FURTHER DISCUSSION

REPORTS

12. Financial Report given by Andrea Snider.

September 2021 Overview

Statistics

- The average daily census (ADC) for September 2021 was 12.53. This was a 1.53 increase above our target of 11.0 and continues our annual upward trend of YTD ADC AT 10.38.
- FY21 YTD Medicare swing bed patient days through September were 2,225 as compared to the PY total of 2,391 (approximately - 7%).
- Cash receipts collected for the month of September were \$279K, however this total does not include the \$891K due from Medicare that was withheld for the month which would have brought total cash receipts to approx. \$1.1M.

Balance Sheet Highlights

- The operating cash balance as of September 30 was \$102K. This decreases of \$475K from the August 2021 balance was primarily due to Medicare cash receipt withholdings.
- AR decreased \$211K from July. This was primarily due to a consistent increase in collections; however, please note AR - Due from Medicare now shows a balance of \$891K reflective of patient AR paid but withheld and due back to the facility.
- AP increased \$517K from August. This is reflective of the \$891K in Medicare payments withheld in September.
- The Due to Medicare liability account has decreased \$1.1M, reflective of the 2017 filed cost reports with estimates totaling \$3.5M owed back to Medicare. The filed

total estimate was approx. \$1.1M lower than the previously recorded 2017 estimated liabilities reflected on the Medicare Payables schedule.

- o As a reminder, the 2020 filed cost report currently reflects a receivable of \$1.3M. We have also completed filing the 7/31/21 Interim rate review requested by Novitas with a current estimated receivable of approximately \$1.1M. Currently awaiting further updates from Novitas regarding the status of these two items.

Income Statement Highlights

- o Current month net patient revenue of \$2.1M is primarily due to the decreased total amount owed to Medicare regarding the 2017 cost report estimates recorded in the month of September.
- o Operating expenses of \$1.27M were comparable with the monthly average of \$1.26M in August. Overall YTD expenses are currently showing an increase of \$231K. This is primarily due to a \$559K increase in contract labor and \$124K increase in supplies expense, reflective of COVID related market conditions affecting increased rates, staffing requirements, and increased usage in supplies.
