REGULAR AGENDA

2. Horse / Multi-Use Trail – Line of Sight Review

Committee Liaison Lower introduced the item by stating that the Unified Land Development Code Review Committee (ULDC) requested the Roadway, Equestrian Trails & Greenway Committee (RETGAC) review line of sight conditions along the Town's trails. Any input or recommendations would help inform future practices or guidelines.

Members were presented with the current road-to-trail sight triangle regulations, which require a 10-foot by 10-foot line of sight. Discussion focused on the importance of maintaining adequate visibility to ensure the safety of both riders and vehicles.

Following discussion, members agreed that the existing 10-foot line of sight appeared sufficient for rider visibility and overall safety. Additional discussion also took place regarding line of sight concerns unrelated to trails.

COMMITTEE MEMBERS COMMENTS

Committee Member Katie Lakeman requested an update on North Road trail. She also asked a question regarding a new polo field and where people were turning into the property. Mr. Lower stated that he has been working on the matter.

Committee Member Ashley Bruce thanked Mr. Lower for moving dirt on the F road trail. She expressed her excitement about the work being done on the Loxahatchee Groves park and requested an update at the next meeting. Ms. Bruce also encouraged continued discussion

regarding connectivity between the Aldi trails and the park, as well as the possibility of adding bridges at trail crossings, including areas along Folsom Road and G Road near Madison Green.

Vice Chair Darcy Dean Murray echoed Ms. Bruce's comments regarding additional trail connectivity, specifically a potential trail connection into the preserve off E Road. She also raised concerns about holes located along the canal side of the preserve and mentioned that some residents may be interested in granting the Town easements prior to selling their properties.

Chair Frank Schiola had no report.
