COUNCIL ACTION SUMMARY SHEET

MEETING DATE: June 8, 2026

TOPIC: Approval of Special Event – Dragon on the Lake

BACKGROUND BRIEF:

The Dragon on the Lake festival is an annual four-day community celebration hosted every August by Orion Art Center in Downtown Lake Orion. This signature event spans multiple blocks and features an Art and Craft Fair, Chalk Art Challenge, Dragon Boat Races, Dragon Pub, Tiki Bar, Kids Zone and Vendor Marketplace, and more. It serves as a vital community gathering that celebrates local history and brings residents and visitors together to support the Village.

The Orion Art Center organizes this milestone 17th annual festival primarily as its largest annual fundraiser, with all proceeds directly sustaining its year-round art classes, summer camps, exhibitions, and student scholarships. In addition to promoting local artists and vendors, the festival brings significant foot traffic and economic benefits to downtown businesses.

The event utilizes multiple Village properties and requires interdepartmental coordination to maintain regulatory compliance, traffic control, and public safety.

Hello Stephanie,

I am working with Lynsey on your application for the 2026 Dragon on the Lake event.

There were a few things I noticed with the documents you did submit:

- **Hold Harmless Agreement:** The times of the event were omitted. Please add the times and r
- **Certificate of Insurance:**
    - Insurance Letter C, has policy effective dates for only 2025, please update and resubmit
    - Under the "DESCRIPTION OF OPERATIONS / LOCATIONS / VEHICLES (Attach ACORD 101, Additional Remarks Schedule, if more space is required)" section, I believe the event dates listed are from last year. Please update and resubmit.
    - Liquor Liability coverage must be added. We understand this may come at a later date after licenses have been issued.
- **Liquor Licenses**: One for each: Tiki Bar and Dragon Pub, once issued.
- **Marine Permit**: We need the approved permit issued by the DNR, once issued.

Unfortunately, we experienced some technical issues and our system did not correctly capture the correct fees for the Green's Park and Children's Park Gazebo reservations. There are some additional fees that are due and have been added to this event:

- **Green's Park Reservation Day 2:** $500
- **Children's Park Gazebo Rental:** $420 (12 hours at $35 each hour)

Please reach out with any questions and Lynsey and I will be happy to assist.

Kirsten

Hi Kirsten -

I have attached the updated Hold Harmless here.

The form wouldn't let me move forward in submitting the application without putting something in for insurance, so I used last year's insurance while the new insurance is getting compiled. I will send once Is have it along with the marine permit and liquor licenses.

Can you please double check the cost of the gazebo rental? The agreement says that non-profits get the resident rate.

Thank you, Stephanie

Hi Stephanie,

Thank you for sending the updated Hold Harmless form. We've received it.

We've updated your gazebo rental charges to reflect the Orion Art Center resident rate of $10/hour, plus the $50 electricity fee. For your 12-hour rental, the total comes to $170. Since you originally paid $420, we'll be issuing a refund of $250 to adjust for the difference. I reached out to our Tech Support for GOGov to fix the changes.

Please feel free to send the updated insurance, marine permit, and liquor licenses once they are ready.

Please let us Let me know if you have any other questions.

Thank you,
Lynsey

BACKGROUND BRIEF:

The Lake Orion Police Association (LOPA) is a non-profit organization composed of officers and volunteers from the Lake Orion Police Department. In addition, LOPA coordinates with local businesses to provide property maintenance and assistance to low-income families and senior citizens.

D. Discussion on Accessory Mechanical Units Regulations Article 13.11.E

Jake VanBoxel, Planning and Zoning Coordinator, also introduced a discussion on Accessory Mechanical Units following resident complaints, seeking feedback from the Planning Commission. Commissioners expressed concerns regarding the ambiguity of setback measurements, difficulty in enforcing decibel limits, and potential impacts on egress windows. Several members suggested eliminating decibel standards, limiting generator use to power outages, and establishing reasonable maintenance or testing parameters. Additional concerns included placement considerations for lakefront properties.

Following discussion, Jake VanBoxel, Planning and Zoning Coordinator, reiterated the Planning Commission's feedback for further ordinance review, including whether to increase or eliminate decibel level standards for accessory mechanical units. He noted that if decibel limits are retained, a clear and enforceable process for measuring and documenting compliance should be established. Additional considerations included whether to prohibit placement near or require adjustments for egress windows, establish defined timeframes for testing and routine maintenance, and limit generator operation primarily to power outage situations with allowances for scheduled maintenance testing.

He also raised the possibility of creating exceptions or modified standards for residential lakefront properties, where typical front and rear yard configurations may differ, as well as the need to clarify how required distances and setbacks are measured to ensure consistency and enforceability within the ordinance.

B. Capital Improvement Plan
An updated capital improvement plan is presented on an excel document **which is attached and incorporated as part of these minutes.**

7. New Business

A. Troop 284 Community Service

Scout Troop 284, with Scoutmaster Neil Garbacik, met at Children's Park on Saturday, April 11 from 9:00-10:30am. The Scouts leveled the garbage cans with the pavers, spread wooden mulch around the bushes on Broadway St, and planted Spirea and Juniper by the red slide. Earlier, Cristy Garbacik met Jose at Home Depot to purchase plants and pavers.

B. Volunteer Days

Interested members will pick a date to create a volunteer day to help clean up one park this summer. Dates and times due to Erin Rohlfing so she can submit them to the high school for service hours.
Erin Rohlfing – Swiss, Erin Crane – Unger, Rosemary Ford – Atwater, Cristy Garbacik – Children's

C. Committee Minutes

The committee discussed the strongly written email from the Village Clerk/Treasure Sonja in March regarding the requirements for minute submissions.
Cristy, Secretary, shared some thoughts as a volunteer who spends time attending PnR meetings, typing accurate minutes, visiting parks, and responding to emails. She is willing to pass the role to another member, submit the agenda quickly with minutes at a later date, write non-detailed minutes, or step down and allow another volunteer to fill the role. It is additionally frustrating as she has held this role since 2023 and the minutes in the past, and before her period, were never required by a particular time. Additionally, Cristy is willing to continue as secretary but is unable to commit to the requirement of the 8-day timeline as a volunteer.
Other members were not interested in taking on the role. There was also frustration with the strongly written email and requirements for volunteers. Rosemary offered to contact the Village and ask them to provide a solution to their request.

D. Children's Park safety form

"Public Playground Safety Handbook" pg. 43-44 includes the safety pages Darwin previously requested the committee to fill out for each park. The committee agreed to fill out one page each meeting while visiting the parks. This will supply Darwin with one form per year per park. 6 copies are needed.

E. Green's Parks Updates

Previously, Council brought up thoughts about changing lifeguards, boat contracts, and park fees. The budget is still current and so changes are unavailable. Green's park life guards, attendant, contracts, and fees will not change.

F. DDA Volunteer Day

On May 9, 2026 the DDA is holding a downtown clean-up. Our committee decided to meet and focus on Children's Park. Wes offered to help and supply materials. We requested green rubber mulch, wooden mulch, 2 flats Myrtle, soil, 2 Sugar Maples, and a power washer. Cristy volunteered to text a reminder.

8. Reports

A. Children's Shade Sails

Per Wes Sanchez, 2 shade sails were ordered through AAA State of Play. DPW ordered the materials and installation for a total of $5,561.00. This was a CIP request and will match the current ones in Children's Park with Ocean Blue frames and Lime Shade Fabric.

B. Green's Boat Bumpers

Wes Sanchez is in contact with John Jones from Walk on Water and will discuss the quote. Our request includes, but is not limited to, leveling the docks, adding bumpers, adjusting cleats, fixing the floating dock for stability, and extending the docks by one section.

C. Orion Township networking

Rosemary Ford and George Dadalides met with Director Aaron Whatley from Orion Twp. Parks and Rec. They toured the Village parks to discuss if Orion Township could support the Village parks. He offered to have their certified employee inspect the playground equipment. Could this replace the safety form?

D. Basketball Court

The DDA approved $59,000.00 towards the Atwater basketball court. They will use funds from the 75/25 plan. They were very supportive and positive about the project and working together.

COUNCIL ACTION SUMMARY SHEET

MEETING DATE: June 8, 2026

TOPIC Michigan Municipal League (MML) Insurance renewal 2026-2027

BACKGROUND BRIEF: The Village Liability and Property Insurance will expire June 30, 2026. The renewal premium for the Liability and Property insurance renewal for the Village of Lake Orion effective July 1, 2026-2027 with the MML Liability & Property Pool is $78,195, compared to the expiring premium of $73,313. This is a premium increase of $4,882.

There are a couple reasons for the change in premium:

a) The property values increased by $163,719 to a 4% inflation guard
b) The total payroll increased by $139,385
c) There was a small rate increase for the MML Pool

The Board of Directors of the MML Liability & Property Pool voted to return another post renewal dividend in 2026 to renewing Members. The Village of Lake Orion 's portion of the dividend return is about $2,420. The Village of Lake Orion will receive the dividend the month after paying the renewal premium.

FINANCIAL IMPACT: The 2026–2027 premium cost is $78,195. The current budget includes $76,840 in Account No. 101-851-911-000, which was calculated using a projected 4% increase over the 2025–2026 premium. The actual premium reflects a 6.66% increase, resulting in a budget shortfall of $1,355. A budget amendment in the amount of $1,355 will be required to cover the additional expense.

RECOMMENDED MOTION:

#1 To approve the liability and property insurance renewal proposal of the Michigan Municipal League (MML) in the amount of $78,195 and authorize the Village Manager to sign the contract subject to review by the Village Attorney.

#2 To authorize Clerk/Treasurer Stout to complete the budget amendment BA-2026-101-851-01 increasing GL 101-851-911-000 by $1355 for fiscal year 2026-2027.

Subject: Seeking an exception permit to the Noxious Weeds Ordinance

Name: Michael J. DeLuca
Email: michaeljdeluca@gmail.com

Message:

Dear Mr. McClary,

As Village Manager for Lake Orion Village, I hope you might be the right person to contact with this. I apologize if not.

I've been the property owner and resident at 206 East Flint Street in Lake Orion Village since 2012. On May 22, 2026, I recieved a notice from Lake Orion Village code enforcement officer Hammond requesting that I "mow + trim lawn" for "Nuisances/Grass/Weeds", erroneously referring to Ordinance Chapter 154. I did as requested, apparently to the code enforcement officer's satisfaction, given that I have not heard from him since. This is the second notice I've recieved to this effect in two years. For a number of years prior, I have been participating in the international "No Mow May" movement, which encourages landowners to refrain from cutting plants until the end of May in order to provide habitat for essential native pollinators and wildlife. I've dedicated my yard to supporting native wildlife of all kinds and have devoted a lot of time and effort to encouraging native plants and habitat on my property and elsewhere in Lake Orion. I've recieved certification from the Clinton River Watershed Council and the National Wildlife Federation for my efforts and have posted signage on my property to that effect. Accordingly, after I recieved compliance notices both in 2025 and 2026, the code enforcement officer recommended I contact the village regarding the possiblity of seeking an exemption to the noxious weeds ordinance. I am now pursuing that possibility.

The noxious weeds ordinance in question is outlined in the Village of Lake Orion Code of Ordinances, not in Chapter 154 as advertised in the compliance notices, but rather in sections 95.35 to 95.98. The possibility of an exemption is detailed specifically in section 95.36 (C):

"(C) Land that is located within a conservation area or easement, open space or natural area that has been approved by the village to be left in its natural state without the removal, cutting or mowing otherwise required by divisions (A) and/or (B), shall be exempt from those requirements. For purposes of this exemption, village approval may be by a permit or plan approval under Chapter 157 of this code or the village zoning ordinance."

I've reviewed Chapter 157, but can find no mention there of any permitting process for a conservation area or easement; instead it describes permitting requirements for development of a new subdivision, which is rather beyond the scope of my capacity or intent. Chapter 157 does, however, include one potentially relevant subsection, 157.12, of which sections (C) and (D) state as follows:

"(C) The Planning Commission shall submit to the Village Council its findings on the existence of any extraordinary hardships, practical difficulties or unique circumstances that will result from the strict enforcement of these regulations. If the Planning Commission finds the requested variance will not compromise

the public interest or the intent of §§ 157.01 through 157.12, the Planning Commission may recom
Village Council approval of a variance to these regulations. The Planning Commission may recommend conditions to the variance consistent with the objectives of these regulations.

(D) The Village Council may grant a variance if the Council finds that:

(1) The variance will not be detrimental to the public, health, safety and general welfare nor injurious to other property.

(2) The conditions underlying the variance request are unique to the property and are not generally applicable to other property.

(3) Due to particular characteristics, shape or topographical conditions of the property, a particular hardship to the owner, as distinguished from inconvenience or monetary loss, will result if these regulations are enforced.

(4) The variance will not violate the requirements of the Zoning Code, Chapter 158 of this code, being Ordinances 26.01 through 26.64 and all amendments thereto; Master Plan; and Subdivision Control Act, being M.C.L.A. §§ 560.101 et seq. or any other applicable law or regulation."

Would it be possible to adapt these provisions for the division or partitioning of land to create a permitting process for a conservation exception for individual property owners?

I've reviewed the village of Lake Orion's current noxious weeds ordinance, sections 95.35 to 95.98. I see that this ordinance has been re-posted annually without changes for a number of years, and accordingly I would like to recommend some updates. First, please consider changing the date of enforcement from May 1st to June 1st to allow residents to participate in "no mow May" without incurring fines. As I'm sure you're aware, Michigan's native wildlife have been in steep decline, endangering agricultural production, tourism revenue, and public health, and encouraging rather than prohibiting participation in No Mow May would be a great way to reverse some of that decline. I also believe that the list of plants designated "noxious weeds" should be updated, given that it doesn't mention several notororious invasive species of plants which spread aggressively in our climate, threaten native plant populations and wildlife, and in some cases can cause significant damage to property and infrastructure if left unchecked. These include but are not limited to:

- Australasian Reed (Phragmites australis) - Orion Township has already had an ordinance (151) in place against Phragmites since 2015, so it seems particularly odd this species is not listed as noxious.
- Japanese Knotweed (Reynoutria japonica)
- Garlic Mustard (Alliaria petiolata)
- Japanese Barberry (Berberis thunbergii)
- Glossy Buckthorn (Frangula alnus)

Please consider expanding this list. I would personally recommend seeking input from plant experts, of which Lake Orion Village is in ready supply, including Oakland University riparian biologist Dr. Scott Tiegs and Oakland Township Natural Areas Stewardship Manager Dr. Ben VanderWeide.

Thank you very much for your attention. My contact information is below for your reply.

Sincerely,
Michael J. DeLuca

COUNCIL ACTION SUMMARY SHEET

MEETING DATE: June 8, 2026

TOPIC Hearing on Proposed Special Assessment Roll – Sidewalk Improvement Program (SWIP) 2026 District #2

BACKGROUND BRIEF:

Village Council is scheduled to conduct a hearing to receive comments and objections to the proposed special assessment roll for the Village of Lake Orion Sidewalk Improvement Program (SWIP) 2026 District #2 Project. The proposed special assessment roll is based on the unit prices contained in the third low bid to ensure that the special assessment numbers would be equal to or greater than the final assessments to avoid duplication of the special assessment hearing process. A notice of the public hearing was published in the Lake Orion Review newspaper and a notice letter was sent to all affected property owners.

The SWIP 2026 District #2 Project involves the removal and replacement of deficient sidewalk slabs abutting within the district, with the property owners responsible for the costs associated with the improvements. In addition, any deficient sidewalk handicapped accessible ramps will be removed and replaced at the Village's cost.

Costs of sidewalks abutting private property will be specially assessed against those benefitting properties, with special assessments to be spread over three years in $500 increments. The balance of assessments not paid in full in the first year will be subject to interest at a rate of 6% per annum. Property owners may pay their assessments in full by the 2026 summer tax due date and incur no interest costs. Property owners may also opt out of the Village's improvement program by notifying the Village in writing by June 8, 2026, and completing the repairs themselves in accordance with Village engineering design and construction standards by the deadline established by the Village but will need to pull and pay for individual permits and arrange and pay for inspections.

Since preparation of the original proposed assessments, the Village Engineer has confirmed that the low bidder is the responsible and responsive low bidder and is qualified to perform the work. Attached is the Engineer's letter of recommendation. As a result, the final special assessment numbers for each affected property will be lower than those contained in the notices sent to property owners and contained in the original assessment roll. Public Works Director Sanchez has prepared the revised cost calculations for each property for the information of Council, and the list is attached.

SUMMARY OF PREVIOUS COUNCIL ACTION:

02/09/2026 – Council accepted the Proposal for Professional Services from Nowak & Fraus Engineers dated December 22, 2025, relating to design and construction engineering services for Year 2026 Sidewalk Improvement Program, District 2, not to include any services for sidewalk gaps, in the total amount of $5,800.00 plus construction inspection and testing fees; and authorized the Village Manager to execute the acceptance and approval of the proposal on behalf of the Village.

03/23/2026 – Council held a public hearing on the necessity of the 2026 Sidewalk Improvement Program (SWIP) District #2 Project; adopted a finding that the 2026 Sidewalk Improvement Program (SWIP) District #2 as presented is necessary; and directed the Village Manager to complete the design, bid, and contract specifications and to competitively bid the 2026 Sidewalk Improvement Program (SWIP) District #2 project and to cause to have a proposed special assessment roll prepared based on the bid results.

FINANCIAL IMPACT:

The total contract price for the sidewalk improvements will be $43,411.93. The costs will be specially assessed against benefitting properties, with special assessments to be spread over three years in a minimum of $500 increments. The balance of assessments not paid in full in the first year will be subject to interest at a rate of 6% per annum. Property owners may pay their assessments in full by the 2026 summer tax due date and incur no interest costs. Property owners may also opt out of the Village's improvement program by notifying the Village in writing by June 8, 2026, and completing the repairs themselves in accordance with Village engineering design and construction standards by the deadline established by the Village but will need to pull and pay for individual permits and arrange and pay for inspections.

RECOMMENDED MOTION:

#1 – To open the public hearing on the 2026 Sidewalk Improvement Program (SWIP) District #2 proposed special assessment roll.

#2 – To close the public hearing on the 2026 Sidewalk Improvement Program (SWIP) District #2 proposed special assessment roll.

#3 - To direct the Assessor to prepare the 2026 Sidewalk Improvement Program (SWIP) District #2 special assessment roll utilizing the low bid unit costs submitted by Italia Construction, Inc., with special assessments to be in as nearly equal installments over three (3) years as possible in minimum $500.00 annual assessments, and to proceed to spread the special assessments upon the Village of Lake Orion 2026, 2027, and 2028 summer tax rolls as necessary.

A. General Requirements.

1. No more than two (2) detached accessory buildings larger than 80 square feet each, are permitted on a zoning lot.

3. No detached accessory building may exceed 16 feet in height.
4. No attached accessory building may exceed the height of a principal structure as regulated by this Ordinance.
5. Accessory buildings may not exceed the ground floor area of the principal dwelling unit.

An accessory building or structure in the RM Multiple Family Residential, or any non-residential zoning district shall comply with all requirements of this Ordinance for a principal building in that zoning district. Setbacks may be modified by the Planning Commission upon determination that the modification is necessary to achieve specific design objectives and will not negatively impact the surroundings or Village as a whole.

H. Outdoor parking or storage of recreational vehicles, boats, trailers, and similar items constitutes an accessory use and shall comply with Article 13.17 of this Ordinance.

MCKENNA

Memorandum

TO: Village of Lake Orion Planning Commission

FROM: Jake VanBoxel, MSA, Principal Planner
Sommer Nafal, Assistant Planner

SUBJECT: **Draft Accessory Use and Recreational Vehicle Parking & Storage Amendment**

DATE: January 29, 2026

BACKGROUND

Recently, the Village has received inquiries and complaints regarding the parking and long-term outdoor storage of recreational vehicles on residentially zoned parcels that do not contain a primary dwelling unit, particularly within the RL Lake Single Family Residential District. These situations most commonly involved vacant lots being used on a seasonal basis to park or store motor homes, trailers, boats, or similar recreational equipment.

During review, staff identified that this interpretation conflicted with the overall structure and intent of the Zoning Ordinance, which consistently treats outdoor storage of vehicles and equipment as an accessory use that is incidental to residential occupancy. However, because this principle was not expressly stated in Section 13.17 or cross-referenced to the accessory use provisions in Section 13.11, staff's ability to enforce against storage on vacant parcels appears limited and potentially vulnerable to appeal.

The issue was brought into sharper focus by a specific RL-zoned property where a recreational vehicle was parked for extended periods throughout the summer months on a lot without a primary dwelling. This circumstance highlighted a gap between the ordinance's intended residential character protections and its explicit regulatory language. Although other sections of the ordinance assumed the presence of a principal building, the absence of a clear statement within the recreational vehicle storage regulations creates uncertainty.

INTRODUCTION

At the February 2, 2026, meeting, the Planning Commission will review the proposed text amendment regarding accessory uses and prohibiting the parking and storing of recreational vehicles and similar items on a property without a principal residential building. The Commissioners should discuss the proposed text amendments and provide feedback and modifications to guide the development of these ordinance revisions. Should the Planning Commission find the text acceptable, a public hearing can be set for the Village Council to review and adopt the language recommended by the Planning Commission.

SECTION 13.11 TEXT AMENDMENT – ACCESSORY BUILDINGS, STRUCTURES, AND USES

The proposed text amendment would expand the scope of Section 13.11. The section title and operative language now expressly include "uses", not just buildings and structures, reinforcing that accessory regulations apply to activities occurring on a lot, not only constructed improvements.

Additionally, a new section (H) identifies the parking and storage of recreational vehicles, boats, trailers, etc. as an accessory use. This addition will support the change in Section 13.17.

SECTION 13.17 TEXT AMENDMENT – PROHIBITING ON PARCELS WITHOUT PRIMARY BUILDING

The revised Section 13.17 retains the existing dimensional, numerical, seasonal, and district-specific standards for recreational vehicle storage, but adds a new and critical limitation: “The outdoor parking or storage of recreational vehicles, watercraft, vessel trailers, or similar items shall be permitted only on lots containing a lawful principal building used for residential purposes. Storage or parking of such items on vacant lots in residential districts is prohibited.”

This creates a new section (D) and shifts the rest of the text subsequently. Exact placement of the draft text can be reviewed and changed if deemed necessary.

The proposed text establishes a clear rule that recreational vehicle storage is not a stand-alone use of land and provides zoning staff with explicit ordinance language to support enforcement actions.

SUMMARY OF CHANGES

The revisions clarify that the outdoor parking or storage of recreational vehicles and related items is an accessory use, not a principal land use, and therefore may occur only when a lawful principal residential building is present on the parcel. These changes align the ordinance with long-standing zoning principles and improve enforceability.

Additionally, the proposed revisions:

- Formally tie recreational vehicle storage to the accessory use framework already embedded throughout the ordinance
- Reinforces that accessory uses cannot exist independently of a principal use
- Ensures internal consistency between Sections 13.11 and 13.17
- Protects the residential character of the Village

We look forward to discussion of this amendment at the Planning Commission meeting on February 2nd. Following the discussion, if consensus from the Planning Commission is reached to move forward with the regulations as proposed, or with modifications, we will present the item at the next Planning Commission meeting as a public hearing for recommendation to the Village Council.

We look forward to reviewing these findings and recommendations with you. Please feel free to contact us with any questions.

A. Discussion of Master Plan Amendment – Strategic Action Plan

In early 2024, McKenna was authorized to prepare an amendment to the Village Master Plan (2002-2022), as amended, to incorporate a Strategic Action Plan, including updated Goals and Objectives and an Implementation Matrix. The project was proposed in three phases:

- Phase I: Analyze and Synthesize
- Phase II: Critical Feedback
- Phase III: Adoption

McKenna has provided a status update and a second draft of the Strategic Action Plan incorporating commissioner feedback and community input for review and discussion.

Planner VanBoxel reviewed the Strategic Action Plan, discussed next steps and was available to answer any questions of the Commission.

Commissioner McClary moved, Commissioner Lorant seconded, to schedule a public hearing for Monday, May 4, 2026 at 6:30 p.m. on the proposed amendments to the Village of Lake Orion Master Plan 2002-2022 and to request that the required public notice be published.

Commissioner Lamb shared concerns regarding rental units and does not think it is desirable to village residents. He further shared that he does not want single-family communities to be disrupted.

Commissioner Rutt shared that she is in favor of including rental units in the Strategic Action Plan and would like to have further discussions about what accessory dwelling units could be permitted. Additionally, Commissioner Rutt shared that she believes item 2 in the Strategic Action Plan is referencing middle housing, such as duplexes and home ownership, as opposed to adding more apartments.

Commissioner Lamb stated that the village is fully developed and does not want to see ordinances or the Master Plan used for “nefarious purposes.” He further shared that he would like to see item 1 removed from the Strategic Action Plan.

Commissioner Lamb moved, Commissioner Lorant seconded, to remove item 1 and item 3 from the Master Plan.

A. Proposed Zoning Ordinance Amendments to Section 13.11 and 13.17

Sections 13.11 and 13.17 of the zoning ordinance regulate the placement, size, use and storage of accessory buildings and certain vehicles or recreational equipment on residential and non-residential properties. Questions regarding interpretation, enforcement consistency and alignment with current property use trends and community expectations have been identified as follows:

- Overlap or ambiguity between accessory structure regulations and storage provisions
- Definitions and dimensional standards for accessory buildings
- Allowable locations and duration of storage for recreational vehicles and similar items
- Enforcement challenges due to unclear or outdated language

These issues have prompted a review of the ordinance sections to determine whether amendments are warranted to improve clarity, usability and consistency with the Village's planning goals.

Commissioner McClary moved, Commissioner Rutt seconded, to recommend that the Village Council approve the proposed Zoning Ordinance amendments to Section 13.11 Accessory Buildings and Structures and Section 13.17 Parking and Storage of Mobile Homes, Travel Trailers, Motor Homes, Watercraft, Vessels, Trucks, and Other Items.

Commissioner Lamb asked if the text amendments preclude someone from storing their trailer in their lakefront rear yard setback. Planner VanBoxel said there has to be a primary dwelling on the property in order to store certain items.

Commissioner Rutt provided clarification regarding the number and type of items that can be stored on a property, per the proposed text amendments.

Commissioner Lamb asked for confirmation that the proposed text amendments are to help prevent vacant lots from becoming storage facilities. Commissioner McClary confirmed that was the case.

10. Commissioners' Comments Regarding Planning and Zoning Matters

Commissioner Craig stated that he did not see the monthly planning and zoning report in this month's packet. Planner VanBoxel stated that he would have Planner Nafal put together a report and send it to the Commission.

Commissioner McClary shared that village administration will be submitting a draft of the Capital Improvement Plan 2026-2032 to the Planning Commission, which will be included in the May 4, 2026 packet.

Commissioner Lamb stated that new homes are being constructed rapidly throughout the Village and reiterated that he supports the development of single-family housing in the Village. Additionally, Commissioner Lamb shared that he thinks the Village should focus on increasing its tax base.

Commissioner Lorant asked how many single-family homes are currently being constructed. Commissioner Lamb stated he believes there are six homes currently being constructed in the Village.

COUNCIL ACTION SUMMARY SHEET

MEETING DATE: June 8, 2026

TOPIC First Reading of Ordinance Adopting the Recodified Code of Ordinances

BACKGROUND BRIEF:

The Village has completed a comprehensive recodification of its Code of Ordinances as part of its transition from American Legal Publishing to CivicPlus as the Village's codification service provider. The recodification process involved a thorough review of the Village's existing code, incorporating all ordinances adopted since the last codification update, reorganizing chapters and sections where necessary, correcting formatting inconsistencies, and updating statutory and internal references to improve usability and accessibility.

Transitioning to CivicPlus will provide the Village with enhanced online access to its Code of Ordinances, improved search functionality, and a more efficient process for maintaining future ordinance updates. The recodified code has been prepared to ensure that the Village's ordinances are presented in a clear, organized, and user-friendly format for elected officials, staff, residents, businesses, and legal counsel.

In accordance with the codification process and applicable legal requirements, the Village Council must adopt the recodified Code of Ordinances by ordinance.

The purpose of this agenda item is to conduct the first reading of the ordinance. Following the first reading, the ordinance will be brought back to the Village Council for a second reading and consideration of adoption at a subsequent meeting.

SUMMARY OF PREVIOUS COUNCIL ACTION:

FINANCIAL IMPACT:

RECOMMENDED MOTION:

To introduce and give First Reading to Ordinance No. A-10, an ordinance adopting and enacting the recodified Code of Ordinances of the Village of Lake Orion, prepared in conjunction with CivicPlus, replacing the existing codification maintained by American Legal Publishing; and to schedule the ordinance for Second Reading and consideration for adoption at the Village Council's July 13, 2026 regular meeting; and to direct the Village Clerk to publish the required public notice.

Section 4. Unless a violation is specifically designated in the text of the Code to be a municipal civil infraction, a violation shall be deemed to be a misdemeanor. Whenever in this Code or in any rule, regulation or order made pursuant to this Code or any ordinance of the Village, any act is prohibited or is made or declared to be unlawful or an offense, or whenever the doing of any act is required or the failure to do any act is declared to be unlawful, the violation of any such provision by any person shall, upon conviction, be punished by a fine not exceeding $500.00, and/or a term of probation, and/or imprisonment for a term not exceeding 90 or 93 days, except whenever a specific penalty is otherwise provided except pursuant to MCL 117.3(k). MCL 257.625(1)(c) of the Michigan Vehicle Code is hereby specifically adopted by reference. In addition to probation, costs of prosecution, and any other consequence ordered by the court, a violation of this section is punishable by one or more of the following:

3. In addition to any penalty under this section, the Village may seek injunctive relief, abate the condition as a nuisance, revoke any permit or license, and/or seek any other available remedy.

Section 5. Additions or amendments to the Code when passed in such form as to indicate the intention to make the same a part of the Code shall be deemed to be incorporated in the Code, so that reference to the Code includes the additions and amendments.

Section 6. Ordinances adopted after the date specified in section 2 hereof that amend or refer to ordinances that have been codified in the Code shall be construed as if they amend or refer to like provisions of the Code.

Amended only as specified above and in the Chapters specified, the Code of Lake Orion shall remain in full force and effect.

A synopsis of this ordinance passed by the Council shall be published at least once in some legal newspaper of general circulation in the village within fifteen (15) days after its adoption by the Council. PREFACE

This Code constitutes a recodification of the general and permanent ordinances of the Village of Lake Orion, Michigan.

Source materials used in the preparation of the Code were the 1996 Code, as updated through November 3, 2020, and ordinances subsequently adopted by the Village Council. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of the 1996 Code, as updated, and any subsequent ordinance included herein.

Resolution of Adoption

THE CHARTER OF THE VILLAGE OF LAKE ORION

COUNTY OF OAKLAND

STATE OF MICHIGAN

PREAMBLE

To the end that the people of the Village of Lake Orion may enjoy to the fullest extent the advantages and benefits of local self-government as authorized by the constitution and laws of the State of Michigan, they hereby establish this Charter.

CHAPTER 1. BOUNDARIES AND SUBDIVISIONS OF THE VILLAGE

Sec. 1.1. Boundaries.

The following described territory, together with all territories that may hereafter be annexed thereto, shall continue and remain a body corporate under the official name and title of "Village of Lake Orion," and shall be subject to the municipal control of said Village:

Beginning at the northeast corner of the west one-half of the southwest one-quarter of section one, Township Four North, Range Ten East, Orion Township, Oakland County, Michigan, and running thence westerly along centerline (one-quarter line) of sections one, two and three to the northwest corner of the east one-half of the southeast one-fourth of section three; thence southerly along the easterly north and south one-eighth line of section three to the southwest corner of the northeast one-fourth of the northeast one-fourth of section ten; thence easterly along the south line of the northeast one-quarter of the northeast one-quarter to the section line between sections ten and 11; thence southerly along said section line to the southwest corner of the northwest one-quarter of section 11; thence easterly along the center line (one-quarter lines of sections 11 and 12) to the southeast corner of the west one-half of the northwest one-fourth of section 12; thence northerly along the westerly north and south one-eighth line to the southerly right-of-way line of Atwater Street in Wm. Winter's Subdivision; thence easterly along said right-of-way line to its intersection with the southwesterly right-of-way line of Orion-Rochester Road (so-called); thence northwesterly along said right-of-way line to its intersection with the westerly north and south one-eighth line of section one; thence northerly along said one-eighth line to the point of beginning.

CHAPTER 2. GENERAL MUNICIPAL POWERS

Sec. 2.1. Powers of the Village.

All powers, privileges, and immunities not inconsistent with the provisions of this Charter, possessed by the Village of Lake Orion by virtue of its incorporation as such and enumerated

in Act. No. 3, P.A. 1895, the former Charter of the Village which is hereby superseded, are hereby expressly retained by the Village and shall constitute a part of the police power of the Village even though not expressly enumerated herein. Further, unless otherwise provided or limited in this Charter, the Village of Lake Orion and its officers shall be vested with any and all powers, privileges and immunities, expressed and implied, which villages and their officers are, or hereafter may be, permitted to exercise or to provide for in their charters under the Constitution and laws of the State of Michigan and of the United States of America, including all the powers, privileges, and immunities which villages are permitted to or may provide in their charters by the Michigan Home Rule Act for Villages, being Act. No. 278 of the Public Acts of 1909, as amended, as fully and completely as though those powers, privileges, and immunities were specifically enumerated in and provided for in this Charter, and in no case shall any enumeration of particular powers, privileges, or immunities in this Charter be held to be exclusive, it being the intent of the Charter Commission in framing this Charter, and of the people of the Village in adopting it, to include all such powers, privileges, and immunities within the scope of the powers, privileges, and immunities granted to the Village of Lake Orion by the provisions of this Charter.

The Village and its officers shall have the power to exercise all municipal powers in the management and control of municipal property and in the administration of the municipal government whether such powers be expressly enumerated or not; to do any act to advance the interests of the Village, the good government and prosperity of the municipality and its inhabitants, and through its regular constituted authority, to pass and enforce all laws, ordinances and resolutions relating to its municipal concerns, subject to the Constitution and general laws of the State and the provisions of this Charter.

Sec. 2.2. Exercise of powers.

Where no procedure is set forth in this Charter for the exercise of any power granted to or possessed by the Village and its officers, resort may be had to any procedure set forth in any statute of the State of Michigan which was passed for the government of villages or townships, or in any other statute of the State of Michigan. If alternate procedures are to [be] found in different statutes, then the Council shall select that procedure which it deems to be most expeditious and to the best advantage of the Village and its inhabitants. Where no procedure for the exercise of any power of the Village is set forth either in this Charter or in any statute of the State of Michigan, the Council may prescribe by ordinance a reasonable procedure for the exercise thereof.

Sec. 2.3. Division of powers of government.

All of the powers of municipal government possessed by the Village are hereby divided into two general divisions, i.e., legislative or policy forming and administrative. No person or body

belonging to or being part of one such division shall exercise powers imposed by this Charter upon or properly belonging to another. It shall be the duty of every officer of the Village to preserve the two divisions of the Village government distinct and separate.

CHAPTER 3. GOVERNMENTAL ORGANIZATION

Sec. 3.1. Village legislative body.

All legislative or policy forming powers of the Village shall be vested in, exercised, and determined by a Council of seven members who shall be designated and known as Councilmen. In all cases where the word "Council" is used in this Charter, the same shall mean and shall he synonymous with the terms "Commission," "common council," "board of aldermen," "governing body," or "legislative body," or any other synonymous term, as the same may be used in any state or federal law in referring to legislative or governing bodies of villages.

Sec. 3.2. Terms of office.

At each regular Village election there shall be elected by and from the Village at large four Councilmen, the three receiving the highest number of votes shall hold office for two years and the one who shall receive the fourth highest number of votes shall hold office for one year. The term of office of each Councilman shall commence on and date from the Monday next following the date of the regular Village election at which they are elected.

Editor's note—The 2004 amendments to the Michigan Election Law take precedence over section 3.2 of the Village Charter. Per those amendments, a Village Council resolution was adopted on November 22, 2004, to provide that the terms of Village Councilmembers be changed from one- and two-year staggered terms to two- and four-year staggered terms, continuing the Charter provision for the election of four Councilmembers at each election, with the three candidates receiving the highest number of votes elected for four-year terms and the candidate receiving the fourth-highest number of votes elected for a two-year term. Any Councilmember terms that expire prior to the next regular Village election shall be extended to the Monday following that election when the new terms shall begin.

Sec. 3.3. Judge of qualifications of members.

The Council shall be the judge of the eligibility and qualification of its own members, subject only to review by the courts.

Sec. 3.4. Remuneration of members of the Council.

The President and each Councilman shall receive as remuneration for his service to the Village the sum of $10.00 per regular or special meeting for the Council actually attended by him, but not to exceed in total $360.00 per year, excepting the president shall receive an additional $100.00 annually. Such salaries shall be payable annually, and shall constitute the only salary or remuneration which may be paid for services performed by the President or any

Councilman for the discharge of any official duty for or on behalf of the Village during their term of office. Upon authorization of the Council, reasonable expense may be allowed when actually incurred on behalf of the Village.

Sec. 3.5. Selection of President and President Pro Tem.

The Council shall at its first regular meeting following each regular Village election, elect one of its members to serve as President and one to serve as President Pro Tem. The President Pro Tem shall perform the duties of the President when, on account of absence from the Village, disability, or otherwise, the President is temporarily unable to perform the duties of his office, and in case of vacancy in the office of President, until such vacancy is filled by the Council. The President Pro Tem shall preside over the meetings of the Council at the call of the President. In the event of a vacancy occurring in the office of President or President Pro Tem, the Council shall appoint one of its elected members to fill such vacancy.

Sec. 3.6. Duties of President.

(a) Insofar as required by law, and for all ceremonial purposes, the President shall be recognized as the executive head of the Village and shall preside over Council meetings. He shall have an equal voice and vote in the proceeding of the Council, but shall have no veto power.

(b) He shall be a conservator of the peace, and may exercise within the Village the powers conferred upon sheriffs to suppress disorder, and shall have the power to command the assistance of all able-bodied citizens to aid in the enforcement of the ordinances of the Village, and to suppress riot and disorderly conduct.

(c) He shall authenticate by his signature such instruments as the Council, this Charter, or the laws of the State of Michigan or of the United States shall require.

Sec. 3.7. Village Manager.

All administrative powers, duties, and functions of the Village shall be vested in the Village Manager, except as otherwise provided in this Charter. He shall be elected by the Council on the basis of training and ability in work which would qualify him for the position of Village Manager, and shall hold office at the pleasure of the Council. He need not be a resident of the Village at the time of his appointment but shall, unless excused by the Council, become a resident of the Village within 90 days after his appointment and so remain throughout his tenure of office. The Village Manager may, with the approval of the Council, designate an administrative officer or employee of the Village to perform the duties of the Village Manager during his temporary absence or incapacity. The Council shall designate a qualified person to perform the duties of Village Manager during a vacancy in the office. No person acting as Village Manager in a temporary capacity, whether during the absence or disability of the Village Manager or during a vacancy in that office, shall make any change in the administrative

officers of the Village without the consent of the Council. No person who holds or has held an elective Village office shall be eligible for appointment as Village Manager, nor shall any such person perform the duties of the Village Manager during a vacancy in that office, until one year has elapsed following the expiration of the term for which he was elected.

Sec. 3.8. Functions of the Village Manager.

The Village Manager shall be the Chief Administrative Officer of the Village government. He shall carry out the policies formulated by the Council. He is charged with the responsibility of supervision and management of all of the services of the Village and with responsibility for the enforcement of the ordinances of the Village, this Charter, and applicable laws of the State. He shall make the reports to the Council required by this Charter, and such others as may be required of him by ordnance or by resolution of the Council, and, in addition thereto, any which he may deem advisable. He shall prepare the budget of the Village for consideration by the Council, as in the Charter provided, and upon the adoption thereof by the Council, he shall administer the budget so adopted and keep the Council at all times informed as to the financial affairs of the Village. He shall have the right to take part in the discussion of all matters coming before the Council, but shall have no vote. In addition to the duties prescribed by this Charter, he shall perform such other duties as may be required of him by ordinance or by resolution of the Council.

Sec. 3.9. Other administrative officers.

In addition to the Village Manager, and subordinate to him in the performance of the duties of their several offices, except the Clerk and Village Attorney insofar as their duties as clerk of and attorney for the Council are concerned, the administrative officers of the Village shall be the Clerk, the Treasurer, the Assessor, the Village Attorney, the Police Chief, the Fire Chief, the Health Officer, and other officers included in the administrative plan approved by the Council. The Council may, by resolution, combine any administrative offices in any manner which is not inconsistent with the provisions of State Law. No combination of administrative offices one with another shall abolish the office of Village Manager or diminish any of the duties or responsibilities of that office as set forth in this Charter.

Sec. 3.10. Appointment of administrative officers and employees of the Village.

All administrative officers of the Village, except the Village Manager, the Clerk, and the Village Attorney, shall be appointed by the Council upon the recommendation of the Village Manager and shall serve at the pleasure of the Village Council, who shall set their salaries in accordance with budget appropriations and upon recommendations of the Village Manager.

The Village Manager, Clerk, and Village Attorney shall hold office by virtue of election by the Council, which body shall also set their salaries. They shall hold office at the pleasure of the Council.

Sec. 3.11. Appointment of other officers, heads of departments, and employees.

The Village Council shall appoint such other officers, as may be required by ordinance or resolution of the Council. Every election or appointment of an administrative office shall be for an indefinite term and shall be at the pleasure of the Council.

Sec. 3.12. Duties of administrative officers.

All administrative officers of the Village shall perform such duties as are provided for such officers by State law, this Charter, the Village ordinances, and the administrative directives of the Village Manager. Unless the Council shall otherwise provide by ordinances, specifying another officer of the Village, the Clerk shall be the chief accountant and auditor of the Village and he, or such other officer as shall be so designated by the Council, shall, subject to the direction of the Village Manager, maintain a system of accounts which conform to such uniform system as may be required by State law. In the exercise of such duties, each Village officer shall exercise and possess all of the powers, privileges, and immunities granted to Village and township officers exercising the same duties for villages and townships generally under the general laws of the State.

Sec. 3.13. Village officers and employee benefits.

The Council may provide by ordinance for a merit system of personal management for employees, and may provide for the pensioning of its appointive officers and employees and for any recognized standard plan of group life, hospital, health, or accident insurance.

CHAPTER 4. ELECTIONS AND APPOINTMENTS

Sec. 4.1. Eligibility for office in Village.

No person shall be elected or appointed to any office who is in default to the Village, or has been convicted of a felony. The election or appointment of any such defaulter or person shall be void. No person shall be eligible to any elective office of the Village, other than that of Village Manager and Village Attorney, unless he shall be of legal age, a registered elector in and the owner of real property assessed for Village taxes in his name, or shall be the lawful husband or wife of such a person, and shall have been a resident of the Village for at least two years immediately prior to the date of his election to any such office.

Sec. 4.2. Nepotism.

Relatives by blood or marriage of any Councilman, or the Village Manager, within the second degree of consanguinity or affinity shall be disqualified from holding any appointive office, or from being employed by the Village during the term of office of such Councilman or Village Manager, except and unless said relatives are bona fide appointive officers or employees

of the Village at the time of the election of such officer or appointment of such Village Manager. If the status of relationship between any employee of the Village and any officer of the Village changes to a relationship prohibited hereby after one year following the employment of such person or election or appointment of such officer, the provisions of this section shall not apply.

Sec. 4.3. Vacancies in offices.

Every Village office shall become vacant upon the happening of any of the following events before the expiration of the term of such office:

(a) For any reason specified by State law as grounds for creating a vacancy;

(b) If any officer of the Village shall absent himself continuously from the Village for more than 60 days without the permission of the Council;

(c) In the case of the President and other members of the Council, where such officer shall miss four consecutive regular meetings of the Council, or 25 percent of such meetings in any fiscal year of the Village, unless such absences shall in each case be excused by the Council and the reason therefor entered in the proceedings of the Council;

(d) If the officer shall be convicted of any act constituting misconduct in office under the provisions of this Charter.

Sec. 4.4. Resignations.

Resignations of all elected officers shall be made in writing and filed with the Clerk and shall be presented to the Council at its next regular meeting following receipt thereof by the Clerk. A resignation submitted by an official shall be deemed to be considered as an unconditional resignation and shall become effective upon acceptance by the Council. No such resignation shall be accepted by the Council at the same meeting at which it is received, unless by the unanimous vote of all members of the Council. Resignations of appointed officers shall be made in writing to the Village Manager, and shall be acted upon by him.

Sec. 4.5. Filling vacancies.

If a vacancy occurs in any elective office, except that of Village Manager, the Council shall, within 30 days after such vacancy occurs, elect a person who possesses the qualifications required of holders of the office in which the vacancy exists to fill such vacancy. If the vacancy shall be in the office of Councilman, any person so elected shall hold office until the Monday next following the next Village election, at which election the vacancy shall be filled for the balance of the term of the person whose office is so filled. In the event of a vacancy in the office of Village Manager, the Council shall fill such vacancy within 90 days after such vacancy occurs.

If a vacancy occurs in any appointive office, the Village Manager shall, within 30 days thereafter, appoint a qualified person to fill such vacancy in the manner required for making the original appointment.

Sec. 4.6. Term of office cannot be shortened or extended.

Except by procedures provided in this Charter, the terms of the officials of the Village elected for a definite term shall not be shortened. The terms of officers of the Village may not be extended beyond the period for which any such officer was elected except that an elected officer of the Village shall, after his term has expired, continue to hold office until his successor is elected and has qualified.

Sec. 4.7. Increase or decrease of compensation.

The Council shall not grant or authorize extra compensation to any Village officer, elected or appointive, or to any employee, after the service has been rendered. Nor shall the salary of any Village officer, elected or appointive, be increased or decreased after his election or appointment during any fixed term of office for which he was elected or appointed. Nor shall the Council grant or authorize extra compensation to any agent or contractor after service has been rendered or the contract has been entered into without the approving vote of all (each and every) member of the Council.

Sec. 4.8. Oath and bond of office.

Every officer, elected or appointed, before entering upon the duties of his office, shall take the oath of office prescribed by Section 2 of Articles XVI of the Constitution of the State and shall file the same with the Clerk, together with any bond which he may be required by this Charter or by the Council to give. The oath and bond of the Clerk shall be filed with and kept by the Treasurer. In case of failure to comply with the provisions of this section within ten days from the date of the notice to him of the election or appointment, such officer shall be deemed to have declined the office and such office shall thereupon become vacant unless the Council shall, by resolution, extend the time in which such officer may qualify as above set forth.

Sec. 4.9. Surety bonds.

Except as otherwise provided in this Charter, all officers of the Village whose duties involve the custody of public property or the handling of public funds, either by way of receipt or disbursement or both, and all other officers and employees so required by the Council shall, before they enter upon the duties of their respective offices, file with the Village an official bond in such form and amount as the Council shall direct and approve. Such official bond of every officer and employee shall be conditioned that he will faithfully perform the duties of his office, and will on demand deliver over to his successor in office, or other proper officer or an agent of the Village, all books, papers, monies, effects and property belonging thereto, or appertaining

to his office, which may be in his custody as an officer or employee; and such bonds may be further conditioned as the Council prescribe. The official bond of every office whose duty it may be to receive or pay out money, besides being conditioned as above required, shall be further conditioned that he will, on demand, pay over or account for to the Village or any proper officer or agent thereof, all monies received by him as such officer or employee. The requirements of this paragraph may be met by the purchase of one or more appropriate blanket surety bonds covering all, or a group of, Village employees and officers.

All official bonds shall be corporate surety bonds and the premiums thereon shall be paid by the Village. All bonds of all officers or employees shall be filed with the Clerk, except that any bond pertaining solely to the Clerk, shall be filed with the Treasurer. No bond shall be issued for a term exceeding two years.

CHAPTER 5. VILLAGE ELECTIONS

Sec. 5.1. Election procedure.

The general election laws of the State shall apply to and control, as near as may be, all procedures relating to registration for and the conduct of Village elections, except as such general laws relate to political parties or partisan procedure, or require more than one publication of notice, and except as otherwise provided by this Charter.

Sec. 5.2. Qualifications of electors.

Each person who has the constitutional qualifications at the next ensuing regular or special Village election, shall be entitled to register as an elector of the Village of Lake Orion in the voting district in which he resides.

Sec. 5.3. Primary election.

A non-partisan Village primary election shall be held on the third Monday of February of each year. If, upon the expiration of the time for filing nomination petitions for the officers of the Village with respect to which elections are to be held at the next regular Village election, it appears that petitions have been filed for no more than twice the number of candidates for each such office, then no primary election shall be held and the Clerk shall publish notice of such fact. It is the intent of this section that if a primary is required for any office, it shall be held for all offices which are to be filled at the next regular Village election. The candidates for nomination for each Village office to be filled at the next Village election, in number equal to twice the number of persons to be elected to such Village office, receiving the highest number of votes at any such Village primary election shall be declared the nominees for election to the respective offices for which they are candidates for election and their names, and the names of persons filing petitions, or in whose behalf petitions have been filed in cases where no primary election was held, shall be certified to the election commission to be placed upon the ballot for

the next subsequent regular Village election. No person whose name is not printed on the primary election ballot, but whose name is written on or appears on the ballot on a sticker pasted thereon at such election, except such stickers as have been placed thereon by the election commission as provided by law, shall be nominated for election to any office, unless he receives at least 25 votes nominating him for such office.

Editor's note—The 2004 amendments to Michigan election law take precedence over section 5.3 of the Village Charter and abolished the Village primary election as confirmed in a Village Council resolution adopted on November 8, 2004.

Sec. 5.4. Regular Village election.

The Village's regular election shall be held on the general election date in November of even numbered years, commencing in 2013, such elections to be conducted by the Village Clerk. (Am. Res. of 11-8-2004; Am. Res. of 11-10-2012; Am. Res. of 11-10-2014)

Sec. 5.5. Special elections.

Special Village elections shall be held when called by resolution of the Council at least 40 days in advance of such election, or when required by this Charter or statute. Any resolution calling a special election shall set forth the purpose of such election. The Council shall not call more special elections within any year than the number permitted by statute.

Sec. 5.6. Election precincts.

The Council shall, by ordinance, establish convenient election precincts which shall comply with the provisions of State law.

Sec. 5.7. Election Commission.

An election commission is hereby created, consisting of the members of the Council. The President shall be chairman. The commission shall have charge of all activities and duties required of election commissions in villages by State law and this Charter, relating to the conduct of elections in the Village. The compensation of election personnel shall be determined in advance by the Council. In any case where election procedure is in doubt, the election commission shall prescribe the procedure to be followed.

Sec. 5.8. Notice of election.

Notice of the time and place of holding any Village election and of the officers to be nominated or elected and the questions to be voted upon shall be given by the Clerk by publication at least once in some legal newspaper of general circulation in the Village and, if deemed advisable by the Council, by posting in two or more conspicuous places in the Village not less than ten days prior to such election.

Sec. 5.9. Voting hours.

The polls of all elections shall be opened and closed at the time prescribed by law for the opening and closing of polls at State elections.

Sec. 5.10. Nomination petitions.

Persons desiring to qualify as candidates for nomination for any elective office under this Charter shall file a petition therefor with the Clerk signed by not less than 25 nor more than 50 registered electors of the Village not later than 4:00 p.m. on the seventh Wednesday prior to the date of the regular Village primary election. Official blank petitions in substantially the same form as required by State law for State and County officers, except for references to party, shall be prepared and furnished by the Clerk. Before the Clerk shall furnish any nomination petitions to any person, he shall enter thereon in ink the name of the person desiring to become a candidate for office in the Village, or the person in whose behalf the petition is to be circulated, and the name of the office for which he is a candidate. Nomination petitions for the purpose of filling a vacancy shall so state in connection with the name of the office for which the petition is to be circulated. The Clerk shall publish notice of the last day and time for filing nomination petitions at least one week before, and not more than three weeks before that date. No person shall sign his name to a greater number of petitions for any one office than there will be persons elected to said office. Where any name appears on more petitions than there are candidates to be elected to said office, the signatures for that name, if they bear the same date, shall not be counted upon any petition, and if they bear different dates shall be counted in the order of their priority of date for only so many candidates as there are persons to be elected.

Sec. 5.11. Approval of petitions.

The Clerk shall accept for filing only nomination petitions on official blanks, furnished by him, containing the required number of signatures for candidates having those qualifications required for elective Village officers by this Charter. When petitions are filed by persons other than the person whose name appears thereon as a candidate, they may be accepted for filing only when accompanied by the written consent of the person in whose behalf the petition or petitions were circulated. The Clerk shall, within five days after the final day and hour for receiving nomination petitions, determine the sufficiency of the signatures on each petition filed, and if he finds any petition does not contain the required number of legal signatures of registered electors, he shall immediately notify the candidate in writing, by registered mail with return receipt requested, of the insufficiency of his petition. Each petition which is found by the Clerk to contain the required number of signatures of registered electors shall be marked "In Order," with the date thereof, and he shall so notify the candidate whose name appears thereon, in writing.
(Am. Ord. of 3-12-1984)

Sec. 5.12. Public inspection of petitions.

All nomination petitions shall be open to public inspection in the office of the Clerk beginning five days after the final filing date for such petitions.

Sec. 5.13. Form of ballots.

The form of the ballot used in any Village election shall conform as nearly as may be to that prescribed by the general laws of the State for non-partisan elections. The names of candidates for nomination or of qualified nominees, as the case may be, for each office shall be listed in a single column and shall be rotated on the ballots. In all other respects the printing and numbering of ballots shall conform to the general laws of the State relating to elections.

Sec. 5.14. Canvass of votes.

(a) The Council shall be the board of canvassers to canvass the votes cast at all elections under this Charter. The Council shall meet on the first Thursday after each Village election and publicly canvass the returns of such election, and shall determine the vote upon all questions and propositions, and declare whether the same have been adopted or rejected and what persons have been nominated or elected at such election. The person, or persons, where more than one are to be nominated for or elected to the same office, who shall receive the greatest number of votes shall be declared to be nominated or elected, as the case may be.

(b) Certification. The Village Clerk shall file in his office and preserve the original statement and determination of the Village Board of Canvassers of the results of the elections and shall forthwith execute and cause to be delivered to the persons thereby declared to be elected to Village offices, a certification of election certified by him.

Sec. 5.15. Recount.

A recount of the votes cast at any Village election for any office, or upon any proposition, may be had in accordance with the general election laws of the State.

Sec. 5.16. Recall.

Any elective official may be removed from office by the electors of the Village in the manner provided by the general laws of the State. A vacancy created by the recall of any elective official shall be filled in the manner prescribed by law.

Sec. 5.17. Tie vote.

If, at any Village election, there shall be no choice between candidates by reason of two or more persons having received an equal number of votes, then the Council shall name a date for the appearance of such persons for the purpose of determining the election of such candidate by lot as provided by State law. Should any person or persons fail or refuse to appear, in person

or by representative, after notice to each of such candidates of a place and time therefor, to determine the result of any tie election at the time and place named by the Council, such determination shall be made by lot in his or their absence and under the supervision of the Council. Such determination shall, in any event, be final.

CHAPTER 6. FUNCTIONS OF THE COUNCIL

Sec. 6.1. Public health and safety.

Through the established departments and agencies of the Village government, together with any such departments or agencies as may be created under authority of this Charter, the Council shall provide for the public peace and health and for the safety of persons and property.

Sec. 6.2. Police Department.

The Council shall maintain, within the administrative division of the Village, a Village police force which shall be under the direction of the Village Manager, to enforce all law and ordinances which are in force in the Village and to preserve peace and good order in the Village.

Sec. 6.3. Fire Department.

The Council shall be authorized to enact such ordinances and codes deemed appropriate for the protection of persons and property in the Village from the damages and destructive force of fire. The Council shall be further authorized to provide for the services of a fire department through services rendered by the Charter Township of Orion, funded by a township-wide millage, or by entering into a contract with another entity for such services, or by establishing, organizing and maintaining a fire department of the Village, or by a combination of such means.
(Am. Ord. of 12-9-1985)

Sec. 6.4. Health.

The Council together with the Village Manager, who shall be its Secretary and Executive Officer, will constitute the Board of Health of the Village. The Board of Health shall adopt rules and regulations for their own government and it and its officers and agents shall possess all powers, privileges, and immunities granted to boards of health by State law. The Board of Health shall have supervision of all matters relating to the sanitary condition of the Village and preservation of the life and health of its inhabitants. The President shall be the chairman of the Board of Health.

Sec. 6.5. Meetings of the Council.

(a) The regular meetings of the Council shall be held at 6:30 p.m. on the second and fourth Monday of each month in the Village Hall. Change in time and place shall be permitted upon proper legal notifications. If any time set for the holding of a regular meeting of the Council shall be a holiday, then such regular meeting shall be held on the next secular day which is not a holiday.

(b) Special meetings of the Council shall be called by the Clerk on the written request of the President or of any two members of the Council, on at least 24 hours' written notice to each member of the Council, designating the time, place and purpose of any meeting and served personally or left at his usual place of residence by the Clerk or someone designated by him. Notwithstanding the foregoing requirements for the calling of special meetings, any special meeting of the Council at which all members of the Council are present or have, in writing, waived the requirement that notice be given at least 24 hours prior to the time specified for the holding of such meeting and at which a quorum of the Council is present shall be a legal meeting.

(c) No business shall be transacted at any special meeting of the Council unless the same has been stated in the notice of such meeting. However, if all the members of the Council are present at any special meeting of the Council, then any business which might lawfully come before a regular meeting of the Council may be transacted at such special meeting.

(d) All regular and special meetings of the Council shall be open to the public and the rules of order of the Council shall provide that citizens shall have a reasonable opportunity to be heard.

(e) Four members of the Council shall be a quorum for the transaction of business at all meetings of the Council, but, in the absence of a quorum, the President or any three members may adjourn any regular or special meeting to a later date.

(f) Except that there shall be no standing committees of the Council, the Council shall determine its own rules and order of business and shall keep a journal of all of its proceedings in the English language which shall be signed by the President and the Clerk. The vote upon the passage of all ordinances, and upon the adoption of all resolutions shall be taken by "Yes" and "No" votes and entered upon the record, except that where the vote is unanimous, it shall only be necessary to so state. Each member of the Council who shall be recorded as present shall vote on all questions decided by the Council unless excused by the unanimous consent of the other members present. Any citizen or taxpayer of the Village shall have access to the minutes and records of all regular and special meetings of the Council at all reasonable times.

(g) The Council may, by vote of not less than three of its members, compel the attendance of its members and other officers of the Village at its regular and special meetings and enforce orderly conduct therein; and any member of the Council or other officer of the Village who

refuses to attend such meetings or conduct himself in an orderly manner thereat shall be deemed guilty of misconduct in office. The Chief of Police or a member of the Lake Orion Police Force designated by him when it is necessary for the Chief of Police to be absent shall serve as Sergeant at Arms of the Council in the enforcement of the provisions of this section.

Sec. 6.6. Intergovernmental contracts.

The Village may join with any governmental unit or agency, or with any number or combination thereof, by contract or otherwise as may be permitted by law to perform jointly, or by one or more, for or on behalf of the other or others, any power or duty which is permitted to be so performed by law or which is possessed or imposed upon each such governmental unit or agency.

Sec. 6.7. Licenses.

The Council shall by ordinance prescribe the terms and conditions upon which licenses may be granted, suspended, or revoked; and may require and exact payment of such reasonable sums for any licenses as it may deem proper. The persons receiving the licenses shall, before the issuing thereof, execute a bond to the Village, when required by any ordinance, in sum and with such securities as prescribed by such ordinance, conditioned for the faithful observance of the Charter of the Village, and the ordinance under which the license is granted.

Sec. 6.8. Streets and alleys.

Except, insofar as limited by State law and the provisions of this Charter, the Council shall have power to establish and vacate and use, and to control and regulate the use of its streets, alleys, bridges, and public places (whether such public places be located within or without the limits of the Village) and the space above and beneath them. Such power shall include, but not be limited to, the proper policing and supervision thereof; to the licensing and regulation, or the prohibition of the placing of signs, awnings, awning posts, and other things which are of such nature as to impede or make dangerous the use of sidewalks or streets, upon or over the sidewalks or streets of the Village; and the licensing and regulation of the construction and use of openings in the sidewalks or streets, and of all vaults, structures, and excavations under the same.

Sec. 6.9. Public highways, grounds; procedure to vacate.

When the council shall deem it advisable to vacate, discontinue, or abolish any highway, street, lane, alley or public ground or any part thereof, they shall by resolution so declare, and in the same resolution shall appoint a time not less than four weeks thereafter when they will meet and hear objections thereto; notice of such meeting, with a copy of said resolution shall be given in such manner as shall be prescribed by ordinance or resolution. Objections to such

proposed action of the council may be filed with the Clerk in writing, and if any such shall be filed, the street, alley or public ground, or any part thereof shall not be vacated or discontinued except by the affirmative vote of five councilmen.

Sec. 6.10. Rights as to property.

The Council shall have the power to acquire for the Village by purchase, gift, land contract purchase, condemnation, lease, construction or otherwise, either within or without the Village of Lake Orion, property of every type and nature which may be required for or incidental to the present or future exercise of the purpose, powers, and duties of the Village government established by this Charter and may build thereon, and on any other property owned or leased by the Village, such buildings or structures as may be necessary to carry out the purposes for which such land is owned or leased.

Sec. 6.11. Investigations.

The Council, or any person or committee authorized by it for the purpose, shall have power to inquire into the conduct of any department, office, or officer of the Village and to make investigations as to municipal affairs, and for that purpose may subpoena witnesses, administer oaths, and compel the production of books, papers and other evidence. Failure on the part of any officer of the Village to obey such subpoena or to produce books, papers, or other evidence as ordered under the provisions of this section shall constitute misconduct in office. If such failure shall be on the part of any employee of the Village, the same shall constitute a misdemeanor.

Sec. 6.12. Restriction on the Council.

(a) Except for the purpose of inquiry, and in case of emergency during the temporary absence or disability of the Village Manager, the Council and its members shall deal with the administrative service solely through the Village Manager and neither the Council nor any member thereof shall give orders to any subordinate of the Village Manager, either publicly or privately; neither shall any member of the Council direct or request: (1) except for the election of those administrative officers required to be elected by the Council, the appointment of any person to, or the removal of, any person from any employment or office for which the Village Manager is responsible; nor (2) except at public meetings and in cases of letting of contracts, the purchase of any specific materials, supplies or equipment. It is not the intention of this provision to prevent frank discussion of the business of the Village between the Village Manager and the Council or any member of the Council at any time, but to prevent the personal favoritism or prejudice of any member of the Council from hampering the administration of the Village government as set forth in this Charter.

(b) The Council shall not have the power to make any contract with or give any official position to any person who is in default to the Village. No real estate shall be sold, nor leased, in excess of three years, without first being appraised by at least one qualified appraiser within 60 days prior to the proposed sale or lease; which proposed sale or lease to be on a bid basis pursuant to public notice. The Council shall reserve the right to reject any and all bids. The Council shall not sell any park, cemetery or any part thereof, or any property bordering on a waterfront, nor shall the Council engage in any business enterprise requiring an investment of money in excess of $2,500.00 unless approved by a majority vote of the electors of the Village voting thereon. Except as otherwise provided in this Charter, no ordinance or resolution shall be adopted or passed except by the affirmative vote of at least four members of the Council. (Am. Ord. of 3-12-1984)

Sec. 6.13. Prohibited interest in Village business.

No member of the Council, nor any officer of the Village, unless approved by the unanimous vote of the remaining members of the Council, shall be interested, directly or indirectly, in any contract made, or service to be performed, for or on behalf of the Village. The approval herein required shall, in each instance, be spread upon the records of the Council and published in full when the minutes of the meeting at which such approval was given are published. Any violation of this provision shall constitute misconduct in office.

CHAPTER 7. VILLAGE LEGISLATION

Sec. 7.1. Ordinance enactment.

(a) The Council is empowered to adopt, continue, amend or repeal Village ordinances.

(b) All legislation of the Village of Lake Orion shall be by ordinance or by resolution. The word "Resolution" as used in this Charter shall be the official action of the Council in the form of a motion, and such action shall be limited to matters required or permitted to be done by resolution by this Charter or by State or Federal law and to makers pertaining to the internal affairs or concerns of the Village government. All other acts of the Council, and all acts carrying a penalty for the violation thereof, shall be by ordinance. Each ordinance shall be identified by a number and a short title. Each proposed ordinance shall be introduced in written or printed form, and, except for emergency ordinances, a synopsis published not less than 15 days prior to its enactment in some legal newspaper of general circulation in the Village. All ordinances, when enacted shall be immediately recorded by the Clerk in a book called "The Ordinance Book"; and it shall be the duty of the President and Clerk to authenticate such record by their official signatures thereon. The style of all ordinances passed by the Council shall be, "The Village of Lake Orion Ordains."

(c) The Council is empowered to pass an emergency ordinance so as to be given immediate effect. Such ordinance shall contain a declaration of such emergency and the reasons therefor and can be passed only upon the affirmative vote of five councilmen. Any such ordinance shall be limited to be effective for a period of not more than 60 days from the adoption thereof and any such ordinance shall not be effective beyond such 60-day period unless such emergency ordinance has been enacted as a regular ordinance in accordance with the provisions of this Charter.

Sec. 7.2. Penalties.

The Council shall provide in each ordinance for the punishment of those who violate its provisions. No punishment for the violation of any Village ordinance or for the commission by any officer of the Village of any act declared by this Charter to constitute misconduct in office shall exceed a fine of $500.00 dollars, payment of court costs, or imprisonment for 90 days, or all of these in the discretion of the court, except that any officer of the Village found guilty of any act declared by this Charter to constitute misconduct in office shall, in addition to such fine, payment of court costs, or imprisonment, or all of these, forfeit his office.
(Am. Ord. of 3-12-1984)

Sec. 7.3. Ordinance; effective date.

A synopsis of each ordinance passed by the Council shall be published at least once in some legal newspaper of general circulation in the Village within 15 days after its adoption by the Council. All ordinances of the Village shall become effective immediately upon the publication of said synopsis after having been passed, unless a date upon which an ordinance shall become effective, which is subsequent to the date of the publication of said synopsis is specifically provided in the ordinance itself.
(Am. Ord. of 3-12-1984)

Sec. 7.4. Technical codes.

The Council may adopt any provision of State law or any plumbing code, electrical code, or building code which has been promulgated by the State of Michigan or by any department, board, or other agency thereof, or by any organization or association which is organized and conducted for the purpose of developing any such code or codes by reference thereto in an adopting ordinance and without publishing any such code in full; provided that said code is clearly identified in said ordinance and that the purpose of said code shall be published with the adopting ordinance and that printed copies thereof are kept in the office of the Clerk, available for inspection, or distribution at cost, to the public at all times; provided, further, that the publication shall contain a notice to the effect that a complete copy of said code is available for public use and inspection at the office of the Clerk. Any amendment to or revision of such adopted code or detailed technical ordinance may be published in the same manner.

Sec. 7.5. Compilation.

(a) Copies of all ordinances enacted and amendments to the Village Charter adopted after the effective date of this Charter shall be available at the office of the Clerk.

(b) Within two years after the adoption of this Charter and at least once in every five years the Council shall direct and complete the compilation or codification and the publication of the Charter and of all ordinances of the Village then in force, in loose leaf or pamphlet form, and may provide for a reasonable charge for copies thereof. No further publication of any such compilation or codification shall be required for the validity thereof. In case the compilation or codification of the ordinances of the Village shall have been maintained current and up-to-date during any five-year period, no recompilation or recodification of the ordinances of the Village shall be required during or at the end of such period.

The copies of ordinances and of any compilation, code, or codes referred to in this Charter may be certified by the Clerk, and, when so certified, shall be competent evidence in all courts and legally established tribunals as to the matters contained therein.

Sec. 7.6. Initiative and referendum.

An ordinance may be initiated by petition, or a referendum or an ordinance enacted by the Council may be had, by a petition, as hereinafter provided.

Sec. 7.7. Petitions.

An initiatory or a referendary petition shall be signed by not less than 15 percent of the registered electors of the Village who have signed said petition within six months before the date of filing the petition with the Clerk. Before being circulated for signatures, all such petitions shall be approved as to form by the Clerk. No such petition need be on one paper, but may be the aggregate of two or more petition papers. Each signer of a petition shall sign his name in ink or indelible pencil, and shall place thereon, after his name, the date and his place of residence by street and number, or by other customary designation. To each petition paper there shall be attached a sworn affidavit by the circulator thereof, stating the number of signers thereto and that each signature is that of the person whose name it purports to be, and that it was made in the presence of the affiant. Such petition shall be filed with the Clerk who shall, within ten days, canvass the signatures thereon to determine the sufficiency thereof. If found to contain an insufficient number of signatures of registered electors of the Village, or to be improper as to form or compliance with the provisions of this section, the Clerk shall notify forthwith the person filing such petition and ten days from such notification shall be allowed for the filing of supplemental petition papers. When found sufficient and proper, the Clerk shall present the petition to the Council at its next regular meeting.

Sec. 7.8. Council procedure.

Upon receiving an initiatory or referendary petition from the Clerk, the Council shall, within 30 days after publication in accordance with section 7.1, either:

(a) If it be an initiatory petition, adopt the ordinance as submitted in the petition or determine to submit the proposal to the electors of the Village.

(b) If it be a referendary petition, repeal the ordinance to which the petition refers or determine to submit the proposal to the electors of the Village.

Sec. 7.9. Submission to electors.

Should the Council decide to submit the proposal to the electors, it shall be submitted at the next election held in the Village for any other purpose, or, in the discretion of the Council, at a special election. The result shall be determined by a majority vote of the electors voting thereon, except in cases where otherwise required by the constitution or laws of the State of Michigan.

Sec. 7.10. Ordinance suspended.

The certification by the Clerk of the sufficiency of a referendary petition within 30 days after the passage of the ordinance to which such petition refers shall not suspend the operation of the ordinance in question pending repeal by the Council or final determination by the electors as the case may be. An ordinance adopted by the electorate through initiatory proceedings may not be amended or repealed by the Council for a period of two years after the date of the election at which it was adopted. Should two or more ordinances, adopted at the same election, have conflicting provisions, the one receiving the highest vote shall prevail as to those provisions.

CHAPTER 8. GENERAL FINANCE

Sec. 8.1. Fiscal year.

The fiscal year of the Village shall begin on the first day of July and end on the 30th day of June of the following year. Such year shall constitute the budget year of the Village government.

Sec. 8.2. Budget procedure.

On or before the first Monday in March, each Village officer shall submit to the Village Manager an itemized estimate of the expenditures for the next fiscal year, for the department or activities under his control. The Village Manager shall prepare a complete itemized budget proposal for the next fiscal year and shall submit it to the Council at its first regular meeting in April.

Sec. 8.3. Budget document.

The budget document shall present a complete financial plan for the ensuing fiscal year. It shall include at least the following information:

(a) Detailed estimates of all proposed expenditures for each department and office of the Village showing the expenditures for corresponding items for the current and last preceding fiscal year, including contingent, miscellaneous or other similar fund expenditures, with reasons for increases and decreases recommended, as compared with appropriations for the current year;

(b) Statements of the bonded and other indebtedness of the Village, showing the debt redemption and interest requirement, the debt authorized and unissued, and the condition of sinking funds, if any;

(c) Detailed estimates of all anticipated income of the Village from sources other than taxes and borrowing, with a comparative statement of the amounts received by the Village from each of the same or similar sources for the last preceding and current fiscal year;

(d) A statement of the estimated balance or deficit, as the case may be, for the end of the current fiscal year;

(e) An estimate of the amount of money to be raised from current and delinquent taxes and the amount to be raised from bond issues which, together with income from other sources, will be necessary to meet the proposed expenditures and commitments of the Village government during the ensuing year;

(f) Such other supporting schedules as the Council may deem necessary.

Sec. 8.4. Budget hearing.

A copy of the budget proposal shall be on file and available to the public in the office of the Clerk during regular office hours for a period of not less than one week prior to the adoption of the budget by the Council. Notice of the requirement that the budget proposal is so required to be filed shall be published by the Clerk in a legal newspaper of general circulation in the Village not less than 15 days prior to the adoption of the budget by the Council; provided, however, that failure to give such notice shall not invalidate the adoption of any budget.

Sec. 8.5. Adoption of budget, tax limit.

Not later than the first regular meeting in May, the Council shall, by resolution, adopt the budget for the next fiscal year and shall, in such resolution make an appropriation of the money needed for municipal purposes during the ensuing fiscal year of the Village and provide for a levy of the amount necessary to be raised by taxes upon real and personal property for municipal purposes, which levy shall not exceed two percent of the assessed valuation of all real

and personal property subject to taxation in the Village. The levy so provided shall be known and referred to as the Charter tax rate of the Village of Lake Orion and shall be subject to all provisions of State law and the Michigan Constitution pertaining thereto.

Sec. 8.6. Transfer of appropriations.

After the budget has been adopted, no money shall be drawn from the treasury of the Village nor shall any obligation for the expenditure of money be incurred, except pursuant to the budget appropriations. The Council may transfer any unencumbered appropriation balance, or any portion thereof, from one department, fund, or agency to another. The balance in any appropriation which has not been encumbered at the end of the fiscal year shall revert to the general fund and be reappropriated during the next fiscal year.

Sec. 8.7. Budget control.

At the beginning of each quarterly period during the fiscal year, and more often if required by the Council, the Village Manager shall submit to the Council data showing the relation between the estimated and actual income and expenses to date; and if it shall appear that the income is less than anticipated, the Council may reduce appropriations, except amounts required for debt and interest charges to such a degree as may be necessary to keep expenditures within the cash income.

Sec. 8.8. Depository.

The Council shall designate the depository or depositories for Village funds and shall provide for the regular deposit of all Village monies. The Council shall provide for such security for Village deposits as is authorized or permitted by the general laws of the State, except that personal surety bonds shall not be deemed proper security.

Sec. 8.9. Independent audit.

An independent audit shall be made of all accounts of the Village government at least annually and more frequently if deemed necessary by the Council. Such audit shall be made by public accountants experienced in municipal accounting. The results of such audit shall be made public by publishing in condensed form in some legal newspaper of general circulation in the Village.

CHAPTER 9. TAXATION

Sec. 9.1. Power to tax and secure revenue.

In order to carry out the purposes, powers, and duties of the Village government established by this Charter, the Village may assess, levy, and collect taxes, rents, tolls, and any other taxes as may be authorized by State law.

Sec. 9.2. Subjects of taxation.

The subjects of ad valorem taxation for municipal purposes shall be the same as for State, County and school purposes under the general law. Except as otherwise provided by this Charter, Village taxes shall be levied, collected, and returned in the manner provided by State law.

Sec. 9.3. Assessments.

Unless otherwise provided by State law, the 31st day of December in each year shall be the assessment day for both real and personal property in the Village.

Sec. 9.4. Time for making assessments rolls.

The Assessor shall make and complete an assessment roll of the Village in the manner and form provided in the general tax law of the State, not later than the first Monday in March of each year, on which date he shall file such roll with the Clerk for public inspection during the normal office hours of the Clerk until the date of the convening of the Board of Review, on which date the Clerk shall turn such assessment roll over to the Board of Review.

Sec. 9.5. [Repealed].

Sec. 9.6. [Repealed].

Sec. 9.7. [Repealed].

Sec. 9.8. [Repealed].

Sec. 9.9. Clerk to certify tax levy.

Within three days after the Council has adopted the budget for the ensuing year, the Clerk shall certify to the Assessor the total amount which the Council determines shall be raised by general tax; all amounts of special assessments which the Council requires to be assessed or re-assessed upon any property or against any person; and all other amounts which the Council may determine shall be charged, assessed, or re-assessed against any person or property.

Sec. 9.10. Village tax roll.

After the last day for the meeting of the Board of Review, the Assessor shall, upon receiving the certification of the several amounts to be raised, as provided in the preceding section, proceed forthwith to spread upon the assessment roll the several amounts determined by the Council to be charged, assessed, or re-assessed against persons or property; and shall also proceed to spread the amounts of the general Village tax according to and in proportion to the

several valuations set forth in said assessment roll. For the purpose of avoiding fractions in computation, the Assessor may add to the amount of the several taxes to be raised not more than one percent; said excess shall belong to the Village.

Sec. 9.11. Tax roll certified for collection.

After extending the taxes aforesaid and not later than the 15th day of June in each year, the Assessor shall certify said tax roll, and the President shall annex his warrant thereto, directing and requiring the Treasurer to collect from the several persons named in said roll the several sums mentioned therein opposite their respective names as a tax or assessment, and granting to him, for the purpose of collecting the taxes, assessments, and charges on such roll, all the power and immunities possessed by township treasurers for the collection of taxes under the general laws of the State.

Sec. 9.12. Taxes lien on property.

The Village taxes thus assessed shall become at once a debt due to the Village from the persons to whom they are assessed, and the amounts assessed on any interest in real property shall on the first of July become a lien upon such real property, and the lien for such amounts and for all interest and other charges thereon shall continue until payment thereof. All personal taxes shall also be a first lien, prior, superior, and paramount, upon all personal property of the persons so assessed from and after the first day of July in each year and shall so remain until paid, which said tax liens shall take precedence over all other claims, encumbrances and liens upon said personal property whatsoever, whether created by chattel mortgage, execution, levy, judgment, or otherwise, and whether arising before or after the assessment of said personal taxes, and no transfer of personal property assessed for taxes thereon shall operate to divest or destroy such lien except where such personal property is actually sold in the regular course of retail trade.

Sec. 9.13. Taxes due; notification.

The Treasurer shall not be required to call upon the persons named in the Village tax roll, nor to make personal demand for the payment of taxes, but he shall give notice to the tax payers of the Village, by publication in a legal newspaper of general circulation in the Village at least once, which publication of notice shall be made at least ten days prior to the first day of July in each year, of the time when said taxes will be due for collection and shall give such notice of the time when said taxes will be due for collection by first class mail addressed to the owners of the property upon which taxes are assessed according to the names of such owners and their addresses as indicated on the tax roll, which notice shall be deemed sufficient for the payment of all taxes on said tax roll. Failure on the part of the Treasurer to give said notices shall not invalidate the taxes on said tax roll nor release the person or property assessed from any penalty or interest provided in this chapter in case of nonpayment of the same.

Sec. 9.14. Collection of Village taxes.

Village taxes shall be due and payable on the first day of July of each year and may be paid at the Office of the Village Treasurer during the regular business hours of the Village Office until and including August 31. To all taxes paid after August 31 there shall be added a penalty, and to all taxes paid after said date there shall also be added interest for each month or fraction of a month intervening between said date and the date of payment, or the last day of February immediately following, whichever date shall first occur. The amount of such penalty and interest shall be up to the maximum amount authorized by law, with the specific amounts to be established by ordinance which shall be duly adopted and effective prior to the due date of the tax in question, such ordinance to remain effective until duly amended. The added penalties and interest herein provided shall belong to the Village and shall constitute a charge and shall be a lien against the property to which the taxes themselves apply, collectible in the same manner as the taxes to which they are added.
(Am. Ord. of 12-9-1985)

Sec. 9.15. Delinquent tax roll to County Treasurer.

If the Treasurer has been unable to collect any of the Village taxes on said roll on real property before the first day of March following the date when said roll was received by him, it shall be his duty to return all such unpaid taxes on real property to the County Treasurer in the same manner and with like effect as returns by township treasurers of township, school, and County taxes. Such returns shall be made upon a delinquent tax roll to be prepared by the Treasurer and shall include all the additional charges and fees hereinbefore provided, which charges shall, in such return, be added to the amount assessed in said tax roll against each description. The taxes thus returned shall be collected in the same manner as other taxes returned to the County Treasurer are collected under the provisions of the general laws of the State and shall be and remain a lien upon the lands against which they are assessed, until paid.
(Am. Ord. of 12-9-1985)

Sec. 9.16. Protection of Village lien.

The Village shall have power, insofar as the exercise thereof shall not conflict with or contravene the provisions of any general law of the State, to acquire by purchase any premises within the Village at any tax or other public sale, or by direct purchase from the State of Michigan or the fee owner when such purchase is necessary to protect the lien of the Village for taxes or special assessments, or both, on said premises and may hold, lease, or sell the same solely for the purpose of securing therefrom the amount of such taxes or special assessments, or both, together with any incidental expenses incurred in connection with the exercise of this power. Any such procedure exercised by the Village in the protection of its tax lien shall be deemed to be for a public purpose.

CHAPTER 10. MUNICIPAL BORROWING POWER

Sec. 10.1. General power to borrow.

Subject to the applicable provisions of State law and this Charter, the Council, by proper ordinance or resolution, may authorize the borrowing of money for any purpose within the scope of the powers vested in the Village and the issuance of bonds of the Village or other evidence of indebtedness therefor, and may pledge the full faith, credit, and resources of the Village for the payment of the obligation created thereby; provided that the net bonded indebtedness incurred for all public purposes shall not at any time exceed ten percentum of the assessed value of all real and personal property in the Village. The Village shall also have power to issue special assessment, mortgage, revenue, or other types of bonds, beyond the debt limits fixed by law for the issuance of bonds or other evidence of indebtedness which are a general obligation of the Village, in the manner and for the purpose permitted by the Charter, the Constitution, and the general laws of the State of Michigan, including Act. No. 278, P.A. 1909, under which the Village is incorporated. Bonds issued in anticipation of the payment of special assessments may be an obligation of the special assessment district or may be both an obligation of the special assessment district and a general obligation of the Village. All collections on special assessment rolls shall be set apart in a special fund and shall be used only for the purpose or purposes for which they were levied and for the payment of the principal and interest of any bonds issued in anticipation of the payment of such special assessments. If there be any deficiency in the special assessment fund to meet the payment of any such principal and interest, monies shall be advanced from the general funds of the Village to meet such deficiency and shall be replaced in such general fund when the special assessment fund shall be sufficient therefor. Bonds issued by the Village shall bear interest, as determined by the Council, up to the maximum amount allowed by law and the Constitution; provided, however, no bond shall bear interest at a rate higher than one percent above the highest rate paid on a bond of the County of Oakland issued during the 12-month period immediately preceding the date the interest rate on the bond is determined.
(Am. Ord. of 12-9-1985)

Sec. 10.2. Unissued bonds.

No unissued bonds of the Village shall be issued or sold to secure funds for any purpose other than that for which they were specifically authorized, and if any such bonds are not issued or sold within five years after authorization, such authorization shall, as to such bond, be null and void.

CHAPTER 11. PUBLIC IMPROVEMENTS, CONTRACTS, UTILITIES

Sec. 11.1. Village may perform public work.

The Council shall have power to do any public work or make any public improvement by the employment of the necessary labor and the purchase of the necessary supplies and materials

with separate accounting as to each improvement so made, or to do such work by contract duly let after competitive bidding. Where competitive bids are secured, the Village, or any Village department qualified to do the work, may enter a bid on an equal footing with other bidders. The Council shall also have the power to do any public work or make any public improvement under any legally constituted plan under which the labor is furnished by any other governmental unit, department, or agency of the United States or the State of Michigan, or which is wholly or in part financed by them or either of them.

Sec. 11.2. Purchasing and contractual procedure.

Before making any purchase or contract for supplies, materials, equipment, or contractual services, opportunity shall be given for competition, under such rules and regulations, and with such exceptions as the Council may by ordinance prescribe. All expenditures for supplies, materials, equipment, or contractual services involving more than $1,000.00 shall be made on written contract, and such contract shall be awarded to the lowest competent bidder meeting specifications and whose bid is most advantageous to the Village after such public notice and competition as may be prescribed by ordinance; provided, however, that the Council shall have the power to reject all bids and advertise again. The Council shall provide, by ordinance, for the ordinary purchasing procedure to be followed in purchasing Village supplies.

Sec. 11.3. Nuisances and hazards.

When any lot, building, or structure within the Village, because of accumulation of refuse or debris, the uncontrolled growing of weeds, or age or dilapidation, or because of any other condition or happening, becomes, in the opinion of the Council, a public hazard or nuisance which is dangerous to the health or safety of the inhabitants of the Village or of those of them residing or habitually going near such lot, building, or structure, the Council may, after investigation, give notice to the owner of the land upon which such hazard or nuisance exists, or to the owner of the building or structure itself, specifying the nature of the nuisance, to promptly have it eliminated within a time to be specified by the Council which shall be commensurate with the nature of the nuisance. If, at the expiration of the time limit in said notice, said owner has not complied with the requirements thereof, or in any case where the owner of the land or of the building or structure itself is not known, the Council may order such hazard or nuisance abated by the proper department or agency of the Village which is qualified to do the work required and the cost of such abatement, assessed against the lot, premises, or description of real property upon which such hazard or nuisance was located. Procedure to be followed to make this section fully effective shall be established by ordinance.

Sec. 11.4. Cost of acquired property added.

Whenever any property is acquired by condemnation, or otherwise, for the purpose of any public improvement, the cost thereof, and of the proceedings required to acquire such property, may be added to the cost of such improvement.

Sec. 11.5. Sidewalks, curbs, and gutters.

The Council may prescribe that sidewalks, except crosswalks, shall be built by the owners of lands within the Village which abut upon such sidewalks in the manner and within the time prescribed by ordinance; provided that in case of failure of any such owner to comply with the provisions of such ordinance, the Village may build or cause to be built such sidewalk and assess the cost thereof against such owner and against the land improved thereby, in the manner prescribed by the Council by ordinance.

Sec. 11.6. Condemnation.

(a) Private property may be taken and appropriated for public use by the Village of Lake Orion, either within or without its limits, for the purposes of opening, widening, altering and extending streets, alleys and avenues; for the construction of bridges, for public buildings and for other public structures; for public grounds, parks, market places and spaces; for the improvement of water courses; for the providing of water and utilities; for the acquisition and improvement of property for the public parking of motor vehicles; for sewers, drains and ditches; for public hospitals, pest houses, quarantine grounds and public cemeteries; for jails and firehalls and other lawful and necessary public uses.

(b) If it shall become necessary to take and appropriate private property for the public uses for the purposes specified in the preceding [sub]section, the right to occupy and hold the same and the ownership therein and thereto, may be acquired by the Village in the manner and with like effect, as provided by any of the general laws, statutes or Constitution of this State relating to the taking of private property for public use by cities and villages.

CHAPTER 12. ASSESSMENTS

Sec. 12.1. General power relative to special assessments.

The Council shall have the power to determine by resolution that the whole or any part of the expense of any public improvement be defrayed by special assessment upon the property especially benefited in proportion to the benefits derived or to be derived.

Sec. 12.2. Procedure in providing for special assessments.

(a) No resolution determining to proceed with any public improvement to be defrayed by special assessment shall be enacted until cost estimates have been prepared and a public hearing has been held on the advisability of so proceeding, which hearing shall be held not less than ten days after notice thereof has been published and sent by first class mail to all property owners in the proposed district as shown by the current assessment roll of the Village.

(b) Such resolution shall state the nature of the public improvement, the estimated cost thereof, the portion of the cost to be paid by special assessment and the portion to be paid from the general funds of the Village, shall designate the district or lands and premises upon which such special assessments shall be levied and shall direct the method of determining the benefits upon the property in the district.

(c) The Assessor shall thereupon prepare a special assessment roll and shall enter and describe thereon all of the lands and premises to be assessed, together with the names of the persons, if known, owning such lands and chargeable with the assessment thereon, and shall assess the cost of such improvements against said lands and premises in the manner directed by the foregoing resolution. When such roll has been completed, it shall be endorsed by the Assessor and filed with the Clerk.

(d) A public hearing shall be held by the Council for the purpose of correcting and reviewing such roll, which hearing shall be held not less than ten days after notice thereof has been published and sent by first class mail to all property owners in the proposed district as shown by the current assessment roll of the Village. At such hearing the Council shall review said roll and hear all objections thereto and may correct the roll and may then, or at a later date, confirm the roll as reported or corrected. It is provided, however, that no original special assessment roll shall be confirmed except by the affirmative vote of five members of the Council if prior to such confirmation written objections to the proposed improvement have been filed by the owners of property which will be required to bear more than 50 percent of the amount of such special assessment.

(e) No public improvement to be financed in whole or part by special assessment shall be made before the confirmation of the special assessment roll for such improvement.

Sec. 12.3. Disposition of excessive special assessments.

The excess by which any special assessment proves larger than the actual cost of the improvement and expenses incidental thereto may be placed in the general fund of the Village if such excess is five percent or less of the assessment, but should the assessment prove larger than necessary by more than five percent the entire excess shall be refunded on a pro rata basis to the owners of the property assessed as shown by the current assessment roll of the Village. Such refunds shall be made by credit against future unpaid installments to the extent such installments then exist and the balance of such refund shall be in cash. No refunds may be made which contravene the provisions of any outstanding evidence of indebtedness secured in whole or part by such special assessment.

Sec. 12.4. Additional assessments; correction of invalid special assessments.

Additional pro rata assessments may be made when any special assessment roll proves insufficient to pay for the improvement for which it was levied and the expenses incident

thereto; provided that the additional pro rata assessment shall not exceed 25 percent of the assessment as originally confirmed unless a meeting of the Council be held to review such additional assessment, for which meeting notices shall be published and mailed as provided in the case of review of the original special assessment roll.

Whenever any special assessment shall, in the opinion of the Council, be invalid by reason of irregularity or informality in the proceedings, or if any court of competent jurisdiction shall adjudge such assessment to be illegal, the Council shall, whether the improvement has been made or not or whether any part of the assessment has been paid or not, have power to cause a new assessment to be made for the same purpose for which the former assessment was made. All proceedings on such reassessment and for the collection thereof shall be conducted in the same manner as provided for the original assessment, and whenever any sum or part thereof levied upon any property in the assessment so set aside has been paid and not refunded, the payment so made shall be applied upon the reassessment or if the payments exceed the amount of the reassessment refunds shall be made.

No judgment or decree nor any act of the Council vacating a special assessment shall destroy or impair the lien of the Village upon the premises assessed for such amount of the assessment as may be equitably charged against the same or as by regular mode of proceedings might have been lawfully assessed thereupon.

Sec. 12.5. Lien and collection of special assessments.

Lien. Upon the confirmation of each special assessment roll the special assessments shall become a debt to the Village from the persons to whom they are assessed and shall until paid be a lien upon the property assessed for the amount of such assessments and all interest and charges thereon. Such lien shall be of the same character and effect as created by this Charter for Village taxes.

Due date. Special assessments shall become due on such date as the Council shall prescribe.

Installment payments. Any assessment may be made payable in yearly installments not to exceed 15 in number. The initial installment shall be due on such date as the Council shall prescribe. Subsequent yearly installments shall be spread on the annual Village tax roll. The second installment shall be collected as part of the first Village tax roll which becomes due six months or more after the due date of the initial installment. All unpaid future installments, from such date as the Council shall prescribe, shall bear interest at a rate not exceeding six percent per annum, which interest computed to the following September 1 shall be spread yearly upon the Village tax roll together as one item with the amount of the installment then being spread. The Council may provide for advance payment of unpaid installments with interest computed to such date as the Council prescribes.

Collection fees. Each special assessment, or the initial installment of such assessment when installment payments are provided for, shall be collected by the Treasurer without collection fee

for a period ending on the last day of the second month following the month in which the assessment or initial installment falls due. On the first day of the third month following such due date, the Treasurer shall add to such assessment or initial installment a collection fee of two percent of the amount thereof, and on the first day of each succeeding month he shall add an additional one-half of one percent collection fee. All collection fees shall belong to the Village and be collectible in the same manner as the collection fee on Village taxes.

Delinquent assessments. Special assessments or initial installments which become due other than on July 1 shall, if unpaid for 30 days or more on May 1 of any year, be certified as delinquent to the Council by the Treasurer and the Council shall place such delinquent assessments on the tax roll for that year together as one item with accrued collection fees thereon to September 1 of such year.

Collection when part of tax roll. Special assessments, or installments thereof which become due on July 1 of any year, and delinquent assessments together with accrued interest and collection fees thereon which have been placed upon the Village tax roll, shall be collected in all respects as are Village taxes due on such date and shall be returned to the County Treasurer with such taxes if unpaid on the following March 1.

Sec. 12.6. Special assessment accounts.

Except as otherwise provided in this Charter, monies raised by special assessment for any public improvement shall be segregated in a special fund or account and may be used only to pay for the costs of the improvement for which the assessment was levied and expenses incidental thereto or to repay any money borrowed therefor.

Sec. 12.7. Contested assessments.

Except and unless notice is given to the Council in writing of an intention to contest or enjoin the collection of any special assessment for the construction of any pavement, sewer, or other public improvement, the construction of any sidewalk, or the removal or abatement of any public hazard or nuisance, within 30 days after the date of the meeting of the Council at which it is finally determined to proceed with the making of the improvement in question, which notice shall state the grounds on which the proceedings are to be contested, no suit or action of any kind shall be instituted or maintained for the purpose of contesting or enjoining the collection of such special assessment; and, regardless of whether or not any public improvement is completed in any special assessment district, no owner of real property located in such district shall be entitled to commence any suit or action for the purpose of contesting or enjoining the collection of any such special assessment after he has received a benefit from the substantial completion of that portion of such public improvement for which he is assessed.

Sec. 12.8. Additional procedure may be provided by ordinance.

The Council may provide by ordinance for any additional procedure in connection with the entire procedure of constructing improvements by special assessment not inconsistent with the provisions of this Charter.

Sec. 12.9. Failure to mail notice.

Failure to mail any notice required to be so sent by this chapter or by ordinance shall not invalidate any special assessment or special assessment roll.

CHAPTER 13. PUBLIC UTILITY FRANCHISES

Sec. 13.1. Right of regulation.

All public utility franchises granted after the adoption of this Charter, whether it be so provided in the granting ordinance or not, shall be subject to the right of the Village:

(a) To repeal the same for misuse, or non-use, or for failure to comply with the provisions thereof;

(b) To require proper and adequate extension of plant and service and maintenance thereof at the highest practicable standard of efficiency;

(c) To establish reasonable standards of service and quality of products, and prevent unjust discrimination in service or rate;

(d) To require continuous and uninterrupted service to the public in accordance with the terms of the franchise throughout the entire period thereof;

(e) To impose such other regulations as may be determined by the Council to be conducive to the safety, welfare, and accommodation of the public;

(f) To require the public utility to which any franchise is granted to permit joint use of its property and appurtenances located in the streets, alleys, and public places of the Village, by the Village, and other utilities insofar as such joint use may be reasonably practicable and upon payment of reasonable rents therefor; provided that in the absence of agreement, upon application by any public utility, the Council shall provide for arbitration of the terms and conditions of such joint use and the compensation to be paid therefor.

Sec. 13.2. Use of streets by utility.

Every public utility franchise shall be subject to the right of the Village to use, control and regulate the use of its streets, alleys, bridges, and public places and the space above and beneath them. Every public utility shall pay such part of the cost of improvement or maintenance of streets, alleys, bridges and public places, as shall arise from its use thereof and shall protect and

save the Village harmless from all damages arising from said use; and may be required by the Village to permit joint use of its property and appurtenances located in the streets, alleys, and public places of the Village, by the Village, and other utilities insofar as such joint use may be reasonably practicable and upon payment of reasonable rental therefor; provided that in the absence of agreement, upon application by any public utility, the Council shall provide for arbitration of the terms and conditions of such joint use and the compensation to be paid therefor; which award shall be final.

Sec. 13.3. Franchises.

No franchise or grant which is not revocable at the will of the Council shall be granted or become operative until the same shall have been referred to the people at a regular or special election and has received the approval of three-fifths of the electors voting thereon at such election. All irrevocable public utility franchises and all renewals, extensions, and amendments thereof shall be granted only by ordinance. No such ordinance shall be adopted before 30 days after application therefor has been filed with the Council, nor until a full public hearing has been held thereon. No such ordinance shall be submitted to the electors at an election to be held less than 30 days after the grantee named therein has filed with the Clerk its unconditional acceptance of all of the terms of such franchise, and it shall not be submitted to a special election unless the expense of holding the election, as determined by the Council, shall have been paid to the Treasurer by the grantee. No exclusive franchise shall ever be granted and no franchise shall be granted for a longer term than 30 years.

Sec. 13.4. Licenses and franchises remain in effect.

All licenses and franchises granted by the Village of Lake Orion and in force within the Village when this Charter becomes law shall remain in full force and effect until the period of time for which they were respectively granted, has expired under conditions contained in the license or franchise granted, or until any such licenses or franchises may have been taken over by the Village by purchase, condemnation, grant, or otherwise.

Sec. 13.5. Control and revocation.

The Council shall cause to be instituted such actions or proceedings as may be necessary to prosecute a public utility company for violations of its franchise, the Village Charter or ordinances of the Village, and may revoke, cancel, or annul all franchises that may have been granted by the Village, which, for any reason, have become inoperative, illegal, or void and not binding upon the Village.

Sec. 13.6. Provisions stated not to be exclusive.

The enumeration and specification of particular matters in this Charter which must be included in every franchise or grant shall never be construed as impairing the right of the

Council to insert in such franchise or grant any other and further matters, terms, or conditions as may be within the power of the Village to impose or require and which the Council shall deem proper to protect the interests of the people of the Village.

Sec. 13.7. Regulation of rates.

All public utility franchises shall make provisions therein for fixing rates, fares, and charges, and for readjustments thereof at periodic intervals at the discretion of the Village. The value of the property of the utility used as a basis for fixing such rates, fares, and charges shall in no event include a value predicated upon the franchise, goodwill, or prospective profits.

Sec. 13.8. Revocable permits.

Temporary permits for public utilities, revocable at any time at the will of the Council, may be granted by the Council by ordinance on such terms and conditions as it shall determine; provided that such permits shall in no event be construed to be franchises or amendments to franchises.

CHAPTER 14. MUNICIPAL OWNED UTILITIES

Sec. 14.1. General powers respecting utilities.

The Village shall possess and hereby reserves to itself all the powers granted to villages by statute and Constitution to acquire, construct, own, operate, improve enlarge, extend, repair and maintain, either within or without its corporate limits, including, but not by way of limitation, public utilities for supplying water, light, heat, power, gas, sewage treatment and garbage disposal facilities, or any of them, to the municipality and the inhabitants thereof; and also to sell and deliver water, light, heat, power, gas and other public utility services without its corporate limits to an amount not to exceed the limitations set by statute and Constitution.

Sec. 14.2. Management of municipality owned utilities.

All municipally owned utilities shall be administered as a regular department of the Village government under one or more department heads appointed by, and serving at the pleasure of, the Council and not by an independent board or commission.

Sec. 14.3. Rates.

The Council shall have power to fix from time to time such just and reasonable rates as may be deemed advisable for supplying the inhabitants of the Village and others with such public utility services as the Village may provide. There shall be no discrimination in such rates within any classification of users thereof, nor shall free service be permitted, but higher rates may be charged for service outside the Village limits.

Sec. 14.4. Utility rates and charges; collection.

The Council shall provide by ordinance for the collection of all public utility rates and charges made by the Village. With respect to water, the Village shall have all the powers granted to villages by Public Act No. 178 of 1939. When any person, firm or corporation shall fail or refuse to pay any sums due on utility bills, the service upon which such delinquency exists may be discontinued and suit may be instituted by the Village for the collection of the same in any competent tribunal.

Sec. 14.5. Disposal of utility plants and property.

Unless approved by a three-fifths majority vote of the electors voting thereon at a regular or special election, the Village shall not sell, exchange, lease or in any way dispose of any property, easement, equipment, privilege or asset belonging to and appertaining to any municipally owned public utility which is needed to continue operating such utility. All contracts, negotiations, licenses, grants, leases or other forms of transfer in violation of this section shall not apply to the sale or exchange of any articles of machinery or equipment of any Village owned public utility which are worn out or useless or which have been, or could with advantage to the service, be replaced by new and improved machinery or equipment, to the leasing of property not necessary for the operation of the utility, or to the exchange of property or easements for other needed property or easements.

Sec. 14.6. Utility accounts.

Transactions pertaining to the ownership and operation by the Village of each public utility shall be recorded in a separate group of accounts under an appropriate fund caption, which accounts shall be classified in accordance with generally accepted utility accounting practice. Charges for all service furnished to, or rendered by, other Village departments or agencies shall be recorded. An annual report shall be prepared to show fairly the financial position of the utility and the results of its operation, which report shall be available for inspection at the office of the Clerk.

CHAPTER 15. MISCELLANEOUS

Sec. 15.1. Notice to Village of claim for injuries.

The Village shall not be liable in damages sustained by any person, either to his person or property, by reason of or the negligence of the Village, its officers, or employees, nor by reason of any defective highway, street, bridge, sidewalk, crosswalk or culvert, or by reason of any obstruction, ice, snow or other encumbrances upon such street, sidewalk, crosswalk or public highway, situated in the Village, unless such person shall serve or cause to be served, within 60 days after such injury shall have occurred, a notice in writing upon the Clerk, which notice shall set forth substantially the time and place of such injury, the nature of the defect, the manner in

which it occurred, and the extent of such injury as far as the same has become known, the names and addresses of the witnesses known at the time by claimant, and a statement that the person receiving such injury intends to hold the Village liable for such damages as may have been sustained by him. No person shall bring any action against the Village for any damages to person or property arising out of any obstruction, ice, snow, or other encumbrance upon such street, sidewalk, crosswalk or public highway, situated in the Village, unless he shall also present to the Clerk his claim in writing and under oath, setting forth particularly the nature and extent of such injury and the amount of damages claimed by reason thereof, which claim shall be presented to the Council by the Clerk.

It shall be a sufficient bar and answer in any court to any action or proceeding for the collection of any demand or claim against the Village, under this section, that the notice of injury and the verified proof of claim, as in this section required, were not presented and filed within the time and in the manner as herein provided.

Sec. 15.2. Limitation on dedication of streets.

The Council shall not accept dedication of streets unless and until the owners have provided facilities such as storm sewers and water mains, and laterals in both cases, surfacing of streets, sidewalks, street lighting, and any other facilities as required by the Council and acceptable to the Council and at least equivalent to services and facilities already available to residents in that section of the Village. The Council shall establish specifications and standards of material and workmanship for all improvements required to be made under the provisions of this section and may require that all work done shall be subject to inspection and approval by the Village Manager or by a proper person designated by him. The Village may refuse to accept, as compliance with the requirements of this section, any work, installation, or improvement which does not conform to the specifications or standards established by it. In the installation of such facilities prior to dedication there shall be no cost to the Village. In lieu of compliance with the provisions of this section, the Council may accept payment of an amount equal to the cost of complying with the provisions of this section to defray the expense of doing such work or the making of such installation or improvement by the Village.

Sec. 15.3. Publication.

The Council shall determine the method of publication of all notices, ordinances, and proceedings for which a mode of publication is not prescribed by this Charter or by law. The Council may determine that such publication may be made in a legal newspaper of general circulation in the Village, or that such publication may be made by posting in the office of the Clerk and in five other public places in the Village. In case publication is made by posting, a notice of such posting, setting forth by a descriptive phrase, the purpose or nature of the notice,

ordinance, or proceeding posted, and location of the places where posted, shall be published at least once in a legal newspaper of general circulation in the Village within seven days after such posting was done.

Sec. 15.4. No estoppel by representative.

No official of the Village shall have power to make any representation or recital of fact in any franchise, contract, document or agreement, contrary to any public record of the Village. Any such representation shall be void and of no effect as against the Village.

Sec. 15.5. Village records.

All records of the Village shall be public.

Sec. 15.6. Prior Village ordinances and regulations.

All ordinances, resolutions, rules, and regulations of the Village of Lake Orion which are not inconsistent with the provisions of this Charter, in force and effect at the same time of the adoption of this Charter, shall continue in full force as ordinances, resolutions, rules and regulations of the Village until repealed or amended by action of the proper authorities.

Sec. 15.7. Tense.

Except as otherwise specifically provided or indicated by the context, all words used in this Charter indicating the present tense shall not be limited to the time of the adoption of this Charter, but shall extend to and include the time of the happening of any event or requirement for which provision is made therein, either as a power, immunity, requirement, or prohibition.

Sec. 15.8. Headings.

The chapter and section headings used in this Charter are for convenience only and shall not be considered to be a part of this Charter.

Sec. 15.9. Effect of illegality of any part of Charter.

Should any provision or section, or portion thereof, of this Charter be held by a court of competent jurisdiction to be invalid, illegal, or unconstitutional, such holding shall not be construed as affecting the validity of this Charter as a whole or of any remaining portion of such provision or section; it being hereby declared to be the intent of the Charter Commission and of the electors who voted thereon that such unconstitutionality or illegality shall not affect the validity of any part of this Charter except that specifically affected by such holding. Further, it is hereby declared that it was the intent of the Charter Commission and of the electors of the Village of Lake Orion, in preparing and adopting this Charter, that said instrument should conform in all respects with the provisions and requirements of State law. In

the event that any provision of this Charter shall conflict with or contravene the provisions of any general law of the State of Michigan, the provisions of such general law of the State shall govern.

Sec. 15.10. Amendments.

This Charter may be amended at any time in the manner provided in Act. No. 278 of the Public Acts of 1909, as amended. Should two or more amendments, adopted at the same election, have conflicting provisions, the one receiving the largest affirmative vote shall prevail as to those provisions.

(1) Using public employment or office for private gain;

(2) Giving or accepting preferential treatment, including the use of Village property or information, to or from any organization or person;

(3) Losing complete independence or impartiality of action;

(4) Making a Village decision outside official channels; or

(5) Affecting adversely the confidence of the public or the integrity of the Village government.

(b) The code of ethics is intended to be preventative and not punitive. It should not be construed to interfere with or abrogate in any way the provisions of any federal or state statutes, the Village Charter, Village ordinances, or any rights and/or remedies guaranteed under a collective bargaining agreement.

(c) This declaration of policy is not intended to apply to contributions to political campaigns, which are governed by state law.

(2) No official, appointee or employee of the Village shall represent his or her personal opinion as that of the Village.

(3) Every official, appointee or employee of the Village shall use personnel resources, property and funds under his or her official care and control solely in accordance with prescribed constitutional, statutory and regulatory procedures and not for personal gain or benefit.

(4) a. No official, appointee or employee of the Village shall directly or indirectly, solicit or accept any gift or loan of money, goods, services or other thing of value for the benefit of any person or organization, other than the Village, which tends to influence the manner in which the official, appointee or employee or any other official, appointee or employee performs his or her official duties.

b. Gratuities do not include fees for speeches or published works on legislative subjects and, except in connection therewith reimbursement for expenses for actual expenditures for travel, and reasonable subsistence, for which no payment or reimbursement is made by the Village, invitations to such events as ground breakings, grand openings, charitable or civic events, or inconsequential gifts from established friends.

(5) No official, appointee or employee of the Village shall engage in a business transaction in which he or she may profit because of his or her official position or authority or benefit financially from confidential information which he or she has obtained or may obtain by reason of such position or authority.

(6) a. No official, appointee or employee of the Village shall engage in or accept employment or render services for any private or public interest when that employment or service is incompatible or in conflict with the discharge of his or her official duties or when that employment may tend to impair his or her independence of judgment or action in the performance of his or her official duties.

b. This subsection (a)(6) shall not prohibit a part-time elected or appointed Village official from engaging in private employment or business on his or her own time as a private citizen and where Village business is not involved, subject to his or her disclosing such private employment or business on the public record for any matter on which he or she may be called upon to act in his or her official capacity, in accordance with this article. He or she shall refrain from voting upon or otherwise participating in debate on any such matter.

(8) No official, appointee or employee of the Village shall use, or attempt to use, his or her official position to secure, request or grant unreasonably any special consideration, privilege, exemption, advantage, contract or preferential treatment for himself, herself, or others, beyond that which is available to every other citizen.

If the status of relationship between any employee of the Village and any officer of the Village changes to a relationship prohibited hereby after one year following the employment of such person or election or appointment of such officer, the provisions of this subsection shall not apply.

(10) It is recognized that various boards and councils are part of the plan of government for the Village. As such, it is further recognized that by virtue of the various requirements for membership of the board, a member may be placed in the position of participating in a decision that may directly or indirectly affect his or her financial or personal interests. Therefore, those members of the various boards and councils in the Village, as they may be established from time to time, may participate in such decisions, provided that they act:

a. In furtherance of the public good;

b. In compliance with the duties of their respective boards; and,

c. In a manner consistent with subsection (a)(8) of this section.

b. The Village official, appointee or employee has reason to believe or expect that he or she will derive a direct monetary gain or suffer a direct monetary loss, as the case may be, by reason of his or her official activity; or

c. The public official has any other prohibited interest as defined by state statutes relating to conflicts of interest.

(12) Subsequent conflict of interest. No official, appointee or employee of the Village shall acquire any financial interest in or accept any employment concerning any project which has been granted approval by the Village or any council, board, department or employee thereof within one year of the official's, appointee's or employee's participation in any manner in considering or recommending the approval or disapproval of said project.

(13) No councilmember's spouse or immediate family members may be appointed to any other board, committee, commission or employment with the Village, except as permitted by Village Charter or ordinance.

a. It shall be the responsibility of the official, appointee or employee to disclose the full nature and extent of his or her direct or indirect financial or personal interest in a matter before him or her.

b. No official, appointee or employee of the Village shall participate, as an agent or representative of the Village, in approving, disapproving, voting, abstaining from voting, recommending or otherwise acting upon any matter in which he or she has directly or indirectly a financial or personal interest. The official, appointee or employee shall, in such circumstances, recuse himself or herself from the matter before him or her.

(2) *Disclosure of conflict of interest and disqualification.*

a. Any Village official, appointee or employee who has a conflict of interest, as defined herein, in any matter before the Village shall disclose such fact on the appropriate record of the Village prior to discussion or action thereon and shall refrain from participating in any discussion, voting or action thereon, as follows, provided that such exceptions shall be observed as are permitted by law:

1. A member of the Village Council shall disclose any conflict of interest and the nature and extent of such interest on the record of the Village Council;

3. A Village employee who has a financial or other interest in a matter before the Village Council or any Village board, council or committee and who participates in discussion with, or gives an official opinion to the Village Council, or to such other Village board, council or committee relating to such matter, shall disclose on the records of the Village Council or such other Village board, council or committee, as the case may be, any conflict of interest and the nature and extent of such interest;

4. Otherwise, any appointed Village official, appointee or employee shall address such a disclosure to the supervisory head of his or her department, and any elected Village official shall address such a disclosure to the general public.

b. If a Village official, appointee, councilor or employee has a conflict of interest, as defined herein, in any matter before the Village, and discloses that conflict on the appropriate records but refuses to refrain from discussion, deliberation or voting thereon, the matter under consideration shall be immediately referred to the Board of Ethics for a final determination as to the conflict in question and whether the official, appointee, councilor or employee must refrain from discussion, deliberation, action or voting thereon.

c. Within 20 days after election, employment, appointment, or the effective date of the ordinance from which this article is derived, or any change in the facts set forth in the Village official's, appointee's or employee's previously filed disclosure statement, each Village official, appointee and employee shall file with the Village Clerk an affidavit and disclosure statement. The alternate member having been appointed shall serve in the case until a final decision has been made. The alternate member shall have the same voting rights as a regular member of the Ethics Board.

ARTICLE III. PROPERTY MAINTENANCE

DIVISION 1. GENERALLY

Sec. 6-47. Short title; intent and purpose.

(a) This article shall be known and may be cited as the "Village of Lake Orion Property Maintenance Ordinance."

(b) In the Council's considerations and deliberations with respect to the adoption of the ordinance from which this article is derived, the Council has determined that the protection and promotion of the public health, safety and welfare requires the adoption of regulations that apply to existing residential and nonresidential structures, including, without limitation, in the following respect:

(1) Establishing minimum maintenance standards.

(2) Providing for the completion of structures, and ongoing maintenance, in light of the recognition that if a significant number of structures in a given area were not completed, or existed in a condition of disrepair for extended periods of time, such conditions could lead to a state of frustration and disincentive in and to other property owners in the area in relation to completion and maintenance of other properties and would result in the public nuisance condition of widespread reduction of property values, deterioration of existing structures, and the general blighting of the Village and its residents and property.

(3) Fixing the responsibilities of owners, operators, and occupants of all structures.

(4) Providing for administration, enforcement and penalties.
(Code 1996, § 154.01; Ord. No. 30.02, 6-22-1987)

Sec. 6-48. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Condition of disrepair means the condition of all, or any portion, of a structure that has not been maintained in a workmanlike manner, normal wear and tear for reasonable periods excepted, including, without limitation, instances where structures have windows and/or doors boarded up or which otherwise violate a provision of this article, and also means the lack of substantially continuous and material pursuit of initial construction of a structure toward obtaining a certificate of occupancy or other required approval for a period in excess of six months.

Structure means any building or structure for which a permit must be obtained for construction under any ordinance or code of the Village.

Workmanlike means the care in carrying out such activities as maintenance and repair in a reasonably skillful manner, i.e., the manner in which a reasonably prudent person would expect or require if another person were hired to perform maintenance or repairs on his or her structure of the type in question.
(Code 1996, § 154.02; Ord. No. 30.02, 6-22-1987)

(5) Every exterior wall, window, trim and the like shall be free of holes, breaks, loose or rotting boards or timbers, and other conditions that might admit rain or dampness to the interior portions of the walls or to the occupied spaces of the building. All exterior surface materials, including, without limitation, wood, composition, or metal siding, shall be maintained weatherproof and shall be properly surface-coated when required to prevent deterioration.

(6) All cornices, entablatures, felt courses, corbels, terra cotta trim, wall facings and similar decorative features shall be maintained in good repair with proper anchorage and in a safe workmanlike condition.

(7) All canopies, marquees, signs, metal awnings, stairways, fire escapes, stand pipes, exhaust ducts, and similar overhang extensions shall be maintained in good repair and be properly anchored so as to be kept in a safe and sound condition. (9) Every window, door and frame shall be constructed and maintained in much relation to the adjacent wall construction so as to exclude rain as reasonably possible, and to substantially exclude wind from entering the dwelling or structure. Windows and exterior doors shall be fitted reasonably in their frames to be weathertight and constructed so as to exclude wind or rain from entering the dwelling or structure. Windows, other than fixed windows, shall be capable of being opened with reasonable ease and shall be held in position by appropriate window hardware.

(10) Every basement hatchway shall be so constructed and maintained as to prevent the entrance of vermin, rain and surface drainage water into the structure.

(c) *Interior structure.*

(2) The supporting structural members of every building shall be maintained structurally sound, not showing any evidence of deterioration that would render them incapable of carrying the imposed loads.

(3) The interior of every structure shall be maintained free from any accumulation of rubbish, refuse or garbage, other than normal accumulations made for limited periods for disposal purposes. Any rubbish, garbage and/or refuse accumulated on the property for disposal purposes shall be kept inside temporary storage facilities and/or containers.

(d) Fireplaces, and other construction and devices intended for use similar to a fireplace, shall be stable and structurally safe and connected to approved chimneys.

(e) All electrical equipment, wiring and appliances shall be installed and maintained in a condition that will not result in a hazard to life and/or property. Applicable laws and codes shall be utilized in determining the existence of a hazard. However, the mere fact that there is not compliance with an applicable code adopted subsequent to installation of the equipment, wiring, appliances, or the like shall not, in and of itself, be proof of a hazard.

(f) If, in the opinion of the duly authorized Village official inspecting the system, the electrical system in a structure constitutes a hazard to life and/or property by reason of inadequate service, improper fusing, inefficient outlets, improper wiring or installation, deterioration or damage, or for similar reasons, such condition shall constitute a material violation of this article.

(Code 1996, § 154.05; Ord. No. 30.02, 6-22-1987)

Sec. 6-52. Administration and enforcement.

(a) Whenever the Village Manager, the Building Official, or designate determines that there has been a material violation of this article, or has reasonable ground to believe that a material violation has occurred, the Village may proceed by way of appearance ticket, Circuit Court action, or giving a notice to the owner or the person responsible for the premises in the manner prescribed in this section.

(b) The notice referenced in subsection (a) of this section shall:

(1) Be in writing.

(2) Include a description of the real property sufficient for identification.

(3) Include a statement of the reason or reasons why the notice is being issued.

(4) Include a correction order allowing a reasonable time for the repairs, actions and/or improvements required to bring the structure into compliance with the provisions of this article.

(5) Include a statement that if all corrections ordered to be made in the notice have not been completed within a reasonable time, as specified in the notice, a hearing shall be conducted before the Village Council at a time, date and place, also specified in the notice, and that at such hearing, the property owner, or the property owner's representative, shall be entitled to be heard with respect to why the ordered corrective repairs, actions and/or improvements shall not be required.

(c) The notice shall be sent by certified mail to the person or entity responsible for the property, which may be based upon the name and address on the records of the Assessing Department. In addition, if the notice specifies an order requiring the vacation of occupancy and/or the physical demolition of all or part of a structure, a copy of the notice shall be posted on the property in a conspicuous place.

(d) After the expiration of the time established in the notice for curing of all violations, but before the date fixed in the notice for the hearing, the Building Official, or designate, shall ascertain and report to the Village Manager whether the corrections have been complete.

(e) If all corrections of violations have not been completed within the time required by the notice referenced in subsection (a) and (b) of this section, the Village Manager shall direct that an additional notice be sent by regular mail to the person or entity responsible for the property clarifying the position of the Village that the corrections required in the prior notice have not been made and that a hearing shall be conducted. The notice shall reiterate the date, time and place of the hearing to be conducted. The Village Council shall conduct a hearing on the date fixed in the notices, which hearing may be adjourned from time to time by the Council as needed to properly complete the hearing.

(f) The property owner, and/or representative, shall be given an opportunity to be heard at the hearing.

(g) At the conclusion of the hearing, the Council shall determine, in its discretion, whether a violation exists. If the Council determines that a violation does exist, it shall order specific corrective repairs, actions, and/or improvements, including, if necessary and in the discretion of the Council, a vacation of occupancy and/or a physical demolition of the structure; provided, however, demolition of the structure shall not be ordered unless a health or safety hazard exists, or unless a condition of disrepair shall have existed for a continuous period of at least one year. The Council shall prescribe a time within which the corrective repairs, actions and/or improvements must be completed.

(h) If the corrective repairs, actions and/or improvements ordered by the Council include the vacation of occupancy of the premises and/or a physical demolition of all or part of a structure, and the property owner or other responsible person has not completed all curative repairs, actions and/or improvements within the time fixed in the order, the Village may commence an action in the Circuit Court seeking a declaratory judgment, based upon the record made at the Village Council hearing, praying for an adjudication that:

(1) The procedure undertaken by the Village was proper.

(2) The Village's action and order did not constitute a breach of discretion and/or violate the constitution of law.

(3) The Village is authorized to carry out the curative order, with all costs and expenses incurred by the Village in taking such curative action to be paid by the property owner within 30 days of billing from the Village, and failing full payment by the property owner, the balance due shall be deemed delinquent and be placed on the tax roll with respect to the property and billed and collected along with the real property taxes of the Village according to law.

(b) The Clerk shall review each application to ensure that it is complete, that the information required by this article has been submitted, and that the application fee has been paid. The Clerk may reject any application that is not complete and may deny an application for failure to pay the application fee.

(c) Upon receipt of a completed application meeting the requirements of this article and the appropriate permit application fee, the Clerk shall refer a copy of the application to each of the following for their approval: the Village Fire Department, the Building Department, the Planner, and the Treasurer.

(d) No application shall be approved unless:

Those applications randomly selected shall be eligible to receive a permit to operate a medical marihuana provisioning center or a marihuana retailer, as applicable. If, after awarding the first two permits to the highest scoring applicants, additional permits may be issued for one or more of the same locations in accordance with section 8-130(a), the Clerk shall award such other permits to eligible applicants. However, in no event shall the number of medical marihuana provisioning center or marihuana retailer permits exceed the maximum number authorized under section 8-130.

In the event that the number of marihuana retailer permits initially awarded is less than the maximum number authorized under this article or subsequently falls below the maximum number authorized under this article, the Clerk shall not be required to score applicants. (b) The Village Council shall establish and amend by resolution a schedule of the costs and expenses of emergency response and prosecution for use in determining the hourly or other rates and charges to be used in the calculation of the costs and expenses of emergency response for which the person responsible for the emergency response shall be liable. Such schedule shall be available to the public at the Village Clerk's Office.

The court may revoke probation and the parole board may revoke parole if the person fails to comply with the order and if the person has not made a good faith effort to comply with the order. In

determining whether to revoke probation or parole, the court or parole board shall consider the person's employment status, earning ability, number of dependents, and financial resources; the willfulness of the person's failure to pay; and any other special circumstances that may have a bearing on the person's ability to pay. Notwithstanding any other provision of this section, a person shall not be imprisoned, jailed, or incarcerated for a violation of parole or probation, or otherwise, for failure to make a reimbursement as ordered under this section unless the court determines that the person has the resources to pay the ordered reimbursement and has not made a good faith effort to do so.

In the event that the responsible person pays the costs and expenses of the emergency response pursuant to a conviction and court order in accordance with section 10-23(c), no additional payment to the Village shall be made. This section does not allow the Village to be fully reimbursed more than once for any expense incurred by the Village.

(b) If the Fire Department receives any complaints, it has the authority to inspect the fire at issue. If the Fire Department determines that the burning has created or added to a hazardous situation or has become a nuisance, a Fire Department representative is authorized to order the extinguishment of the open burning operation. If noncompliance of this article is found, the Fire Department representative also has the authority to issue a Village civil infraction at his or her discretion.

(Ord. No. 22.07, § 94.34, 5-23-2022)

Sec. 14-72. Reference to International Fire Code.

The Village has adopted the International Fire Code and all appendixes in the Village fire prevention code, article II of this chapter. This article shall comply with all sections of the International Fire Code as stated, except for section 307 of the International Fire Code, which governs open burning, recreational fires and portable outdoor fireplaces. Henceforth, all open burning in the Village shall be regulated by this article. The Village fire prevention code is not repealed; however, the sections of the International Fire Code in conflict therewith should be considered subordinate to this article.

(Ord. No. 22.07, § 94.35, 5-23-2022)

Sec. 14-73. Violation and penalties.

(a) *Municipal civil infraction/payment of fine.* Any person, firm, or corporation violating a provision of this article, upon an admission or a finding of responsibility for such violation, shall be deemed responsible for a Village municipal civil infraction as that term is defined and

used in MCL 600.101 et seq., being Public Act No. 236 of 1961, and MCL 600.8701 et seq., being chapter 87 of Public Act No. 236 of 1961, and a civil fine of not more than $500.00 shall be ordered, or as otherwise determined by the district court, district court judge, or district court magistrate.

(b) *Costs.* A person, firm, or corporation ordered to pay a fine under subsection (a) of this section shall, in addition to any fine, be ordered by the district court judge or magistrate civil costs of not more than $500.00, which costs may include all expenses, direct and indirect, to which the Village and/or the enforcing agency on behalf of the Village has been put in connection with the violation of this article up to the entry of the court's judgment or order to pay fine and costs.

(c) *Additional writs and orders.* A person who admits or is found responsible for violation of this article shall comply with any order, writ, or judgment issued by the district court to enforce this article pursuant to chapter 83 and chapter 87 of the revised judicature act, MCL 600.101 et seq.

(d) *Default on payment of fines and costs.* A default in payment of a civil fine, costs, or damages or expenses ordered under subsection (a) or (b) of this section or an installment of the fine, costs, or damages or expenses as allowed by the court, may be collected by the Village by a means authorized for the enforcement of a judgment under chapter 40 or 60 of the revised judicature act, MCL 600.101 et seq.

(e) *Failure to comply with judgment or order.* If a defendant fails to comply with an order or judgment issued pursuant to this section within the time prescribed by the court, the court may proceed under subsection (g) of this section.

(f) *Failure to appear in court.* A defendant who fails to answer a citation or notice to appear in court for a violation of this article is guilty of a misdemeanor, punishable by a fine of not more than $500.00, plus costs and/or imprisonment not to exceed 90 days.

(g) *Civil contempt.*

(1) If a defendant defaults in the payment of a civil fine, costs, or other damages or expenses, or installment as ordered by the district court, upon motion of the Township of Orion or upon its own motion, the court may require the defendant to show cause why the defendant should not be held in civil contempt and may issue a summons, order to show cause, or bench warrant of arrest for the defendant's appearance.

(2) If a corporation or an association is ordered to pay a civil fine, costs, or damages or expenses, the individuals authorized to make disbursements shall pay the fine, costs, or damages or expenses, and their failure to do so shall be civil contempt unless they make the showing required in this subsection.

(3) Unless the defendant shows that the default was not attributable to an intentional refusal to obey the order of the court or to a failure on his or her part to make a good

faith effort to obtain the funds required for payment, the court shall find that the default constitutes a civil contempt and may order the defendant committed until all or a specified part of the amount due is paid.

(4) If it appears that the default in the payment of a fine, costs, or damages or expenses does not constitute civil contempt, the court may enter an order allowing the defendant additional time for payment, reducing the amount of payment or of each installment or revoking the fine, costs, or damages or expenses.

(5) The term of imprisonment on civil contempt for nonpayment of a civil fine, costs, or damages or expenses shall be specified in the order of commitment and shall not exceed one day for each $30.00 due. A person committed for nonpayment of a civil fine, costs, or damages or expenses shall be given credit toward payment for each day of imprisonment and each day of detention in default of recognizance before judgment at the rate of $30.00 per day.

c. The amount due is satisfied pursuant to a combination of subdivisions (g)(6)a and b of this section.

(7) The civil contempt shall be purged upon discharge of the defendant pursuant to subsection (g)(6) of this section.

ARTICLE IV. FALSE FIRE ALARMS

Sec. 14-105. Title.

This article shall be known and cited as the "Village False Fire Alarms Ordinance" and it shall be deemed sufficient in any action for enforcement of the provisions hereof to define the same by such short title and by reference to the number hereof.

(Ord. No. 22.08, § 94.40, 5-23-2022)

Sec. 14-106. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Alarm system means any assembly of equipment and devices, or a single device, except for an alarm system on a motor vehicle, that emits, transmits or relays any signal intended to summon, or that would reasonably be expected to summon firefighters or emergency medical services response by the Township of Orion Fire Department.

Alarm user includes the owner of the land or premises within which a fire alarm system is installed; the tenant, occupant or person having possession or control of any premises in which a fire alarm system is installed; and any person having actual or constructive possession of a fire alarm system when such alarm system signals an emergency.

Commercial occupant means all nonresidential facilities engaged in business or commerce, whether for profit or not for profit or publicly or privately owned.

Contractor means a person that is engaged in the business of testing, erecting, installing, altering, repairing, servicing, or maintaining wiring, devices, appliances or equipment of an alarm system.

False alarm means the activation of an fire alarm system causing a sound or visual signal through mechanical failure, faulty equipment, malfunction, improper installation, improper testing, failure to provide notice, lack of prudent maintenance, and/or the negligence of the alarm user or its employees, agents, guests, residents or invitees. A false fire alarm shall be presumed when an alarm is tested without prior notice to the Orion Township Fire Department and alarm user's monitoring company, and when a Fire Department investigation reveals no fire, potential fire or need for medical or fire attention, upon the activation of the alarm system, with the following exceptions:

(1) Activation by tornadoes, storms or other violent conditions beyond the control of the alarm user;

(2) False alarms activated by disruption or disturbance of telephone or public utility company facilities;

(3) Utility pole accidents;

(4) Testing of the alarm system after prior notification has been received and confirmed by the Fire Department and the alarm users monitoring company; and

(5) Intentional and non-malicious activation of an alarm or emergency response system due to a good faith belief of a real or perceived need for fire, police or medical assistance, regardless of whether fire or medical assistance was actually necessary.

(Ord. No. 22.08, § 94.41, 5-23-2022)

Sec. 14-107. Alarm requirements and prohibited acts.

(a) *Purpose.* This article is intended to facilitate the more efficient use of fire, medical, and public personnel resources for true emergencies and for people who genuinely believe they need fire, medical or public personnel assistance. The focus of this article is on mechanical failure, faulty equipment, improper installations, and the negligence of fire alarm users and those engaged in the maintenance, repair or testing of all life safety systems located in a commercial building. This article is not intended to discourage or otherwise inhibit the use of alarms or 9-1-1 systems to seek emergency assistance. Therefore, this article shall always be construed in a manner that serves to prompt residents and businesses to correct mechanical and operational fire alarm system deficiencies, but not to discourage residents and businesses from seeking emergency help. All fire alarm users shall be responsible for properly maintaining their life safety systems; this shall include ensuring all life safety systems within the user's control are inspected annually, kept in good operating order, and code compliant.

(b) *Fee charged for responding to false fire alarms, generally.* Every fire alarm user shall pay to the Township of Orion a fee for responding to the second and any subsequent false fire alarm signaled by that person's alarm system within a calendar year. The schedule of false fire alarm fees shall be periodically set by resolution of the Township of Orion. The fee shall be reasonably based on the Township's direct and indirect costs of responding to false fire alarms, administering the system of recording and classifying the alarms, staffing costs, and collecting and accounting for the user fees charged. Such fee shall be paid within 30 days of written notice. The failure to pay within said time shall be a debt in favor of the Township of Orion, and the obligation of the alarm user and/or property owner subject to any collection process set forth here and/or allowed by law.

(c) *Responding to false alarms, commercial occupant.* A contractor and/or his or her employer conducting an inspection, repair, replacement, and/or installation of a fire alarm system within a commercial occupancy shall be responsible for alerting the Fire Department and any other monitoring agency of testing an alarm system at least one hour before completing any testing, repairing or maintenance procedures. The commercial occupant is also responsible for ensuring its contractor has provided adequate notice to the Township of Orion in accordance with this section.

(1) In the event the notice requirements set forth in this section are not met, the commercial occupant, the contractor, and the contractor's employer shall all be held responsible, jointly and severally, and shall pay the Township of Orion a fee and/or fine for responding to the second and any subsequent false fire alarms signaled within any calendar year due to a contractor and/or contractor's employer failing to give the Township of Orion adequate notice that it is testing, repairing or performing maintenance of the alarm system.

(2) Commercial occupants shall only be responsible for fees and penalties arising from the second and any subsequent false fire alarm signaled by the commercial occupant's alarm system within a calendar year.

(3) The contractor and contractor's employer may be held responsible for fees and penalties arising from the second and any subsequent false fire alarm signaled by each separate commercial occupancy for which it conducts an inspection, repair, replacement, or installation of the alarm system during a calendar year.

(d) *First false alarm.* All fire alarm users shall ensure fire alarm systems within its control are inspected annually by a licensed contractor. The Fire Department shall conduct a follow-up inspection within 48 hours of the initial false fire alarm. Such inspections shall be provided free of charge. At the time of inspection, the Fire Department shall provide notice of the associated fees should the fire alarm user trigger an additional false fire alarm response in that current calendar year. Such notice may be provided to the fire alarm user, commercial occupant, contractor, and/or contractor's employer at his, her or its last known address by first class mail or personal service at the time of inspection or within 30 days thereafter. The notice shall indicate the potential penalties, as set forth in this article, for future false fire alarm occurrences.

(e) *Automatic dialing prohibited.* No person shall install or use a device or combination of devices which will, upon activation, either mechanically, electronically or by other means, initiate the automatic intrastate calling, dialing or connection to any telephone number assigned to the Township Sheriff Substation, Fire Department, Department of Public Works or the 9-1-1 emergency number which connects or assigns the call to the Department or its dispatchers.

(f) *Due care in operation required.* Every fire alarm user shall exercise due care to install, maintain, and use every fire alarm system so as to avoid false fire alarms. Every fire alarm user shall diligently instruct, supervise, and control those having access to the fire alarm system and the alarmed premises and shall take all reasonable steps to prevent the system from signaling false alarms.
(Ord. No. 22.08, § 94.42, 5-23-2022)

Sec. 14-108. Enforcement authority.

The Township of Orion, a Michigan Municipal Corporation, whose address is 2525 Joslyn Road, Lake Orion, MI 48360, and its Fire Department, Fire Code Official and personnel shall serve as the Village enforcing agency that shall administer and enforce this article in and on behalf of the Village as authorized by the urban cooperation act of 1967, 1967 Public Act No. 7, MCL 124.501 et seq. The Township of Orion shall be vested with all lawful authority to administer and enforce this article, and it shall be deemed sufficient in any action for enforcement of the provisions hereof as a violation of this Code.
(Ord. No. 22.08, § 94.43, 5-23-2022)

Sec. 14-109. Enforcement and penalties.

(a) *Generally.* Fire alarm users shall pay the Township of Orion a fee or fine, as provided in this section, for each false fire alarm and shall also be held responsible as follows:

(1) First false fire alarm requiring fire response: warning.

(2) Second false fire alarm requiring fire response within the calendar year: assessment of a portion or all of the cost of fire response, as established by resolution.

(3) Third or subsequent false fire alarm requiring fire response within the calendar year: assessment of a portion or all of the cost of fire response, as established by resolution.

(4) Fourth false fire alarm requiring fire response within the calendar year shall constitute an excessive number of false fire alarms, which shall constitute a civil infraction punishable by assessment of a portion or all of the cost of fire response, as established by resolution, a fine of up to $500.00, and mandatory restitution to the Township for the cost of fire response. An alarm system signaling more than three false fire alarms within a calendar year shall be inspected and modified to be more false alarm-resistant. Upon written notice, the owner or fire alarm user of the building, residence or commercial occupation shall have the fire alarm system inspected and modified, at the owner or user's expense, by a licensed alarm system contractor within 14 days of the date of the notice and shall forward to the Fire Department the contractor's report of the probable cause of the false fire alarms and the measures instituted to eliminate same.

(b) *Invoicing for false fire alarms.* The Township of Orion shall administer the invoicing for assessment of the false fire alarm fees established by this section. The Fire Department shall promptly prepare and deliver to the fire alarm user who is deemed liable under this article for the payment of the cost of the fire response an invoice by first class mail or personal service. The amount of the invoice shall constitute a debt in favor of the Township of Orion and the obligation of the fire alarm user. The invoice shall also include the following provision: "A person aggrieved by this false fire alarm determination may submit a letter of appeal to the Township of Orion Board of Trustees for review of the determination or penalty being appealed." An alarm user who is liable for the payment of the cost of fire response shall make payment in full to the Township of Orion Treasurer within 30 days of the invoice date.

(c) *Appeal.* Fire alarm users, commercial occupants, contractors, and/or contractor's employers aggrieved by receipt of a warning letter for the occurrence of a false fire alarm, or by a false fire alarm determination that results in the imposition of a fee for the cost of fire response, may submit a letter of appeal to the Township of Orion Board of Trustees for review of the determination of a false alarm occurrence. Such appeal letters must be submitted within 14 days of the date of the warning letter or fee invoice. Persons or entities who are cited for a municipal civil infraction may not avail themselves of this appeal provision but may instead

defend against the charge in the district court if desired. The fees prescribed by the Township of Orion may not be appealed or modified by appeal; only the actual determination of a false fire alarm occurrence may be appealed pursuant to this section. The following appeal process shall be afforded upon receipt of an appeal letter:

(1) Upon receipt of an appeal letter, the Township of Orion Board of Trustees shall forward a copy of the letter (and supporting documentation provided with the letter, if any) to the Fire Chief for review.

(2) The Fire Chief and/or his or her designee shall independently review the letter and, within 30 days, advise the Township of Orion Board of Trustees in writing whether, after reasonable investigation, the appeal should be granted. In order to recommend that an appeal be granted, the independent review must result in the conclusion that the original false fire alarm determination was clearly erroneous. To reach such a conclusion, irrefutable evidence must support the finding that the occurrence did not fit the definition of the term "false alarm" as set forth in section 14-106.

(3) The Township of Orion Board of Trustees shall decide the matter based upon their review of the conclusions of the Fire Department, subject to the standards set forth in subsection (c)(2) of this section. The Board's decision shall be rendered in writing no later than 60 days from the date the appeal was received by the Township unless the Township Supervisor issues a written notice that the review is subject to circumstances beyond its control that require up to an additional 30 days to complete the review. The Board's decision shall be final, and if the Board makes a finding that the appeal is denied, all outstanding false fire alarm fees owed shall be paid within ten days of the date the Township of Orion Board of Trustees forwards the final decision to the alarm user via first class mail or personal service.

(4) If an appeal is granted, the result shall be that the determination of a false fire alarm shall be overturned, and the fire alarm occurrence shall not be counted with future false fire alarm occurrences for purposes of the progressive penalties in subsection (a)(1) through (3) of this section.

(5) If the appeal is denied, the result shall be that the determination of a false fire alarm shall stand, and the false fire alarm occurrence may be counted with future false fire alarm occurrences for purposes of the progressive penalties in subsection (a)(1) through (3) of this section.

(d) *Payment of invoice.* An alarm user who is liable for the payment of the cost fire response shall make payment in full to the Township of Orion Treasurer within 30 days of the invoice date.

(e) *Failure to pay invoice.* When payment of the Township of Orion's invoice is not timely made, the Township may commence a civil action against a person who is liable for the payment of the cost of fire response and who fails to make payment in full to the Township as required by this section. The Township shall be entitled to recover the expenses, statutory interest, court costs, and reasonable attorney fees incurred for pursuing the civil action.

Const. 1963 art. 7, § 29, use of the highways, streets, alleys and other public places for operation of a public utility requires the consent of the Village and the transaction of local business in the Village by a public utility requires that a franchise first be obtained. This chapter is adopted for the purpose of confirming and providing the process, terms and conditions for suppliers of electricity and natural gas to obtain the required consents and franchises and to fully exercise the Village's constitutional authority which includes the reasonable control of its highways, streets, alleys and public places.

(b) As a result of regulatory changes that have or may occur, and interpretations of existing laws, at the state and federal levels, specifically including the state public service commission (deregulation), the persons that may be authorized to supply electricity and natural gas to customers in the Village are no longer limited to the public utility that owns and operates the facilities used to deliver electricity and natural gas to customers. This chapter is adopted in recognition of the deregulations which has and may continue to occur, with the intent and purpose of confirming that all persons supplying electricity or natural gas to customers in the Village are required to have a franchise as provided in this chapter, regardless of whether it is required as a condition of state or federal regulatory permits, approvals or certificates.

(c) The Village will incur costs and expenses in reviewing and acting on franchise requests and, upon granting a franchise, monitoring and enforcing its terms and conditions. Such costs and expenses should be paid by franchise applicants and holders as provided in this chapter.

(b) Within 30 days after the conviction of a person for the violation of subsection (a) of this section, which conviction has become final, complaint may be made by the arresting officer or the officer's superior before the court from which the warrant was issued, which complaint shall be under oath and shall contain a description of the motor vehicle in which alcoholic liquor was possessed or transported by the person less than 21 years of age in committing the offense and praying that the motor vehicle be impounded as provided in this section. Upon the filing of the complaint, the court shall issue an order to the owner of the motor vehicle to show cause why the motor vehicle shall not be impounded. The order to show cause shall have a date and time fixed in the order for a hearing, which date shall not be less than ten days after the issuance of the order and shall be served by delivering a true copy to the owner not less than three full days before the date of hearing or, if the owner cannot be located, by sending a true copy by certified mail to the last known address of the owner. If the owner is a nonresident of the state, service may be made upon the secretary of state as provided in section 403 of Public Act No. 300 of 1949 (MCL 257.403).

(c) If the court determines upon the hearing of the order to show cause, from competent and relevant evidence, that at the time of the commission of the offense the motor vehicle was being driven by the person less than 21 years of age with the express or implied consent or knowledge of the owner, and that the use of the motor vehicle is not needed by the owner in the direct pursuit of the owner's employment or the actual operation of the owner's employment business, the court may authorize the impounding of the vehicle for a period to be determined by the court, of not less than 15 days nor more than 30 days. The court's order authorizing the impounding of the vehicle shall authorize a law enforcement officer to take possession without other process of the motor vehicle wherever located and to store the vehicle in a public or private garage at the expense and risk of the owner of the vehicle. The owner of the vehicle may appeal the order to the circuit court of the county, and the provisions governing the taking of appeals from judgments for damages shall be applicable to the appeal. This subsection shall not prevent a bona fide lienholder from exercising rights under a lien.

(d) Any person who knowingly transfers title to a motor vehicle for the purpose of avoiding this section is guilty of a misdemeanor.

(e) Immediately upon the entry of a conviction or a probate court order of disposition for a violation of subsection (a) of this section, the court shall consider all prior convictions for a violation of subsection (a) of this section, MCL 257.624b or MCL 257.624a, or a local ordinance or law of another state substantially corresponding to this section, and the court shall do one of the following:

(1) If the court finds that the person has one such prior conviction, the court shall order the secretary of state to suspend the operator's or chauffeur's license of the person for a period of not less than 90 days and not more than 180 days. The court may order the secretary of state to issue to the person a restricted license after the first 30 days of the period of the suspension in the manner provided for in MCL 257.319(7). In the case of a person who does not possess an operator's or chauffeur's license, the secretary of state shall deny the application for an operator's or chauffeur's license for the applicable suspension period.

(2) If the court finds that the person has two or more such prior convictions, the court shall order the secretary of state to suspend the operator's or chauffeur's license of the person for a period of not less than 180 days and not more than one year. The court may order the secretary of state to issue to the person a restricted license after the first 60 days of the period of the suspension in the manner provided for in MCL 257.319(7). In the case of a person who does not possess an operator's or chauffeur's license, the secretary of state shall deny the application for an operator's or chauffeur's license for the applicable suspension period.

(f) A law enforcement agency, upon determining that a person less than 18 years of age allegedly violated this section, shall notify the parent or parents, custodian, or guardian of the person as to the nature of the violation if the name of a parent, guardian, or custodian is

reasonably ascertainable by the law enforcement agency. The notice required by this subsection shall be made not later than 48 hours after the law enforcement agency determines that the person who allegedly violated this section is less than 18 years of age and may be made in person, by telephone, or by first class mail.

A minor who violates this subsection is responsible for a civil infraction or guilty of a misdemeanor as follows:

(1) For the first violation, the minor is responsible for a civil infraction and shall be fined not more than $100.00. The court may order a minor under this subsection to participate in substance use disorder services as defined in section 6230 of the Public Health Code, Public Act No. 368 of 1978, MCL 333.6230, and designated by the administrator of the office of substance abuse services, and may order the minor to perform community service and to undergo substance abuse screening and assessment at his or her own expense as described in subsection (e) of this section. A minor may be found responsible or admit responsibility only once under this subsection.

(2) If a violation of this subsection (a) occurs after one prior judgment, the minor is guilty of a misdemeanor. A misdemeanor under this subsection (a) is punishable by imprisonment for not more than 30 days if the court finds that the minor violated an order of probation, failed to successfully complete any treatment, screening, or community service ordered by the court, or failed to pay any fine for that conviction or juvenile adjudication, or by a fine of not more than $200.00, or both. The court may order a minor under this subsection to complete a term of probation, participate in substance use disorder services as defined in section 6230 of the Public Health Code, Public Act No. 368 of 1978, MCL 333.6230, and designated by the administrator of the office of substance abuse services, to perform community service, and to undergo substance abuse screening and assessment at his or her own expense as described in subsection (e) of this section.

(3) If a violation of this subsection (a) occurs after two or more prior judgments, the minor is guilty of a misdemeanor. A misdemeanor under this subsection is punishable by imprisonment for not more than 60 days, if the court finds that the minor violated an order of probation, failed to successfully complete any treatment, screening, or community service ordered by the court, or failed to pay any fine for that conviction or

juvenile adjudication, or by a fine of not more than $500.00, or both, as applicable. The court may order a minor under this subsection to complete a term of probation, to participate in substance use disorder services as defined in section 6230 of the Public Health Code, Public Act No. 368 of 1978, MCL 333.6230, and designated by the administrator of the office of substance abuse services, to perform community service, and to undergo substance abuse screening and assessment at his or her own expense as described in subsection (e) of this section.

(b) An individual who furnishes fraudulent identification to a minor or, notwithstanding subsection (a) of this section, a minor who uses fraudulent identification to purchase alcoholic liquor, is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than $100.00, or both.

(c) If an individual who pleads guilty to a misdemeanor violation of subsection (a)(2) of this section or offers a plea of admission in a juvenile delinquency proceeding for a misdemeanor violation of subsection (a)(2) of this section, the court, without entering a judgment of guilt in a criminal proceeding or a determination in a juvenile delinquency proceeding that the juvenile has committed the offense and with the consent of the accused, may defer further proceedings and place the individual on probation. The terms and conditions of that probation include, but are not limited to, the sanctions set forth in subsection (a)(3) of this section, payment of the costs, including minimum state cost as provided for in section 18m of chapter XIIA of the Probate Code of 1939, Public Act No. 288 of 1939, MCL 712A.18m, and section 1j of chapter IX of the Code of Criminal Procedure, Public Act No. 175 of 1927, MCL 769.1j, and the costs of probation as prescribed in section 3 of chapter XI of the Code of Criminal Procedure, Public Act No. 175 of 1927, MCL 771.3. If a court finds that an individual violated a term or condition of probation or that the individual is utilizing this subsection in another court, the court may enter an adjudication of guilt, or a determination in a juvenile delinquency proceeding that the individual has committed the offense, and proceed as otherwise provided by law. If an individual fulfills the terms and conditions of probation, the court shall discharge the individual and dismiss the proceedings. A discharge and dismissal under this section is without adjudication of guilt or without a determination in a juvenile delinquency proceeding that the individual has committed the offense and is not a conviction or juvenile adjudication for purposes of disqualifications or disabilities imposed by law on conviction of a crime. An individual may obtain only one discharge and dismissal under this subsection. The court shall maintain a nonpublic record of the matter while proceedings are deferred and the individual is on probation and if there is a discharge and dismissal under this subsection. The secretary of state shall retain a nonpublic record of a plea and of the discharge and dismissal under this subsection. These records shall be furnished to any of the following:

(1) To a court, prosecutor, or police agency on request for the purpose of determining if an individual has already utilized this subsection (c).

(2) To the department of corrections, a prosecutor, or a law enforcement agency, on the department's, a prosecutor's, or a law enforcement agency's request, subject to all of the following conditions:

a. At the time of the request, the individual is an employee of the department of corrections, the prosecutor, or the law enforcement agency, or an applicant for employment with the department of corrections, the prosecutor, or the law enforcement agency.

b. The record is used by the department of corrections, the prosecutor, or the law enforcement agency only to determine whether an employee has violated his or her conditions of employment or whether an applicant meets criteria for employment.

(d) A misdemeanor violation of subsection (a) of this section successfully deferred, discharged, and dismissed under subsection (c) of this section is considered a prior judgment for the purposes of subsection (a)(3) of this section.

(e) A court may order an individual found responsible for or convicted of violating subsection (a) of this section to undergo screening and assessment by a person or agency as designated by the department-designated community mental health entity as defined in section 100a of the Mental Health Code, Public Act No. 258 of 1974, MCL 330.1100a, to determine whether the individual is likely to benefit from rehabilitative services, including alcohol or drug education and alcohol or drug treatment programs. A court may order an individual subject to a misdemeanor conviction or juvenile adjudication of, or placed on probation regarding, a violation of subsection (a) of this section to submit to a random or regular preliminary chemical breath analysis. The parent, guardian, or custodian of a minor who is less than 18 years of age and not emancipated under Public Act No. 293 of 1968, MCL 722.1 to 722.6, may request a random or regular preliminary chemical breath analysis as part of the probation.

(f) The secretary of state shall suspend the operator's or chauffeur's license of an individual convicted of a second or subsequent violation of subsection (a) of this section or of violating subsection (b) of this section as provided in section 319 of the Michigan Vehicle Code, Public Act No. 300 of 1949, MCL 257.319.

(g) A peace officer who has reasonable cause to believe a minor has consumed alcoholic liquor or has any bodily alcohol content may request that individual to submit to a preliminary chemical breath analysis. If a minor does not consent to a preliminary chemical breath analysis, the analysis shall not be administered without a court order, but a peace officer may seek to obtain a court order. The results of a preliminary chemical breath analysis or other acceptable blood alcohol test are admissible in a civil infraction proceeding or criminal prosecution to determine if the minor has consumed or possessed alcoholic liquor or had any bodily alcohol content.

(h) The Village Police Department, on determining that an individual who is less than 18 years of age and not emancipated under Public Act No. 293 of 1968, MCL 722.1 to 722.6, allegedly consumed, possessed, or purchased alcoholic liquor, attempted to consume, possess, or purchase alcoholic liquor, or had any bodily alcohol content in violation of subsection (a) of this section shall notify the parent, custodian, or guardian of the individual as to the nature of the violation if the name of a parent, guardian, or custodian is reasonably ascertainable by the Police Department. The Police Department shall notify the parent, guardian or custodian not later than 48 hours after the Police Department determines that the individual who allegedly violated subsection (a) of this section is less than 18 years of age and not emancipated under Public Act No. 293 of 1968, MCL 722.1 to 722.6. The Police Department may notify the parent, guardian, or custodian by any means reasonably calculated to give prompt actual notice, including, but not limited to, in person, by telephone, or by first class mail. If an individual less than 17 years of age is incarcerated for violating subsection (a) of this section, his or her parents or legal guardian shall be notified immediately as provided in this subsection.

(i) This section does not prohibit a minor from possessing alcoholic liquor during regular working hours and in the course of his or her employment if employed by a person licensed by this act, by the commission, or by an agent of the commission, if the alcoholic liquor is not possessed for his or her personal consumption.

(j) The following individuals are not considered to be in violation of subsection (a) of this section:

(3) A minor who initiates contact with a peace officer or emergency medical services personnel for the purpose of obtaining medical assistance for a legitimate health care concern.

(k) If a minor who is less than 18 years of age and who is not emancipated under Public Act No. 293 of 1968, MCL 722.1 to 722.6, voluntarily presents himself or herself to a health facility or agency for treatment or for observation as provided under subsection (j) of this section, the health facility or agency shall notify the parent, guardian, or custodian of the individual as to the nature of the treatment or observation if the name of a parent, guardian, or custodian is reasonably ascertainable by the health facility or agency.

(l) This section does not limit the civil or criminal liability of a vendor or the vendor's clerk, servant, agent, or employee for a violation of this section.

(m) The consumption of alcoholic liquor by a minor who is enrolled in a course offered by an accredited postsecondary educational institution in an academic building of the institution under the supervision of a faculty member is not prohibited by this section if the purpose of the consumption is solely educational and is a requirement of the course.

(p) The state police, the commission, or a local police agency shall not recruit or attempt to recruit a minor for participation in an undercover operation at the scene of a violation of subsection (a) of this section, section 701(1) or 801(2) of Public Act No. 58 of 1998.

(q) In a prosecution for the violation of subsection (a) of this section concerning a minor having any bodily alcohol content, it is an affirmative defense that the minor consumed the alcoholic liquor in a venue or location where that consumption is legal.

Subdivision III. Open House Parties

Sec. 22-559. Definitions.

The following words, terms and phrases, when used in this subdivision, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Alcoholic liquor means any beverage containing more than one-half of one percent of alcohol by volume, which is fit for beverage purposes, as defined and classified by the liquor control commission.

Allow means to give permission for, or approval of, possession or consumption of an alcoholic liquor or a controlled substance, by any of the following means:

(1) In writing.

(2) By one or more statements.

(3) By any form or conduct, including a failure to take corrective action, that would cause a reasonable person to believe that permission or approval has been given.

Control means any form of regulation or dominion, or the authority to regulate, direct, superintend or govern or the authority to exercise restraining or dominating influence over, including a possessory right over property.

Controlled substance means any drug, substance or immediate precursor designated and listed in schedules 1 through 5 of sections 7201 to 7231 of the Public Health Code, Public Act No. 368 of 1978 (MCL 333.7201 to 333.7231).

Corrective action means any of the following:

(1) Making a prompt demand that the minor or other individual depart from the premises, residence, or other real property, or refrain from the unlawful possession or consumption of the alcoholic beverage or controlled substance on or within that premises, residence, or other real property and taking additional action described in subsection (2) or (3) of this definition if the minor or other individual does not comply with the request.

(3) A motel unit, hotel unit, or bed and breakfast unit.

Sec. 22-560. Purpose.

The Village determines that alcohol and controlled substance use by persons less than 21 years of age should be regulated. Unregulated use creates serious social problems, including, but not limited to, injury and harm to persons and property caused by vehicles operated by persons less than 21 years of age under the influence of alcohol or controlled substances, disturbance of the peace, and other devastating effects upon minors and the public at large. It is further determined that the regulation of house parties, involving alcohol and controlled substance use by persons less than 21 years of age, requires sponsoring persons to assume responsibility. Prohibiting persons less than 21 years of age from attending such parties will significantly reduce the incidence of problems attributable to alcohol and controlled substance use by persons less than 21 years of age.

The provisions of this subdivision shall not apply to legally protected religious observances or legally protected educational activities.

Sec. 22-562. Control and allowance of party.

Once premises have been assigned debt service charges, subsequent changes in the character of the use or type of occupancy of the premises shall not abate the obligation to continue the payment of the debt service charge herein set forth or decrease the applicable unit factor. If subsequent changes in the character of the use or type of occupancy of the premises increase the applicable unit factor, then such debt service charge shall be increased accordingly to reflect such change; provided, however, that if the charges are increased because of a change of use, further changes in the occupancy thereafter shall be adjusted upward or downward in accordance with the use, but in no event shall the debt service charge be less than that applicable under the unit factor in effect on June 12, 1978.

(4) The charges set by the Village Council shall never in any way be changed in such a manner as shall be contrary to the obligation and limitations set forth in any contractual agreement pertaining to the laterals between the Village and the county, or contrary to the obligations and limitations of the contract between the Village and the county pertaining to the Paint Creek interceptor sewage disposal system.

(a) All revenue derived hereunder shall be set aside as collected and deposited in a bank duly qualified to do business in the state in an account to be designated "Village of Lake Orion Extensions of the Paint Creek Disposal System Receiving Fund" (hereunder referred to as "the receiving fund") and the revenue so deposited shall be transferred from the receiving fund to such other funds as are herein established in the manner and at the times hereinafter set forth.

(1) *Operation and maintenance fund.* Out of the revenue in the receiving fund there shall be first set aside quarter-annually into separate account designated "operation and maintenance fund" a sum sufficient to provide for the payment of the next quarter's current expenses of administration and operation of the system and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order.

(2) *Bond and interest redemption fund.* Out of the revenues in the receiving fund there shall next be set aside quarter-annually into a separate account designated "bond and interest redemption fund" a sum not less than one-quarter of that amount necessary to meet the next annual payment of interest and bond redemption. All monies received from capital payments and lateral benefit payments shall be put into the bond and interest redemption fund.

(3) *Improvement and reserve fund.* Out of the revenue in the receiving fund there shall lastly be set aside once annually into a separate account designated "improvement and reserve fund," such sums which shall be in excess of the needs and requirements of the operation and maintenance fund, such excess to be held for the purpose of improving, enlarging and extending the Village extensions of the Paint Creek sewage disposal system and for the purpose of providing a reserve fund for all future payments of interest and bond redemption.

(b) All monies belonging to any of the funds or accounts described in subsection (a) of this section may be kept in one bank account, in which event, the monies shall be properly allocated on the books and records of the Village within this single bank account in the manner set forth in subsection (a) of this section.

(c) In the event monies in the receiving fund are insufficient to meet the requirements of the operation and maintenance fund or the requirements of the bond and interest redemption fund, then such funds or securities in the improvement and reserve fund shall be transferred to either or both of such funds to the extent of any deficit that might exist therein.

(d) Monies in any fund or account established by the provisions of this division may be invested in such securities as may hereafter be permitted by law. In the event such investments are made, the securities representing the same shall be kept on deposit with the bank or trust company having on deposit the funds from which such purchase was made. Income received from such investments shall be credited to the fund from which said investments were made.

(e) All funds received under this division from the Lake Orion extensions of the Paint Creek sewage disposal system shall not, under any circumstances, be commingled with any other funds received by the Village.

DIVISION 3. SEWER CONNECTIONS

Sec. 26-115. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Available public sanitary sewer means a public sanitary sewer system located in the right-of-way, easement, highway, street or public way which crosses, adjoins or abuts upon the property and passing not more than 200 feet at the nearest point from a structure in which sanitary sewage originates.

Public sanitary sewer system means a sanitary sewer or a combined sanitary and storm sewer used or intended for use by the public for collection and transportation of sanitary sewage for treatment or disposal.

Sewage disposal system means the Village sanitary sewage disposal system.

Structure or *structure in which sanitary sewage originates* means a building in which toilet, kitchen, laundry, bathing or other facilities which generate water-carried sanitary sewage are used or are available for use for household, commercial, industrial or other purposes.

System means the sewage disposal system.
(Code 1996, § 51.50; Ord. No. 23.05, 3-12-1973)

Sec. 26-116. Purpose.

Public sanitary sewer systems are essential to the health, safety and welfare of the people of the state and the septic tank disposal systems are subject to failure due to soil conditions or other reasons. Failure to potential failure or septic tank disposal systems poses a threat to the public health, safety and welfare; presents a potential for ill health, transmission of disease, mortality and potential economic blight, and constitutes a threat to the quality or surface and subsurface waters of the state and the Village. The connection to available public sanitary sewer systems at the earliest reasonable date is a matter for the protection of the public health, safety and welfare and necessary in the public interest which is declared as a matter of legislative determination.
(Code 1996, § 51.51; Ord. No. 23.05, 3-12-1973)

Sec. 26-117. Connection required.

Structures in which sanitary sewage originates located in the Village in the area served by the system for which there is an available public sanitary sewer of the system shall not be used or occupied after the effective date of the ordinance from which this division is derived, unless the structures are connected to the sewage disposal system, provided that structures within the Village in which sanitary sewage is originating on the effective date of the ordinance from which this division is derived or in which sanitary sewage originates before availability of the system or any part thereof to serve the structures shall be connected to the system within 12 months after publication of a notice by the Village in the Lake Orion Review, a newspaper of general circulation in the Village, of the availability of the system.
(Code 1996, § 51.52; Ord. No. 23.05, 3-12-1973)

Sec. 26-118. Failure to connect; notice.

When the structure in which sanitary sewage originates has not been connected to an available public sanitary sewer system before use and occupancy, or within the 12-month period provided in this division, the Village shall require the connection to be made forthwith after notice, which may be by first class or certified mail or posting on the property, to the owner of the property on which the structure is located. The notice shall give the approximate location of

the public sanitary sewer of the system which is available for connection of the structure involved and shall advise the owner of the requirements and of the enforcement provisions of this division.
(Code 1996, § 51.53; Ord. No. 23.05, 3-12-1973)

Sec. 26-119. Enforcement.

Where any structure in which sanitary sewage originates is not connected to an available public sanitary sewer system within 90 days after the date of mailing or posting of the written notice, the provisions of this division shall be enforceable through the bringing of appropriate action or injunction, mandamus, or otherwise, in any court having jurisdiction. Any violation of this division is deemed to be a nuisance per se.
(Code 1996, § 51.54; Ord. No. 23.05, 3-12-1973)

Secs. 26-120—26-136. Reserved.

DIVISION 4. MUNICIPAL SEPARATE STORM SEWER SYSTEM

Sec. 26-137. Purpose.

(a) The purpose of this division is to provide for the health, safety, and general welfare of the citizens of the Village through the regulation of stormwater and non-stormwater discharges to the storm drainage system to the maximum extent practicable as required by federal and state law. This division establishes methods for controlling the introduction of pollutants into the municipal separate storm sewer system (MS4) in order to comply with requirements of the National Pollutant Discharge Elimination System (NPDES) permit process. The objectives of this division are:

(1) To regulate the contribution of pollutants to the municipal separate storm sewer system (MS4) by stormwater discharges by any user.

(2) To prohibit illicit connections and discharges to the municipal separate storm sewer system.

(3) To establish legal authority to carry out all inspection, surveillance, and monitoring procedures necessary to ensure compliance with this division.

(b) As a requirement of the NPDES stormwater discharge permit and the Village's municipal separate storm sewer system permit, the Village accepts the following county standards for post-construction stormwater runoff:

(1) The county Post-Construction Stormwater Runoff Program, including the county stormwater engineering design standards is hereby adopted by the Village in this division for the control and treatment of stormwater runoff, with the exception that all

developments subject to this division shall provide acceptable water quality treatment BMPs designed to achieve 80 percent removal efficiency of total suspended solids from the runoff produced by a one-inch rainfall event.

(2) The property owner, upon completion of construction, must enter into a binding long-term maintenance agreement with the Village, at their own expense, to document, routinely monitor and maintain the stormwater quantity and quality BMPs so they continue to operate as designed. The agreement shall be set up such that if the property owner should be determined to be nonresponsive to a notice of required maintenance actions, the Village may enter the property to perform the maintenance required.

(3) These standards shall apply to address post-construction stormwater runoff from new development and redevelopment projects that disturb one or more acres, including projects less than one acre that are part of a larger common plan of development or sale, and that discharge into the Village's MS4.

(4) All permanent and temporary stormwater management BMPs, constructed as part of the requirements of this section, are subject to this division.

(5) This division also applies to any activities which may affect the quantity or quality of a private or stormwater conveyance system or any waterway within the Village. Any person engaged in activities that may result in excessive quantities or pollutants entering any stormwater conveyance systems or waterways may be subject to the remedies for violation of this section. Examples of such pollutants may include, but are not limited to, debris, concrete washings, de-icing materials, fertilizers, heavy metals, automobile fluids, topsoil, yard wastes, and commercial or light industrial wastes.

(6) Natural swales and channels should be preserved, whenever possible. If channel modification must occur, the physical characteristics of the modified channel will meet the existing channel in length, cross section, slope, sinuosity, and carrying capacity. Streams and channels will be expected to withstand all events up to the two-year storm without increased erosion.

(7) Channel protection volume control (CPVC) must retain on-site the post-development runoff volume from a 1.3-inch rainfall event and provide infiltration and/or storage/ reuse BMP's to the maximum extent possible (MEP).

(8) Channel protection rate control (CPRC) must provide extended detention for the post development runoff volume from a 1.9-inch rainfall event.

(9) All structural and vegetative BMPs must be installed and implemented to meet the performance standards and shall be operated and maintained in perpetuity. The permittee shall implement and enforce this division or regulatory mechanism program to ensure long-term operation and maintenance of BMPs.

(10) The regulatory mechanism and procedures for site plan approval and the design and construction standards shall apply for projects that disturb one or more acres, including projects less than one acre that are part of a larger common plan of development or sale, and discharge to the permittee's MS4, including projects where the permittee is the developer. The final site plan review and approval shall demonstrate compliance with the performance standards and long-term operation and maintenance requirements stated in this division.

(Code 1996, § 51.60; Ord. No. 23.35, 2-8-2016; Ord. No. 23.29, § 51.60, 4-25-2022)

Best management practices (BMPs) means schedules of activities, prohibitions of practices, general good housekeeping practices, pollution prevention and educational practices, maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to stormwater, receiving waters, or stormwater conveyance systems. BMPs also include treatment practices, operating procedures, and practices to control site runoff, spillage or leaks, sludge or water disposal, or drainage from raw materials storage.

Channel protection volume control (CPVC) means the volume of runoff under post development conditions from a 1.3-inch rainfall event that is required to be retained on-site to the maximum extent practicable (MEP).

Illegal discharge means any direct or indirect non-stormwater discharge to the storm drain system, except as exempted in section 26-142.

Illicit connection means either of the following:

(1) Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the storm drain system, including, but not limited to, any conveyances which allow any non-stormwater discharge including sewage, process wastewater, and wash water to enter the storm drain system and any connections to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by the authorized enforcement agency; or

Person means any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.

Pollutant means anything which causes or contributes to pollution. Pollutants may include, but are not limited to, paints, varnishes, and solvents; oil and other automotive fluids; nonhazardous liquid and solid wastes and yard wastes; refuse, rubbish, garbage, litter, or other discarded or abandoned objects, ordinances, and accumulations, so that same may cause or contribute to pollution; floatables; pesticides, herbicides, and fertilizers; hazardous substances and wastes; sewage, fecal coliform and pathogens; dissolved and particulate metals; animal wastes; wastes and residues that result from constructing a building or structure; and noxious or offensive matter of any kind.

Premises means any building, lot, parcel of land, or portion of land, whether improved or unimproved, including adjacent sidewalks and parking areas.

Storm drainage system means publicly owned or privately owned facilities by which stormwater is collected and/or conveyed, including, but not limited to, any roads with drainage systems,

municipal streets, gutters, curbs, inlets, piped storm drains, pumping facilities, retention and detention basins, natural and human-made or altered drainage channels, reservoirs, and other drainage structures.

Stormwater means any surface flow, runoff, and drainage consisting entirely of water from any form of natural precipitation and resulting from such precipitation.

Stormwater pollution prevention plan means a document which describes the best management practices and activities to be implemented by a person or business to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to stormwater, stormwater conveyance systems, and/or receiving waters to the maximum extent practicable.

(Code 1996, § 51.61; Ord. No. 23.35, 2-8-2016; Ord. No. 23.29, § 51.61, 4-25-2022)

Sec. 26-139. Applicability.

This division shall apply to all water entering the storm drain system generated on any developed and undeveloped lands unless explicitly exempted by the authorized enforcement agency.
(Code 1996, § 51.62; Ord. No. 23.35, 2-8-2016)

Sec. 26-140. Responsibility for administration.

The Village Manager or the Village Manager's designee, shall administer, implement, and enforce the provisions of this division. Any powers granted or duties imposed upon the authorized enforcement agency may be delegated in writing by the Village Manager to persons or entities acting in the beneficial interest of or in the employ of the agency.
(Code 1996, § 51.63; Ord. No. 23.35, 2-8-2016)

Sec. 26-141. Ultimate responsibility.

The standards set forth herein and promulgated pursuant to this division are minimum standards; therefore, this division does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants.
(Code 1996, § 51.64; Ord. No. 23.35, 2-8-2016)

Sec. 26-142. Discharge prohibitions.

(a) No person shall discharge or cause to be discharged into the municipal storm drain system or watercourses any materials, including, but not limited to, pollutants or waters containing any pollutants that cause or contribute to a violation of applicable water quality standards, other than stormwater.

(b) The commencement, conduct or continuance of any illegal discharge to the storm drain system is prohibited except as described as follows:

(1) The following discharges are exempt from discharge prohibitions established by this division if they are identified as not being a significant source of pollutants and/or a significant contributor to violations of state quality standards: water line flushing and discharges from other potable water sources, landscape irrigation or lawn watering runoff, diverted stream flows, rising groundwater and springs, uncontaminated groundwater infiltration and seepage, uncontaminated pumped groundwater (except for groundwater cleanups specifically authorized by NPDES permits), foundation or footing drains (not including active groundwater dewatering systems), crawl space pumps, air conditioning condensation, springs, noncommercial washing of vehicles, natural riparian habitat or wetland flows, swimming pools from single-, two- or three-family residences (if dechlorinated, typically less than one PPM chlorine), firefighting activities, and any other water source not containing pollutants.

(2) Discharges specified in writing by the authorized enforcement agency as being necessary to protect public health and safety.

(3) Dye testing is an allowable discharge, but requires authorization from the Michigan Department of Environment, Great Lakes, and Energy (Rule 97 certification of approval) and a verbal notification to the authorized enforcement agency prior to the time of the test.

(4) The prohibition shall not apply to any non-stormwater discharge permitted under an NPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the Federal Environmental Protection Agency, provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the storm drain system.

(Code 1996, § 51.65; Ord. No. 23.35, 2-8-2016)

Sec. 26-143. Prohibition of illicit connections.

(a) The construction, use, maintenance, or continued existence of illicit connections to the storm drain system is prohibited.

(b) This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.

(c) A person is considered to be in violation of this division if the person connects a line conveying sewage to the MS4 or allows such a connection to continue.

(Code 1996, § 51.66; Ord. No. 23.35, 2-8-2016)

Sec. 26-144. Right of entry for inspection.

The Village Manager and other duly authorized employees of the Village bearing proper credentials and identification shall be permitted to enter upon all properties for the purposes of inspection, observation, measurement, sampling, and testing of suspected illicit discharges or connections in accordance with the provisions of this division.
(Code 1996, § 51.67; Ord. No. 23.35, 2-8-2016)

Sec. 26-145. Access.

(a) *Suspension due to illicit discharges in emergency situations.* The authorized enforcement agency may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or waters of the United States. If the violator fails to comply with a suspension order issued in an emergency, the authorized enforcement agency may take such steps as deemed necessary to prevent or minimize damage to the MS4 or waters of the United States, or to minimize danger to persons.

(b) *Suspension due to the detection of illicit discharge.* Any person discharging to the MS4 in violation of this division may have their MS4 access terminated if such termination would abate or reduce an illicit discharge. The authorized enforcement agency will notify a violator of the proposed termination of its MS4 access. The violator may petition the authorized enforcement agency for a reconsideration and hearing. A person commits an offense if the person reinstates MS4 access to premises terminated pursuant to this section, without the prior approval of the authorized enforcement agency.
(Code 1996, § 51.68; Ord. No. 23.35, 2-8-2016)

Sec. 26-146. Industrial or construction activity discharges.

Any person subject to an industrial or construction activity NPDES stormwater discharge permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the authorized enforcement agency prior to the allowing of discharges to the MS4.
(Code 1996, § 51.69; Ord. No. 23.35, 2-8-2016)

Sec. 26-147. Monitoring of discharges.

(a) *Applicability.* This section applies to all facilities that have stormwater discharges associated with industrial activity, including construction activity.

(b) *Access to facilities.*

(1) The authorized enforcement agency shall be permitted to enter and inspect facilities subject to regulation under this division as often as may be necessary to determine

compliance with this division. If a discharger has security measures in force which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to representatives of the authorized enforcement agency.

(2) Facility operators shall allow the authorized enforcement agency ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records that must be kept under the conditions of an NPDES permit to discharge stormwater, and the performance of any additional duties as defined by state and federal law.

(3) The authorized enforcement agency shall have the right to set up on any permitted facility such devices as are necessary in the opinion of the authorized enforcement agency to conduct monitoring and/or sampling of the facility's stormwater discharge.

(4) The authorized enforcement agency has the right to require the discharger to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure stormwater flow and quality shall be calibrated to ensure their accuracy.

(5) Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the operator at the written or oral request of the authorized enforcement agency and shall not be replaced. The costs of clearing such access shall be borne by the operator.

(6) Unreasonable delays in allowing the authorized enforcement agency access to a permitted facility are a violation of a stormwater discharge permit and of this division. A person who is the operator of a facility with a NPDES permit to discharge stormwater associated with industrial activity commits an offense if the person denies the authorized enforcement agency reasonable access to the permitted facility for the purpose of conducting any activity authorized or required by this division.

(7) If the authorized enforcement agency has been refused access to any part of the premises from which stormwater is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this division, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this division or any order issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the authorized enforcement agency may seek issuance of a search warrant from any court of competent jurisdiction.

(Code 1996, § 51.70; Ord. No. 23.35, 2-8-2016)

Sec. 26-148. Requirement to prevent, control, and reduce stormwater pollutants by the use of best management practices.

All stormwater drainage and erosion control plans shall meet the standards adopted by the Village and the county for design and construction. Authorized enforcement agency may adopt requirements identifying best management practices for any activity, operation, or facility which may cause or contribute to pollution or contamination of stormwater, the storm drain system, or waters of the United States. The owner or operator of a commercial or industrial establishment shall provide, at their own expense, reasonable protection from accidental discharge of prohibited materials or other wastes into the municipal storm drain system or watercourses through the use of these structural and nonstructural BMPs. Further, any person responsible for a property or premises which is, or may be, the source of an illicit discharge may be required to implement, at said person's expense, additional structural and nonstructural BMPs to prevent the further discharge of pollutants to the municipal separate storm sewer system. Compliance with all terms and conditions of a valid NPDES permit authorizing the discharge of stormwater associated with industrial activity, to the extent practicable, shall be deemed compliance with the provisions of this section. These BMPs shall be part of a stormwater pollution prevention plan (SWPP) as necessary for compliance with requirements of the NPDES permit.
(Code 1996, § 51.71; Ord. No. 23.35, 2-8-2016; Ord. No. 23.29, § 51.71, 4-25-2022)

Sec. 26-149. Watercourse protection.

Every person owning property through which a watercourse passes, or such person's lessee, shall keep and maintain that part of the watercourse within the property free of trash, debris, excessive vegetation, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, the owner or lessee shall maintain existing privately owned structures within or adjacent to a watercourse, so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse.
(Code 1996, § 51.72; Ord. No. 23.35, 2-8-2016)

Sec. 26-150. Notification of spills.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into stormwater, the storm drain system, or water of the United States said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services. In the event of a release of nonhazardous materials, said person shall notify the

authorized enforcement agency in person or by phone or facsimile no later than the next business day. Notifications in person or by phone shall be confirmed by written notice addressed and mailed to the authorized enforcement agency within three business days of the phone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.
(Code 1996, § 51.73; Ord. No. 23.35, 2-8-2016)

Sec. 26-151. Enforcement agency; notice of violation.

(a) Whenever the authorized enforcement agency finds that a person has violated a prohibition or failed to meet a requirement of this division, the authorized enforcement agency may order compliance by written notice of violation to the responsible person. Such notice may require, without limitation:

(1) The performance of monitoring, analyses, and reporting;

(2) The elimination of illicit connections or discharges;

(3) That violating discharges, practices, or operations shall cease and desist;

(4) The abatement or remediation of stormwater pollution or contamination hazards and the restoration of any affected property;

(5) The payment of a fine to cover administrative and remediation costs; and

(6) The implementation of source control or treatment BMPs.

(b) If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such remediation or restoration must be completed. Said notice shall further advise that, should the violator fail to remediate or restore within the established deadline, the work will be done by a designated governmental agency or a contractor and the expense thereof shall be charged to the violator.
(Code 1996, § 51.74; Ord. No. 23.35, 2-8-2016)

Sec. 26-152. Enforcement measures.

DIVISION 2. SEWER SYSTEMS CONNECTED TO COUNTY SEWERS

Sec. 26-215. Sewers must meet requirements.

All sanitary sewer systems connected directly or indirectly into the intercepting sewer or sewers of the office of the county water resources commissioner shall meet the requirements set forth in this division.

(Code 1996, § 52.15; Ord. No. 23.27, 1-8-1990)

Sec. 26-216. Plans, permits and bonds.

(a) Prior to connection and prior to start of construction, all sanitary sewer systems shall have engineering plans and specifications prepared by a professional engineer and shall be approved by the office of the county water resources commissioner.

(b) A connection permit shall be obtained by the owner or contractor from the office of the county water resources commissioner. The connection permit shall show the location of the work, the extent of the work, information regarding the contractor, the owner and the engineer, and any other pertinent information as shall be determined necessary by the department of public works. A fee shall be charged for said permit to cover the cost of inspection of each connection and to verify the result of the acceptance test. The permit fee shall be $150.00 for each connection, plus $15.00 for each new manhole constructed. Inspection requested during other than normal working hours shall be performed only if deemed necessary by the office of the county water resources commissioner. The fee for such inspection shall be $250.00 per day minimum, in addition to the normal connection permit fee.

(c) (1) Individual building sewers that are directly connected into the county sanitary sewer system shall conform to all applicable requirements of this division. A connection permit, for which a charge of $50.00 will be made by the office of the county water resources commissioner, shall be obtained from the Department of Public Works before such connection is made. Prior to the issuance of such connection permit, the person obtaining such permit shall have obtained the written approval of the local unit of government. Connection shall be made in a workmanlike manner and in accordance with methods and procedures established by the Department of Public Works.

(2) The party to whom such a permit is issued shall be responsible for notifying the Department of Public Works 24 hours in advance of the date and time when such a connection is made so that proper inspection of same can be made by the Department.

(d) Prior to the adjustment, reconstruction, relocation or any other altering of the sewers of the county, including manhole structures, the contractor or the person responsible for the work shall first obtain a permit to do such work from the office of the county water resources commissioner. The permit fee shall be determined by the Department of Public Works.

(1) Prior to construction and during the life of permits obtained in accordance with subsections (b) and (c) of this section and this subsection (d), all owners or contractors shall:

a. Yearly furnish to the office of the county water resources commissioner a satisfactory surety bond in the amount of $5,000.00 as security for the faithful performance of the work in accordance with the plans and specifications and departmental standards; and

b. Yearly furnish to the office of the county water resources commissioner a deposit in the amount of $500.00. Such deposit shall provide funds for emergency work and/or such other work as may be deemed necessary by the office of the county water resources commissioner, arising as a result of construction by the owner or contractor. Such bonds shall not be cancelled by the owner, the contractor or the surety without first having given ten days' written notice to the office of the county

water resources commissioner. Deposits may be returned to the owner or contractor within ten days of receipt of written request therefor, except that no deposits will be returned until such time as all outstanding permits have received final inspection and approval. In the event that it becomes necessary for the office of the county water resources commissioner to expend funds for work arising as a result of construction by the owner or the contractor, then the cost of such work shall be deducted from the aforementioned deposit.

(2) The owner or contractor shall have the right and opportunity to correct any deficiencies promptly before any deposit funds will be spent by the office of the county water resources commissioner. The owner or contractor shall, within 30 days of the mailing of written notice thereof, pay to the office of the county water resources commissioner the entire amount of such cost. Failure to comply with these rules and regulations and the standards of the office of the county water resources commissioner may result in the immediate termination of the surety and cash bonds.

(Code 1996, § 52.16; Ord. No. 23.27, 1-8-1990)

Sec. 26-217. Bulkhead.

The contractor shall install a suitable bulkhead to prevent construction water, sand, silt, and the like from entering the existing sewer system. Such bulkhead shall be left in place until such time as removal is authorized by the office of the county water resources commissioner.

(Code 1996, § 52.17; Ord. No. 23.27, 1-8-1990)

Sec. 26-218. Acceptance test.

(a) All sanitary sewer systems shall be subjected to infiltration, air, or exfiltration tests or a combination thereof in accordance with the following requirements prior to acceptance of the system by the office of the county water resources commissioner and prior to removal of the bulkhead as required in section 26-217.

(b) All final acceptance tests shall be witnessed by the office of the county water resources commissioner.

(c) Infiltration test.

(1) All sewers over a 24-inch diameter shall be subjected to infiltration tests. All sewers of 24-inch diameter or smaller where the groundwater level above the top of the sewer is over seven feet shall be subjected to an infiltration test.

(2) Maximum allowable infiltration shall not exceed 250 gallons per inch of diameter per mile of pipe per 24 hours for the overall project. Maximum allowable infiltration shall not exceed 500 gallons per inch of diameter per mile of pipe per 24 hours for any individual run between manholes.

(d) Air test or exfiltration test.

(1) All sewers of 24-inch diameter or less, where the groundwater level above the top of the sewer is seven feet or less, shall be subjected to air tests or exfiltration tests.

(2) For exfiltration tests, the internal water level shall be equal to the external water level plus seven feet as measured from the top of pipe.

(3) The allowable exfiltration rate shall be the same as that permitted from infiltration.

(4) The procedure for air testing of sewers shall be as follows:

a. The sewer line shall be tested in increments between manholes. The line shall be cleaned and plugged at each manhole. Such plugs shall be designed to hold against the test pressure and shall provide an airtight seal. One of the plugs shall have an orifice through which air can be introduced into the sewer. An air supply line shall be connected to the orifice. The air supply line shall be fitted with suitable control valves and a pressure gauge for continually measuring the air pressure in the sewer. The pressure gauge shall have a minimum diameter of 3 ½ inches and a range of zero to ten PSIG. The gauge shall have minimum divisions of 0.10 PSIG and an accuracy of +0.04 PSIG.

b. The sewer shall be pressurized to 4.0 PSIG greater than the greatest back pressure caused by groundwater over the top of the sewer pipe. At least two minutes shall be allowed for the air pressure to stabilize between 3.5 and 4.0 PSIG. If necessary, air shall be added to the sewer to maintain a pressure of 3.5 PSIG or greater.

c. After the stabilization period, the air supply control valve shall be closed so that no more air will enter the sewer. The sewer air pressure shall be noted and timing for the test begun. The test shall not begin if the air pressure is less than 3.5 PSIG, or such other pressure as is necessary to compensate for groundwater level.

d. The time required for the air pressure to decrease 1.0 PSIG during the test shall not be less than the time shown in the Oakland County Department of Public Works Air Test Tables.

(5) Manholes on sewers to be subjected to air tests shall be equipped with a one-half-inch diameter galvanized capped pipe nipple extending through the manhole, three inches into the manhole wall and at an elevation equal to the top of the sewer pipe. Prior to the air test, the groundwater elevation shall be determined by blowing air through the pipe nipple to clear it and then connecting a clear plastic tube to the pipe nipple. The tube shall be suspended vertically in the manhole and the groundwater elevation determined by observing the water level in the tube. The air test pressure shall be adjusted to compensate for the maximum groundwater level above the top of the sewer pipe to be tested. After all tests are performed and the sewer is ready for final acceptance, the pipe nipple shall be plugged in an acceptable manner.

(e) If a sewer fails to pass any of the previously described tests, the contractor shall determine the location of the leaks, repair them and retest the sewer. The tests shall be repeated until satisfactory results are obtained.

(f) All visible leaks and cracks shall be repaired regardless of test results.
(Code 1996, § 52.18; Ord. No. 23.27, 1-8-1990)

Sec. 26-219. Stormwater and groundwater control.

(a) Yard drains, patio drains, catch basins, downspouts, weep tile, perimeter and footing drains or any other structure used for the collection and conveyance of stormwater and/or groundwater shall not be permitted to discharge into any sanitary sewer connected directly or indirectly to the county system, except as provided under subsection (b) of this section.

(b) Perimeter and footing drains from buildings existing before December 16, 1968, shall not be required to disconnect from the sanitary sewer system, provided that federal, state or local law or regulation does not require, or may not require subsequent to the adoption of these standards and regulations, the disconnection of such perimeter and footing drains.

(c) The crock to iron joint shall be sealed by approved flexible adaptor fittings such as those manufactured by Fernco Joint Sealer Company, or as approved by the office of the county water resources commissioner. The iron pipe inside the building shall be plugged and leaded and remain plugged and watertight until such time as the plumbing is carried on to the first floor, the basement backfilled and the roof is on the building, thereby providing that no water from the excavated basement will enter the sanitary sewer.
(Code 1996, § 52.19; Ord. No. 23.27, 1-8-1990)

(4) Any wastewater containing petroleum oil, non-biodegradable cutting oil, products of mineral oil origin, or toxic pollutants in sufficient concentration or quantity either singly or by interaction with other pollutants to cause interference, or pass through, or constitute a hazard to humans or animals;

(5) Any liquid, gas, solid or form of energy which, either singly or by interaction with other waste, is sufficient to create toxic gas, vapor, or fume within the POTW in quantities that may cause acute worker health and safety problems, or may cause a public nuisance or hazard to life, or are sufficient to prevent entry into the sewers for their maintenance and repair;

(6) Any substance which is sufficient to cause the POTW's effluent or any other product of the POTW, such as residue, sludge, or scum to be unsuitable for reclamation processing where the POTW is pursuing a reuse and reclamation program; in no case shall a substance discharged to the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria guidelines or regulations developed under 33 USC 1345, with any criteria, guidelines, or developed and promulgated regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Federal Clean Air Act, the Federal Toxic Substances Control Act, or with state criteria applicable to the sludge management method being used;

(7) Any substance which will cause the POTW to violate either the consent judgment in *U.S. EPA v. Village of Detroit et al.,* federal district court for the Eastern District of Michigan Case No. 77-1100, or the Great Lakes Water Authority's national pollutant discharge elimination system permit;

(8) Any discharge having a color uncharacteristic of the wastewater being discharged;

(9) Any wastewater having a temperature which will inhibit biological activity in the POTW treatment plant resulting in interference, but in no case wastewater with a temperature at the introduction into a public sewer which exceeds 150 degrees Fahrenheit or which will cause the influent at the wastewater treatment plant to rise above 104 degrees Fahrenheit (40 degrees Celsius);

(10) Any pollutant discharge which constitutes a slug;

(11) Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established in compliance with applicable federal or state regulations;

(12) Any floating fats, oil or grease which are sufficient to cause interference with or pass through the POTW; or

(13) Any solid materials having a specific gravity greater than 1.2 or a cross section dimension of one-half inch or greater which are sufficient to cause interference with the POTW.

(b) *Specific pollutant prohibitions.* No user shall discharge wastewater containing in excess of the following limitations:

(1) *Compatible pollutants.* See section 26-285.

(2) *Noncompatible pollutants.*

a. Pollutants in wastewater containing in excess of the following limitations:

Arsenic (As)	1.0 mg/L
Cadmium (Cd)	See section 26-285
Chromium (Cr)	25.0 mg/L

Copper (Cu)	2.5 mg/L
Cyanide (CN) (available)	1.0 mg/L
Iron (Fe)	1,000.0 mg/L
Lead (Pb)	1.0 mg/L
Nickel (Ni)	5.0 mg/L
Silver (Ag)	1.0 mg/L
Zinc (Zn)	7.3 mg/L
Total phenolic compounds or see section 26-284	1.0 mg/L

b. All limitations are based on samples collected over an operating period representative of an industrial user's discharge, and in accordance with 40 CFR 136.

1. *The limitation for total PCB is non-detect.* Total PCB shall not be discharged at detectable levels, based upon U.S. EPA Method 608, and the quantification level shall not exceed 0.2 ugm/l, unless a higher level is appropriate because of demonstrated sample matrix interference. Where one or more samples indicate detectable levels of total PCB, the user shall be required to demonstrate compliance. For purposes of this section, this demonstration may be made using analytical data showing that the total PCB concentration is below the detection level, or submission of a BMP in accordance with section 26-281(h).

2. *The limitation of mercury (Hg) is non-detect.* Mercury (Hg) shall not be discharged at detectable levels, based upon U.S. EPA Method 245.1, and the quantification level shall not exceed 0.2 ugm/L, unless a higher level is appropriate because of demonstrated sample matrix interference. Where one or more samples indicate detectable levels of mercury, the user shall be required to demonstrate compliance. For the purposes of this section, the demonstration may be made using analytical data showing that the mercury concentration is below the detection level, or submission of a BMP in accordance with section 26-281(h). All limitations are based on samples collected over an operating period representative of an industrial user's discharge, and in accordance with 40 CFR 136.

3. *Compliance period.* Within 30 days of the effective date of this section, the Department shall notify all industrial user's operating under an effective wastewater discharge permit of the requirement to submit a compliance report within 180 days after the effective date of this section. The compliance report shall demonstrate the user's compliance or noncompliance with these limitations, and, in the event of noncompliance, include the submission of a plan and schedule for achieving compliance with the stated limitation. In no event shall a compliance schedule exceed 18 months from the effective date of

the ordinance from which this section is derived. An industrial user who does not demonstrate compliance may petition the Department for a second extension as part of an administrative consent order. The Department shall include appropriate monitoring, reporting, and penalties into an administrative consent order that relates to a second extension and shall enter into such an agreement only upon a good faith showing by the industrial user of the actions taken to achieve compliance with this provision.

(c) *National Categorical Pretreatment Standards.* All users shall comply with the applicable National Categorical Pretreatment Standards and requirements promulgated pursuant to the Act as set forth in 40 CFR subchapter N, Effluent Guidelines and Standards, which are hereby incorporated by reference and with all other applicable standards and requirements; provided, however, that where a more stringent standard or requirement is applicable pursuant to state law or regulation, or to this article, then the more stringent standard or requirement shall be controlling. Affected dischargers shall comply with applicable reporting requirements under 40 CFR 403 and as established by the Department. The National Categorical Pretreatment Standards which have been promulgated as of the effective date of the ordinance from which this article is derived are delineated in section 26-283.

(1) *Intake water adjustment.* Industrial users seeking adjustment of National Categorical Pretreatment Standards to reflect the presence of pollutants in their intake water must comply with the requirements of 40 CFR 403.15. Upon notification of approval by the Department, the adjustment shall be applied by modifying the permit accordingly. Intake water adjustments are not effective until incorporated into an industrial user's permit.

(2) *Modification of National Categorical Pretreatment Standards.* The Department may apply to the U.S. Environmental Protection Agency, or to the state department of environment, Great Lakes, and energy, whichever is appropriate, for authorization to grant removal credits in accordance with the requirements and procedures in 40 CFR 403.7. Such authorization may be granted only when the POTW treatment plant can achieve consistent removal for each pollutant for which a removal credit is being sought, provided that any limitation of such pollutant in the NPDES permit neither are being exceeded nor pose the prospect of being exceeded as a result of the removal credit being granted. Where such authorization is given to the Department, any industrial user desiring to obtain such credit shall make an application to the Department consistent with the provisions of 40 CFR 403.7 and of this article. Any credits which may be granted under this article may be subject to modification or revocation as specified in 40 CFR 403.7, or as determined by the Department. A requisite to the granting of any removal credit may be that the industrial user pay a surcharge based upon the amounts of such pollutants removed by the POTW, such surcharge being

based upon fees or rates which the board may establish and, when appropriate, revise from time to time. Permits shall reflect, or be modified to reflect, any credit granted pursuant to this article.

(3) *New sources.* Industrial users who meet the new sources criteria shall install, maintain in operating condition, and start up all pollution control equipment required to meet applicable pretreatment standards before beginning to discharge. Within the shortest feasible time and not to exceed 90 days, new sources must meet all applicable pretreatment standards.

(4) *Concentration and mass limits.* When limits in a categorical pretreatment standard are expressed only in terms of mass of pollutant per unit of production, the Department may convert the limits to equivalent limitations expressed either as mass of pollutant discharged per day or effluent concentration for purposes of calculating effluent limitations applicable to individual industrial users. Equivalent limitations shall be calculated in accordance with 40 CFR 403.6(c)(3) and/or 403.6(c)(4) and shall be deemed pretreatment standards for the purposes of 33 USC 1317(d) and of this article. Industrial users will be required to comply with the equivalent limitations in lieu of the promulgated categorical standards from which the equivalent limitations were derived.

(5) *Reporting requirements for industrial users upon effective date of categorical pretreatment standards-baseline report.* Within 180 days after the effective date of a categorical pretreatment standard, or 180 days after the final administrative decision made upon a category determination submission under 40 CFR 403.6(a)(4), whichever is later, existing industrial users subject to such categorical pretreatment standards and currently discharging into or scheduled to discharge into the Great Lakes Water Authority shall submit to the Department a report containing the information listed in 40 CFR 403.12(b)(1)—(7). Where reports containing this information have already been submitted to the Director or regional administrator in compliance with the requirement of 40 CFR 128.140(b), the industrial user will not be required to resubmit this information. At least 90 days before commencement of any discharge, each new source and any existing sources that become industrial users after the promulgation of an applicable categorical pretreatment standard shall submit to the Department a report which contains the information listed in 40 CFR 403.12(b)(1) through (5). In such report, new sources shall include information concerning the method of pretreatment the source intends to use to meet applicable pretreatment standards. New sources shall provide estimates of the information requested in 40 CFR 403.12(b)(4) and (5).

(d) *Dilution prohibited.* Except where expressly authorized to do so by an applicable pretreatment standard or requirement, no user shall increase the use of process water, or in any way dilute or attempt to dilute a discharge as a partial or complete substitute for adequate treatment

to achieve compliance with the limitations contained in the National Categorical Pretreatment Standards, or in any other pollutant-specific limitation or requirement imposed by the Village, by the Great Lakes Water Authority, or by the state.

(e) *Hauled-in wastewater.* Any waste material or wastewater which is hauled into or within the service region for discharge to the POTW is subject to the requirements of this article, including, but not limited to, permits, inspection, monitoring and enforcement. Unloading liquid or solid waste from hauling vehicles, directly or indirectly, into the POTW, with or without the benefit of pretreatment, is prohibited unless the person proposing to unload such waste has applied for and received a permit from the Department for unloading such waste in accordance with the Board's rules pertaining thereto. The discharger shall be subject to applicable terms and conditions, surcharges, fees or rates as established by the Board. Hauled in wastewater shall only be discharged at points designated by the POTW after authorization or approval issued pursuant to the general permit requirements specified in section 26-276. The Department may establish specific limitations for sludge from municipally owned or operated POTW treatment plants which are different than the specific limitations in this article.

(f) *Centralized waste treatment.* It is unlawful for a centralized waste treatment (CWT) facility to discharge any industrial waste or wastewater into the POTW without a wastewater discharge permit from the Department. Any authorization granted, or permit issued, by the Department to a centralized waste treatment (CWT) facility shall specify the type of wastewater for which treatment is provided, and discharge approval is sought, from the POTW. Unless such industrial waste or wastewater is determined by the Department to require further authorization, a centralized waste treatment (CWT) facility that has submitted an application to, and received previous approval from, the Department to discharge wastewater is not required to obtain further authorization from the Department before discharging the wastewater. An industrial user that provides centralized waste treatment services and files an application for the treatment and discharge of such types of wastewater to the POTW shall provide the following minimum information in support thereof:

(1) The general nature, source and processes generating the type of wastewater. Any wastewater which is generated from those processes and is subject to National Categorical Pretreatment Standards as delineated in section 26-283 shall be so designated;

(2) The identity of the toxic pollutants known or suspected to be present in the wastewater;

(3) At least one sample report showing the results of an analysis for the EPA priority pollutants for each type of wastewater for which application is made in subsection (f)(1) of this section;

(4) A statement, that is certified by a professional engineer, which addresses the treatability and compatibility of the wastewater, received or collected by the facility's treatment processes;

(5) The identity of the materials and/or pollutants whose transport or treatment are regulated by the EPA, by the state, or by any other governmental agency. Upon request, the centralized waste treatment (CWT) facility shall provide a copy of its permit and/or license to the Department; and

(6) a. Other information requested by the Department, including, but not limited to, information required by section 26-276(c)(1) through (18), or by rules adopted by the Board. The discharge from a centralized waste treatment (CWT) facility will be deemed approved for those specific types of wastewater delineated in a permit and, upon issuance of such permit in accordance with the procedures contained in section 26-276, will be deemed approved for discharge into the POTW. The centralized waste treatment (CWT) facility shall comply with all applicable provisions contained in section 26-276 regarding permits. In furtherance of its obligations as control authority, the Department may include in the permit a requirement to report at selected intervals the information mandated in subsections (f)(1) through (5) of this section and this subsection (f)(6).

b. All users granted a permit under this section shall maintain records which, at a minimum, identify the source, volume, character, and constituents of the wastewater accepted for treatment and disposal. These records may be reviewed at any time by the Department.

(g) *Groundwater discharges.* Unless authorization has been granted by the Department, the discharge of any groundwater into the POTW is prohibited.

(1) The Department may authorize the discharge of groundwater resulting from maintenance and related activities of gas, steam, or electrical utilities through the use of general permits. Subject to appropriate reporting requirements, the general permit shall authorize discharge in accordance with the terms of the permit. Utilities shall comply with this provision within 180 days after the enactment of the ordinance from which this section is derived.

(2) If a person who proposes to discharge groundwater resulting from purge, response activity, or UST projects has applied for and received a permit from the Department, the Department may authorize the discharge of such wastewater. Permits shall be issued in accordance with the procedures contained in section 26-276, or in accordance with any rules adopted by the Board.

(h) *Village right of revision.* The Village reserves the right to establish rules or regulations adopted by the Board, additional or more stringent limitations or requirements on discharges to the POTW. Ninety days after adoption by the Board, industrial users shall comply with such rules and regulations.

(i) *Accidental discharges.*

(1) a. Each industrial user which does not currently have an approved spill prevention plan or slug control plan shall provide protection from accidental discharge of

prohibited materials or other substances regulated by this article, and all significant industrial users shall submit to the Department detailed plans which show facilities and operating procedures to be implemented to provide protection against such accidental discharges. Facilities and measures to prevent and abate accidental discharges shall be implemented, provided, and maintained at the owner's or industrial user's cost or expense. Unless the significant industrial user has an approved spill prevention or slug control plan, all existing significant industrial users shall complete and submit such a plan within 60 days of the effective date of the ordinance from which this article is derived. New significant industrial users shall submit such a plan prior to the time they commence discharging.

b. For purposes of this article, the information provided shall include the approximate average and maximum quantities of such prohibited materials or substances kept on the premises in the form of raw materials, chemicals and/or waste therefrom and the containment capacity for each. Only substances that are in a form which could readily be carried into the POTW and constitute a concentration of five percent or greater in the raw material, chemical solution or waste material, are required to be reported. Volumes of less than 55 gallons, or the equivalent thereof, need not be reported unless lesser quantities could cause pass through or cause interference with the POTW.

c. The industrial user shall promptly notify the Department of any significant changes or modifications to the plan, including, but not limited to, a change in the contact person, or substance inventory.

(2) At least once every two years, the Department shall evaluate whether a significant industrial user needs a plan to control slug discharges, as defined by 40 CFR 403.8(f)(2)(v). Unless otherwise provided, all significant users shall complete, implement, and submit such a plan within 30 days of notification by the Department.

(j) *Notification requirements.* Unless a different notice is provided by this section or applicable law, within one hour of becoming aware of a discharge into the POTW which exceeds or does not conform with federal, state or Village laws, rules, regulations or permit requirements, or which could cause problems to the POTW, or which has the potential to cause the industrial user to implement its plan prepared in accordance with this article, the industrial user shall telephone the Department at its control center and notify the Department of the discharge. The notification shall include the name of the caller, the location and time of discharge, the type of wastewater, the estimated concentration of excessive or prohibited pollutants and estimated volume, and the measures taken, or being taken, to abate the discharge into the POTW. Within five calendar days after the discharge, the industrial user shall submit a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences and when required by the Department, the industrial user's wastewater

discharge permit may be modified to include additional measures to prevent such future occurrences. Such notification shall not relieve the industrial user of any expense, cost of treatment, loss, damages or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other environmental impairment or any other damage to person or property.

(k) *Notice to employees.* A notice shall be permanently posted on the industrial user's bulletin board, or other prominent place, advising employees whom to contact in the Department in the event of an actual or excessive or prohibited discharge.

(l) *Recovery of costs.* Any user discharging in violation of any of the provisions of this article, which produces a deposit or obstruction, or causes damage to or impairs the Department's POTW, or causes the Department to violate its NPDES permit, shall be liable to the Department for any expense, loss, damage, penalty or fine incurred by the Department because of said violation or discharge. Prior to assessing such costs, the Department shall notify the user of its determination that the user's discharge was the proximate cause of such damage, obstruction, impairment, or violation of the Village's NPDES permit and the Department's intent to assess such costs to the user. Any such notice shall include written documentation which substantiates the determination of proximate cause and a breakdown of cost estimates. Failure to pay the assessed costs shall constitute a violation of this article. Such charge shall be in addition to, and not in lieu of, any penalties or remedies provided under this article, this Code, other statutes and regulations, or at law or in equity.

(m) *Hazardous waste notification.* All industrial users who discharge into the Village collection system shall notify the Department in writing of any discharge of a substance which, if otherwise disposed of, would be a hazardous waste as set forth in 40 CFR 261. Such notification must comply with the requirements of 40 CFR 403.12(p).

(n) *Authorized representative.* The authorized representative, as defined in section 26-187, may designate a duly authorized representative of the individual designated in section 26-187 where:

(1) The authorization is made in writing by the individual defined in section 26-187;

(2) The authorization specifies either an individual or a position having responsibility for the overall operation of the facility where the industrial discharge originates, such as the position of plant manager; operator of a well or well field superintendent, or a position of equivalent responsibility, or having overall responsibility for environmental matters for the company; and

(3) The written authorization is submitted to the Department.

(o) *Pollution prevention.* The Department shall encourage and support industrial users to develop and implement pollution prevention programs which eliminate or reduce pollutant contributions beyond the levels required by this article. The Department may require an industrial user to implement pollution prevention initiatives or BMP as part of an enforcement response, or as necessary to comply with its NPDES permit.
(Code 1996, § 52.51; Ord. No. 23.27, 1-8-1990; Am. Ord. No. 23.31, 12-10-2001; Am. Ord. No. 23.33, 2-9-2009)

Sec. 26-275. Fees.

(a) The purpose of this section is to provide for the recovery of costs from users of the POTW. The applicable charges or fees established by the Board shall be sufficient to meet the costs of the operation, maintenance, improvement or replacement of the system, or as provided by law or by Board action.

(b) The Board shall adopt charges and fees which shall include, but not be limited to:

(1) Fees for reimbursement of costs of establishing, operating, maintaining, or improving the Department's industrial waste control and pretreatment programs;

(2) User fees based upon volume of waste and concentration or quantity of specific pollutants in the discharge, and treatment costs including sludge handling and disposal;

(3) Reasonable fees for reimbursement of costs for hearings, including, but not limited to, expenses regarding hearings officers, court reporters, and transcriptions; and

(4) Other fees which the Board may deem necessary to carry out the requirements contained herein, or as may be required by law.
(Code 1996, § 52.52; Ord. No. 23.27, 1-8-1990; Am. Ord. No. 23.31, 12-10-2001)

Sec. 26-276. Wastewater discharge permits.

(a) *Required.* It shall be unlawful for users to discharge into the POTW any wastewater which will cause interference or pass through, or otherwise not comply with the discharge prohibitions of section 26-274. It shall be unlawful for a significant industrial user to discharge into the POTW without a wastewater discharge permit from the Great Lakes Water Authority. Unless otherwise expressly authorized by the Department through permit, order, rule or regulation, any discharge must be in accordance with the provisions of this article.

(1) All significant industrial users which are in existence on the effective date of the ordinance from which this article is derived shall apply for a wastewater discharge permit within 30 days of the effective date of the ordinance from which this article is derived. Significant industrial users who are currently operating with a valid wastewater discharge permit are not subject to this provision. These applications are to include

all information specified in subsection (c) of this section and, where applicable, any additional information which may be needed to satisfy the federal baseline monitoring report requirements of 40 CFR 403.12(b).

(2) All new significant users shall apply for a wastewater discharge permit at least 90 days prior to commencement of discharge. The application must include all information specified in subsection (c) of this section and, where applicable, any additional information that may be needed to satisfy the federal BMR requirements of 40 CFR 403.12(b). Until a permit is issued and finalized by the Department, no discharge shall be made into the POTW.

(3) Any user who proposes to discharge any wastewater other than sanitary or non-contact cooling water into the POTW shall request approval from the Department for the discharge at least 30 days prior to the commencement of the discharge.

(b) *Permit application or reapplication.* The Department may require any user to complete a questionnaire and/or a permit application and to submit the same to the Department for determining whether the industrial user is a significant user, or to determine changes in the wastewater discharges from a user's facility. Within 30 days of being so notified, a user shall comply with the Department's request in the manner and form prescribed by the Department. Failure of the Department to so notify a user shall not relieve the user of the duty to obtain a permit as required by this article.

(1) A user which becomes subject to a new or revised national categorical pretreatment standard shall apply for a wastewater discharge permit within 90 days after the promulgation of the applicable national categorical pretreatment standard, unless an earlier date is specified or required by 40 CFR 403.12(b). The existing user shall provide a permit application which includes all the information specified in subsections (c) and (g) of this section.

(2) A separate permit application shall be required for each separate facility.

(3) Existing permittees shall apply for permit reissuance a minimum of 90 days prior to the expiration of existing permits on a form prescribed by the Department.

(c) *Application or reapplication information.* In support of an application or reapplication for a wastewater discharge permit, the industrial user shall submit, in units and terms appropriate for evaluation, the following information:

Such parameters shall include those applicable pollutants having numeric limitations as enumerated in section 26-274(a) and (b), those pollutants limited by National Categorical Pretreatment Standards regulations for applicable industries and any toxic pollutants known or suspected to be present in the discharge, regulated in the previous permit, or specifically requested by the Great Lakes Water Authority. For each parameter, the expected or experienced maximum and average concentrations during a one-year period shall be provided. For industries subject to National Categorical Pretreatment Standards or requirements, the data requested herein shall be separately shown for each categorical process wastestream. Combined wastestreams proposed to be regulated by the combined wastestream formula shall also be identified. Sampling and analysis shall be performed in accordance with procedures established by the EPA pursuant to 33 USC 1314(g) and contained in 40 CFR 136. Where 40 CFR 136 does not include sampling or analytical techniques for the pollutants in question, sampling and analysis shall be performed using validated analytical methods approved by the Administrator;

(5) A listing and description of activities, facilities and plant processes on the premises. Those processes, which are subject to National Categorical Pretreatment Standards or requirements shall be so designated. As pertains to subsection (c)(4) of this section, identify which pollutants are associated with each process;

(6) Restricted to only those pollutants referred to in subsection (c)(4) of this section, a listing of raw materials and chemicals which are either used in the manufacturing process or could yield the pollutants referred to in subsection (c)(4) of this section. Any user claiming immunity from having to provide such information for reasons of national security shall furnish acceptable proof of such immunity;

(7) A description of typical daily and weekly operating cycles for each process in terms of starting and ending times for each of the seven days of the week;

(8) Denote:

a. The average and maximum 24-hour wastewater flow rates including, if any, daily, monthly and seasonal variations;

b. Each national categorical process wastestream flow rate and the cooling water, sanitary water and stormwater flow rates separately for each connection to the POTW; and

c. Each combined wastestream;

(9) A drawing showing all sewer connections and sampling manholes by the size, location, elevation and points or places of discharges into the POTW; also a flow schematic showing which connections receive each national categorical process wastestream and which connections receive stormwater, sanitary water or cooling water; also show which lines handle each combined wastestream. This schematic shall be cross-referenced to the information furnished in subsection (c)(8) of this section;

(10) Each product produced by type, amount, process or processes and rate of production as pertains to processes subject to production based limits under the National Categorical Pretreatment Standards or requirements only;

(11) A statement regarding whether or not the requirements of this article and of the National Categorical Pretreatment Standards and requirements are being met on a consistent basis and, if not, what additional operation and maintenance work and/or additional construction is required for the industrial user to meet the applicable standards and requirements. This statement shall be reviewed and signed by the authorized representative and, as appropriate, certified by a qualified professional;

(12) Basic information on the program for the prevention of accidental discharges in accordance with the requirements of section 26-274(i);

(13) Proposed or actual hours of operation of each pretreatment system for each production process;

(17) Identify whether the user has conducted a waste minimization assessment or audit of its operations in order to identify all feasible source reduction and recycling practices that may be employed to reduce or eliminate the generation of pollutants and other waste at the facility; and

(18) Any other information as may reasonably be required to prepare and process a wastewater discharge permit.

(d) *Permit issuance.* Upon receipt of an application, the Department shall review the application, determine, and so notify the industrial user in writing regarding any of the following:

(1) The industrial user does not meet the definition of a significant industrial user and is not required to have a wastewater discharge permit.

(2) The industrial user does meet the definition of a significant industrial user but is found by the Department to have no reasonable potential for adversely affecting the POTW operation or for violating any pretreatment standard or requirement and is not required to have a wastewater discharge permit. The Department shall make such determination in accordance with the requirements of 40 CFR 403.8(f)(6).

(3) The application is incomplete or the information only partially satisfies the information and data required by 40 CFR 403.12 or by the Department, and that additional information and data are required which shall be promptly furnished. Where appropriate, the industrial user is notified regarding specific information that is missing, or that the application is unacceptable.

(4) a. The industrial user is required to have a wastewater discharge permit. The Department shall notify the industrial user of its determination and the basis of the determination.

b. The Department may withhold issuance of a permit to a significant user which has not submitted an adequate or timely report, or permit application, to the Department as the control authority in accordance with the reporting requirements of 40 CFR 403.12, or whose discharge is in violation of this article. If the Department determines that an industrial user is required to have a wastewater discharge permit and has evaluated and accepted the data furnished, the industrial user will be notified accordingly by certified mail. The notification shall contain a copy of the draft permit, so marked, for the industrial user's review. An industrial user has 30 days from the date of mailing to file a response to the draft permit and, in accordance with the procedures contained in section 26-382, 20 days from the date of mailing to file an appeal regarding a permit issued as final. Upon disposition by the Department of any contested terms or conditions, a permit shall be issued as final. Only one facility location shall be included in each permit.

(e) *Permit conditions.* Wastewater discharge permits shall contain all requirements of 40 CFR 403.8(f)(1)(iii) and shall be deemed to incorporate all provisions of this article, other applicable laws, rules, regulations, and user charges and fees established by the Village without repetition therein. In addition, permits may contain the following:

(1) Limits on the average and maximum wastewater constituents or characteristics which are equivalent, more restrictive than, or supplemental to the numeric limits enumerated in section 26-274, or the applicable National Categorical Pretreatment Standards;

(2) Limits on average and maximum rate and time of discharge or requirements for flow regulation and equalization;

(3) Requirements for installation, operation, and maintenance of discharge sampling manholes and monitoring facilities by the industrial user;

(4) Restrictions on which of the user's discharge wastestreams are to be allowed to be discharged at each point of connection to the POTW;

(5) Specifications for industrial user monitoring programs, which may include sampling locations, frequency and type of sampling, number, types and standards for tests and reporting schedules;

(6) Requirements for the prevention of accidental discharges and the containment of spills or slug discharges;

(7) Restrictions based on the information furnished in the application;

(8) Additional reporting requirements:

a. All permittees shall submit a report on the form prescribed by the Department, or on an alternative form approved by the Department, indicating the status of compliance with all conditions enumerated or referred to in the wastewater discharge permit, or made applicable to the permit by this article. Unless required more frequently, the reports shall be submitted at six-month intervals on a schedule to be established by the Department. Analytical data generated by the Department may not be submitted in lieu of the facility's own monitoring data as required by the wastewater discharge permit;

b. Permittees not subject to National Categorical Pretreatment Standards or requirements shall submit a report in accordance with the requirements of subsections (e)(8)d and e of this section. The report shall show the concentration of each substance for which there is a specific limitation in the permit, or which may be identified by the Department in accordance with subsections (e)(9) and (11) of this section;

c. Permittees subject to National Categorical Pretreatment Standards or requirements shall submit compliance reports at the times and intervals specified by federal regulations and by the Department. A compliance report shall be submitted to the Department no later than 90 days following the final compliance date for a standard or in the case of a new source, no later than 90 days, following commencement of the introduction of wastewater into the POTW, and in accordance with 40 CFR 403.12(d). A report on continued compliance shall be submitted at six-month intervals thereafter on the schedule established by the Department and incorporated into the industrial user's discharge permit and in accordance with subsections (e)(8)d and e of this section. The reports shall be

either on a form prescribed by the Department or on an alternate form approved by the Department and shall indicate the nature and concentration of all pollutants in the discharge from each regulated process which are limited by National Categorical Pretreatment Standards, or for which there is a specific limitation in the permit, or which may be identified by the Department in accordance with subsections (e)(9) and (11) of this section. The report shall include a record of measured or estimated average and maximum daily flows for the reporting period for the discharges regulated by the permit. The combined wastestream formula may be used for reporting purposes after the initial information has been furnished to the Department, provided there have been no changes to the elements composing the combined wastestream;

d. 1. Reports shall contain the results of representative sampling performed during the period covered by the report and of the discharge and analysis of pollutants contained therein and, for significant industrial users subject to production based standards, shall be cross-referenced to the related flow or production and mass as required to determine compliance with the applicable pretreatment standards. The frequency of monitoring shall be as prescribed in the applicable general pretreatment regulations, being 40 CFR 403, or by the Department, but no less than is necessary to assess and ensure compliance by the industrial user with the most stringent applicable pretreatment standards and requirements. All sampling and analysis shall be performed in accordance with applicable regulations contained in 40 CFR 136 and amendments thereto. Where 40 CFR 136 does not include sampling or analytical techniques for the pollutants in question, sampling and analysis shall be performed using validated analytical methods approved by the Administrator;

2. If an industrial user monitors any pollutant more frequently than required by the Department using the procedures as prescribed in this section, the results of this monitoring shall be included in such report. The report shall state whether the applicable pretreatment standards are being met on a consistent basis and, if not, what additional operation and maintenance practices and/or pretreatment system improvements or changes are necessary to bring the industrial user into compliance with the applicable pretreatment standards;

e. This report, and those required under section 26-274(c)(5) and subsections (e)(8)b and c of this section, shall include the following certification statement: "I certify under penalty of law that this document and all attachments were prepared under my direction, or supervision, in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted.

Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and/or imprisonment for knowing violations." Said certification shall be signed by the facility's authorized representative, as defined in section 26-187. If an authorization is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, or overall responsibility for environmental matters for the company, a new authorization satisfying the requirements of the authorized representative definition must be submitted to the Department prior to, or together with any reports to be signed by an authorized representative;

f. If sampling performed by a permittee indicates a violation, the user shall notify the Department within 24 hours of the time said user becomes, or should have become, aware of the violation. In addition, the user shall repeat the sampling and analysis, and submit the results of the repeat analysis to the Department within 30 days after said user becomes, or should have become, aware of the violation;

(9) In the event the Director determines that an industrial user is discharging substances in quality, quantity or at locations which may cause problems to the POTW or the receiving stream, the Department has the authority to develop and enforce effluent limits applicable to the user. To the extent the Department seeks to impose restrictions in a permit which are more restrictive than established in this article, the Department shall provide written documentation to explain the greater restriction for protection against pass through, interference, or violation of the NPDES permit;

(10) Requirement for pollution prevention initiatives; and

(11) Other requirements reasonably necessary to ensure compliance with this section.

(f) *Permit duration.* Permits shall be issued for a specified time period. Except as deemed necessary by the Department, or as otherwise provided for under this section, permits shall be issued for a specified period of not more than five years nor less than one year. The existing permit for significant industrial users who timely submit an application for permit reissuance to the Department shall be automatically extended until a permit is issued as final.

(g) *Permit modification.*

(1) The terms and conditions of the permit may be subject to modification by the Department during the term of the permit as limitations or pretreatment standards and requirements identified in section 26-274 are amended, or other just cause exists. Just cause for a permit modification includes, but shall not be limited to, the following:

a. Material or substantial changes to an industrial user's facility or operation, or changes in the characteristics of the industrial user's effluent. It shall be the industrial user's duty to request an application form and apply for a modification of the permit within 30 calendar days of the change;

b. Changes in the Department's NPDES permit;

c. Embodiment of the provisions of a legal settlement or of a court order;

d. Any changes necessary to fulfill the Department's role as control authority;

e. An industrial user's noncompliance with portions of an existing permit;

f. A change of conditions within the POTW;

g. A finding of interference or pass through attributable to the industrial user;

h. Amendments to, or promulgation of, National Categorical Pretreatment Standards or requirements including 40 CFR 403 and those delineated in section 26-283. Permittees shall request an application form and apply to the Department for a modified permit within 90 days after the promulgation of a new or revised national categorical pretreatment standard to which the industrial user shall be subject. Information submitted pursuant to this article shall be confined to that information related to the newly promulgated or amended national categorical pretreatment standard or requirement. However, information previously submitted need not be duplicated, insofar as the previously submitted information continues to be current and applicable. In addition, the Department may initiate this action;

i. Changes in the monitoring location (see section 26-277);

j. Typographical errors or omissions in permits;

k. The Department may modify the permit on its own initiative based on its findings or reasonable belief of the above; or

l. The user may request a modification of the permit.

(2) When initiated by the Department, the industrial user shall be informed of any proposed change in its permit. The Department will issue a draft permit and an industrial user has 30 days to file a response to the draft modified permit. Thereafter, the Department will issue a final permit and, unless appealed in accordance with the procedures contained in section 26-282, the permit will become effective 20 days after issuance.

(h) *Permit custody and transfer.* Wastewater discharge permits are issued to a specific person as defined herein for a specific discharge. A wastewater discharge permit shall not be reassigned or transferred or sold to a different person, new owner, new industrial user, different premises, or a new or changed operation without notice to and written approval of the Department and providing a copy of the existing permit to the new owner or operator. It shall be the permit holder's duty to notify the Department of any such change at least 30 days before the date of the change. Wastewater discharge permits, which do not receive the written approval of the Department prior to the change, shall be null and void regardless of reassignment, or transfer, or sale. If it has occurred, the Department may revoke a permit. If a change takes place, the

Department may require the application for a new or modified permit. Any succeeding person shall comply with the terms and conditions of any existing permit which the Department allows to be retained.

(i) *Permit notification requirements.* All industrial users shall promptly notify the Department in advance of any substantial change in the volume or character of pollutants in their discharge, including the listed or characteristic hazardous waste for which initial notification under 40 CFR 403.12(p) has been made, request a permit application form, and apply for a modification of the permit at least 30 calendar days prior to the change. Failure of the industrial user to so apply shall be considered a violation of this article.
(Code 1996, § 52.53; Ord. No. 23.27, 1-8-1990; Am. Ord. No. 23.31, 12-10-2001)

Sec. 26-277. Monitoring facilities.

(a) Significant industrial users shall provide, operate and maintain at their own expense a sampling manhole or special structure to facilitate monitoring, inspection, sampling, and flow measurement of their discharge by the Department and the industrial user, and to enable the Department to conduct such other monitoring and sampling as required for determining compliance with discharge requirements, limits and standards as provided for in this article. In the event the Department determines that the monitoring facility identified in the permit application is inadequate, a new monitoring facility must be identified, or provided, which shall allow for collection of a representative sample of the wastewater discharged from the facility. Unless otherwise determined at the discretion of the Department, said facility shall be provided within 90 days of receipt of notification by the Department. The industrial user shall provide the Department with:

(1) A drawing showing all sewer connections and sampling manholes by the size, location, elevation, and points or places of discharges into the POTW;

(2) a. A flow schematic showing:

1. Which connections receive each national categorical process wastestream;
2. Which connections receive stormwater, sanitary water or cooling water; and
3. Which lines handle each combined wastestream.

b. This report shall be certified by a professional engineer. If a significant industrial user fails to install the monitoring facilities within the prescribed time limits, then the Department may install such structure or device and the significant user shall reimburse the Department for any costs incurred therein.

(b) The sampling manhole should be situated on the industrial user's premises in a location readily accessible to the Department. When such a location would be impractical or cause undue hardship to the industrial user, the Department may allow the facility to be constructed in the public street or sidewalk area when there is room and the location will not be obstructed by landscaping or parked vehicles. It shall be the responsibility of the industrial user to obtain

any necessary approvals which may be required from other government agencies for the location and construction of monitoring facilities. There shall be ample room in or near such sampling or monitoring manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility and any permanently installed sampling and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the industrial user. Whether constructed upon public or private property, the sampling and monitoring facilities shall be provided in accordance with the Department's requirements and all applicable local construction standards and specifications. See section 26-276(g) regarding permit modification.
(Code 1996, § 52.54; Ord. No. 23.27, 1-8-1990; Am. Ord. No. 23.31, 12-10-2001)

Sec. 26-278. Inspection sampling and record keeping.

(a) For purposes of administering and enforcing this article, any other applicable provisions of this Code or applicable state or federal laws and regulations, the Department may inspect the establishment, facility or other premises of the industrial user. The Department's employees or authorized representative shall have access to the industrial user's premises for purposes of inspection, sampling, compliance monitoring and/or metering activities.

(b) Each such inspection or sampling activity shall be commenced and completed at reasonable times, and in a reasonable manner. Upon arrival at the industrial user's premises, the Department shall inform the industrial user, or the industrial user's employees, that sampling and/or inspection is commencing, and that the facility's authorized representative has the right to observe the inspection and/or sampling. The Department shall neither refrain from, nor be prevented or delayed from, carrying out its inspection or sampling duties due to the unavailability of the authorized representative of the facility to observe or participate in the inspection or sampling activity.

(c) While performing work on private property, employees or authorized representatives of the Department shall observe all reasonable safety, security and other reasonable rules applicable to the premises as established by the industrial user. Duly authorized employees or representatives of the Department shall bear proper credentials and identification, and at the industrial user's option may be accompanied by a duly authorized representative of the industrial user. Duly authorized Department representatives shall not be restricted from viewing any of the facility site. Department employees or representatives may take photographs of facilities subject to this article which shall be maintained by the Department as confidential in accordance with section 26-279.

(d) Where an industrial user has security measures in force, the industrial user shall make prompt and necessary arrangements with the security personnel so that, upon presentation of appropriate credentials, personnel from the Department will be permitted to enter for the purposes of performing their specific responsibilities.

(e) Significant industrial users shall sample and analyze their discharge in accordance with the provisions of their permit. The Department may require such samples to be split with the Department for the Department's independent analysis.

(f) Industrial users shall maintain records of all information from monitoring activities required by this section, or by 40 CFR 403.12(n). Industrial users shall maintain the records for no less than three years. This period of record retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the industrial user, or the operation of the industrial waste program, or when requested by the department, by the state, or by the EPA.

(g) Upon the request of the Department, industrial users shall furnish information and records relating to discharges into the POTW. Industrial users shall make such records readily accessible to the Department at all reasonable times and allow the Department to copy such records.

(h) In the event the Department obtains samples, and analyses are made of such samples, a copy of the results of such analyses shall be promptly furnished upon written request by the industrial user's authorized representative. When requested by the industrial user, the Department employee or representative shall leave with the user a portion of any sample of the user's discharge taken from any sampling point on or adjacent to the premises for the user's independent analysis. In cases of disputes arising over shared samples, the portion taken and analyzed by the Department shall be controlling unless proven invalid.

(i) In addition to any other violation caused by the discharge described herein, in the event a single grab sample of the industrial user's discharge is obtained by the Department, and then analyzed in accordance with 40 CFR 136, and found to contain concentrations of pollutants which are two or more times greater than the numeric limitations as listed in section 26-274(b), or as contained in the facility's wastewater discharge permit, the industrial user shall implement its slug control plan and shall provide a written report to the Department within 14 days which describes the cause of greater concentration and provides a description of the means by which future discharge concentrations will be held to values of less than two times the limitation in the future.

(Code 1996, § 52.55; Ord. No. 23.27, 1-8-1990; Am. Ord. No. 23.31, 12-10-2001)

Sec. 26-279. Confidential information.

(a) (1) Information and data on an industrial user obtained from written reports, questionnaires, permit applications, permits and monitoring programs, and from inspections shall be available to the public or other governmental agencies without restriction unless the industrial user specifically requests and is able to demonstrate to the

satisfaction of the Department that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets of the industrial user.

(2) When submitted to the Department, all information claimed to be confidential must be clearly marked "confidential." When requested by the person furnishing the report, the portions of a report determined by the Department to disclose trade secrets or trade secret processes, and which are clearly labeled as confidential, shall not be made available for inspection by the public, but shall be made available upon request to governmental agencies for uses related to this section, to the national pollutant discharge elimination system (NPDES) permit, and to the state disposal system permit and/or the pretreatment programs; provided, however, that information shall be treated as confidential by the governmental agency, until such time as the information has been determined to be non-confidential by the governmental agency. Confidential information on industrial users, which the Department releases pursuant to a request of another governmental agency, should be handled by the other governmental agency pursuant to its own confidentiality procedures. The Department cannot control how another governmental agency handles such confidential information and assumes no responsibility for the disposition of the information released to the governmental agency. The Department will use sufficient care to inform the other governmental agency of the existence of the industrial user's confidentiality claim.

(3) The Department shall determine whether the information requested to be treated as confidential, in fact, satisfies the requirements of confidential information as defined herein. The decision of the Department shall be made in writing.

(4) Wastewater constituents and characteristics will not be recognized as confidential information.

(b) Except as otherwise determined by the Department or provided for by applicable law, all information with respect to an industrial user on file with the Village shall be made available upon request by such user or the user's authorized representative during normal business hours.
(Code 1996, § 52.56; Ord. No. 23.27, 1-8-1990; Am. Ord. No. 23.31, 12-10-2001)

Sec. 26-280. Statutes, laws and regulations.

The National Categorical Pretreatment Standards defined in 40 CFR ch. I, subch. N, pts. 405 to 471, shall be and are incorporated by reference herein and made a part hereof. Unless otherwise provided, any reference in this article to a code, standard, rule, regulation, or law enacted, adopted, established, or promulgated by any private organization or by any element or organization of government other than the Village shall be construed to apply to such code, standard, rule, regulation, or law in effect or as amended or promulgated, from the date of enactment of the ordinance from which this article is derived.
(Code 1996, § 52.57; Ord. No. 23.27, 1-8-1990; Am. Ord. No. 23.31, 12-10-2001)

Sec. 26-281. Enforcement.

(a) *Violations.* It shall be a violation of this article for any user to:

(1) Fail to completely and/or accurately report the wastewater constituents and/or characteristics of the industrial user's discharge;

(2) Fail to report significant changes in the industrial user's operations or wastewater constituents and/or characteristics within the time frames provided in section 26-276(g)(1);

(3) Refuse reasonable access to the industrial user's premises, waste discharge, or sample location for the purpose of inspection or monitoring;

(4) Restrict, lockout or prevent, directly or indirectly, access to any monitoring facilities constructed on public or private property. The locking or securing of the monitoring facility shall not constitute a violation pursuant to this subsection, provided that, upon request, reasonable access to the facility is promptly provided to the Department;

(5) Restrict, interfere, tamper with, or render inaccurate any of the Department's monitoring devices, including, but not limited to, samplers;

(6) Fail to comply with any condition or requirement of the industrial user's wastewater discharge permit;

(7) Fail to comply with any limitation, prohibition, or requirement of this article, including any rule, regulation, or order issued hereunder. Industrial users acting in full compliance with wastewater discharge permits issued prior to the effective date of the ordinance from which this article is derived shall be deemed to be in compliance with the requirements of this article, and such permits shall remain in effect and be enforceable under this article until a superseding permit is effective. Industrial users shall comply with applicable National Categorical Pretreatment Standards and requirements on the date specified in the federal regulations, regardless of compliance schedules.

(b) *Upsets.* An upset shall constitute an affirmative defense to an action brought for noncompliance with National Categorical Pretreatment Standards where the requirements of subsection (b)(1) of this section are met.

(1) An industrial user who wishes to establish the affirmative defense shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence, that:

a. An upset occurred and the industrial user can identify the causes of the upset;

b. At the time, the facility was being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures;

c. The industrial user has submitted the following information to the Department, orally or in writing, within 24 hours of becoming aware of the upset and, where this information is provided orally, a written submission must be provided within five days:

1. A description of the discharge and cause of noncompliance;
2. The period of noncompliance, including exact dates and times, or, if not corrected, the anticipated time the noncompliance is expected to continue; and
3. Steps being taken and/or planned to reduce, eliminate and prevent recurrence of the noncompliance.

(2) In any enforcement proceeding, the industrial user seeking to establish the occurrence of an upset shall have the burden of proof;

(3) The industrial user shall control production of all discharges to the extent necessary to maintain compliance with this section upon reduction, loss, or failure of its treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost or fails.

(c) *Bypass.* Bypasses are prohibited unless the bypass does not cause a violation of pretreatment standards or requirements, but only if it is for essential maintenance to ensure efficient operation of the treatment system. These bypasses are not subject to the provisions of subsections (c)(1) and (2) of this section.

(1) *Notice of anticipated bypass.* Industrial users anticipating a bypass shall submit notice to the Department at least ten days in advance.

(2) *Notice of unanticipated bypass.* An industrial user shall submit oral notice of an unanticipated bypass that exceeds applicable pretreatment standards within 24 hours from the time the industrial user becomes or should have become aware of the bypass. A written submission shall be provided within five days of the time the industrial user becomes or should have become aware of the bypass. The written submission shall contain a description of the bypass, including exact dates and times and, if the bypass has not been corrected, the anticipated time it is expected to continue, and steps taken or planned to reduce, eliminate and prevent reoccurrence of the bypass.

(3) *Prohibition of bypass and response.* Bypass is prohibited, and the Department may take enforcement action against a user for a bypass, unless:

a. The bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

b. There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated waste, or maintenance during normal

periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventative maintenance; and

c. The industrial user properly notified the Department as described in subsection (c)(2) of this section.

(4) *Bypass approval.* Where it meets all conditions in subsection (c)(3) of this section, the Department may approve an anticipated bypass.

(d) *Emergency suspensions and orders.* The Department may order suspension of the sewer or wastewater treatment service and/or a wastewater discharge permit where, in the opinion of the Department, such suspension is necessary to stop any actual or threatened discharge which presents or may present an imminent or significant hazard to the health or welfare of persons or to the environment, interferes or may interfere with the POTW, or causes or may cause the Village to violate any condition of its NPDES permit. Any person notified of a suspension of the sewer or wastewater treatment service and/or the wastewater discharge permit shall immediately stop or eliminate the contribution. In the event the Department provides informal notification under this section, written confirmation and an order shall be provided within 24 hours. In the event of a failure of the person to comply voluntarily with any suspension or revocation order, the Department shall take such steps as deemed necessary, including immediate severance of the sewer connection or services, to prevent or minimize damage to the POTW system or danger to any individual or the environment. In the event such steps are taken, the Director shall notify the industrial user within 24 hours, in writing, of such action and order and the specific recourse available. In any event, the Department shall provide the industrial user with an opportunity for a hearing before the Director, or his designated representative, within ten days of such action. The industrial user shall submit a detailed written statement to the Department within 15 days of the occurrence describing the causes of the harmful contribution and the measures taken to prevent any future occurrence. Upon proof of elimination of the noncomplying discharge, the Department shall reinstate the wastewater discharge permit and/or the sewer or wastewater treatment service.

(e) *Notice of violation.* Except in the case of an actual or threatened discharge as specified in subsection (d) of this section, whenever the Department has reason to believe that any industrial user has violated or is violating this article, the Department shall serve a written notice stating the nature of the violation upon such industrial user. Where applicable, the Department shall pursue appropriate escalating enforcement action as defined within its approved enforcement response plan. The failure of the Department to issue a notice of violation shall not preclude the Department from escalating its enforcement response.

(f) *Administrative actions.* Whenever the Department has reasonable grounds to believe that a user is violating, or has violated, a provision of its wastewater discharge permit, or a pretreatment standard or requirement or any prohibition of this article, the Department,

except in the case of emergency or flagrant violation, may initiate appropriate administrative enforcement action in order to compel the industrial user to eliminate or to remedy such violation as soon as possible.

(1) *Informal administrative procedures.*

a. *Conferences.* The Department may order any person who violates this article to attend a conference wherein the Department may endeavor to cause the user to eliminate or remedy the violation by establishing an enforceable compliance schedule. The notice of violation shall be served at least ten days before the scheduled conference and shall set forth the date, time, and place thereof. The conference shall be conducted by a representative of the Department. The industrial user shall present a plan and schedule for achieving compliance with this article. Nothing contained herein shall require the Department to accept or agree to any proposed plan or schedule, or to prevent the Department from proceeding with a show cause hearing as set forth in subsection (f)(2) of this section. If the attendees agree upon a compliance schedule, the user and the Department's duly authorized representative may enter, by consent, into a compliance agreement or an administrative order setting forth the terms of such agreement. An industrial user must exhibit good faith and expeditious efforts to comply with this article and any procedures, requirements, and agreements hereunder.

b. *Compliance schedules.* The user and the Department may agree upon a schedule which sets forth the terms and conditions and time periods or schedules for completion of actions to remedy or to eliminate the causes of violation. These schedules may be developed as part of a compliance agreement, or an administrative consent order. Schedules developed under this subsection shall adhere to the following conditions:

1. The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of upgraded or additional pretreatment facilities, or to the implementation of additional operation and maintenance procedures required for the industrial user to meet the applicable pretreatment requirements and standards, including, but not limited to, hiring an engineer, completing preliminary plans, completing final plans, executing contracts for major components, commencing construction, and completing construction;

2. No single increment referred to in subsection (f)(1)b.1 of this section shall exceed nine months;

3. Not later than 14 days following each date in the schedule and the final date for compliance, the industrial user shall submit a progress report to the Department including, at a minimum, whether it complied with the incre-

ment of progress to be met on such date and, if not, the date which it expects to comply with this increment of progress, the reasons for delay, and the steps being taken by the industrial user to return to the established schedule; and

4. Any deviations from the compliance schedule may result in the industrial user being found in violation of this article.

c. *Administrative orders.* The Department may order any industrial user who violates or continues to violate this article or a duly issued permit to install and to properly operate devices, treatment facilities, or other related appurtenances. In addition, orders may contain such other requirements as might reasonably be necessary and appropriate to address the violation, including the installation of pretreatment technology, additional self-monitoring and management practices, implementation of a waste minimization assessment to identify and implement feasible source reduction, and recycling practices to reduce the generation or release of pollutants at the facility. An order may be either an administrative consent order, which is the result of an agreement, or a unilateral administrative order.

(2) *Show cause hearing.* The Department may order any industrial user who violates this article, or allows such violation to occur, to show cause before the Department why a proposed enforcement action should not be taken. A notice shall be served upon the industrial user specifying the time and place of a hearing before the Department regarding the violation, the reasons why the action is to be taken, the proposed enforcement action, and directing the industrial user to show cause before the Department why any proposed enforcement action should not be taken. The notice of the hearing shall be served personally, or by registered or certified mail with return receipt requested, at least ten days before the hearing. Service may be made upon any agent or officer of a corporation, or its authorized representative.

a. *Hearing proceeding.* The hearing shall be conducted in accordance with the procedures adopted by the Board. A hearings officer shall conduct the show cause hearing and take the evidence, and may:

1. In the name of the Board, issue notices of hearing requesting the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in such hearing;

2. Transmit a report of the evidence and hearing, including transcripts and other evidence, together with recommendations to the Director for action thereon.

b. *Transcript.* At any show cause hearing held pursuant to this article, testimony shall be recorded by a court reporter.

(3) *Actions.* After a show cause hearing has been conducted, the hearings officer shall issue an order to the industrial user directing any of the following actions:

a. Immediate compliance with the industrial user's wastewater discharge permit or with any applicable limitation, condition, restriction or requirement of this section, or applicable local, state or federal law or regulation;

b. Pretreatment of waste by installation of adequate treatment equipment or proper operation and maintenance of existing treatment equipment be accomplished within a specified time period;

c. Submission of compliance reports on effluent quality and quantity as determined by self-monitoring and analysis during a specified time period;

d. Submission of periodic reports on effluent quality and quantity determined by self-monitoring analysis throughout the final period set by a compliance date;

e. Control of discharge quantities;

f. Payment of costs for reasonable and necessary inspection, monitoring, and administration of the industrial user's activities by the Department during compliance efforts;

g. Any such other orders as are appropriate, including, but not limited to, immediate termination of sewer or wastewater treatment services, or revocation of a wastewater discharge permit, or orders directing that following a specified time period sewer or wastewater treatment service will be discontinued unless adequate treatment facilities, devices, or operation and maintenance practices have been employed; and/or

h. A finding the user has demonstrated by a preponderance of the evidence that a violation either of this article or of a duly issued permit did not occur.

(4) *Public notification of significant noncompliance.* The Department shall publish in the largest daily newspaper published in the Village a list of all industrial users which were in significant noncompliance, with applicable pretreatment requirements, at any time during the previous 12 months. All industrial users identified in a proposed publication shall be provided with a copy of the proposed notice at least 30 days before publication and allowed an opportunity to comment as to its accuracy.

(g) *Legal actions.*

(1) Criminal action. Any user who violates any provision of this article, including the failure to pay any fees, fines, charges or surcharges imposed hereby, or any condition or limitation of a permit issued pursuant thereto, or who knowingly makes any false statements, representations or certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this article or wastewater discharge permit, or who tampers with or knowingly renders inaccurate any

monitoring device required under this article, is guilty of a misdemeanor and, upon conviction, shall be punished by a fine not to exceed $500.00 for each violation per day, or by imprisonment for not more than 90 days, or by both. The Department, consistent with the terms and conditions of the delegation agreement entered into with the Village, is hereby authorized, through its counsel, to seek prosecution of criminal charges against any person violating any provision of this article.

(2) Civil action. Whenever the Department has reasonable grounds to believe that a user is violating, or has violated, a provision of its wastewater discharge permit, a pretreatment standard or requirement or any requirement of this article, the Director may commence a civil action to compel compliance in a court of competent jurisdiction to enjoin the user from discharging, and/or to obtain appropriate relief to remedy the violations. The Department or Board may also seek additional legal and/or equitable relief. The commencement of suit does not constitute an exclusive election of remedies and does not prohibit the Department, Director, Board, or the Village from commencing action in federal court for discharges believed to be in violation of this article, state and federal requirements contained in the Clean Water Act, the Village's NPDES permit, or other applicable laws or requirements. In addition, the Village may recover the reasonable attorney fees, court costs, court reporters' fees, and other unusual expenses related to enforcement activities or litigation against the person found to have violated this article, or the orders, rules, regulations and permits issued hereunder.

(3) All fines, costs, and penalties which are imposed by any court of competent jurisdiction shall be payable to the Village of Lake Orion Water and Sewerage Department and the Village, where applicable.

(h) *Prevention initiatives/BMP.* Where one or more of the measurements taken for any pollutant defined in section 26-274(b) during a six-month period exceed by any magnitude the daily maximum non-detect limit for the same parameter, the industrial user may develop and implement pollution prevention initiatives, or a BMP, as part of its response. The Department may, as part of an administrative order, also require development of a BMP as a part of the Department's enforcement response. Upon approval of the Department, these pollution prevention initiatives, or BMPs, shall be made an enforceable part of the wastewater discharge permit. Industrial users shall provide, at six-month intervals, analytical results and certifications in support of its implementation of an approved pollution prevention initiative or BMPs. (Code 1996, § 52.58; Am. Ord. No. 23.31, 12-10-2001; Am. Ord. No. 23.33, 2-9-2009)

Sec. 26-282. Reconsideration and appeal.

Through the procedures of reconsideration and appeal, a user may contest actions, determinations, or decisions of the Department which result from its construction, application and enforcement of this article. The procedures contained within this section govern reconsideration and appeal with respect to construction, application, and enforcement of this article.

(1) *Selection of reconsideration or of appeal.*

a. Except for those actions, determinations, or decisions which are expressly identified as subject only to appeal, reconsideration may be requested by any permit applicant, permittee, authorized industrial wastewater discharger or other discharger who is adversely affected by any action, determination, or decision that is made by, or on behalf of, the Department by the Director, or an authorized representative, and that interprets, implements or enforces the provisions of this article.

b. An appeal may be requested by any permit applicant, permittee, authorized industrial wastewater discharger or other discharger who is adversely affected:

1. By a permit issued as final by the Department; or

2. By an administrative order entered after a show cause order and hearing, or after a hearing for reconsideration.

c. Unless otherwise expressly provided for by this article, a request for reconsideration or appeal must be signed by an authorized representative and received at the Department's general offices within 20 days from the date of the occurrence of the action, determination, or decision in dispute. A request for reconsideration shall contain the requester's name and address, a brief statement of the reason, and the factual basis underlying the request.

d. A request for reconsideration shall be filed in triplicate either by hand delivery or by certified mail to the general offices of the Department. Where a request for reconsideration or appeal either is not filed within the time period provided for in this subsection, or is improperly made, the action, determination or decision of the Director, or the Department's authorized representative, is final and any right to reconsideration or appeal may be deemed waived.

(2) *Reconsideration.* Within 15 days after receipt of a timely and proper request for reconsideration, the Department shall notify the applicant of the time and place for a hearing.

a. A hearing for reconsideration shall be conducted by a hearings officer who is designated by the Director and may be an employee of the Department. The decision of the hearings officer shall be in the form of a recommendation to the

Director and embodied in an administrative order. Except for an administrative consent order that was negotiated and agreed to by both parties, an administrative order is appealable in accordance with subsection (3) of this section.

b. Where improperly or untimely submitted, the Department may reject a request for reconsideration. The Department shall notify the requester in writing that the request has been rejected.

c. Unless the date is mutually extended by both parties, the hearing shall be conducted neither less than ten days nor more than 30 days after mailing of the notice. For cause and at the discretion of the hearings officer, the hearing may be continued for a reasonable time.

d. The hearing for reconsideration shall be an informal consultation and conference where the requester in person, or by counsel, shall present their argument, evidence, data, and proof in connection with the issues being reconsidered. The parties shall not be bound by the state rules of evidence. The hearing shall be transcribed and the requester may obtain a copy of the hearing transcript, as appropriate, from the Department or from the court reporter.

e. Within 30 days after the close of the hearing, the hearings officer shall issue a final decision which shall contain a recommendation to the Director. The hearings officer shall send such decision to the requester by certified mail.

f. Unless such action is necessary to prevent pass through, interference or other harm to the POTW, to the public or to the waters of this state, the filing of a request for reconsideration in accordance with this section shall stay the action by the Department that is the subject of the hearing for reconsideration.

(3) *Appeal.* Within 30 days after receipt of a timely and proper request for an appeal, the Department shall notify the applicant in writing regarding the time and place for a hearing. The hearing shall be conducted in accordance with procedures set by the Board until rules are promulgated pursuant to section 2-111 of the 1997 Detroit Village Charter. In addition:

a. Any request for an appeal must be made within 20 days of the Department's action, determination or decision regarding the request for reconsideration or any permit issued in accordance with this article.

b. Where a request either is not filed within the time period contained in this subsection or is improperly made, the action, determination or decision of the Director, or the Department's authorized representative, is final and any right to appeal may be deemed waived. Where untimely or improperly submitted, the Department may reject the request for an appeal, and shall notify the requester in writing that such request has been rejected.

c. The Department shall appoint a hearings officer. The hearings officer shall review the evidence, and within 15 days after the close of the hearing shall issue a written recommendation to uphold, modify or reverse the action, determination, or decision of the Department.

d. The written recommendation of the hearings officer shall be submitted to the Board, which shall render a final decision within 30 days of its next regularly scheduled meeting.

e. In accordance with applicable law, the user or the Department may appeal any final decision of the Board to a court of competent jurisdiction.

f. Unless such action is necessary to prevent pass through, interference, or other harm to the POTW, to the public or to the waters of this state, the filing of a request for appeal in accordance with this section shall stay the action by the Department that is the subject of the appeal.

(b) All extensions and alterations to the system of water mains shall be made under the supervision of the Village Manager. Petitions for the extension of existing or construction of new mains shall be addressed to the Village Manager, who may refuse to grant, and may prescribe the terms and conditions upon which the petition will be granted and may require written acceptance of such terms and conditions by the petitioners. The Village Council shall determine and stipulate the proportions of the cost to be borne by petitioners and by the Village.

(c) Any person, firm or corporation who shall propose the installation of water mains shall first submit complete plans and specifications, prepared by a professional registered civil engineer, for such work, to the Village Manager. The Village Manager shall approve or disapprove any such plans and shall stipulate under what conditions such installation shall be made.

(d) No private well system will be allowed to be connected at any point with the Village water supply system without the approval of the Village Council and the state health department.
(Code 1996, § 53.02; Ord. No. 18.04, 10-23-1978)

Sec. 34-3. Water service pipes.

(a) All water service pipe on either public or private property shall be laid on a solid bottom not less than five feet below the established grade. (b) All water service pipe, on either public or private property, shall be of Type K copper or approved equal by the Village Manager, not less than three-quarter inch in diameter extending from the main to the meter. All stop or service cocks shall be at least three-quarter-inch extra heavy round way stops placed outside of the property line. The stop box shall be so placed that the cover is not below grade and must be set on a firm foundation to prevent settlement.

(c) A separate stop and waste cock, or valve and waste, shall be placed on the water pipe just inside the building wall so that the water may be turned off and drained from the top pipe in case of accident, or in order to make repairs. A valve shall also be installed on the house side of the meter.

(d) The water service pipe from the main to the curb stop, and also curb stop and the curb box will be provided in place by the Village under the fee for water permits hereinafter provided. Water service pipe from the curb stop to the building on private property shall be installed and maintained by the owner of the premises. If the owner fails, after due notice, to maintain such service, the Village is hereby authorized to turn off the water at the curb stop.

(e) The owner or his agent shall not interfere with the water service pipe installed by the Village in any way and shall not be permitted to turn on or off the water at the curb stop for any reason. Any person called upon to shut off water and drain pipes in any premises shall do so inside the building only.
(Code 1996, § 53.03; Ord. No. 18.04, 10-23-1978)

Sec. 34-4. Water service.

(a) Before any connection is made to any water main, application for a permit must be made in writing by the owner or his authorized agent of the premises to be served at the office of the Village Clerk. Such application shall be made on forms provided by the Village and shall contain such information and/or agreement as the Village Manager may require.

(b) No connection shall be made until the applicant has paid to the Village the following permit fees for tapping the main, the installation of the service pipe from the main to the service cock, the service cock and stop box and the furnishing of a meter (which shall remain the property of the Village):

Water Tap and Meter	*Fee*
¾-inch tap	$1,800.00
1-inch tap	$2,000.00

Water Tap and Meter	*Fee*
1 ½-inch tap	$2,600.00
2-inch tap	$3,400.00
Greater than 2-inch tap	$4,500.00 (the customer is also responsible for making the tap and paying for the meter at cost, plus 20 percent for administration)

(c) Temporary use of water for construction or other purposes will not be permitted unless suitable protection is provided to prevent damage or freezing of the water meter. All temporary water usage shall be metered and all necessary tap and installation fees shall be paid prior to turn on of water.

(d) All water using premises located in the Village shall apply for an installation permit and be connected to the water system. Those dwellings that are not connected on the date of enactment of the ordinance from which this chapter is derived are excluded.

Sec. 34-5. Meters.

(a) All service connections except for separate fire connections shall be metered and payment for water shall be at the established rates.

(b) All premises in the Village presently using Village water shall be metered.

(c) All meters will be furnished by the Village and shall remain the property of the Village and will, at all times, be under the control of the Village. In cases where a meter larger than three-quarter inch is required, the Village Manager shall determine the necessity of such larger size.

(d) The Village Public Works Department shall be responsible for installation of the water meter only. Required piping repairs and revisions to allow installation of the meter shall be the responsibility of the customer.

(e) All water-using premises located in the Village shall apply for an installation permit and be connected to the water system. Those dwellings which are not connected on the date of enactment of the ordinance from which this section is derived are excluded.

(f) Meters shall be set in a horizontal position not less than 18 inches or higher than three feet from the floor level and not less than six inches or not more than 12 inches from the wall. Meters shall be set in an accessible location satisfactory to the Village Manager and shall not be set in a coal bin, crawl space or other location where the meter cannot be easily reached by the meter reader. Where it becomes necessary to set the meter in a pit, such pit shall be furnished by the customer and built as specified by the Village Manager.

(g) Meters shall be sealed by the Village, and no other than authorized employees of the Village shall break or injure such seals, or alter, change the location of, or interfere in any manner with the meter.

(h) Except as otherwise provided for in this chapter, the Village will furnish and maintain the meters; however, where replacements, repairs or adjustments of the meter are necessary due to neglect, carelessness, freezing or negligence on the part of the customer or owner, the owner will be charged for the necessary costs to make the corrections.

(i) All Village water used on any premises must pass through the meter except as otherwise provided for in this chapter. It shall be unlawful to install or use any bypass around the meter or any connection that would prevent the flow of water used from being metered. In case of meter stoppage or imperfect operation, immediate notice shall be given to the Village and the consumer will be charged at the average quarterly consumption rate as shown by the meter when in working order.

(j) The accuracy of the meter on any premises shall be tested by the Village upon the request of the account holder, who shall pay a testing fee to cover the cost of testing, which billing shall be placed on the next water bill. Fees for testing shall be set by resolution of the Village Council. If, upon such test, the meter is found to over-register by five percent more water than actually passes through it, another meter will be substituted, at no charge, and the testing fee shall be credited to the account holder, and the Village Manager will adjust the water bill in such a manner as shall be fair and just.
(Code 1996, § 53.05; Ord. No. 18.04, 10-23-1978; Am. Ord. No. 18.19, 12-9-1996)

(b) Where a permit shall be issued for water service to a building under construction or other temporary purpose and a water meter has been installed, the owner shall notify the Village upon the completion of his work in order that the water meter may be read and the connection shut off.

(c) Where a building originally built as a single dwelling and fitted with one service pipe is thereafter subdivided by sale or otherwise, each subdivision as created must be connected to the water system by a separate meter within 30 days after such division.

(d) Where the water has been turned off by the Village for any reason, no person except an authorized employee of the Village may turn it on again.

(e) No steam boiler shall be directly connected to the service pipe. The owner shall make such provisions as may be required by the Village before the water may be supplied to such an installation.

(f) All cross connections between any type of water supply and Village water supply are prohibited without the approval of the Village Council and the state health department. In the event a cross connection is discovered, the water will be turned off at the curb cock until the cross connection is severed. No direct connection of any type to a sewer line shall be allowed.

(c) Hydrants are located within the road right-of-way or easement and any person, firm or corporation requesting to have a hydrant relocated shall pay the complete cost of moving the hydrant.
(Code 1996, § 53.07; Ord. No. 18.04, 10-23-1978)

Sec. 34-8. Water rates, billing and lien upon premises rates.

(a) A minimum quarterly ready to serve charge shall be established by resolution of the Village Council at a regular meeting after a public hearing.

(b) For all water used during any quarterly period, a water usage charge for each 100 cubic feet or fraction thereof shall be established by resolution of the Village Council at a regular meeting after a public hearing.

(c) Unmetered customers shall pay a charge per quarter as established by resolution of the Village Council at a regular meeting after a public hearing.

(d) There is hereby imposed upon Orion Township an annual charge per hydrant as established by resolution of the Village Council for standby water usage; billing to be made on or about January 1 of each year using a hydrant count as of December 31 of the previous calendar year. Except as otherwise provided in this chapter, rates for special supply or for temporary supply for any purpose shall be fixed by the Village Manager.

(e) In the event that a property owner fails to install a water meter pursuant to this chapter, the Village shall cause the same to be built in a meter pit or other acceptable chamber with the cost of labor, materials, and construction billed to the water customer on the next ensuing quarterly bill and collected in the same manner as other water bills.

(f) Billing.

(1) For the purpose of making and collecting charges for water used by consumers, the calendar year shall be subdivided into quarterly periods to be established by the Village Manager, and statements shall be rendered quarterly and shall be due and payable on or before 30 days after the expiration of each quarterly period; provided, however, that for the purpose of establishing the commencement of any quarterly period, the first of any subsequent billing may be made for less than or greater than a quarter period. The due date of such charges shall be stated upon the billing therefor, and the same shall be paid on or before the due date stated therein.

(2) Delinquent charges. If any charges for water supply services are not paid on or before the due date then a penalty of ten percent shall be added thereto. In the event that the charges for any such services furnished to any premises shall not be paid within 90 days after the due date thereof, then the Village shall assess an automatic $250.00 fine in addition to the ten percent penalty. In addition thereto, in the event the same is not paid within the 90-day period, all services furnished by the water supply system may be discontinued. Services so discontinued shall not be restored until all sums then due and owing, including penalties, are paid, plus a shutoff and a turn-on charge. A penalty of ten percent shall be added to and become part of any charge that is not paid before the same becomes delinquent.

(g) Lien upon premises.

(1) Such charges shall constitute a lien upon the respective properties served and if any charge is not paid before it becomes delinquent it may be recovered by the Village in an action of assumpsit against the owner of the property served as well as any tenant supplied with such water, or such charges may be certified to the Village Treasurer by the Village Council and assessed against the property on the next Village tax roll, in which event such charge shall be collected and returned in the same manner as other Village taxes are collected and returned, provided that any charge shall not be so certified which has not been delinquent for a period of at least six months, in addition to any other remedy provided in this chapter or by law, if such charges for water consumed shall not be paid within 30 days after the same shall become delinquent, the Village Manager shall have the authority to shut off the supply of water to any such premises, provided:

a. Notice is provided by first class mail to the property owner according to Village records affording the owner an administrative hearing before the Village Manager prior to the water being shut off; and

b. Notice of the administrative hearing is provided to any occupants of the property by posting notice of the same at the premises.

(2) After the hearing, the Village may shut off and sever such water connection. In such event, such connection shall not thereafter be reconnected until all such water charges and penalties shall be fully paid, together with a shutoff charge of $100.00 and a turn-on charge of $250.00 as established by resolution of the Village Council at a regular meeting after public hearing.

A turn-off and turn-on fee of $5.00 each shall be charged. During each seasonal vacancy, and provided that no water use is recorded on the meter during such vacancy, a ready-to-serve fee in the amount of $3.00 per month or fraction of a month shall be charged. In the event the water meter shall record use of water during the seasonal vacancy, the charges set forth in section 34-8(a) and (b) shall apply. For temporary shutoff necessary for the purpose of a customer making repairs, upon 48 hours' notification, the Village will turn off the water at the curb stop and a turn-off and turn-on fee of $5.00 each shall be charged.

(Code 1996, § 151.001; Ord. No. 31.26, 5-13-2013)

Sec. 38-20. Title.

This article shall be known as the "Design and Construction Standards of the Village" and shall hereinafter be referred to as "standards."
(Code 1996, § 151.002; Ord. No. 31.26, 5-13-2013)

Sec. 38-21. Purpose.

The purpose of the standards is to establish general requirements for the design and construction of subdivisions, site condominiums, commercial sites, and all other site improvements under the jurisdiction of the Village which require site plan submittal in conformance with the Village's zoning ordinance.
(Code 1996, § 151.003; Ord. No. 31.26, 5-13-2013)

Sec. 38-22. Intent.

It is the intent of these standards to:

(1) Provide a flexible yet reasonable and proper basis for the design and construction of land improvements, including, but not limited to, drainage facilities, sanitary sewers, stormwater management facilities, road and parking lot improvements, pedestrian activities, landscaping, grading, and where warranted, water supply, distribution and fire suppression facilities and sewage collection and disposal systems.

(2) Establish uniformity in Village requirements and supplement Village ordinances.

(3) Outline information required for plans submitted for review so that the plans are complete and in a proper form.

If there should exist conflicts or discrepancies between these standards and other adopted ordinances, these standards shall apply.

Sec. 38-24. Variance from standards.

The Village Council may authorize a variance from these standards when practical difficulty may result from strict compliance. In granting any variance, the Village Council may prescribe conditions that it deems necessary or desirable for the public safety, health, welfare and interest of the community. No variance shall be granted unless the Village Council finds that all of the following is established by the applicant:

(1) That strict compliance with these standards would either unreasonably prevent the owner from using the property for a permitted purpose or that conformity with the standards would be unnecessarily burdensome;

(2) That the variance is the minimum necessary to give appropriate relief to the applicant, giving consideration to the effect of the variance on surrounding property owners within 250 feet;

(3) That the granting of a variance will not be detrimental to the public health, safety or welfare or injurious to other properties in the area; and

(4) That the variance will be in accordance with the objectives and policies of the Village.

(Code 1996, § 151.006; Ord. No. 31.26, 5-13-2013)

Sec. 38-25. Interpretation.

(a) The provisions of these standards shall be held to be the minimum requirements necessary for promotion and preservation of public health, safety and general welfare of the Village. The standards are not intended to repeal, abrogate, annul, or in any manner interfere with existing Village regulations or ordinances, standards or regulations of the county where they have jurisdiction, nor to conflict with any state statutes.

(b) Proprietors and their engineers are encouraged to design facilities to provide for actual conditions encountered in their project work area. As site conditions dictate, the Village in the review process may allow more flexible designs, which are more or less stringent than the minimum requirements specified herein, provided that the design alternative is in accordance with Village objectives and goals (i.e., preservation of natural features).
(Code 1996, § 151.007; Ord. No. 31.26, 5-13-2013)

Sec. 38-26. Right to revise standards.

The Village reserves the right to revise these standards at any time by amending this article and to require that such revised standards be incorporated into the work at any time prior to final site plan approval. The Village also reserves the right to require revisions or corrections to any plans that have been approved for construction due to errors, omissions, or changes or unforeseen field conditions and to require that such revisions and corrections be incorporated into the work at any time prior to the final acceptance of the work.
(Code 1996, § 151.008; Ord. No. 31.26, 5-13-2013)

Sec. 38-27. Penalty.

Any person who violates the provisions of this article shall be responsible for a municipal civil infraction, subject to civil fine, court order enforcement, and any remedies mandated by the court for violations.

standards. Furthermore, it shall be required that the applicant provide all utility and drainage easements (i.e., storm sewers, surface drainage, private water and sanitary systems, and the like) to the Village for review and approval prior to final project approval. The easements shall be subject to a recommendation of approval by the Village Engineer and the Village Attorney.

Sec. 38-64. Phased construction.

On all projects in which construction is to proceed in phases, a separate plan sheet shall be included in the construction drawings which breaks down all improvement quantities by item, e.g., walkways, paths, grading, landscaping, community septic and sewage collection systems, water supply and distribution systems, sewer, storm sewer, landscaping, pavement base and wearing courses, and utilities for each phase. Said phasing limits shall match those approved or to be approved by the Village. The Village Engineer shall review and make recommendations to the Village Council. Comments for approval or non-approval shall be in writing. They may also be marked on a set of plans at the discretion of the Village. Copies of the letter recommending approval or non-approval and any marked up plans will be forwarded to the Village, the applicant, and the applicant's consultants. (Code 1996, § 151.030; Ord. No. 31.26, 5-13-2013)

Sec. 38-67. Agency approval.

Engineering drawings for proposed subdivision or condominium improvements, site plan improvements, and utility construction shall be approved by all jurisdictional agencies and the Village prior to the beginning of any construction. Construction shall not begin until all required approvals and permits are obtained.
(Code 1996, § 151.031; Ord. No. 31.26, 5-13-2013)

Sec. 38-68. Submittal for construction.

Five complete sets of the approved site plan, signed and sealed shall be submitted for the Village's use after final site plan approval and prior to the pre-construction meeting. Additional plan sets, individual plan sheets or digital files may be requested at the Village's discretion.
(Code 1996, § 151.032; Ord. No. 31.26, 5-13-2013)

Sec. 38-69. Meetings.

(a) A pre-construction meeting shall be held prior to the start of any site improvements. The pre-construction meeting should include a representative of the Village, the Village Engineer, the applicant or authorized representatives, the contractor, and where necessary any utility

company officials whose underground, overhead, or at grade utilities may conflict in any manner with the proposed project, state, county, and local government persons who may be involved, directly or indirectly, with the proposed project, and any other persons who may be able to contribute information in regard to the construction of the subject project.

(b) It shall be the applicant's and/or contractor's responsibility to contact the Village at least seven days prior to planned construction commencement to arrange for a preconstruction meeting. The project shall not be permitted to commence until such time that the applicant and/or contractor has secured all required permits, submitted observation (inspection) escrow funds, and submitted all insurance and bonds in accordance with the Village's requirements.
(Code 1996, § 151.033; Ord. No. 31.26, 5-13-2013)

Sec. 38-70. Guarantee.

The applicant shall be required to deposit with the Village, cash, certified check, or irrevocable bank letter of credit, whichever the applicant selects, in an amount sufficient to guarantee the completion of the construction of all required improvements, as shown on the approved final site plan. Copies of contractor contracts with the applicant or estimates of cost provided by the applicant shall be required to be submitted to the Village Engineer for approval and for review prior to establishment of the required security. The final release of security will only be made after the improvements have been final inspected and accepted by the Village and only upon written request by the applicant.
(Code 1996, § 151.034; Ord. No. 31.26, 5-13-2013)

Sec. 38-71. Construction observation.

(a) Full-time or part-time observation shall be required for all site improvements associated with subdivisions, site condominiums, commercial sites, and elsewhere as determined by the Village. Part-time observation may also be required for improvements covered by other governmental agencies. Observation personnel shall be provided by the Village or its agents. The developer shall pay all applicable observation fees as established by the Village. The contractor shall notify the Village and the Village Engineer's supervising field observer at least 48 hours prior to commencing construction. Any work installed without field observation as required by the Village may not be accepted by the Village.

(b) In such an event, the Village's decision regarding removing or exposing covered work, testing, or any other appropriate course of action shall be final and binding on the applicant.

(c) The applicant shall deposit with the Village at least 48 hours prior to the start of construction, an observation escrow based on the estimated observation time required as determined by the Village. The observation escrow amount shall be determined prior to or at the pre-construction meeting. The Village may assess an administration fee to cover the

construction portion of the project. The observation fees will be billed to the Village on a time and material basis by the Village Engineer and deducted from the observation escrow deposit.

(d) A minimum of four hours will be charged against the observation escrow if the observer keeps a scheduled observation appointment and the contractor does not work or cancels work with less than 24 hours' notice and the observer cannot be reassigned to another job. In the event of a rain out, the contractor shall notify the appropriate personnel prior to the regular starting time or be charged the four hour increment. All costs incurred for consulting services and testing conducted by the Village will be billed against the escrow account.

(e) The applicant will be notified in the event the escrow deposit has been depleted and/or additional funds are required. Within three business days the applicant shall re-establish the deposit so as to prevent the project construction from being stopped and/or building or occupancy permits withheld. The account balance upon completion of the project and acceptance of the record plans will be returned to the applicant and only upon written request by the applicant.

(f) Review of as-constructed or as-built record drawings shall be invoiced against the observation account.
(Code 1996, § 151.035; Ord. No. 31.26, 5-13-2013)

DIVISION 4. GENERAL CONSTRUCTION PROVISIONS AND REQUIREMENTS

Sec. 38-124. Intent.

This division is intended to provide the applicant with general construction requirements to be adhered to throughout the duration of the project. Failure to do so may result in a stop work order being issued to the contractor following written notice by the Village requiring the issue to be resolved prior to starting work.

(Code 1996, § 151.065; Ord. No. 31.26, 5-13-2013)

Sec. 38-125. General provisions.

(a) The Village or their agents will not act as the general supervisor of the contract work or be held responsible for on-site safety. This shall be the responsibility of the property owner, property owner's engineer, and/or contractor.

(b) The Village will provide observation/inspection personnel in accordance with section 38-71.

(c) Subsequent to any required Village plan approvals, and prior to starting any construction, the contractor must obtain all required permits, establish all necessary escrow accounts, pay all fees, provide the required insurance certificates and attend the preconstruction meeting.

(d) All improvements must also be field staked under the supervision of a licensed professional. Staking must be in accordance with the approved plans.
(Code 1996, § 151.066; Ord. No. 31.26, 5-13-2013)

Sec. 38-126. Working space.

(a) The contractor shall confine the work operations to the minimum space possible within the project limits. Stockpiling of construction material and equipment will be permitted as necessary, but in no case shall traveled roadways, driveways, or entrances be unduly obstructed. Any off-site storage or disposal areas within the Village must be shown on the final site plan drawings and approved by the Village.

(b) It shall be the contractor's responsibility to use such methods and/or materials, including sheeting, so as to prevent any portion of the work from encroaching on adjacent property.
(Code 1996, § 151.067; Ord. No. 31.26, 5-13-2013)

Sec. 38-127. Locating work.

The contractor shall accurately locate the work from reference points established by the project engineer/surveyor along the surface of the ground and the line of work. Cut sheets for all underground work shall be furnished to the contractor and the Village by the applicant. Reference points shall be protected and preserved by the contractor.
(Code 1996, § 151.068; Ord. No. 31.26, 5-13-2013)

Monuments or other recognized property boundary markers at street intersections, section comers, acreage or lot corners, and right-of-way lines shall be preserved and protected. Where such monuments or markers must be removed during construction, the Village shall be notified and the contractor shall make all necessary arrangements with a land surveyor registered in the state to have these monuments or markers properly witnessed prior to disturbance or removal and later reset by the registered land surveyor at no cost to the Village.
(Code 1996, § 151.069; Ord. No. 31.26, 5-13-2013)

Sec. 38-129. Trench backfill.

(a) Special backfill shall be used at all locations and of the type called for on the drawings, and at other locations specified herein whether called for on the drawings or not. The type and method of backfilling is dependent on its locations and function and shall conform with the following requirements. The applicant will supply field testing on the special backfill compaction requirements.

(b) Backfilling of trenches in the shoulder area and under private gravel drives shall be carried to within six inches of the existing surface as specified under Trench A or Trench B as required. The shoulder shall be defined herein as the area within five feet of the pavement edge, or the width of the existing graveled shoulder, whichever is greater. The remaining depth shall be backfilled with six inches of compacted 21AA aggregate. Backfilling of trenches crossing gravel roads or streets shall be carried to within eight inches of the existing surface and the remaining depth shall be backfilled with eight inches of compacted 21AA aggregate. Compaction shall be performed by a pneumatic-tired roller or a vibratory compactor until the compaction requirements as required for Trench A or Trench B and as detailed in this section are met.

(c) The requirements as specified herein are in addition to the conditions provided for under permit granted by the Road Commission for Oakland County (RCOC) or the Michigan Department of Transportation (MDOT), where applicable.

(d) Trench A. All trenches under graveled, slag or hard surfaced roads, pavements, hard surfaced parking lots and driveways, sidewalks, curbs and where the trench edge is within three feet of a pavement shall be backfilled with bank run sand meeting the requirements of granular material, MDOT Class II. The material shall be placed by the controlled density method or other effective means having the approval of the Engineer and is to be compacted to 95 percent of maximum unit weight as determined by ASTM D-1557 Modified Proctor. Trenches under pavement to be constructed in the near future, as noted or shown on the drawings, shall be backfilled with granular material, meeting the requirements of current MDOT Standard Specifications for Construction.

(e) Trench B. Trench B shall be used where called for on the drawings. All trenches shall be backfilled with granular material, MDOT Class II to a point 12 inches above the pipe for diameters less than 24 inches and up to the spring line with materials meeting the requirements of the current MDOT Standards for diameters 24 inches or larger. This portion of the backfill is to be placed in layers not exceeding six inches in depth and shall be thoroughly compacted by mechanical tamping to not less than 95 percent of maximum unit weight utilizing ASTM D-1557 Modified Proctor. The remainder of the backfill shall be made with suitable excavated material (excluding blue and gray clays, peat, muck, marl or other organic materials) placed in one-foot layers, with each layer being thoroughly compacted by approved mechanical methods, or other effective means having the approval of the Engineer, to a density of 90 percent of maximum unit weight utilizing ASTM D-1557 Modified Proctor.
(Code 1996, § 151.070; Ord. No. 31.26, 5-13-2013)

Sec. 38-130. Maintenance and restoration of pavements, road surfaces, structures and trench backfill.

(a) Where trenches cross existing improved roadways or drives or where the trench parallels an existing improved roadway which is disturbed by the contractor's operations, the contractor shall consolidate the trench backfill and shall immediately place a temporary gravel fill,

meeting 21AA Aggregate Gradation at least eight inches thick; and shall, during the life of the project, maintain the same in good condition with additional gravel as settling takes place. All structures, including curbing, walks, paving, gravel, or sheet road surfaces, and the like, that may be damaged or destroyed by the contractor's operations shall be repaired and replaced by the contractor at their expense. In restoring pavement, a saw shall be used and a cut equal to tire thickness of the existing pavement shall be made on each side of the part to be restored. Concrete shall be 3,500 psi, using six sacks of cement per cubic yard of concrete, unless otherwise required.

(b) If the pavement removed had an asphaltic concrete surface, the surface shall be removed to a distance one foot beyond the limits of the removed asphaltic concrete pavement. The butt joint in asphaltic concrete removal shall be prepared by sawing through the total depth of asphaltic concrete. The surface shall be replaced with a nominal three inches of MDOT bituminous surface mixture as required by the Village and meeting the requirements of the state department of transportation as to materials and method of replacement at no extra cost to the Village.
(Code 1996, § 151.071; Ord. No. 31.26, 5-13-2013)

Sec. 38-131. Protection of the public.

The contractor shall provide sufficient barricades, guard railings, fencing, advance construction signing, coverings or other means to protect the public from injury due to the work operations, including completed or uncompleted work, at all times until final approval of the work by the Village.
(Code 1996, § 151.072; Ord. No. 31.26, 5-13-2013)

Sec. 38-132. Preservation of trees.

(a) The contractor shall protect and preserve all trees and natural areas along the line of work, and will be held responsible for any damage to trees. Construction fencing shall be placed to fence off designated areas at the drip edge of the trees to be protected. Where necessary to preserve a tree and its main roots, the contractor shall tunnel under such tree. Where specifically called for on the drawings, the contractor shall remove trees completely, including stumps and main roots.

(b) Where tunneling is required, augering shall be done in a manner to protect the trees and at a distance away from the tree in accordance with the following table:

Tunneling or Augering Beneath Tree Roots

Tree Diameter (DBH)	*Minimum Auger Distance*
Up to 2"	Auger 1 ft. from trunk of tree
3—4"	Auger 2 ft. from trunk of tree

Tree Diameter (DBH)	*Minimum Auger Distance*
5—9"	Auger 5 ft. from trunk of tree
10—14"	Auger 10 ft. from trunk of tree
15—19"	Auger 12 ft. from trunk of tree
19" and over	Auger 15 ft. from trunk of tree

Note: Diameter breast height (DBH) is measured 4½ feet above the ground.

(c) The minimum depth of auger within the root zone, as described in subsection (b) of this section, shall be 24 inches below the soil surface. In any event, the tunneling must be below the major root system of the tree. All voids around the tunneled or augured facility shall be backfilled with excavated material and thoroughly compacted to avoid settlement. Compaction must be completed without compacting the soil within the root zone.

(d) Where tunneling is not required for trees close to the trench and root trimming is necessary, the contractor shall hand trench ahead of the machine digging and cut all roots cleanly to minimize damage to the roots.

(e) Tree branches shall be tied back to protect them from the contractor's machinery where necessary.
(Code 1996, § 151.073; Ord. No. 31.26, 5-13-2013)

Sec. 38-133. Protection and replacement of landscaping.

The contractor shall protect, replace and/or restore all shrubbery, trees, lawns, and landscaping damaged or destroyed by operations under his or her contract to the satisfaction of the Village.

(1) *Tree replacement requirements.* The applicant shall be required to replace all protected trees being removed having eight inches or more DBH subject to the following conditions:

a. The replacement calculations shall indicate the total caliper inch at DBH of protected trees being removed, as well as any trees being considered for exemption. The total number of replacement trees and caliper inches shall be provided and graphically illustrated on a plan.

1. Replacement trees shall be at least three inches caliper and eight feet in height for evergreens. Trees will be measured at six inches above finished grade for replacement trees four inches caliper or less and at 12 inches above finished grade for all trees greater than four inches caliper.

2. Larger evergreen trees may be used to fulfill replacement requirements at the equivalent rate of one inch for each 2.8 feet in height.

3. Consideration may be given to allow smaller caliper trees if they are part of a replacement plan that specifies a mixture of sizes and intended to simulate as natural woodland habitat.

b. Replacement rate for protected trees. Protected trees must be replaced at a rate of 50 percent of the total DBH removed. Each protected tree must be replaced with a tree that is a minimum of three-inch caliper or seven feet in height for deciduous shade trees, and six feet in height for evergreen trees.

c. Diversity of tree species shall be maintained where essential to preserving a wooded area.

d. The location of transplanted trees and required woodland replacement trees must be provided on the landscape plan. Transplanted and replacement trees shall be clearly distinguished from required landscape elements.

e. Trees required to be planted in accordance with this section shall be in place and properly supported prior to the issuance of a final certificate of occupancy.

f. All purchased replacement trees shall satisfy American Association of Nurseryman standards, including:

1. Nursery grown.
2. Clean and free of weeds and noxious pests and diseases.
3. Tree spade transplanted while in the dormant state or, if not in the dormant state, having been balled and burlapped with a solid well-laced root ball when in the dormant state.
4. Number one grade, with straight unscarred trunk and a well-developed uniform crown. Park grade trees are not acceptable.
5. Staked, watered and mulched in accordance with standard planting practices.

g. Replacement trees shall be guaranteed for a minimum of one year, including labor. After one year, dead or diseased trees must be replaced prior to final Village approval.

h. Where it is not reasonable or desirable to relocate or replace trees on site, relocation or replacement may be made at another approved location within the Village.

i. The term "protected tree" means any tree that is six inches DBH or greater in size.

(2) *Tree protection procedures.* Prior to construction, land clearing, filling, and/or land alteration, the applicant shall do the following:

a. All trees for which application is being made for removal shall be so identified on-site by fluorescent orange spray paint (chalk based) or by fluorescent orange flagging tape prior to field inspection by the Village. Trees selected for transplanting shall be flagged with a separate distinguishing color.

b. Protective fencing shall be erected which restricts access to protected areas.

1. Fencing shall be installed five feet outside the tree dripline or tree groupings, unless it can be demonstrated that this is not practical.

2. Stakes for fencing shall be staked into the ground, with stakes spaced at a maximum of ten feet.

3. The protective fencing shall be maintained and all construction materials, supplies and equipment shall be kept outside of the protective areas.

4. Fencing material shall be a minimum of 48 inches high. Acceptable materials include green or orange snow fence and galvanized or vinyl-coated chain link.

c. Tree protection shall remain in its approved location until such time removal is authorized by the Village. During construction, no attachments or wires shall be attached to any trees which are protected. Wood, metal or other substantial material shall be utilized in the construction of barriers.

d. No activity shall be conducted within ten feet of the tree dripline, including, but not limited to, placing of any solvents, material, construction machinery, vehicles, or soil.

e. The location of fencing may be adjusted, as administratively approved, in the field to accommodate site-specific conditions or constraints.

f. The developer and/or the builder shall be responsible to inform all subcontractors, suppliers and tradesmen that they are to help maintain the trees and will be held responsible for any unauthorized damage to trees and woodlands.

g. Prior to issuance of a temporary certificate of occupancy or certificate of occupancy, all required replacement trees shall be planted in accordance with the approved plans, or deposit in the amount of the estimated tree replacement and transplant costs to be refunded in full at time of completion.

(3) *Replacement of trees during construction.* The developer or builder shall be required to replace trees originally intended to be preserved when such trees are damaged during construction. The replacement requirements for such damaged trees shall be one caliper inch for each one caliper inch DBH of the damaged trees.

(4) *Tree maintenance and replacement.* If any of the trees required to be retained or trees planted as part of the landscaping plan should die within a period of 12 months after completion of the activities associated with the tree removal permit, the owner of the property shall replace the trees within six months at a ratio of one-to-one with an approved tree having a minimum of three-inch caliper or eight feet in height for evergreens. Shrubbery or other plantings that die within 12 months of completion of the activities shall be replaced in kind within six months.

(5) *Variances.* An appeal may be made to the Zoning Board of Appeals if a practical difficulty makes strict compliance with this article impractical. In determining the existence of a practical difficulty, the Zoning Board of Appeals shall consider:

a. The intent and purpose of this article;

b. The character and community value of the protected trees affected; and

c. The presence of unique circumstances which makes compliance with this article physically impractical.

(6) *Restoration.*

a. The contractor shall restore all disturbed areas to the finished grade shown or to conform with existing grades and provide a smooth and uniform surface to meet existing ground surface. Ground cover must be established and conform to the approved site plan and landscaping plan.

b. Where areas are to be planted at a later date or construction schedules result in areas exposed for extended periods, they are to be temporarily seeded with an annual rye grass to prevent erosion as soon as rough grade is established. Restored areas shall be replanted as needed to provide a well-established vegetative ground cover.

c. The contractor shall go over the entire area and regrade and fill any areas that may have settled, including fills made from excess excavated materials and all other areas that may have been disturbed during construction operations. Ground covers must be established on all such areas after repair.

d. Where established lawn or grass areas have been disturbed by the contractor's operations, the contractor shall provide, unless otherwise specified or called for on the drawings or in the specifications, not less than tire minimum depth of approved topsoil and shall grade, seed, fertilize and mulch or install Class A sod where directed by the Village.

e. Restoration areas are to be kept moist by the contractor for 14 days after planting to ensure growth.

(7) *Public and private utilities.*

a. The contractor must provide adequate protection for water, sewer, gas, telephone, TV, cable, fiber optics, drainage, or any other public or private utilities encountered. The contractor will be held responsible for any damages to such utilities arising from his or her operation.

b. When it is apparent that construction operations may endanger the foundations of any utility conduit, or the support of any structure, the contractor shall notify the utility owner of this possibility and shall take steps as may be required to provide temporary bracing or support of conduit or structures.

c. When construction operations may impact existing drainage facilities, the contractor shall make necessary provisions to maintain the integrity of the drainage facility and of flow. In all cases where permits or inspection fees are required by utilities in connection with changes to or temporary support of their conduits, the contractor shall secure such permits and pay all inspection fees.

d. Where it is necessary in order to carry out the work that a pole, electric or telephone be moved to a new location, or moved and replaced after construction, the contractor shall obtain applicable permits and arrange for the moving of such pole or poles, and the lines thereof, and shall pay any charges therefor.

e. Where it is the policy of any utility owner to make repairs to damaged conduit or other structures, the contractor shall cooperate to the fullest extent with the utility and shall see that construction operations interfere as little as possible with the utilities operations. The contractor shall pay any charges for these repairs.

f. Where existing gas mains and services are encountered, the contractor shall arrange with the gas company for any necessary relaying, and shall pay for the cost of such work unless otherwise provided.

(8) *Pumping, bailing and draining of trenches.*

a. The contractor shall provide and maintain adequate pumping and drainage facilities for removal and disposal of water from trenches or other excavations. No direct discharge to existing water courses is permitted. The contractor shall contact the Village for approval of the discharge point.

b. In any event, all pumping and drainage shall be done without damage to any roadway or other property, public or private, and without interference with the rights of the public or private property owners and in accordance with the MDEGLE and local requirements for soil erosion and sedimentation control.

(9) *Sheeting, shoring and bracing.* Where necessary, in order to construct the work called for on the approved plans, the contractor shall use and, if necessary, leave in place such sheeting, shoring, and bracing as is needed to carry out the work or to adequately ensure the stability of such work, to protect adjoining areas.

(10) *Disposal of excavated material.* With the exception of an amount of excavated materials sufficient for backfilling and construction of fills, as called for on the drawings, all broken concrete, stone, and excess excavated materials shall be disposed of away from the site by the contractor unless an on-site disposal area has been reviewed and approved by the Village during the site plan review process. The contractor will be required to obtain his or her own disposal ground and indicate the location at the pre-construction meeting. If disposal site is within the Village, the site must have prior written approval from the Village.

(11) *Disposal of waste materials.* Unless otherwise directed by the applicant or Village, all scrap lumber, stumps, brush, concrete, other waste materials and debris resulting from the construction work shall be removed from the premises. No waste materials may be buried or burned on site. Wood may be chipped and used on site for landscaping mulch or paths, but wood chip stockpile areas must be approved by the Village.

(12) *Tunneling.* The contractor shall construct the work in tunnel where shown on the drawings or required by permits, and at other locations may, at his or her option, construct the work in tunnel where it crosses existing roadways, public and private utilities, walks or other structures. Tunnel work shall be constructed in accordance with the drawings and specifications, road permit requirements, or as otherwise noted on the drawings.

(13) *Site dewatering.*

a. Any anticipated construction dewatering activity requires approval by the Village during the site plan review process. If the unexpected need for dewatering arises during construction, dewatering provisions must be submitted to and approved by the Village prior to dewatering.

b. The dewatering provisions shall include the number and location, depth, and size of all proposed pumps. The maximum flow from each pump should be indicated. In addition, the provisions shall indicate the precise location for discharge of the water. All water must be retained on site, unless extenuating circumstances are demonstrated and the Village approves of the concept to discharge off site. The contractor shall be responsible for obtaining permission from the appropriate property owners and regulatory agencies that may have jurisdiction over the proposed receiving waters for off-site discharge. Proper soil erosion control and water quality measures must be properly installed at the outlet.

(14) *Progress of work.*

a. The work shall start promptly and continue uninterrupted.

b. If the Village determines it is necessary or advisable that certain portions of the work be done immediately, the contractor, upon written order, shall proceed with such work without delay.

(15) *Explosives.* If explosives are used, the contractor shall comply with all laws, rules, and regulations governing their use. The contractor shall be fully responsible for the safety of all persons and property and any approval by the Village shall not relieve the contractor of such responsibility. It shall also be the contractor's responsibility to provide written notification to property owners and tenants within 200 feet of the use of explosives at least 24 hours in advance.

(16) *Schedule of operations.* If requested by the Village, the contractor shall submit, for the Village's review and approval, a schedule of his or her proposed operations. The contractor's schedule shall be complete and shall show in detail the manner in which he or she proposes to complete the work under his or her contract.

(17) *Requirements pertaining to work within railroad rights-of-way.* Where the contract drawings call for work within railroad rights-of-way or where the work crosses under railroad tracks, the contractor shall secure the approval of the railroad company of the method and schedule of operations and shall carry out the work in strict accordance therewith, all to the satisfaction of the railroad company. Plan notes, provisions, requirements, and the like, for the railroad right-of-way work must be shown on the plans.

(18) *Dust control.* The contractor shall provide adequate measures to control dust caused by his or her operation. The methods employed, and frequency of application shall be as approved or as directed by the Village.

(19) *Construction noise compliance.* The applicant shall comply with all applicable local regulations dealing with construction noises.

(20) *Testing.*

a. Testing shall be required as specified in the respective chapter detailing the item of work to be completed. Generally, testing will be required when, but not limited to, engineering fill or trench backfill, pavement compaction, concrete break testing, subgrade compaction, and the like. Testing may be required in circumstances where unstable soils are encountered and are to be removed and replaced. Additional testing as determined by the applicant is encouraged.

b. The contractor shall obtain the services of a certified testing laboratory approved by the Village Engineer. This laboratory will perform all material testing. Copies of the results shall be furnished to the Village and Village Engineer.

c. For materials covered by ASTM, AWWA, state and/or federal specifications, the required tests are to be made by the manufacturer or supplier and his or her certificates submitted to the Village Engineer.

d. At the request of the Village Engineer, soil density and compaction tests must be made by a representative of the applicant and will be paid for by the applicant. The tests will be reviewed and accepted by the Village Engineer.

(21) *Samples.*

a. Where requested by the Village or these standards, samples of materials in the quantity required shall be submitted to the Village Engineer for approval. The work shall be in accordance with approved samples.

b. Samples are to be forwarded to the Village Engineer with all shipping charges prepaid, boxed or wrapped separately and each labeled with the name of the material, the name of the producer, the contractor furnishing the same and use for which the material is intended.

(22) *Subcontracts.* The contractor shall be fully responsible to the Village for the acts or omissions of his or her subcontractors and for anyone employed directly or indirectly by him or her or them. The contractor shall bind every subcontractor and every subcontractor shall be bound by these standards, as far as applicable to his or her work, unless otherwise specifically approved in writing by the Village.

(23) *Equivalent materials and equipment.* Whenever any of the material or equipment is defined by describing a proprietary product, or by using the name of a manufacturer or vender, the term "or equal," if not inserted, shall be implied. The specific article, material, or equipment mentioned shall be understood as indicating the type, function, minimum standard of design efficiency and quality desired and shall not be construed in such a manner as to exclude manufacturers' products of comparable quality, design and efficiency. Other manufacturers' products will be accepted provided sufficient information is submitted by the project engineer with their approval to use the alternate material to the Village Engineer to determine that the products proposed are equivalent to those named. Whenever material or equipment is submitted for approval as being equal to that specified, the final decision of whether or not such material or equipment is equal to that specified shall be made by the Village Engineer. Upon rejection of any material or equipment submitted as the equivalent of that specifically named, the contractor shall immediately proceed to furnish the designated material or equipment. The approval by the Village Engineer of alternate material or equipment as being equivalent to that specified shall not in any way relieve the contractor of responsibility for failure of the material, or workmanship, to perform the functions required of them.

(24) *Contractor's responsibility.* The contractor shall assume full responsibility for the work, specifically including job site safety, and take all precautions for preventing injuries to persons and property on or about the work; shall bear all losses resulting to him or her on account of the amount or character of the work or because the conditions under which the work is done are different, or because the nature of the ground in which the work is done is different from what was estimated or expected, or on account of the weather, floods, elements or other causes, and in accordance with section 38-72(6), he or she shall assume the defense and save harmless the Village, Village Engineer, and their individual officers and agents from all claims arising out of the work performed or to be performed; and to any act, or neglect of the contractor, his or her agents or employees.

(25) *General requirements for materials and workmanship.* The contractor shall furnish suitable tools and equipment and employ competent labor to perform the work to be done. Any labor or tools or appliances that shall not, in the judgment of the Village Engineer, be suitable or competent to produce this result may be ordered from the work by the Village Engineer.

(26) *Storage of materials.* Materials and equipment distributed, stored and placed upon or near the site of the work shall at all times be so disposed as not to interfere with work of other contractors, with drainage, fire hydrants or with access thereto and not to hinder traffic.

(27) *Contractor's supervision and origination.*

a. The general contractor shall give efficient supervision to the work. The contractor shall at all times keep on the site of the work, during its progress, a competent superintendent and any and all necessary foremen and assistants. The superintendent shall represent and have full authority to act for the contractor in the latter's absence, and all directions given to him or her shall be as binding as if given to the contractor. On request in each case, all such directions will be confirmed in writing to the contractor.

b. Copies of the drawings and specifications shall at all times be kept on file by the contractor at readily accessible points at or near the work.

(28) *Facilities for inspection.* The Village, their agents, and their employees shall at all times have the right to enter upon the premises upon which work is being done, or upon which material is stored, to inspect the work and materials and to ascertain whether or not the construction is carried out in accordance with the approved plans. The contractor shall promptly remove from the premises all materials rejected by the Village Engineer as failing to meet standard requirements, without expense to the Village.

(29) *Cleaning up.* The contractor shall remove from the site and from all public and private property all temporary structures, rubbish and waste materials resulting from his or her operations on a regular basis so as not to create a nuisance.

(30) *Prohibition of salvaged materials.* No secondhand or salvaged materials will be permitted, except upon specific written authorization from the Village.

(31) *Trench enclosures.* All trenches shall normally be backfilled at the end of the workday. Only under special conditions and with the approval of the Village Engineer shall trenches be left open overnight. Trenches which are allowed to be left open overnight shall be completely enclosed with suitable fencing or lighted barricades. When the trench contains water or when required by the Village Engineer, the exposed end of the pipe shall be securely closed with a watertight plug.

(32) *Cleanup scheduling.*

a. General cleanup, including completion of rough grading of backfilled trench areas, shall continuously progress along with, and shall lag no further than 100 feet behind, the pipe installation operations.

b. Fine grading and restoration work not dependent on weather or subject to seasonal limitations shall also progress concurrently with and shall lag no further than 500 feet behind pipe installation operations.

(33) *Excavation.* The trench shall be excavated so that the pipe can be laid to the alignment and grade shown on the plan, taking into consideration the bedding specified. Excavation shall include removal of all materials encountered and disposal (off the site) of those materials not suitable or needed for backfilling of the trench. Excavation shall not proceed ahead of pipe laying a distance that will result in a cave in. All adjacent structures encountered, above and below the ground surface, shall be properly supported.

(34) *Width of trench.*

a. If the maximum trench widths noted on the plans are exceeded, unless otherwise authorized by the Village Engineer, the contractor shall construct a concrete cradle or other type of approved bedding to provide support for the additional load.

b. When sand bedding is used, the maximum trench widths shall be used to permit compaction of the bedding around the pipe.

c. If stone bedding is used, a minimum six-inch clearance shall be provided on each side of the pipe with the maximum trench width as tabulated.

(35) *Pipe bedding.*

a. Pipe bedding is defined as the material placed from a minimum of four inches below the pipe to the centerline of the pipe. It shall consist of stone or sand, as noted on the bedding detail. The bedding shall be removed under the bell so that the pipe barrel will be uniformly supported for its full length.

b. The bedding material shall be placed and compacted uniformly on both sides of the pipe to prevent lateral movement. Mechanical methods of tamping shall be used when it is possible to do so without damaging the pipe. Bedding shall be placed in layers of six inches or less as necessary to obtain thorough compaction around the pipe.

c. In the event density tests become necessary to resolve a question of the sufficiency of compaction of bedding material, the minimum acceptable density shall be considered to be 95 percent of maximum density as determined by the AASHTO T99 method.

d. Stone used for bedding shall not lose more than seven percent by washing. Stone used for this purpose shall pass a three-quarter-inch sieve and be retained on a one-quarter-inch sieve.

(36) *Concrete cradle.* Where called for on the plans, a concrete cradle shall be constructed using MDOT Grade 30P concrete. The cradle shall extend half-way up the sides of the pipe.

(37) *Laying of pipe.*

a. Proper and suitable tools and appliances for the safe and careful handling, conveying, and laying of the pipe shall be used. Care shall be taken to prevent the coating of castings or ductile iron pipe from being damaged. Pipe, valves, hydrants, and fittings strung along the route shall be placed in such a manner that they will not be submerged or collect water. Dropping of material directly from a truck or platform is prohibited. All pipe and castings shall be carefully examined for defects. If any materials are found to be defective, they shall immediately be removed from the site.

b. All lumps, blisters, and excess coal-tar coating shall be removed from both the bell and spigot ends of each length of pipe and each fitting. The outside of each spigot and the inside of each bell shall be wire brushed and wiped clean, dry, and free from oil or grease immediately prior to installation. The inside of the pipe shall be free of dirt and debris. Any damage to exterior pipe coating shall be repaired with an approved coating before the pipe is laid.

c. Each pipe shall be inspected by the contractor for possible defects and compliance with the plans before being placed in the trench. Joint surfaces shall be free of foreign matter. Pipe laying operations shall follow immediately behind the excavation.

d. Pipe shall be laid from the lower end of the sewer upstream, with bell ends up grade. The use of brick, lumps of clay, wood, and the like, to level the pipe will not be permitted. Pipe shall be thrust home and if joints do not remain tightly closed or construction is in saturated sand, a cable and winch, or other approved means, shall be used to maintain a tight joint. Under no circumstances shall pipe be dropped directly into the trench.

e. All pipe shall be laid to line and grade as called for on the plans. Each pipe as laid shall be checked by the contractor. The trench shall be excavated to provide equal clearance on both sides of the pipe. After the pipe is set, care shall be taken in backfilling so as not to disturb its line or grade. As work progresses, the interior of the pipe shall be thoroughly cleaned. At all times the open ends of the pipe shall be covered to prevent foreign matter from entering.

(38) *Backfilling.*

a. Backfilling is defined as the placement in the trench of approved material by an acceptable method, from the top of the bedding to proposed ground surface grade. All backfill material shall be free from cinders, ashes, refuse, organic matter, boulders, rocks or stones, or other material which, in the opinion of the Village Engineer, is unsuitable. Unless otherwise authorized by the Village Engineer, all excavations shall be backfilled at least to a point one foot above the pipe immediately after installation.

b. From the center of the pipe to a point one foot above the top of the pipe, the trench shall be backfilled with sand approved by the Village Engineer, placed in six-inch layers, and thoroughly compacted.

c. Backfilling to grade shall not fall more than 100 feet behind pipe laying unless otherwise permitted by the Village Engineer. In locations where compaction of the backfill to a specific density is not required by these standards, backfill may, where practicable, be machined placed. Excavated material (other than clay) may be used for backfill and compacted by a small dozer in lifts of not over nine inches loose measure. Machine compaction of backfill may be required by the Village Engineer.

d. No frozen material shall be buried more than two feet below the final elevation of ground. At no time shall frozen materials be permitted for use as backfill under pavement structures.

e. All backfill placed within three feet of manholes, catchbasins, gate wells and other underground structures shall be approved sand, placed in one-foot layers and compacted. After the structure and/or exterior masonry plaster has set up sufficiently to resist damage, backfilling shall be performed in a manner that will not cause unequal pressure on the structure.

(39) *Construction in unstable soils or fill sections.*

a. Pipe and pipe appurtenances must be supported on a firm foundation. The trench bottom shall remain stable during backfilling and all subsequent pipe laying operations. When unstable trench bottoms (wet clays, sands, and the like) are encountered, it will be necessary to excavate below design depth to stable, noncompressible ground and backfill to grade with approved select materials: slag, crushed stone, gravel, and the like, one-quarter inch to three-quarter inch in size.

b. Where organic materials (peat, marl, muck, and the like) exist at the trench bottom, it shall be necessary to remove these to stable soils and backfill to grade with the aforementioned select materials. Where the material below plan grade is

unstable to such a degree that it cannot be removed and replaced with an approved material, the contractor shall construct supports as recommended by the project engineer and approved by the Village Engineer.

c. Where it is necessary to lay pipe in a fill area, unstable or unsuitable material shall be removed before fill material is placed. The embankment shall be of suitable material, one vertical on two horizontal fill slopes, and shall be placed in layers not exceeding one foot in thickness compacted to 100 percent of maximum density as determined by the AASHTO T99 Method, to the proposed top of the pipe. The embankment shall not be less than four diameters plus 12 feet wide at the invert of the pipe and shall be continued up to provide no less than three feet of cover over the pipe.

(40) *Pipe clearance in rocks.* Rocks, boulders, and stones over two inches in diameter shall be removed to provide a clearance of at least six inches from any part of the pipe or appurtenances.

(41) *Roadway and waterway crossings.* All work within a road right-of-way or a waterway shall be performed in accordance with the requirements of the governmental body having jurisdiction over the right-of-way involved. Notice and permits as required shall be given and secured from said governmental body before work starts.

(42) *Trench box.* If the trench box rides below the top of the pipe, then care must be taken to protect the integrity of the pipe bedding, particularly when movement of the trench box leaves a void in the pipe bedding. Care must also be taken to ensure that movement of the trench box does not pull the pipe joints apart and, if necessary, the pipe lines should be secured with a wood cross-block, cable, and winch at the downstream manhole.

(43) *Bored and jacked casings.*

a. *Requirement.* The boring and jacking of steel casings shall be installed in any areas considered to be detrimentally affected by open cut construction in the opinion of the Village.

b. *Materials.*

1. *Casing pipe.* Steel casing pipe shall be electronic-fusion welded pipe, conforming to the requirements of ASTM A-39, Grade B, with minimum one-quarter inch wall thickness. Pipe ends shall be prepared for field welding of circumferential joints.

2. *Carrier pipe.* Pipe materials shall conform to that specified in the applicable sections of these standards.

3. *Grout.* Grout material shall be cement-sand mixture containing not less than one part cement to one part sand, unless otherwise approved by the Village Engineer.

4. *Pipe skid.* Necessary skidding materials required to protect the pipe during installation shall be approved by the Village Engineer and furnished by the contractor.

c. *Installation.*

1. *Casing pipe.* Casing pipe shall be installed in a continuous augering (or mining) and jacking operation with the casing pipe installation following directly behind the face of the excavation. Water shall not be introduced during the boring-jacking operation.

2. *Grouting.* The annular space between the outside surface of pipe and the inside surface of casing pipe shall be pressure grouted with approved materials. The diameter of the casing pipe shall be of sufficient size to ensure proper placement of the pipe to plan line and grade and to allow the proper installation of pressure grouted material. The ends of the casing pipe shall be closed with a masonry bulkhead at least eight inches thick.

3. *Minimum boring distances.* All work shall be performed from boring and jacking pits adequately sheeted to prevent damage to the roadway, railway, and the like. The minimum distance from the edge of the pavement to the trench or boring and jacking pit for dual highway and interstate routes shall be 30 feet. For curb or guardrail section, railway track, or two-lane highway, the minimum distance will vary from shoulder point to the toe of slope, as shown on the plans or as directed by the Village Engineer.

(44) *Rip-rap.*

a. Rip-rap shall be installed at all locations as indicated on the plans.

b. Typically, all rip-rap shall be installed on a suitable geotextile fabric.

c. Rip-rap material shall be natural stone, limestone, or broken concrete free of any reinforcement.

d. Average diameter shall be as indicated on the plans.

e. Rip-rap shall be placed so individual stones are fit together to form an interlocking mat. Smaller stones are to fill any large voids.

f. Grouting rip-rap is permitted in lieu of supplementing settlement.

(45) *Maintenance of traffic.*

a. During the progress of the work, the contractor shall accommodate both vehicular and pedestrian traffic as provided in these specifications and as indicated on the drawings. In the absence of specific requirements, traffic shall be maintained in accordance with the current edition of the state Manual of Uniform Traffic Control Devices. Access to lire hydrants and water valves shall always be main-

tained. The contractor's truck and equipment operations on public roads shall be governed by county regulations, all local traffic ordinances, and requirements of the Fire and Police Departments.

b. Small road openings necessary for manholes, alignment holes, sewer connections, and the like will be permitted. Such holes shall not be open longer than necessary and shall be protected and any traffic detouring necessary shall be done to the satisfaction of the Village. Wherever possible, small openings shall be covered with steel plates at pavement level secured in place during periods that work is not being performed.

c. Where roads are partially obstructed, the contractor shall place and maintain temporary driveways, ramps, bridges and crossings which in the opinion of the Village are necessary to accommodate the public. In the event of the contractor's failure to comply with the foregoing provisions, the Village may, with or without notice, cause the same to be done at the contractor's expense.

d. The contractor shall provide flagmen, warning lights, signs, fencing and barricades necessary to direct and protect vehicular and pedestrian traffic.

e. The contractor shall inform the Police and Fire Departments in advance of work operations of road obstructions and detours, so that they can set up plans for servicing the area in case of an emergency. The Village Manager's Office, Police Department, and Fire Department shall be notified one week prior to obstructing any road, except for emergencies.

Neon sign means a sign consisting of glass tubing, filled with neon or another gas, which glows when electric current is passed through it.

Nonconforming sign means any sign that was lawfully erected and maintained prior to the effective date of the ordinance from which this chapter is derived and any amendments thereto, and that fails to conform to all applicable chapter regulations.

Off-premises sign means a sign which contains a message unrelated to a business or profession conducted on the premises, or to a commodity, service or activity not sold or offered upon the premises on which the sign is located (see *Billboard*).

Pennant means a long, tapering, triangular flag, often bearing an emblem.

Permanent sign means a sign attached or affixed to a building, window, structure or to the ground in a manner that enables the sign to resist environmental loads, such as wind, and that precludes ready removal or movement of the sign and whose use appears to be indefinite.

Portable sign means a sign constructed to be readily movable from one location to another and not permanently affixed to a building, structure or the ground, such as, but not limited to, A-frame, T-shaped or inverted T-shaped structures, including those mounted on wheeled trailers. Portable signs shall not include yard signs as defined in this section. See *Vehicle sign.*

Premises means a lot, combination of lots or parcels of property in the same ownership or control which are not divided by a public street, and which form a complete parcel of land for development purposes.

Projecting sign means a sign attached at one end to a building, other structure or any part thereof, and extending beyond the attachment surface by more than 12 inches. A projecting sign is typically mounted perpendicular to the building wall and is distinguished from a wall sign based on the distance the sign extends from the surface of the building.

Projecting Sign

Roof sign means any sign mounted upon, above or supported by the roof of any building or structure, except that a sign mounted upon a mansard fascia that does not project above the highest point of the roof or parapet shall be a wall sign.

Sign means the name, identification, description, object, device, structure, display or illustration that is affixed to, or painted, or represented directly or indirectly, upon a building, structure or piece of land, and which directs attention to an object, product, place, activity, person, institution, service, event, organization or business by any means, including words, letters, figures, design, symbols, fixtures, colors, illumination or projected images, and which is visible from any public street, sidewalk, alley, park or public property. The term "sign" does not include signs primarily directed at persons who are inside the building or goods displayed in a business window.

Sign setback means the distance measured from the street property line from which the sign is to be primarily viewed to the nearest edge of the sign.

Spinner means a rotating disc or propeller-like sign that rotates in the wind or from some other source of power and is typically threaded on a line with other spinners to attract attention.

Streamer means any long, narrow material that is intended to float and move in the wind.

Temporary sign means a sign, with or without a structural frame, that is not permanently fastened to any structure and is intended for a limited period of display, including, but not limited to, portable signs, inflatable signs, banners, pennants, spinners, streamers, yard signs, and temporary wall signs and temporary window signs.

Vehicle sign means a sign painted or attached to a vehicle. Vehicles which are generally used daily off site and which are not parked in a location intended to draw attention to the sign or site are not included in this definition.

Wall sign means a sign which is attached directly to or painted upon a building wall and which does not extend above the height of the wall to which it is attached, nor more than 12 inches therefrom, with the exposed face of the sign in a plane parallel to the building wall. The term "wall sign" includes signs mounted flat against the building facade, provided those signs do not protrude beyond any boundary of the facade.

Wall Sign

Window sign means a temporary or permanent sign painted on or affixed to a window surface, suspended so as to hang more or less parallel with the window surface, or otherwise displayed in a manner intended to be viewed from outside the window.

Window Sign

Yard sign means a temporary sign that is freestanding, not permanently anchored or secured to the ground, and typically having a metal or wire support structure.

Yard Sign

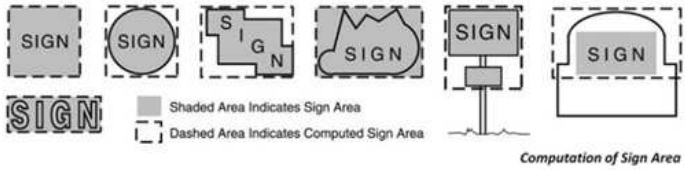
Zoning lot means all or parts of a lot or group of contiguous lots under single or common ownership that are considered to be a single undivided lot under the Village zoning Ordinance Nos. 13.06 through 13.09. The term "lot," as used in this article, shall mean zoning lot.
(Code 1996, § 155.02; Ord. No. 14.21, 5-23-2018)

Sec. 38-227. General standards.

The following shall apply to all signs:

(1) *Measurement of signs.*

a. *Sign area.* The entire area within a rectangle or square enclosing the extreme limits of writing, representation, emblem, or any figure of similar character, together with any frame, tower, or other material, color or internally illuminated area forming an integral part of the display or used to differentiate such sign, shall be included in the measurement. Parts of a sign shall be deemed to be a single sign whenever the proximity, design, content or continuity reasonably suggests a single unit, notwithstanding any physical separation between parts.



Computation of Sign Area

b. *Two faces.* Where a sign has two or more faces, the area of all faces shall be included in determining the sign area, except that where two such faces are placed back-to-back and are at no point more than two feet from one another, the area of the sign shall be taken as either:

1. The area of one face, if the two faces are of equal area; or
2. The area of the larger face, if the two faces are of unequal area.

c. *Sign height.* Unless otherwise stated in this article, sign height shall be measured as the distance from the grade to the highest point of the sign structure, including any supportive or decorative appendages, excluding any berm, landscaping, grading, or artificially or unnaturally constructed raised portion of land at the point of measurement.

d. *Grade.* The elevation of the public sidewalk closest to the sign base.

(2) *Illumination.*

a. Sign illumination shall be designed, installed and maintained in a manner that minimizes off-site glare, light trespass and light pollution, and fits the character of the district. All lighting shall be shielded and concentrated within the area of the sign to prevent glare upon the street or adjacent property.

b. Sign illumination shall be provided solely by electrical means or devices and shall not be flashing, intermittent, moving or animated.

c. Sign illumination shall not exceed a brightness level of 0.3 footcandles above ambient light as measured using a footcandle (Lux) meter and certification from the sign manufacturer stating that the sign and/or light source is capable of complying with these brightness provisions must be provided.

d. Underground wiring shall be required for any signs not attached to a building.

(3) *Construction and maintenance.*

a. *Materials and design.* All signs shall be designed, constructed and maintained in conformity with the latest adopted edition of the Michigan Building Code. Signs shall be constructed of permanent, all-weather materials.

b. *Fastenings.* All signs must be erected in such a manner and with such materials to remain safe and secure during the period of use and all bolts, cables, and other parts of such signs shall be kept painted and free from corrosion. Any defect shall be repaired by the property owner.

c. *Maintenance/landscaping.* The property surrounding any ground sign shall be kept clean, sanitary and free from obnoxious and offensive substances, weeds, debris, rubbish, and flammable material. All plants and other landscape materials surrounding a ground sign shall be maintained on a regular basis, including pruning, mowing, watering, fertilizing and replacement of dead and diseased materials.

d. *Structural maintenance.* All signs and components, including supports, braces, and anchors, shall be kept in good repair. Peeling or missing paint, holes, broken, cracked, bent, ripped, warped, rotted, discolored, sagging, out-of-plumb, worn, rusted or missing material parts shall be repaired by the property owner.

(4) *Legibility and design.* All signs within the Village must meet the following standards in the determination of the Zoning Administrator:

a. *Contrast.* All lettering shall contrast with the background on which they are applied.

b. *Lettering.* The font style and size used shall be clearly legible from all adjacent public rights-of-way.

(5) *Additional regulations.*

a. *Public right-of-way.* Except for signs established and maintained by the Village, county, state or federal government, and other signs as specifically identified in this article, no sign shall be located in or project into a public right-of-way or dedicated public easement.

b. *Clear vision.* No sign shall obscure the vision of drivers or conflict with traffic control signals on any street. Signs shall not be placed within the clear vision triangle.

c. *Site changes.* Upon the change of use of the land, building, or use in a building, all signs must be brought into conformity with this article.

d. *Audio levels.* The audio level of speakers and electronic broadcast media associated with any sign shall be restricted so as to not be audible from adjacent residences or beyond the lot lines of the premises on which the sign is located, whichever is less distant.

e. *Content neutrality.* To prevent any inadvertent favoring of commercial speech or message over noncommercial speech or message, any lawful sign under the provisions of this article may contain a noncommercial message. This provision prevails over any more specific provision to the contrary.

(Code 1996, § 155.03; Ord. No. 14.21, 5-23-2018)

Sec. 38-228. Permitted in all districts without a sign permit.

The following signs shall not count toward the maximum permitted number and area of signs and shall be permitted in all districts without obtaining a sign permit prior to installation. This exemption shall not relieve the owner of the sign from responsibility for its proper location, erection, maintenance and removal.

(1) For purposes of identification by emergency personnel (fire, police, EMS) for essential for public safety and emergency response, all businesses, offices, industrial buildings, apartment complexes, and multiple and single-family residences shall prominently display their street address on the front side (facing the street) of their building, upon ground signs or at the building entranceways. All street addresses shall be large enough to be easily read from the street and in all buildings with more than one unit, each individual unit's address shall be clearly marked. All numerals shall contrast with the surface to which they are applied, shall be mounted high enough to be seen from the street, and shall not be obstructed from view by trees, shrubs or any other material.

a. Nonresidential street address signs exceeding three square feet in area, unless the sign area exceeding three square feet is counted in the maximum sign area calculation.

b. Address signs for single family dwellings, duplexes and individual dwelling units in a multiple family building shall not exceed one per dwelling unit, and shall not exceed two square feet in area.

(2) Incidental signs not exceeding two square feet in area. The total area of all such signs on a premises shall not exceed eight square feet.

(3) Signs on a building wall that are cut into a masonry surface or constructed of bronze or other incombustible material, not exceeding two square feet in area.

(4) Historical markers issued by the state historical commission and other state/federal historical commission shall be permitted on any premises that is a designated historic site. Historical markers are not calculated as part of the maximum total sign area and the following shall not require a permit:

a. *Building-mounted historical marker.*

1. *All buildings and zoning districts.* A building mounted historical marker up to two square feet in area shall be permitted on any building in any zoning district.

2. *Nonresidential buildings.* A building mounted historical marker up to six square feet in area shall be permitted on any nonresidential building in any zoning district.

b. *Freestanding historical marker.*

1. *All sites and zoning districts.* A freestanding historical marker up to six square feet in area shall be permitted in any zoning district.

2. *Nonresidential sites.* A freestanding historical marker up to 16 square feet in area shall be permitted on any nonresidential site in any zoning district.

(5) Temporary, non-illuminated signs attached to vehicles, trailers, watercraft and recreational vehicles, not exceeding two square feet in area.

(6) Signs on vehicles legally parked on a residential lot in the RL or RV district, owned and/or occupied by the operator of the vehicle and driven in the course of his or her business.

(7) Flags bearing the official design of a nation, state, municipality, educational institution or nonprofit organization when not displayed in connection with a commercial promotion or as an advertising device. So as to not overwhelm the streetscape and to remain in character with the small town context of the Village, the flagpole shall be no taller than the height limit of the district, and the flag no longer than one-quarter the height of the flag pole.

(8) Any lawful sign in a public or private right-of-way installed by an authorized public agency, including, but not limited to, traffic safety and control signs, legal notices, railroad crossing, public safety signs, danger and other emergency notices.

(9) Private traffic control signs which conform to the requirements of the state Manual of Uniform Traffic Control Devices.

(10) Directional and informational signs required for the purpose of orientation when established by the Village, county, state or federal government.

(11) Signs erected on a governmentally owned or controlled building or land by the authorized public agency, including, but not limited to, community identification signs and streetscape banners erected by the municipality.

(12) Persons wearing costumes, with or without another sign, who call attention to a site, provided the person is not standing within the public right-of-way, but on private property. Compliance with the Village's solicitation and other applicable ordinances is required.

(13) Temporary signs, including, but not limited to, yard signs, temporary wall signs, and temporary window signs, in accordance with the provisions of sections 38-230 and 38-231, unless otherwise prohibited by or provided in this article.

(14) Temporary, seasonal decorations that are displayed in a manner that does not promote commercial activity, and that are commonly associated with any national, local or religious holiday.

(15) Signs not visible beyond the boundaries of the premises upon which they are located, or from any road or public right-of-way.

(16) Any sign located completely inside an enclosed building and not visible from outside the building.

(Code 1996, § 155.04; Ord. No. 14.21, 5-23-2018)

Sec. 38-229. Signs prohibited in all districts.

The following signs are prohibited in all districts:

(1) Signs not expressly permitted.

(2) Animated, flashing signs or revolving signs with any visible moving/revolving part of any description achieved by electrical, electronic pulsations, or by mechanical means, including intermittent electrical pulsations, or by action of normal wind currents (excludes electronic changeable copy signs, section 38-231(l)) and linear lighting (including neon, fluorescent, rope-lighting and low voltage strip-lighting) primarily intended as an architectural highlight to attract attention or used as means of identification or advertisement.

(3) Signs in the public right-of-way (including person wearing costumes with or without a sign) or on public property, except as specifically permitted by this chapter.

(4) Any sign or sign structure unlawfully installed, erected, maintained or determined to be structurally unsafe, a hazard to safety or health by reason of inadequate maintenance, dilapidation or abandonment, not kept in good repair, capable of causing electrical shocks to persons likely to come in contact with it, or abandoned.

(5) Any sign which by reason of its size, location, content, coloring or manner of illumination, constitutes a traffic hazard or a detriment to traffic safety by obstructing the vision of drivers, or by obstructing, or detracting from the visibility of any traffic sign or control device on public streets and roads. This includes signs with wording such as "stop," "look," "danger," or any other words, phrases, symbols or characters in such a manner as to interfere with, mislead or confuse vehicular traffic.

(6) Any sign which obstructs free ingress/egress to a required door, window, fire escape or other exit way.

(7) Roof signs.

(8) Portable signs, except as otherwise permitted in this article, and banners, flags, balloons or other inflatable objects, pennants, streamers and spinners, except as a banner or flag used as otherwise permitted in this article.

(9) Billboards. The study for billboard regulations in the Village has led to the following conclusions: traffic volume on State Highway M-24 makes this corridor the focus for billboard placement; M-24 is a seriously congested commercial corridor; commercial development on M-24 has occurred with minimal road setbacks; heavy traffic volume and multiple curb cuts contribute to the confusing and dangerous traffic situation; billboards of the typical size and/or height are out of proportion with the small scale of the Village, and would detract from the community's residential/lakefront image; the aesthetic impact of billboard structures impresses heavily on the enjoyment and value of property and the general welfare; billboards have the potential to hinder visibility of driveways, intersections and streets, particularly along the M-24 commercial strip where traffic problems already exist; billboard structures on the smaller lots and parcels within the Village would tend to obstruct motor vehicle sight distance/clear view and be detrimental to the appearance and other aesthetic objectives in the Village; billboards tend to foster places which gather refuse/paper and the dumping of dirt, debris and filth; therefore there is no reasonable location for billboards in the Village.

(10) Signs painted, posted, ingrained, or mounted on trees, rocks, or other natural features, fences, fence posts, telephone/light/utility poles, wireless towers, sidewalks, benches, flower boxes, and perimeter of privacy walls. Notwithstanding, such signs less than two square feet in area shall be allowed without a permit in the RL and RV districts on lots containing a single-family dwelling.

Sec. 38-231. Regulations for specific sign types.

Wall signs painted on a building wall shall not be permitted unless approved by the Planning Commission by site plan approval, or as a mural.

(2) *Height limit.* A wall sign affixed flat or applied to the surface of a wall shall not exceed the height of the wall to which it is attached.

(Code 1996, § 155.07; Ord. No. 14.21, 5-23-2018)

Sec. 38-232. Abandoned, damaged, illegal and unsafe signs.

Any person, firm or corporation determined to have been in violation of the provisions of this article shall be responsible for a municipal civil infraction and subject to the provisions of section 1-18(1)b. The Village shall be absolved of all liability caused by or resulting from the removal of such signs. If any confiscated damaged, illegal, unsafe, and abandoned sign is not claimed and collected by the owner and all fines and costs associated with confiscation of said sign are not paid within 14 days, it shall be destroyed.

(1) *Damaged signs.* Damaged signs shall be secured, repaired, replaced or removed by the owner, agent or person having the beneficial use of the building or structure upon

which the damaged sign is located. Damaged signs may be removed by the Zoning Administrator at the expense of the sign or property owner after that owner has been ordered in writing to remove or replace the sign by the Zoning Administrator and has not done so within ten days of the order's deadline. Repairs to damaged signs must be completed within 30 days.

(2) *Illegal signs.* Illegal signs may be removed by the Zoning Administrator at the expense of the sign or property owner after that owner has been ordered in writing to remove the sign by the Zoning Administrator and has not done so within 30 days.

(Code 1996, § 155.08; Ord. No. 14.21, 5-23-2018)

Sec. 38-233. Permits.

(a) *Permits required.*

(1) No sign shall be erected, or affixed or applied to any structure, constructed, altered or relocated without first obtaining a permit from the Village and making payment for such fee as established by Village Council, except the following:

a. Signs specified in section 38-228, signs permitted in all districts without a sign permit, and those specifically exempted under other sections of this article.

b. A permit is not required for minor repairs, painting, servicing or cleaning of an existing sign, provided that the sign is restored to its original design and all work is in compliance with this article and all other Village ordinances.

(2) For each sign application which requires Planning Commission review, the Village Clerk shall, by first class mail, give notice of the receipt of the application and of the time and place at which said application will be reviewed by the Planning Commission, not less than 15 days prior to said Planning Commission meeting. The notice shall be sent to all owners of record of property listed on the most recent assessment roll whose property is located within 100 feet of the boundaries of said application property. If a public hearing is required, the notice shall also be published in a newspaper of record in the Village, not less than 15 days prior to the hearing.

(b) *Application.* An applicant for a sign permit shall complete an application form supplied by the Village. The application shall be accompanied by plans, drawings, and specifications necessary to fully describe the type, size, shape, construction and materials of the sign, along with a location map, showing exactly where the sign will be placed on the building, or in proximity to zoning lot structures/lot lines. A legible rendering of the proposed sign, showing colors, letter relationships, letter type and all features of the sign, is required.

(c) *Inspection fees.* At the time of permit issuance, the applicant shall pay an inspection fee as established by the Village Council per sign to defray the cost of inspecting signs for article compliance.

(d) *License and insurance.* Every person who engages in the business of erecting, altering or dismantling signs in the Village shall first submit proof of appropriate licenses and a liability insurance policy that indemnifies the Village and its prior, present and future officials, representatives and employees from all damage suits or actions of every nature brought or claimed against the erector for injuries or damages to persons or property sustained by any person or persons through any act of omission or negligence of said erector, and their servants, agents or employees. Said policy shall contain a clause whereby it cannot be cancelled or changed until after written notice has been filed with the Zoning Administrator at least 30 days prior to the date of cancellation.

(e) *Permit.* The Zoning Administrator shall issue a permit for the sign upon determining that the proposed sign meets the requirements of this and any other applicable Village ordinance and after payment is collected.
(Code 1996, § 155.09; Ord. No. 14.21, 5-23-2018)

Sec. 38-234. Variance authority.

(a) *Generally.*

(1) The Board of Zoning Appeals (BZA), pursuant to the Village zoning ordinance, shall be authorized to grant variances and hear appeals regarding any sign regulation from an interpretation or administrative decision of an official of the Village or a decision made by the Planning Commission.

(2) Except as modified herein, the application notice processes and proceedings shall be as provided in the Village zoning ordinance. Such a variance request shall be published in a newspaper of general circulation a minimum of five days and maximum of 15 days prior to the scheduled meeting and notice shall be sent to all properties within 100 feet of the site for which a variance is requested.

(b) *Required findings.* The BZA shall determine whether the application shall be granted for a variance upon a showing of the following:

(1) The variance would not be contrary to the public interest or general purpose and intent of this article;

(2) The variance does not adversely affect properties in the immediate vicinity of the proposed sign; and

(3) The petitioner has a practical difficulty resulting from the unusual characteristics of the property that precludes reasonable use of the property.

(c) *Considerations.* When determining whether an application complies with the variance standards set forth in subsection (b) of this section, the BZA shall consider the following; however, the BZA may decline to grant a variance even if the following considerations exist:

(1) Permitted signage could not be easily seen by passing motorists due to the configuration of existing buildings, trees, or other obstructions, which cannot be legally and/or practically removed.

(2) Permitted signage could not be seen by passing motorists in sufficient time to permit safe deceleration and exit. In determining whether such circumstances exist, the BZA shall consider the width of the road, the number of moving lanes, the volume of traffic, and speed limits.

(3) Existing signs on nearby parcels would substantially reduce the visibility or advertising impact of a conforming sign on the premises.

(4) A conforming sign would require removal/severe alteration to natural features on the premises, including tree removal, natural topography alteration, wetland filling, or natural drainage course obstruction.

(5) A conforming sign would obstruct the vision of motorists or otherwise endanger the health or safety of passersby.

(6) The sign is clearly distinguishable from public safety and traffic signs so as to not cause confusion or mislead the public.

(7) The sign is compatible in appearance with the visual character of the surrounding area, e.g., scale and placement to the building, color relationships, and dissimilarity of shape and lettering.

(8) Such a sign variance may further be granted in those instances in which there has been a demonstrated showing by the applicant that the particular sign sought to be approved is suitable to the Village or has some value that comports with the history or development of the community and would not, if a variance were granted, be materially in conflict with applicable underlying district regulations.

(d) *Appeals.* As provided in the Village zoning ordinance, any applicant who is denied relief hereunder has the right to an appeal to the county circuit court within the applicable limits established by this article or state law. Such an appeal will only be on the basis of the decision from which the appeal has been taken.
(Code 1996, § 155.10; Ord. No. 14.21, 5-23-2018)

Sec. 38-235. Nonconforming signs.

(a) *Elimination of nonconforming signs.* The nonconforming regulations established in the zoning ordinance for nonconforming structures shall not be applicable to signs which exist on the effective date of the ordinance from which this article is derived where those signs fail to comply with the provisions described herein. The Village may acquire by purchase, condemnation, or other means any nonconforming sign which it deems necessary to preserve the health, safety, and welfare of the residents. The elimination of nonconforming signs is a public purpose and a public service for the following reasons:

(1) They constitute a nuisance to the Village resulting from their incompatibility due to excessive size, poor location, relationship to existing structures, excessive quantity in a small geographic area;

(2) They are detrimental to the public health, safety and welfare arising from quantity, location and bulk having an adverse or detrimental impact upon police and fire protection, causing confusion for motorists; and blocking signage on adjoining lots;

(3) They are incompatible with the adopted sign regulations governing sign location, size, placement and features which have been deemed necessary for public purposes;

(4) Technological advancements in signage have created the opportunity to locate places quicker, minimize maintenance, enhance safety and decrease size requirements;

(5) Readability is limited due to the ill-proportioned nature of many older nonconforming signs, whereas technological advancements often allows instantaneous information or format enhancing readability; and

(6) Age has resulted in the physical deterioration of the signs and thus no longer represents the desired aesthetic conducive to a particular district.

(b) *Nonconforming regulations.* Nonconforming signs shall not be:

(1) Expanded, replaced or changed to another nonconforming sign.

(2) Relocated or altered so as to prolong the life of the sign, or so as to change the shape, size, type, placement, or design of the sign's structural or basic parts.

(3) Enhanced with any new feature including the addition of illumination.

(4) Repaired, except if such repair brings the sign into article conformance, if such repair necessitates:

a. An expense that exceeds 50 percent of the sign's value, as determined by the Village; or

b. The replacement of the sign's primary support pole, frame or other support structure.

(5) Re-established after the activity, business, or use which it represents has been discontinued for 180 consecutive days or longer, in which case the sign shall be deemed to be abandoned, per section 38-232.

(c) *Permitted modifications.* A nonconforming sign may be modified only by a change in the wording of the copy or routine repair to maintain the sign in a safe and aesthetically attractive condition as it existed at the time of the enactment of the ordinance from which this chapter is derived.

(Code 1996, § 157.05; Ord. No. 25.04, 11-25-1996)

Sec. 38-269. Village Council review; preliminary plat; tentative approval.

Upon receipt of copies of a proposed plat for tentative approval, the Village Clerk, on behalf of the Village Council, shall forward copies to the Planning Commission, the Village Planner and the Village Engineer for recommendation. The Planning Commission shall examine the proposed preliminary plat with assistance and review of the Village Planner, Village Engineer and Village Attorney as the Planning Commission and Village Council may require. Upon

recommendation by the Planning Commission, the Village Council shall determine whether the proposed preliminary plat complies with all Village ordinances and state statutes and makes adequate provision of the following:

(1) *Streets.*

a. Compliance with the major street thoroughfare plan adopted by the Village.

b. The arrangement of streets shall provide for a continuation of existing streets from adjoining areas into the new subdivision.

c. Where adjoining areas are not subdivided, the arrangement of streets in the proposed subdivision shall be extended to the boundary line of the tract to provide for the future projection of streets into adjoining areas. However, minor streets within the subdivision shall be so laid out that their use by through traffic will be discouraged.

d. Where the proposed subdivision abuts or contains a county primary road or major thoroughfare as defined in the Village master plan or the Village major thoroughfare plan, the Village Council may require marginal access streets approximately parallel to the right-of-way of the primary road or major thoroughfare and may require such other improvements as are deemed necessary for the adequate protection of residential properties and to afford separation of through and local traffic.

e. Private streets may be permitted by the Village Council if the Village Council finds that private streets within the plat will not adversely affect public health, safety or welfare.

f. All new streets shall be named as follows: Streets with predominant north-south direction shall be named "Street," and streets with predominant east-west direction shall be named "Avenue"; meandering streets shall be named "Drive," "Lane," "Path," "Road" or "Trail"; and cul-de-sacs shall be named "Circle," "Court," "Way" or "Place."

g. Streets should intersect at a 90-degree angle or closely thereto and in no case less than 80 degrees.

h. Where the proposed continuation of a street at an intersection is not in alignment with an existing street, it must not intersect with the cross street closer than 175 feet from the opposite existing street, as measured from the centerline of said streets.

i. The maximum length allowed for residential blocks shall be 1,000 feet.

j. All primary road rights-of-way, as designated by the Village Council, within or abutting plats hereafter recorded, shall provide a 50-foot half-width. All other rights-of-way within or abutting such plats shall be not less than 66 feet in width.

Permanent dead-end streets in excess of 660 feet in length shall be prohibited except upon prior approval of the Village Council, to be granted only where the topography of the area, rivers, streams, other natural conditions or the prior development of the area prevents a through street from being constructed.

k. A subdivision or extension of an existing subdivision creating a total of 25 or more lots must be developed to provide two or more access streets.

(2) *Lots.*

a. All lots shall be created consistent with the dimensional and area requirements of the zoning code, adopted in article V of this chapter, being Ordinance Nos. 26.01 through 26.64 and all amendments thereto.

b. Corner lots shall be created with additional width to permit front yard setback requirements to be attained from both streets.

(3) *General provisions.*

a. Privately held reserve strips controlling access to streets shall be prohibited.

b. Existing natural features which add value to residential development and that enhance the attractiveness of the community (such as streams, water courses, historic spots and similar irreplaceable assets) shall be preserved insofar as possible in the design of the subdivision. The requirements of the floodplain development regulations shall be complied with in creation of subdivisions under these regulations.

c. Lands subject to flooding or otherwise determined by the Village to be uninhabitable shall not be platted for residential or nonresidential purposes. Such lands within a subdivision may be set aside for other purposes such as parks and open space.

d. If the Village Council determines that the proposed preliminary plat complies with all applicable ordinances and statutes and the provisions set forth above, it shall grant tentative approval of the preliminary plat. Approval shall confer upon the proprietor for a period of one year from date of approval, approval of lot sizes, lot orientation and street layout. Tentative approval may be extended for an additional year, in the discretion of the Village Council, upon application of the proprietor.

(Code 1996, § 157.06; Ord. No. 25.04, 11-25-1996)

Sec. 38-270. Submission of preliminary plat for final approval.

Every person, firm or corporation which shall hereafter submit copies of a proposed preliminary plat to the Village Council for final approval shall submit the following relevant data and fees:

(1) Evidence that all requirements imposed by the Village Council at the time of granting tentative approval have been incorporated into the proposed plan.

(2) Detailed working drawings showing grades, drainage structures, proposed utilities and road construction plans for public and/or private roads within and adjoining the plat. Prior to submitting copies of the preliminary plat to the Village Council for final approval, the developer shall document consultation with the Village Engineer and all public utilities which will be servicing the subdivision to resolve any conflicts in location between public utility facilities and other improvements. A preliminary plat shall not be accepted for review by the Village Council unless the Village Engineer has approved construction plans for the plat.

(3) A fee in an amount as established by resolution of the Village Council adequate to pay the cost of reviewing the proposed plat.

(Code 1996, § 157.07; Ord. No. 25.04, 11-25-1996)

Sec. 38-271. Village Council review; preliminary plat final approval.

(a) Upon receipt of all required copies of the preliminary plat for final approval, the Village Council shall examine the same with such assistance and review by the Planning Commission, Village Planner, Village Engineer, Village Attorney and advice from other experts as the Village Council may request. Upon completing its review, the Village Council shall determine whether said proposed preliminary plat complies with the requirements imposed by the Village Council at the time of tentative approval and that the proprietor has obtained the required statutory approval of other governmental agencies and in addition, meets the following requirements:

(1) All road grades shall not exceed a seven percent grade or be less than a one-half percent grade except upon approval by the Village Engineer.

(2) All grades in excess of three percent shall require installation of curb and gutter. The curb and gutter to be set apart not less than 27 feet as measured from back to back of the opposite curbs and fully paved between the lip of the gutters.

(3) All road rights-of-way within or abutting such plat shall be constructed with a base of not less than six inches of compacted 21AA stone or eight inches of compacted 22A stone. The stone base shall be not less than 24 feet wide and shall be covered with not less than three inches of bituminous aggregate pavement, 20 feet wide. In the event the minimum county road commission requirements are greater and will result in a more durable road, the Village may require the proprietor to utilize the county road commission standards rather than the other construction requirements indicated in this subsection.

(4) All rights-of-way shall be graded to the full width thereof for proper drainage and prospective future widening and improving. Road grading shall be accomplished so as to establish a 0.5 foot higher elevation at the boundary of the right-of-way than at the crown of the traveled roadway. All trees or other obstructions within the right-of-way which interfere with the grading and/or drainage shall be removed. The foregoing

0.5-foot elevation and tree and obstruction removal may be varied or adjusted by the Village Council upon recommendation of the Village Engineer where valuable trees or obstacles are involved and as long as drainage and safety will not be impaired.

(5) Permanent dead-end streets shall be provided at the closed end with a turnaround having an outside improved roadway diameter of at least 100 feet as measured from the centerline of the gutter or back-of-curb and a street right-of-way diameter of at least 120 feet. Temporary dead-end streets shall be provided at the closed end with a turn-around constructed the full width of the right-of-way.

(6) All surface waters shall be adequately drained within each plat by a separate system of drainage structures or through the connection of such separate system to an adequate adjoining system. Where storm sewers are used, inlet basins must not be spaced further then 600 feet apart. The determination of what is equivalent and sufficient drainage shall be left to the Village Council upon the recommendation of the Village Engineer.

(7) Connection to sanitary sewers and water mains will be required by the Village Council.

(8) In the discretion of the Village Council, the proprietor shall make arrangements for all distribution lines for telephone, electric, television and other similar services distributed by wire or cable to be placed underground entirely through the residential subdivided area. Electric distribution lines shall be defined in accordance with the rules and regulations promulgated by the state public service commission. Such conduits or cables shall be placed within private easements provided to such service companies by the proprietor or within dedicated public ways. All such facilities placed in dedicated public ways shall be planned so as not to conflict with other underground utilities. All such facilities shall be constructed in accordance with standards of construction approved by the state public service commission. Private easements for underground utilities shall be shown on the preliminary plat.

(9) Stormwater disposal methods proposed for the subdivision must be adequate to ensure each building site and the roadway will not be flooded. All necessary easements for storm sewers or open drains that can feasibly be dedicated to the public for such purposes shall be dedicated at the option of the Village. Onsite water detention must meet the requirements of the office of the county water resources commissioner.

(10) No land within the subdivision may be isolated from a public thoroughfare nor may any adjoining land of the proprietor or others be isolated from a public thoroughfare thereby creating landlocked parcels.

(11) Street lighting may be required by the Village Council when the Council determines that street lighting is necessary for public health, safety and welfare.

(12) Pedestrian and bicycle paths may be required by the Village Council when the Village Council determines, in its opinion, that paths are necessary for pedestrian safety, public health, and welfare. When required, paths shall be constructed of concrete or asphalt, five feet in width, four inches in depth, upon a two inch minimum sand base.

(b) The Village Council shall complete the review and consideration of the proposed preliminary plat submitted for final approval at the next regular meeting of the Council or within 20 days after the date of submittal of the proposed preliminary plat. If the Village Council determines that the preliminary plat has obtained the required statutory approval of other governmental agencies and complies with the requirements set forth in this division, the Village Council shall grant final approval of the preliminary plat which shall confer upon the proprietor for a period of two years from date of approval the conditional right that the general terms and conditions under which said approval was granted will not be changed. The two-year period may be extended in the discretion of the Village Council upon application by the proprietor.
(Code 1996, § 157.08; Ord. No. 25.04, 11-25-1996)

Sec. 38-272. Submission of final plat for final approval.

Every person, firm or corporation which shall hereafter submit a proposed final plat to the Village Council for final approval shall also submit the following relevant data and fees:

(1) An abstract of title or title insurance policy showing merchantable title in the proprietor of the subdivision.

(2) A fee in an amount as established by resolution of the Village Council adequate to pay the cost of reviewing the proposed plat.

(3) Other information as may be required by state and federal regulations.
(Code 1996, § 157.09; Ord. No. 25.04, 11-25-1996)

Sec. 38-273. Village Council review; final plat; final approval.

The Village Council shall review the proposed final plat and determine that:

(1) All monuments required to be placed in the subdivision have either been placed or a cash or equivalent deposit has been made with the Village and a deposit agreement executed by the proprietors.

(2) All roads, streets, bridges and culverts have been completed and installed or a cash or equivalent deposit has been made with the Village and a deposit agreement executed by the proprietors.

(3) If the subdivision has any county drains, or other waterways, as set forth in MCL 560.188, all such county drains and waterways shall be installed or a cash or equivalent deposit made to the Village and a deposit agreement executed by the proprietors.

(4) If any floodplains are involved in the proposed subdivision, then such floodplains shall be restricted as provided in the land division act, MCL 560.101 et seq. and the Village floodplain regulations set forth in this Code, and such restrictions shall be submitted to the Village Council for review and approval prior to recording and thereafter shall be recorded in the office of the county register of deeds contemporaneously with the recording of the plat.

(Code 1996, § 157.10; Ord. No. 25.04, 11-25-1996)

Sec. 38-274. Land divisions not requiring platting.

Dividing and partitioning land outside the boundaries of a subdivision as regulated by this division shall be consistent with the provisions of division 3 of this article.

(Code 1996, § 157.11; Ord. No. 25.04, 11-25-1996)

Sec. 38-275. Variances.

Proposed subdivisions shall comply with the requirements of this division and all other applicable requirements of the Village, county and state. In the event that unusual hardships or unique circumstances exist that make compliance with this division impractical or impossible, the applicant shall use the following procedure to request a variance from the strict enforcement of these regulations:

(1) Prior to final approval of the preliminary plat, the applicant shall state his request for a variance in writing. The written request shall be submitted to the office of the Village Clerk not less than 14 days prior to a scheduled meeting of the Planning Commission. The written request shall be accompanied by such reasonable fees as the Village Council may establish to defray the costs of review by Village representatives. The Village Clerk shall transmit a properly prepared variance request to the Planning Commission.

(2) After receipt of a variance request, the request shall be placed on the agenda of the Planning Commission for the next regularly scheduled meeting. The Planning Commission shall schedule a public hearing on the request. Notice of the hearing shall be provided to all owners of record of real property located within 300 feet of the proposed subdivision site boundaries. The notices shall be delivered personally or by mail not less than five days before the date set for the hearing.

(3) The Planning Commission shall submit to the Village Council its findings on the existence of any extraordinary hardships, practical difficulties or unique circumstances that will result from the strict enforcement of these regulations. If the Planning Commission finds the requested variance will not compromise the public interest or the intent of this division, the Planning Commission may recommend to the Village

Council approval of a variance to these regulations. The Planning Commission may recommend conditions to the variance consistent with the objectives of these regulations.

(4) The Village Council may grant a variance if the Council finds that:

a. The variance will not be detrimental to the public, health, safety and general welfare nor injurious to other property.

b. The conditions underlying the variance request are unique to the property and are not generally applicable to other property.

c. Due to particular characteristics, shape or topographical conditions of the property, a particular hardship to the owner, as distinguished from inconvenience or monetary loss, will result if these regulations are enforced.

d. The variance will not violate the requirements of the zoning code, being Ordinance Nos. 26.01 through 26.64 and all amendments thereto; master plan; and land division act, MCL 560.101 et seq. or any other applicable law or regulation.

(5) In approving a variance, the Village Council may impose conditions to the variance consistent with the objectives of these regulations.

(6) If the variance request is denied, any further appeal shall be in accordance with the procedures set forth in the zoning code, adopted in article V of this chapter, being Ordinance Nos. 26.01 through 26.64 and all amendments thereto.

Sec. 38-304. Standards for granting approval.

The following standards shall be used as the basis upon which applications for the division or partitioning of land are reviewed and approved:

(1) *Compliance with state law.* An application for division or partitioning of land shall not be approved unless it is in compliance with the land division act, MCL 560.101 et seq. The Village may permit the dividing or partitioning of lots, outlots or other parcels of land into not more than four parts; however, any lot, outlot or other parcel of land not served by public sewer and public water systems shall not be further partitioned or divided if the resulting lots, outlots or other parcels are less than the minimum width and area provided for in the land division act, MCL 560.101 et seq. A lot which is a part of a recorded plat may not be divided or partitioned into more than four parts in perpetuity. An acreage parcel may be divided or partitioned as provided in the land division act, MCL 560.101 et seq.

(2) *Lot dimensional requirements.* All parcels created as a result of division or partitioning of land shall comply with the minimum lot dimensional requirements, including lot size and lot width, minimum yard setback requirements and lot coverage requirements of the current Village zoning ordinance, adopted in article V of this chapter, except in the following circumstances:

   a. Where the proposed division or partitioning of land would reduce the degree of existing nonconformity with zoning ordinance standards; or

   b. Where the nonconforming parcel created as a result of the division or partitioning of land is intended to be combined with additional land for the purposes of creating a building site that conforms with the zoning ordinance requirements.

(3) *Taxes or assessment liens.* Any due or unpaid taxes, special assessments upon the property, or any amounts due to the municipality relating to the land which is the subject of the application, such as, but not limited to, charges for water service, sanitary sewer service, and trash collection service, shall be paid before the division or partitioning of land is given final approval.

(4) *Depth to width ratio.* Wherever possible, the depth to width ratio of a parcel created through land division or partitioning shall not exceed 3:1.

(5) *Disruption to flow of water.* No division or partitioning of land shall be approved if subsequent development would result in disruption to the existing or natural flow of water within drainage ditches, natural water courses, or government maintained drains, unless evidence of a feasible alternate method of drainage is presented.

(6) *Consideration of deed restrictions.* The effect of proposed division or partitioning of land on deed restrictions shall be considered by the Village Manager, Planning Commission and Village Council in their review of the application. However, such deed restrictions shall not be binding upon the Village under this subchapter.

(7) *Consent of the title holder.* No division or partitioning of land shall be approved without the consent of the title or deed holder of the subject parcel.

(8) *Character of surrounding development.* In reviewing an application for division or partitioning of land, the Village Manager, Planning Commission and Village Council shall consider the impact of subsequent construction on the character of surrounding development. In evaluating character of surrounding development, the Village Manager, Planning Commission and Village Council shall consider the size, dimensions, and proportions of existing surrounding parcels.

(9) *Parking requirements.* An application for division or partitioning of land shall not be approved if it would result in a loss of parking such that development on any of the resulting parcels would be unable to comply with the minimum parking requirements in the zoning ordinance.

(10) *Access.* An application for division or partitioning of land shall not be approved unless all parcels created as a result of such division or partitioning have direct frontage upon a paved public road or a private road. Accessibility to each newly created parcel must be directly from the public or private road and not by easement across another parcel or lot.

(11) *Public facilities.*

a. An application for division or partitioning of land shall not be approved unless the resulting parcels are served by public facilities, including, but not limited to, water, sanitary sewer, and paved rights-of-way.

b. As a condition of approval, the Village Council may require the applicant to install public facilities in accordance with specifications established by the Village, or to guarantee the installation of public facilities in the form of a cash performance bond or an irrevocable letter of credit running in the favor of the Village, in the amount of the estimated cost of the installation of the public facilities, together with the estimated cost of the review by the Village Engineers of the

applicant's proposed plans for the installation of the public facilities. The entire cost of installation of public facilities, including the cost of the Village Engineer's review plans and inspection of construction, shall be the responsibility of the applicant.

c. In extraordinary situations, as determined by the Village Council, where properties cannot feasibly be served by public facilities, and the Village Council issues a waiver of the requirement of resulting parcels being served by public facilities, then the minimum width and area of resulting parcels as required in the land division act, MCL 560.101 et seq.

COUNCIL ACTION SUMMARY SHEET

MEETING DATE: June 8, 2026

TOPIC Introduction and First Reading – Amendments to Chapter 53 – Outdoor Irrigation Metering

BACKGROUND BRIEF:

Pursuant to the direction of the Village Council, Administration has prepared a proposed ordinance permitting the Village's water and sewer customers to install outdoor irrigation meters to be able to deduct outdoor water consumption from sanitary sewer charges. The proposed ordinance accomplishes the following:

- Authorizes separate outdoor irrigation metering
- Establishes the process and procedures for application, installation, and approval of outdoor irrigation meters
- Establishes the process and procedures for reading irrigation meters, adjusting sewerage bills, and reversion of billing if irrigation lines or meters are modified or bypassed without approval
- Establishes maintenance, ownership, and responsibility for irrigation meters by the Village, and protection of irrigation meters; prohibits tampering with irrigation meters, seals, or services lines; and establishes penalties for tampering
- Requires compliance with cross-connection and backflow prevention control regulations of the Village and State
- Provides for enforcement, penalties, and service termination for noncompliance
- Authorizes the setting of fees by resolution of Council for application for separate irrigation meters, irrigation meter installation or deposit, meter testing, turn-off and turn-on, late payments, backflow prevention device inspections or verification, and other fees

Attached is the proposed ordinance for consideration by the Village Council.

It should be noted that outdoor irrigation metering under this proposed ordinance will be permitted for all customers, whether residential, commercial, or industrial.

SUMMARY OF PREVIOUS COUNCIL ACTION:

10/27/2025 – Council directed the Village Manager to come up with a proposal for separate metering for irrigation systems and the cost of that for a resident with any additional costs for the Village for that.

11/24/2025 – Council reviewed the rough draft for an ordinance permitting outdoor irrigation and separate metering and directed the Village Manager to proceed to have the Village Attorney prepare the outdoor irrigation metering ordinance in final form. Work on this ordinance was subsequently delayed as a result of changes in legal firms.

FINANCIAL IMPACT:

The Village's Water and Sewer System will realize a reduction in sewer use revenue as a result of the deduction of outdoor watering from sewer billings. The lower sewerage consumption may result in higher sewer commodity rates in the future to recoup the revenue loss.

RECOMMENDED MOTION:

To introduce and give first reading to an ordinance amending Chapter 53 – Water to permit the metering of outdoor irrigation and the adjustment of sanitary sewer bills accordingly; to schedule the ordinance for second reading and consideration for adoption at the Village Council's July 13, 2026, regular meeting; and to direct the Village Clerk to publish the required notice of the same.

COUNTY OF OAKLAND

VILLAGE OF LAKE ORION

ORDINANCE NO _____

An Ordinance to Amend Chapter 53: Water, adding § 53.14 to establish a Secondary (Deduct) Water Meter Program for Irrigation and Non-Sewered Water Uses

THE VILLAGE OF LAKE ORION ORDAINS:

CHAPTER 53: WATER

The Village General Ordinance is amended as follows:

§53.14 SECONDARY (DEDUCT) WATER METER PROGRAM FOR IRRIGATION AND NON-SEWERED WATER USES

(A) *Purpose and Intent*. The purpose of this Ordinance is to establish a secondary (deduct) water meter program for the Village of Lake Orion in order to ensure fair and equitable billing of water and sanitary sewer charges. This Ordinance allows water used for irrigation and other approved non-sewered purposes to be excluded from sanitary sewer billing, provided such use is accurately measured through a properly installed and approved secondary water meter.

(B) *Definitions*. For the purposes of this Ordinance, the following terms shall have the meanings indicated:

1. Primary Water Meter: The water meter installed by the Village that measures total potable water consumption to a property.

2. Secondary Water Meter (Deduct Meter): A water meter approved by the Village and installed downstream of the primary water meter to measure water usage that does not enter the sanitary sewer system.

3. Irrigation Use: Water used for irrigating lawns, landscaping, or gardens that does not discharge into the sanitary sewer system.

(C) *Authorization of Secondary Water Meters*

1. The Village hereby authorizes the installation and use of secondary (deduct) water meters for residential and non-residential properties where a portion of water consumption does not discharge into the sanitary sewer system.

2. The secondary meter shall be used solely to measure Irrigation Use.

3. No sanitary sewer charges shall be assessed on water usage recorded by an approved secondary meter.

(D) *Eligibility*

1. Property owners requesting a secondary meter must be connected to both the Village water and sanitary sewer systems.

2. Secondary meters shall not be permitted for uses that discharge water to the sanitary sewer system, including but not limited to indoor plumbing fixtures, sump pumps, or drainage systems.

3. The DPW Director may deny or revoke approval if the installation or use does not comply with this Ordinance.

(E) *Installation Requirements*

1. All secondary meters shall:

(a) be purchased through the Village or from a vendor approved by the Village;

(b) be of a size, model, and specification approved by the DPW director;

(c) be installed by a licensed plumber at the property owner's expense; and

(d) be installed in a location approved by the DPW Director and subject to inspection prior to activation.

2. The secondary meter shall be installed downstream of the primary water meter and shall exclusively serve the approved non-sewered use.

3. Cross-Connection Prohibition and Control:

(a) no cross-connection, interconnection, or bypass shall exist between the secondary (deduct) meter system and any plumbing fixtures, piping, or systems that discharge to the sanitary sewer;

(b) the secondary meter system shall be physically isolated from the potable water distribution system serving indoor plumbing, except at the point approved by the DPW director;

(c) backflow prevention devices, air gaps, or other cross-connection control measures shall be installed where required by the Michigan Plumbing Code, the Village Code, or as directed by the DPW director; and

(d) The presence of any unapproved cross-connection shall constitute a violation of this Ordinance and may result in immediate suspension of deduct billing and/or water service, in addition to other penalties provided by law.

4. No cross-connections between the secondary meter and the sanitary sewer system shall be permitted.

(F) *Inspection and Approval*

1. All secondary meter installations shall be inspected by the Village prior to use.

2. The Village reserves the right to inspect the secondary meter at any reasonable time to ensure compliance.

3. If a secondary meter is found to be tampered with, bypassed, or improperly used, the Village may discontinue deduct billing and assess sewer charges retroactively.

(G) *Billing and Rates*

1. Water usage recorded on the primary water meter shall be billed at the applicable water rate.

2. Sanitary sewer charges shall be calculated as follows:

(a) Sewer charges shall be based on total water usage minus the volume recorded on the approved secondary meter;

(b) The property owner shall be responsible for all applicable fees, including but not limited to:

(i) meter purchase cost;

(ii) installation and inspection fees; and

(iii) ongoing meter maintenance and replacement costs.

(H) *Maintenance and Responsibility*

1. The property owner shall be solely responsible for the maintenance, repair, and replacement of the secondary meter.

2. Failure of the secondary meter to register usage accurately shall result in sewer charges being based on the primary meter until repairs are made and verified.

(I) *Violations and Penalties*

1. A. Any violation of this Ordinance shall be subject to penalties as provided in the Village Code.

2. In addition to fines, the Village may recover costs associated with enforcement, inspections, reasonably estimated water and/or sewer charges, and corrective actions.

(J) *Severability*. If any section, clause, or provision of this Ordinance is declared invalid, such declaration shall not affect the remaining portions of the Ordinance.

(K) *Repeal of Conflicting Ordinances*. All ordinances or parts of ordinances in conflict with this Ordinance are hereby repealed to the extent of such conflict.

(L) *Effective Date*. This Ordinance shall take effect following adoption and publication as required by law.

Amended only as specified above and in the Chapters specified, the Code of Lake Orion shall remain in full force and effect.

A synopsis of this ordinance passed by the Council shall be published at least once in some legal newspaper of general circulation in the village within fifteen (15) days after its adoption by the Council. This ordinance shall become effective immediately upon the publication of said synopsis after having been passed. If any provision of this Ordinance is held invalid, the invalidity does not affect other provisions that can be given effect without the invalid provision.

COUNCIL ACTION SUMMARY SHEET

MEETING DATE: June 8, 2026

TOPIC Live Streaming and Recording of Special Meetings-Dandalides request

BACKGROUND BRIEF:

At the May 28, 2026 Village Council meeting, Council Member Dandalides requested that Village Administration place on a future agenda a discussion regarding the location of special meetings and the potential use of Council Chambers for all special meetings to utilize the Village's live-streaming and recording capabilities.

To provide additional information for Council's consideration, Clerk/Treasurer Stout contacted Ian Locke of ONTV regarding the feasibility and requirements associated with holding special meetings in Council Chambers. Mr. Locke has provided a response, which is attached for Council's review.

Darwin,

Please add a topic to the June 8th council meeting to discuss having all public council meetings (regular and special) live-streamed and recorded (both video and audio) unless specifically determined and directed otherwise by council for a specific meeting.

Thanks,

George

George:

I do not recall that Council ever made a decision on having all special meetings in the Council Chambers, but the Council did make that determination for the goal setting and budget work sessions. Council did ask us to look into being able to live stream and record from the conference room, and I consulted with ONTV regarding that option. ONTV cannot live stream from the conference room but can record and broadcast later from that room if we install proper video and audio equipment and record to an appropriate file format (I believe MP3 or MP4).

In any case, we can plan to have these work sessions in the Council Chambers if Council desires. Sonja can reach out to Council Members individually to determine their preference. Sonja, will you please reach out to Council Members to inquire?

Subject: Re: Meetings

Sonja-

Great questions!

Viewership
We find that most views come from our VOD and Youtube files after the meeting concludes. Viewership rises when "hot" topics of interest to the community are on the agenda.
We have had school board meetings get 2,000 live watches with another 100 on the VODs. We've had Village meetings have 10 live viewers, but 200 VOD views (which is a high number).

Your meeting on Monday 3/9 had a minimum of 110 live viewers on our webstream during 7:30pm to 10:30pm. LONG meeting.

The televised meetings have been promoted and advertised for so long at their current times, we do know more people will watch during the 7pm to 9pm window out of habit.
Any meetings held during working hours will guarantee low live viewership.

We tell the government agencies not to worry about how many are watching. It's too unpredictable. People are always tuning in on cable too (which we can not get audience numbers for). Think of it as serving the residents who can not attend the meetings in person.
Just recording the meetings is a big deal.

Meeting Schedules
Having the Village special meetings before the regular Village Council meetings works well for ONTV.
We have two tiers of meetings: 1) Primary and 2) Secondary

Primary meetings are Village Council, Township Board of Trustees, and School Board

Primary meetings are always scheduled to be seen on all of our viewing platforms: Comcast CH20, UVerse CH99, GOV Webstream, Apple TV, Fire TV, and ROKU.

Secondary meetings are TWP ZBA, Village Planning Commission, Village Board of Ethics.

The "Secondary" label is used only for days when we have two meetings scheduled for that same time slot or overlap with one another.
Secondary meetings are, to the best of our ability, live streamed on our Youtube channel. EX: TWP ZBA on 3/9 on YT had 1 view as of this morning.

If a Village special meeting has its own day then it will be seen as a primary meeting carried viewing platforms.

Open Days for Special Meetings

Primary Meeting Dates
1st,2nd,4th Tuesdays of the month are wide open
2nd,3rd,4th Thursdays of the month are wide open
2nd Wednesday of the month wide open

Secondary Meeting Dates (live on orionONTV.org via Youtube stream)
1st,3rd Wednesdays of the month wide open.

Meeting time availability is up to you. We prefer morning meetings to start around 10am, but we have covered meetings starting at
8am, 9am, 11am, etc. Some of these special meetings last as short as 6min and as long as 2hrs.

We accommodate your schedule.

Special Meetings Before Regular Meetings

We love these types of special meetings as progression from the special meeting to the regular meeting is quick and easy.
There are no issues with streaming both meetings as they are both considered a Primary meeting.

Transcripts

Yes. We can convert the audio to text of the entire meeting. It's not the best format but it's very accurate and time stamped.
We are processing the meeting from 3/9 now. I'll send you a copy of the transcripted file when it's completed. These are compiled when
I generate the closed captions for the VODs. Not hard at all.

ONTV is here to help the Village with these meetings no matter the time they are scheduled.

FYI...in an emergency, ONTV can actually direct and live stream your meetings from our main studio! We would just need to have
a Village staff member turn on our main production PC. This was set up in the event ONTV's staff was cut due to severe funding cuts.
We've used this feature for Township staff meetings and special meetings where notice was very short.

I hope this helps with the questions and concerns regarding your meeting coverage etc.

Reach out to me anytime with questions or concerns.

Ian

PS: NOTICE:
There are ADA rules coming to our community regarding all government meetings and live captioning. In the past, captioning was an "if you can afford it" rule.

Coming in 2027, it will be a requirement. Through our captioning system we can only live ca
meeting at a time to cable, orionONTV.org webstreams, and ROKU, Fire TV, Apple TV.
Any meeting going to Youtube will be captioned through that platform. PLEASE consider these rules if the Village is planning to hold meetings outside of the main meeting chambers.
In my opinion we have the technology ready to go for any meeting scenario held in the main meeting chambers. Moving meetings to conference rooms or off site (schools have done this in the past) makes it very difficult if not impossible for ONTV
to provide our video services properly with quality. Again, FYI.

If the Council schedules a special meeting in the chambers on the same day that another meeting is already being held, how would that work for streaming? I believe this has come up before, but I don't recall what the outcome was.

3. Call to the Public

Frank Komendera shared his support for the Village of Lake Orion.

4. Other Items

A. Finalize FY 2026-27 Village Council Goals and Objectives

President Rutt stated that Council should review the items flagged by the Village Manager, which included the following objectives requiring additional clarity: Objectives 1.2, 1.4, 2.1, 2.2, 3.2, 4.1 through 4.3, and 4.6. President Rutt noted that Council could review any other goals or objectives as desired but should prioritize the items identified.

Objective 1.2 – Establish a revised process for budget development, including pre-set expenditure targets.
Council decided to eliminate this objective.

Objective 1.3 – Form a committee to investigate and report on Cityhood/Township consolidation.
Council Member Comparoni, Jr. expressed concern that the topic could present an ethical issue. President Rutt and Council Member Dandalides clarified that the intent was to evaluate the potential benefits and drawbacks of consolidation for taxpayers. President Rutt suggested establishing a timeframe for the work, and Council Member Dandalides indicated that the review could be completed through a subcommittee. Chief Amundson emphasized the importance of addressing the matter promptly, noting concerns that ongoing rumors could negatively affect staffing and morale. Council Member Dandalides also requested obtaining a legal opinion. Council Member Lamb discussed the general process for consolidating the Village with the Township.
Council modified the objective to read: *Form a committee to investigate and report on Village/Township consolidation by June 30, 2026.*

Objective 1.4 – Water Usage and Sewer Discharge Analysis.
Council modified the objective to read: *Investigate the imbalance between purchased water usage and sewer discharge and determine and quantify sources of discrepancy by December 31, 2026.*

Objective 2.1 – Analyze 75/25 Infrastructure Funding by June 30, 2026.
The Village Manager inquired whether the goal was to determine how the funds should be spent. President Rutt clarified that the intent was to identify potential projects and align them with the CIP Plan. Council Member Dandalides stated that revenues should be matched with the CIP Plan for the fiscal year. Council Member Dandalides also raised the question of timing relative to CIP planning meetings. The Village Manager explained that CIP discussions typically occur in May or June, and that discussions regarding 75/25 infrastructure funding should occur prior to those meetings.

Objective 2.2 – Investigate Alternative Funding Strategies.
Council discussed whether this objective should remain, noting that evaluating funding strategies is typically an annual process and could potentially fall under the mission, core values, or vision. Council ultimately determined to leave the objective as written.

Objective 3.1 – Children's Park Bridge and Bank Stabilization.
Council determined that these should be separated into two objectives. Objective 3.1 was modified to *Replace Children's Park Bridge.*
Objective 3.2 was modified to *Bank stabilization, prioritizing the most critical areas and identifying the most efficient method to address them.*

Objective 3.3 – Investigate and Plan for the Water Drawdown Structure Repair.
Council discussed revising the wording. The modified objective will read: *Investigate and plan for the Lake drawdown structure repair, including the development of a formal policy and implementation plan.*

Frank Komendera inquired whether sewage infrastructure was related to the drawdown structure. Council responded that sewage infrastructure is not related to this objective.

Objective 3.4 – Promote and Support Increased Funding for Parks and Recreation Programs.
Council discussed various funding opportunities, including pursuing grant funding. Council agreed to retain the objective and modify it to read*: Promote and support increased funding for Parks and Recreation programs, consider Parks and Recreation funding requests during budget sessions, and explore grant funding opportunities*

Objective 4.1 – Positive Collaborative Relationships with the DDA and Township.
Council Member Lamb stated that this matter was primarily an administrative concern rather than a Village Council responsibility, though it also reflects a political relationship. President Rutt explained that, in the past, the Village President, Village Manager, DDA Chairperson, and DDA Executive Director met monthly to maintain communication and coordination. She acknowledged past concerns regarding Council members not being included but stated that participation by the President and DDA Chairperson allowed both organizations to remain aligned. She indicated that she wanted to ensure Council supported continuing that practice.

Council Member Dandalides stated that the relationship requires improvement and suggested designating a Village Council representative to attend Township meetings to strengthen collaboration. He volunteered to serve in that capacity. Council Member Comparoni, Jr., and Pro Tem Ford expressed support for the idea.

Frank Komendera also commented on the importance of collaboration between the Village and Township.
Council agreed to leave the objective unchanged.

Objective 4.2 – Approachability and Transparency.
Council Member Lamb suggested establishing clearer rules during Council meetings regarding requests from the public for responses during public comment, noting that other municipalities handle this differently. President Rutt stated that procedures already exist and that she attempts to explain them during public comment periods. Council Member Dandalides described how the Township handles public comment. Council noted that the Village Manager often addresses questions during Village Manager comments, and Council Members may respond during Council comments.

Council Member Dandalides further suggested establishing a policy requiring all meetings to be held in Council Chambers, recorded, and live streamed, or alternatively outfitting the conference room with similar capabilities. He also suggested that the Village create a Facebook page similar to the Police Department's page. President Rutt noted potential legal and administrative concerns, including the resources required to monitor social media. Police Chief Amundson added that maintaining the Police Department's page is time-consuming.

MOTION was made by Council Member Dandalides, Seconded by Council Member Lamb, to adopt a policy requiring all Village Council meetings, both regular and special, to be held in a venue capable of being live streamed, recorded, and documented on the Village website.

President Rutt expressed concern about voting on the motion without first consulting with ONTV regarding feasibility. Council Member Dandalides stated that he had previously spoken with ONTV but requested that the item be placed on the next agenda, indicating that he would make the motion again at that time.

Council Member Lamb also requested that an agenda item be added to allow Village Council comments directed to the public. Frank Komendera suggested adjusting meeting times and expressed support for live streaming special meetings.

The *motion was withdrawn* with the intent to place the matter on a future agenda.

Objective 4.3 – Enhance and Support DPW, Police, and DDA.
Council eliminated this objective.

Objective 4.4 – Complete Ordinance Codification.
Council retained this item and renumbered it as *Objective 4.3 – Complete Ordinance Codification.*

Objective 4.5 – Finalize Engineering Standards, Ordinance Revisions, and Operations Protocol by June 30, 2026.
Council Member Lamb inquired about the timeline. The Village Manager stated that he is awaiting two additional ordinances from the attorney and believes the timeframe is attainable. The objective was renumbered to *Objective 4.4.*

Objective 4.6 – Continue to Enhance Code Enforcement Efforts.
Council eliminated this objective.

Objective 4.7 – Finish Identifying, Classifying, and Determining Use of All Village-Owned Properties.
Council renumbered this objective to *Objective 4.6* and discussed establishing a completion date. Council suggested completing the task by the first meeting in May 2026. The Village Manager noted that the final report from the planners is required before completion. President Rutt asked whether the planners could provide the report by the second meeting in May. The Village Manager responded that he would attempt to obtain the report by that time.

10. Other Items

A. FOIA Appeal – Komendera

Frank Komendera stated that an application is not required to submit a FOIA request and that a request may be filed without completing an application form.

Council Member Lamb stated that the Clerk had provided valid arguments in the FOIA denial but noted he did not see a recommendation from the Village Attorney and acknowledged he was not knowledgeable in FOIA law.

The Clerk/Treasurer stated that the Village Attorney had been consulted regarding the FOIA denial and had advised that the cited reasons for denial were applicable under the law.

MOTION made by Council Member Lamb to request the Village Manager to obtain the opinion of the Village Attorney regarding who would be responsible for the costs associated with

fulfilling the request prior to Council rendering a decision on whether to honor the FOIA request. The motion died due to lack of support.

President Rutt stated that the Village policy was somewhat unclear regarding who responds to a FOIA appeal; however, under state law, an applicant claiming indigent status must submit an affidavit of indigency to be considered indigent, and the indigent status waives only the first $20 of the fee. She noted that due to the date discrepancy, the FOIA request was not processed with a fee unless the Village Council chose to waive the fee in the public interest.

Council Member Dandalides supported the denial and stated the applicant should resubmit the FOIA request with the correct documentation and potentially narrow the scope of the request to reduce potential costs. Council Member Lamb shared that he thinks the Council should honor the request.

President Rutt stated that she disagreed and believed the appropriate course of action would be to uphold the denial and allow the requester to resubmit the FOIA request. The Village Manager stated that the requester would not necessarily need to resubmit the request but would need to update the date and provide the affidavit of indigency for the Village to process the request. The Village Manager further stated that without a specific date, the request was overly broad and that denial was the proper course of action.

MOTION made by President Rutt, Seconded with Comparoni Jr to uphold the denial of Mr. Komendera's FOIA request on the basis that the request did not comply with the requirements of the Michigan Freedom of Information Act, specifically MCL 203 Section 10, Item A. 15.233(1) and MCL 15.235(5), as it did not include a complete mailing address and failed to sufficiently describe the public records sought due to an ambiguous timeframe.

Council determined that the applicant can provide the affidavit of indigency and administration will reconsider the current FOIA.

Francesco Komendera stated that the matter was related to providing his address and upholding the law.

Donald Kindred spoke regarding mailing address requirements, stating that FOIA responses can be picked up at the office, and also commented on the indigency provision.

Council Member Lamb stated that moving forward with the proposal would involve drawing down the Water and Sewer Fund, noting that the grant was denied this year and the committee had not identified additional funding sources to support the water and sewer project.

Council Member Papacek echoed Council Member Lamb’s concerns and stated that the committee did not incorporate the TIF map when considering options for phases two and three, expressing disappointment that no additional solutions were identified to offset water and sewer rate increases.

Council Member Dandalides stated that the committee worked to lower the proposed water and sewer rate increases and noted that additional cost reductions would be discussed during upcoming budget sessions.

DDA Executive Director Gibb clarified that reducing the TIF district was briefly discussed by the committee but noted that shrinking the TIF would reduce the annual payment to the Capital Improvement Plan Infrastructure Fund.
