- AJ B. Two levels of home occupations exist. Both are required to maintain all of the standards of a home occupation business license. Because of the potential negative impact on residential area, the following businesses are prohibited as home occupations: auto/RV repairs, salvage yards, major appliance repair, or service.
- AJ C. Level one applicants are in occupation categories that the City Council has determined have virtually no negative impact on residential neighborhoods and do not require a license. Occasional businesses operated by a minor are not required to obtain a business license.

All applicants whose home occupations receive commercial delivery service, has signage advertising the business, performs services in view or hearing of the public, or has customers coming to the residence, are considered level two home occupations and require a license. - E. Home occupation standards:
 - AJ 1. The exterior of the home will not be modified in any way to accommodate the home occupation (i.e. loading ramps, loading doors, etc).
 - AJ 2. The occupation will be conducted entirely within the house, yard, and existing outbuildings.
 - AJ 3. The home occupation license covers only residents of the home.
 - AJ 4. No outside storage of goods or materials is permitted.
 - AJ 5. Pedestrian and vehicular traffic will not be in excess of that normally associated with a residential neighborhood.
 - AJ 6. One sign will be permitted on the property. It must meet the requirements of 17.72.010 "Name Plate".

 - AJ 8. No noise, odor, light, vibrations or dust in excess of that normally associated with a residential neighborhood shall pass beyond the premises.
 - AJ 10. State licenses will be required for "Professional Child Care".
- AJ F. The City Council may, at their discretion, waive certain of the above standards for the elderly or handicapped.

In order to guarantee that the Home Occupation, once authorized, will not become a nuisance to the neighbors, the City Council may impose other reasonable conditions initially and also subsequently to protect the public health, safety, peace, and welfare of the residents of the surrounding area.

Subject: Resolution 26-05 – A resolution amending an agreement between Hyrum City (“City”) and the Paddle Pickleball LLC (“Paddle”) for indoor recreation programming and community engagement initiatives to establish unified program fees.

Summary: **This resolution proposes updating the existing partnership parameters with Paddle Pickleball LLC by removing age-specific requirements and establishing consistent pricing guidelines across all programs. The intent is to allow additional leagues, clinics, and lessons to be offered within approved parameters without requiring further City Council action.**

Under this resolution, the Hyrum Recreation Department would be authorized to set program pricing with Paddle Pickleball LLC between \$40–\$50 per session, based on session length. Pricing flexibility would account for shortened or adjusted schedules due to holidays, school breaks, or other planned calendar changes. These pricing parameters would apply to all leagues, clinics, and lessons offered through this partnership.

The existing 80/20 revenue split would remain in effect until the partnership is no longer needed, consistent with the terms outlined in the previous council resolution.

Since the adoption of the prior resolution, 35 community members have participated in pickleball lessons and 12 participants have enrolled in league play, with participant ages ranging from 4 years old to 70+. Subject: **Resolution 26-06 a resolution amending the Hyrum City Rodeo Grounds Rental Fee and Deposit Schedule and the Rodeo Grounds Rental Agreement and Contract.**

Summary: Staff is proposing an increase to the rental and deposit fees for all commercial rentals at the Hyrum Rodeo Grounds. Hyrum City provides key amenities to support renters, including restrooms, dumpsters, and a tractor for grounds maintenance. Recent facility improvements include the installation of new bleachers, resulting in a total seating capacity of 2,135.

In setting the proposed fees, staff reviewed rental rates at comparable regional facilities. Both Logan and West Haven rodeo grounds charge \$1,000 per day, and aligning Hyrum's fees with these local standards ensures the city maintains fair and competitive pricing while supporting the continued upkeep and operation of the grounds.

To: Mayor Miller and City Council

From: Tony Ekins, City Planner

Date: January 27, 2026

Subject: Ordinance 26-06 – An ordinance amending Title 17 Zoning of the Hyrum City Municipal Code to create Chapter 17.63 Home-Based Microschool And Micro-Education Entity; amend 17.04.070 Definitions to define and include “Home-Based Microschool” and “Micro-Education Entity”; and amend Use Regulations in sections 17.22.030, 17.28.010, 17.30.010, 17.32.010, 17.36.010, 17.38.010, 17.44.020, 17.45.020, 17.48.020, 17.49.020, and 17.050.020 to include Home-Based Microschool And Micro-Education Entity as a permitted use in all zoning districts. Application #25-040.

Summary:

The proposed application is initiated by Hyrum City to create a Home-Based Microschool And Micro-Education Entity ordinance as allowed by Utah Code to address business license, parking, traffic, hours of operation and applicable zoning and land use regulations that do not conflict with Utah Code 10-20-304.

City Attorney Recommendation:

On November 11, 2025, the Hyrum City Attorney reviewed the draft ordinance and provided the following suggestions to the draft ordinance:

1. Clarify “Home-Based Microschool” definition to include education services to 16 or fewer students.
2. While parking requirements for micro-education or home-based microschools cannot exceed the requirements of schools or other institutional public uses, we should pass a requirement for parking for schools. Example: 0.1 stall per student.
 - a. The current Hyrum City Code for similar use (places for public assembly) require one (1) space for each five (5) fixed seats and one (1) space for fifty (50) square feet of floor area for moveable seats under maximum seating arrangement. This occurs in commercial and residential zoning districts. Staff contacted the Cache County Development Department for information regarding parking counts for public and private schools and staff was advised they rely on the proposed parking counts provided by design engineers, and they only verify the number of ADA stalls per overall parking stall quantity. Comparably, staff reached out to Logan City to determine parking counts public and private schools, and staff was advised they allow an alternative approach whereas the applicant provides a parking plan with rationale for meeting sufficient parking stalls. This option requires a parking study that includes estimates of parking demand.

Planning Commission Recommendation:

On November 13, 2025, the Planning Commission held the required public hearing and made a motion (4-0) recommending approval to the City Council with the following recommendations:

1. Clarify “Home-Based Microschool” definition to include education services to 16 or fewer students.
2. In the parking section, clarify parking requirements shall comply with Hyrum City off-street parking requirements.
3. In the traffic section, clarify the traffic plan shall address impacts on the site and surrounding community without obstructing traffic.

City Council Meeting Details: (Continued)

- Meeting Date: November 20, 2026
- The City Council continued the prepared ordinance for staff to complete the following:
 1. Verify if “Home-Based Microschool” can be regulated to only be homeowner occupied.
 - a. The State Bill treats all Home-Based Microschools as a permitted land use in any zone and removes occupancy restrictions beyond that applies to the primary home. This request is not an option.
 2. Staff review any unforeseen parking and traffic impacts.
 - a. State and city roads are public and for the use of public transportation. When an application is submitted to the city, the draft ordinance will require the applicant to provide a desired route for transportation and staff can include recommendations for routes that could better minimize traffic impacts on neighborhoods.
 - b. Staff contacted Cache County and Logan City who review school district site plans for parking quantities and staff provided parking language consistent with the intent of the draft ordinance to include a parking plan, review, and approval process in 17.63.C. Parking.

City Council Agenda Information

To: Mayor Steve Miller and City Council
From: Stephanie Fricke, City Recorder
Date: January 30, 2026
Subject: Ordinance 26-08 – An ordinance creating Chapters 2.09 City Administrator and 2.10 City Engineer of the Hyrum City Municipal Code.

Summary: **This ordinance creates the City Administrator and the City Engineer position. Both of these positions are appointed positions and should be created and defined in the Hyrum City Municipal Code.**

CITY ADMINISTRATOR:

Mayor Miller is recommending hiring a City Administrator rather than creating the City Manager position. Hyrum City has not been operating under a City Manager form of government, and has been operating with a City Administrator position since 1997.

The main differences between a City Administrator and a City Manager are:

A City Manager is appointed by and works for the City Council and is the Chief Executive of the City, not the Mayor. They manage day-to-day city operations; implements policies set by the City Council; prepares the budget; oversees Department Heads and all employees; has authority to hire and fire staff. A City Manager form of government significantly reduces the Mayor's administrative power and can leave them with a ceremonial, legislative, or presiding role rather than executive control.

A City Administrator is appointed by advice of the Mayor and consent of the City Council. The Mayor retains its legislative responsibility as the Chief Executive and Administrative Officer of the City. A City Administrator works under the direction and guidance of the Mayor and secondarily the City Council. A City Administrator oversees specific duties as set forth in a job description and by the Mayor.

A City Manager can only exist if the city council adopts an ordinance establishing that position. The council cannot delegate the mayor's legislative or judicial powers, or the mayor's position as chair of the council, to the manager.

Unlike "City Manager," the term "City Administrator" is not directly defined in Utah's statewide municipal code (Title 10 of the Utah Code). Utah's statutes do not contain a section like § 10-3-830 for administrators. In other words: there is no statewide, statutory definition or role for "City Administrator" in general Utah law.

The City Manager is defined as the chief administrative officer of the city. They manage administrative affairs, operations and often supervise department heads. Specific powers, such as hiring, supervising staff, preparing budgets, and implementing policies that are spelled out in the city's own municipal code or ordinance.

A City Administrator acts as an assistant to the Mayor. The specific powers, reporting structure, duties, and authority of a City Administrator are set in the job description for a City Administrator and are not set by state statute.

Feature	City Manager	City Administrator
Defined by state statute	Yes — authorized under Utah Code § 10-3-830	No — not defined in state code
Existence depends on local ordinance	Yes	Yes
Appointing authority	City Council (in manager form) from City Council	Recommended by Mayor with consent City Council
Duties and authority	Set by ordinance after council-form is adopted	Entirely set by city’s local manager ordinance/job description
Reports to	City Council (and sometimes mayor, per ordinance)	Mayor first and then City Council

CITY ENGINEER:

Utah State Code Section 10-3-917 establishes the framework for the Office of Municipal Engineer and prescribes the duties and obligations of a City Engineer. Hyrum City previously repealed the City Engineer position through Resolution 24-06, however, the City Council did not intend to eliminate the position. The City has determined that appointment of a qualified City Engineer remains necessary to protect the public health, safety, and welfare by ensuring that public and private development projects are properly designed, reviewed, inspected, and constructed.

Accordingly, the Mayor and City Council of Hyrum City find it necessary to formally create and codify the positions of City Administrator and City Engineer within the Hyrum City Municipal Code. This ordinance establishes Chapters 2.09 and 2.10 of Title 2, defining the offices, appointment processes, terms, duties, and compensation provisions for each position, thereby promoting effective administration, professional oversight, and sound governance for the City.

ORDINANCE 26-08

WHEREAS, on January 6, 1994, the Hyrum City Council passed and posted an ordinance adopting the "Hyrum City Municipal Code", a recodification of municipal ordinances encompassing the "Revised Ordinances of Hyrum City" and ordinances adopted through July 15, 1993; and

WHEREAS, Title 2 of the Hyrum City Municipal Code sets forth certain regulations pertaining to administration and personnel, including the establishment of several positions within the City; and

WHEREAS, Utah State Code Title 10 authorizes municipalities to employ administrative officers necessary for the proper administration of City affairs; and

WHEREAS, due to growth, complexity, and operational demands of Hyrum City, the City requires a professional City Administrator to ensure efficient, effective, and accountable municipal services; and

WHEREAS, effective coordination among City departments is essential to avoid duplication of effort, reduce operational costs, ensure timely implementation of policies adopted by the Mayor and City Council, enhance fiscal responsibility and long-term strategic planning for the City; and

WHEREAS, the City is subject to increasing state and federal mandates, budgeting requirements, and reporting obligations that require dedicated administrative oversight and expertise; and

WHEREAS, the City Administrator shall serve under the direction of the Mayor of Hyrum and serve as a point of communication between the Mayor, City Council, City staff, and the public, improving transparency and responsiveness in municipal governance; and

WHEREAS, Utah State Code 10-3-917 permits the city to establish the Office of Municipal Engineer and prescribes duties consistent therewith; and

WHEREAS, the appointment of a City Engineer promotes the protection of public health, safety, and welfare by ensuring that public and private development projects within the City are properly designed and constructed; and

WHEREAS, a City Engineer shall serve as the City's designated professional engineer for purposes of plan review, inspections,

Ordinance 26-02

certifications, and other engineering functions as required by law or assigned by the governing body;

WHEREAS, the Mayor and City Council of Hyrum City have found it necessary to create the positions of City Administrator to promote and enhance coordination among departments, and City Engineer to ensure that public and private development projects within the City are properly designed and constructed.

NOW, THEREFORE, the City Council hereby adopts, passes and publishes the following:
