5. **TIME FOR COMPLETION AND EXTENSION OF TIME.** All of the said improvements shall be fully installed and completed within two (2) years from the date of this agreement. If not completed within two (2) years, the Developer may apply to the Planning Commission and the City Council for an extension of time of one year with additional one-year extensions after the first extension if the Planning Commission and City Council agree. Said extensions shall be subject to adequate security for the completion of said improvements being made by increasing the amount of the escrow account.

6. **SECURITY FOR COMPLIANCE.** As security for compliance by Developer with the ordinance, rules, regulations, requirements and standards of the City and

of Developer's agreements herein stated, Developer has delivered to the City an acceptable third-party escrow agreement, approved by the City, by the terms of which an acceptable third-party agrees to hold \$68,195.65, (which represents 10% of the cost of all required improvements as determined by the City Engineer) in escrow for the use of the City in the event of Developer's failure or refusal to install, complete, construct, repair, or replace any off-site improvements in accordance with the provisions of this agreement, the escrow agreement and all City codes and ordinances as described below. The decision of the City as to whether an improvement needs to be installed, constructed, completed, or replaced will be final.

Should Developer fail or refuse to complete the said improvements in accordance with the provisions hereof, and particularly within the time stated, or should Developer become insolvent before a completion thereof, then the City may, at its option, utilize the escrow funds to place the development in a condition that will be safe and not present a hazard to the community or become an eyesore to the neighboring property owners.

When all required improvements are completed, the 10% shall constitute a guarantee that the above outlined off-site improvements are installed in accordance with the subdivision standards of the City as to quality and serviceability and shall be held by the City for a period of one (1) year from the time the last improvement is "initially accepted" by the City or until one (1) year after the time the last improvement needing repair or placement is again accepted. At the end of the one year period the said 10% shall be returned to Developer provided the improvements have proved to have been constructed or installed in accordance with the standards of the City as to quality and serviceability, otherwise, to be applied toward construction or installation of said improvements in accordance with City standards or the repair or replacing the same so as to bring them into conformity with City standards. Developer will pay the difference to the City on demand. The City shall not issue any building permits until the improvements needing repair, replacement, etc., are completed and again accepted.

- 7. OPTIONAL ESCROW PROVISIONS.** Developer may request to have the Final Mylar signed and recorded prior to all landscaping and infrastructure improvements being completed and accepted by Hooper City. If such a request is made, as security for compliance by Developer with the ordinance, rules, regulations, requirements and standards of the City and of Developer's agreements herein stated, Developer will deliver to the City an acceptable third-party escrow agreement, approved by the City, the terms of which provide that an acceptable third-party agrees to hold the escrow amounts as shown on Exhibit A to the escrow agreement (which represents the cost of all still to be completed improvements as determined by the City Engineer). These funds will be held in escrow for the use of the City in the event of Developer's failure or refusal to install, complete, construct, repair, or replace any improvements in accordance

with the provisions of this agreement, the escrow agreement and all City codes and ordinances. The decision of the City as to whether an improvement needs to be installed, constructed, completed, or replaced will be final. City will determine which of the requirements set forth in paragraph 3 must be completed prior to a building permit being issued in the subdivision and which must be completed before a certificate of occupancy is issued for any building in the subdivision.

Should Developer fail or refuse to complete the said off-site improvements in accordance with the provisions hereof, and particularly within the time stated, or should Developer become insolvent before a completion thereof, then the City may, at its option, determine the cost of completing said off-site improvements on the basis of reliable estimates and bids and may apply all sums deposited in escrow against the said cost of completion and may proceed to legally obtain the escrow funds and use the proceeds there from to pay the cost of completing the said off-site improvements and to pay all related expenses including but not limited to court costs and attorney's fees.

When all required improvements are completed, City will authorize the release of all escrowed funds of the developer except a 10% retention amount. The 10% shall constitute a guarantee that the above outlined off-site improvements are installed in accordance with the subdivision standards of the City as to quality and serviceability and shall be held by the City for a period of one (1) year from the time the last improvement is "initially accepted" by the City or until one (1) year after the time the last improvement needing repair or placement is again accepted. At the end of the one year period the said 10% shall be returned to Developer provided the improvements have proved to have been constructed or installed in accordance with the standards of the City as to quality and serviceability, otherwise, to be applied toward construction or installation of said improvements in accordance with City standards or the repair or replacing the same so as to bring them into conformity with City standards. Developer will pay the difference to the City on demand. The City shall not issue any building permits until the improvements needing repair, replacement, etc., are completed and again accepted.

8. **CITY'S OBLIGATIONS.** Subject to Developer complying with all the City's Laws and the provisions of this Agreement, the City agrees to maintain the public improvements dedicated to the City following satisfactory completion thereof and acceptance of the same by the City and to provide standard municipal services to the Project including, but not limited to, police and fire protection subject to the payment of all fees and charges charged or levied therefore by the City.
9. **LICENSES AND PERMITS.** Developer shall have secured (or cause to be secured) any and all permits which may be required by the City or any other governmental agency affected by the construction of the Improvements. The Developer shall be responsible for paying all applicable fees and charges to Improvements and which shall be a reimbursable expense.

- 10. MAINTENANCE OF FACILITIES AND WARRANTIES.** Developer shall maintain the public improvements in good and safe condition for a period of 1 year following conditional acceptance until their final acceptance by the City. Prior to the acceptance of the public improvements, the Developer shall be responsible for maintaining the public improvements in proper operating condition, and shall perform such maintenance as the City and the Developer agree is reasonably determined to be necessary. As of the date of final acceptance of the improvements, the Developer shall assign to the City all of the Developer's rights in any warranties, guarantees, maintenance obligations or other evidence of contingent obligations of third person with respect to the improvements, except for those rights necessary to the fulfillment of any outstanding obligation under this Agreement.
- 11. WAIVER.** The failure by any party to insist upon the strict performance of any covenant, duty, agreement or condition of this Agreement or to exercise any right or remedy consequent upon a failure to perform thereof shall not constitute a waiver of any such failure to perform or any other covenant, agreement, term or condition. No waiver shall effect or alter the remainder of this Agreement but each and every other covenant, agreement, term and condition hereof shall continue in full force and effect with respect to any other than existing or subsequently occurring failure to perform.
- 12. TIME IS OF THE ESSENCE.** Time is of the essence of this Agreement. In case either party shall fail to perform the obligations on its part at the time fixed for the performance of such obligations by the terms of the Agreement, the other party may pursue any and all remedies available in equity, or law.
