<https://www.cognitoforms.com/CityOfHendersonville4/HendoEarthFestExhibitorVendorForm>

4. Finalize event budget appropriation

Full budget will be finalized at next meeting

\$1,990 is allocated for event DJ and sound engineer

5. Exhibitors & vendors – The committee decided for this year we will not allow products to be sold, except for food vendors. Non-profits and other groups are allowed to collect donations.

Sarah Richards brought up the idea of purchasing compostable to-go ware and give to food trucks to use. Richard is going to reach out to contact he knows with Hendersonville Pride who are eco-friendly food vendors.

Event: Hendo Earth Fest

Date: 1/16/2026

Quote Expires: 1/1/2027

Event Dates: 4/18/2026 10:00 am – 3:00 pm

Commercial Pickup Location

Hendersonville, NC

[Exact location of bins TBD]

What's Included

The following quote includes the delivery and pickup of all bins required to service the entirety of the event. In this case, the recommended amount of trash containers to be dropped off and picked up totals **18 x 64-gallon roll carts**.

This pricing includes CompostAVL providing compostable trash can liners for the 64-gallon roll carts.

Waste Volume Estimate

The following assumptions were made to determine an estimate for the volume of waste that will be collected.

- Event attendance of 2,000 people with access to food, compostable plates, and compostable cutlery. This estimate was made assuming that every person would have something to eat and/or produce some compostable waste.
- 3 Food trucks on site that will be composting all kitchen scraps produced on site. The assumption was that each food truck would have 1x64-gallon roll cart near their truck to use for kitchen waste.

Event Pricing

Delivery			
Dropoff			\$45.00
Pickup			\$45.00
Services	# of 64-gallon carts		
Public Areas	15		\$645.00
Food Trucks (3)	3		\$129.00
Total			\$774.00

Explanation of Charges

Each trip to the event costs **\$45.00**. If additional trips to remove filled bins during the event are required, then this amount would be added to the total for each additional trip made to pick up any bins.

Servicing each 64-gallon roll cart costs **\$43.00**. Additional carts can be added for that amount per cart. If any carts are empty and unused, then that amount will **not** be charged and will be subtracted from the total for each unused cart.
