*Thank you for considering Hardworking Roofing and Construction for your roofing restoration needs. We specialize in working with homeowners to restore their roofs after damage and ensure that insurance claims are handled efficiently and professionally. Our team is well-versed in Oklahoma Residential Code and all relevant insurance compliance codes, so you can trust that every aspect of your roofing restoration will meet the highest standards of quality and regulatory requirements. From your initial consultation to the final inspection, we're committed to providing expert craftsmanship and navigating the insurance process with ease. At Hardworking Roofing and Construction, we prioritize your peace of mind and are dedicated to restoring your home safely and compliantly.*

### **Bulletin PC2016-02**

*The purpose of this Special Notice is to alert insurers of Bulletin No. PC 2016-02, which states in part "Companies are instructed that for purposes of providing additional coverages, as an exception to the ordinance or law exclusion, you shall consider all building codes as being strictly enforced." Therefore, additional coverage for increased costs incurred due to building code-related items, if applicable, should be applied regardless of whether the building code is actively enforced by local authorities.*

*Oklahoma Insurance Deductible Law: According to Oklahoma State Law (Title 36, Section 6212.1), it is illegal for roofing contractors to waive or absorb the insurance deductible. This means that a contractor cannot offer to pay the deductible on behalf of the homeowner or "cover" it by inflating the cost of the work.*

*Purpose of the Law: The law was enacted to:*

*Prevent Fraud: Waiving a deductible can lead to inflated estimates, and contractors may charge the insurance company for more than the actual cost of the work. This undermines the insurance process and leads to higher premiums. Ensure Fairness: It ensures that homeowners are responsible for their deductible, as required by their insurance policy. The deductible is a contractual obligation that must be met before insurance payouts. Enforcement: If a roofing company offers to waive the deductible, it could be subject to fines, penalties, or even criminal charges. Homeowners should be cautious when approached by contractors who offer this as an incentive.*

## REMARKS

*Remarks or inquiries by the audience not pertaining to any item on the agenda.*

Gary Kerbo spoke asking how we are coming along with the properties that are residential instead of commercial. Attorney Kendall stated that at the last meeting the commissioners passed having a hearing for both the properties. It was also stated that everyone within 300 feet of the properties will receive a letter in the mail so that everybody can tell their side of the story and then a decision will be made. Attorney Kendall also stated that the properties have already been cited, and they requested a hearing.
