Civility: Being "civil" is not a restraint on the First Amendment right to speak out, but it is more than just being polite. Civility is stating your opinions and beliefs, without degrading someone else in the process. Civility requires a person to respect other people's opinions and beliefs even if he or she strongly disagrees. It is finding a common ground for dialogue with others. It is being patient, graceful, and having a strong character. That is why we say "Character Counts" in Town of Loxahatchee. Civility is practiced at all Town meetings.

Special Needs: In accordance with the provisions of the American with Disabilities Act (ADA), persons in need of a special accommodation to participate in this proceeding shall within three business days prior to any proceeding, contact the Town Clerk's Office, 155 F Road, Loxahatchee Groves, Florida, (561) 793-2418.

Quasi-Judicial Hearings: Some of the matters on the agenda may be "quasi-judicial" in nature. Town Council Members are required to disclose all ex-parte communications regarding these items and are subject to voir dire (a preliminary examination of a witness or a juror by a judge or council) by any affected party regarding those communications. All witnesses testifying will be "sworn" prior to their testimony. However, the public is permitted to comment, without being sworn. Unsworn comment will be given its appropriate weight by the Town Council.

Appeal of Decision: If a person decides to appeal any decision made by the Town Council with respect to any matter considered at this meeting, he or she will need a record of the proceeding, and for that purpose, may need to ensure that a verbatim record of the proceeding is made, which record includes any testimony and evidence upon which the appeal will be based.

Consent Calendar: Those matters included under the Consent Calendar are typically self-explanatory, non controversial, and are not expected to require review or discussion. All items will be enacted by a single motion. If discussion on an item is desired, any Town Council Member, without a motion, may "pull" or remove the item to be considered separately. If any item is quasi-judicial, it may be removed from the Consent Calendar to be heard separately, by a Town Council Member, or by any member of the public desiring it to be heard, without a motion.

EXECUTIVE SUMMARY

Subject: Public Records Requests Policy

References: Chapter 119, Florida State Statutes

Government-in-the-Sunshine-Law

Purpose: The Town of Loxahatchee Groves, Florida (the "Town") fully embraces the letter

and spirit of the Florida Public Records Law, Chapter 119, F.S., governing the public's right to access records held by the Town, and the constitutional right of access guaranteed by Article I, § 24(a) of the Florida Constitution. In support of the public's right to access such records, the Town hereby establishes the following Public Records Policy (the "Policy"). The guidelines established below are set forth to inform and guide Town Staff in the implementation of the Public Records Law and provide uniformity in providing access and charging fees for inspection and copies of public records. Additionally, the guidelines set forth below are designed to ensure that public records requested are timely compiled, reviewed, and redacted, if necessary, to prevent the inadvertent disclosure of

certain information made confidential and/or exempt pursuant to state law.

DEFINITIONS

Confidential Public Record: Shall be those records, or portions thereof, specifically designated as "*confidential*" by applicable statute. Unlike "*exempt*" records, the Town has no discretion and may not release records designated by the Florida Legislature as confidential.

Electronic Communications: All communications, regardless of the technology or means of transmission, sent electronically from one device to another. This includes electronic mail (e-mail), SMS messages (text messages), MMS (multimedia / picture messages), social media records (Facebook, Instagram, YouTube, etc.)

Employee: As used in this policy, employee shall include all persons who are full-time, part-time and on-call employees of the Town and shall also include any non-paid / paid volunteers, interns, and appointees to the various advisory boards or committees.

Exempt Public Records: Shall be those records, or portions thereof, specifically designated as "exempt" by applicable statue. As exempt records, the Town has discretion to release such records, in whole or part, when there is a specific public purpose.

Officials: Shall mean the Town Council.

Public Record: Public records include all documents whether in paper or electronic form including, but not limited to, papers, emails, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, faxes, or other materials on computers, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by the Town. (§ 119.011(12), F.S.).

Redact / Redaction: The act of censoring all or part of a record to obscure or excise exempt or confidential information contained therein, thereby preventing public disclosure of the protected content.

REQUESTS THAT WILL NOT BE PROCESSED

Request for Information vs. Request for Records:

The Public Records Law only requires the Town to provide access to existing public records. The Town is not required by law to create new documents in response to a public records request (i.e., create lists or other compilations that do not already exist). The Town further will not explain document contents or interpret documents produced as part of a public records request (i.e., provide staff to assist with understanding the information contained in a document).

Adopted via Resolution No. 2025-63

Continuing or Perpetual Public Records Requests:

The Town is not obligated to provide records on a continuing basis to a requestor. For example, a requestor asks to be supplied with copies of all Town Council agendas for the next two (2) years. The Town is only required to produce documents that exist at the time the request is made. The requestor must renew his or her request with the Town to obtain future documents.

GENERAL PROCEDURES FOR REQUESTING PUBLIC RECORDS

Format of Public Records Request and Identity of Requestor:

Requests for public records may be made in writing or verbally. As a general rule, the Public Records Law does not require that a request for public records be in writing, although individuals may wish to make their request in writing to ensure that they have an accurate record of what was requested.

Requests for public records are not required to be in any particular format. There are no "magic words" in order to make a request, and requestors are not required to fill out a Town form. However, the requestor must at least identify the records requested with sufficient clarity to allow the Town to identify, retrieve and review the records. If a request is vague or ambiguous, then the Town Clerk or designee may contact the requestor for clarification. Please note that a requestor's failure to provide clarification when requested may result in a delay of inspection or copying of public records, or may result in a large number of documents being produced for which copying and other special service charges may apply (i.e., extensive requests).

Copies of public records shall be made available to the public in the format requested provided that the Town stores or maintains the records in the requested format.

Requestors of public records do not have to identify themselves or state the reason that they desire the records. However, the Town's Clerk or designee may request contact information in order to let the requestor know when records are ready for pickup, to seek clarification on a request, or to provide other information to the requestor (i.e., deposit required, copying charges). The Town's request for contact information is not designed to learn the identity of a requestor, but instead, is designed to ensure that public records are timely received.

Response Time:

Public records are to be available for inspection or copying during regular business hours as outlined above, with the exception of identified Town holidays. Inspection or copying of public records must be made available within a reasonable period of time and under reasonable conditions. Many factors determine what is a reasonable time and what are reasonable conditions such as the: nature of the request; time involved in collecting and producing the requested information; scope and volume of the material involved; general accessibility of the records; personnel required to process the request and redact any records requested; and information resources necessary to collect or generate the requested information. The Town must take into account its obligation to the citizens for the daily operation of Town government

Adopted via Resolution No. 2025-63

when presented with a voluminous request. To request that Town Staff immediately cease normal business in order to fulfill such requests quickly would disrupt the normal workflow and cause disruption in services to the rest of the citizens. The accumulation of materials, research, and time involved must be weighed against the daily obligations to the taxpayers. Thus, "reasonable" must be defined by staff resources and workload, and not be an arbitrary timeframe.

It is the goal of the Town that all requests for public records will be acknowledged in writing and satisfied within a reasonable time following the Town Clerk's receipt of the request. While every effort will be made to comply with public records requests promptly and in good faith, the Town policy is that an initial acknowledgement of any public records request should be made to a requestor within four (4) business days after receipt. Requests will be processed in the order in which they are received.

Responding to Requests:

1. Town Clerk or Designee Responsibilities:

The Town Clerk or designee shall serve as the primary intake Department and contact for public records requests in the Town.

Upon receipt of a public records request, the Town Clerk or designee will acknowledge the request and promptly forward it to the appropriate Town Department Head or designee for response. Acknowledgement and forwarding of the request should occur within four (4) business days after receipt of a request.

The Town Clerk or designee shall act as the conduit for the release of all public records and facilitate payment for any fees or charges. When the request is only to inspect records, the Town Clerk or designee shall facilitate the inspection of such records.

The Town Clerk or designee shall endeavor to have written communications with the requestor whenever possible in order to memorialize what documents were requested, and when the request was fulfilled. Copies of written responses will be kept on file for one (1) fiscal year pursuant to the State of Florida General Records Schedule GS1-SL for State and Local Government Agencies.

For large or voluminous requests (those requiring more than \$25.00 in copy/retrieval charges or extensive use charges), the Town Clerk's Office shall require an advanced deposit prior to beginning retrieval. The deposit will be equal to one-half (½) of the written cost estimate, and it will be applied toward the final total cost amount for the request. The remaining balance for the request is due and payable at the time the request is completed and ready for pick-up. The final total may differ from the written estimate, and the final total shall be based on actual cost. The Town Clerk or designee shall notify the requestor that actual costs may vary. In the event the required deposit, based on the good faith written estimate, was more than the actual cost to

Adopted via Resolution No. 2025-63

prepare and produce the records request or prepare and produce for inspection, the Town shall refund the difference.

2. Town Staff Responsibilities:

Town employees receiving a public records request shall forward such request to the Town Clerk or designee for processing. Requests should be forwarded to the Town Clerk or designee as soon as practicable, but no later than two (2) business days after receipt. The Town employee should not respond to the person or entity requesting records other than to state that the request has been forwarded to the Town Clerk's Office for processing, and if the requestor has any additional questions to please contact the Town Clerk's Office.

If a public records request is forwarded to a Department Head or designee by the Town Clerk's Office for response, then the Department Head or designee shall provide the Town Clerk's Office with a written estimate of costs and timeframe for retrieval. Such estimate shall include total hours and the hourly rate, including benefits, for each staff person fulfilling the request. Such written estimate shall be emailed to the Town Clerk's Office within two (2) business days after receipt of the public records request. There shall be no charge for preparing a written estimate of costs and time. The Town Clerk's Office will notify the requestor of the estimated staff cost/time to fulfill the request and any copying charges.

For large or voluminous requests (those estimated to require more than \$25.00 in copy/retrieval charges or extensive use charges), the Town Clerk's Office will require an advanced deposit from the requestor prior to beginning retrieval. <u>DEPARTMENTS ARE NOT TO BEGIN WORK ON COLLECTING AND RETRIEVING DOCUMENTS UNTIL THE TOWN CLERK'S OFFICE HAS STATED THAT THE REQUIRED DEPOSIT HAS BEEN PAID.</u>

Departments shall respond to all public records requests in a reasonable time, taking into account the extent and nature of the request. If the time to respond to a request exceeds the initial estimate provided to the Town Clerk's Office, the Department Head or designee shall immediately notify the Town Clerk's Office and provide an updated timeframe for completion. It is the Department Head or designee's responsibility to ensure that requests are completed in accordance with estimated timeframes, and to notify the Town Clerk's Office of any changes to those timeframes.

After the appropriate Department compiles the information requested, all information gathered for the request will be submitted to the Town Clerk in writing or e-mail. If the Department Head or designee is responding to numerous requests, the Department Head or designee shall provide the Town Clerk's Office with a short memorandum when providing documents. The memorandum shall identify which documents are responsive to particular requests.

If the requested public records are not within the Department, the Department Head or designee shall notify the Town Clerk's Office immediately. The Town Clerk's Office shall then forward the request to the appropriate Town Department, if known.

Adopted via Resolution No. 2025-63

Department Heads or designees shall not provide original documents to the Town Clerk's Office in response to a public records request unless a specific request to review original documents has been made by a requestor. If a request for original documents has been made, then the Department Head or designee shall notify the Town Clerk's Office in person that the documents provided are originals. A cover page clearly marked "original document" shall also be provided to the Town Clerk's Office.

Department Heads or designees shall be familiar with the disclosure and retention requirements of the Public Records Law, and supervise records review, copying, and redaction activities within their area of responsibility.

3. Requests by Officials:

All Councilmember records requests must be submitted to the Town Clerk, who will notify the Town Manager of all Town Councilmember requests. All Councilmembers shall have access to general records of the Town, except: records relating to active or ongoing investigations; records related to active or pending audits; and/or any record protected under Florida Statutes §119 (Public Records Law) or other applicable law. Requests will be considered extensive if they require substantial time or staff resources, or if they incur external costs, such as consultants(s) or legal fees. In such cases, the Town Clerk will prepare and provide a written cost estimate to the requesting Councilmember. Each Councilmember shall receive an allowance of up to \$50.00 per month. The Councilmember must submit full payment in advance. Work on the request will not begin until the required payment has been received. If a records request is fulfilled for one Councilmember, it will not automatically be distributed to the remaining Councilmembers. Other Councilmembers may request the same information, which will be provided free of charge upon their written request.

DENIAL OR REDACTION OF RECORDS

A request to inspect or copy public records can be denied only under the authority of a specific statutory exemption.

Department Heads or designees shall be responsible for reviewing and identifying the records or parts thereof in their custody which are exempt or confidential from the inspection, examination, and copying under the Public Records Law. The Town Clerk's Office and the Town Attorney shall be available to answer questions regarding exemptions and proper methods of redaction. If a public record contains both exempt and non-exempt information, that information which is exempt must be redacted and the remainder of the record provided to the requestor. (§ 119.07(1)(d), F.S.)

If it is determined that a record or part of a record is exempt from inspection or copying, and the request is then denied, the basis for the denial, including the statutory citation to the exemption, must be communicated to the requestor in writing. (§ 119.07(1)(e), F.S.)

Adopted via Resolution No. 2025-63

Community Standards Department(Building, Code Enforcement, Engineering, and Planning & Zoning Divisions): For routine and noncontroversial, walk-in/telephone-initiated, public records requests for Community Standards Department, the Department Head or designee will ensure that the type of confidential and/or exempt information referenced in the attached Appendix "A" is not being distributed to the general public. The type of information made exempt and/or confidential pursuant to the requirements of state law as provided in Appendix "A" may only be disclosed as set forth therein. However, depending upon the type of information requested, the state law does allow such exempt and/or confidential information to be given to the following persons or entities: the property owner; a leaseholder; another state or federal agency; or a licensed architect, engineer, or contractor who is performing work on or related to the property.

For more information on the most common exemptions for public records, please see Sec. 119.071, F.S. and Appendix "B", which is attached hereto.

LITIGATION

Any subpoenas or litigation discovery requests shall be referred to the Town Attorney.

PUBLIC RECORDS FEES AND CHARGES

Fees to be charged for providing access to public records must be in accordance with Sec. 119.07(4), F.S., as explained below. Fees must be paid before documents are produced.

For any and all requestors that have requested public records and have failed to pay in full for those records, please be advised that the Town Clerk's Office will not process another public records or public data request until the outstanding balance is paid in full. *Lozman v. City of Riviera Beach*, 995 So. 2d 1027 (Fla. 4th DCA 2008).

The Public Records Law allows the Town to collect a "per copy" fee or the actual cost for materials and supplies used to duplicate records. In addition, the Town may collect a reasonable service charge when a request to inspect or copy public records requires the extensive use of technology resources and/or the extensive use of clerical or supervisory assistance.

The following fees and charges are designed to ensure that the Town is consistent in its application of the law and Town rules, and which allow the recovery of duplication costs and a special service charge for the extensive use of Town resources in complying with requests to inspect or copy the Town's public records:

See *Bd. Of Cnty Comm'rs v. Colby*, 976 So. 2d 31 (Fla. 2d DCA 2008). If the employee is not paid hourly, then the hourly cost will be the annual salary of the employee divided by 2,080 (52 weeks times 40 hours per week), plus the employee(s)' benefits. These charges will be billed in fifteen (15) minute increments. The extensive use charge will begin after the first thirty (30) minutes of clerical and/or supervisory time is completed.

Multiple requests by a requestor may be considered as one (1) request and extensive use charges may be applied after the first thirty (30) minutes of staff or resource time. In other words, requestors may not evade the extensive use charges by breaking up large voluminous requests into smaller ones.

STORING OF RECORDS / ABANDONED REQUESTS

The Town Clerk's Office will hold a completed records request for up to thirty (30) calendar days to give the requestor adequate time to pick up the records or make arrangements for the delivery of records. If the records are not picked up within thirty (30) calendar days from the date that the Clerk's Office notifies the requestor that they are ready, and no written request for an extension has been received, then the copies of the records will be destroyed regardless of whether the requestor has paid a deposit with the Town. In such event, the requestor is not entitled to a refund of its deposit.

Town Clerk's Office

Adopted via Resolution No. 2025-63

Should the Town attempt to contact the requestor and/or transmit a cost estimate and the requestor fails to respond in good faith, the Town shall deem the request as "abandoned" after a period of 7 calendar days, and the log shall reflect the abandonment. In cases where holidays or other closures of the Town's administrative offices occur, staff shall afford reasonable additional time to the requestor to respond.

- (12) Public Records "means all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency."

Public Records Request – This is essentially any request to inspect or obtain copies of documents maintained by the Town in the ordinary course of business. Accordingly, any agency document, however prepared, if circulated for review, comment or information, is a public record regardless of whether it is an official expression of policy or marked "preliminary," "working draft," or similar label. It is not a request to create a new document or report not used by the Town.

The following types of records may be confidential and/or exempt from disclosure under the Public Records Law or at other sections of general law as noted in parentheses. This list is not all inclusive but is provided as general guidance. If an employee has any question or concern regarding whether a record is confidential or exempt from disclosure, the Town Clerk's Office or the Town Attorney's Office should be contacted to help determine whether an exemption applies.

Dear Mayors:

On June 13, 2025, Governor Ron DeSantis signed HB 987, which required the Florida Department of Transportation to erect suitable markers for the following designation:

Southern Boulevard between 18000 Southern Boulevard (Lion Country Safari Road) and Royal Palm Beach Boulevard in Palm Beach County is designated as "Palm Beach Sheriff's Office Motorman Highway."

Florida Statute 334.071 (3) states that, "Erection of markers shall be contingent on the appropriate city or county commission passing a resolution in support of the particular honorary designation. If the bridge or road segment being designated is located in more than one city or county, resolutions supporting the designation must be passed by each affected local government prior to the erection of the markers.

The Palm Beach County Board of County Commissioners passed the enclosed resolution of support at their July 8 BCC meeting. We encourage your municipality to join the County in adopting a resolution of support for this designation.

Please do not hesitate to reach out should you require any additional information.

Sincerely,

Maria Y. Marino

Maria G. Marino, Mayor Palm Beach County

SUBJECT: Approval of Amended Resolutions No. 2025-54, 2025-56 and 2025-DD07

Background:

At July 1, 2025, the Town Council approved preliminary TRIM rates of 3.500 mills (Resolution No. 2025-56), \$450 per unit for solid waste (Resolution No. 2025-56), and the Board of Supervisors approved \$300 per acre for Water Control District services (Resolution No. 2025-DD07). The purpose of these three amended resolutions is to ratify the change in the date. The adopted preliminary rates have not been changed.

"Tax Collector" shall mean the Tax Collector of Palm Beach County.

"**Tax Parcel**" means a parcel of property located within the Town to which the Property Appraiser has assigned a distinct ad valorem property tax identification number.

"Uniform Assessment Collection Act" means Sections 197.3632 and 197.3635, Florida Statutes, as amended, and any successor statutes authorizing the collection of non-ad valorem special assessments on the same bill as ad valorem taxes, and any regulations pertaining thereto.

SECTION 5. PROVISION AND FUNDING OF SOLID WASTE COLLECTION SERVICES.

- (A) Upon the imposition of the Solid Waste Collection Services Assessment for Solid Waste Collection Services for residential properties, facilities, or programs against Assessed Property located within the Town, the Town shall provide Solid Waste Collection Services to such Assessed Property through the Collection Agreement. The cost to provide such Solid Waste Collection Services, facilities, or programs to residential properties, as described herein, shall be funded in whole or in part from proceeds of the Solid Waste Collection Services Assessments.
- (B) It is hereby ascertained, determined, and declared that each parcel of Assessed Property located within the Town will be benefited by the Town's provision of Solid Waste Collection Services for properties, facilities, and programs in an amount not less than the Solid Waste Collection Services Assessment imposed against such parcel, computed in the manner set forth in this Preliminary Assessment Resolution.

SECTION 6. IMPOSITION AND COMPUTATION OF SOLID WASTE COLLECTION SERVICES ASSESSMENTS. Solid Waste Collection Services Assessments shall be imposed against all Residential Property Dwelling Units that receive residential Solid Waste Collection Services, as provided herein. The Cost Apportionment described herein is approved and adopted as the methodology to impose and compute the Solid Waste Collection Services Assessment.

SECTION 7. LEGISLATIVE DETERMINATIONS OF AUTHORITY, SPECIAL BENEFIT AND FAIR APPORTIONMENT. The Town Council adopts the following legislative

findings relating to the Solid Waste Collection Services special assessment:

AUTHORITY

- 7.1 Pursuant to Article VIII, Section 2(b) of the Florida Constitution, and Sections 166.021 and 166.041, Florida Statutes, the Town Council has all powers of local self-government to perform municipal functions and render municipal services except when prohibited by law and such power may be exercised by the enactment of Town ordinances or resolutions.
- 7.2 The Town Council may exercise any governmental, corporate, or proprietary power for a municipal purpose except when expressly prohibited by law, and the Town Council may legislate on any subject matter on which the Florida Legislature may act, except those subjects described in (a), (b), (c), and (d) of Section 166.021(3), Florida Statutes. The subject matter of paragraphs (a), (b), (c), and (d) of Section 166.021(3), Florida Statutes, are not relevant to the imposition of assessments related to Solid Waste Collection Services, facilities or programs.
- 7.3 Section 403.706(1), Florida Statutes, provides that the Town is responsible to collect and transport solid waste from within its boundaries to a solid waste disposal facility.
- 7.4 To fulfill its obligations, the Town entered into a Collection Agreement with a Contractor for the collection and transport of solid waste from residential properties that receive residential solid waste collection services within the Town.

SPECIAL BENEFIT

7.5 The Town provides Solid Waste Collection Services to the Assessed Properties through its Collection Agreement. All Assessed Properties receive residential Solid Waste Collection Services, and therefore are required to receive the Town's Solid Waste Collection Services through the Town's Collection Agreement.

- 7.6 The special benefit provided to the Assessed Properties as a result of the provision of Solid Waste Collection Services by the Town through its Collection Agreement, and as a result of the Solid Waste Collection Services Assessment include, by way of example and not limitation, the availability and use of Solid Waste Collection Services by the owners and occupants of the Assessed Properties, the enhancement of environmentally responsible use and enjoyment of developed residential properties in the Town, the protection of public health and safety, ensuring sanitary collection and disposal of solid waste from Dwelling Units on Residential Property in the Town, a potential increase in value to property, and better service to landowners and tenants.
- 7.7 The Town's provision of Solid Waste Collection Services through its Collection Agreement possesses a logical relationship to the use and enjoyment of the Assessed Properties by:
- 7.7.1 protecting and potentially increasing the value of the Dwelling Units on Residential Property by providing solid waste services;
 - 7.7.2 enhancing the environmentally responsible use of residential land in the Town;
- 7.7.3 protecting the health of intended occupants in the use and enjoyment of Dwelling Units on Residential Property by ensuring the proper collection and disposal of solid waste from the Assessed Properties;
- 7.8 Commercial properties, and multi-family residential properties in the Town that receive commercial solid waste collection services are not specially benefited by the Town's Solid Waste Collection Services funded by the Solid Waste Collection Special Assessment in that those properties receive volume-based solid waste collection services. Commercial properties and multi-family residential properties in the Town that do not receive residential solid waste collection services are not benefited by the provision of the residential Solid Waste Collection Services

provided by the Town through its Collection Agreement. Therefore, it is fair and reasonable not to levy a special assessment for the funding of residential solid waste collection services upon those properties. The cost of services provided to properties that are not assessed shall not be paid by any funds collected pursuant to the Town's Solid Waste Collection Special Assessment.

IMPOSITION AND COLLECTION

- 7.9 The Solid Waste Collection Services Assessments to be imposed pursuant to this Resolution shall constitute non-ad valorem assessments within the meaning and intent of the Uniform Assessment Collection Act.
- 7.10 The Solid Waste Collection Services Assessment imposed pursuant to this Resolution is imposed by the Town of Loxahatchee Groves' Town Council, not the Palm Beach County Board of County Commissioners, Property Appraiser or Tax Collector. Any activity of the Property Appraiser or Tax Collector under the provisions of this Resolution shall be construed as ministerial.
- 7.11 So long as the Solid Waste Special Assessment is levied, the Assessed Properties will not be billed directly by the Town for the Solid Waste Collection Services they receive from the Town through the Collection Agreement.

APPORTIONMENT

- 7.12 The size or the value of the Residential Property does not determine the scope of the required solid waste services. The potential demand for Solid Waste Collection Services is driven by the existence of a Dwelling Unit.
- 7.13 Apportioning the Solid Waste Assessed Costs for Solid Waste Collection Services attributable to Residential Property on a per Dwelling Unit basis (Billing Units) avoids cost inefficiency and unnecessary administration and is a fair and reasonable method.

7.14 Because commercial properties, and multi-family residential properties that receive commercial solid waste collection services, do not benefit from the provision of Solid Waste Collection Services by the Town through the Collection Agreement, the Solid Waste Collection Services Assessed Costs are not apportioned to those properties.

SECTION 8. COST APPORTIONMENT AND PARCEL APPORTIONMENT METHODOLOGIES. The Collection Agreement provides for an annual charge for the Solid Waste Collection Services provided by the Town through its Collection Agreement. The Solid Waste Collection Services Costs include other costs associated with the Solid Waste Collection Special Assessment, which are then allocated to the Assessed Properties in addition to the annual charge in the Collection Agreement to determine the Assessment Amount. The Assessment Amount is then multiplied by the number of Dwelling Units on such Tax Parcel. For the Fiscal Year commencing October 1, 2025, the annual charge per Dwelling Unit (Billing Units) in the Town is \$450.00.

SECTION 9. DETERMINATION OF SOLID WASTE COLLECTION ASSESSED COSTS; ESTABLISHMENT OF ANNUAL SOLID WASTE COLLECTION ASSESSMENT RATES.

(A) The Solid Waste Collection Service Assessed Costs to be assessed and apportioned among Assessed Properties pursuant to the Cost Apportionment for the Fiscal Year commencing October 1, 2025, is the amount determined in the manner described in Section 8 above, and within the Estimated Solid Waste Collection Services Assessment Rate Schedule, attached hereto as Appendix "A". The approval of the Estimated Solid Waste Collection Services Assessment Rate Schedule by the adoption of this Preliminary Assessment Resolution determines the amount of the Solid Waste Collection Services Assessed Costs.

- (B) The estimated Solid Waste Collection Services Assessments specified in the Estimated Solid Waste Collection Services Assessment Rate Schedule are hereby established to fund the Solid Waste Collection Services Assessed Costs determined to be assessed in the Fiscal Year beginning October 1, 2025.
- (C) The estimated Solid Waste Collection Services Assessments established in this Preliminary Assessment Resolution shall be the estimated assessment rates applied by the Assessment Coordinator in the preparation of the updated Assessment Roll for the Fiscal Year beginning October 1, 2025, as provided in Section 10 of this Preliminary Assessment Resolution.

SECTION 10. ANNUAL ASSESSMENT ROLL.

- (A) The Assessment Coordinator is hereby directed to prepare, or cause to be prepared, an Assessment Roll for the Fiscal Year beginning October 1, 2025, in the manner provided in this Preliminary Assessment Resolution. The Assessment Coordinator shall apportion the estimated Solid Waste Collection Service Assessed Cost to be recovered through Solid Waste Collection Services Assessments in the manner set forth in this Preliminary Assessment Resolution. A copy of this Preliminary Assessment Resolution, the Ordinance, and the Assessment Roll shall be maintained on file in the office of the Town Clerk and open to public inspection. The foregoing shall not be construed to require that the Assessment Roll proposed for the Fiscal Year beginning October 1, 2025, be in printed form if the amount of the Solid Waste Collection Services Assessment for each parcel of property can be determined by the use of a computer terminal available to the public.
- (B) It is hereby ascertained, determined, and declared that the method of determining the Solid Waste Collection Services Assessments for the Town's Solid Waste Collection Services as set forth in this Preliminary Assessment Resolution is a fair and reasonable method of apportioning the Solid Waste Collection Services Assessed Cost among parcels of Assessed Property located within the

Town, as the methodology and apportionment assures that no property is assessed an amount greater than the benefit which it receives from the residential Solid Waste Collection Services provided by the Town through its Collection Agreement.

SECTION 11. AUTHORIZATION OF PUBLIC HEARING. There is hereby established a public hearing to be held on September 3, 2025, at 6:00pm in the Loxahatchee Groves Town Hall, 155 F Road, Town of Loxahatchee Groves, Florida, at which time the Town Council will receive and consider any comments on the Solid Waste Collection Services Assessment from the public and affected property owners and consider imposing the Solid Waste Collection Services Assessment and collecting such assessments on the same bill as ad valorem taxes.

SECTION 12. NOTICE BY PUBLICATION. The Town Manager, or his designee, shall publish notice of the public hearing authorized by Section 11 hereof, in the manner and time provided within the Ordinance. The notice shall be published no later than twenty (20) days prior to the date of the public hearing authorized in Section 11 above, in substantially the form attached hereto as Appendix "B".

SECTION 13. NOTICE BY MAIL. The Town Manager, or his designee, shall also ensure timely notice by use of the TRIM notice forwarded annually by the Property Appraiser's Office, or by U.S. Mail as may be required by law (including Chapter 2003-348 Laws of Florida, a special act relating to the annual TRIM notice in Palm Beach County), to the Owner of each parcel of Assessed Property, at least twenty (20) days prior to the public hearing, as required by the Ordinance, and the Uniform Assessment Collection Act.

SECTION 14. PROOF OF NOTICE. The Town Manager, or his designee, may provide proof of such notice by affidavit, if any is required pursuant to the Ordinance or Resolution.

Resolution No. 2025 - 54

SECTION 15. APPLICATION OF ASSESSMENT PROCEEDS. Proceeds derived by the Town from the Solid Waste Collection Services Assessments will be utilized solely for the provision of Solid Waste Collection Services, facilities, and programs by the Town to Assessed Properties, through its Collection Agreement, as described herein.

SECTION 16. CONFLICT. All resolutions or parts of resolutions in conflict herewith are hereby repealed to the extent of such conflict.

SECTION 17. SEVERABILITY. If any clause, section, other part or application of this Resolution is held by any court of competent jurisdiction to be unconstitutional or invalid, in part or application, it shall not affect the validity of the remaining portions or applications of this Resolution.

SECTION 18. EFFECTIVE DATE. This Preliminary Assessment Resolution shall take effect immediately upon its passage and adoption.

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE LOXAHATCHEE **GROVES** WATER **CONTROL** DISTRICT, DEPENDENT DISTRICT OF THE TOWN OF LOXAHATCHEE GROVES, FLORIDA, RELATING TO THE PROVISION OF DISTRICT SERVICES, INCLUDING WATER CONTROL MAINTENANCE AND REPAIR OF DRAINAGE AND ROADWAYS WITHIN THE GEOGRAPHICAL BOUNDARIES OF THE DISTRICT; ESTABLISHING THE ESTIMATED ASSESSMENT RATE FOR DISTRICT SPECIAL ASSESSMENTS FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2025; DIRECTING THE PREPARATION OF AN ASSESSMENT ROLL; AUTHORIZING A PUBLIC HEARING AND DIRECTING THE PROVISION OF NOTICE THEREOF: **PROVIDING** FOR CONFLICTS: PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Loxahatchee Groves Water Control District ("District"), a former Independent Special District, has become a Dependent District of the Town of Loxahatchee Groves; and

WHEREAS, the District has been authorized by the Florida Statutes to construct, improve, manage and maintain water control and drainage facilities, and by the Florida Legislature to construct, improve, maintain and repair roadways, within the geographical boundaries of the District; and

WHEREAS, the District is authorized to impose non-ad valorem special assessments pursuant to Chapter 298 and section 189.05, Florida Statutes, and the Special Act; and

WHEREAS, it is fair and reasonable to impose a non-ad valorem special assessment upon specially benefited property to fund the costs of the District Services; and

WHEREAS, the Board of Supervisors determines that such operations, repairs and maintenance of the District works are uniformly required within all Units of the District and properties receiving District Services, as each is connected and receive equal benefit through the operations and maintenance of the District's Services; and

WHEREAS, the Board of Supervisors for the District finds that there are 7,801.48 Assessable Units (acres) that receive the benefits of District and being assessed for such services through this Resolution; and

WHEREAS, the Board of Supervisors finds it in the best interest of the landowners and the District to levy and collect the special assessment to fund District Services.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE LOXAHATCHEE GROVES WATER CONTROL DISTRICT, THAT:

SECTION 1. The foregoing "WHEREAS" clauses are hereby ratified and confirmed as being true and correct and are hereby made a specific part of this Resolution.

SECTION 2. AUTHORITY. This Resolution is adopted pursuant to the provisions of Chapter 46 of the Town of Loxahatchee Groves Code of Ordinances, Chapter 2018-175, Laws of Florida, (the "Special Act"), Chapters 99-425 and 2004-410, Laws of Florida, which by virtue of the approval of the dependency referendum on June 25, 2018, became ordinances of the Town, Chapters 189 and 298, Florida Statutes, and other applicable provisions of law.

SECTION 3. PURPOSE AND DEFINITIONS.

- (a) <u>Purpose.</u> This Resolution constitutes the Preliminary Rate Resolution which initiates the annual process for imposing the annual special assessments, as authorized Chapters 189 and 298, Florida Statutes, creates the Assessment Roll and directs the imposition of Loxahatchee Groves Water Control District Special Assessments for the Fiscal Year beginning October 1, 2025.
- (b) <u>Definitions.</u> All capitalized words and terms not otherwise defined herein shall have the meanings set forth in the Special Act and Chapters 189 and 197, Florida Statutes. Unless the context indicates otherwise, words imparting the singular number include the plural number, and vice versa.
 - 1. Assessed Costs shall include all costs of providing District Services to and for Assessed Properties that receive benefits from District Services, including water control and drainage services, and as well as road construction, improvement, repair and maintenance services associated with the District's responsibilities of providing water control and drainage services to Assessed Properties within the Town. These costs shall include, but not be limited to, the following components: (A) the cost of physical construction, reconstruction, or completion of any required facility or improvement; (B) the costs incurred in any required acquisition or purchase; (C) the cost of all labor, materials, machinery, and equipment; (D) the cost of fuel, parts, supplies, maintenance, repairs, and utilities; (E) the

cost of computer services, data processing, and communications; (F) the cost of all lands and interest therein, leases, property rights, easements, and franchises of any nature whatsoever, (G) the cost of any indemnity or surety bonds and premiums for insurance; (H) the cost of salaries, volunteer pay, workers' compensation insurance, or other employment benefits; (I) the cost of uniforms, training, travel, and per diem; (J) the cost of construction plans and specifications, surveys and estimates of costs; (K) the cost of engineering, financial legal, and other professional services; (L) the costs of compliance with any contracts or agreements entered into by the District, or the Town as authorized by the Interlocal Agreement between the Town and District, to provide District Services; (M) all costs associated with the structure, implementation, collection, and enforcement of the special assessment, including any service charges of the Tax Collector, or Property Appraiser and amounts necessary to off-set discounts received for early payment of special assessment pursuant to the Uniform Assessment Collection Act and Florida law; (N) all other costs and expenses necessary or incidental to the provision of District Service or construction of District facilities, or programs, and such other expenses as may be necessary or incidental to any related financing authorized by the District Board of Supervisors by subsequent resolution; (O) a reasonable amount for contingency and anticipated delinquencies and uncollectible special assessments; and (P) reimbursement to the Town or any other Person for any moneys advanced for any costs incurred by the Town or such Person in connection with any of the foregoing components of Assessed Cost or the provision of District Services.

- 2. Assessed Properties shall mean all properties that are provided a special benefit by the District's provision of District Services.
- 3. *District Services* are all services (including those items described above in the definition of Assessed Costs) provided by the District relating to water control and drainage services, and road construction, improvement, repair and maintenance services associated with the District's responsibilities.

SECTION 4. PROVISION AND FUNDING OF THE DISTRICT'S WATER MANAGEMENT SYSTEM.

(a) Upon the imposition of District Special Assessment, the District shall provide District Services to such Assessed Property.

(b) It is hereby ascertained, determined and declared that each Assessed Property will be benefited by the District's provision of District Services in an amount not less than the special assessment imposed upon such Assessed Properties, computed in the manner set forth herein.

SECTION 5. IMPOSITION AND COMPUTATION OF WATER MANAGEMENT

SYSTEM ASSESSMENTS. The special assessment for District Services shall be imposed upon all Assessable Units that receive District Services.

SECTION 6. LEGISLATIVE DETERMINATIONS OF SPECIAL BENEFIT, FAIR APPORTIONMENT, AND PARCEL APPORTIONMENT METHODOLOGIES.

- (a) <u>Special Benefit</u>: The District is authorized to levy and collect the special assessment pursuant to the Special Act, Town Ordinances and Chapters 189 and 298, Florida Statutes. Assessed Properties are benefitted by the provision of District Services:
 - 1. Water control and drainage services enable the use of lands, including the development thereof;
 - 2. The unique nature of the roads and water control and drainage facilities, including the canal networks, has resulted in an interconnection of the two types of facilities, such that the proper repair and maintenance of one directly affects the use and functionality of the other. Roadway drainage facilities, including culverts, must be so constructed, improved, repaired and maintained so as not to damage or threaten the integrity of the water control system, including the canals. The canals and related drainage facilities must be so constructed, improved, repaired and maintained so as not to damage or threaten the integrity of the roadways, including avoidance of washouts and roadway collapses, which affects the usability and safety of roadways and impairs access to Assessed Properties.
 - 3. The importance of roadway construction, improvement maintenance and repair to the ability of the District to provide water control and drainage services was recognized by the Florida Legislature in 1999, as evidenced by Chapter 99-425, Florida Statutes, which expressly provided the power to the previously independent water control district "to maintain roadways and roads necessary and convenient for the exercise of the powers and duties" of the district, and "to maintain roadways and roads necessary and convenient to provide access to and efficient development of areas made suitable and available for cultivation, settlement, and other beneficial use and development as a result of the

- reclamation operations of the district." The Florida Legislature, further recognizing the importance of roads and roadways to the ability of the District to provide water control and maintenance services, authorized the formerly independent special district to "construct, maintain, improve and repair roadways and roads necessary and convenient for the exercise of any of the powers or duties of the district or board of supervisors thereof."
- 4. The special benefits provided by the District Services to Assessed Property include, but are not limited to: (A) the ability to use and develop property; (B) enhancing safety and access to Assessed Property; (C) improved appearance; (D) rendering Assessed Property more adaptable to a current or reasonably foreseeable use; (E) alleviation of the burdens caused by drainage and accumulation attendant with the use of Assessed Property; and (F) ensuring that the interaction between the drainage and roadway facilities is facilitated so that both functions work in a coordinated fashion to ensure proper water control and drainage, and safety of travel and use of roads and roadways within the Town.

These findings provide the requisite special benefit and logical relationship between the District Services and real property so as to permit the District Services to be funded by non-ad valorem special assessment.

- (b) <u>Fair and Reasonable Apportionment</u>: It is fair and reasonable to equally apportion the Assessed Costs of the Water Management System upon the assessed units, on a per acre basis, as the size of the Assessed Property corresponds with its impact with water control and drainage facilities, as well as the potential for use of roadways reliant on proper drainage, and the amount of the assessment on each of the assessed units does not exceed the benefits received by each assessed unit from the District's Services.
- (c) <u>Units:</u> Assessable Units shall be calculated on a per acre basis. Each tract or parcel of land that is less than one acre shall be assessed as one full acre (one unit). Each tract or parcel of land of more than one (1) acre, which contains a fraction of an acre, shall be assessed at the actual number of acres rounded to a fraction of four digits.

SECTION 7. DETERMINATION OF WATER MANAGEMENT SYSTEM ASSESSED COSTS; ESTABLISHMENT OF ANNUAL WATER MANAGEMENT SYSTEM ASSESSMENT RATES.

- (a) The District Services Assessed Costs to be assessed and apportioned among Assessed Properties for the Fiscal Year commencing October 1, 2025, is preliminarily ~\$2.4 million. The Assessable Unit Apportionment for the Fiscal Year commencing October 1, 2025, is \$300 per Unit. The adoption of this Preliminary Rate Resolution determines the amount of the District Services Assessed Costs. The remainder of such Fiscal Year budget for District Services shall be funded from available District revenue other than assessment proceeds.
- (b) The estimated special assessment specified herein are hereby established to fund the costs of the District Services to be assessed in the Fiscal Year commencing October 1, 2025.
- (c) The estimated special assessment established in this Preliminary Rate Resolution shall be the estimated assessment rates applied by the Palm Beach County Property Appraiser in the preparation of the Assessment Roll for the Fiscal Year commencing October 1, 2025 as provided in this Preliminary Rate Resolution.

SECTION 8. ANNUAL ASSESSMENT ROLL.

- (a) The Palm Beach County Property Appraiser is hereby directed to prepare, or cause to be prepared, an Assessment Roll for the Fiscal Year commencing October 1, 2025, in the manner provided herein and Section 197.3632, Florida Statutes. The Assessment Roll shall include all units being assessed herein. The Palm Beach County Property Appraiser shall apportion the estimated Assessed Costs in the manner set forth in this Preliminary Rate Resolution. A copy of this Preliminary Rate Resolution, the Special Act, Town Ordinances, and the updated Assessment Roll shall be maintained on file in the office of the Secretary of the District and open to public inspection. The foregoing shall not be construed to require that the Assessment Roll proposed for the Fiscal Year beginning October 1, 2025, be in printed form if the amount of the special assessment for each parcel of property can be determined by the use of a computer terminal available to the public.
- (b) It is hereby ascertained, determined, and declared that the method of determining the special assessments for District Services as set forth herein is a fair and reasonable method of apportioning the Assessed Cost among units of Assessed Property.

SECTION 9. AUTHORIZATION OF PUBLIC HEARING. There is hereby established a public hearing to be held on September 3, 2025, at 6:00 pm in the Loxahatchee Groves Town Hall, 155 F Road, Town of Loxahatchee Groves, Florida, at which time the Board of Supervisors of the

RESOLUTION NO. 2025-DD07

District will receive and consider any comments on the special assessment from the public and affected property owners and consider imposing District Services Assessments for the Fiscal Year beginning October 1, 2025, and collecting the assessments on the same bill as non-ad valorem taxes.

SECTION 10. APPLICATION OF ASSESSMENT PROCEEDS. Proceeds derived by the District from the special assessment will be utilized for the District Services. In the event there is any fund balance remaining at the end of the Fiscal Year, such balance shall be carried forward and used only to fund District Services.

SECTION 11. CONFLICTS. All resolutions or parts of resolutions in conflict herewith are hereby repealed to the extent of such conflict.

SECTION 12. SEVERABILITY. If any clause, section, other part or application of this Resolution is held by any court of competent jurisdiction to be unconstitutional or invalid, in part or application, it shall not affect the validity of the remaining portions or applications of this Resolution.

SECTION 13. EFFECTIVE DATE. This Preliminary Rate Resolution shall take effect immediately upon its passage and adoption.

Code Compliance Division Quarterly Report – April 1 to June 30, 2025

Mission Statement

To protect the health, safety, and welfare of residents, visitors, and property through education, cooperation, and voluntary compliance.

Code Compliance Operations Summary

The Code Compliance Division's primary focus is to achieve voluntary compliance through education and communication. Given the Town's rural character – with large, fenced parcels – initial outreach is primarily through Courtesy Letters and/or phone calls. Notices of Violation (NOV) / Notices of Hearing (NOH) are issued when compliance cannot be achieved through cooperation and voluntary compliance.

Code compliance is a vital function that ensures compliance with the Codes listed for the Town to ensure life, health, and safety values. Our performance is often assessed by the violations issued, number of inspections, and cases closed, however; voluntary compliance remains the goal of the Code Compliance Division.

While the Code Compliance Division is complaint driven, code officers are also empowered to act when they observe violations in the field. The Town Council has directed staff to take a proactive approach regarding critical / life safety items which include but are not limited to:

- Floodplain Development Activities (FDAs)
- Unauthorized clearing or construction
- Manure violations
- Life, Health, & Safety Violations
- Unpermitted Commercial Vehicle Use

Town staff regularly resolves issues through communication with phone calls and emails, meetings, and outreach. Educating and communicating with residents and business owners is key to resolving violations.

Anonymous complaints are not accepted pursuant to Florida Statue 162.21 unless there is an imminent threat to public health, safety, or environment. The Town may verify the identity of complainants as all information becomes public record.

O2 EV 25

Note that during 3rd quarter, a Full Time Code Officer did not start until May 2025

This quarter, we observed a decrease in code compliance actions compared to Q2 FY25 for the following reasons:

- Reduced staffing and hours from part-time personnel one part-time code officer
 position became vacant in the 3rd Quarter; however, we are in the process of hiring a
 replacement.
- Additional office time was required to address Standard Operating Procedures for Code and making sure the processes for code compliance are appropriate for Loxahatchee Groves.
- Additional office time was required to review all existing code case files to update them
 accordingly. This required time to research the foundation of the cases and to compare
 the computer case files to the physical files in the office.
- Implementation of MGO, a new case management system, temporarily slowed data entry and reporting, which affected short-term metrics. We have provided all the necessary letters, notices, affidavits, etc. for the go-live date of July 1, 2025.
- Continued compliance with the many RV cases that were implemented in Q2 FY25 has taken a considerable amount of staff time based upon the implementation of the new process and the shear numbers of RVs noted.

Despite the drop in numbers, the Code Compliance Division has focused on high-impact cases, community engagement, and voluntary compliance – often resolving issues without formal action.

We are monitoring the trend closely. We are addressing challenges and exploring ways to balance enforcement volume with quality outcomes. Staff continues to manage significant caseloads and demands.

Mowing activities on Town roads and canal banks

The mowing crew has adopted a methodology to mowing to ensure all of the parts of Town that they are responsible for is completed before moving to a different section. This methodology includes beginning on the A Rd canal and working across the Town based on staffing. The use of this methodology has increased efficiency and improved the appearance of the Town canals and swales. During the winter months, due to slow growth of native materials, mowing is reduced to concentrate on backlogged items throughout the Town.

Canal, Swale, and Culvert Maintenance

A component of the FY24 paving project included providing for drainage along those roads. Following the installation of the multiuse trails along Gruber Lane and East Citrus Drive, staff began the process of improving the drainage swales along the seven improved road sections that encompassed the project. The preliminary work that can be completed by staff with the current equipment has been completed. A contract was entered into, and purchase order approved to complete the section of 161st Terrace North so our crews can begin the rebuilding process for the canal banks on A Road South of Okeechobee Blvd. The use of a contractor to complete this work will serve to expedite the project, reduce the wear and tear on town-owned equipment, and provide the ability for Public Works staff to work on other pressing projects.

The rehabilitation portion of the Hyde Park Rd project has been completed. The scope of this project included removing trees that had fallen during Hurricane Milton and reforming the swales and drainage system damaged by uprooted noxious exotic species. The project also included the replacement of damaged culvert pipes under Hyde Park Rd and the F Rd canal bank. Staff has obtained a preliminary design for replanting the pond bank and will be holding a meeting with the residents prior to replanting the pond area to ensure they are satisfied with the replanting plan. This project has been submitted to FEMA for reimbursement.

Roads Repairs:

The Public Works Department continues to monitor the conditions of the existing pavement and will repair the asphalt as needed. Staff took time to facilitate temporary repairs to Upper North Road near A Rd. A number of the potholes in that road were removed and repaired as best as our staff could to facilitate with equipment the town owns. During the second quarter of 2025 Town staff replaced 115 sign posts and sleeves. Public Works staff also installed a total of 248 road

signs. These signs included stop signs, stop ahead signs, warning arrows, and object markers. Any signs that were in good condition but dirty were cleaned to preserve their life and save the town money. There was a total of 121 signs cleaned in the last quarter removing silt and other impurities to the signs, preserving their lives and saving the Town money to replace the signs. Solid Waste:

There were forty total complaints to Coastal between April 1, 2025, through June 30, 2025. Of the forty complaints, three were general service complaints, eighteen of the complaints were from missed pickups. Two of the complaints were deemed invalid after Coastal reviewed their video and determined the containers were indeed picked up as scheduled. Nineteen of the forty complaints were from yard waste calls. All of the yard waste complaints were due to resident piles being larger than the permitted six cubic yards. The missed pickup complaints were resolved within twenty-four hours. None of the complaints resulted in a contract violation and therefore no fines were assessed. The table below outlines the amount of vegetation removed from the Town since the start of the fiscal year.

Public Works management conducted the Town of Loxahatchee Groves Vegetation Amnesty
Days in preparation for hurricane season. The initial dates set for the amnesty days were June 14,
2025 and July 19, 2025, both Saturdays. The cost of these amnesty days were going to cost the
Town over \$26,000. The Public Works Director reviewed the contract and the amount of
vegetative credits available from Coastal and realized the Town could hold the amnesty period
for the entire month of June and cost the Town nothing. Town staff sent out mailer to all of the
residents of public record and also posted this information on our Facebook and Instagram pages.
The average amount of vegetative debris removed from the town from October to May has been
188.09 tons per month. During the month of June, Coastal removed 356.84 tons. The intent of the
program is to remove the overgrowth on public right of ways adjacent to residents' homes. The
vegetation amnesty program yielded an additional 168.75 tons of vegetative debris removed
from the Town.

Facility Maintenance

The Public Works Department has installed cameras in Town Hall. The cameras are intended to aid in the security of the facility for our staff and visitors. Additional cameras have been procured for the exterior of the building and will be installed soon. Town staff cleaned up to the drainage ponds to restore them to their regular capacity and reestablish the connection between them.

Town hall staff installed new irrigation around the flag pole and veteran's memorial as there was none installed and the vegetation was dying.

Capital Improvements

FY 24 Paving Plan: The FY 24 paving portion of the project is complete. All road sections that are to be paved are complete and have been inspected. All of the legally required signs have been installed and the multiuse trails that were planned have been completed. The drainage work that

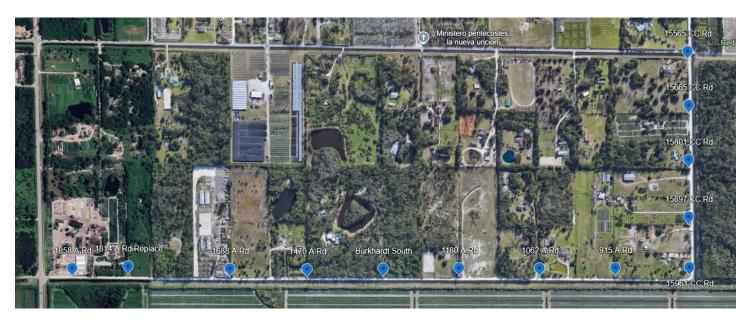

is remaining is in the process of being completed. The contractor completing this work is mobilizing and procuring the material to complete the project.

FY 25 Paving Plan: Paving A Rd. from Collecting Canal Rd. to North Rd. This project will also include all of the gap sections that were excluded in the FY23 paving project. Notices have been sent out to the residents regarding the easements and community meetings have been held to discuss the project. This project will commence in stages. The first stage is to obtain the easements for the project. Staff are still working on obtaining all of the required easements. At this time nine of the required easements have been obtained. The attempt to contact residents continues and individual meetings are still being set up for them to discuss the project and complete the easement process. Staff have begun the process of realigning the A Rd Canal bank in preparation for the drainage work. The plan to begin the installation of the catch basins and culverts under A Rd after the vegetation is removed for the drainage to be installed once all the easements are secured. Once the road is completely prepped, it will then be paved.

FY25 Culvert Replacement: The Town has awarded the FY25 culvert replacement and continuing contract to Huurr Homes headquartered in Broward County. The Notice to Proceed has been issued and the preconstruction meeting held. The contractor has submitted all the planned submittals which have been approved. All work associated with the first four work orders is set to commence on or about May 15, 2025. A Notice was sent to all property owners the week of April 28, 2025 as the project will require the closure of F Rd/Collecting Canal/6th Ct N for approximately a month and required temporary closure Folsom Rd and 25th St N. The scope of the project is to include Work Order 1 – F Rd and Collecting Canal, Work Order 2 – Kerry Ln and F Rd Work Order 3 – Folsom Rd and 25th Place North, and Work Order 4 – Bunny Ln and D Rd.

The contractor started at the intersection of Bunny Ln and D Rd. About a week into the project, the contractor found a buried FPL cable that was not marked by the contractor designated by FPL to locate their infrastructure. At that point it was decided to pull off that job and relocate to Folsom Road and 25th Place North. That project is in its finishing stages and should be completed by the end of July. The contractor was scheduled to move to F Rd and Collecting Canal Rd but with the impending CSX closure, it was decided to move back to Bunny Lane as FPL removed their cable. While the project has suffered some delay, it is getting back on track and should be completed soon.

The contractor has submitted Task Order 5 associated with the installation of 13 catch basins and culverts along A Rd and Collecting Canal Rd. The Task Order includes all of the catch basins and culverts required for the FY25 Paving Project. The purchase order was approved by council and once all of the easements required are obtained, the contractor will move forward.

The contractor has submitted Task Order 6 associated with the first 18 catch basins that need to be installed as part of the FY23 and FY24 paving projects that were not installed after the culverts were installed under the previous administration. The images below illustrate where

those catch basins are to be installed. A purchase order was approved by council and the contactor has submitted the submittal for the drainage boxes. Once they build the boxes, this part of the project will commence.

Emergency Management

The Public Works Director, who also serves as the Director of Emergency Management, is currently operating under the updates made in the Town of Loxahatchee Groves Emergency Management Plan for 2025 season. The Director continues to monitor the Atlantic for any storm development. A training matrix has been developed of FEMA courses for various staff to take beyond the minimum required to enhance all staff to better perform their roles during an emergency.

Community Engagement

During the second quarter of 2025 the Public Works Director continues to consult residents, contractors, and engineers in assisting them in solving various problems brought to his attention. Many of the inquiries were regarding projects discussed at council meetings or items discovered on social media sites. This quarter there were no complaints about the water levels, flood risks, but most were regarding paving projects and road maintenance. During that same period, the Public Works Superintendent and staff engaged with the community clarifying work at project sites and assisting residents with issues as they arose.

Staffing

The Public Works Department is currently staffed by 12 full time and 1 part time employees.

There is one open positions at this time; the list of positions are listed below:

- 1 Director of Public Works
- 1 Superintendent of Public Works
- 1 Public Works Coordinator
- 3 Public Service Worker III
- 4 Public Service Worker II

• 3 - Public Service Worker I

Crews are divided into three teams. 1. Ground Maintenance and Mowing, 2. Drainage Improvements, Road Stabilization, and Grading, and 3. Canal Bank Stabilization, Drainage, and Waterway Enhancements.

Ground Maintenance is responsible for mowing all canal banks and right of way paths and equestrian paths. This crew continues to be responsible for trimming and grubbing areas of the town that impede equipment, equestrian, or vehicle traffic throughout the Town. A portion of their responsibility is to assist in the maintenance of equipment and inventory of rolling assets as well as consumable items used by Public Works staff. This team will also begin clearing the neighborhood drainage ditches to improve water flow and aid in preventing flooding.

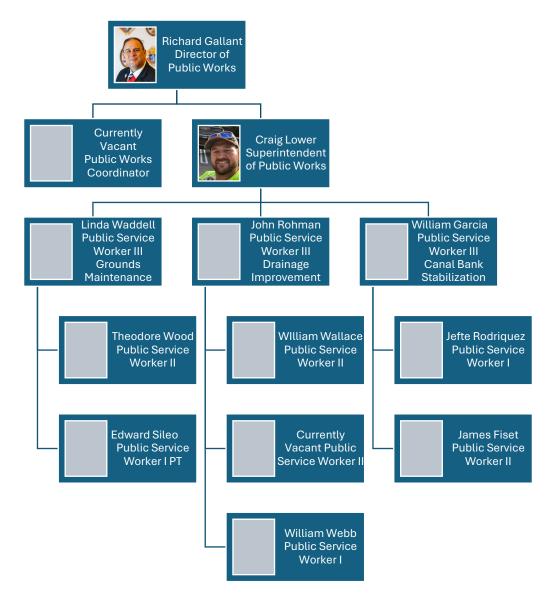

The Drainage Improvement, Road Stabilization, and Grading team is responsible for the maintenance and installation of culverts throughout the Town. They are further responsible for the removal of sediment in the drainage system. This team also responds to drainage structure issues and necessitates any repairs and maintenance to those structures. The crew is further responsible for the timely grading of all unpaved roads in the Town. They are responsible for advising supervision of potential failures and areas where added material is required. Once scheduled by supervision, and is charged with the application of the material to increase the stabilization of the road.

The Canal Bank Stabilization, Drainage, and Waterway Enhancements crew is responsible for the upkeep and maintenance of the canal banks. They are to identify failures and expedite repairs to those failures. A portion of their responsibility is to inspect the canal banks in an attempt to proactively identify failures before they become a wash out.

The Director of Public Works is responsible for all of the components of the department and

aided by the Superintendent of Public Works who is responsible for the individual crews. The Director and Superintendent work closely to establish priorities considering the health, welfare, and safety of the residents and visitors first. Public Works also employees a Public Works Coordinator who assists the Director and Superintendent with the administrative functions of the department.

Other initiatives the Public Works Director has been working on include continually evaluating the Emergency Management Plan as the Emergency Management Director. Additionally, training has been identified for all staff in varying degrees to enhance their abilities during an emergency. It is planned that all of these training be completed prior to the start of hurricane season in June. The training of public works staff on safety items as well as proper operation and maintenance of the equipment is used by the department.

Staff Training and Development

Public Works management continues to evaluate the talents of our staff and how the Town can enhance those talents to improve the abilities of that staff. Weekly safety meetings continue to be held to discuss pending field issues and the concerns of the staff. At this meeting, a safety topic is discussed and covered to provide knowledge to the public works staff with the objective in reducing injuries on the job. Management is evaluating a CDL program to encourage employees to obtain their CDL to better serve the town and expand the resources available to drive the

Towns larger equipment. Our suppliers are being tapped to provide training on the use of our equipment from the manufacturers. Preventive maintenance training from the manufacturers is being put in place.

Human Resources has put together a program for all employees that will include wellness, ergonomics, drug free workplace, ethics, as well as others. Safety related topics include Hazard Communication, Heat Stress, Personal Protective Equipment, Trenching and Excavation, Slips, Trips, and Falls, and Equipment Spotter Training.

Equipment Mileage or Hours:

The water pump operated a total of 105 hours during the second quarter of 2025. The water pump currently has 2,779 hours on it.

During that time Public Works consumed 2,309.1 gallons of Off-Road Diesel, 255.1 gallons of Ultra Low Sulfur Diesel, and 1,171.8 gallons of 87 Octane Unleaded Fuel.

There was no equipment purchased or sent to surplus during the second quarter of 2025.

Future Plans and Priorities

At this time the Public Works Director and other staff are developing an evaluation of the Towns complete infrastructure. The purpose is to deliver a comprehensive list to the Town Council and residents on the expansive work that needs to be completed to ensure adequate drainage of properties and streets in the Town as well as a road map of the future capital improvements that will be required over the next 10 years. The gravity of the work required to bring this town to a point that items can be maintained in not completely understood by some. The intent of this project is to bring clarity to all of the residents of the Town. Over the past year staff has worked on replacing all of the legally enforceable signs located throughout the Town. Staff has installed over numerous stop signs, and speed limit signs with the forecast to continue to install stop and other legally enforceable signs as budgets allow. Included in our upcoming sign campaign if to install or replace the Horse Right of Way signs, updated school zone sign, as well as other directional and trail signage throughout the town as our budget allows.

Crews will continue to remove exotic debris from the canal banks to facilitate travel along the canal banks for pedestrian and equestrian traffic.

OFFICE OF THE TOWN CLERK

INTRODUCTION

The third quarter of Fiscal Year 2025 marked a period of significant transition and expanded responsibilities for the Office of the Town Clerk. Following the resignation of the Town's Human Resources/Grants/Contracts Manager, the Clerk's Office assumed full oversight of the Town's Human Resources functions. This report outlines the key accomplishments, activities, and strategic initiatives undertaken from April 1 through June 30, 2025. These efforts span records management, staffing, communications, contract administration, technology, public outreach, and legislative support. The Office of the Town Clerk continues to serve as a central administrative anchor for the Town, promoting operational efficiency, organizational transparency, and employee engagement.

HUMAN RESOURCES ADMINISTRATION

In response to the departure of the Human Resources/Grants/Contracts Manager, the Clerk's Office took immediate responsibility for all human resources functions. A Human Resources Volunteer was engaged to help organize and electronically update personnel files, bringing order to the department. The Office processed the resignations of Esai Bellefleur (Public Works Public Service Worker), Lexi Collegio (Public Works Coordinator), and Sammie Brown (Town Clerk Assistant), whose final day will be August 1, 2025.

To support this transition, a temporary employee was hired to begin the digital migration of HR records. The Clerk's Office conducted onboarding for the temporary employee and initiated a workplace assessment and internal investigation in relation to an employee resignation. Additionally, the Office collaborated with Consultant Checree Bryant of Actuate Consulting to complete an executive-level SWOT analysis to support strategic workforce planning.

OFFICE OF THE TOWN CLERK

CONTRACT MANAGEMENT AND COMPLIANCE

This quarter, the Office began developing a comprehensive Contract Management List related to the Town Clerk's operations, including a detailed review of associated budget lines and compliance requirements.

PUBLIC RECORDS AND RECORDS MANAGEMENT

A total of 71 Public Records Requests (PRRs) were processed this quarter. In alignment with cost-saving goals and improved user experience, the contract for the Town's external public records portal was terminated. Moving forward, requests may be submitted directly via email to PRR@loxahatcheegrovesfl.gov. This transition is expected to enhance efficiency, accessibility, and cost control. The Clerk's Office also launched the Records Management Project to formalize a structured approach to records auditing, retention, and legal destruction. A temporary employee was hired to assist with completing both backlogged and new Town Council meeting minutes to ensure timely documentation and transparency.

TECHNOLOGY AND COMMUNICATIONS

Expanded responsibilities this quarter also included oversight of the Town's Information Technology (IT) needs. The Clerk's Office assessed surplus equipment and began planning for upgrades and streamlined utilization of digital resources across departments.

On the communications front, the Town website underwent a partial redesign to enhance structure, readability, and accessibility, with more improvements underway.

OFFICE OF THE TOWN CLERK

COMMUNITY ENGAGEMENT AND EVENTS

Planning began for the Town of Loxahatchee Groves Family Fun Day, scheduled for November 8, 2025. Early-stage coordination is in motion to ensure an inclusive, well-organized event that promotes civic pride and community connection.

The Clerk's Office also coordinated the Town's participation in the Florida League of Cities Annual Conference, including arranging a 4-hour ethics training session for executive staff and Council Members. Notably, Mayor Anita Kane and Town Clerk Assistant Sammie Brown were honored as Home Rule Heroes by the Florida League of Cities for their advocacy on behalf of municipal government at the local, state, and federal levels.

BOARD AND COMMITTEE SUPPORT

The Office updated committee rosters and contact lists and facilitated the onboarding of new members to the Finance Advisory and Audit Committee (FAAC), Unified Land Development Code (ULDC) Committee, and the Planning and Zoning Board. These efforts ensure compliance, accountability, and a seamless transition for new appointees.

LIEN SEARCH PROCESSING

The Clerk's Office processed 19 lien search requests for properties within the Town during Quarter 3. Each request was reviewed for open permits and code enforcement cases, with responses delivered in a timely manner. Of the 19 requests, 16 were billed at \$100 each and 3 were expedited at \$150 each, resulting in a total of \$2,050.00 in payments received. These services are critical to supporting local real estate transactions and ensuring compliance with municipal regulations.

OFFICE OF THE TOWN CLERK

STRATEGIC ENGAGEMENT AND OUTREACH

The Clerk's Office participated in the Executive Staff Strategic Planning Retreat, which included visits to two agricultural sites within the Town to explore land use and interdepartmental coordination. Additionally, the Office submitted a membership update to the Florida League of Cities, ensuring accurate representation of the Town's staff directory and maintaining strong ties to regional and statewide municipal networks.

PALM BEACH COUNTY MUNICIPAL CLERKS ASSOCIATION ELECTIONS WORKSHOP

To stay informed of evolving laws and election procedures, the Town Clerk attended the Palm Beach County Municipal Clerks Association Annual Elections Workshop. The training provided key updates on statutory compliance, election integrity, and procedural best practices. Participation in this workshop helps ensure the Town's election processes remain up-to-date and in accordance with state standards.

FAREWELL TO SAMMIE BROWN

As part of this quarter's staffing transitions, the Office of the Town Clerk would like to recognize Sammie Brown, who has submitted his resignation effective Friday, August 1, 2025. Sammie has been a dedicated and valued member of the team, offering vital support to the Town Clerk's operations and making notable contributions to legislative processes, records management, and community engagement. His professionalism and passion for public service have made a lasting impact on both staff and the community. While we are sad to see him go, we are proud of all he has accomplished and excited to see what the future holds for him. Please take a moment to wish Sammie well as he begins this next chapter.

Quarter 3 demonstrated the continued strength, adaptability, and leadership of the Office of the Town Clerk. With expanded responsibilities across human resources, technology, records, and civic engagement, the Office remains an integral pillar of the Town's operational framework. The achievements of this quarter lay a strong foundation as we prepare for the final quarter of the fiscal year and continue delivering high-quality service to the Town Council, staff, and community.

SECTION 10 – EFFECTIVENESS AND PALM BEACH COUNTY IG

- 10.1 This Agreement shall not become effective until approved by the Town Manager. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, and will become effective and binding upon the parties as of the effective date at such time as all the signatories hereto have signed a counterpart of this Agreement.

The relationship between the Town and Law Firm is that of independent contractors, and neither shall be considered a joint venturer, partner, employee, agent, representative or other relationship of the other for any purpose expressly or by implication.

SECTION 12 - COMPENSATION AND INVOICING

- 12.1 The Town shall compensate the Law Firm as follows:
 - a. All attorneys at \$315.00 an hour
 - b. Paralegal at ____ an hour
- 12.2 The Law Firm shall render monthly invoices to the Town for services that have been rendered in conformity with this Agreement in the previous month. Invoices will normally be paid within thirty (30) days following the Town's receipt of the Law Firm's invoice. The Town shall not be responsible for payment of interest to the Law Firm if payment is not made within said thirty (30) days.
- 12.3 All invoices must be submitted to the Town Manager at 155 F Road, Loxahatchee Groves, Florida 33470, on a monthly basis for review and approval prior to payment. Invoices should be itemized to specifically and concisely identify each task performed and should reflect the actual time spent on each task, using 1/10 of an hour increments. The Town does not accept grouping of activities or "block billing." Each task must be billed separately and each billing entry must be sufficiently descriptive so that it can be determined exactly what professional service was provided and the appropriateness of the related time charge can be assessed. Additionally, the personnel who perform each task must be specified together with their hourly rate. Any other type of billing or timekeeping, which allows compensation for time not actually spent by the Law Firm, is not permitted by the Town.
- 12.4 The Town will reimburse the Law Firm for any out-of-pocket expenses, including, but not limited to, filing fees, long distance telephone charges, postage charges, courier fees, outside printing, photocopying, court reporting and transcription fees. - (d) Any travel, per diem, mileage, or meal expenses, which may be reimbursable, must be approved in advance (orally) and will be paid in accordance with the rates and conditions set forth in Section 112.061, Florida Statues.
- (e) The Town does not pay for local travel (within Palm Beach County), including, but not limited to, Law Firm's time for such local travel and/or reimbursement for meals.
- (f) For all disbursements, the Town requires copies of paid receipts, invoices, or other documentation acceptable to the Town of Loxahatchee Groves Finance Department. Such documentation must be sufficient to establish that the expense was actually incurred and necessary in the performance of legal services provided.
- (g) The Town will not be responsible for the cost of any computerized legal research service that the Law Firm receives on a fixed or "flat fee" basis. For payment of computerized research on a "per minute" basis, the Town requires copies of transaction reports indicating the total time for each research session, the charge per minute, and a brief description of the issues researched. Any extensive research project (research in excess of three hours whether said research is performed during one session or over several sessions or which is likely to exceed \$300) must be discussed with and approved in advance. Since assignments are made to Law Firms which have been selected for their expertise in particular areas of law, the Town will not pay for research that is routine in nature. The Town will pay only for updating and Sherardizing existing research and/or fact specific research.

SECTION 14 – PUBLIC RECORDS

- 14.1 The Law Firm shall comply with Florida's Public Records Act, Chapter 119, Florida Statutes, and, if determined to be acting on behalf of the Town as provided under section 119.011(2), Florida Statutes, specifically agrees to:
 - (a) Keep and maintain public records required by the Town to perform the service.

FY 2026 Preliminary Budget Overview Fiscal Facts: What We're Facing Now

- Rates Flat since 2018: reliance on outside funding—local surtax, ARPA, grants and appropriations, and state economy driven or elastic revenues.
- Outside funding vanishing: ARPA gone, surtax ends Dec 2025, Federal & State funding slashed while FEMA and grant reimbursements slow-moving (swift approvals do not equate to timely payments)
- Transfers to capital down 78%—excess reserves nearly tapped out: holding at 25%
- State looking to pre-empt local tax authority—undermining home rule & fiscal flexibility
- FY26 property value growth slowed to less than half of that in recent years
- Road & Drainage Fund faces a shortfall—now reliant on assessment increases
- Not hypotheticals—at the turning point where hard fiscal realities shape our future

FY 2026 Preliminary Budget Overview Sticking To Basics/Focusing on our Future

- Protecting essential operations: grading, mowing, canals and life/safety code enforcement
- Elevating Code Compliance as a core strategy to uphold community standards equitably,
 with focus on safety and preservation of rural character
- Realigning our capital plan: pausing or delaying unfunded projects
- Stay shovel-ready to aggressively pursue funding opportunities including grants & state appropriations
- Addressing Okeechobee Blvd. with traffic planning/access management, safety coordination and code enforcement
- Advancing the Southern Corridor to modestly leverage non-residential tax base to balance rural-scale economic growth with buffers & large lots — so we can more readily fund public safety, roads & long-term drainage
- Maintaining 25% reserves to preserve fiscal health, emergency response and future bond ratings

FY 2026 Preliminary Budget Overview Structural Crisis: Time for Strategy, not Line Item Debate

- Not just a numbers debate—we are confronting a structural crisis.
- Structural deficits loom unless new revenue strategies are adopted. Strategic planning must extend beyond annual budget.
- Over \$100 million in deferred infrastructure remains unaddressed.
- FY26 capital program recommended for pause unless grant funds come through.
- **Critical projects** like SCADA, retrofit/rebuild of pumpstation, restoration of historical drainage, and grid-road paving are now deferred.
- Inadequate resources to meet expected outcomes and no capacity for new programs without structural rebalancing.
- Critical services are being sustained by short-term patches. Rate and tax base decisions are now urgent.
- Sustainability demands a long-term financial strategy—not one-year fixes.
- Preserving rural character and essential services requires bold planning now.

With double-digit property values during FY2023, FY2024 and FY2025 along with ARPA funds helped delay the need to increase assessments and millage rates, we need to look long term and attempt to manage expenditures, reserves and rates.

CAPITAL IMPROVEMENT FUND

Preliminary FY2026 Capital Improvement Fund

- As this fund awaits certain FEMA reimbursements and Grant Funds, Transfers from the General Funds, LOST Fund and Transportations Fund as well as ARPA Funds and double digit increases in property values have funded our CIP plan in the past.
- Our ability to continue this process has been reduced by the elimination of LOST funds, ARPA funds as well as CIP Reserve Funds.

SUBJECT: Discussion of Amendments to Capital Improvement Plan and adoption of

Ordinance No. 2025-XX repealing Ordinance No. 2024-11 and adopting the annual update to the Capital Improvements Element of the Comprehensive

Plan.

Background:

Pursuant to Section 163.3177(3)(b) of Florida Statutes, local governments are required to undertake an annual review of the Capital Improvements Element to update the Five-Year Capital Improvements Plan (CIP) for Level of Service (LOS) projects. The update to the schedule is not considered an amendment to the Comprehensive Plan. Staff is suggesting modifications to plan previously adopted through the passage Ordinance 2024-11 in September of 2024. The modifications are suggested because of savings from completed and bid projects, re-prioritization of staff driven projects and insufficient monies budgeted for engineering associated with drainage projects and renewed interest in securing grant monies for the Okeechobee corridor.

Capital Projects Fund (305)

Carryforward the FY24 Plan – Council had given direction to complete the FY24 capital plan. As shown on the attached worksheet the total amount carried forward from 2024 was \$2,193,094. Those projects included the road paving plan, replacement of culvert, completion of the resiliency grant work, and canal stabilization monies. The roadway project has been completed. Of the three major culvert bridges, one has been completed, one has been bid resulting in substantial expected savings, and the staff is recommending deferment of the third project. The canal stabilization monies will be utilized in furtherance of the A Road and Collecting canal Road from A to B paving project.

The FY25 Plan – Town Council had approved an FY25 Capital Plan in the amount of \$2,229,302, without taking into consideration any carryforward monies. The breakdown of those projects is included in the worksheet. The primary focus of the capital plan once again was road work and drainage.

Proposed revisions to the Capital Improvement Plan for FY2025 –

Staff is proposing four major additions to the plan to be funded by deletion of one specific culvert project, reduction in funding for non-specific culvert projects and projected savings from the completed FY24 Road projects and bid culvert projects. The changes are broken down below:

Projects with additional funding suggested

- 1. \$133,350 for drainage and road design Tangerine
- 2. \$207,512 for completion of swale on 161st by private contractor
- 3. \$100,000 for TPA grant funding
- 4. \$160,000 for Hyde Park improvements triggered by Milton

\$600,862 Total monies to be reallocated

Sources of funds to be reallocated

- 1. \$120,000 from Miscellaneous culvert failures/emergency repairs
- 2. \$233,245 savings from specific culvert bridges bid versus budgeted
- 3. \$88,331 savings from FY24 road contract versus budgeted
- 4. \$ 20,000 reduction in cost sharing program
- 5. \$145,239 proposed deletion of culvert bridge 24th and F Road

\$607,315 Total monies available for reallocation

Net potential savings \$6,453

Project Details

1.Road and drainage design for Tangerine area – The existing capital plan had allocated \$50,000. Funding for this increase comes mainly from the reduction in miscellaneous culvert repairs as the Town had allocated \$240,000 for that potential and we have not yet expended monies from that line item, which coupled with the reduction in anticipated costs for such projects based on the culvert bid award gives us confidence to recommend the reallocation of 50% of the original budgeted amount.

The Loxahatchee Homes Infrastructure and Drainage System Improvements Project includes water, wastewater, drainage and roadway improvements within approximately 6,550 linear feet of Town roadways as outlined below:

• Citrus Drive from East Orange Avenue to E Road (1,740 linear feet)

- Loxahatchee Avenue from Southern Boulevard to Citrus Drive (800 linear feet)
- Orange Avenue from Valencia Drive to Tangerine Drive (420 linear feet)
- East Orange Avenue from Tangerine Drive to Citrus Drive (310 linear feet)
- Tangerine Drive from D Road to E Road (2,620 linear feet)
- Valencia Drive from D Road to Orange Avenue (660 linear feet)

As a background, the area has experienced drainage and standing water concerns for decades as it is one of the lowest lying areas within the Town. There are no drainage facilities within the other road rights of way within the project limits. The Town's goal is to mitigate the prolonged standing water / drainage issues by installing a stormwater management system consisting of swales, culverts and inlets within the road rights of way and to direct stormwater runoff to the Town's canal system. In addition to drainage system improvements, residents of Loxahatchee Homes have requested public water and wastewater facilities to be installed for the conversion of their wells and septic systems.

- 2. The Council approved the completion of the swale work on 161st through a contract with Eakins in order to move the crews to canal stabilization project on A Road. The cost of that contract with the pipe provided by the Town is estimated to be \$207,512. Funds are available for this expenditure because of the savings achieved on the culvert bid projects versus what had been budgeted for those projects.
- 3. The TPA grant funding project for potential improvements to the Okeechobee Corridor required the investment of funds into preliminary designs and continued assistance of local lobbyist to pursue the grant. Those costs for this fiscal year are estimated to be \$100,000. The suggested source of this reallocation of funds is savings from the FY24 paving project and a \$20,000 reduction in the proposed cost sharing project which has yet to be implemented. This would leave \$130,000 available for the cost sharing program.
- 4. Hyde Park materials and equipment. The Town expended approximately \$160,000 in contracted services (including tree removal) and equipment rental to have this project completed by its in house work force. Those expenditures including the labor associated with the completion of the work are subject to FEMA reimbursement at potential rates up to 75% of actual costs. While the FEMA monies will eventually be forthcoming the Road and Drainage fund has borne the costs associated with the project and it is more appropriately budgeted as a capital project. The source of the funding reallocation would primarily be the current deletion of the replacement of the culvert bridge at 24th and F as staff has re-evaluated the condition of the culvert and does not believe it is in need of immediate replacement.

Recommendation:

Seeking Council approval to Budget Amendments to reallocate and update the Capital Improvements Element of the Comprehensive Plan.

SUBJECT: Discussion on Local Mitigation Strategy (LMS) Grant Submission

Background: Local Mitigation Strategy (LMS) is overseen by the Palm Beach County Public Safety-Emergency Management Division. LMS is a unified, coordinated effort among County and municipal governments to reduce the county's vulnerability to the impacts of identified natural and man-made hazards. Among its primary missions, the Strategy serves as a basis for comprehensive mitigation planning, project identification and prioritization, and provides assistance to project sponsors in securing and allocating available federal, state, local, and other disaster mitigation assistance funds.

Project submission is ongoing, however twice a year LMS projects are scored and officially added to the local Prioritized Project List (PPL). By virtue of being on the LMS PPL, each project potentially qualifies for funding assistance consideration though a variety of mitigation assistance programs.

The Town completed 7 submissions for the Spring 2024 PPL list on Friday, May 10th as shown below:

- Town Wide Canal Stabilization \$79,900,000
- Collecting Canal Rehabilitation & Restoration \$10,000,000
- Canal Gate (Control) Structure Upgrades \$300,000
- Town Wide SCADA & Telemetry \$300,000
- Installation of Pumps & Weirs \$750,000
- Modernization of Public Works Facilities \$750,000
- Town Hall Generator & Power Source Conversion \$75,000

The following pages consist of verbiage outlines for the projects submitted. We will continue to add projects as seen fit for the Fall 2024 PPL list that will be completed in October of 2024.

Rural Infrastructure Fund (RIF) Grant Submission **SUBJECT:**

Background: The Town has been designated as a Rural Community by the State of Florida. This designation enables the Town to participate in the Rural Infrastructure Fund (RIF). The RIF plays a crucial role within rural communities by providing financial assistance for infrastructure projects and helps rural areas maximize their access to essential resources.

Construction grants from the RIF can cover up to 75% of total project costs, with the potential for 100% funding for projects located in specific economically constrained rural communities.

In line with these objectives, the Town has completed five submissions (Four Construction and one Planning) for the FY 2024-2025 RIF application cycle on September 16, 2024. These submissions reflect the Town's commitment to leveraging available funding opportunities to improve infrastructure and bolster the local economy. Application summaries follow.

Citrus Drainage (construction)

The proposed project is to improve drainage and transportation through the Town's primary commercial area, improve connectivity between residential parcels and the growing commercial properties, and reduce reliance on the nearby roadways to promote lower traffic density and shorter trip time. This effort will include full engineering design, permitting, construction, and closeout of roadway and swale improvements, potable water, and sanitary sewer facilities along Citrus Drive, East Citrus Drive, Tangerine Drive, Valencia Drive, and Orange Avenue to alleviate recurring issues with drainage and roadway safety as well as enhance access to potential commercial parcels south of Collecting Canal Road.

Collecting Canal Stabilization (construction)

The proposed project is to repair and stabilize canal banks along the Town's primary drainage collection canal which conveys runoff from flood hazard areas to the primary outfall structure at D Road for discharge to the South Florida Water Management District-operated C-51 Canal. Recent storm events and gradual increases in usage over time have weakened canal banks and resulted in washouts and slope failures, creating a serious threat to public safety and hampering local traffic. The current phase of the project will cover about one-half mile of canal along both sides of the bank and is one of six phases intended for implementation on Collecting Canal.

Paving plan for A to Okeechobee, Collecting Canal from A to B, N North Road and S North Road (construction)

Town of Loxahatchee Groves CIP Paving project looks to address paving of 4 road segments in Town: Segment 1, which stretches from A Road at Collecting Canal Road to Okeechobee Blvd, Segment 2, along Collecting Canal Road from B Road to A Road, Segment 3 N North Road and Segment 4 S North Road. This project involves upgrading these roads to a 20-foot width with a durable 2.5-inch layer of SP-12.5, TL-C asphalt. It also includes the installation of features such as Seminole Style Speed Tables, thermoplastic striping, and aprons. In addition, we aim to address the drainage concerns, and the project will include essential stormwater management improvements.

Pump House, Control Gates and Telemetry (Construction)

The proposed project is to provide necessary repairs and updates to the Town's primarily inflow pump station and outflow control structure at D Rd, and repairs to secondary outfall structures located at A Rd and Folsom Rd all along Southern Boulevard. In addition to structural and material repairs, the control system, sensors, and electrical components are in need of replacement. These structures provide all surface water for use by commercial and agricultural users for irrigation, and flood protection for those properties during and following rainfall events and are a key component to the economic operations which occur in the Town.

Public Works Facility (Planning)

The Town of Loxahatchee Groves seeks funding to construct a new Town facility that will incorporate Town Hall and Public Works in one building. The proposed 7,500-square-foot facility will feature 5,500 square feet for vehicle storage and maintenance, 2,000 square feet for office. This modernization aims to improve service delivery, enhance safety, and increase resilience to natural disasters, while demonstrating leadership in sustainable infrastructure development and providing sustainable elements including solar panels and covered parking.

SUBJECT: Discussion of Ordinance No. 2025-09 regarding amendments to the code

enforcement lien reduction and release ordinance

Background:

Code enforcement liens are statutory liens created by Ch. 162, Part I, Florida Statutes. If a violation is not corrected within the timeframe provided by the Special Magistrate, a daily fine begins to accrue until the violation is corrected. These types of fines are intended to provide local governments with leverage to ensure compliance with the applicable code of ordinances and are not meant to be revenue sources. Further, as these liens do not have superpriority status and are not equal in dignity to taxes, if the Town were to foreclose a code enforcement lien, it would be required to pay off any existing mortgage(s) or other judgments and liens that were recorded prior to the Town's lien. This lack of priority renders many foreclosures of code enforcement liens an ineffective remedy. Therefore, situations will arise when a reduction of a lien will be in the best interests of the Town, and it is imperative that the Town have proper processes and criteria in place to reduce such liens in an equitable and lawful manner. Such processes and criteria will ensure that all parties who come before the Town for a lien reduction or lien release will be subject to the same treatment and the Town will reduce and release such liens in a consistent and lawful manner.

On July 14, 2025, the Town Council reviewed documentation which was provided by the Town Attorneys in June of 2023. Since no decision on the documents was made in 2023, Town Staff brought forth the documents again for consideration by the Town Council. At the recent Town Council meeting, the Town Council decided to immediately adopt a lien reduction and release Ordinance rather than considering an Interim Resolution and Policy. Therefore, attached is the proposed Ordinance with the following changes based upon comments at the last Town Council meeting:

- 1. Section 14-5 Paragraph (b) (5) was added which provides for a limitation of 25% reduction in the lien amount and states:
 - The special magistrate may make one of the following determinations: (i) grant the application and reduce the fine/lien to a specified amount, which shall not exceed seventy-five (75%) percent of the fine/lien amount; or (ii) deny the application for a reduction.
- 2. Section 14-5 Paragraph (d) was added to allow only one opportunity to reapply for the fine/lien reduction which states:

Subsequent to the denial of an application for a fine/lien reduction and following the expiration of the one-year within period from the date of such denial, an Applicant shall be permitted only one opportunity to reapply for a fine/lien reduction.

The Town Attorney did not provide any language to address the request to have a unanimous Town Council vote before proceeding with "public health, safety, and welfare" matters since he felt that this should be analyzed and considered by the new Town Attorney as that issue requires legal research and additional information from the Town Council.

At second reading of the Ordinance outlining the fine/lien reduction and release procedures will be a companion Resolution which will state the application fees for applying of a lien reduction, partial release of lien and release of unenforceable liens.

Recommendation:

Discussion and Approval on first reading of the Ordinance to outline the fine/lien reduction and release procedures.

1.Proposed Ordinance No. 2025-09 regarding proposed amendments to Chapter 14 for code enforcement lien reductions and releases

ORDINANCE NO. 2025-09

AN ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF LOXAHATCHEE GROVES, FLORIDA, REORGANIZING AND AMENDING CHAPTER 14 "CODE ENFORCEMENT", BY ADDING ARTICLE I "IN GENERAL" AND ARTICLE II "LIEN REDUCTIONS AND RELEASES"; AMENDING SECTION 14-4 "APPLICATION FOR RELIEF FROM CODE ENFORCEMENT LIEN" TO PROVIDE GENERAL PROVISIONS APPLICABLE TO LIEN/FINE REDUCTIONS AND RELEASES; TO ADOPT SECTION 14-5 "SPECIAL MAGISTRATE LIEN REDUCTIONS AND RELEASES" TO ADDRESS REDUCTIONS BY SPECIAL MAGISTRATE: TO ADOPT SECTION 14-6 "OTHER LIEN RELEASES" TO ADDRESS PARTIAL RELEASES OF LIENS AND RELEASES OF UNENFORCEABLE LIENS AND FOR OTHER PURPOSES; PROVIDING FOR CONFLICT, SEVERABILITY, CODIFICATION, AND AN EFFECTIVE DATE.

WHEREAS, the Town Council of the Town of Loxahatchee Groves wishes to adopt an ordinance to address the criteria for the reduction and release of code enforcement liens and to clarify the reduction and release processes to ensure any and all lien reductions and releases are processed and decided in a reasonable, lawful, consistent, and equitable manner; and,

WHEREAS, the Town Council finds the adoption of the Ordinance serves a public purpose and is in the best interest of the Town.

NOW, THEREFORE, BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF LOXAHATCHEE GROVES, FLORIDA:

Section 1: That the foregoing "WHEREAS" clauses are hereby ratified and confirmed as being true and correct and are hereby made a specific part of this Ordinance.

Section 2. The Town Council for the Town of Loxahatchee Groves hereby amends Chapter 14 "Code Enforcement" as follows:

 - 1. Fine/lien reduction hearing before the special magistrate;
 - 2. Partial release of a lien; or
 - 3. Release of an unenforceable lien.
- (b) Petition fee. Each petition must be submitted to the code compliance division on the form provided by the town along with the non-refundable petition fee. - (d) *Policies*.  - (a) Special magistrate to consider applications for lien relief. All applications for lien reductions, satisfactions and releases, or other matters relating to relief from liens, shall be directed to the special magistrate. The special

- magistrate shall consider the written request, the statements of the applicant or an authorized agent for the applicant, the recommendation of town administration, and any other information deemed relevant, and render a decision on the application.
- (b) Payment. The applicant shall make payment to the town within the timeframe ordered by the special magistrate, which shall be no longer than 30 calendar days from the date of the order. Upon receipt of the required payment, the town manager or his designee shall execute a satisfaction and release on behalf of the town. Should the applicant fail to make payment in a timely manner, the full amount of the lien shall be reinstated as due and payable to the town.

Sec. 14-5. – Special Magistrate lien/fine reductions and releases.

- (a) <u>Preliminary conditions</u>. If the following conditions are met, the petition for a reduction of a lien/fine by the special magistrate will be set for a hearing:

 - 2. The subject property and all other real property owned by the petitioner within the town must be in compliance with the town's code of ordinances.
 - 3. All outstanding code enforcement administrative costs and the petition fee have been paid in full.
 - 4. The petitioner has no overdue or delinquent accounts with the town, including but not limited to, town taxes or permit fees.

If the above conditions are not satisfied, the petition will be denied, and the town will mail a copy of the notice of denial to the petitioner by regular U.S. Mail to the address provided in the petition.

- (b) Fine/lien reduction hearing.
 - (1) If the preliminary conditions above are met, a hearing will be set, and

- the town will mail a notice of hearing to the petitioner at least five calendar (5) days prior to the hearing date by regular U.S. Mail to the address provided in the petition.
- (2) Failure of the petitioner to attend the hearing will result in the Town requesting that the petition be denied, unless otherwise agreed to in writing by the town.
- (3) The fine/lien reduction hearing will be limited to the issue of whether the fine/lien assessed should be reduced, and the hearing shall not be a hearing de novo of the original case. The burden of proof will be on the petitioner to show cause for reducing the fine/lien.
- (4) At the hearing, the special magistrate shall consider one or more of the following factors:
 - 1. The gravity of the violation;
 - 2. Any action(s) taken by the petitioner to correct the violation(s);
 - 3. Any previous violations committed by the petitioner;
 - 4. Any recommendation of the town administration;
 - 5. Whether the Applicant or managing member of the Applicant owns other properties in the town, and how many had other code cases or other liens;
 - 6. Whether the Applicant owned or was the managing member or the property for which the lien was placed at the time the lien was placed;
 - 7. Any other factor which may show a hardship on the Applicant requesting the release or which may provide a reasonable basis for the requested relief;
 - 8. <u>The length of time between the ordered compliance date and the</u> date the violation was eliminated;
 - 9. Any actual costs expended by the owner to cure the violation as provided by supporting documentation, including payment of town licensing or permit fees;
 - 10. Any other matter suggesting that the lien reduction is or is not

equitable and/or in the best interests of the town.

- (5) The special magistrate may make one of the following determinations:

 (i) grant the application and reduce the fine/lien to a specified amount, which shall not exceed seventy-five (75%) percent of the fine/lien amount; or
 - (ii) deny the application for a reduction.

If the reduction is granted, the special magistrate's order shall include a date certain for the payment of the reduced fine/lien and shall include a statement that if the reduced fine/lien is not paid in full on the date provided, the lien/fine amount shall automatically revert back to the original amount.

- (c) *Lien releases*. When a lien or reduced lien has been paid in full in accordance with the order of the special magistrate, the town manager, with the town clerk attesting, may execute a release of lien on behalf of the town.
- (d) Effect of denial on application for subsequent lien reduction or forgiveness.
 - 1. If the application is denied after a hearing before the Special Magistrate or if the application is automatically denied due to the failure of the petitioner to comply with the conditions imposed by the town council, the petitioner shall thereafter be barred from applying for a subsequent reduction or forgiveness of the lien for a period of one (1) year from the date of denial. During the one-year period, the lien may only be satisfied and released upon full payment of the fine or penalty imposed in accordance with this policy.
 - 2. Subsequent to the denial of an application for a fine/lien reduction, and following the expiration of the one-year within period from the date of such denial, an Applicant shall be permitted only one opportunity to reapply for a fine/lien reduction.

Sec. 14-6. – Other lien/fine releases.

(a) <u>Partial lien release</u>. A property owner may petition the town for a partial release of lien where the lien on the violating property has attached to a separate parcel. The following conditions and procedures will apply to such request:

- (1) The subject property, if located within the town, must be free of all outstanding debts (including past due taxes) due to the town and must be in compliance with the town's code of ordinances.
- (2) A partial release of lien cannot be sought for the property where the lien originated.

- (b) <u>Unenforceable lien releases</u>. A property owner may petition the town for a release of a code enforcement lien as legally unenforceable or otherwise uncollectible. The following conditions and procedures will apply to such request:

 - (6) The town attorney has determined in writing that the lien is legally unenforceable or otherwise uncollectable based on the conditions herein.
 - (c) *Lien releases*. When a petition for release or partial release of a code enforcement lien has met the conditions under this section, the town manager, with the town clerk attesting, shall be authorized to execute
