

TOWN OF LOS GATOS
SPECIAL MEETING OF THE TOWN COUNCIL: STUDY SESSION AGENDA
SEPTEMBER 03, 2024
110 EAST MAIN STREET AND VIA TELECONFERENCE
TOWN COUNCIL CHAMBERS
5:15 PM

Mary Badame, Mayor
Matthew Hudes, Vice Mayor
Rob Moore, Council Member
Rob Rennie, Council Member
Maria Ristow, Council Member

IMPORTANT NOTICE

This is a hybrid meeting and will be held in-person at the Town Council Chambers at 110 E. Main Street and virtually through Zoom Webinar (log-in information provided below). Members of the public may provide public comments for agenda items in-person or virtually through the Zoom Webinar by following the instructions listed below. The live stream of the meeting may be viewed on television and/or online at www.LosGatosCA.gov/TownYouTube.

HOW TO PARTICIPATE

The public is welcome to provide oral comments in real-time during the meeting in three ways:

Zoom Webinar (Online): Join from a PC, Mac, iPad, iPhone or Android device. Please click this URL to join: [https://losgatosca-](https://losgatosca.gov.zoom.us/j/89808351141?pwd=kOzmUq0YchkfvnevUjqPZFk6DAM4FA.1)

[gov.zoom.us/j/89808351141?pwd=kOzmUq0YchkfvnevUjqPZFk6DAM4FA.1](https://losgatosca.gov.zoom.us/j/89808351141?pwd=kOzmUq0YchkfvnevUjqPZFk6DAM4FA.1)

Passcode: 293090 You can also type in 898 0835 1141 in the "Join a Meeting" page on the Zoom website at <https://zoom.us/join> and use passcode 293090.

When the Mayor announces the item for which you wish to speak, click the "raise hand" feature in Zoom. If you are participating by phone on the Zoom app, press *9 on your telephone keypad to raise your hand.

Telephone: Please dial (888) 278-0296 for US Toll-free or (214) 765-0479 for US Toll. (Conference code: 919847)

If you are participating by calling in, press #2 on your telephone keypad to raise your hand.

In-Person: Please complete a "speaker's card" located on the back of the chamber benches and return it to the Town Clerk before the meeting or when the Mayor announces the item for which you wish to speak.

NOTES: (1) Comments will be limited to three (3) minutes or less at the Mayor's discretion.

(2) If you are unable to participate in real-time, you may email to Clerk@losgatosca.gov the subject line "Public Comment Item #__" (insert the item number relevant to your comment). All comments received will become part of the record.

(3) Deadlines to submit written comments are:

11:00 a.m. the Thursday before the Council meeting for inclusion in the agenda packet.

11:00 a.m. the Monday before the Council meeting for inclusion in an addendum.

11:00 a.m. on the day of the Council meeting for inclusion in a desk item.

(4) Persons wishing to make an audio/visual presentation must submit the presentation electronically to Clerk@losgatosca.gov no later than 3:00 p.m. on the day of the Council meeting.

CALL MEETING TO ORDER

ROLL CALL

APPROVE REMOTE PARTICIPATION *(This item is listed on the agenda in the event there is an emergency circumstance requiring a Council Member to participate remotely under AB 2449 (Government Code 54953)).*

VERBAL COMMUNICATIONS *(Members of the public are welcome to address the Council only on matters listed on the agenda. Each speaker is limited to three minutes or such time as authorized by the Mayor.)*

OTHER BUSINESS *(Up to three minutes may be allotted to each speaker on any of the following items.)*

- [1.](#) Conduct a Study Session to Receive Information on and Discuss Senate Bill 330, Builder's Remedy, Density Bonus Law, Existing Litigation Outcomes, Proposed State Laws, and the Town Planning Application Review Process.

ADJOURNMENT *(Council policy is to adjourn no later than midnight unless a majority of Council votes for an extension of time.)*

ADA NOTICE In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the Clerk's Office at (408) 354- 6834. Notification at least two (2) business days prior to the meeting date will enable the Town to make reasonable arrangements to ensure accessibility to this meeting. [28 CFR §35.102-35.104]

**TOWN OF LOS GATOS
COUNCIL AGENDA REPORT**

MEETING DATE: 09/03/2024

ITEM NO. 1.

ITEM NO: 1

DATE: August 29, 2024
TO: Mayor and Town Council
FROM: Gabrielle Whelan, Town Attorney
SUBJECT: Conduct a Study Session to Receive Information on and Discuss Senate Bill 330, Builder's Remedy, Density Bonus Law, Existing Litigation Outcomes, Proposed State Laws, and the Town Planning Application Review Process

RECOMMENDATION:

Conduct a Study Session to Receive Information on and Discuss Senate Bill 330, Builder's Remedy, Density Bonus Law, Existing Litigation Outcomes, Proposed State Laws, and the Town Planning Application Review Process.

BACKGROUND AND DISCUSSION:

The purpose of this study session is for the Town Council and members of the public to receive and discuss information regarding the Town's processes for reviewing planning applications and applicable state laws such as Senate Bill 330, the Builder's Remedy, and Density Bonus Law. Staff and special counsel will provide:

- 1) A Summary of Senate Bill 330, the Builder's Remedy, and Density Bonus Law;
- 2) An Overview of the Town's Planning Application Review Process; and
- 3) A Summary of Litigation Outcomes to Date and Proposed State Laws.

Summary of the Builder's Remedy, Senate Bill 330, and Density Bonus Law

1) **The Builder's Remedy**

The Builder's Remedy is codified in Government Code Section 65589.5, a copy of which is attached as Attachment 1. This law has been codified for a long time, but was not commonly referenced by applicants until 2015. Government Code Section 65589.5(d) sets forth five grounds on which a city or town can disapprove a housing development project that includes 20 percent lower income housing. Per Government Code Section 65589.5(d)(5), one of those

Reviewed by: Town Manager, Assistant Town Manager, and Community Development Director

SUBJECT: Study Session Regarding Builder's Remedy, Senate Bill 330, and Density Bonus Law

DATE: August 29, 2024

BACKGROUND AND DISCUSSION (continued):

grounds is that the city or town has an adopted housing element that substantially complies with state law and the project is inconsistent with the zoning ordinance and general plan designation.¹ Subsection (d)(1) is known as the "Builder's Remedy," because if a city or town does not have a housing element complying with state law, this finding cannot be made to deny a project that is inconsistent with the general plan and zoning.

Government Code Section 65589.5(d) also sets forth four additional grounds upon which cities or towns can deny or modify projects. In addition, Government Code Section 65589.5(f)(1) provides that ". . . nothing in this section shall be construed to prohibit a local agency from requiring the housing development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584. However, the development standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on site and proposed by the development."

2) Senate Bill 330

Senate Bill 330 (2019) enacted Government Code Section 65941.1 (Attachment 2) to authorize a "vesting" process for housing development applicants. If applicants submit a preliminary application with the information required by the statute, the applicants vest to the Town standards in place at the time the preliminary application was submitted. In cities and towns without HCD-approved housing elements, applicants have submitted SB 330 preliminary applications and are taking the position that the housing element does not conform with state law, and they are "vested" to the Town's status of not having a certified Housing Element.

3) Density Bonus Law

The state Density Bonus Law, codified at Government Code Sections 65915-65918 (Attachment 3), gives housing developers a "density bonus" in exchange for including specified percentages of affordable housing. The amount of the density bonus increases with the percentage of affordable units included in the proposed project, up to a 100 percent bonus for mixed-income projects, or no density limit for some affordable projects. In addition to the density bonus, project applicants are entitled to seek incentives or concessions and waivers or reductions of development standards. The statute also provides that, so long as the requisite percentages of affordable housing are provided, applicants can seek incentives or concessions and waivers even if the applicant is not utilizing the density bonus.

¹ The Town's "Regional Housing Needs Allocation" is determined by the Association of Bay Area Governments and establishes the number of housing units that the Town needs to accommodate.

SUBJECT: Study Session Regarding Builder's Remedy, Senate Bill 330, and Density Bonus Law

DATE: August 29, 2024

BACKGROUND AND DISCUSSION (continued):

"Incentives and concessions" are defined as:

- a) A reduction in site development standards or a modification of zoning code or architectural design requirements, such as a reduction in setback or minimum square footage requirements; or
- b) Approval of mixed use zoning; or
- c) Other regulatory incentives or concessions which actually result in identifiable and actual cost reductions.

The number of "incentives and concessions" available is based on the percentage of affordable units in the project. Cities and towns are required to grant "concessions or incentives" unless they find that the proposed concession or incentive does not result in identifiable and actual cost reductions, would have a "specific, adverse impact" that cannot be mitigated on public health or safety or certain historical properties, or would be contrary to state or federal law.

"Waivers" can be sought if a city or town development standard would physically prevent the density bonus project (as proposed) from being built at the permitted density and with the granted concessions or incentives. A city or town is not required to waive or reduce development standards that would cause a "specific, adverse impact" that cannot be mitigated on public health or safety, harm certain historical properties, or be contrary to state or federal law. The waiver or reduction of a development standard does not count as an incentive or concession, and there is no limit on the number of waivers that may be requested or granted. Examples of development standards for which waivers can be sought are: setback and lot coverage requirements; and height limits. The most recent published case on waivers states that they must be provided for buildings "as designed."

In addition, there are reduced parking standards for density bonus projects.

The Town's Processes for Reviewing Planning Applications

A Workflow Diagram of the Town's review process is attached as Attachment 4 to this staff report. A more detailed description follows.

1) Senate Bill 330 Preliminary Application

If an applicant submits a Senate Bill 330 preliminary application, Town staff confirms that all of the elements required by Government Code Section 65941.1 have been submitted. Once staff has confirmed that all of the required information has been submitted, the preliminary

SUBJECT: Study Session Regarding Builder's Remedy, Senate Bill 330, and Density Bonus Law

DATE: August 29, 2024

BACKGROUND AND DISCUSSION (continued):

application materials are posted on-line and, if the proposed project is three stories or more, notice cards are mailed to all properties within 1000 feet of the project site.

2) Formal Application

If an applicant wishes to retain the vesting rights afforded by an SB 330 preliminary application, an applicant has 180 days from the date a complete SB 330 preliminary application was submitted to submit a formal application. Town staff reviews the formal planning application for completeness. If the formal application is incomplete, the applicant has 90 days to submit a complete application. If a complete application is not submitted within that timeframe, the vesting afforded by Senate Bill 330 ends.

An applicant can submit a non-vested formal planning application at any time. When Town staff receives a formal planning application, the first step is technical review. The Planning Division, the Building Division, the Santa Clara County Fire Department, and the Public Works Engineering group list incomplete items and identify inconsistencies with Town standards. The applicant resubmits an application to address those comments. Staff reviews the resubmittal to determine whether the previous comments have been resolved. This process can be repeated as many times as needed until all comments have been addressed. (For Builder's Remedy projects, the applicant may ask the Town to consider the application at a public hearing regardless of any remaining inconsistencies.) Concurrently with the review process, Town staff oversees environmental review of the impacts of a proposed project. Once the environmental review has been completed and Town staff's review process has come to an end, the project is scheduled for public hearings. There is a limit of five public hearings for all housing development projects, including single-family homes.

Summary of Litigation Outcomes To Date

The court decisions issued to date have primarily involved determinations by cities that Builder's Remedy planning applications are incomplete and therefore cannot be processed. To date, courts have held that cities are required to take in Builder's Remedy planning applications for processing. Barbara Kautz, a partner with the law firm of Goldfarb & Lipman, is closely monitoring this litigation and will verbally summarize the cases decided to date.

Proposed State Laws

The Legislature appears ready to approve two bills, AB 1886 and AB 1893, that are intended to make it much easier for developers to use the Builder's Remedy and that allow developers with

SUBJECT: Study Session Regarding Builder's Remedy, Senate Bill 330, and Density Bonus Law

DATE: August 29, 2024

BACKGROUND AND DISCUSSION (continued):

existing Builder's Remedy projects to modify their projects to take advantage of the new provisions. Outside counsel will provide a brief summary of these bills.

CONCLUSION:

Staff looks forward to a discussion of these topics.

COORDINATION:

This report was coordinated with the Community Development Department and the Town Manager's Office.

FISCAL IMPACT:

There is no fiscal impact associated with this study session.

ENVIRONMENTAL ASSESSMENT:

This study session is not a project subject to CEQA, because no action will be taken.

Cal. Gov. Code § 65589.5

Section 65589.5 - Housing Accountability Act

(a)

(1) The Legislature finds and declares all of the following:

(A) The lack of housing, including emergency shelters, is a critical problem that threatens the economic, environmental, and social quality of life in California.

(B) California housing has become the most expensive in the nation. The excessive cost of the state's housing supply is partially caused by activities and policies of many local governments that limit the approval of housing, increase the cost of land for housing, and require that high fees and exactions be paid by producers of housing.

(C) Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.

(D) Many local governments do not give adequate attention to the economic, environmental, and social costs of decisions that result in disapproval of housing development projects, reduction in density of housing projects, and excessive standards for housing development projects.

(2) In enacting the amendments made to this section by the act adding this paragraph, the Legislature further finds and declares the following:

(A) California has a housing supply and affordability crisis of historic proportions. The consequences of failing to effectively and aggressively confront this crisis are hurting millions of Californians, robbing future generations of the chance to call California home, stifling economic opportunities for workers and businesses, worsening poverty and homelessness, and undermining the state's environmental and climate objectives.

(B) While the causes of this crisis are multiple and complex, the absence of meaningful and effective policy reforms to significantly enhance the approval and supply of housing affordable to Californians of all income levels is a key factor.

(C) The crisis has grown so acute in California that supply, demand, and affordability fundamentals are characterized in the negative: underserved demands, constrained supply, and protracted unaffordability.

(D) According to reports and data, California has accumulated an unmet housing backlog of nearly 2,000,000 units and must provide for at least 180,000 new units annually to keep pace with growth through 2025.

(E) California's overall home ownership rate is at its lowest level since the 1940s. The state ranks 49th out of the 50 states in home ownership rates as well as in the supply of

housing per capita. Only one-half of California's households are able to afford the cost of housing in their local regions.

(F) Lack of supply and rising costs are compounding inequality and limiting advancement opportunities for many Californians.

(G) The majority of California renters, more than 3,000,000 households, pay more than 30 percent of their income toward rent and nearly one-third, more than 1,500,000 households, pay more than 50 percent of their income toward rent.

(H) When Californians have access to safe and affordable housing, they have more money for food and health care; they are less likely to become homeless and in need of government-subsidized services; their children do better in school; and businesses have an easier time recruiting and retaining employees.

(I) An additional consequence of the state's cumulative housing shortage is a significant increase in greenhouse gas emissions caused by the displacement and redirection of populations to states with greater housing opportunities, particularly working- and middle-class households. California's cumulative housing shortfall therefore has not only national but international environmental consequences.

(J) California's housing picture has reached a crisis of historic proportions despite the fact that, for decades, the Legislature has enacted numerous statutes intended to significantly increase the approval, development, and affordability of housing for all income levels, including this section.

(K) The Legislature's intent in enacting this section in 1982 and in expanding its provisions since then was to significantly increase the approval and construction of new housing for all economic segments of California's communities by meaningfully and effectively curbing the capability of local governments to deny, reduce the density for, or render infeasible housing development projects and emergency shelters. That intent has not been fulfilled.

(L) It is the policy of the state that this section be interpreted and implemented in a manner to afford the fullest possible weight to the interest of, and the approval and provision of, housing.

(3) It is the intent of the Legislature that the conditions that would have a specific, adverse impact upon the public health and safety, as described in paragraph (2) of subdivision (d) and paragraph (1) of subdivision (j), arise infrequently.

(b) It is the policy of the state that a local government not reject or make infeasible housing development projects, including emergency shelters, that contribute to meeting the need determined pursuant to this article without a thorough analysis of the economic, social, and environmental effects of the action and without complying with subdivision (d).

(c) The Legislature also recognizes that premature and unnecessary development of agricultural lands for urban uses continues to have adverse effects on the availability of

those lands for food and fiber production and on the economy of the state. Furthermore, it is the policy of the state that development should be guided away from prime agricultural lands; therefore, in implementing this section, local jurisdictions should encourage, to the maximum extent practicable, in filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (h) of Section 50199.7 of the Health and Safety Code, for very low, low-, or moderate-income households, or an emergency shelter, or condition approval in a manner that renders the housing development project infeasible for development for the use of very low, low-, or moderate-income households, or an emergency shelter, including through the use of design review standards, unless it makes written findings, based upon a preponderance of the evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588, is in substantial compliance with this article, and the jurisdiction has met or exceeded its share of the regional housing need allocation pursuant to Section 65584 for the planning period for the income category proposed for the housing development project, provided that any disapproval or conditional approval shall not be based on any of the reasons prohibited by Section 65008. If the housing development project includes a mix of income categories, and the jurisdiction has not met or exceeded its share of the regional housing need for one or more of those categories, then this paragraph shall not be used to disapprove or conditionally approve the housing development project. The share of the regional housing need met by the jurisdiction shall be calculated consistently with the forms and definitions that may be adopted by the Department of Housing and Community Development pursuant to Section 65400. In the case of an emergency shelter, the jurisdiction shall have met or exceeded the need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. Any disapproval or conditional approval pursuant to this paragraph shall be in accordance with applicable law, rule, or standards.

(2) The housing development project or emergency shelter as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete. The following shall not constitute a specific, adverse impact upon the public health or safety:

(A) Inconsistency with the zoning ordinance or general plan land use designation.

(B) The eligibility to claim a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

(3) The denial of the housing development project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to

comply without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible.

(4) The housing development project or emergency shelter is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The housing development project or emergency shelter is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a revised housing element in accordance with Section 65588 that is in substantial compliance with this article. For purposes of this section, a change to the zoning ordinance or general plan land use designation subsequent to the date the application was deemed complete shall not constitute a valid basis to disapprove or condition approval of the housing development project or emergency shelter.

(A) This paragraph cannot be utilized to disapprove or conditionally approve a housing development project if the housing development project is proposed on a site that is identified as suitable or available for very low, low-, or moderate-income households in the jurisdiction's housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation.

(B) If the local agency has failed to identify in the inventory of land in its housing element sites that can be developed for housing within the planning period and are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584, then this paragraph shall not be utilized to disapprove or conditionally approve a housing development project proposed for a site designated in any element of the general plan for residential uses or designated in any element of the general plan for commercial uses if residential uses are permitted or conditionally permitted within commercial designations. In any action in court, the burden of proof shall be on the local agency to show that its housing element does identify adequate sites with appropriate zoning and development standards and with services and facilities to accommodate the local agency's share of the regional housing need for the very low, low-, and moderate-income categories.

(C) If the local agency has failed to identify a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit, has failed to demonstrate that the identified zone or zones include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7) of subdivision (a) of Section 65583, or has failed to demonstrate that the identified zone or zones can accommodate at least one emergency shelter, as required by paragraph (4) of subdivision (a) of Section 65583, then this paragraph shall not be utilized to disapprove or conditionally approve an emergency shelter proposed for a site designated in any element of the general plan for industrial, commercial, or multifamily residential uses. In any action in court, the burden of proof shall be on the local agency to show that its

housing element does satisfy the requirements of paragraph (4) of subdivision (a) of Section 65583.

(e) Nothing in this section shall be construed to relieve the local agency from complying with the congestion management program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code). Neither shall anything in this section be construed to relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f)

(1) Except as provided in subdivision (o), nothing in this section shall be construed to prohibit a local agency from requiring the housing development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584. However, the development standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on the site and proposed by the development.

(2) Except as provided in subdivision (o), nothing in this section shall be construed to prohibit a local agency from requiring an emergency shelter project to comply with objective, quantifiable, written development standards, conditions, and policies that are consistent with paragraph (4) of subdivision (a) of Section 65583 and appropriate to, and consistent with, meeting the jurisdiction's need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. However, the development standards, conditions, and policies shall be applied by the local agency to facilitate and accommodate the development of the emergency shelter project.

(3) Except as provided in subdivision (o), nothing in this section shall be construed to prohibit a local agency from imposing fees and other exactions otherwise authorized by law that are essential to provide necessary public services and facilities to the housing development project or emergency shelter.

(4) For purposes of this section, a housing development project or emergency shelter shall be deemed consistent, compliant, and in conformity with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision if there is substantial evidence that would allow a reasonable person to conclude that the housing development project or emergency shelter is consistent, compliant, or in conformity.

(g) This section shall be applicable to charter cities because the Legislature finds that the lack of housing, including emergency shelter, is a critical statewide problem.

(h) The following definitions apply for the purposes of this section:

(1) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

- (2) "Housing development project" means a use consisting of any of the following:
- (A) Residential units only.
 - (B) Mixed-use developments consisting of residential and nonresidential uses with at least two-thirds of the square footage designated for residential use.
 - (C) Transitional housing or supportive housing.
- (3) "Housing for very low, low-, or moderate-income households" means that either (A) at least 20 percent of the total units shall be sold or rented to lower income households, as defined in Section 50079.5 of the Health and Safety Code, or (B) 100 percent of the units shall be sold or rented to persons and families of moderate income as defined in Section 50093 of the Health and Safety Code, or persons and families of middle income, as defined in Section 65008 of this code. Housing units targeted for lower income households shall be made available at a monthly housing cost that does not exceed 30 percent of 60 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the lower income eligibility limits are based. Housing units targeted for persons and families of moderate income shall be made available at a monthly housing cost that does not exceed 30 percent of 100 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the moderate-income eligibility limits are based.
- (4) "Area median income" means area median income as periodically established by the Department of Housing and Community Development pursuant to Section 50093 of the Health and Safety Code. The developer shall provide sufficient legal commitments to ensure continued availability of units for very low or low-income households in accordance with the provisions of this subdivision for 30 years.
- (5) Notwithstanding any other law, until January 1, 2030, "deemed complete" means that the applicant has submitted a preliminary application pursuant to Section 65941.1 or, if the applicant has not submitted a preliminary application, has submitted a complete application pursuant to Section 65943.
- (6) "Disapprove the housing development project" includes any instance in which a local agency does any of the following:
- (A) Votes on a proposed housing development project application and the application is disapproved, including any required land use approvals or entitlements necessary for the issuance of a building permit.
 - (B) Fails to comply with the time periods specified in subdivision (a) of Section 65950. An extension of time pursuant to Article 5 (commencing with Section 65950) shall be deemed to be an extension of time pursuant to this paragraph.
 - (C) Fails to meet the time limits specified in Section 65913.3.
 - (D)

(i) Fails to make a determination of whether the project is exempt from the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code), or commits an abuse of discretion, as defined in this subparagraph, if all of the following conditions are satisfied:

(I) There is substantial evidence in the record before the local agency that the housing development project is not located in either of the following:

(ia) On a site specified in subparagraphs (A) to (C), inclusive, or subparagraphs (E) to (K), inclusive, of paragraph (6) of subdivision (a) of Section 65913.4.

(ib) Within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Section 51178, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code.

(II) The housing development project is located on a legal parcel or parcels within an urbanized area and meets one or more of the following criteria:

(ia) The housing development project is located within one-half mile walking distance to either a high-quality transit corridor or a major transit stop.

(ib) The housing development project is located in a very low vehicle travel area.

(ic) The housing development project is proximal to six or more amenities pursuant to subclause (IV) of clause (ii) as of the date of submission of the application for the project.

(id) Parcels that are developed with urban uses adjoin at least 75 percent of the perimeter of the project site or at least three sides of a four-sided project site. For purposes of this clause, parcels that are only separated by a street or highway shall be considered to be adjoined.

(III) The density of the housing development project meets or exceeds 15 dwelling units per acre.

(IV) Both of the following criteria are met:

(ia) There is substantial evidence in the record before the local agency that the housing development project is eligible for an exemption sought by the applicant.

(ib) If the exemption sought by the applicant is subject to an exception under the Guidelines for Implementation of the California Environmental Quality Act (Chapter 3 (commencing with Section 15000) of Division 6 of Title 14 of the California Code of Regulations), there is substantial evidence in the record before the local agency that the application of that categorical exemption is not barred by one of the exceptions set forth in Section 15300.2 of those guidelines.

(V)

(ia) The applicant has given timely written notice to the local agency of the action or inaction that the applicant believes constitutes a failure to make a determination or an abuse of discretion, as defined in this subparagraph, and the local agency did not make a lawful determination within 90 days of the applicant's written notice.

The applicant's written notice shall contain all of the following:

(Ia) The information specified in paragraphs (1), (2), (5), and (6) of subdivision (a) of Section 15062 of Title 14 of the California Code of Regulations.

(Ib) A citation to the section of Title 14 of the California Code of Regulations or the statute under which the applicant asserts that the project is exempt.

(Ic) A brief statement of reasons supporting the assertion that the project is exempt.

(Id) A copy of the excerpts from the record constituting substantial evidence that the criteria of subclauses (I) to (IV), inclusive, are satisfied.

(ib) Within five working days of receiving the applicant's written notice required by sub-subclause (ia), the local agency shall file the notice with the county clerk of each county in which the project will be located. The county clerk shall post the notice and make it available for public inspection in the manner set forth in subdivision (c) of Section 21152 of the Public Resources Code. Compliance with this sub-subclause is not a condition that must be satisfied in order to find that the local agency has disapproved the housing development project under this subparagraph.

(ic) The local agency may, by providing a written response to the applicant within 90 additional days of the applicant's written notice, extend the time period to make a lawful determination by no more than 90 days if the extension is necessary to determine if there is substantial evidence in the record that the housing development project is eligible for the exemption sought by the applicant.

(id) If the local agency has given the applicant written notice of the local agency's determination that the project is not exempt, the applicant's notice shall be deemed timely if and only if it is delivered to the local agency within 35 days of the date that the local agency gave the applicant notice of the local agency's determination.

(ie) If the local agency has not given the applicant the written notice described in sub-subclause (id), the applicant's notice shall be deemed timely if given after 60 days from the date on which the project application has been received and accepted as complete by the lead agency, or 60 days from the date on which the project application has been determined or deemed to be complete within the meaning of Section 65943, whichever is earlier.

(ii) For purposes of this subparagraph, the following definitions apply:

(I) "Abuse of discretion" means that the conditions set forth in subclauses (I) to (IV), inclusive, of clause (i) are satisfied, but the local agency does not determine

that the project is exempt from the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code). This subclause sets forth the exclusive definition of "abuse of discretion" for purposes of this subparagraph.

(II) "High-quality transit corridor" has the same meaning defined in subdivision (b) of Section 21155 of the Public Resources Code.

(III) "Major transit stop" has the same meaning as defined in Section 21064.3 of the Public Resources Code.

(IV) "Proximal" to an amenity means either of the following:

(ia) Within one-half mile of either of the following amenities:

(Ia) A bus station.

(Ib) A ferry terminal.

(ib) Within one mile, or for a parcel in a rural area, as defined in Section 50199.21 of the Health and Safety Code, within two miles, of any of the following amenities:

(Ia) A supermarket or grocery store.

(Ib) A public park.

(Ic) A community center.

(Id) A pharmacy or drugstore.

(Ie) A medical clinic or hospital.

(If) A public library.

(Ig) A school that maintains a kindergarten or any of grades 1 to 12, inclusive.

(V) "Urbanized area" has the same meaning as defined in Section 21071 of the Public Resources Code.

(VI)

(ia) "Very low vehicle travel area" means an urbanized area, as designated by the United States Census Bureau, where the existing residential development generates vehicle miles traveled per capita that is below 85 percent of either regional vehicle miles traveled per capita or city vehicle miles traveled per capita.

(ib) For purposes of sub-subclause (ia), "area" may include a travel analysis zone, hexagon, or grid.

(ic) For the purposes of determining "regional vehicle miles traveled per capita" pursuant to sub-subclause (ia), a "region" is the entirety of incorporated and unincorporated areas governed by a multicounty or single-county metropolitan

planning organization, or the entirety of the incorporated and unincorporated areas of an individual county that is not part of a metropolitan planning organization.

(iii) This subparagraph shall not be construed to require a local agency to determine that a project is exempt if, on the record before the local agency, the project is not eligible for exemption.

(iv) This subparagraph shall become inoperative on January 1, 2031.

(E) Fails to adopt a negative declaration or addendum for the project, to certify an environmental impact report for the project, or to approve another comparable environmental document, such as a sustainable communities environmental assessment pursuant to Section 21155.2 of the Public Resources Code, as required pursuant to the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code), if all of the following conditions are satisfied:

(i) There is substantial evidence in the record before the local agency that the site of the housing development project is not located on either of the following:

(I) On a site specified in subparagraphs (A) to (C), inclusive, or subparagraphs (E) to (K), inclusive, of paragraph (6) of subdivision (a) of Section 65913.4.

(II) Within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Section 51178, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code.

(ii) The housing development project is located on a legal parcel or parcels within an urbanized area and meets one or more of the following criteria:

(I) The housing development project is located within one-half mile walking distance to either a high-quality transit corridor or a major transit stop.

(II) The housing development project is located in a very low vehicle travel area.

(III) The housing development project is proximal to six or more amenities pursuant to subclause (IV) of clause (vii) as of the date of submission of the application for the project.

(IV) Parcels that are developed with urban uses adjoin at least 75 percent of the perimeter of the project site or at least three sides of a four-sided project site. For purposes of this clause, parcels that are only separated by a street or highway shall be considered to be adjoined.

(iii) The density of the housing development project meets or exceeds 15 dwelling units per acre.

(iv) There has been prepared a negative declaration, addendum, environmental impact report, or comparable environmental review document that, if duly adopted, approved, or certified by the local agency, would satisfy the requirements of the California

Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) with respect to the project.

(v) The local agency or a body or official to which the agency has delegated authority to adopt, approve, or certify the negative declaration addendum, environmental impact report, or comparable environmental review document has held a meeting at which adoption, approval, or certification of the environmental review document was on the agenda and the environmental review document could have been adopted, approved, or certified, as applicable, but the agency did either of the following:

(I) Committed an abuse of discretion, as defined in this subparagraph.

(II) Failed to decide whether to require further study or to adopt, approve, or certify the environmental document.

(vi)

(I) The applicant has given timely written notice to the local agency of the action or inaction that the applicant believes constitutes a failure to decide or an abuse of discretion, and the local agency did not make a lawful determination about whether to adopt, approve, or certify the environmental review document within 90 days of the applicant's written notice. The applicant's written notice shall include a copy of those excerpts from the record that constitute substantial evidence that the criteria of clauses (i) to (iv), inclusive, are satisfied.

(II) If the local agency has voted to require further study, rather than adopting, approving, or certifying the negative declaration, addendum, environmental impact report, or comparable environmental review document in the form it was presented for the agency's consideration, the applicant's notice shall be deemed timely if and only if it is delivered to the local agency within 35 days of the date that the local agency gave written notice of its decision to the applicant.

(III) If the local agency has not voted to require further study, rather than adopting, approving, or certifying the negative declaration, addendum, environmental impact report, or comparable environmental review document in the form it was presented for the agency's consideration, the applicant's notice shall be deemed timely if given after the time period specified in Section 21151.5 of the Public Resources Code or another applicable provision of that code for completing the addendum, negative declaration, environmental impact report, or other comparable environmental review document, as applicable, has passed. If the Public Resources Code does not specifically describe the deadline to complete the applicable environmental document, a 180-day deadline is the applicable time period.

(vii) For purposes of this subparagraph, the following definitions apply:

(I)

(ia) "Abuse of discretion" means either of the following:

(Ia) If the local agency fails to adopt a negative declaration, "abuse of discretion" means that the agency, in bad faith or without substantial evidence in the record to support a fair argument that further environmental study is

necessary to identify or analyze potentially significant impacts on the physical environment, decided to require further environmental study rather than adopting the negative declaration.

(Ib) If the local agency fails to adopt an addendum for the project, certify an environmental impact report for the project, or approve another comparable environmental document, "abuse of discretion" means that the agency, in bad faith or without substantial evidence in the record that further environmental study is legally required to identify or analyze potentially significant impacts on the physical environment, decided to require further environmental study rather than adopting, approving, or certifying the environmental review document.

(ib) This subclause sets forth the exclusive definition of "abuse of discretion" for purposes of this subparagraph.

(II) "High-quality transit corridor" has the same meaning defined in subdivision (b) of Section 21155 of the Public Resources Code.

(III) "Major transit stop" has the same meaning as defined in Section 21064.3 of the Public Resources Code.

(IV) "Proximal" to an amenity means either of the following:

(ia) Within one-half mile of either of the following amenities:

(Ia) A bus station.

(Ib) A ferry terminal.

(ib) Within one mile, or for a parcel in a rural area, as defined in Section 50199.21 of the Health and Safety Code, within two miles, of any of the following amenities:

(Ia) A supermarket or grocery store.

(Ib) A public park.

(Ic) A community center.

(Id) A pharmacy or drugstore.

(Ie) A medical clinic or hospital.

(If) A public library.

(Ig) A school that maintains a kindergarten or any of grades 1 to 12, inclusive.

(V) "Urbanized area" has the same meaning as defined in Section 21071 of the Public Resources Code.

(VI)

(ia) "Very low vehicle travel area" means an urbanized area, as designated by the United States Census Bureau, where the existing residential development generates vehicle miles traveled per capita that is below 85 percent of either regional vehicle miles traveled per capita or city vehicle miles traveled per capita.

(ib) For purposes of sub-subclause (ia), "area" may include a travel analysis zone, hexagon, or grid.

(ic) For the purposes of determining "regional vehicle miles traveled per capita" pursuant to sub-subclause (ia), a "region" is the entirety of incorporated and unincorporated areas governed by a multicounty or single-county metropolitan planning organization, or the entirety of the incorporated and unincorporated areas of an individual county that is not part of a metropolitan planning organization.

(viii) This subparagraph shall become inoperative on January 1, 2031.

(7)

(A) For purposes of this section, "lawful determination" means any final decision about whether to approve or disapprove a statutory or categorical exemption or a negative declaration, addendum, environmental impact report, or comparable environmental review document under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) that is not an abuse of discretion, as defined in clause (ii) of subparagraph (D) of paragraph (6) or clause (vii) of subparagraph (E) of paragraph (6).

(B) This paragraph shall become inoperative on January 1, 2031.

(8) "Lower density" includes any conditions that have the same effect or impact on the ability of the project to provide housing.

(9) Until January 1, 2030, "objective" means involving no personal or subjective judgment by a public official and being uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official.

(10) Notwithstanding any other law, until January 1, 2030, "determined to be complete" means that the applicant has submitted a complete application pursuant to Section 65943.

(i) If any city, county, or city and county denies approval or imposes conditions, including design changes, lower density, or a reduction of the percentage of a lot that may be occupied by a building or structure under the applicable planning and zoning in force at the time the housing development project's application is complete, that have a substantial adverse effect on the viability or affordability of a housing development for very low, low-, or moderate-income households, and the denial of the development or the imposition of conditions on the development is the subject of a court action which challenges the denial or the imposition of conditions, then the burden of proof shall be on the local legislative body to show that its decision is consistent with the findings as described in subdivision (d), and

that the findings are supported by a preponderance of the evidence in the record, and with the requirements of subdivision (o).

(j)

(1) When a proposed housing development project complies with applicable, objective general plan, zoning, and subdivision standards and criteria, including design review standards, in effect at the time that the application was deemed complete, but the local agency proposes to disapprove the project or to impose a condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by a preponderance of the evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(2)

(A) If the local agency considers a proposed housing development project to be inconsistent, not in compliance, or not in conformity with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision as specified in this subdivision, it shall provide the applicant with written documentation identifying the provision or provisions, and an explanation of the reason or reasons it considers the housing development to be inconsistent, not in compliance, or not in conformity as follows:

(i) Within 30 days of the date that the application for the housing development project is determined to be complete, if the housing development project contains 150 or fewer housing units.

(ii) Within 60 days of the date that the application for the housing development project is determined to be complete, if the housing development project contains more than 150 units.

(B) If the local agency fails to provide the required documentation pursuant to subparagraph (A), the housing development project shall be deemed consistent, compliant, and in conformity with the applicable plan, program, policy, ordinance, standard, requirement, or other similar provision.

(3) For purposes of this section, the receipt of a density bonus, incentive, concession, waiver, or reduction of development standards pursuant to Section 65915 shall not constitute a valid basis on which to find a proposed housing development project is

inconsistent, not in compliance, or not in conformity, with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision specified in this subdivision.

(4) For purposes of this section, a proposed housing development project is not inconsistent with the applicable zoning standards and criteria, and shall not require a rezoning, if the housing development project is consistent with the objective general plan standards and criteria but the zoning for the project site is inconsistent with the general plan. If the local agency has complied with paragraph (2), the local agency may require the proposed housing development project to comply with the objective standards and criteria of the zoning which is consistent with the general plan, however, the standards and criteria shall be applied to facilitate and accommodate development at the density allowed on the site by the general plan and proposed by the proposed housing development project.

(k)

(1)

(A)

(i) The applicant, a person who would be eligible to apply for residency in the housing development project or emergency shelter, or a housing organization may bring an action to enforce this section. If, in any action brought to enforce this section, a court finds that any of the following are met, the court shall issue an order pursuant to clause (ii):

(I) The local agency, in violation of subdivision (d), disapproved a housing development project or conditioned its approval in a manner rendering it infeasible for the development of an emergency shelter, or housing for very low, low-, or moderate-income households, including farmworker housing, without making the findings required by this section or without making findings supported by a preponderance of the evidence.

(II) The local agency, in violation of subdivision (j), disapproved a housing development project complying with applicable, objective general plan and zoning standards and criteria, or imposed a condition that the project be developed at a lower density, without making the findings required by this section or without making findings supported by a preponderance of the evidence.

(III)

(ia) Subject to sub-subclause (ib), the local agency, in violation of subdivision (o), required or attempted to require a housing development project to comply with an ordinance, policy, or standard not adopted and in effect when a preliminary application was submitted.

(ib) This subclause shall become inoperative on January 1, 2030.

(ii) If the court finds that one of the conditions in clause (i) is met, the court shall issue an order or judgment compelling compliance with this section within 60 days, including, but not limited to, an order that the local agency take action on the housing

development project or emergency shelter. The court may issue an order or judgment directing the local agency to approve the housing development project or emergency shelter if the court finds that the local agency acted in bad faith when it disapproved or conditionally approved the housing development or emergency shelter in violation of this section. The court shall retain jurisdiction to ensure that its order or judgment is carried out and shall award reasonable attorney's fees and costs of suit to the plaintiff or petitioner, provided however, that the court shall not award attorney's fees in either of the following instances:

(I) The court finds, under extraordinary circumstances, that awarding fees would not further the purposes of this section.

(II)

(ia) In a case concerning a disapproval within the meaning of subparagraph (D) or (E) of paragraph (6) of subdivision (h), the court finds that the local agency acted in good faith and had reasonable cause to disapprove the housing development project due to the existence of a controlling question of law about the application of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) or implementing guidelines as to which there was a substantial ground for difference of opinion at the time of the disapproval.

(ib) This subclause shall become inoperative on January 1, 2031.

(B) Upon a determination that the local agency has failed to comply with the order or judgment compelling compliance with this section within 60 days issued pursuant to subparagraph (A), the court shall impose fines on a local agency that has violated this section and require the local agency to deposit any fine levied pursuant to this subdivision into a local housing trust fund. The local agency may elect to instead deposit the fine into the Building Homes and Jobs Trust Fund. The fine shall be in a minimum amount of ten thousand dollars (\$10,000) per housing unit in the housing development project on the date the application was deemed complete pursuant to Section 65943. In determining the amount of fine to impose, the court shall consider the local agency's progress in attaining its target allocation of the regional housing need pursuant to Section 65584 and any prior violations of this section. Fines shall not be paid out of funds already dedicated to affordable housing, including, but not limited to, Low and Moderate Income Housing Asset Funds, funds dedicated to housing for very low, low-, and moderate-income households, and federal HOME Investment Partnerships Program and Community Development Block Grant Program funds. The local agency shall commit and expend the money in the local housing trust fund within five years for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households. After five years, if the funds have not been expended, the money shall revert to the state and be deposited in the Building Homes and Jobs Trust Fund for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households.

(C) If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled, including, but not limited to, an order to vacate the decision of the local agency and to approve the housing development project, in which case the application for the housing development project, as proposed by the applicant at the time the local agency took the initial action determined to be in violation of this section, along with any standard conditions determined by the court to be generally imposed by the local agency on similar projects, shall be deemed to be approved unless the applicant consents to a different decision or action by the local agency.

(2) For purposes of this subdivision, "housing organization" means a trade or industry group whose local members are primarily engaged in the construction or management of housing units or a nonprofit organization whose mission includes providing or advocating for increased access to housing for low-income households and have filed written or oral comments with the local agency prior to action on the housing development project. A housing organization may only file an action pursuant to this section to challenge the disapproval of a housing development by a local agency. A housing organization shall be entitled to reasonable attorney's fees and costs if it is the prevailing party in an action to enforce this section.

(l) If the court finds that the local agency (1) acted in bad faith when it disapproved or conditionally approved the housing development or emergency shelter in violation of this section and (2) failed to carry out the court's order or judgment within 60 days as described in subdivision (k), the court, in addition to any other remedies provided by this section, shall multiply the fine determined pursuant to subparagraph (B) of paragraph (1) of subdivision (k) by a factor of five. For purposes of this section, "bad faith" includes, but is not limited to, an action that is frivolous or otherwise entirely without merit.

(m)

(1) Any action brought to enforce the provisions of this section shall be brought pursuant to Section 1094.5 of the Code of Civil Procedure, and the local agency shall prepare and certify the record of proceedings in accordance with subdivision (c) of Section 1094.6 of the Code of Civil Procedure no later than 30 days after the petition is served, provided that the cost of preparation of the record shall be borne by the local agency, unless the petitioner elects to prepare the record as provided in subdivision (n) of this section. A petition to enforce the provisions of this section shall be filed and served no later than 90 days from the later of (1) the effective date of a decision of the local agency imposing conditions on, disapproving, or any other final action on a housing development project or (2) the expiration of the time periods specified in subparagraph (B) of paragraph (5) of subdivision (h). Upon entry of the trial court's order, a party may, in order to obtain appellate review of the order, file a petition within 20 days after service upon it of a written notice of the entry of the order, or within such further time not exceeding an additional 20 days as the trial court may for good cause allow, or may appeal the judgment or order of the trial court under Section 904.1 of the Code of Civil Procedure. If the local agency appeals the judgment of the trial court, the local agency shall post a bond,

in an amount to be determined by the court, to the benefit of the plaintiff if the plaintiff is the project applicant.

(2)

(A) A disapproval within the meaning of subparagraph (D) of paragraph (6) of subdivision (h) shall be final for purposes of this subdivision, if the local agency did not make a lawful determination within the time period set forth in subclause (V) of clause (i) of that subparagraph after the applicant's timely written notice.

(B) This paragraph shall become inoperative on January 1, 2031.

(3)

(A) A disapproval within the meaning of subparagraph (E) of paragraph (6) of subdivision (h) shall be final for purposes of this subdivision, if the local agency did not make a lawful determination within 90 days of the applicant's timely written notice.

(B) This paragraph shall become inoperative on January 1, 2031.

(n) In any action, the record of the proceedings before the local agency shall be filed as expeditiously as possible and, notwithstanding Section 1094.6 of the Code of Civil Procedure or subdivision (m) of this section, all or part of the record may be prepared (1) by the petitioner with the petition or petitioner's points and authorities, (2) by the respondent with respondent's points and authorities, (3) after payment of costs by the petitioner, or (4) as otherwise directed by the court. If the expense of preparing the record has been borne by the petitioner and the petitioner is the prevailing party, the expense shall be taxable as costs.

(o)

(1) Subject to paragraphs (2), (6), and (7), and subdivision (d) of Section 65941.1, a housing development project shall be subject only to the ordinances, policies, and standards adopted and in effect when a preliminary application including all of the information required by subdivision (a) of Section 65941.1 was submitted.

(2) Paragraph (1) shall not prohibit a housing development project from being subject to ordinances, policies, and standards adopted after the preliminary application was submitted pursuant to Section 65941.1 in the following circumstances:

(A) In the case of a fee, charge, or other monetary exaction, to an increase resulting from an automatic annual adjustment based on an independently published cost index that is referenced in the ordinance or resolution establishing the fee or other monetary exaction.

(B) A preponderance of the evidence in the record establishes that subjecting the housing development project to an ordinance, policy, or standard beyond those in effect when a preliminary application was submitted is necessary to mitigate or avoid a specific, adverse impact upon the public health or safety, as defined in subparagraph (A) of paragraph (1) of subdivision (j), and there is no feasible alternative method to satisfactorily mitigate or avoid the adverse impact.

(C) Subjecting the housing development project to an ordinance, policy, standard, or any other measure, beyond those in effect when a preliminary application was submitted is necessary to avoid or substantially lessen an impact of the project under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(D) The housing development project has not commenced construction within two and one-half years, or three and one-half years for an affordable housing project, following the date that the project received final approval. For purposes of this subparagraph:

(i) "Affordable housing project" means a housing development that satisfies both of the following requirements:

(I) Units within the development are subject to a recorded affordability restriction for at least 55 years for rental housing and 45 years for owner-occupied housing, or the first purchaser of each unit participates in an equity sharing agreement as described in subparagraph (C) of paragraph (2) of subdivision (c) of Section 65915.

(II) All of the units within the development, excluding managers' units, are dedicated to lower income households, as defined by Section 50079.5 of the Health and Safety Code.

(ii) "Final approval" means that the housing development project has received all necessary approvals to be eligible to apply for, and obtain, a building permit or permits and either of the following is met:

(I) The expiration of all applicable appeal periods, petition periods, reconsideration periods, or statute of limitations for challenging that final approval without an appeal, petition, request for reconsideration, or legal challenge having been filed.

(II) If a challenge is filed, that challenge is fully resolved or settled in favor of the housing development project.

(E) The housing development project is revised following submittal of a preliminary application pursuant to Section 65941.1 such that the number of residential units or square footage of construction changes by 20 percent or more, exclusive of any increase resulting from the receipt of a density bonus, incentive, concession, waiver, or similar provision, including any other locally authorized program that offers additional density or other development bonuses when affordable housing is provided. For purposes of this subdivision, "square footage of construction" means the building area, as defined by the California Building Standards Code (Title 24 of the California Code of Regulations).

(3) This subdivision does not prevent a local agency from subjecting the additional units or square footage of construction that result from project revisions occurring after a preliminary application is submitted pursuant to Section 65941.1 to the ordinances, policies, and standards adopted and in effect when the preliminary application was submitted.

(4) For purposes of this subdivision, "ordinances, policies, and standards" includes general plan, community plan, specific plan, zoning, design review standards and criteria,

subdivision standards and criteria, and any other rules, regulations, requirements, and policies of a local agency, as defined in Section 66000, including those relating to development impact fees, capacity or connection fees or charges, permit or processing fees, and other exactions.

(5) This subdivision shall not be construed in a manner that would lessen the restrictions imposed on a local agency, or lessen the protections afforded to a housing development project, that are established by any other law, including any other part of this section.

(6) This subdivision shall not restrict the authority of a public agency or local agency to require mitigation measures to lessen the impacts of a housing development project under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(7) With respect to completed residential units for which the project approval process is complete and a certificate of occupancy has been issued, nothing in this subdivision shall limit the application of later enacted ordinances, policies, and standards that regulate the use and occupancy of those residential units, such as ordinances relating to rental housing inspection, rent stabilization, restrictions on short-term renting, and business licensing requirements for owners of rental housing.

(8)

(A) This subdivision shall apply to a housing development project that submits a preliminary application pursuant to Section 65941.1 before January 1, 2030.

(B) This subdivision shall become inoperative on January 1, 2034.

(p)

(1) Upon any motion for an award of attorney's fees pursuant to Section 1021.5 of the Code of Civil Procedure, in a case challenging a local agency's approval of a housing development project, a court, in weighing whether a significant benefit has been conferred on the general public or a large class of persons and whether the necessity of private enforcement makes the award appropriate, shall give due weight to the degree to which the local agency's approval furthers policies of this section, including, but not limited to, subdivisions (a), (b), and (c), the suitability of the site for a housing development, and the reasonableness of the decision of the local agency. It is the intent of the Legislature that attorney's fees and costs shall rarely, if ever, be awarded if a local agency, acting in good faith, approved a housing development project that satisfies conditions established in subclauses (I), (II), and (III) of clause (i) of subparagraph (D) of paragraph (6) of subdivision (h) or clauses (i), (ii), and (iii) of subparagraph (E) of paragraph (6) of subdivision (h).

(2) This subdivision shall become inoperative on January 1, 2031.

(q) This section shall be known, and may be cited, as the Housing Accountability Act.

(r) The provisions of this section are severable. If any provision of this section or its application is held invalid, that invalidity shall not affect other provisions or applications

that can be given effect without the invalid provision or application.

Cal. Gov. Code § 65941.1

Section 65941.1 - [Effective Until 1/1/2030] Preliminary application

(a) An applicant for a housing development project, as defined in paragraph (3) of subdivision (b) of Section 65905.5, shall be deemed to have submitted a preliminary application upon providing all of the following information about the proposed project to the city, county, or city and county from which approval for the project is being sought and upon payment of the permit processing fee:

(1) The specific location, including parcel numbers, a legal description, and site address, if applicable.

(2) The existing uses on the project site and identification of major physical alterations to the property on which the project is to be located.

(3) A site plan showing the location on the property, elevations showing design, color, and material, and the massing, height, and approximate square footage, of each building that is to be occupied.

(4) The proposed land uses by number of units and square feet of residential and nonresidential development using the categories in the applicable zoning ordinance.

(5) The proposed number of parking spaces.

(6) Any proposed point sources of air or water pollutants.

(7) Any species of special concern known to occur on the property.

(8) Whether a portion of the property is located within any of the following:

(A) A very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Section 51178.

(B) Wetlands, as defined in the United States Fish and Wildlife Service Manual, Part 660 FW 2 (June 21, 1993).

(C) A hazardous waste site that is listed pursuant to Section 65962.5 or a hazardous waste site designated by the Department of Toxic Substances Control pursuant to Article 5 (commencing with Section 78760) of Chapter 4 of Part 2 of Division 45 of the Health and Safety Code.

(D) A special flood hazard area subject to inundation by the 1 percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency.

(E) A delineated earthquake fault zone as determined by the State Geologist in any official maps published by the State Geologist, unless the development complies with applicable seismic protection building code standards adopted by the California

Building Standards Commission under the California Building Standards Law (Part 2.5 (commencing with Section 18901) of Division 13 of the Health and Safety Code), and by any local building department under Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2.

(F) A stream or other resource that may be subject to a streambed alteration agreement pursuant to Chapter 6 (commencing with Section 1600) of Division 2 of the Fish and Game Code.

(9) Any historic or cultural resources known to exist on the property.

(10) The number of proposed below market rate units and their affordability levels.

(11) The number of bonus units and any incentives, concessions, waivers, or parking reductions requested pursuant to Section 65915.

(12) Whether any approvals under the Subdivision Map Act, including, but not limited to, a parcel map, a tentative map, or a condominium map, are being requested.

(13) The applicant's contact information and, if the applicant does not own the property, consent from the property owner to submit the application.

(14) For a housing development project proposed to be located within the coastal zone, whether any portion of the property contains any of the following:

(A) Wetlands, as defined in subdivision (b) of Section 13577 of Title 14 of the California Code of Regulations.

(B) Environmentally sensitive habitat areas, as defined in Section 30240 of the Public Resources Code.

(C) A tsunami run-up zone.

(D) Use of the site for public access to or along the coast.

(15) The number of existing residential units on the project site that will be demolished and whether each existing unit is occupied or unoccupied.

(16) A site map showing a stream or other resource that may be subject to a streambed alteration agreement pursuant to Chapter 6 (commencing with Section 1600) of Division 2 of the Fish and Game Code and an aerial site photograph showing existing site conditions of environmental site features that would be subject to regulations by a public agency, including creeks and wetlands.

(17) The location of any recorded public easement, such as easements for storm drains, water lines, and other public rights of way.

(b)

(1) Each local agency shall compile a checklist and application form that applicants for housing development projects may use for the purpose of satisfying the requirements for

submittal of a preliminary application.

(2) The Department of Housing and Community Development shall adopt a standardized form that applicants for housing development projects may use for the purpose of satisfying the requirements for submittal of a preliminary application if a local agency has not developed its own application form pursuant to paragraph (1). Adoption of the standardized form shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(3) A checklist or form shall not require or request any information beyond that expressly identified in subdivision (a).

(c) After submittal of all of the information required by subdivision (a), if the development proponent revises the project such that the number of residential units or square footage of construction changes by 20 percent or more, exclusive of any increase resulting from the receipt of a density bonus, incentive, concession, waiver, or similar provision, the housing development project shall not be deemed to have submitted a preliminary application that satisfies this section until the development proponent resubmits the information required by subdivision (a) so that it reflects the revisions. For purposes of this subdivision, "square footage of construction" means the building area, as defined by the California Building Standards Code (Title 24 of the California Code of Regulations).

(d)

(1) Within 180 calendar days after submitting a preliminary application with all of the information required by subdivision (a) to a city, county, or city and county, the development proponent shall submit an application for a development project that includes all of the information required to process the development application consistent with Sections 65940, 65941, and 65941.5.

(2) If the public agency determines that the application for the development project is not complete pursuant to Section 65943, the development proponent shall submit the specific information needed to complete the application within 90 days of receiving the agency's written identification of the necessary information. If the development proponent does not submit this information within the 90-day period, then the preliminary application shall expire and have no further force or effect.

(3) This section shall not require an affirmative determination by a city, county, or city and county regarding the completeness of a preliminary application or a development application for purposes of compliance with this section.

(e) Notwithstanding any other law, submission of a preliminary application in accordance with this section shall not preclude the listing of a tribal cultural resource on a national, state, tribal, or local historic register list on or after the date that the preliminary application is submitted. For purposes of Section 65589.5 or any other law, the listing of a tribal cultural site on a national, state, tribal, or local historic register on or after the date the preliminary application was submitted shall not be deemed to be a change to the ordinances, policies, and standards adopted and in effect at the time that the preliminary application was submitted.

(f) This section shall remain in effect only until January 1, 2030, and as of that date is repealed.

Cal. Gov. Code § 65915

Section 65915 - Granting density bonus

(a)

(1) When an applicant seeks a density bonus for a housing development within, or for the donation of land for housing within, the jurisdiction of a city, county, or city and county, that local government shall comply with this section. A city, county, or city and county shall adopt an ordinance that specifies how compliance with this section will be implemented. Except as otherwise provided in subdivision (s), failure to adopt an ordinance shall not relieve a city, county, or city and county from complying with this section.

(2) A local government shall not condition the submission, review, or approval of an application pursuant to this chapter on the preparation of an additional report or study that is not otherwise required by state law, including this section. This subdivision does not prohibit a local government from requiring an applicant to provide reasonable documentation to establish eligibility for a requested density bonus, as described in subdivision (b), and parking ratios, as described in subdivision (p).

(3) In order to provide for the expeditious processing of a density bonus application, the local government shall do all of the following:

(A) Adopt procedures and timelines for processing a density bonus application.

(B) Provide a list of all documents and information required to be submitted with the density bonus application in order for the density bonus application to be deemed complete. This list shall be consistent with this chapter.

(C) Notify the applicant for a density bonus whether the application is complete in a manner consistent with the timelines specified in Section 65943.

(D)

(i) If the local government notifies the applicant that the application is deemed complete pursuant to subparagraph (C), provide the applicant with a determination as to the following matters:

(I) The amount of density bonus, calculated pursuant to subdivision (f), for which the applicant is eligible.

(II) If the applicant requests a parking ratio pursuant to subdivision (p), the parking ratio for which the applicant is eligible.

(III) If the applicant requests incentives or concessions pursuant to subdivision (d) or waivers or reductions of development standards pursuant to subdivision (e), whether the applicant has provided adequate information for the local government to make a determination as to those incentives, concessions, waivers, or reductions of development standards.

(ii) Any determination required by this subparagraph shall be based on the development project at the time the application is deemed complete. The local government shall adjust the amount of density bonus and parking ratios awarded pursuant to this section based on any changes to the project during the course of development.

(b)

(1) A city, county, or city and county shall grant one density bonus, the amount of which shall be as specified in subdivision (f), and, if requested by the applicant and consistent with the applicable requirements of this section, incentives or concessions, as described in subdivision (d), waivers or reductions of development standards, as described in subdivision (e), and parking ratios, as described in subdivision (p), if an applicant for a housing development seeks and agrees to construct a housing development, excluding any units permitted by the density bonus awarded pursuant to this section, that will contain at least any one of the following:

(A) Ten percent of the total units of a housing development, including a shared housing building development, for rental or sale to lower income households, as defined in Section 50079.5 of the Health and Safety Code.

(B) Five percent of the total units of a housing development, including a shared housing building development, for rental or sale to very low income households, as defined in Section 50105 of the Health and Safety Code.

(C) A senior citizen housing development, as defined in Sections 51.3 and 51.12 of the Civil Code, or a mobilehome park that limits residency based on age requirements for housing for older persons pursuant to Section 798.76 or 799.5 of the Civil Code. For purposes of this subparagraph, "development" includes a shared housing building development.

(D) Ten percent of the total dwelling units of a housing development are sold to persons and families of moderate income, as defined in Section 50093 of the Health and Safety Code, provided that all units in the development are offered to the public for purchase.

(E) Ten percent of the total units of a housing development for transitional foster youth, as defined in Section 66025.9 of the Education Code, disabled veterans, as defined in Section 18541, or homeless persons, as defined in the federal McKinney-Vento Homeless Assistance Act (42 U.S.C. Sec. 11301 et seq.). The units described in this subparagraph are subject to a recorded affordability restriction of 55 years and shall be provided at the same affordability level as very low income units.

(F)

(i) Twenty percent of the total units for lower income students in a student housing development that meets the following requirements:

(I) All units in the student housing development shall be used exclusively for undergraduate, graduate, or professional students enrolled full time at an institution of higher education accredited by the Western Association of Schools and Colleges or the Accrediting Commission for Community and Junior Colleges. In order to be

eligible under this subclause, the developer shall, as a condition of receiving a certificate of occupancy, provide evidence to the city, county, or city and county that the developer has entered into an operating agreement or master lease with one or more institutions of higher education for the institution or institutions to occupy all units of the student housing development with students from that institution or institutions. An operating agreement or master lease entered into pursuant to this subclause is not violated or breached if, in any subsequent year, there are insufficient students enrolled in an institution of higher education to fill all units in the student housing development.

(II) The applicable 20-percent units shall be used for lower income students.

(III) The rent provided in the applicable units of the development for lower income students shall be calculated at 30 percent of 65 percent of the area median income for a single-room occupancy unit type.

(IV) The development shall provide priority for the applicable affordable units for lower income students experiencing homelessness. A homeless service provider, as defined in paragraph (3) of subdivision (e) of Section 103577 of the Health and Safety Code, or institution of higher education that has knowledge of a person's homeless status may verify a person's status as homeless for purposes of this subclause.

(ii) For purposes of calculating a density bonus granted pursuant to this subparagraph, the term "unit" as used in this section means one rental bed and its pro rata share of associated common area facilities. The units described in this subparagraph are subject to a recorded affordability restriction of 55 years.

(G) One hundred percent of all units in the development, including total units and density bonus units, but exclusive of a manager's unit or units, are for lower income households, as defined by Section 50079.5 of the Health and Safety Code, except that up to 20 percent of the units in the development, including total units and density bonus units, may be for moderate-income households, as defined in Section 50053 of the Health and Safety Code. For purposes of this subparagraph, "development" includes a shared housing building development.

(2) For purposes of calculating the amount of the density bonus pursuant to subdivision (f), an applicant who requests a density bonus pursuant to this subdivision shall elect whether the bonus shall be awarded on the basis of subparagraph (A), (B), (C), (D), (E), (F), or (G) of paragraph (1).

(c)

(1)

(A) An applicant shall agree to, and the city, county, or city and county shall ensure, the continued affordability of all very low and low-income rental units that qualified the applicant for the award of the density bonus for 55 years or a longer period of time if

required by the construction or mortgage financing assistance program, mortgage insurance program, or rental subsidy program.

(B)

(i) Except as otherwise provided in clause (ii), rents for the lower income density bonus units shall be set at an affordable rent, as defined in Section 50053 of the Health and Safety Code.

(ii) For housing developments meeting the criteria of subparagraph (G) of paragraph (1) of subdivision (b), rents for all units in the development, including both base density and density bonus units, shall be as follows:

(I) The rent for at least 20 percent of the units in the development shall be set at an affordable rent, as defined in Section 50053 of the Health and Safety Code.

(II) The rent for the remaining units in the development shall be set at an amount consistent with the maximum rent levels for lower income households, as those rents and incomes are determined by the California Tax Credit Allocation Committee.

(2)

(A) An applicant shall agree to ensure, and the city, county, or city and county shall ensure, that a for-sale unit that qualified the applicant for the award of the density bonus meets one of the following conditions:

(i) The unit is initially sold to and occupied by a person or family of very low, low, or moderate income, as required, and it is offered at an affordable housing cost, as that cost is defined in Section 50052.5 of the Health and Safety Code and is subject to an equity sharing agreement.

(ii) If the unit is not purchased by an income-qualified person or family within 180 days after the issuance of the certificate of occupancy, the unit is purchased by a qualified nonprofit housing corporation that meets all of the following requirements pursuant to a recorded contract that satisfies all of the requirements specified in paragraph (10) of subdivision (a) of Section 402.1 of the Revenue and Taxation Code:

(I) The nonprofit corporation has a determination letter from the Internal Revenue Service affirming its tax-exempt status pursuant to Section 501(c)(3) of the Internal Revenue Code and is not a private foundation as that term is defined in Section 509 of the Internal Revenue Code.

(II) The nonprofit corporation is based in California.

(III) All of the board members of the nonprofit corporation have their primary residence in California.

(IV) The primary activity of the nonprofit corporation is the development and preservation of affordable home ownership housing in California that incorporates within their contracts for initial purchase a repurchase option that requires a subsequent purchaser of the property that desires to resell or convey the property to

offer the qualified nonprofit corporation the right to repurchase the property prior to selling or conveying that property to any other purchaser pursuant to an equity sharing agreement or affordability restrictions on the sale and conveyance of the property that ensure that the property will be preserved for lower income housing for at least 45 years for owner-occupied housing units and will be sold or resold only to persons or families of very low, low, or moderate income, as defined in Section 50052.5 of the Health and Safety Code.

(B) For purposes of this paragraph, a "qualified nonprofit housing corporation" is a nonprofit housing corporation organized pursuant to Section 501(c)(3) of the Internal Revenue Code that has received a welfare exemption under Section 214.15 of the Revenue and Taxation Code for properties intended to be sold to low-income families who participate in a special no-interest loan program.

(C) The local government shall enforce an equity sharing agreement required pursuant to clause (i) or (ii) of subparagraph (A), unless it is in conflict with the requirements of another public funding source or law or may defer to the recapture provisions of the public funding source. The following apply to the equity sharing agreement:

(i) Upon resale, the seller of the unit shall retain the value of any improvements, the downpayment, and the seller's proportionate share of appreciation.

(ii) Except as provided in clause (v), the local government shall recapture any initial subsidy, as defined in clause (iii), and its proportionate share of appreciation, as defined in clause (iv), which amount shall be used within five years for any of the purposes described in subdivision (e) of Section 33334.2 of the Health and Safety Code that promote homeownership.

(iii) For purposes of this subdivision, the local government's initial subsidy shall be equal to the fair market value of the home at the time of initial sale minus the initial sale price to the moderate-income household, plus the amount of any downpayment assistance or mortgage assistance. If upon resale the market value is lower than the initial market value, then the value at the time of the resale shall be used as the initial market value.

(iv) For purposes of this subdivision, the local government's proportionate share of appreciation shall be equal to the ratio of the local government's initial subsidy to the fair market value of the home at the time of initial sale.

(v) If the unit is purchased or developed by a qualified nonprofit housing corporation pursuant to clause (ii) of subparagraph (A) the local government may enter into a contract with the qualified nonprofit housing corporation under which the qualified nonprofit housing corporation would recapture any initial subsidy and its proportionate share of appreciation if the qualified nonprofit housing corporation is required to use 100 percent of the proceeds to promote homeownership for lower income households as defined by Section 50079.5 of the Health and Safety Code within the jurisdiction of the local government.

(3)

(A) An applicant shall be ineligible for a density bonus or any other incentives or concessions under this section if the housing development is proposed on any property that includes a parcel or parcels on which rental dwelling units are located or, if the dwelling units have been vacated or demolished in the five-year period preceding the application, have been subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower or very low income; subject to any other form of rent or price control through a public entity's valid exercise of its police power; or occupied by lower or very low income households, unless the proposed housing development replaces those units, and either of the following applies:

(i) The proposed housing development, inclusive of the units replaced pursuant to this paragraph, contains affordable units at the percentages set forth in subdivision (b).

(ii) Each unit in the development, exclusive of a manager's unit or units, is affordable to, and occupied by, either a lower or very low income household.

(B) For the purposes of this paragraph, "replace" shall mean either of the following:

(i) If any dwelling units described in subparagraph (A) are occupied on the date of application, the proposed housing development shall provide at least the same number of units of equivalent size to be made available at affordable rent or affordable housing cost to, and occupied by, persons and families in the same or lower income category as those households in occupancy. If the income category of the household in occupancy is not known, it shall be rebuttably presumed that lower income renter households occupied these units in the same proportion of lower income renter households to all renter households within the jurisdiction, as determined by the most recently available data from the United States Department of Housing and Urban Development's Comprehensive Housing Affordability Strategy database. For unoccupied dwelling units described in subparagraph (A) in a development with occupied units, the proposed housing development shall provide units of equivalent size to be made available at affordable rent or affordable housing cost to, and occupied by, persons and families in the same or lower income category as the last household in occupancy. If the income category of the last household in occupancy is not known, it shall be rebuttably presumed that lower income renter households occupied these units in the same proportion of lower income renter households to all renter households within the jurisdiction, as determined by the most recently available data from the United States Department of Housing and Urban Development's Comprehensive Housing Affordability Strategy database. All replacement calculations resulting in fractional units shall be rounded up to the next whole number. If the replacement units will be rental dwelling units, these units shall be subject to a recorded affordability restriction for at least 55 years. If the proposed development is for-sale units, the units replaced shall be subject to paragraph (2).

(ii) If all dwelling units described in subparagraph (A) have been vacated or demolished within the five-year period preceding the application, the proposed housing development shall provide at least the same number of units of equivalent size as existed at the highpoint of those units in the five-year period preceding the

application to be made available at affordable rent or affordable housing cost to, and occupied by, persons and families in the same or lower income category as those persons and families in occupancy at that time, if known. If the incomes of the persons and families in occupancy at the highpoint is not known, it shall be rebuttably presumed that low-income and very low income renter households occupied these units in the same proportion of low-income and very low income renter households to all renter households within the jurisdiction, as determined by the most recently available data from the United States Department of Housing and Urban Development's Comprehensive Housing Affordability Strategy database. All replacement calculations resulting in fractional units shall be rounded up to the next whole number. If the replacement units will be rental dwelling units, these units shall be subject to a recorded affordability restriction for at least 55 years. If the proposed development is for-sale units, the units replaced shall be subject to paragraph (2).

(C) Notwithstanding subparagraph (B), for any dwelling unit described in subparagraph (A) that is or was, within the five-year period preceding the application, subject to a form of rent or price control through a local government's valid exercise of its police power and that is or was occupied by persons or families above lower income, the city, county, or city and county may do either of the following:

(i) Require that the replacement units be made available at affordable rent or affordable housing cost to, and occupied by, low-income persons or families. If the replacement units will be rental dwelling units, these units shall be subject to a recorded affordability restriction for at least 55 years. If the proposed development is for-sale units, the units replaced shall be subject to paragraph (2).

(ii) Require that the units be replaced in compliance with the jurisdiction's rent or price control ordinance, provided that each unit described in subparagraph (A) is replaced. Unless otherwise required by the jurisdiction's rent or price control ordinance, these units shall not be subject to a recorded affordability restriction.

(D) For purposes of this paragraph, "equivalent size" means that the replacement units contain at least the same total number of bedrooms as the units being replaced.

(E) Subparagraph (A) does not apply to an applicant seeking a density bonus for a proposed housing development if the applicant's application was submitted to, or processed by, a city, county, or city and county before January 1, 2015.

(d)

(1) An applicant for a density bonus pursuant to subdivision (b) may submit to a city, county, or city and county a proposal for the specific incentives or concessions that the applicant requests pursuant to this section, and may request a meeting with the city, county, or city and county. The city, county, or city and county shall grant the concession or incentive requested by the applicant unless the city, county, or city and county makes a written finding, based upon substantial evidence, of any of the following:

(A) The concession or incentive does not result in identifiable and actual cost reductions, consistent with subdivision (k), to provide for affordable housing costs, as

defined in Section 50052.5 of the Health and Safety Code, or for rents for the targeted units to be set as specified in subdivision (c).

(B) The concession or incentive would have a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact without rendering the development unaffordable to low-income and moderate-income households.

(C) The concession or incentive would be contrary to state or federal law.

(2) The applicant shall receive the following number of incentives or concessions:

(A) One incentive or concession for projects that include at least 10 percent of the total units for lower income households, at least 5 percent for very low income households, or at least 10 percent for persons and families of moderate income in a development in which the units are for sale.

(B) Two incentives or concessions for projects that include at least 17 percent of the total units for lower income households, at least 10 percent for very low income households, or at least 20 percent for persons and families of moderate income in a development in which the units are for sale.

(C) Three incentives or concessions for projects that include at least 24 percent of the total units for lower income households, at least 15 percent for very low income households, or at least 30 percent for persons and families of moderate income in a development in which the units are for sale.

(D) Five incentives or concessions for a project meeting the criteria of subparagraph (G) of paragraph (1) of subdivision (b). If the project is located within one-half mile of a major transit stop or is located in a very low vehicle travel area in a designated county, the applicant shall also receive a height increase of up to three additional stories, or 33 feet.

(E) One incentive or concession for projects that include at least 20 percent of the total units for lower income students in a student housing development.

(F) Four incentives or concessions for projects that include at least 16 percent of the units for very low income households or at least 45 percent for persons and families of moderate income in a development in which the units are for sale.

(3) The applicant may initiate judicial proceedings if the city, county, or city and county refuses to grant a requested density bonus, incentive, or concession. If a court finds that the refusal to grant a requested density bonus, incentive, or concession is in violation of this section, the court shall award the plaintiff reasonable attorney's fees and costs of suit. This subdivision shall not be interpreted to require a local government to grant an incentive or concession that has a specific, adverse impact, as defined in paragraph (2) of

subdivision (d) of Section 65589.5, upon health or safety, and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact. This subdivision shall not be interpreted to require a local government to grant an incentive or concession that would have an adverse impact on any real property that is listed in the California Register of Historical Resources. The city, county, or city and county shall establish procedures for carrying out this section that shall include legislative body approval of the means of compliance with this section.

(4) The city, county, or city and county shall bear the burden of proof for the denial of a requested concession or incentive.

(e)

(1) In no case may a city, county, or city and county apply any development standard that will have the effect of physically precluding the construction of a development meeting the criteria of subdivision (b) at the densities or with the concessions or incentives permitted by this section. Subject to paragraph (3), an applicant may submit to a city, county, or city and county a proposal for the waiver or reduction of development standards that will have the effect of physically precluding the construction of a development meeting the criteria of subdivision (b) at the densities or with the concessions or incentives permitted under this section, and may request a meeting with the city, county, or city and county. If a court finds that the refusal to grant a waiver or reduction of development standards is in violation of this section, the court shall award the plaintiff reasonable attorney's fees and costs of suit. This subdivision shall not be interpreted to require a local government to waive or reduce development standards if the waiver or reduction would have a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon health or safety, and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact. This subdivision shall not be interpreted to require a local government to waive or reduce development standards that would have an adverse impact on any real property that is listed in the California Register of Historical Resources, or to grant any waiver or reduction that would be contrary to state or federal law.

(2) A proposal for the waiver or reduction of development standards pursuant to this subdivision shall neither reduce nor increase the number of incentives or concessions to which the applicant is entitled pursuant to subdivision (d).

(3) A housing development that receives a waiver from any maximum controls on density pursuant to clause (ii) of subparagraph (D) of paragraph (3) of subdivision (f) shall only be eligible for a waiver or reduction of development standards as provided in subparagraph (D) of paragraph (2) of subdivision (d) and clause (ii) of subparagraph (D) of paragraph (3) of subdivision (f), unless the city, county, or city and county agrees to additional waivers or reductions of development standards.

(f) For the purposes of this chapter, "density bonus" means a density increase over the otherwise maximum allowable gross residential density as of the date of application by the applicant to the city, county, or city and county, or, if elected by the applicant, a lesser

percentage of density increase, including, but not limited to, no increase in density. The amount of density increase to which the applicant is entitled shall vary according to the amount by which the percentage of affordable housing units exceeds the percentage established in subdivision (b).

(1) For housing developments meeting the criteria of subparagraph (A) of paragraph (1) of subdivision (b), the density bonus shall be calculated as follows:

Percentage Low-Income Units Percentage Density Bonus

10	20
11	21.5
12	23
13	24.5
14	26
15	27.5
16	29
17	30.5
18	32
19	33.5
20	35
21	38.75
22	42.5
23	46.25
24	50

(2) For housing developments meeting the criteria of subparagraph (B) of paragraph (1) of subdivision (b), the density bonus shall be calculated as follows:

Percentage Very Low Income Units Percentage Density Bonus

5	20
6	22.5
7	25
8	27.5
9	30

10	32.5
11	35
12	38.75
13	42.5
14	46.25
15	50

(3)

(A) For housing developments meeting the criteria of subparagraph (C) of paragraph (1) of subdivision (b), the density bonus shall be 20 percent of the number of senior housing units.

(B) For housing developments meeting the criteria of subparagraph (E) of paragraph (1) of subdivision (b), the density bonus shall be 20 percent of the number of the type of units giving rise to a density bonus under that subparagraph.

(C) For housing developments meeting the criteria of subparagraph (F) of paragraph (1) of subdivision (b), the density bonus shall be 35 percent of the student housing units.

(D) For housing developments meeting the criteria of subparagraph (G) of paragraph (1) of subdivision (b), the following shall apply:

(i) Except as otherwise provided in clauses (ii) and (iii), the density bonus shall be 80 percent of the number of units for lower income households.

(ii) If the housing development is located within one-half mile of a major transit stop, the city, county, or city and county shall not impose any maximum controls on density.

(iii) If the housing development is located in a very low vehicle travel area within a designated county, the city, county, or city and county shall not impose any maximum controls on density.

(4) For housing developments meeting the criteria of subparagraph (D) of paragraph (1) of subdivision (b), the density bonus shall be calculated as follows:

Percentage Moderate-Income Units Percentage Density Bonus

10	5
11	6
12	7
13	8
14	9

15	10
16	11
17	12
18	13
19	14
20	15
21	16
22	17
23	18
24	19
25	20
26	21
27	22
28	23
29	24
30	25
31	26
32	27
33	28
34	29
35	30
36	31
37	32
38	33
39	34
40	35
41	38.75
42	42.5

43	46.25
44	50

(5) All density calculations resulting in fractional units shall be rounded up to the next whole number. The granting of a density bonus shall not require, or be interpreted, in and of itself, to require a general plan amendment, local coastal plan amendment, zoning change, or other discretionary approval.

(g)

(1) When an applicant for a tentative subdivision map, parcel map, or other residential development approval donates land to a city, county, or city and county in accordance with this subdivision, the applicant shall be entitled to a 15-percent increase above the otherwise maximum allowable residential density for the entire development, as follows:

Percentage Very Low Income Percentage Density Bonus

10	15
11	16
12	17
13	18
14	19
15	20
16	21
17	22
18	23
19	24
20	25
21	26
22	27
23	28
24	29
25	30
26	31
27	32

28	33
29	34
30	35

(2) This increase shall be in addition to any increase in density mandated by subdivision (b), up to a maximum combined mandated density increase of 35 percent if an applicant seeks an increase pursuant to both this subdivision and subdivision (b). All density calculations resulting in fractional units shall be rounded up to the next whole number. Nothing in this subdivision shall be construed to enlarge or diminish the authority of a city, county, or city and county to require a developer to donate land as a condition of development. An applicant shall be eligible for the increased density bonus described in this subdivision if all of the following conditions are met:

(A) The applicant donates and transfers the land no later than the date of approval of the final subdivision map, parcel map, or residential development application.

(B) The developable acreage and zoning classification of the land being transferred are sufficient to permit construction of units affordable to very low income households in an amount not less than 10 percent of the number of residential units of the proposed development.

(C) The transferred land is at least one acre in size or of sufficient size to permit development of at least 40 units, has the appropriate general plan designation, is appropriately zoned with appropriate development standards for development at the density described in paragraph (3) of subdivision (c) of Section 65583.2, and is or will be served by adequate public facilities and infrastructure.

(D) The transferred land shall have all of the permits and approvals, other than building permits, necessary for the development of the very low income housing units on the transferred land, not later than the date of approval of the final subdivision map, parcel map, or residential development application, except that the local government may subject the proposed development to subsequent design review to the extent authorized by subdivision (i) of Section 65583.2 if the design is not reviewed by the local government before the time of transfer.

(E) The transferred land and the affordable units shall be subject to a deed restriction ensuring continued affordability of the units consistent with paragraphs (1) and (2) of subdivision (c), which shall be recorded on the property at the time of the transfer.

(F) The land is transferred to the local agency or to a housing developer approved by the local agency. The local agency may require the applicant to identify and transfer the land to the developer.

(G) The transferred land shall be within the boundary of the proposed development or, if the local agency agrees, within one-quarter mile of the boundary of the proposed development.

(H) A proposed source of funding for the very low income units shall be identified not later than the date of approval of the final subdivision map, parcel map, or residential development application.

(h)

(1) When an applicant proposes to construct a housing development that conforms to the requirements of subdivision (b) and includes a childcare facility that will be located on the premises of, as part of, or adjacent to, the project, the city, county, or city and county shall grant either of the following:

(A) An additional density bonus that is an amount of square feet of residential space that is equal to or greater than the amount of square feet in the childcare facility.

(B) An additional concession or incentive that contributes significantly to the economic feasibility of the construction of the childcare facility.

(2) The city, county, or city and county shall require, as a condition of approving the housing development, that the following occur:

(A) The childcare facility shall remain in operation for a period of time that is as long as or longer than the period of time during which the density bonus units are required to remain affordable pursuant to subdivision (c).

(B) Of the children who attend the childcare facility, the children of very low income households, lower income households, or families of moderate income shall equal a percentage that is equal to or greater than the percentage of dwelling units that are required for very low income households, lower income households, or families of moderate income pursuant to subdivision (b).

(3) Notwithstanding any requirement of this subdivision, a city, county, or city and county shall not be required to provide a density bonus or concession for a childcare facility if it finds, based upon substantial evidence, that the community has adequate childcare facilities.

(4) "Childcare facility," as used in this section, means a child daycare facility other than a family daycare home, including, but not limited to, infant centers, preschools, extended daycare facilities, and schoolage childcare centers.

(i) "Housing development," as used in this section, means a development project for five or more residential units, including mixed-use developments. For the purposes of this section, "housing development" also includes a subdivision or common interest development, as defined in Section 4100 of the Civil Code, approved by a city, county, or city and county and consists of residential units or unimproved residential lots and either a project to substantially rehabilitate and convert an existing commercial building to residential use or the substantial rehabilitation of an existing multifamily dwelling, as defined in subdivision (d) of Section 65863.4, where the result of the rehabilitation would be a net increase in available residential units. For the purpose of calculating a density bonus, the residential units shall be on contiguous sites that are the subject of one development application, but do not have to be based upon individual subdivision maps or parcels. The density bonus shall

be permitted in geographic areas of the housing development other than the areas where the units for the lower income households are located.

(j)

(1) The granting of a concession or incentive shall not require or be interpreted, in and of itself, to require a general plan amendment, local coastal plan amendment, zoning change, study, or other discretionary approval. For purposes of this subdivision, "study" does not include reasonable documentation to establish eligibility for the concession or incentive or to demonstrate that the incentive or concession meets the definition set forth in subdivision (k). This provision is declaratory of existing law.

(2) Except as provided in subdivisions (d) and (e), the granting of a density bonus shall not require or be interpreted to require the waiver of a local ordinance or provisions of a local ordinance unrelated to development standards.

(k) For the purposes of this chapter, concession or incentive means any of the following:

(1) A reduction in site development standards or a modification of zoning code requirements or architectural design requirements that exceed the minimum building standards approved by the California Building Standards Commission as provided in Part 2.5 (commencing with Section 18901) of Division 13 of the Health and Safety Code, including, but not limited to, a reduction in setback and square footage requirements and in the ratio of vehicular parking spaces that would otherwise be required that results in identifiable and actual cost reductions, to provide for affordable housing costs, as defined in Section 50052.5 of the Health and Safety Code, or for rents for the targeted units to be set as specified in subdivision (c).

(2) Approval of mixed-use zoning in conjunction with the housing project if commercial, office, industrial, or other land uses will reduce the cost of the housing development and if the commercial, office, industrial, or other land uses are compatible with the housing project and the existing or planned development in the area where the proposed housing project will be located.

(3) Other regulatory incentives or concessions proposed by the developer or the city, county, or city and county that result in identifiable and actual cost reductions to provide for affordable housing costs, as defined in Section 50052.5 of the Health and Safety Code, or for rents for the targeted units to be set as specified in subdivision (c).

(l) Subdivision (k) does not limit or require the provision of direct financial incentives for the housing development, including the provision of publicly owned land, by the city, county, or city and county, or the waiver of fees or dedication requirements.

(m) This section does not supersede or in any way alter or lessen the effect or application of the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code). Any density bonus, concessions, incentives, waivers or reductions of development standards, and parking ratios to which the applicant is entitled under this section shall be permitted in a manner that is consistent with this section and Division 20 (commencing with Section 30000) of the Public Resources Code.

(n) If permitted by local ordinance, nothing in this section shall be construed to prohibit a city, county, or city and county from granting a density bonus greater than what is described in this section for a development that meets the requirements of this section or from granting a proportionately lower density bonus than what is required by this section for developments that do not meet the requirements of this section.

(o) For purposes of this section, the following definitions shall apply:

(1) "Designated county" includes the Counties of Alameda, Contra Costa, Los Angeles, Marin, Napa, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Mateo, Santa Barbara, Santa Clara, Solano, Sonoma, and Ventura, and the City and County of San Francisco.

(2) "Development standard" includes a site or construction condition, including, but not limited to, a height limitation, a setback requirement, a floor area ratio, an onsite open-space requirement, a minimum lot area per unit requirement, or a parking ratio that applies to a residential development pursuant to any ordinance, general plan element, specific plan, charter, or other local condition, law, policy, resolution, or regulation that is adopted by the local government or that is enacted by the local government's electorate exercising its local initiative or referendum power, whether that power is derived from the California Constitution, statute, or the charter or ordinances of the local government.

(3) "Located within one-half mile of a major transit stop" means that any point on a proposed development, for which an applicant seeks a density bonus, other incentives or concessions, waivers or reductions of development standards, or a vehicular parking ratio pursuant to this section, is within one-half mile of any point on the property on which a major transit stop is located, including any parking lot owned by the transit authority or other local agency operating the major transit stop.

(4) "Lower income student" means a student who has a household income and asset level that does not exceed the level for Cal Grant A or Cal Grant B award recipients as set forth in paragraph (1) of subdivision (k) of Section 69432.7 of the Education Code. The eligibility of a student to occupy a unit for lower income students under this section shall be verified by an affidavit, award letter, or letter of eligibility provided by the institution of higher education in which the student is enrolled or by the California Student Aid Commission that the student receives or is eligible for financial aid, including an institutional grant or fee waiver from the college or university, the California Student Aid Commission, or the federal government.

(5) "Major transit stop" has the same meaning as defined in subdivision (b) of Section 21155 of the Public Resources Code.

(6) "Maximum allowable residential density" or "base density" means the greatest number of units allowed under the zoning ordinance, specific plan, or land use element of the general plan, or, if a range of density is permitted, means the greatest number of units allowed by the specific zoning range, specific plan, or land use element of the general plan applicable to the project. Density shall be determined using dwelling units per acre. However, if the applicable zoning ordinance, specific plan, or land use element of the

general plan does not provide a dwelling-units-per-acre standard for density, then the local agency shall calculate the number of units by:

(A) Estimating the realistic development capacity of the site based on the objective development standards applicable to the project, including, but not limited to, floor area ratio, site coverage, maximum building height and number of stories, building setbacks and stepbacks, public and private open-space requirements, minimum percentage or square footage of any nonresidential component, and parking requirements, unless not required for the base project. Parking requirements shall include considerations regarding number of spaces, location, design, type, and circulation. A developer may provide a base density study and the local agency shall accept it, provided that it includes all applicable objective development standards.

(B) Maintaining the same average unit size and other project details relevant to the base density study, excepting those that may be modified by waiver or concession to accommodate the bonus units, in the proposed project as in the study.

(7)

(A)

(i) "Shared housing building" means a residential or mixed-use structure, with five or more shared housing units and one or more common kitchens and dining areas designed for permanent residence of more than 30 days by its tenants. The kitchens and dining areas within the shared housing building shall be able to adequately accommodate all residents. If a local ordinance further restricts the attributes of a shared housing building beyond the requirements established in this section, the local definition shall apply to the extent that it does not conflict with the requirements of this section.

(ii) A "shared housing building" may include other dwelling units that are not shared housing units, provided that those dwelling units do not occupy more than 25 percent of the floor area of the shared housing building. A shared housing building may include 100 percent shared housing units.

(B) "Shared housing unit" means one or more habitable rooms, not within another dwelling unit, that includes a bathroom, sink, refrigerator, and microwave, is used for permanent residence, that meets the "minimum room area" specified in Section R304 of the California Residential Code (Part 2.5 of Title 24 of the California Code of Regulations), and complies with the definition of "guestroom" in Section R202 of the California Residential Code. If a local ordinance further restricts the attributes of a shared housing building beyond the requirements established in this section, the local definition shall apply to the extent that it does not conflict with the requirements of this section.

(8)

(A) "Total units" or "total dwelling units" means a calculation of the number of units that:

(i) Excludes a unit added by a density bonus awarded pursuant to this section or any local law granting a greater density bonus.

(ii) Includes a unit designated to satisfy an inclusionary zoning requirement of a city, county, or city and county.

(B) For purposes of calculating a density bonus granted pursuant to this section for a shared housing building, "unit" means one shared housing unit and its pro rata share of associated common area facilities.

(9) "Very low vehicle travel area" means an urbanized area, as designated by the United States Census Bureau, where the existing residential development generates vehicle miles traveled per capita that is below 85 percent of either regional vehicle miles traveled per capita or city vehicle miles traveled per capita. For purposes of this paragraph, "area" may include a travel analysis zone, hexagon, or grid. For the purposes of determining "regional vehicle miles traveled per capita" pursuant to this paragraph, a "region" is the entirety of incorporated and unincorporated areas governed by a multicounty or single-county metropolitan planning organization, or the entirety of the incorporated and unincorporated areas of an individual county that is not part of a metropolitan planning organization.

(p)

(1) Except as provided in paragraphs (2), (3), and (4), upon the request of the developer, a city, county, or city and county shall not require a vehicular parking ratio, inclusive of parking for persons with a disability and guests, of a development meeting the criteria of subdivisions (b) and (c), that exceeds the following ratios:

(A) Zero to one bedroom: one onsite parking space.

(B) Two to three bedrooms: one and one-half onsite parking spaces.

(C) Four and more bedrooms: two and one-half parking spaces.

(2)

(A) Notwithstanding paragraph (1), if a development includes at least 20 percent low-income units for housing developments meeting the criteria of subparagraph (A) of paragraph (1) of subdivision (b) or at least 11 percent very low income units for housing developments meeting the criteria of subparagraph (B) of paragraph (1) of subdivision (b), is located within one-half mile of a major transit stop, and there is unobstructed access to the major transit stop from the development, then, upon the request of the developer, a city, county, or city and county shall not impose a vehicular parking ratio, inclusive of parking for persons with a disability and guests, that exceeds 0.5 spaces per unit. Notwithstanding paragraph (1), if a development includes at least 40 percent moderate-income units for housing developments meeting the criteria of subparagraph (D) of paragraph (1) of subdivision (b), is located within one-half mile of a major transit stop, as defined in subdivision (b) of Section 21155 of the Public Resources Code, and the residents of the development have unobstructed access to the major transit stop from the development then, upon the request of the developer, a city, county, or city and

county shall not impose a vehicular parking ratio, inclusive of parking for persons with a disability and guests, that exceeds 0.5 spaces per bedroom.

(B) For purposes of this subdivision, "unobstructed access to the major transit stop" means a resident is able to access the major transit stop without encountering natural or constructed impediments. For purposes of this subparagraph, "natural or constructed impediments" includes, but is not limited to, freeways, rivers, mountains, and bodies of water, but does not include residential structures, shopping centers, parking lots, or rails used for transit.

(3) Notwithstanding paragraph (1), if a development meets the criteria of subparagraph (G) of paragraph (1) of subdivision (b), then, upon the request of the developer, a city, county, or city and county shall not impose vehicular parking standards if the development meets any of the following criteria:

(A) The development is located within one-half mile of a major transit stop and there is unobstructed access to the major transit stop from the development.

(B) The development is a for-rent housing development for individuals who are 55 years of age or older that complies with Sections 51.2 and 51.3 of the Civil Code and the development has either paratransit service or unobstructed access, within one-half mile, to fixed bus route service that operates at least eight times per day.

(C) The development is either a special needs housing development, as defined in Section 51312 of the Health and Safety Code, or a supportive housing development, as defined in Section 50675.14 of the Health and Safety Code. A development that is a special needs housing development shall have either paratransit service or unobstructed access, within one-half mile, to fixed bus route service that operates at least eight times per day.

(4) If the total number of parking spaces required for a development is other than a whole number, the number shall be rounded up to the next whole number. For purposes of this subdivision, a development may provide onsite parking through tandem parking or uncovered parking, but not through onstreet parking.

(5) This subdivision shall apply to a development that meets the requirements of subdivisions (b) and (c), but only at the request of the applicant. An applicant may request parking incentives or concessions beyond those provided in this subdivision pursuant to subdivision (d).

(6) This subdivision does not preclude a city, county, or city and county from reducing or eliminating a parking requirement for development projects of any type in any location.

(7) Notwithstanding paragraphs (2) and (3), if a city, county, city and county, or an independent consultant has conducted an areawide or jurisdictionwide parking study in the last seven years, then the city, county, or city and county may impose a higher vehicular parking ratio not to exceed the ratio described in paragraph (1), based upon substantial evidence found in the parking study, that includes, but is not limited to, an

analysis of parking availability, differing levels of transit access, walkability access to transit services, the potential for shared parking, the effect of parking requirements on the cost of market-rate and subsidized developments, and the lower rates of car ownership for low-income and very low income individuals, including seniors and special needs individuals. The city, county, or city and county shall pay the costs of any new study. The city, county, or city and county shall make findings, based on a parking study completed in conformity with this paragraph, supporting the need for the higher parking ratio.

(8) A request pursuant to this subdivision shall neither reduce nor increase the number of incentives or concessions to which the applicant is entitled pursuant to subdivision (d).

(q) Each component of any density calculation, including base density and bonus density, resulting in fractional units shall be separately rounded up to the next whole number. The Legislature finds and declares that this provision is declaratory of existing law.

(r) This chapter shall be interpreted liberally in favor of producing the maximum number of total housing units.

(s) Notwithstanding any other law, if a city, including a charter city, county, or city and county has adopted an ordinance or a housing program, or both an ordinance and a housing program, that incentivizes the development of affordable housing that allows for density bonuses that exceed the density bonuses required by the version of this section effective through December 31, 2020, that city, county, or city and county is not required to amend or otherwise update its ordinance or corresponding affordable housing incentive program to comply with the amendments made to this section by the act adding this subdivision, and is exempt from complying with the incentive and concession calculation amendments made to this section by the act adding this subdivision as set forth in subdivision (d), particularly subparagraphs (B) and (C) of paragraph (2) of that subdivision, and the amendments made to the density tables under subdivision (f).

(t) When an applicant proposes to construct a housing development that conforms to the requirements of subparagraph (A) or (B) of paragraph (1) of subdivision (b) that is a shared housing building, the city, county, or city and county shall not require any minimum unit size requirements or minimum bedroom requirements that are in conflict with paragraph (7) of subdivision (o).

(u)

(1) The Legislature finds and declares that the intent behind the Density Bonus Law is to allow public entities to reduce or even eliminate subsidies for a particular project by allowing a developer to include more total units in a project than would otherwise be allowed by the local zoning ordinance in exchange for affordable units. It further reaffirms that the intent is to cover at least some of the financing gap of affordable housing with regulatory incentives, rather than additional public subsidy.

(2) It is therefore the intent of the Legislature to make modifications to the Density Bonus Law by the act adding this subdivision to further incentivize the construction of very low, low-, and moderate-income housing units. It is further the intent of the Legislature in making these modifications to the Density Bonus Law to ensure that any additional benefits conferred upon a developer are balanced with the receipt of a public benefit in the form of adequate levels of affordable housing. The Legislature further intends that these

modifications will ensure that the Density Bonus Law creates incentives for the construction of more housing across all areas of the state.

(v)

(1) Provided that the resulting housing development would not restrict more than 50 percent of the total units to moderate-income, lower income, or very low income households, a city, county, or city and county shall grant an additional density bonus calculated pursuant to paragraph (2) when an applicant proposes to construct a housing development that conforms to the requirements of paragraph (1) of subdivision (b), agrees to include additional rental or for-sale units affordable to very low income households or moderate income households, and meets any of the following requirements:

(A) The housing development conforms to the requirements of subparagraph (A) of paragraph (1) of subdivision (b) and provides 24 percent of the total units to lower income households.

(B) The housing development conforms to the requirements of subparagraph (B) of paragraph (1) of subdivision (b) and provides 15 percent of the total units to very low income households.

(C) The housing development conforms to the requirements of subparagraph (D) of paragraph (1) of subdivision (b) and provides 44 percent of the total units to moderate-income households.

(2) A city, county, or city and county shall grant an additional density bonus for a housing development that meets the requirements of paragraph (1), calculated as follows:

Percentage Very Low Income Units Percentage Density Bonus

5	20
6	23.75
7	27.5
8	31.25
9	35
10	38.75

Percentage Moderate-Income Units Percentage Density Bonus

5	20
6	22.5
7	25
8	27.5

9	30
10	32.5
11	35
12	38.75
13	42.5
14	46.25
15	50

(3) The increase required by paragraphs (1) and (2) shall be in addition to any increase in density granted by subdivision (b).

(4) The additional density bonus required under this subdivision shall be calculated using the number of units excluding any density bonus awarded by this section.

Cal. Gov. Code § 65915.1

Section 65915.1 - Affordable housing impact fees not to be imposed on affordable units

For purposes of Section 65915, affordable housing impact fees, including inclusionary zoning fees and in-lieu fees, shall not be imposed on a housing development's affordable units.

Ca. Gov. Code § 65915.1

Added by Stats 2021 ch 346 (AB 571),s 1, eff. 1/1/2022.

Cal. Gov. Code § 65915.2

Section 65915.2 - Affordability restrictions

If permitted by local ordinance, nothing in Section 65915 shall be construed to prohibit a city, county, or city and county from requiring an affordability period longer than 55 years for any units that qualified the applicant for the award of the density bonus developed in compliance with a local ordinance that requires, as a condition of the development of residential units, that the development include a certain percentage of units that are affordable to, and occupied by, low-income, lower income, very low income, or extremely low income households and that will be financed without low-income housing tax credits.

Ca. Gov. Code § 65915.2

Added by Stats 2021 ch 348 (AB 634),s 1, eff. 1/1/2022.

Cal. Gov. Code § 65915.5

Section 65915.5 - Density bonus or other incentives of equivalent value upon conversion of apartments to condominium project

(a) When an applicant for approval to convert apartments to a condominium project agrees to provide at least 33 percent of the total units of the proposed condominium project to persons and families of low or moderate income as defined in Section 50093 of the Health and Safety Code, or 15 percent of the total units of the proposed condominium project to lower income households as defined in Section 50079.5 of the Health and Safety Code, and agrees to pay for the reasonably necessary administrative costs incurred by a city, county, or city and county pursuant to this section, the city, county, or city and county shall either (1) grant a density bonus or (2) provide other incentives of equivalent financial value. A city, county, or city and county may place such reasonable conditions on the granting of a density bonus or other incentives of equivalent financial value as it finds appropriate, including, but not limited to, conditions which assure continued affordability of units to subsequent purchasers who are persons and families of low and moderate income or lower income households.

(b) For purposes of this section, "density bonus" means an increase in units of 25 percent over the number of apartments, to be provided within the existing structure or structures proposed for conversion.

(c) For purposes of this section, "other incentives of equivalent financial value" shall not be construed to require a city, county, or city and county to provide cash transfer payments or other monetary compensation but may include the reduction or waiver of requirements which the city, county, or city and county might otherwise apply as conditions of conversion approval.

(d) An applicant for approval to convert apartments to a condominium project may submit to a city, county, or city and county a preliminary proposal pursuant to this section prior to the submittal of any formal requests for subdivision map approvals. The city, county, or city and county shall, within 90 days of receipt of a written proposal, notify the applicant in writing of the manner in which it will comply with this section. The city, county, or city and county shall establish procedures for carrying out this section, which shall include legislative body approval of the means of compliance with this section.

(e) Nothing in this section shall be construed to require a city, county, or city and county to approve a proposal to convert apartments to condominiums.

(f) An applicant shall be ineligible for a density bonus or other incentives under this section if the apartments proposed for conversion constitute a housing development for which a density bonus or other incentives were provided under Section 65915.

(g) An applicant shall be ineligible for a density bonus or any other incentives or concessions under this section if the condominium project is proposed on any property that includes a parcel or parcels on which rental dwelling units are or, if the dwelling units have been vacated or demolished in the five-year period preceding the application, have been subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower or very low income; subject to any other form of rent or price

control through a public entity's valid exercise of its police power; or occupied by lower or very low income households, unless the proposed condominium project replaces those units, as defined in subparagraph (B) of paragraph (3) of subdivision (c) of Section 65915, and either of the following applies:

- (1) The proposed condominium project, inclusive of the units replaced pursuant to subparagraph (B) of paragraph (3) of subdivision (c) of Section 65915, contains affordable units at the percentages set forth in subdivision (a).
- (2) Each unit in the development, exclusive of a manager's unit or units, is affordable to, and occupied by, either a lower or very low income household.
- (h) Subdivision (g) does not apply to an applicant seeking a density bonus for a proposed housing development if their application was submitted to, or processed by, a city, county, or city and county before January 1, 2015.

Ca. Gov. Code § 65915.5

Amended by Stats 2014 ch 682 (AB 2222),s 2, eff. 1/1/2015.

Cal. Gov. Code § 65915.7

Section 65915.7 - [Effective until 1/1/2028] Development bonuses; mixed-use projects

(a) When an applicant for approval of a commercial development has entered into an agreement for partnered housing described in subdivision (c) to contribute affordable housing through a joint project or two separate projects encompassing affordable housing, the city, county, or city and county shall grant to the commercial developer a development bonus as prescribed in subdivision (b). Housing shall be constructed on the site of the commercial development or on a site that is all of the following:

- (1) Within the boundaries of the local government.
- (2) In close proximity to public amenities including schools and employment centers.
- (3) Located within one-half mile of a major transit stop, as defined in subdivision (b) of Section 21155 of the Public Resources Code.

(b) The development bonus granted to the commercial developer shall mean incentives, mutually agreed upon by the developer and the jurisdiction, that may include, but are not limited to, any of the following:

- (1) Up to a 20-percent increase in maximum allowable intensity in the General Plan.
- (2) Up to a 20-percent increase in maximum allowable floor area ratio.
- (3) Up to a 20-percent increase in maximum height requirements.
- (4) Up to a 20-percent reduction in minimum parking requirements.
- (5) Use of a limited-use/limited-application elevator for upper floor accessibility.
- (6) An exception to a zoning ordinance or other land use regulation.

(c) For purposes of this section, the agreement for partnered housing shall be between the commercial developer and the housing developer, shall identify how the commercial developer will contribute affordable housing, and shall be approved by the city, county, or city and county.

(d) For purposes of this section, affordable housing may be contributed by the commercial developer in one of the following manners:

- (1) The commercial developer may directly build the units.
- (2) The commercial developer may donate a portion of the site or property elsewhere to the affordable housing developer for use as a site for affordable housing.
- (3) The commercial developer may make a cash payment to the affordable housing developer that shall be used towards the costs of constructing the affordable housing project.

- (e) For purposes of this section, subparagraph (A) of paragraph (3) of subdivision (c) of Section 65915 shall apply.
- (f) Nothing in this section shall preclude any additional allowances or incentives offered to developers by local governments pursuant to law or regulation.
- (g) If the developer of the affordable units does not commence with construction of those units in accordance with timelines ascribed by the agreement described in subdivision (c), the local government may withhold certificates of occupancy for the commercial development under construction until the developer has completed construction of the affordable units.
- (h) In order to qualify for a development bonus under this section, a commercial developer shall partner with a housing developer that provides at least 30 percent of the total units for low-income households or at least 15 percent of the total units for very low-income households.
- (i) Nothing in this section shall preclude an affordable housing developer from seeking a density bonus, concessions or incentives, waivers or reductions of development standards, or parking ratios under Section 65915.
- (j) A development bonus pursuant to this section shall not include a reduction or waiver of the requirements within an ordinance that requires the payment of a fee by a commercial developer for the promotion or provision of affordable housing.
- (k) A city or county shall submit to the Department of Housing and Community Development, as part of the annual report required by Section 65400, information describing a commercial development bonus approved pursuant to this section, including the terms of the agreements between the commercial developer and the affordable housing developer, and the developers and the local jurisdiction, and the number of affordable units constructed as part of the agreements.
- (l) For purposes of this section, "partner" means formation of a partnership, limited liability company, corporation, or other entity recognized by the state in which the commercial development applicant and the affordable housing developer are each partners, members, shareholders or other participants, or a contract or agreement between a commercial development applicant and affordable housing developer for the development of both the commercial and the affordable housing properties.
- (m) This section shall remain in effect only until January 1, 2028, and as of that date is repealed.

Cal. Gov. Code § 65916

Section 65916 - Direct financial contribution to development

Where there is a direct financial contribution to a housing development pursuant to Section 65915 through participation in cost of infrastructure, write-down of land costs, or subsidizing the cost of construction, the city, county, or city and county shall assure continued availability for low- and moderate-income units for 30 years. When appropriate, the agreement provided for in Section 65915 shall specify the mechanisms and procedures necessary to carry out this section.

Ca. Gov. Code § 65916

Added by Stats. 1979, Ch. 1207.

Cal. Gov. Code § 65917

Section 65917 - Legislative intent

In enacting this chapter it is the intent of the Legislature that the density bonus or other incentives offered by the city, county, or city and county pursuant to this chapter shall contribute significantly to the economic feasibility of lower income housing in proposed housing developments. In the absence of an agreement by a developer in accordance with Section 65915, a locality shall not offer a density bonus or any other incentive that would undermine the intent of this chapter.

Ca. Gov. Code § 65917

Amended by Stats 2001 ch 115 (SB 153), s 14, eff. 1/1/2002.

Cal. Gov. Code § 65917.2

Section 65917.2 - Floor area ratio bonus

(a) As used in this section, the following terms shall have the following meanings:

(1) "Eligible housing development" means a development that satisfies all of the following criteria:

(A) The development is a multifamily housing development that contains five or more residential units, exclusive of any other floor area ratio bonus or incentive or concession awarded pursuant to this chapter.

(B) The development is located within one of the following:

(i) An urban infill site that is within a transit priority area.

(ii) One-half mile of a major transit stop.

(C) The site of the development is zoned to allow residential use or mixed-use with a minimum planned density of at least 20 dwelling units per acre and does not include any land zoned for low density residential use or for exclusive nonresidential use.

(D) The applicant and the development satisfy the replacement requirements specified in subdivision (c) of Section 65915.

(E) The development includes at least 20 percent of the units, excluding any additional units allowed under a floor area ratio bonus or other incentives or concessions provided pursuant to this chapter, with an affordable housing cost or affordable rent to, and occupied by, persons with a household income equal to or less than 50 percent of the area median income, as determined pursuant to Section 50093 of the Health and Safety Code, and subject to an affordability restriction for a minimum of 55 years.

(F) The development complies with the height requirements applicable to the underlying zone. A development shall not be eligible to use a floor area ratio bonus or other incentives or concessions provided pursuant to this chapter to relieve the development from a maximum height limitation.

(2) "Floor area ratio" means the ratio of gross building area of the eligible housing development, excluding structured parking areas, proposed for the project divided by the net lot area. For purposes of this paragraph, "gross building area" means the sum of all finished areas of all floors of a building included within the outside faces of its exterior walls.

(3) "Floor area ratio bonus" means an allowance for an eligible housing development to utilize a floor area ratio over the otherwise maximum allowable density permitted under the applicable zoning ordinance and land use elements of the general plan of a city or county, calculated pursuant to paragraph (2) of subdivision (b).

(4) "Major transit stop" has the same meaning as defined in Section 21155 of the Public Resources Code.

(5) "Transit priority area" has the same meaning as defined in Section 21099 of the Public Resources Code.

(b)

(1) A city council, including a charter city council or the board of supervisors of a city and county, or county board of supervisors may establish a procedure by ordinance to grant a developer of an eligible housing development, upon the request of the developer, a floor area ratio bonus, calculated as provided in paragraph (2), in lieu of a density bonus awarded on the basis of dwelling units per acre.

(2) In calculating the floor area ratio bonus pursuant to this section, the allowable gross residential floor area in square feet shall be the product of all of the following amounts:

(A) The allowable residential base density in dwelling units per acre.

(B) The site area in square feet, divided by 43,560.

(C) 2,250.

(c) The city council or county board of supervisors shall not impose any parking requirement on an eligible housing development in excess of 0.1 parking spaces per unit that is affordable to persons and families with a household income equal to or less than 120 percent of the area median income and 0.5 parking spaces per unit that is offered at market rate.

(d) A city or county that adopts a floor area ratio bonus ordinance pursuant to this section shall allow an applicant seeking to develop an eligible residential development to calculate impact fees based on square feet, instead of on a per unit basis.

(e) In the case of an eligible housing development that is zoned for mixed-use purposes, any floor area ratio requirement under a zoning ordinance or land use element of the general plan of the city or county applicable to the nonresidential portion of the eligible housing development shall continue to apply notwithstanding the award of a floor area ratio bonus in accordance with this section.

(f) An applicant for a floor area ratio bonus pursuant to this section may also submit to the city, county, or city and county a proposal for specific incentives or concessions pursuant to subdivision (d) of Section 65915.

(g)

(1) This section shall not be interpreted to do either of the following:

(A) Supersede or preempt any other section within this chapter.

(B) Prohibit a city, county, or city and county from providing a floor area ratio bonus under terms that are different from those set forth in this section.

(2) The adoption of an ordinance pursuant to this section shall not be interpreted to relieve a city, county, or city and county from complying with Section 65915.

Cal. Gov. Code § 65917.5

Section 65917.5 - Density bonus to developer of commercial or industrial project

- (a) As used in this section, the following terms shall have the following meanings:
- (1) "Child care facility" means a facility installed, operated, and maintained under this section for the nonresidential care of children as defined under applicable state licensing requirements for the facility.
 - (2) "Density bonus" means a floor area ratio bonus over the otherwise maximum allowable density permitted under the applicable zoning ordinance and land use elements of the general plan of a city, including a charter city, city and county, or county of:
 - (A) A maximum of five square feet of floor area for each one square foot of floor area contained in the child care facility for existing structures.
 - (B) A maximum of 10 square feet of floor area for each one square foot of floor area contained in the child care facility for new structures.

For purposes of calculating the density bonus under this section, both indoor and outdoor square footage requirements for the child care facility as set forth in applicable state child care licensing requirements shall be included in the floor area of the child care facility.
 - (3) "Developer" means the owner or other person, including a lessee, having the right under the applicable zoning ordinance of a city council, including a charter city council, city and county board of supervisors, or county board of supervisors to make an application for development approvals for the development or redevelopment of a commercial or industrial project.
 - (4) "Floor area" means as to a commercial or industrial project, the floor area as calculated under the applicable zoning ordinance of a city council, including a charter city council, city and county board of supervisors, or county board of supervisors and as to a child care facility, the total area contained within the exterior walls of the facility and all outdoor areas devoted to the use of the facility in accordance with applicable state child care licensing requirements.
- (b) A city council, including a charter city council, city and county board of supervisors, or county board of supervisors may establish a procedure by ordinance to grant a developer of a commercial or industrial project, containing at least 50,000 square feet of floor area, a density bonus when that developer has set aside at least 2,000 square feet of floor area and 3,000 outdoor square feet to be used for a child care facility. The granting of a bonus shall not preclude a city council, including a charter city council, city and county board of supervisors, or county board of supervisors from imposing necessary conditions on the project or on the additional square footage. Projects constructed under this section shall conform to height, setback, lot coverage, architectural review, site plan review, fees, charges, and other health, safety, and zoning requirements generally applicable to

casetext
Part of Thomson Reuters

construction in the zone in which the property is located. A consortium with more than one developer may be permitted to achieve the threshold amount for the available density bonus with each developer's density bonus equal to the percentage participation of the developer. This facility may be located on the project site or may be located offsite as agreed upon by the developer and local agency. If the child care facility is not located on the site of the project, the local agency shall determine whether the location of the child care facility is appropriate and whether it conforms with the intent of this section. The child care facility shall be of a size to comply with all state licensing requirements in order to accommodate at least 40 children.

(c) The developer may operate the child care facility itself or may contract with a licensed child care provider to operate the facility. In all cases, the developer shall show ongoing coordination with a local child care resource and referral network or local governmental child care coordinator in order to qualify for the density bonus.

(d) If the developer uses space allocated for child care facility purposes, in accordance with subdivision (b), for purposes other than for a child care facility, an assessment based on the square footage of the project may be levied and collected by the city council, including a charter city council, city and county board of supervisors, or county board of supervisors. The assessment shall be consistent with the market value of the space. If the developer fails to have the space allocated for the child care facility within three years, from the date upon which the first temporary certificate of occupancy is granted, an assessment based on the square footage of the project may be levied and collected by the city council, including a charter city council, city and county board of supervisors, or county board of supervisors in accordance with procedures to be developed by the legislative body of the city council, including a charter city council, city and county board of supervisors, or county board of supervisors. The assessment shall be consistent with the market value of the space. A penalty levied against a consortium of developers shall be charged to each developer in an amount equal to the developer's percentage square feet participation. Funds collected pursuant to this subdivision shall be deposited by the city council, including a charter city council, city and county board of supervisors, or county board of supervisors into a special account to be used for child care services or child care facilities.

(e) Once the child care facility has been established, prior to the closure, change in use, or reduction in the physical size of, the facility, the city, city council, including a charter city council, city and county board of supervisors, or county board of supervisors shall be required to make a finding that the need for child care is no longer present, or is not present to the same degree as it was at the time the facility was established.

(f) The requirements of Chapter 5 (commencing with Section 66000) and of the amendments made to Sections 53077, 54997, and 54998 by Chapter 1002 of the Statutes of 1987 shall not apply to actions taken in accordance with this section.

(g) This section shall not apply to a voter-approved ordinance adopted by referendum or initiative.
