Task Force Business Items

Ordinance Finalization and Approval

Lisa Sherman provided feedback from Council members on the Ordinance . Several items were discussed and those changes will be incorporated. Some items discussed were getting

examples of when they would/would not permit outside the city limits. For clarity, we are not talking about public/private partnership outside the City, but what it will do for Lawrenceville and the greater community, both locally and regionally. This Council is going to be formed to make recommendations to City Council for approval.

In point 6, they will develop and propose an art master plan.

Point 7 would be making recommendations TO Council to recruit and commission art. Everything will come back to City Council for their approval.

Section 3 were confusing. They don't want to limit the people to serve on the Art Commission to just City residents, so wording should not be limiting. They would like to see all LAC members shall be citizens of Gwinnett or affiliated with a business located within Gwinnett County. Lisa suggested being affiliated with something in Gwinnett County, should have a vested interest. Makeup should have a very clear understanding of Lawrenceville, what is going on, etc. If it was only restricted to Lawrenceville residents, you would be limiting expertise.

Lisa will make the changes discussed and provide a red line copy for review.

There were no additional changes to discuss.

The changes in the Ordinance discussed should be voted on. The most expedient way would be to approve the changes and approve to present the updated Ordinance in the September Work Session.

Motion to approve authorization for the Chair to present the Ordinance to Council based on the discussion that has taken place, as amended for submission to Council was made by Board Member Earhart, Seconded by Board Member Woodard.
