Bernie Kramer-2150 East State HWY 153-Mr. Kamer stated that this is about revenue and spending. There seems to be a problem with revenue. CIP budget for water tower and wells. We are going to have private wells and septic tanks. 90% water fees come from residents nothing else. Utility lives on that. When you go private you have the maintenance, ongoing cost, and your insurance rate up. Citizens will be the ones who get stuck later on with the extra cost. This can only happen in Kronenwetter. I mean we think backwards. We do things that are total illogical, they

don't make any sense at all. We go against our own planning and think we really hit the jack pot because we will get something but it's not much. Going forward here again revenue, we get the extra people that would be in the housing. We would get more users from the water.
