Lincoln Parish Police Jury

100 West Texas Avenue

Ruston, LA 71270

To the Members of the Lincoln Parish Police Jury:

We respectfully request that the Lincoln Parish Police Jury revoke and abandon the public right-of-way described as:

"The 60-foot servitude identified as Cypress Street in the Unit 1 Village of Tremont Plat signed on November 30, 1978."

We are the owners of the property located at:

354 Pleasant Grove Road

420 Pleasant Grove Road

448 Pleasant Grove Road

Choudrant, Louisiana 71227

We also own all of the property adjoining both sides of the Cypress Street servitude from Pleasant Grove Road to the railroad right-of-way, including all of the lots affected by this request.

To the best of our knowledge, the Cypress Street servitude has never been opened, constructed, or maintained as a public street and has not been used as a public roadway. Because we own all of the adjoining property on both sides of the servitude, revocation of this right-of-way will not eliminate access to any neighboring property or adversely affect any other landowner.

We respectfully request that the Lincoln Parish Police Jury initiate the legal process necessary to revoke and abandon this 60-foot servitude in accordance with Louisiana law and Lincoln Parish procedures.

Thank you for your time and consideration of our request. We appreciate your assistance and look forward to working with the Parish throughout the revocation process.

Respectfully,

Shannon Lee

Clint Lee

Sec. 34-4. - Striping of roads.

Item # 5.

(a) The parish engineer may recommend to the police jury that any road maintained by the police jury be considered for striping. In order for any such road to be considered by the police jury for striping, that road must at least meet the following criteria:

- (1) Have an average daily traffic (ADT) count of 500 vehicles per 24-hour period.
- (2) Be a reconstructed road which is surfaced with an asphaltic concrete riding surface.

Additionally, the parish engineer may recommend to the police jury that a dedicated subdivision road which has been validly incorporated into the parish road system and previously striped by the subdivision developer be restriped.

(b) Any road approved by the police jury for striping or restriping shall have the centerline of said road marked with an intermittent yellow line and no passing zones marked with a solid yellow line, the specifications for which shall be approved by the parish engineer.

(Code 1979, § 11-4; Ord. No. 189-98-(2), § 1, 8-25-1998)
