be borne by the Hildale City General Fund. The cost combined of wastewater impact fees is estimated to be \$2,500 per lot and \$16,000 to \$22,000 per lot for water totaling the cost to: \$462,559 to \$612,000

Transfers to Other Funds Highlights

- **11-41-962: Transfers to Other Funds are funding given to Public Works, and Police**

General Departmental Funds

Department expenditures are an essential component of Hildale City's General Fund budget, as they represent the costs associated with providing various services to residents. Here are some descriptions of department expenditures:

1. **Public Safety:** Public safety is one of the most significant department expenditures for Hildale City's General Fund. This department includes the city's police and fire departments, which are responsible for maintaining public safety, responding to emergencies, and enforcing the law.
2. **Public Works:** The Public Works department is responsible for maintaining the city's infrastructure, including roads, bridges, parks, and public buildings. This department's expenditures may include the costs associated with maintenance, repairs, and upgrades to these assets.
3. **Community Development:** The Community Development department is responsible for promoting economic growth and development within the city. This department's expenditures may include the costs associated with planning and zoning, building inspections, and business development initiatives.
4. **Administrative Services:** The Administrative Services department is responsible for providing administrative support to the city's various departments. This department's expenditures may include the costs associated with payroll, human resources, finance, and information technology.
5. **Parks and Recreation:** The Parks and Recreation department is responsible for providing recreational opportunities for residents, including the maintenance of parks, sports fields, and other recreational facilities. This department's expenditures may include the costs associated with maintenance, repairs, and upgrades to these facilities.

These services are funded by taxes, fees and grants, and operate under the General Administration Fund.

Public Safety- Police & Dispatch

Hildale City funds its police and dispatch department in accordance with the Intergovernmental Agreement (IGA) with the Town of Colorado City who directly manages the police. Therefore, Hildale's funding method is through an intergovernmental transfer to Colorado City.

- Hildale City's Intergovernmental Transfer for Police Services: \$ 380,317.00 which represents 38% increase from FY 23
