Dear Laurel Airport Authority Chairperson,

The Laurel Volunteer Fire Department and the City of Laurel have discussed the upcoming Fire district contracts and other services for the Rural Fire Districts and Fire Service Areas.

We would like to continue to offer contract with a 2% increase from last year contract. The increase is due to the rising inflation cost of expenses associated to the fire service. Such increases are for fire apparatus, both new equipment and the maintenance and repair of existing apparatus, personal protective equipment, rising fuel costs and equipment purchases to maintain a highly effective service to our districts.

The proposed increase would be as follows:

If your Board of Directors accepts this contract amount, the City of Laurel and the Laurel Fire Department are requesting that the new contracts will be finalized and ready to be presented to the City of Laurel Council by first the Council Workshop in June. If you feel that the new rate is unjust and would like to meet with myself or the City of Laurel Mayor please contact me and arrange a date and time at your convenience to meet.

Enclosed you will find the contract for the next year of service. Please sign and return to the following by May 27, 2020.

June 22nd, 2020

The City of Laurel
PO Box 10
Laurel, MT 59044

To the Laurel City Council,

My husband Scott and I purchased our home at 810 W. 7th St., in Laurel, about 4 years ago. The house is on both septic and cistern. We started having septic issues about the 2 years ago and have been trying to resolve the issue ever since with many techniques. The latest attempt to salvage the system was on June 12th, 2020. Heston Schessler with Schesslers Septic (406) 281-0811, came out and tried jetting out the leech field, by forcing water through the lines. Once he dug up the system however, he found that the roots from the nearby trees had encased and matted the legs of the leech field system, which made it impossible to jet it out. Given the size of the backyard and proximity to the existing watering ditch and wells that run along and to the south side of the property line (the side that our leach field is on), he said that replacing the leach field would not be an option.

Since we cannot fix or replace our leach field, our only remaining option would be to tie into the city services. Immediately adjacent to the east of our property, there are two town houses that are in the city limits and on city services. We believe it may be possible to tie into the same lines that are run to the town houses, but we may need to go all the way back to 8th street.

We have been in contact with Nick Altonaga and he shared the City’s annexation policy packet. Our lot is smaller than one city block, so we are writing to state our wish to be annexed. Please consider allowing our home to be annexed into the city of Laurel.

Sincerely,

Scott and Amy Slothower

### Brief Description of Type of Business and Services Provided by Applicant.

Physical Therapy: Mountain Land operated a physical therapy clinic in leased space at 405 East Main in Laurel from July 2015 through February 21, 2020. Jeremy Hansen, PT, DPT is the Clinic Director. We provide outpatient orthopedic and manual physical therapy services. We work with all insurances, Medicare, Medicaid, worker compensation, auto accident, and private pay patients. Referrals are received from all of the local and regional physicians, nurse practitioners, PA's etc. However, we do have some patients who access our services directly, without referral. Our practice has grown to 3 providers and multiple support staff due to the growing need in Laurel and as a tribute to the high quality of care that Jeremy and his team have provided to the community.

### Brief Description of Project.

Mountain Land purchased the existing building at 204 East Main, which is on leased property owned by Montana Rail Link. Alpha Omega Disaster Restoration, the previous owner, designed the tenant improvements and Cucancic Construction, Inc. was the general contractor. There was moderate remodeling of the current offices and substantial remodeling to turn the “garage” area into a physical therapy gym. The physical therapy clinic occupies 2,400 sq. ft. of the 4,300 sq. ft. building. We plan to find a tenant that is interested in all of part of the remaining space. We removed the two garage doors on the east front of the building and had an exterior wall with large windows looking out of the gym. We eliminated the former parking directly in front of the east front and will landscape with a walkway to the entrance, which will remain in the same place. We are working on plans for the exterior to make it look like medical office space rather than a converted shop.

### Brief Description of Project Time Line.

Closing date for the purchase of the building occurred in June 2019. Due to escalating construction expenses we had a difficult time making it through the bidding process and finding a builder who was both affordable and available. Our original timeline had us moving in by September or October of 2019. In reality, building began in late November or early December and we received our certificate of occupancy on 2/21/20. We saw our last patients at 405 East Main on 2/21/20, moved the clinic over the next two days and began seeing patients at 204 East Main on 2/24/20.

### Explain how the project will support and/or improve the down town district.

The community of Laurel has already embraced our unaffiliated, independent physical therapy service on Main Street. We have had a wonderful and accommodating landlord in Ken Miller at 405 East Main but the space and the parking are already inadequate and will not support the growth that we currently have and anticipate will continue with this new location. Being on the busier portion of Main Street will make our clinic much easier to find for our patients and the
parking will be more abundant and convenient. With this property being on the east side of the Laurel Chamber of Commerce building that has park-like landscaping, we want our building to look congruent and equal in quality. These are the only two business on the south side of Main east of the railroad underpass.

What type(s) of development and/or physical improvements are being considered?
Beautifying the front of the building exterior, plus landscaping, and creating a parking lot.

BUILDING ECONOMIC & COMMUNITY RESILIENCY
RESPONSE AND STABILIZATION

• Collaborate to eliminate duplication of effort and provide easy access to solutions for business
• Provide direct support services (BSED loans, SBDC consultation services, industry-specific trainings, information sessions, etc.) and act as a conduit for businesses to access needed resources to survive the impact of COVID-19 and reopen (SBA tools, CRF grants, loans, etc.)
• Act on our Business/Public Health partnership to guide business reopening
• Initiate and sustain the Open and Safe campaign to assure safe reopening and build confidence
• Support and facilitate the Normal 2.0 supply needs of businesses (PPE, hand sanitizer, etc.)
• Focus time and resources on the hardest hit industries that will see impacts for months to come (hospitality, events-driven venues, tourism)
• Assist in the interpretation of guidelines as we move through the various phases – help guide businesses in a more organized fashion.
BUSINESS RECOVERY

• Sustain Economic Response and Recovery Team structure. Identify a smaller Steering Committee to monitor and report back to the overall team.
• Provide ongoing resources for businesses during the adaptation phase (business planning, resource portal for EAP, resiliency/contingency planning, etc.)
• Earmark resources for the transition period – the next three to twelve months (loans, additional expertise, training, etc.)
• Facilitate learning-from-each-other as we collectively adapt procedures, practices, and business models that work.
• Continue to build consumer confidence
• Promote Buy Local/Click Local
• Support the discovery efforts and technology needs of businesses as they learn their Normal 2.0.
• Continue to assess business needs through real-time outreach and surveys to educate our work plans
• Determine workforce needs and the training and education alignment that is necessary to meet changing current and future needs (BillingsWorks' role)
• Using public health benchmarks, educate the community of its responsibility to help sustain our safe reopening and recovery and promote the importance of safe protocols to our progress

“Closing our doors because of the Coronavirus was probably the hardest challenge that I have ever had as a business owner. Not knowing what was coming each and every day was overwhelming! We went from managing, running and growing our business to damage control. More than anything, it was suddenly having to learn to run a business that I didn’t create.”

- Kris Carpenter, Joy of Living/Sanctuary Spa
“A pessimist sees the difficulty in every opportunity; an optimist sees the opportunity in every difficulty.” – Winston Churchill

BUILDING ECONOMIC & COMMUNITY RESILIENCY

PRINCIPLES FOR SEIZING OPPORTUNITY OUT OF DIFFICULTY

• Incentivize and support entrepreneurship
• Employ new tactics and models to support small businesses
• Invest in critical infrastructure, specifically broadband
• Develop quality of place and talent attraction initiatives
• Support workforce re-skilling and re-employment efforts
• Create manageable goals and embrace incrementalism
• “Move to where the puck will be.” – Develop for what will be, not what was
BUILDING ECONOMIC & COMMUNITY RESILIENCY

STRATEGIES FOR THE FUTURE

1. Seek a common vision for our community
2. Build for economic resiliency & provide ongoing best practices training for business resiliency
3. Stay committed to Workforce Development
4. Commit to Strategic Community Infrastructure/Assets investment
5. Capitalize on and support our position as a regional healthcare provider and seek business growth and education partnership opportunities in this sector (i.e., Discovery Center Concept evaluation with Mayo)
6. Capture “small metro” advantages/opportunities
7. Embrace our responsibility as a regional hub and support the economic recovery of communities throughout our trade area
BUILDING ECONOMIC & COMMUNITY RESILIENCY

• What does our community look like when we come out of this disruption?

• How do we unify around a vision for the future and best position Billings for success?

WELCOME . . . By your presence in the City Council Chambers, you are participating in the process of representative government. To encourage that participation, the City Council has specified times for citizen comments on its agenda -- once following the Consent Agenda, at which time citizens may address the Council concerning any brief community announcement not to exceed one minute in duration for any speaker; and again following Items Removed from the Consent Agenda, at which time citizens may address the Council on any matter of City business that is not on tonight’s agenda. Each speaker will be limited to three minutes, unless the time limit is extended by the Mayor with the consent of the Council. Citizens may also comment on any item removed from the consent agenda prior to council action, with each speaker limited to three minutes, unless the time limit is extended by the Mayor with the consent of the Council. If a citizen would like to comment on an agenda item, we ask that you wait until the agenda item is presented to the Council by the Mayor and the public is asked to comment by the Mayor. Once again, each speaker is limited to three minutes.

Any person who has any question concerning any agenda item may call the City Clerk-Treasurer's office to make an inquiry concerning the nature of the item described on the agenda. Your City government welcomes your interest and hopes you will attend the Laurel City Council meetings often.
