

PUBLIC ARTS COMMISSION MEETING AGENDA

5:00 PM - Thursday, January 26, 2023

Telephone/Video Conference

Please Note: Per California Executive Order N-29-20, the Public Arts Commission will meet via Telephone/Video Conference Only.

Telephone: 1-253-215-8782

Meeting ID: 821 1773 4927

Meeting Passcode: 316303

<https://losaltosca.gov.zoom.us/j/82117734927?pwd=NkJvZWtKclhDRExtQ0lvVEx3dnFKUT09>

TO PARTICIPATE VIA VIDEO: Follow the link above. Members of the public will need to have a working microphone on their device and must have the latest version of Zoom installed. To request to speak, please use the “Raise hand” feature located at the bottom of the screen.

TO PARTICPATE VIA TELEPHONE: Members of the public may also participate via telephone by calling the number listed above. To request to speak, press *9 on your telephone.

ESTABLISH QUORUM

PUBLIC COMMENTS ON ITEMS NOT ON THE AGENDA

Members of the audience may bring to the Commission's attention any item that is not on the agenda. Please complete a "Request to Speak" form and submit it to the Staff Liaison. Speakers are generally given two or three minutes, at the discretion of the Chair. Please be advised that, by law, the Commission is unable to discuss or take action on issues presented during the Public Comment Period. According to State Law (also known as “the Brown Act”) items must first be noticed on the agenda before any discussion or action.

ITEMS FOR CONSIDERATION/ACTION

1. **Minutes:** Approve the minutes of the December 8, 2022 meeting
2. **Art Without Walls:** Review entries, select pieces and recommend locations for placement of artworks

3. **Community Center Art:** Discuss the next community center art exhibit and form a subcommittee as needed
4. **Community Art Engagement:** Receive an update from the subcommittee and discuss potential community art engagement opportunities (no written report)
5. **Commission Work Plan:** Discuss the Commission Work Plan

INFORMATIONAL ITEMS

COMMISSIONERS' REPORTS AND COMMENTS

POTENTIAL FUTURE AGENDA ITEMS

ADJOURNMENT

SPECIAL NOTICES TO PUBLIC

In compliance with the Americans with Disabilities Act, the City of Los Altos will make reasonable arrangements to ensure accessibility to this meeting. If you need special assistance to participate in this meeting, please contact the City Clerk at least 48 hours prior to the meeting at (650) 947-2720.

Agendas, Staff Reports and some associated documents for Public Arts Commission items may be viewed on the Internet at <http://www.losaltosca.gov/meetings>.

If you wish to provide written materials, please provide the Commission Staff Liaison with **10 copies** of any document that you would like to submit to the Commissioners in order for it to become part of the public record.

For other questions regarding the meeting proceedings, please contact the City Clerk at (650) 947-2720.

**MINUTES OF THE MEETING OF THE PUBLIC ARTS COMMISSION
OF THE CITY OF LOS ALTOS, HELD ON THURSDAY, DECEMBER 8,
2022, AT 5:00 P.M. HELD VIA VIDEO/TELECONFERENCE**

ROLL CALL

PRESENT: Chair Waldman, Vice Chair Corrigan, Commissioners Couture, Moore

ABSENT: Commissioners Janjigian, Tasic

PUBLIC COMMENTS ON ITEMS NOT ON THE AGENDA

None

ITEMS FOR CONSIDERATION/ACTION

1. Minutes: Approve the minutes of the October 27, 2022 meeting

Action: Upon a motion by Commissioner Couture, seconded by Commissioner Moore, the Commission approved the minutes of the October 27, 2022 meeting, by the following vote: AYES: Corrigan, Couture, Moore, Waldman; NOES: None; ABSENT: Janjigian, Tasic; ABSTAIN: None.

2. Art Without Walls: Review entries, select pieces and recommend locations for placement of artworks

Commissioner Moore presented the subcommittee recommendations.

Action: Upon a motion by Chair Waldman, seconded by Commissioner Couture, the Commission approved the locations for placement of artworks as recommended by the subcommittee with the exception of Butterflies in the Park, Tolling of the Bell, Capital ART and Compass Turtle and directed the subcommittee to return with recommendations for the location of those four pieces, by the following vote: AYES: Corrigan, Couture, Moore, Waldman; NOES: None; ABSENT: Janjigian, Tasic; ABSTAIN: None.

3. Sculpture Maintenance Evaluation: Receive an update on the maintenance of two sculptures

Staff provided an update.

4. Commission Work Plan: Review the Commission Work Plan

The Commission reviewed the Work Plan.

5. Art Sponsorship Program: Discuss creation of a subcommittee to develop a yearly art sponsorship program

Chair Waldman introduced the item.

Direction: The Commission tabled this item to a future date.

6. 2023 Commission Meeting Schedule: Approve the 2023 Meeting Schedule

Action: Upon a motion by Commissioner Couture, seconded by Vice Chair Corrigan, the Commission approved the 2023 Meeting Schedule, by the following vote: AYES: Corrigan, Couture, Moore, Waldman; NOES: None; ABSENT: Janjigian, Tasic; ABSTAIN: None.

INFORMATIONAL ITEMS

7. Receive information and announcements from City staff

None

POTENTIAL FUTURE AGENDA ITEMS

Future: The Commission requested an agenda item on the January 2023 meeting to discuss future art engagement projects.

ADJOURNMENT

Chair Waldman adjourned the meeting at 6:00 p.m.

Title of Art Piece Vortex

Brief Description

Vortex is my homage to one of my favorite shapes in nature, the spiral. Although I use spirals in lots of my sculptures, this one is probably my purest version. I wanted it to look very plant like, as if it were growing out of the ground. My goal is to fool the viewer into thinking that they are looking at some strange plant or animal and not at a steel sculpture, at least for a moment. I like to use corten steel because the patina seems almost like an organic material.

Sorry but I didn't have a better shot of the right side. Also the photo from the back is from when I first installed it at it's current location and the patina hadn't formed yet. You can't really see the base of the sculpture all the way either but if you need me to I can send you some shots from when I was building it. Thank you.

Art Piece Value \$10,000

Medium (including finishes) Corten Steel with mild steel structure underneath.

Artwork Measurements (Height) 8.4

Artwork Measurements (Width) 5.6

Artwork Measurements (Depth) 3.2

Artwork Total Weight 300

How did you hear about "Art Without Walls"

I think that I was just scouting around online looking for public art projects. I may have seen it on cafe listings but I forget.

Please provide a brief biography.

My first landmark monumental sculpture was completed in 1975 I now have a total of 37 monumental sculptures and public artworks in 7 states: California, Nevada, Colorado, Texas, Montana, Missouri and Wyoming. The budget for these projects ranged from \$6,000 to \$270,000. All my public art projects have been under budget, on schedule and meet insurance requirements.

Please provide installation guidelines for your artwork, if any.

If site access is easy the sculpture can be rolled on a 6' x 6' concrete pad and then set in place. If not a small crane will be needed to set the sculpture. Artist will provide approved concrete anchors, drilling tools and power if necessary for installation.

Statement My style of sculpture is based upon using focal points. These designs give the impression of abstract compositions until they are viewed from one specific location called the focal point. Then an illusion of any image can be produced of a word, symbol or an illustration. These sculpture compositions vary from simple designs to complex configurations with multiple focal point images. The image complexity controls the basic structure of form but it also inspires the variety of abstraction.

This Focal Point sculpture spells the word "ART" in capital letters and welcomed visitors to the Las Vegas Downtown Arts District from 2005 to 2019. The word "ART" is stretched back in depth to create a balanced composition of geometric abstraction.

It is constructed in steel pipe and tubing with dimensions of 10 foot high by 75 inches wide by 65 inches deep. It will sit on a 6 foot square pad.

Statement My main style of sculpture is based upon using focal points as my previous 3 entries displayed. My secondary style of sculpture is a tribute to my career as a firefighter and honors this service with memorial designs. "Tolling of the Bell" is one of these memorial designs.

Long before the Internet was invented, or telephones and radios were used across our great nation, fire departments used the telegraph to communicate. They used special codes to receive fire alarms from those once familiar red fire alarm boxes which stood on practically every street corner of America. The resonating echo sounded the locations of thousands of emergencies throughout the history of our growing country. It was heard by all station houses in the vicinity and outside on the streets.

When a firefighter was killed, or in the language of the military and public safety: "fell", in the line of duty, the fire alarm office would tap out a special signal. This came to be called the "Tolling of the Bell" and was broadcast over the telegraph fire alarm circuits.

This was done for the purpose of notification, and as a sign of honor and respect for all firefighters who had made the ultimate sacrifice in service to their communities. Such symbolism is a time-honored fire service tradition and is repeated at each service of a fallen firefighter by The Honor Guard. This sculpture honors my history as a firefighter and is available in bronze or aluminum.

Please provide a brief biography.

Faducci was developed in 2002 by the combined exploration of artists Solomon Bassoff and Domenica Mottarella. Their whimsical emotive sculptures have received enthusiastic acclaim and have been acquired for both public art installations and private collections. Their creative interests are sparked by nature and constantly influenced by the wildlife that surrounds their home in the Sierra foothills. They are experienced at creating artwork that celebrates the natural environment, while delighting and inspiring the viewer. They have accomplished this goal with public art installations at the Woodland Park Zoo in Seattle, WA; Redding, CA; Natomas, CA; the Northwest Library in Oklahoma City; and again and most recently in Sunnyvale, California. The work illustrates their diversity of theme and skill in creating large public sculptures. In addition to large public art projects Faducci sculptures are held in high esteem in private collections across the country.

Please provide installation guidelines for your artwork, if any.

The sculpture has steel tabs that allow it to be bolted to a concrete pad.

Statement We have created sculpture for zoos, parks, schools, hospitals and communities throughout United States. Our sculpture with its whimsical nature is particularly endearing to the young and young at heart. Our sculptures are uniquely designed with the highest quality materials; primarily hand sculpted cement and applied Italian glass mosaic. We use additional additives in the cement that protect against weather, and in the event of graffiti, assist in its removal. All sculptures are designed for simple maintenance, public safety, longevity and enjoyment. Our submission is of a giant sea turtle sculpted with a steel armature, hand sculpted and pigmented concrete and iridescent glass mosaic. It is designed to be outdoors and can be climbed on and touched with abandonment. Dimensions:14" x 48" x 48".
We would appreciate the opportunity to touch the hearts of all who will visit or live in your community by exhibiting sculpture that will delight the imagination, enliven the heart and evoke the spirit of your community.

Billy Criswell

Custom Answers

Please provide a brief biography.

I'm a sculptor, painter, and printmaker currently based in Portland, Oregon. My work is reflective of my interest in finding a compelling interaction between shapes and colors by taking them out of their normal context and creating new compositions that strike a balance between differing components. It is my intention that the finished work conveys how individual elements can both fit together and exist as separate units.

In addition to being shown in both solo and group exhibitions throughout the United States, my work may be found in many corporate, public, and private collections. Among the public collections are international hotels including the Grand Hyatt in Tokyo, Japan and the Amber Bay Resort in Dalian, China.

I'm also the recipient of a Pollock-Krasner Grant in 2010 and a United States Artists Grant in 2011.

Please provide installation guidelines for your artwork, if any.

BUBBLES is built with 4 tabs on the inside of the base, one on each of the bottom four planes (set at 90 degree angles from each other). A stainless steel all-thread is screwed into and extends into the concrete pad. Using a template, I drill holes into the concrete pad to accept the all-thread. I place the sculpture by positioning it above the pad, then lower it onto the pad to ensure the all-thread aligns with the holes in the concrete. At this point the sculpture is raised up high enough to allow the holes to be filled with quick setting epoxy. The sculpture is then lowered to the pad with the all-thread going into the epoxy filled holes.

Art Detail

Statement My work uses both organic and manufactured materials such as wood, clay, metal and plastic. While I employ a variety of materials and processes in each project, my methodology is consistent. There may not always be material similarities between the different projects, but they are linked by recurring formal concerns. I am primarily interested in taking familiar geometric shapes out of their normal context and creating new forms that employ a balance between natural and urban elements. I will construct and deconstruct as many times as necessary to find the composition that I believe best conveys how individual components can both fit together and exist as separate forms simultaneously.

Statement As a Pacific Northwest artist, I love the deep connection to nature that lives in the heart of west coast culture. My sculptures and paintings celebrate this connection.

My work is light-filled and radiant. Inspired by color, I saturate the field with many layers of acrylic paint. I use a visual language that is inherently inclusive, as the experience of nature crosses cultural, economic and social divisions.

Made from wood, my pieces are always constructed and finished to be enduring. I build my work to be durable, points of connection are engineered to disappear. I focus on a clean simplicity with sharpened intention and a demand for balance. Material choices, composition and color are given equal weight. My work is appropriate for all ages.

I am submitting images of Seasonal Rotation on display in Palm Desert, CA. This piece is constructed from 2 sheets of 5ft x 2.5, 1.5 inch thick interlocking plywood. All pieces are painted in their entirety with outdoor grade acrylic primer, acrylic paint and finished with TSW anti-graffiti outdoor grade sealer. The piece has more than 7 layers of finish to protect it from weather. The interlocking plywood pieces create four corners which each contain a three dimensional, quartered tree trunk. The trunk is bolted and plugged and securely locked in the wood X shape. The trunk is painted seamlessly transitions slightly below the base of the X to create a single outstretched tree simultaneously displaying characteristics of all of the 4 seasons accompanied by 4 phases of the moon. Installation is straightforward, with 4 bolts that secure a steel plate, to the provided sculpture base. The viewer is able stand in place and rotate through the seasons. This piece is a color-rich, interactive discovery that is at once be both unique and familiar.

Rachel Slick

Custom Answers

Please provide a brief biography.

Born in Ocean Beach CA in the early 70's, a childhood of artists, archangels, musicians and abuelitas offered Rachel a clear path of lifelong creativity. An artist living with neurological disability since childhood, Rachel's life has been one of challenges. The work she has accomplished demonstrates that a life with limitations is both possible and beautiful. As a person with heritage from both the Old World and the New, Rachel's artwork reflects many aspects of her blended cultural experience. Much of her sculptural forms are an exploration of ancient culture and story, brought into the modern age with strong form and vivid color. A multimedia artist, her work ranges from studio paintings and ceramics to outdoor metal sculptures to large scale public art.

Please provide installation guidelines for your artwork, if any.

Installation is quite simple, the base of the sculpture has a welded steel plate that provides connection points for steel bolts. I will coordinate with the installation team with further details should the work be selected.

Statement Being born and raised in San Diego California native I feel a closeness to the fragile flora and fauna that is so very loved in California it has almost been loved to death. I welcome an opportunity to develop works of art that reflect cherishing area wildlife and resources, as well as welcoming visitors and locals who wish to do the same. "Compass Turtle; The Five Directions" explores the role of ancient archetypes and ideas to provide modern people of all backgrounds with direction. The important message is that there are not, as most people believe, four directions. There are 5, the 5th being Center. And each individual is at all times in the center of their world. How does this affect what direction we choose to go, or how we place ourselves in both the physical and spiritual world?
 Inspired by Mythic stories of childhood, Archetypes, and the creation of Story, Compass Turtle explores how archetypes can remain timeless but relate to a modern world.

Please provide a brief biography.

ADRIAN LITMAN Art & Design
4284 Deer Trail rd.
Santa Rosa, CA 95404
510.386.7859
adrian.artistic@gmail.com
www.adrian-susnea-litman.com

I started to learn about art at a very early age, playing with colors and art materials in my father's Art Design and Restoration studio.
In 1964, I was accepted into the Fine Arts High School N. Tonitza in Bucharest, Romania where I studied art techniques including drawing, painting, graphics, engraving, sculpture, fresco, mosaic and ceramics.
After finishing the Fine Art High School, I attended the University of Bucharest Art Institute, graduating in 1974 with a Master's degree in Graphic Arts Design.
Since 1980 when I relocated to California, I worked as a Graphic Designer and Art Director in the San Francisco Bay Area until 2002 when I retired from the corporate world and started Adrian Litman Art & Design Studio. I create an eclectic body of commissioned art pieces for Civic Public Art, Corporate and private clients, including custom paintings, murals, frescoes, mosaics, sculptures, stained glass panels, fountains and wall treatments, all of which facilitate the harmonious integration of art with architecture.

Education 1964 - 1968 - Fine Arts High school "N. Tonitza" - Bucharest, Romania.
1968 - 1974 - University of Bucharest Art Institute "N. Grigorescu",
Bucharest, Romania.
Master in Graphic Arts Design.

Civic and Commercial completed art projects:

-
- *City of Santa Rosa, CA
"Tame the Fire" - Stainless steel sculpture - 14'H x 3'W x 2'D. Installed in July 2022.
 - * City of Los Altos, CA
"Cosmic Bliss" - Stainless steel kinetic sculpture. 14"H x 7'W x 7'D. Installed in N. El Monte Park. April 2022.
 - * City of Mountain View, CA
"Magic Birds" - Stainless steel kinetic sculpture. 15"H x 12'W x 12'D.
"Shoreline Wonders" - Corten and copper sculpture. 15'H x 7'W x 3'D.
Both sculptures installed in March 2022 at Pyramid Park in Mountain View, CA.
 - * City of Newport Beach, CA
"Celestial Carousel" - stainless steel kinetic sculpture - 15'H x 12'W x 12'D. Installed in June 2021.
 - * City of Palm Desert, CA
"Celestial Cluster" - Stainless steel kinetic sculpture - 13'H x 6'W x 6'D. Installed in November 2020.
 - * City of Santa Rosa, CA
"Foamy Delight" - Stainless steel sculpture - 7'H x 3'W x 2'D. Installed at the corner of 4th st. and E st. August, 2020.
 - * City of Cloverdale, CA

"After Tubbs" - Painted wood block sculpture - 7'H x 6'W x 4'D Installed in July 2020.
 - * City of Santa Rosa, CA
"Splash & Fire" - Stainless steel sculpture installed in front of Fire Station #1. 8'H x 6'W x 2'D. Installed in February 2020.
 - * City of Milpitas, CA - Centre Pointe
"Convergent Energies" - Stainless steel sculpture for Centre Pointe new condo development entrance. 16'H x 12' Diameter .
Installed in December, 2019.
 - * City of Elk Grove, CA
"Historic Elk Grove" - Mural design depicting the milestones in the City of Elk Grove history from 1850's to nowadays. 10'H x 25'L.
Installed in November, 2019.
 - * City of Elk Grove, CA
"The Grapes of Wrath" - Stainless steel sculpture installed in the Alley of the Arts next to the new Community center. 4'x4'x12'.

Installed in May, 2019.
 - * City of Milpitas, CA - Centre Pointe
"Scape Undulations" - Powder coated steel and stainless steel components low relief design on a 4'H x 180'L concrete wall.
Installed in April, 2019.
 - * City of Pasadena, CA - downtown location.
"Galactic Cluster" - Kinetic sculpture - 10' diameter and 16' high. Installed in March 2018.
 - * City of Los Altos, CA - Village Park
"Alegria" - Kinetic sculpture - 8' diameter and 15' high - August 2017.
 - * Geyserville, CA - Sculpture Park.
"Cosmic Fusion" - 15' tall kinetic sculpture - installed in May 2016.
 - * City of Geyserville, CA - Sculpture park
"Silver Tulip" - 7'W x 3'D x 15' tall kinetic stainless steel sculpture - 2017.
 - * City of Cloverdale, CA - downtown.

JOYFUL RHYTHMS

The call for the Art Without Walls program in Los Altos, falls in line with my current artistic interests in creating large sculptures using various durable materials for outdoors installation.

The "Joyful Rhythms" sculpture is a painted wood blocks design that creates a whimsical joyful visual, adding a touch of color to a selected installation site in the City.

The sculpture is about 6 feet high, six feet wide and three feet deep. It can be installed on a concrete or asphalt surface or in a landscape area affixed to the ground with metal stakes. The surface of the sculpture is smooth to the touch and presents no harm for the public.

adrian.artistic@gmail.com
www.adrian-susnea-litman.com

I started to learn about art at a very early age, playing with colors and art materials in my father's Art Design and Restoration studio.
In 1964, I was accepted into the Fine Arts High School N. Tonitza in Bucharest, Romania where I studied art techniques including drawing, painting, graphics, engraving, sculpture, fresco, mosaic and ceramics.
After finishing the Fine Art High School, I attended the University of Bucharest Art Institute, graduating in 1974 with a Master's degree in Graphic Arts Design.
Since 1980 when I relocated to California, I worked as a Graphic Designer and Art Director in the San Francisco Bay Area until 2002 when I retired from the corporate world and started Adrian Litman Art & Design Studio. I create an eclectic body of commissioned art pieces for Civic Public Art, Corporate and private clients, including custom paintings, murals, frescoes, mosaics, sculptures, stained glass panels, fountains and wall treatments, all of which facilitate the harmonious integration of art with architecture.

Education 1964 - 1968 - Fine Arts High school "N. Tonitza" - Bucharest, Romania.
1968 - 1974 - University of Bucharest Art Institute "N. Grigorescu",
Bucharest, Romania.
Master in Graphic Arts Design.

Civic and Commercial completed art projects:

-
- *City of Santa Rosa, CA
"Tame the Fire" - Stainless steel sculpture - 14'H x 3'W x 2'D. Installed in July 2022.

Adrian Susnea Litman (Continued)

As an artist, I find inspiration and fuel for creative expression by contemplating the world around me. My inspiration is enhanced by concepts introduced by contemporary science, social issues, politics and cultural diversities.
I use abstract and figurative interpretations to convey messages and emotions with sensibility, combining control and passion. Depending on the scope of design, volumes, shapes and vibrant luminous colors are crafted to converge in an elegant harmony, stimulating the mind and emotions of the viewer.

Having an eclectic approach to design, I feel comfortable flowing from dramatic subjects to whimsical and humorous themes.
I have a broad range of diverse artistic skills and experience of working with a variety of durable materials like stainless steel, copper, brass, bronze, porcelain and glass as appropriate for harmonious integration with the site's architectural style and environment.

The call for the Art Without Walls program in Los Altos, falls in line with my current artistic interests in creating large sculptures using various durable materials for outdoors installation.

The "Dancing Birds" is 6 feet high, six feet wide and three feet deep nature inspired functional sculpture depicting birds in a dancing motion above a double seating bench.
It is made of stainless steel and CorTen, materials that are very durable outdoors and require no or minimum maintenance.

It can be installed on a concrete or asphalt surface or in a landscape area affixed to the ground with metal stakes.
The surface of the sculpture is smooth to the touch and presents no harm for the public.

Custom Answers

Please provide a brief biography.

I have been a professional artist for 35 years. I was awarded "BEST ARTIST" 2022 in L.A. by BOLAA (Best of Los Angeles) <https://kattworks2000.wixsite.com/mysite-1>
My first public art was for L.A.'s infamous Mural Row where I added my artistic styles on the 101. Since I have been painting and exhibiting from London to Laguna with great success. I have delved in many mediums and strive to create with new materials and styles. I love bringing Art in the public eye where everyone can enjoy and be inspired where ART connects us ALL.

Please provide installation guidelines for your artwork, if any.

PUBLIC ARTS COMMISSION AGENDA REPORT

Meeting Date: January 26, 2023

Subject: Art Without Walls

Prepared by: Jon Maginot, Assistant City Manager

Initiated by: Public Arts Commission

Attachment(s): Selected entries

Staff Recommendation

The staff recommends the Commission review entries, select pieces and recommend locations for placement of artworks.

Environmental Review:

Not applicable

Summary/Project Description:

On June 23, 2022, the Public Arts Commission (PAC) approved a call for art for entries to the City's Art Without Walls program. On December 8, 2022, the PAC reviewed potential locations for sculptures.

Fiscal Impact:

Selected entries will receive a stipend of \$1,500 to be paid using allocated Public Art Funds.

Discussion/Analysis

Entries were due to the City on October 13, 2022. At the October 27, 2022 PAC meeting, the Commission reviewed entries and selected a certain number to move forward in consideration. The subcommittee for this call for art recommended potential locations for the entries at the December 8, 2022 meeting. At that time, locations were chosen for most sculptures selected. The subcommittee was directed to review potential locations for the remaining pieces.

PUBLIC ARTS COMMISSION AGENDA REPORT

Meeting Date: January 26, 2023

Subject: Community Center Art

Prepared by: Jon Maginot, Assistant City Manager

Initiated by: Public Arts Commission

Attachment(s): None

Staff Recommendation

The staff recommends the Commission discuss the next community center art exhibit and form a subcommittee as needed

Environmental Review:

Not applicable

Summary/Project Description:

Entries from the “Every Child Is An Artist” exhibit are currently on display in the Los Altos Community Center and will be up until the next exhibit.

Fiscal Impact:

None

Discussion/Analysis

As part of the rotation of artwork along the main hallway of the Los Altos Community Center, the Public Arts Commission (PAC) approved the “Every Child Is An Artist” exhibit, entries of which are currently on display. As the rotation is intended to last approximately 6-8 months, it is recommended that the PAC begin discussing the next exhibit and form a subcommittee to work on developing the exhibit. Options for the PAC to consider include issuing a new call for art or partnering with a community group to display artworks from the group.
