Applicant presented the project.

Hannah Micallef, Applicant, Studio KDA

- Scope of work is to expand a restaurant at 137 into the adjacent space at 139. The goal is to unify the two storefronts. They'll be replacing the door at 139 with a window and adding an awning as well as two sconces. They brought samples of the tile to show the finish and size. They chose the darker black tile to recede and not compete with the existing green tile. The tile trim will be a subtle gold tile as a reference to the art deco style of the building.

Closed Public Comment.

Committee members discussed the matter.

- The proposal is an improvement.
- Material palette suites the building. Owners are investing in the downtown by using high quality materials.
- Prefer to see a continuity of the awning style and position.
- Consider update to signage and lighting.
- Consider making windows operable.

- Costs have escalated over the past year, so they scaled back the project by foregoing the second story. The front elevation stays the same. The rear still has the loggia, but with a little more glass. On the driveway side on the east, they brought back the bay window. They have added an arched window, which matches the arched window the front, in the second gable. They are using the same details and materials. Owner successfully purchased 100-year-old tile from Sacramento.

Closed Public Comment.

Committee members discussed the matter.

- Like the suggestion to install stucco corbel shapes on each side of the garage door to add character and not compromise the function of the door.
- Like the suggestion to add Ironwork about the window on the garage to add character.
- Like the approach of the stairs into the basement lightwell.
- The rear is very modern with lots of glazing.

**MOTION:**                      **Motion by Committee Member Queiroz to Forward a Recommendation of Approval for Construction of an Addition to an Existing Single-Family Residence, an Accessory Structure with Reduced Side Yard Setbacks, Demolition of an Existing Accessory Dwelling Unit, Removal of a Large Protected Tree, and Site Improvements Requiring a Grading Permit on Property Zoned R-1:8. Categorically Exempt Pursuant to CEQA Guidelines Section 15301: Existing Facilities. **Seconded by Chair Burnett.** With additional conditions to add corbels to the garage door frame, add ironwork over the front facing garage window, and consider reducing the expanse of glass in the rear of the house.**
