2024 Committee Service Goals – Food Insecurities Update

Dan and Chris gave information regarding the Food Insecurity Meeting held with community organizations and the faith community in December stating there was a clear understanding amongst these groups of what the community needs are and what the challenges are in providing these services, to include:

- Lack of communication and collaboration from churches/organizations/groups who are providing services and knowing what specific services they are providing
- Constantly changing locations and times when services are offered/provided
 - Finding permanent locations and time frames so it is easier for people to know/remember
- Transportation needs for the homeless -> getting them to where services are being offered/provided or bring those resources to them while building trust among this group
- Building trust among the growing Latino community, specifically the Guatemalan community, and offering services at locations where they frequent and have already built relationships, ie: Euvalcree

Dan and Chris stated the groups next meeting will have a Focus Plan moving forward and discuss:

- Providing services to those who are really in need and not just those who are needing companionship as some lonely community members participate in free lunch programs to converse with others and not because they are in need. Although companionship is important, the intent of this service is to provide meals to those who are actually in need.
- How to address the needs for homeless/couch surfing/struggling teens while being discreet and building trust
- Providing specific foods for specific groups of people: Homeless, Latinos, etc
- Finding permanent locations and hours to provide services throughout the City
- Finding volunteers as those who are primarily pushing out these efforts are “aging out”

There was some discussion regarding inviting Euvalcree, Dulas Latinas, and leaders from many other churches and organizations to attend the next scheduled meeting in February, and questioning the Committee on what they can do without completely taking on this effort like what happened with the Family Promise Initiative.
