LAWRENCEVILLE RAISED INTERSECTIONS – PAVER REFERENCE PROJECTS

Presented to: City of Lawrenceville by Columbia Engineering – July, 2024

PROJECT AREA

Vibe Creative District Intersections: Virginia Beach, VA

Project: Use custom paving patterns developed by local artists to enhance intersections and build the sense of identity in this creative arts district.

Materials: Concrete pavers (unknown product specification)

Completion: 2020

Vibe Intersections- 19th Street Virginia Beach, VA

ONIETONIE

CARDINALS

SKATERS

SCUBA

Lemon Avenue Streetscape Project, Sarasota, FL

Project: Provide a more pedestrian friendly downtown experience through enhanced sidewalks, landscape, and vehicular improvements with a cohesive theme to reinforce the sense of place.

Materials: Clay brick pavers (Pine Hall Brick Company: Full Range, Rose, Buff, Dark Accent)

Completion: 2019

Lemon Avenue Streetscape- Sarasota, FL

PINEAPPLE

LEMON

COMPASS

Auburn University

Project: Renovate historic Toomer's Corner at Auburn University's campus to enhance the pedestrian and vehicular experience and reflect the identity of the University.

Materials: Clay brick pavers (Pine Hall Brick Company)

Completion: 2015

AUBURN UNIVERSITY

9th Avenue and 14th Street, New York City

Project: Transform a popular intersection in New York City's Meatpacking District utilizing granite cobbles, which have local and historical significance.

Materials: granite cobbles and granite pavers (ASL Stone)

Completion: 2020

9TH AVENUE & 14TH STREET,

ARTISTIC DESIGN CONSIDERATIONS

Artistic brick patterns can be achieved using standard materials and colors from reputable suppliers.

Matching the color palette at each intersection and with the surrounding pedestrian environment contributes a more unified space.

Colors in concrete brick pavers are prone to fading, but clay brick (aka true brick) pavers are not prone to fading.

Color contrast is important for a design to be legible.

Customized colors and precut options are possible through specialty manufacturers such as PaverArt.

The overhead plan view of the design will not be seen by most users.

Existing or proposed utilities may be located within the design.

Granite has regional significance and may be modular or dimensionally cut to many shapes

GRANITE PALETTES

Georgia Blue or Grey Granite (sourced from Elberton, GA)

ASD Stone (granite)

PRACTICAL CONSIDERATIONS

Craftsmanship is important, especially with more intricate designs.

High intensity use will result in stains and spots.

Bricks should have spacers (lugs) to provide even brick placement. Beveled edged may be desirable to provide texture to vehicles passing over.

Rigid base systems should be used to prevent settling or movement.

Concrete pavers can simulate granite.

Cost considerations
