As of 10/31, the project is being advertised. It's a CMAR, the construction manager is coordinating advertising. On site meeting on 11/7 with the construction manager and their team. They are coordinating the bidding. Bid opening is scheduled for 11/28 at 2pm. The plan is to get in front of council for guaranteed maximum price that incorporates the bids in December. First meeting is December 7. If there is not enough time there may be a special meeting or January meeting. From there, the contractor would get started.

Discussion on closure – Jamie Carpenter brought up the closure and phasing of the closure. After discussing with the construction manager, a full closure of each phase will get it completed in a quicker manner. There will not be a lane of traffic flow in order to get it completed faster.

The committee requested to see what amount of time could be reduced and if there is a delay in the bid approval for council, they strongly encouraged a special called meeting to approve the contract.

Notes to review:

- Contact the owner of the Chicken Shack building – can we negotiate parking?
- Signage is important
- Communication with businesses on updating water taps while construction is occurring.
