- I'm a past member of the General Plan Committee and the General Plan Advisory Committee for the 2040 General Plan, and I'm a current member of the Historic Preservation Committee. This question of inconsistencies between the General Plan and the Zoning Code was brought up during the General Plan Update process, and only one inconsistency was recommended to be included, one that was requested by the property owner. My question is why this change has been brought up now has been answered, as well as my question of whether the Town would systematically go through and update all the other numerous inconsistencies. Of course I support making the zoning consistent.
