# FY25 Budgeted Expense

March  $2\overline{1}$ , 2024 -- Proposed

### Primary City Programs and Funds

### Who Makes Expense Forecasts

### Expense Strategy for FY25

- 1. Maintain operations at current levels
- 2. Fund needed capital with remaining funds if available
- 3. Build reserves—if revenue left after funding capital
- 4. Expand operations—if revenue left after funding reserves

Increase tax rates if additional funding is needed to do most critical items in proposed budget

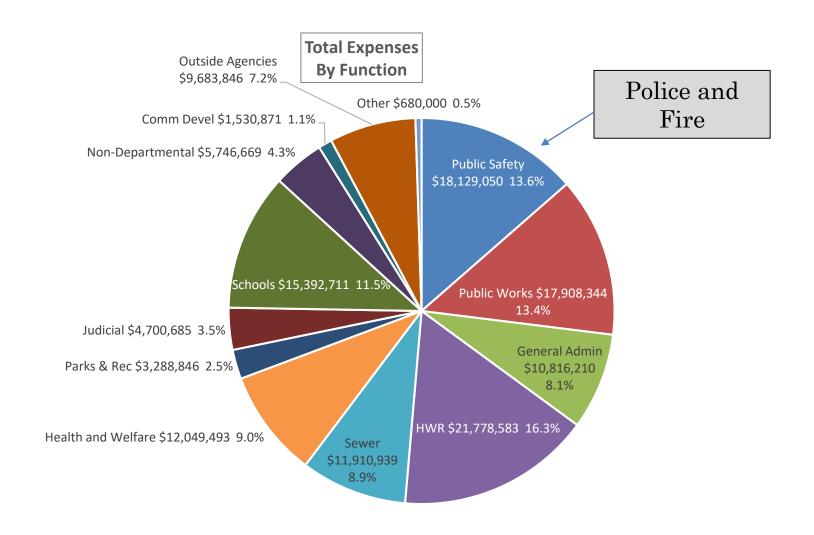

Long-term strategy should include developing priorities for budget funding that will match resources to needs

### Expense Assumptions | Draft Budget

- Employee Salaries 2.5% step increases for Public Safety employees (police, fire, public works) and 2.5% cost-of-living-adjustment (COLA) for all other employees
- **Health Insurance** City to absorb 6.9% increase
- **Departmental increases** To be presented by departments on March 28<sup>th</sup>
- Capital As determined by departments. Actual funding will be based on available revenue. It is recommended that all expenses in the coming year be funded from new revenues and not depend on reserves or accumulated revenue until all financial reports are complete

Decisions on CAPITAL fundings will be the most difficult for the FY25 budget

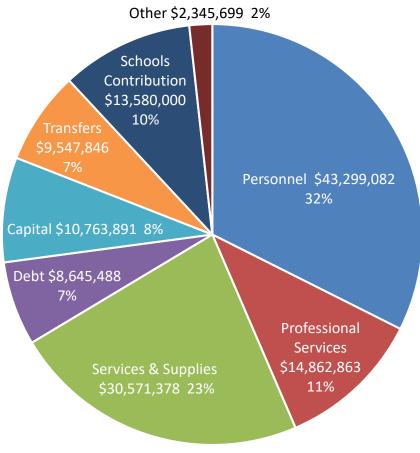

### Expenses | by Category
