DiOrio: The activity on the lake is pretty much like this meeting very quiet – which is good – the boats are complying with the lake used regulation – almost no citations have been issued – all kind of warning but no citations

Proctor: as long as the warning then there is no need to do anything else. Perhaps it means that local folks are learning.

We will have a list of these warnings by the work session.

They are developing a map.

The LAB has been discussing a possible marina and the lake structure appeals board will get involved if it is applied for.
