## Agenda Board of Commissioners Special Meeting

7:00 PM July 16, 2025 Board Meeting Room, Town Hall Annex, 105 E. Corbin St.

- 1. Opening of the special meeting
- 2. Agenda changes and approval
- 3. In-depth discussion and topics
- <u>A.</u> Appropriation of funds for emergency vehicle replacements and other costs associated with Tropical Storm Chantal, feedback from Board of Commissioners
- 4. Adjournment

Interpreter services or special sound equipment for compliance with the American with Disabilities Act is available on request. If you are disabled and need assistance with reasonable accommodations, call the Town Clerk's Office at 919-296-9443 a minimum of two business days in advance of the meeting.

101 E. Orange St., PO Box 429, Hillsborough, NC 27278 919-732-1270 | <u>www.hillsboroughnc.gov</u> | @HillsboroughGov

## Agenda Abstract BOARD OF COMMISSIONERS

Meeting Date:July 16, 2025Department:AdministrationAgenda Section:Regular AgendaPublic hearing:NoDate of public hearing:N/A

### PRESENTER/INFORMATION CONTACT

Eric Peterson, Town Manager Matt Efird, Assistant Town Manager Emily Bradford, Budget Director

### **ITEM TO BE CONSIDERED**

Subject: Appropriation of funds for emergency vehicle replacements and other costs associated with Tropical Storm Chantal, feedback from Board of Commissioners

### Attachments:

- 1. Budget Adjustments
- 2. Presentation
- 3. Fleet Replacement Pre-Mortem Exercise
- 4. Early Draft After-Action Report

### Summary:

In the overnight hours of Sunday, July 6, Tropical Storm Chantal dropped an estimated 10.5 inches of rain in Hillsborough and as much as 13 inches farther upstream in the Eno River watershed. This amount of rainfall, on par with previous serious events such as Hurricane Fran, occurred in a much shorter time period — leading to a rapid increase in the level of the Eno River, far exceeding the mapped 500-year floodplain. In addition to the other damages to town facilities, the Public Works facility was inundated, causing the total loss of nine vehicles. The estimated replacement cost for the lost vehicles is approximately \$2.3 million.

Category	<u>In</u> Service	<u>Out of</u> Service	<u>%</u> Operational
Solid Waste	2	2	50.0%
Dump Truck	1	3	25.0%
Leaf Truck	2	0	100.0%
Pickup Truck	3	2	60.0%
Brush Truck	0	2	0.0%
Bucket Truck	0	1	0.0%
Heavy Equipment	7	0	100.0%
Trailer	3	0	100.0%
Total	18	10	64.3%

Thankfully, two of the town's solid waste collection vehicles were stored off-site, as well as the leaf trucks and other smaller pieces of equipment. Durham County has loaned a brush truck through a mutual aid request, and

another has been rented out of Florida. Fleet Maintenance staff worked tirelessly in bringing several vehicles back into service, although there are risks that those vehicles will encounter failures before their planned replacement. These figures are specific to General Fund vehicles, as the current anticipated damage and replacement costs for Water and Sewer Fund vehicles are much smaller and can be managed through the normal budget process.

Due to the significant cost of these sudden and unplanned vehicle replacements, staff utilized the "pre-mortem" planning scenario to validate assumptions and risks and develop a strategy for moving forward with the fleet replacements. Details from that exercise are attached.

The planned replacements will occur over two years (fiscal years 2026 and 2027) and will utilize already budgeted or planned funding from both budget years, accumulated vehicle replacement funds and an appropriation of fund balance. The estimated impact to the town's fund balance, depending on the level of insurance recovery, is between \$108,000 and \$1.0 million. Any insurance proceeds or other external financial assistance received will be returned to fund balance.

In addition to the budget appropriation for vehicle replacements, staff has prepared an early draft After-Action Report for the event. While still being roughed out, staff is requesting early feedback from the town board on the town's experience during the response phase of the emergency event. A Think-Write-Share exercise and others may be used on Wednesday night to start the feedback process. This will allow a more detailed review to take place. The final results will be brought back to the board for additional feedback, questions and guidance.

### **Financial impacts:**

This action will reduce the available fund balance by approximately \$1.07 million in Fiscal Year 2026. An additional \$233,000 will be needed in Fiscal Year 2027 beyond what is currently planned for vehicle replacements.

#### Staff recommendation and comments:

Staff recommends approval of the proposed budget appropriation so that vehicles can be replaced in a timely manner.

#### **Action requested:**

Staff requests the town board discuss and advise on the fleet replacement plan and the initial After-Action Report.

# Tropical Storm Chantal Budget Needs and Initial Review

## Hillsborough Board of Commissioners Special Meeting July 16, 2025

# Topics

- Discussion of vehicle and equipment replacements
- Other planned recovery expenses
- Initial after-action review

• Vehicles under water at Public Works facility

- Left Floodwaters at railroad trestle at intersection of Eno Mountain and Dimmock's Mill roads
- Right Dock from Kings Highway Park floating down the Eno River

Section 3, Item A.

- Left Water damage and silt left behind in Public Works facility
- Right Flooding of Eno River to the top of River Pumping Station

Section 3, Item A.

• Images of flood and debris damage on Riverwalk trail

- Left Gold Park bee hotel carried down river and deposited under Riverwalk boardwalk
- Right Destruction of Hillsborough Community Garden

Section 3, Item A.

254 - Dump Truck		\$150,000	
440 - Bucket Truck	\$155,000		
403 - F-250	\$75,000		
227 - F-150	\$55,000		
Total Replacement Cost	\$1,684,000	\$550,000	\$2,234,000
PlusTTT	\$50,520	\$16,500	\$67,020
Plus Upfit	\$18,000	\$3,600	\$21,600
Plus Equipment	\$20,000		\$20,000
Total Funding Needed	\$1,772,520	\$570,100	\$2,342,620
Need - Budget Available	\$1,067,520	\$233,100	\$1,300,620
Potential Insurance Recovery	\$1,192,260	0	\$1,192,260
Best Case Fund Balance Impact	-\$124,740	\$233,100	\$108,360
Scenario - Partial Insurance Recovery	\$471,390	\$233,100	\$704,490
Scenario - Limited Insurance Recovery	\$769,455.00	\$233,100	\$1,002,555

# Budgetary Impact – Vehicle Replacements

Fiscal Year	Original Budget	Amended Budget
FY26 (Unaudited)	\$13,506,477 (74.2%)	\$12,438,957 (62.2%)
FY27 (Projected)	\$12,700,623 (68.3%)	\$11,400,003 (59.5%)
FY28 (Projected)	\$11,357,773 (59.2%)	\$10,057,153 (52.4%)

The chart shows the impact of the fund balance appropriation needed to secure vehicle and equipment replacements. Depending on the amount of insurance recovery, the amended budget projections could increase.

# **Other Planned Recovery Expenses**

Vehicle and equipment replacements are the most pressing need to restore services. Additional mid- and long-term recovery expenses that need to be planned for include:

- Mid-Term: Under 12 months
  - Temporary facility for Public Works operations while N.C. 86 facility under construction
  - Repairs to Gold Park and Riverwalk
  - Ongoing expenses for Wastewater Treatment Plant bypass pumps, repairs to River Pumping Station
  - Unexpected lingering flood damage facilities and equipment
- Long-Term: Over 12 months
  - Adron Thompson Water/Sewer Facility
  - Potential mitigation measures for vulnerable infrastructure

14

# **Initial After-Action Review**

- Staff has prepared a draft "Early After-Action Report" that includes background information on:
  - Event timeline
  - Storm impacts
  - Structure and operations of emergency response
- Staff plans to collect feedback from the board, Emergency Management Team, key
  operational staff, and public to complete the review, develop a summary of findings and
  gaps, and recommend next steps.
- At this time, the initial feedback from board members and what they have heard from the public is being solicited. Once the full report is complete, additional feedback opportunities and options for other planning scenarios will be provided.

# **Board Feedback Discussion**

Suggested topics for board feedback to facilitate discussion:

- Communications
- Preparedness
- Staff and organizational performance during response
- Long-term recovery plans and actions

## Tropical Storm Chantal Fleet/Equipment Replacement Strategy Pre-Mortem Exercise: July 14, 2025

Participants: Town Manager Eric Peterson, Assistant Town Manager Matt Efird, Administrative Services Director Jen Della Valle, Finance Director Dave McCole, Budget Director Emily Bradford, Public Works Manager Dustin Hill, Safety and Risk Manager Phil Cundiff, Utility System Superintendent Joel Lashley, Fleet Maintenance Supervisor David Wisely, and Administrative Intern Sheala James

### 1. Objective

**a.** Replace all flood-damaged vehicles and equipment for Public Works and Utilities to restore normal operations within six months.

### 2. Pre-Mortem Scenario

- **a.** It is now eight months post-Chantal. The replacement effort has far exceeded the initial cost estimate. The town's operations are under-equipped, and key services are lagging. What has gone wrong?
- **b.** What assumptions are most fragile? What is not being said? What would a journalist or outsider question?

### 3. Brainstorming

Possible Cause	Category	Likelihood	Impact	Notes
of Failure	(Procurement,	of Failure	of Failure	
	logistics, etc.)	(L/M/H)	(L/M/H)	
Equipment not available on cooperative contracts	Procurement	High	Medium	All planned purchases have co- op pricing
Insurance payout lower than expected	Finance	High	Medium	Part of Public Works facility was in floodplain, may limit insurance coverage

1

Additional unanticipated equipment failures	Logistics	High	High	Some equipment Fleet was able to place in service will likely have lingering water damage.
Rushed replacement = not preferred vehicles, less reliability	Logistics	Medium	High	Fleet has standardized pickups on Ford platform, Public Works normally upgrades brush truck bodies, etc.
Staff takes too long putting together a plan. Opportunities for quick replacements are lost	Procurement	High	High	Some vehicles are readily available, others have 6-12 months wait times.
Increased repair budget for equipment not being replaced	Operations	High	Medium	If replacement plan is too conservative, additional vehicles could fail without funding available for replacement.

## 4. Risk Themes

Theme	Specific Risks	Risk Rating (H/M/L)	Notes
Supply Chain	Delays on receiving	High	Regional impact of
	purchases		storm, tariff delays
Financial	Insurance shortfall	High	Outdated valuations,
			inadequate coverage,
			high retention
Regulatory	FEMA/NCEM	High	May not receive any
	Documentation		outside assistance.
	noncompliance		Documentation also
			necessary for insurance
			recovery.
Communications	Misalignment with	Medium	Confusion on timelines,
	public expectations		services

24

Operational	Staff shortages	High	Loss of Public
			Works/Utilities/Fleet
			staff could delay
			restoration of services

## 5. Mitigation Plans

Risk	Mitigation Strategy	Early Warnings	Owner
Equipment delays	Multiple quotes, accept trade-offs on vehicle type, act quickly, buy something for short term and resell as able to replace	Delivery dates beyond 90 days	Public Works Manager
Reimbursement eligibility	Engage OCEM, NCEM and insurance early to vet replacements and documentation	Unclear reimbursement guidance, missing or inadequate documentation	Safety and Risk Manager
Insurance shortfall	Ensure accurate appraisals, clarity on coverage	Payouts less than market value, limited flood coverage	Safety and Risk Manager
Financial shortfall	Look into lease- purchase, accelerate planned replacement schedule	Anticipated fund balance appropriation reduces available balance below acceptable threshold	Budget Director

## 6. Key Assumptions

Assumption	Risk if Invalid Mitigation		Notes	
Vehicles can be obtained within 6 months	Service gaps, cost overruns	Phased replacements, rentals, mutual aid	Critical vehicles to be prioritized	
Losses will be covered by insurance	Significant budget impact	Explore external funding/reimbursement (NCEM, FEMA)	Need to determine floodplain coverage restrictions	
Replacements should match/exceed losses	May miss out on available vehicles, costs may increase	Review "needs" vs wants, prioritize timing of replacements	Also exploring "buy then upgrade" strategy	

## 7. Action Items/Next Steps

Task	Owner	Due Date	Notes
Validate list of needed replacements	Fleet Supervisor	7/14/25	Completed
Review insurance coverage and potential cost recovery	Safety and Risk Manager	7/25/25	Insurance adjuster to visit this week (7/14- 7/18)
Review and update "wants" and "needs" for replacements	Public Works Manager, Utility System Superintendent	7/14/25	Completed
Produce budget options based on replacement priorities	Budget Director	7/16/25	Special board meeting scheduled
Evaluate saving utility beds and focusing on locating cab and chassis	Public Works/Fleet/Utilities	7/31/25	Could save \$12k + 1 month on each service bed truck needed

				Replacement	Insured	
<u>Asset #</u>	Year	Make/Model	<u>Class</u>	Cost	Value	<u>Status</u>
202	2022	Peterbilt New Way	Solid Waste	\$400,000	\$297,388

			Total	\$1,684,000	\$1,192,260	

## **Attachment 1: List of Vehicle/Equipment Replacement Needs**

\* Replacement costs do not include tax, tag title, upfit (lights and decals), or small equipment. Those numbers are included in the budget spreadsheet.

27

## Tropical Storm Chantal After Action Report (Early)

Draft Date: July 16, 2025

Version Note — This early draft version is limited in scope to providing background information to facilitate discussion by the Board of Commissioners and elicit feedback to incorporate in the final report. Sections 1-4 are included in this draft, while additional insights, refined damage assessments, and potential next steps will be more fully developed in the weeks ahead.

## 1. Event Timeline

- The first indication of the approach of Tropical Storm Chantal was an email from Orange County Emergency Management (OCEM) on Saturday, July 5 at 1306.
  - At that time, information from the National Weather Service (NWS) indicated that Orange County was not in the "cone of uncertainty" and OCEM would remain in "enhanced monitoring" posture.
- The 0600 July 6 NWS briefing shifted the track of the storm to include Orange County. OCEM sent out a briefing to local emergency management contacts at 0812 that day and set up a partner briefing for 1100.
  - Assistant Town Manager Matt Efird (Efird), in capacity as acting town manager due to travel by Town Manager Eric Peterson (Peterson), notified the Board of Commissioners at 0930.
  - Additional notices were sent by Efird to key operational staff in Public Works, Public Spaces and Utilities.
  - Police Major Andy Simmons (Simmons), in his typical role as emergency management coordinator, notified members of the town's Emergency Management Team (EMT), which includes Peterson, Efird, Simmons, Administrative Services Director Jen Della Valle (Della Valle), Communications Manager Catherine Wright (Wright) and Safety and Risk Manager Phil Cundiff (Cundiff).

- As Wright was out of town, Senior Communications Specialist Cheryl Sadgrove (Sadgrove) and Communications Specialist JC Leser-McMinn (Leser-McMinn) were added to the EMT for the event.
- At the OCEM 1100 partner update, the storm was forecasted to bring 1-3 inches of rain to the area and maximum winds of 20 mph.
  - This was included in the 1220 NWS weather briefing as well.
  - OCEM continued to operate in a "monitoring posture" with minimal Emergency Operations Center (EOC) staffing.
  - Town staff took a similar approach of monitoring but not activating an EOC.
- By 1800, the situation began to rapidly escalate.
  - Peterson returned to town and reassumed command as town manager.
     Efird continued to collect information from operating departments and provide updates to the board.
  - As of 1815, the intersection of Orange Grove and Churton roads was flooded, limiting access between Mayo Street and Orange Grove.
  - At that time, the Collins Ridge neighborhood was only accessible from the north.
  - Typical low spots around town, such as Eno Street and Gold Park, were inundated as well.
- By 2120, Churton was closed from U.S.70A to John Earl Street.
  - Collins Ridge remained accessible for fire and EMS but was closed to regular traffic.
  - Eno Street was closed at West Hill Avenue.
  - Churton Street was reduced to one lane at Tryon Street.
  - At this point, Hillsborough Police Department (HPD) officers were engaged in multiple road closures and limited response availability to crimes in progress.
  - Public Works (PW) on-call staff were also engaged in assisting with barricade placement and road closures.
  - At approximately 2130 a tree fell across U.S. 70A, closing the road at Tuscarora Drive.

- At this point, Utilities staff were reporting lift station alarms (water inundation) but no failures.
- EMT decided to call for closure of Gold Park and Riverwalk for the following day.
- Communications put out a news release regarding road and park closures.
- At approximately 2200, Interstate 85 closures and lane closures on Interstate 40 were reported due to flooding and standing water was reported on Queen Street.
  - Downtown was inaccessible from the south past John Earl Street.
  - Numerous side streets around town were starting to collect water.
  - Extra HPD personnel were called in to assist.
  - Utilities reported high water in wet wells around town exceeding Tropical Storm Debbie, with limited ability to respond in certain areas of town due to high water.
  - By 2215, Utilities operations were paused due to heavy rain, poor visibility and debris on roads.
  - At this point, Utilities advised that sanitary sewer overflows (SSOs) were likely to occur due to lift station failures and infill and infiltration (I&I) of floodwater in the sewer system.
  - HPD staff who were called in reported trouble accessing town due to flooding in the surrounding road network.
  - After securing the street around a downed tree at Margaret Lane and Wake Street, PW on-call staff left for home, leaving their personal vehicle at the yard.
  - No flooding was present at the yard as of about 2230.
- At the 2300 OCEM call, reports were coming in from the significant damage in Chapel Hill and Carrboro.
  - $\circ~$  OCEM was requesting support for additional swift water rescue teams.
  - OCEM started reporting Lake Orange water levels exceeding flood pool and enacted its emergency action plan.
  - The area around Lake Michael in Mebane was placed under a voluntary evacuation notice.
  - At 2330, the water level at the West Fork Eno Reservoir (WFER) was reported at 56 feet, a few feet over the spillway.

- The roads around the WFER began overtopping around Efland-Cedar Grove Road.
- At 0100 on Monday, July 7, Utilities reported that Lake Orange was within 2 feet of overtopping and the Level 2 Emergency Action Plan had been activated.
  - OCEM was reporting active rescues in the area around the lake.
  - Water levels remained significantly below emergency levels at WFER.
  - At 0116, OCEM notified Simmons that they were preparing evacuation notices in Hillsborough due to potential Lake Orange dam breach.
    - When notified, Efird conferred with Utilities Director Marie Strandwitz (Strandwitz) as their previous conversations had not exhibited such an elevated level of concern. It was determined that there was some miscommunication happening between Orange County engineering staff and OCEM, which had led to an overstated risk. This near miss evacuation notice was noted for after action review.
- By 0200, most street flooding was beginning to recede.
  - Churton Street was reopened, but Dimmocks Mill between Eno Street and Eno Mountain Road was flooded.
  - EMT staff ceased operations for the night as the rain was slowing and standing water levels were beginning to drop.
- At 0600, Efird began receiving calls from PW staff regarding flooding at the Public Works Yard at 711 Dimmocks Mill Road and standing water covering most vehicles.
  - OCEM sent out notices that county operations were paused and only essential employees were to report.
  - Efird contacted the EMT at 0623, with initial damage reports including over 20,000 power outages countywide, closures on Interstate 85, lane closures on Interstate 40, relocation of patients from the main UNC Hospital to the Hillsborough campus, closure at West Margaret Lane and Wake Street, initial reports of flooding of River Pumping Station (River PS) and raw water intake.
- As of 0645, the water plant was online and running.

- Staff in various departments were having trouble accessing town, particularly from Alamance County.
- It was determined at that time that there were enough solid waste vehicles stored offsite to run trash routes, which was important as the previous Friday had been the Independence Day holiday and Monday was scheduled for collection for both Friday and Monday routes.
- At 0700, Efird reached out to Leser-McMinn to put out a news release of closure of town facilities and non-essential operations.
  - Communications staff conferred and drafted a release by 0730.
- At 0730, it was first reported to EMT that the clear well at the Water Treatment Plant (WTP) had flooded and there needed to be a boil water notice issued.
  - Peterson assigned Della Valle to draft a State of Emergency proclamation, and Efird arrived at the Administration Building to establish the town's EOC.
  - The EOC was operational by 0800, and the initial EMT briefing was set for 0900, with an initial Situation Report (SitRep) to follow.
  - Dimmocks Mill Road was closed at Ben Johnston Road due to debris.
  - The floating dock from Kings Highway Park was observed floating down the river.
  - A beige Toyota Prius was washed into the river near this area. The driver was able to escape before the vehicle was swept away.
  - At 0815, initial reports came in about flooding in Eno Mill and the impact to The Expedition School, as well as a report of damage to the Churton Grove sewer aerial.
  - Due to the boil water notice, the emergency water supply for town staff was transported to the EOC for distribution to employees as needed.
  - Initial damage reports for Riverwalk and Gold Park were received.
- SitRep #1 was distributed to the EMT, board and key staff at 1036. Copies of the event SitReps are attached to this document and will be referenced, but the content is not repeated.
  - A schedule was established for EMT check-ins, OCEM partner calls and SitRep distribution.

- By 1100 the State of Emergency Declaration had been signed by the mayor and distributed to the Board of Commissioners.
- At 1200, the EMT had a check-in meeting and developed SitRep #2, which was distributed at approximately 1400. At this point, Budget Director Emily Bradford advised the EMT that emergency accounts had been set up to track emergency spending.
- By 1300, the water connection with the City of Durham had been activated and was being placed into service.
- A final check-in for Monday was scheduled at 1600, and SitRep #3 was distributed at about 1715. The summary of the day's reports was that priority efforts were being made to restore water and sewer services and that Fleet had made progress on getting some of the flood-damaged vehicles back in service.
  - $\circ~$  The next update was scheduled for 0900 on Tuesday, July 8.
- The EMT continued to meet periodically and publish SitReps throughout July 8 and 9. On July 9, an elevated risk of excessive rainfall shifted preparations in case of additional flooding. Initial concerns with OC Alerts and the content of news releases were brought to the EMT attention and noted for after action review.
  - Staff began planning for equipment replacement, a potential special board meeting and budgetary impacts.
- By Wednesday, July 9, staff was preparing to wind down emergency response operations and shift to recovery. A media availability event was planned for Friday, July 11. The EOC was officially closed at 1500 on Thursday, July 10, and initial review of the After Action Report began at that time.

## 2. Storm Impacts

- Town Facilities
  - Water Treatment Plant (WTP) clear well, pumps and raw water intake flooded, electrical system issues at plant and intake.
    - Boil water notice in effect from Monday, July 7 through Wednesday, July 9.
    - Emergency water interconnection with City of Durham activated to keep water supply intact.

- Wastewater Treatment Plant (WWTP) water inundation at filter building, flood damage to River PS. Flood and electrical damage at Elizabeth Brady Pumping Station.
  - Due to pumping station failures, continuous SSOs occurred from Monday, July 7 through Friday, July 11.
  - Voluntary water conservation requested until Saturday, July 12.
  - Plant is currently operating off rented bypass pumps. It will remain in this limited status for approximately 1-2 months until repairs can be made to River PS.
- Water and Sewer Distribution and Collection System Churton Grove aerial crossing damaged, requiring installation of bypass pump and full replacement.
- Public Works Facility Operations building and administration trailer flooded (total losses), various storage sheds and materials piles flooded.
   PW will need a temporary replacement facility while N.C. 86 replacement is under construction.
- Gold Park restrooms flooded to 6 feet deep, requiring remediation and full renovation. Playground base and sub-base destroyed and need replacement. Damage to various fences around the park, including river buffer, dog park, exterior privacy fences and backstop.
- Riverwalk damage to various boardwalks and bridges, significant tree debris on surface trails.
- Kings Highway Park floating dock missing (located down river), tree debris along trails.
- Town Assets
  - Public Works vehicles 10 vehicles totaled, including 2 solid waste vehicles, 3 dump trucks, 2 brush trucks, 2 pickup trucks and a bucket truck. Estimated replacement cost exceeds \$2.3 million. Several pieces of equipment are still being tested, and some of the equipment currently running is likely to experience failure before end of useful life due to water damage.

- A PW employee's personal vehicle was also destroyed in the flood, as they were using an on-call vehicle for the night.
- Public Works fixtures and equipment damages are still being evaluated, but initial estimates include total loss of all computers and technology stored in the Public Works operations building, numerous pieces of small engine equipment, uniforms, personal protective equipment, etc.
- Utilities vehicles and equipment damages are still be evaluated, but initial estimates include two vehicles (1 pickup, 1 dump truck) still being examined by Fleet Management, small equipment for welding, and various stored materials and supplies. Other equipment losses include two mobile digital message boards.
- Private Property Damage
  - Damage assessments are still actively underway. The properties listed here are known to town staff as of July 15.
  - Eno Mill Damage to Orange County Arts Commission, Expedition School, TrackX and other tenants of lower building.
  - 221 Murray St. Reported flood damage
  - 401 Dimmocks Mill Road Reported flood damage, total loss of mobile home
  - 121 Hayes St. Reported tree damage
  - 210 S. Cameron St. Flood damage to Orange Family Medical building
  - 306 W. Margaret Lane Reported flood damage
  - 331 Exchange Park Lane Flood and tree damage
  - 901 Eno St. Reported tree damage
  - 380 S. Churton St. Reported flood damage
  - 209 Burnside Drive Reported flood damage to 3 homes and 7 vehicles
  - 210 Collins Ave. Reported tree damage to home and vehicle

### 3. Structure and Operations of Emergency Response

- Once Emergency Operations status was initiated, the town's EMT assumed semiformal roles under the National Incident Management System (NIMS) Incident Command Structure (ICS).
- Peterson assumed the role of incident commander (IC), Efird as operations section chief (OPS), Simmons as OCEM representative and logistics section chief (LSC), Cundiff as safety officer (SO) and Sadgrove and Leser-McMinn as public information officers (PIO).
- An EOC was established in the Administration Building and physically staffed by IC and OPS, with virtual representation by the other ICS roles and additional EMT members.
- Due to the nature of this event, Strandwitz and Interim Police Chief Jason Winn were added to all EOC meetings.
- As is the town's practice in expanding events, the mayor assumed the role of liaison with the Board of Commissioners to streamline communications between the board and EOC.
  - This role was activated as of 1130 July 7, and the mayor was then included in several EOC updates to provide updates to the EMT from the board and community and to gather information to disseminate to the board and media.

### 4. List of After Action Review Items

- Pre-event
  - Public Works and Utilities vehicles and equipment were located in a known flood zone and no steps were taken to relocate during the event.
    - The magnitude of the rainfall and flooding was unanticipated, and when staff secured the facility at about 2230 there was no flooding present.
- During Response
  - Staff noted that there was not an established cadence for completing and refreshing Incident Action Plan (IAP) forms.
- EMT was following IAP format on briefings and SitReps but did not take time to utilize WebEOC forms. Additional training and experience with WebEOC is recommended.
- Staff did not fully utilize WebEOC, IAP, SitRep formats that were prepared in advance and were operating off the cuff during the event.
  - Focus future training on the forms and materials already available.
     Save and re-use formats that were helpful during this event. Appoint
    a specific staff resource with responsibility to manage
    documentation.
- OCEM was preparing to issue evacuation notices to residents in the Lake Orange inundation zone, which includes residences along the Eno River in Hillsborough. This was occurring at approximately 0100, while active flooding was limiting HPD availability and restricting travel. Staff was able to avert an unnecessary and confusing evacuation notice through multiple channels of communications, but this was a near miss.
  - OCEM and Orange County staff are completing their own after action review of this incident. For town staff, this reinforced the importance of communicating across departments and having a central resource collecting reports from across the operation so that a connection could be made in time to avoid a larger problem or waste of resources.
- During the event, calls and requests were coming in to staff regarding donations and volunteers, both from those looking to give and those in need. A plan and structured response are needed for future events.
  - OCEM has a donation management plan, but it was not active early in the event. Town staff needs to be familiar with this plan and possibly create a town-specific plan for smaller events. A specific staff resource should be assigned to manage the donation management plan if/when enacted.
- Budget and finance staff were not included in the EMT or EOC. Staff felt like they were in the dark on what was needed and/or how to assist operating departments. Operational staff reported that finance staff was nonresponsive during the early stages of the event.

 Include budget and finance staff in future EMT training and winter/summer kickoff events. Pre-plan for emergency purchase accounts. Publish procurement and transaction guidelines for operational staff in emergency events.

#### Post-event

- Current town code language regarding water conservation measures is specifically tied to water levels at the reservoir, potentially limiting options during other water-related emergencies.
  - While an emergency declaration allows for great flexibility, it may make sense to review and establish pre-staged water conservation responses similar to the City of Mebane. That way, during an emergency event, there is not the added pressure of determining which users are impacted, the severity of the conservation measures needed, etc.
- The EMT transitioned to an EOC on very short notice. Staff has been building emergency management capacity and getting familiar with ICS roles over the past few years, but further work is needed on building out a response structure for larger events.
  - Right now, limited staff are trained and capable to perform ICS roles. In the event that key staff are missing or impacted by a larger event, the town's response could be negatively impacted. Additional work needs to be done on identifying alternates for key roles and getting them trained and exposed to EOC conditions.
- When setting up the physical EOC, staff did not initially know how to properly utilize the A/V equipment. The structure of the response to this event also was totally dependent on power and internet.
  - All EOC staff need to be trained and familiar with the A/V equipment, technology and software necessary to function in an emergency response. A supply of mobile internet hotspots and satellite internet options needs to be secured for future events.
- What flood protection options are available to protect key assets such as the WTP, WWTP, River PS, Elizabeth Brady PS, smaller pumping stations,

water supplies, Adron Thompson Water/Sewer Facility and raw water intake?

- Staff to evaluate practicality and financial cost of flood mitigation options for key assets.
- Physical damage to private property was somewhat limited in scope to the areas around the Eno River. It took several days to accumulate information about what homes and businesses were impacted. In a larger event with wider-scale damage, the town is not currently prepared to manage damage assessments or track impacted properties.
  - Clarify the role of Orange County as the contracted building inspectors for the town. Evaluate resources available through the current code enforcement contractor. Look into other systems of tracking and noting damage to property in town – index cards, GIS, etc.
- During recovery phase, explore resources available to acquire flooddamaged (especially repeatedly damaged) properties in town.
  - Resources from the state or federal government may be available to purchase flood-prone properties to limit future losses and potentially restore some areas of the floodplain to a lower-impact environment.
- Planning and Engineering Services staff should review their operations and be prepared to respond to emergency repair issues through zoning compliance, building permits, utilities repairs, HDC approvals, etc.
- Communications
  - OC Alerts Information sent out on behalf of town did not receive all targeted audience since subscribers needs to specifically opt in to receive alerts regarding the town's utilities system. Complaints were received from residents.
    - Staff requested OC Alerts to override and send alerts to specific geographic areas regardless of opt-in.
  - Staff was requested to share information regarding Orange County Special Needs Registry

- When evaluated, it was determined that applications must be submitted by mail or in person. Staff will engage with Orange County after the event to determine if easier access to this service is available for residents.
- During this and most other emergency events, the WTP staff received numerous phone calls from the public as the facility is traditionally staffed 24 hours. Longer-term residents know the number and that the phone will be answered. Numerous calls limits staff ability to respond to urgent needs around the plant during an emergency.
  - Evaluate options to transfer the number to another staff member to handle during an emergency. Utilize an existing administrative resource within the organization to be available to take calls and respond as needed.
- Staff was asked about providing Spanish-language translation for OC alerts and town media releases
  - Alerts published by the town on the website will translate to the native language set on the user's phone/tablet/web browser.
     Facebook has the same capability.
  - OCEM is collecting language preferences from subscribers to provide alerts in their preferred language.
- Boil water notices There were issues residents and businesses misunderstanding what they should be doing. The small physical signs were limited in supply, and the digital message boards were damaged by flooding and unavailable for use.
  - Staff to work on graphics and language with clear guidance for boil water situations and to ensure the guidance is consistent with Orange County Health Department and surrounding utilities providers.
  - In this instance, the City of Mebane shared information that was different than the town, leading to additional confusion.
  - A supply of small signs needs to be ordered and stocked, and replacement or repair of the digital message boards is needed.

- Staff should evaluate ahead of time where to place the physical and digital signs in an emergency event.
- SitReps were prepared and published by OPS for the EMT and board. Some were shared further out to operational staff, but not all, leading to some confusion on what was going on in town.
  - In future events, after SitReps are published to the board and EMT, a specific staff resource should be tasked with sharing with additional staff. The EMT will need to determine the appropriate dissemination level – department heads, ops team, or all staff.
     Once established, this needs to be a consistent routine.
- Initial communications during event and response were done via text group. Not all commissioners received the messaging and there was confusion that could have been avoided.
  - Ensure that communications to board members go out via both text and email during emergency events so that the information is received by all board members.

#### 5. Survey Feedback

Version Note — Surveys are planned to collect feedback and recommendations from the groups listed below, but the information is not available for the "Early Draft" of July 16, 2025.

- Emergency Management Team
- Key Town Staff
- Mayor and Board of Commissioners
- Public Survey

#### 6. Summary of Findings and Gaps

Version Note — This summary will be drafted once initial feedback is received from the board at the special meeting and survey responses from Section 5 are available to be incorporated.

#### 7. Next Steps

Version Note — The planned next steps will be compiled for the full report draft to allow for complete damage assessments, gathering of feedback and analysis of findings and gaps.

## <u>Tropical Storm Chantel</u> <u>Situation Report #1</u> <u>0930 – 7/7/2025</u>

## • <u>Status</u>

- Water Treatment Plant
  - Clearwell flooded contractor working to get back in service
  - Raw Water Intake back in service
  - Boil Water Notice issued duration through at least Thursday
  - Durham water interconnect activated
- o Wastewater Treatment Plant
  - Power outages
  - Elizabeth Brady and River Pump stations flooded
  - Water consumption reduction requested
  - Churton Grove sewer aerial out of service
  - State notified of SSOs riverwalk, River PS, EB PS and water plant issues
- o PW Ops
  - Yard flooded
  - Trash collection operating Friday and Monday routes
  - Working on removing flooded vehicles
  - Coordinating with OC to potentially use their public works yard for storage.
  - Have fleet staff inspect damaged vehicles to see if anything is operational, what can be saved, and what may be totaled.

- Trying to rent one knuckleboom truck. May need more rentals, mutal aid, and/or contractor to assist with debris removal.
- UNC Hospital Hillsborough
  - Boil water notice staff in communication
  - Patients diverted to Hillsborough from Main UNC hospital overnight
- Roads/Access (as of early AM)
  - I-85 closed at Exit 157
  - I-40 lanes reduced at MM 266
  - 70a closed between Churton and 86
  - Trees blocking roads on King, Margaret @ Wake, Exchange Club
- <u>Needs</u>
  - State of Emergency Declaration
  - PW Brush trucks working on rental, evaluating mutual aid options
  - Water distribution (public) if needed TBD
  - Employee water distribution Admin Barn
  - Bypass pumps for WWTP
  - Water Interconnections Durham/OWASA
  - Site for flooded PW vehicles -assessment and repairs
  - Damage assessments town and private property

### Damage

- o <u>Town</u>
  - 14 PW vehicles
  - Gold Park restrooms

44

ii

- King's Highway Park floating dock
- Riverwalk east of gold park
- Prepare preliminary tally of damage that can be sent to League for insurance consideration.

#### o <u>Private</u>

Eno Mill/Expedition School

#### • Incident Roles

- Incident Commander Eric Peterson
- Operations Chief Matt Efird
- Safety Officer Phil Cundiff
- Public Information Officer(s) Cheryl Sadgrove, JC Leser-McMinn

#### • <u>Reporting Schedule</u>

- o 1100 Countywide Coordination Call
- o 1200 Town EM Check-in
- o 1230 Sitrep #2

# <u>Tropical Storm Chantel</u> <u>Situation Report #2</u> <u>1230 – 7/7/2025</u>

## • Orange County 11am Update

- 1 missing person, focusing on SAR operations 2 mutual aid teams in from out of county
- o 12% of County out of power
- 17 closed roads, 2 bridges out
- o Lake Orange community isolated
- o Shelter operations opening up
- o OC Community relations hosting 1230 media zoom call
- Eastgate shopping center in CH total loss, looting occurred overnight
- Carrboro PD lost all spare vehicles to flooding
- Bracing for more rain during the week
- UNC Hillsborough has bottled water and hand sanitizer, impacted by Town boil water notice
- Seymour Center sheltering evacuees from Chapel Hill, moving to stable shelter at Smith Middle
- Inquiries coming in about donations and volunteers OCEM has not activated donation management plan yet
- Carrboro Public works flooded, equipment lost
- OWASA has water main breaks and SSOs, blocked from some pump stations due to road flooding
- o 3700 911 calls between 10pm-midnight last night
- Next OCEM update 1100 7/8/25

Lake Orange: EAP Level 2 triggered at approximately 12:35am,
 Dam inspection performed this morning at 10am. Dam is secure.
 Transition from Level 2 to Level 3 EAP as of 10am this morning

#### • <u>Status</u>

- Water Treatment Plant
  - Both clearwells flooded contractor working to get back in service
  - Raw Water Intake back in service cleaning filters, filling ponds
  - High service pump station flooded draining and cleaning
  - Message boards being deployed to Churton/Mayo re boil water, refer to website
  - Boil Water Notice issued duration through at least Thursday
    - Comms to issue regular, frequent updates and messages for water notices
    - Notices published to website will auto-translate to user's language of choice
  - Work on deploying smaller boil water signs at key intersections – Churton, Fairview, W. Hillsborough, Gateway Village
  - Durham water interconnect active, bacteria sampling ongoing at tanks
  - 6 pallets of water available for distribution at WTP locations? \* resource request – supply and distribution \*
- Wastewater Treatment Plant
  - Power outages

47

ii

- Elizabeth Brady and River Pump stations flooded vendors en route for bypass pumping – arriving tomorrow
- Water in filter building and other parts of WWTP campus
- Water consumption reduction requested
- Churton Grove sewer aerial out of service contractor working on cost estimate for replacement
- Cannot access some aerials to evaluate, pump stations seem to be functioning, some still out of power
- 8.6" rain at WWTP
- No reported water main breaks
- State notified of SSOs riverwalk, River PS, EB PS and water plant issues – will need to work on press release and newspaper notices
- Reservoir in good shape
- o PW Ops
  - Yard flooded
  - Trash collection operating Friday and Monday routes
  - Working on removing flooded vehicles
    - Anticipate loss of 2 brush trucks and 2 garbage trucks
    - Towed small dump, 3 single axle dumps, new bucket truck, 2 pickups, tractor, excavator
  - Looking for alternate storage site for totaled vehicles.
  - Trying to rent one knuckleboom truck. May need more rentals, mutal aid, and/or contractor to assist with debris removal. Rental will not arrive until Friday. \* resource need
    - clam/brush trucks or contractor
- UNC Hospital Hillsborough

- Boil water notice staff in communication
- Patients diverted to Hillsborough from Main UNC hospital overnight
- Roads/Access (as of early AM)
  - 70a closed between Churton and 86
  - Trees blocking roads on Margaret @ Wake, Exchange Club
     @ Fairbault, Dimmocks Mill/Eno and Dimmocks Mill/Allison

### • <u>Needs</u>

- PW Brush trucks working on rental, evaluating mutual aid options
- Water distribution (public) if needed TBD ask for county assistance
- Employee water distribution Admin Barn (11 cases, 14 remain).
- o Employee MREs available at 86, 250 meals
- Bypass pumps for WWTP
- Larger pumps for WTP clearwells
- Site for flooded PW vehicles -assessment and repairs
- Damage assessments town and private property. League adjusters to be out later this week.

## • Damage

- o <u>Town</u>
  - 4 PW vehicles probable loss (2 brush trucks, 2 garbage trucks)
  - 7 vehicles, 2 pieces of equipment towed for repair
  - Gold Park restrooms
  - King's Highway Park floating dock

- Riverwalk several areas significantly damaged. Gold Park bridge washed away, Calvin St connection damaged.
- PW trailer and white building flooded
- Utilities green building at Dimmocks Mill
- Prepare preliminary tally of damage that can be sent to League for insurance consideration.
- o <u>Private</u>
  - Eno Mill/Expedition School
  - Chambleys (WFER) basement flooding

## • <u>Reporting Schedule</u>

- o 1615 EM Team Check-in
- o 1500 Sitrep #3

v

# <u>Tropical Storm Chantel</u> <u>Situation Report #3</u> <u>1700 – 7/7/2025</u>

#### • Dashboard

<u>Status</u>	<u>Notes</u>
	Boil Water Notice thru at least
	Thursday 7/10. Pumps en route,
	bacteria testing underway.
	OC Water Distrubution at DSS
	Tuesday 8-12p, 4-8p
	River and EB Pump Stations
	flooded, awaiting bypass pumps.
	Churton Grove aerial out, awaiting
	inspection of others. 5 homes out
	of service at edge of system out
	Dimmock's Mill.
	Around 700 Duke outages (West of
-	Churton, Between 85 and 70)
	Resource needs met
	PW response limited due to lack of
	trucks/equipment. Trash running as
	normal.
	Significant damage. Long term
	recovery.

Gold Park	Significant damage. Long term recovery. Assessing options for restricting access.
Roads	Closures at Exchange/Fairbault, Margaret/Wake, 70a 86-Churton, Dimmocks Mill/Gold Park, Dimmocks Mill/Ben Johnson.

### • <u>Status</u>

- o Utilities
  - Staffing and equipment ok, vendors responding for resource needs. Overnight staff at WTP, other staff headed home until tomorrow.
- o HPD
  - Staffing and equipment ok. Normal staffing overnight (3 full, 1 swing).
- o PW
  - Staffing ok, equipment not good. Shutting down for tonight, normal operations tomorrow.
- o Admin
  - 2 staff on leave, all others ok. Cheryl and JC in office tomorrow. Cheryl on-call overnight. Phil providing COIs as needed for vendors.
- o Townwide
  - EOC operations Tuesday same as today
  - Status of facilities Tuesday open as staff is able to arrive safely

ii

#### • <u>Needs</u>

- PW Brush trucks working on rental, evaluating mutual aid options – EOC resource requested
- Bypass pumps for WWTP eta 7/8/25
- $\circ$  WTP pumps for en route, operational by end of today (7/7)
- Chlorination for Durham water to meet Town threshold
- Damage assessments town and private property. League adjusters to be out later this week.
- Programmable message boards not working. Limited supply of current Boil Water signs. What we have was placed at key neighborhoods and intersections.
- News of Orange publishing Emergency Declaration this week

#### • Coordination Issues

- Finance availability AAR
- Employee vehicle totaled Phil working on claim
- FY26 trash truck purchase move ahead?
- Messaging boil water notices, stay out of Gold Park and Riverwalk.

#### • <u>Reporting Schedule tomorrow 7/8</u>

- o 0900 EMT check-in
- **1000 Sitrep #4**

# Tropical Storm Chantel Situation Report #4 1000 – 7/8/2025

#### • Dashboard

Facility/Asset	<u>Status</u>	Notes
Water Treatment Plant		Boil Water Notice thru at least Thursday 7/10. Pumps have cleared both clearwells, southern corrosion expected by noon to start work on restoring clearwell. Early bacteria samples promising. Water at plant receding.
Wastewater Treatment Plant		Pumps en route, plan in place for bypass pumping. Water receding at plant. Overall plant and equipment is OK with only minor flooding. River PS down. Elizabeth Brady PS longer submerged, running on trailer mounted generator – permanent generator being evaluated due to flooding. Evaluating pump condition.
W/S Distribution/Transmission Lines		Churton Grove aerial out – <mark>bypass</mark> pump installed and in service, awaiting inspection of others. 5

	homes out of service at edge of system out Dimmock's Mill.
Power	Duke reporting no outages in town. PEMC reporting no outages.
Staffing	Resource needs met
Equipment	Fleet has excavators running. Trash running as normal.
Riverwalk	Significant damage. Long term recovery. <mark>Bridges intact but</mark> boardwalks not. Sewage <mark>everywhere.</mark>
Gold Park	Significant damage. Long term recovery. Assessing options for restricting access. Trees blocking trails, evaluation incomplete.
Roads	Fairbault open 1 lane, Margaret/Wake – Duke done working - tree crew en route, 70a Tuscarora-Churton, Dimmocks Mill/Ben Johnson.

#### • <u>Status</u>

- $\circ$  Utilities
  - SSOs along riverwalk. Working towards easement clearing. All staff working, equipment ok.

 $\circ$  HPD

- Staffing equipment ok, normal staffing levels. Social worker checking on unhoused population.
- o PW
  - Crews working on culverts in anticipation of more rain. Fleet got 2 excavators working. Will clear Faribault and Exchange this morning. Crews working out of Hwy 86 facility for now.
- $\circ$  Admin
  - Ask OC to issue another OC alert re: boil water notice, water conservation needs. News of Orange SSO release deadline today noon. Working on preparing "all clear" notices for water for anticipated Thursday release.
- o Townwide
  - Normal operations where possible.

#### <u>Needs</u>

- <u>\*Stephanie needs assistance with construction fencing at trail</u>
   <u>entrances people are going through caution tape.</u>
- <u>\*</u>Need rough numbers on damage assessments vehicles, equipment, assets, facilities, include private property.
- PW Brush trucks working on rental, evaluating mutual aid options – EOC resource requested – Durham, Guilford options
- Bypass pumps for WWTP expected today
- Chlorination for Durham water to meet Town threshold.
- Damage assessments town and private property. League adjusters to be out later this week.
  - 200-300 block of W. Margaret flooded homes Shannan to request via contract w. inspections

- Programmable message boards not working. Limited supply of current Boil Water signs. What we have was placed at key neighborhoods and intersections.
- Mid-term need to locate PW site for next ~12 months

#### • Coordination Issues

- Employee vehicle totaled Phil working on claim
- FY26 trash truck purchase move ahead?
- Direct mass donations/distribution to OC
- Messaging report downed trees, missing manhole covers, SSOs.
   Progress being made on service restoration.

#### <u>Reporting Schedule</u>

- o 1600 EMT check-in
- o 1700 Sitrep #4

#### <u>Coordination Issues</u>

- Employee vehicle totaled Phil working on claim
- FY26 trash truck purchase move ahead?
- Messaging report downed trees, missing manhole covers, SSOs.
   Progress being made on service restoration.
- Expedition School term scheduled for 7/31 ~400 students
- o Orange County Arts Commission status of Uproar?

### • Reporting Schedule for tomorrow 7/9

- o 0900 EMT check-in
- 1000 Sitrep #6

# <u>Tropical Storm Chantal</u> <u>Situation Report #6</u> <u>1000 – 7/9/2025</u>

#### • Dashboard

Facility/Asset	<u>Status</u>	Notes
Water Treatment Plant		Boil Water Notice still in effect. Current bacteria sampling good, State will allow local determination of boil water notice. Planning for this afternoon. Durham water still flowing, treatment plant will still be out of service so conservation still needed due to supply constraints. If consumption overwhelms Durham supply, Boil Water will have to be restored. Large clearwell santizied, other work ongoing. WTP may be online this weekend.
Wastewater Treatment Plant		Pump contractor to set up today, will take several days to place in service. Plant surged over 7MGD. Official outage was 0413 Monday 7/7. Updating SSO numbers for required public notice. Continue to urge conservation. Working on cleanup of filter building.

W/S Distribution/Transmission Lines	Churton Grove aerial out – bypass pump installed and in service, awaiting inspection of others. 5 homes out of service at edge of system out Dimmock's Mill – replacement underway.
Power	Duke reporting no outages in town. PEMC reporting no outages.
Staffing	Resource needs met
Equipment	Uncovered additional damage to Utilities vehicles/equipment. PW has 7 vehicles out of service, 5 being evaluated by fleet. 16 in service. Durham County brush truck in service today. 2 utilities vehicles and misc. equipment being evaluated for damge.
Riverwalk	Significant damage. Long term recovery. <mark>Structural engineers</mark> evaluating boardwalks and bridges today. Lots of trees down on trails.
Gold Park	Significant damage. Long term recovery. Planning next steps on remediation and cleaning.
Kings Highway Park	Needs to remain closed until further notice. Lots of downed trees on trails.

ii

Roads	Margaret/Waketree crew working
	<mark>– should reopen today</mark> .

#### • <u>Status</u>

- o Utilities
  - Prepping staff for additional rain, alert for this evening.
- o HPD
  - Staff briefed on potential for more rain, preparing plan for staffing needs. Staffing water distribution at DSS today.
     Social worker continuing to check in with vulnerable population.
- o PW
  - Preparing staffing plan for overnight. Need to stage barricades at anticipated high water areas. PW to determine locations. Stormwater team evaluating community stormwater control measures (SCMs) and following up on residential drainage complaints.
- o Admin
  - Check on documentation status (IAP, 214s, etc.) Evening water distribution likely cancelled due to expected rain.
     Adding resources to ReadyHillsborough page as needed.
- $\circ$  Townwide
  - Normal operations
  - Will plan at next meeting for EOC staffing
- <u>Needs</u>
  - o Internet out at WTP, status of Adron Thompson?

- Equipment Replacement Plan end of week will set meeting with EMT, Budget, Fleet, prep for special board meeting if needed
- Jen to coordinate meeting with budget/finance/risk on documentation and accounting for emergency purchases
- Gold Park Bathrooms remediation contractor \$14k ok but wait for insurance adjuster
- Gold Park parking lot clearing \$5k Get it done when capacity available.
- PW Brush trucks Durham County truck in service, rental ETA Thursday
- PW laptops, tablets, printers damaged in flooding working on replacements
- Bypass pumps for WWTP expected today
- Damage assessments town and private property. League adjusters to be out later this week.
  - 200-300 block of W. Margaret flooded homes OC Inspections working on this
- Programmable message boards not working.
- Mid-term need to locate PW site for next ~12 months
- Phil working on getting personal flotation devices for utilities and HPD

## <u>Coordination Issues</u>

- Planning ahead for weekend staffing
- Employee vehicle totaled Phil working on claim
- o FY26 trash truck purchase move ahead?
- Messaging prepare for additional flooding in low-lying or recent impacted areas? Water conservation still needed!!!

- Expedition School term scheduled for 7/31 ~400 students
- Orange County Arts Commission status of Uproar?

## • <u>Reporting Schedule</u>

- o 1300 EMT check-in
- 1400 Sitrep #7

# Tropical Storm Chantal Situation Report #7 1000 – 7/10/2025

#### • Dashboard

Facility/Asset	<u>Status</u>	<u>Notes</u>
Water Treatment Plant		Boil water notice lifted 7/9. Clearwell is filling, 48 hours out from completion of required bacteria testing. Electrical repairs underway at plant and raw water station. No tank or pump alarms, storage tanks are full.
Wastewater Treatment Plant		Bypass pumps arrived yesterday, installation underway. Pumps should be in place by tomorrow. 1.2" rain overnight. Getting quotes for replacement pumps at River PS. May take 1-2 months to get River back in service. EB PS and plant up and running.
W/S Distribution/Transmission Lines		Churton Grove aerial out – bypass pump installed and in service – permanent repairs planned. Dimmock's Mill break repaired, awaiting bacteria samples to place in service. Main breaks near Orange

Power	HS (repaired) and Churton south of Orange (under repair). Preparing information on SSOs. Duke reporting no outages in town. PEMC reporting no outages.
Staffing	Resource needs met
Equipment	PW has 8 vehicles out of service, 2 utilities vehicles damaged, 2 mobile message boards, PW small electronics. Durham Co. truck in service, rental has arrived. Guiliford Co. resource available to replace Durham next week.
Riverwalk	Significant damage. Long term recovery. PW clearing low boardwalks for damage assessment. Friends of MST to assist next week. Structural assessments to be completed by Friday.
Gold Park	Significant damage. Long term recovery. Restroom remediation underway.
Kings Highway Park	Needs to remain closed until further notice. Lots of downed trees on trails.

ii

Wake between King and Margaret
<mark>closed – all else open</mark> . <mark>Should be</mark>
<mark>open today.</mark>

#### • <u>Status</u>

- Utilities
  - Repairing Churton main break, working on Churton Grove aerial. Staff helping PW clear Riverwalk.

#### o HPD

- Normal staffing and operations.
- o PW
  - No issues reported overnight. Short staffed today, trash pickup only. Stormwater team evaluating community stormwater control measures (SCMs) and following up on residential drainage complaints.

### $\circ$ Admin

- New payroll system this week check on ability to process.
   Continue daily OC alerts on water conservation. Working on logistics for media availability. High engagement rate on photo posts. Planning for weekend/early next week on WTP and WWTP restorations.
- OC opened Recovery Assistance Center at Drakeford Library in Carrboro.
- o Townwide
  - Normal operations
  - AAR, mid- and long-term needs to be distributed today
  - EOC Status winding down to monitoring status. Virtual EOC and scheduled updates will continue.

- Planning for potential special meeting with Board for budget appropriations, preliminary feedback on event response
- Mayor getting questions re: BRIC funding, comparison to Mebane situation, impacts to businesses.

### <u>Needs</u>

- Equipment Replacement Plan meeting set for Monday 7/14
- Jen to coordinate meeting with budget/finance/risk on documentation and accounting for emergency purchases
- Gold Park parking lot clearing \$5k Get it done when capacity available.
- Gold Park fencing contractors working on estimates for repairs/replacements of perimeter, backstop and dog park.
- Gold Park working to find contractor to replace playground surfacing and drainage.
- Riverwalk carpenters working on estimates for bridge/boardwalk repairs – waiting on damage assessments and structural eval.
- PW Brush trucks Durham County truck in service, rental truck has arrived
- PW laptops, tablets, printers damaged in flooding working on replacements
- Bypass pumps for WWTP expected today
- Damage assessments town and private property. League adjusters to be out later this week.
  - 200-300 block of W. Margaret flooded homes OC Inspections working on this
  - 211 Murray St reported damage

- Programmable message boards not working.
- Mid-term need to locate PW site for next ~12 months

#### • Coordination Issues

- Employee vehicle totaled Phil working on claim
- Messaging –Water conservation still needed!!! Updates on brush collection and bulk item pickup for next week. Gold Park, Riverwalk, Kings Highway still closed please stay out. Direct donations to OC ReadyOC. Not accepting any reservations for Gold Park, Riverwalk, or special events.
- Expedition School term rescheduled to 8/25 working on alternate locations - ~400 students
- Orange County Arts Commission still discussing Uproar and our limited ability to assist.

### <u>Reporting Schedule</u>

- o 1400 email updates for afternoon sitrep and media release
- Media Availability planned for 1300, Friday July 11

# Tropical Storm Chantal Situation Report #8 1400 – 7/10/2025

#### • Dashboard

Facility/Asset	<u>Status</u>	Notes
Water Treatment Plant		Awaiting filling of clearwell and
		bacteria test results. Anticipated
		restoration by Monday 7/14.
Wastewater Treatment		Bypass pump installation
Plant		underway. This will slow sewage
		discharge to Eno River but full
		restoration of River Pump Station is
		<mark>1-2 months out.</mark>
W/S		Churton Grove aerial out – bypass
Distribution/Transmission		pump installed and in service –
Lines		permanent repairs planned.
		Preparing information on SSOs.
