Discussion/Analysis

The evaluation was conducted the week of June 13, 2022. The results of the evaluation are attached.

FINE ART CONSERVATION

CONDITION REPORT, TREATMENT PROPOSALS AND ESTIMATES

DATE: June 15, 2022
CLIENT: City of Los Altos Hills
PROJECT #: 2022/216
OBJECT: Outdoor Sculpture Collection-5 Sculptures
LOCATION: Los Altos Hills

ARTIST: Robert Clemens

TITLE: Musical Gambon

DATE: Gifted and installed in 1991

MEDIUM: Painted Steel

DIMENSIONS: H: 149"x W: 120"x D: 103"

LOCATION: West Edith Avenue & University Avenue, Los Altos, CA 94022

CONDITION REPORT:

- The sculpture is structurally stable.
- There is possible corrosion under the paint, supported by the presence of blistering paint and some visible corrosion along bottom edge and along undersides of horizontal elements.
- There are several bent and misaligned elements: both legs are bent on the bottom figure; the proper left figure has a warped front leg; there is slight warping in the legs of the bagpipe and trumpet figures; the bagpipes are bent, the trumpet and bagpipes are intertwined.
- The paint is chalked and blanched.
- There is paint loss on vertical bars exposing a tan primer and a possible intermediate maroon colored primer.
- There are bird droppings, biogrowth, organic debris across the surface.
- There are mineral deposits across the front of the base.

TREATMENT PROPOSAL:

- Photographic and written documentation will be completed before, during and after treatment.
- Paint samples will be taken and color matched to identify an appropriate paint system for repainting.
- The site will be prepared and include a scaffold for access and a fence to prevent public access to wet paint surfaces.

- The deteriorated red paint will be sanded back to provide a key for repainting, both by hand and with palm sanders.
- Corrosion will be converted and reduced.
- The bent and misaligned elements will be realigned as far as possible.
- A painting tent will be installed to cover the artwork during the painting process.
- The chosen industrial paint system will be spray applied including primer, two coats of paint, and a clear top coat.

ESTIMATE:

For treatment as described:, including labor, materials, rental equipment, travel and documentation and photography:

Labor, documentation and travel costs over eight days=\$21,790

Rental Equipment=\$7,000

ARTIST: Tony Williams

TITLE: Imagine That

MEDIUM: Unpainted and Painted Aluminum

DATE: 1992

DIMENSIONS: H: 168" x W: 160" x D: 130"

LOCATION: West Edith Avenue & University Avenue, Los Altos, CA 94022

CONDITION REPORT:

- The sculpture is structurally stable.
- There are gouges, dents and abrasions in lower pipes and attachment points to the concrete pads
- There is a crack in the weld on the unpainted aluminum loop.
- There is a slight downward bend in the longest red painted horizontal element at the top of the sculpture
- Two layers of red paint are visible. The top layer is chalking and blanching with losses exposing a lower paint layer. The lower layer is more saturated in color but cracked in all exposed areas;
- There are chips, nicks and losses in both layers of red paint
- The clear coat on the unpainted aluminum elements is failing with aluminum oxide forming in areas of coating loss.
- There are tags on the painted surface.
- There is trash and debris within the tubes.
- There is overall surface dirt and grime, organic debris, and biogrowth,

TREATMENT PROPOSAL:

- Photographic and written documentation will be completed before, during and after treatment.
- Red paint samples will be taken and color matched to identify an appropriate paint system for repainting.
- The sculpture will be surrounded by a security fence during the treatment.
- The deteriorated red paint and clear coat will be reduced to a stable surface by sanding, both by hand and with palm sanders.

- The unpainted aluminum elements will be polished by hand and with orbital buffers.
- The crack in the loop will be filled and reinforced.
- An attempt will be made to rebend the dented elements to align them.
- The chosen paint system will be applied to the painted area including primer, and two coats of paint.

ESTIMATE:

For treatment as described:, including labor, materials, rental equipment, travel and documentation and photography:

Labor, documentation and travel costs over eight days=\$20,030

Details Showing Dents and Abrasions on the Bottom of the Lower Tubes

ARTIST: Damien Jones

TITLE: Jasper Priestess

MEDIUM: Glazed Ceramic, Stone

DATE: Installed in 2011/ on loan from artist

DIMENSIONS: H: 86"x W: 22"x D: 20"

LOCATION: Main Street & Second Street, Los Altos

CONDITION REPORT:

- The sculpture is structurally stable.
- There are several losses along the central join.
- There are two vertical firing cracks at bottom, one is about a foot long and the other is about an inch in length.
- There is flaking glaze between the legs accompanied by minor losses.
- There are minor abrasions in the glaze
- There is soiling, bird droppings and organic debris across the surface.

TREATMENT PROPOSAL:

- Photographic and written documentation will be completed before, during and after treatment.
- The sculpture will be washed with a solution of dilute anionic detergent (Orvus) in potable water. Soiling, bird droppings and organic debris will be removed.

- The flaking glaze will be consolidated and losses will be toned to visually integrate them with the surrounding surface. Minor abrasions will be toned in the same way.
- Losses will be filled and toned with an appropriate inpainting material.

ESTIMATE:

For treatment as described, including labor, materials, rental equipment, travel and documentation and photography, the cost will be \$3,450

ARTIST: Hardy Jones

TITLE: Magic Fish

MEDIUM: Painted Steel Assemblage

DATE: Installed in 1994, gifted to the City in 2004

LOCATION: 13 South San Antonio Road, Los Altos, CA 94022

CONDITION REPORT:

- The sculpture is structurally stable.
- There is some corrosion under the paint.
- The paint is thickly applied with drips and bubbles.
- There are visible paint losses that have been painted over creating recessed areas in the paint.
- There are broken blisters in the paint.

TREATMENT PROPOSAL:

- Photographic and written documentation will be completed before, during and after treatment.
- Paint samples will be taken and color matched to identify an appropriate paint system for repainting.
- The deteriorated paint will be reduced by sanding, both by hand and with palm sanders.
- Corrosion will be reduced, and converted.
- Areas of corrosion will be spot primed with the primer from the chosen paint system.
- The chosen paint system will be applied including two coats of top paint.

Detail Showing Blisters in Paint and Possible Corrosion

ARTIST: Maggie Kornman

TITLE: Zooscapes

MEDIUM: Painted Fiberglass and Wood

DATE: 1997

DIMENSIONS: Blue - H: 72"x W: 23"x D: 35"; White - H: 52"x W: 19.5"x D: 29"

LOCATION: Los Altos Main Library, 13 South San Antonio Road, Los Altos, CA 94022

CONDITION REPORT:

- The sculpture is structurally stable.
- Both sculptures are detached from their base and are at risk of loss. When lifted there is a plastic footprint visible beneath each foot with several rusted screws pointing up from below. It appears that the bottom of each foot has become detached.
- There is cracking in the fiberglass and paint layers.
- There are cracks and losses to the fiberglass and paint, revealing the underlying wood especially on the necks.
- A significant portion of the sculptures has been overpainted. The overpaint is blanching and delaminating from the underlying original paint.
- There is blanching, flaking and paint losses in both the original and secondary paint layers.

TREATMENT PROPOSAL:

- Photographic and written documentation will be completed before, during and after treatment.
- Recommend that since the sculpture can be deinstalled, transfer them to PA studio.
- The areas of flaking paint will be gently sanded by hand to remove the loose and deteriorated paint.
- Areas of fiberglass loss and cracking will be filled and toned to match the surrounding surface.
- The sculptures will be repainted with matching colors.
- The sculptures will be reattached to the original feet bottoms using appropriate adhesive and hardware.
