2. **Discussion Topics.**

   a. **Ordinance Amending Section 7.12(1) Parking on Division Street and Tobacnoir Street.**
   Due to concerns raised by staff, and in conjunction with the Quiet Zone implementation, we are proposing to update 7.12 Parking Regulations section of municipal code. Tobacnoir Street and Division Street crossings will require a centerline curbing and delineators as part of the Quiet Zone implementation. The remaining lane widths are narrow and if cars are not parked adjacent to the curb, the driving lane could be too narrow for safe passage. We are proposing "no parking" for the blocks affected by these changes. We also recommend re-assessing the road design and possibly adding back some parking at the time of street reconstruction; tentatively 2029-2030.

   Committee members and residents have requested that the parking restriction be reduced to only what is required by the Quiet Zone Study and not extending to the recommended extents as proposed by the City Engineer. Staff was directed to bring back a modified ordinance for review by the Legislative Committee based on the requested reduction of proposed parking restrictions.
