Petition # SE24-02 Presented By: Jim Curry, as Agent
As owner or agent and gives address of: 2127 W Forest Gate Drive, Jacksonville, FL 32246

Staff Sworn in by: Mr. Martin **Petitioner Sworn in by:** Mr. Lydick

Discussion:

Robert introduced SE24-02, a Special Exception to allow standard design manufactured homes within the residential single family-3 zoning district. He stated that it is conducive for use under section 4.5.5.13 of the Land Development Regulations with an approved special exception. He stated that this would lock the land in and only allow standard design and not residential design.

Mr. Curry stated they have owned the property for about seventeen years and had it replatted about a year and a half ago. He stated they have started clearing the property and want to put standard design manufactured homes there. He stated that they have two subdivisions, Washington Springs and Chestnut Springs. He stated that they will keep Chestnut Springs for double wides or single-family homes. He stated that they have wanted to develop the land for a long time but thought they could only put single family homes there, but it was not economically feasible to do it on this property. He stated that they want to offer affordable housing in the neighborhood.

Mr. Lydick stated that the lots would not give any parking or much side yard if a double wide was put there with the required setbacks. Mr. Curry stated that it would be difficult.

Public Comment;

Sylvester Warren stated that he does not understand why people come out and speak against homes like this unless it is next to them, but they are ok with it here. He stated that is happy that Mr. Curry is doing this. He stated that he thinks that Mr. Curry is putting these there not only because of the lot size but back order of homes.

Motion to close public comment by: Mr. Carter **Seconded by:** Mr. McKellum

Discussion:

Robert introduced V24-01, a Variance for a lot in the residential single family-3 zoning district. He stated that they are requesting a reduction in the setback from 10' to 7' on the sides and from 15' to 10' in the rear. He stated that this lot was platted before the Land Development Regulations were adopted, there for the Land Development Regulations is put undue burden on the lot.

Carol stated that they are requesting this due to the size of the lot and not being able to build a fully functioning single family home. She stated that the owner is wanting to build a small home for elderly people and to bring more affordable homes to the area.
