4. In-depth discussion and topics

- A. Fiscal Year 2025 budget work session – general and stormwater funds
Budget Director Emily Bradford opened the work session.

English joined the meeting at 7:03 p.m.

The board discussed the draft budget proposal's funded and unfunded requests for the General Fund. There was discussion on cybersecurity and a proposal for an asset management system for the organization.

Hughes joined the meeting at 7:12 p.m. Discussion continued on both topics before moving on to other General Fund items. The board asked for more information on several items, including a proposal to contract for code enforcement services.

Members assessed funding requests from Exchange Club, Hillsborough Arts Council and Orange Congregations in Mission. They received information from representatives of the Arts Council and mission and discussed the town's nonprofit partnerships program. The board directed staff to include requested funding for the three organizations, with funding for the mission depending on the legality of the town providing funds to help with water assistance.

The board continued discussion on General Fund items. Members directed staff to:

- Delay decisions on affordable housing funding requests until further affordable housing discussions after the new fiscal year starts.
- Increase the shelter reservation fee for out-of-town residents at Gold Park to match the ratio of fees between in-town and out-of-town residents to reserve fields.

The board discussed a funding request from the Hillsborough/Orange County Chamber of Commerce that was received after the draft budget was presented in May. Members received information from the chamber's executive director and town staff. They directed staff to include a two-year public-private partnership with the chamber to establish a merchants association.

There were no questions regarding the Stormwater Fund proposals.

The board returned to the cybersecurity and asset management system discussion. Staff will provide more information at a later time on both.
