NOTICE

PUBLIC NUISANCE ADMINISTRATIVE HEARING CITY OF MARIETTA, OKLAHOMA

NOTICE DATE: Monday, July 27, 2022

HEARING DATE/TIME: Tuesday, August 11, 2026 @ 6:00 p.m.

CASE NUMBER: 25-0018

HEARING LOCATION: City Council Meeting Room, 700 S. Hwy 77, Marietta, OK 73448

PROPERTY ADDRESS: 407 W. Cherokee

LEGAL DESCRIPTION: Lot 6 Blk 44 CITY OF MARIETTA, LOVE COUNTY, OKLAHOMA

OWNER(S) OF RECORD: Valtierra, Jonathan

OTHER PARTIES:

According to records of the Love County Treasurer's Office, you are the current owner(s) of record for the property described above, which is located within the City Limits of Marietta, Oklahoma. The condition which presently exists at this property is alleged to be in violation of 11 O.S. 22-112 of the Oklahoma Statutes regarding dilapidated building(s). Corrective actions needed:

Demolition and removal of building(s), secondary and accessory structures on property.

This notice is to inform you that a hearing will be held at the above date, time and location by the City Council, to determine whether or not a dilapidated building or structure exists and whether or not such shall be abated. You may appear at such time and submit any arguments or evidence you may have pertaining to this matter.

If such a condition is determined to be a dilapidated building(s), action is necessary for demolition and removal, and if the dilapidated building(s) are demolished and removed, all costs, if not paid by the property owner, will be certified to the County Treasurer, placed on the tax roll, and thereby become a lien against the property. An appeal of the City Council's decision may be made to the Love County District Court by within 30 days following the date of the decision.

If you have any questions, or make the corrections listed above prior to the hearing date, you may call the Code Enforcement Division at (580) 278-5569.

PUBLIC NUISANCE ADMINISTRATIVE HEARING
CITY OF MARSHETTA, OKLAHOMA

1. **Definition and scope of the study**
 The study aims to investigate the impact of digital marketing on the sales performance of small and medium-sized enterprises (SMEs) in the United Kingdom. The research focuses on the use of social media, email marketing, and search engine optimization (SEO) as key digital marketing strategies.

2. **Research objectives**
 The primary objectives of this study are:
 - To identify the most effective digital marketing channels for SMEs.
 - To measure the return on investment (ROI) for various digital marketing activities.
 - To explore the challenges and opportunities associated with digital marketing for SMEs.

3. **Methodology**
 The research employs a mixed-methods approach, combining quantitative data analysis with qualitative insights from interviews and focus groups. The quantitative data is collected through a survey of 100 SMEs, while the qualitative data is gathered from 15 in-depth interviews with marketing managers.

4. **Data analysis**
 The quantitative data is analyzed using statistical software (SPSS) to identify correlations and trends. The qualitative data is analyzed using thematic analysis to extract key themes and insights.

5. **Expected outcomes**
 The study is expected to provide valuable insights into the effectiveness of digital marketing for SMEs, helping them to optimize their marketing strategies and improve their sales performance.

6. **Conclusion**
 The findings of this study will be discussed in the final chapter, highlighting the key takeaways and providing recommendations for future research.

PUBLIC NUISANCE ADMINISTRATIVE HEARING CITY OF MARIETTA, OKLAHOMA

NOTICE DATE: Monday, July 27, 2022

HEARING DATE/TIME: Tuesday, August 11, 2026 @ 6:00 p.m.

CASE NUMBER: M-22-0035, 250046

HEARING LOCATION: City Council Meeting Room, 700 S. Hwy 77, Marietta, OK 73448

PROPERTY ADDRESS: 701 W. Cherokee St.

LEGAL DESCRIPTION: N2 Lot 3 Blk 47 CITY OF MARIETTA, LOVE COUNTY, OKLAHOMA

OWNER(S) OF RECORD: Wilhite, Angella M.

OTHER PARTIES:

According to records of the Love County Treasurer's Office, you are the current owner(s) of record for the property described above, which is located within the City Limits of Marietta, Oklahoma. The condition which presently exists at this property is alleged to be in violation of 11 O.S. 22-112 of the Oklahoma Statutes regarding dilapidated building(s). Corrective actions needed:

Demolition and removal of building(s), secondary and accessory structures on property.

This notice is to inform you that a hearing will be held at the above date, time and location by the City Council, to determine whether or not a dilapidated building or structure exists and whether or not such shall be abated. You may appear at such time and submit any arguments or evidence you may have pertaining to this matter.

If such a condition is determined to be a dilapidated building(s), action is necessary for demolition and removal, and if the dilapidated building(s) are demolished and removed, all costs, if not paid by the property owner, will be certified to the County Treasurer, placed on the tax roll, and thereby become a lien against the property. If you have any questions, or make the corrections listed above prior to the hearing date, you may call the Code Enforcement Division at (580) 276-5569.

NOTICE

This property, located at 701 W. Cherokee, is in violation of public nuisance ordinances of the City of Marietta regarding:

☒ Tall Grass/Weeds
☒ Trash/Debris
☒ Dead Trees
☒ Tree Limbs
☐ Swimming Pools

☐ Inoperative Vehicles
☐ Animal Violation

☒ Improper fence

If you fail to resolve the violation within 10 days

or by 10/20/25, you may receive a citation and/or the City of Marietta may take action to abate the nuisance without further notice.

Any recurrence of the violation described herein within six (6) months of this notice may be summarily abated by the City of Marietta without further notice.

The cost of any abatement, including a \$100 administrative fee, shall be assessed against the property owner, or their agent, and a lien may be imposed on the property to secure payment, all without further notice of the property owner in per Oklahoma State Statute Title 11, Section 27-111, and Marietta City Code Sections 38-26 et seq.

The property owner or their agent may appeal this notice and order to abate the nuisance within ten (10) days of the mailing of this notice by filing a notice of appeal stating the grounds thereof to the City Administrator at 700 S. Highway 1, Marietta, Oklahoma, 73448.

If you have any questions, please contact the Code Enforcement Division of the Marietta Police Department at 580-276-9371.

According to the results of the survey, Mr. Morgan was
born on 11/11/1925 in the town of Bellingham, Washington.
He is 62 years old, single, and his education is at "Juniata
College, PA 15774." He currently is located within "Forest Grove, VA"
at 2100 "The Parkway," the residence is a "2 1/2 story, 1 1/2
bath, 2 car garage." The area is said to be within the
"500' wide floodplain and the area found to be within the
"100' wide floodplain." Consequently, Mr. Morgan
information stated in the job reflects the status of the
project. Mr. Morgan said that he is not sure if the
project is located in the floodplain or not. He said that the
project is located within the floodplain and is subject to review by
the project office - after the assessment.

RESOLUTION _____

DECLARING A HOMECOMING PARADE ORGANIZED BY THE MARIETTA PUBLIC SCHOOLS A SPECIAL EVENT AND AUTHORIZING STREET CLOSURES TO ACCOMMODATE THE EVENT

WHEREAS, the Marietta Public Schools is planning a special event to be held within the corporate limits of the City of Marietta on Saturday, September 4th, 2026; and

WHEREAS, it will be necessary to close various streets, including a portion of Main Street, within the City of Marietta to accommodate the celebration; and

WHEREAS, the Oklahoma Department of Transportation requires a Resolution be passed by the Marietta City Council authorizing the closure of said street and providing certain information.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Marietta:

1. The Marietta Public Schools Homecoming Parade, scheduled for September 4th, 2026, is recognized as a special event within the City of Marietta.
2. The closure of West Main Street, which is also State Highway 32, between Second Avenue and Fifth Avenue is hereby authorized beginning at 2:00 p.m. on September 4th, 2026. This authorization expires at 5:00 p.m. on September 4th, 2026.
3. The City Administrator may authorize the closure of other City streets located adjacent to the event area.
4. The Police Department is authorized and directed to post and enforce parking restrictions along areas of South Fourth Avenue and other City streets to provide for safe and effective movement of traffic and pedestrians.
5. The Operations Department is authorized and directed to install signage and traffic control devices to effect the closures authorized by this Resolution as outlined in the latest addition of the Manual of Uniform Traffic Control Devices.

PASSED by the City Council and **SIGNED** by the Mayor this 11th day of August 2026.

RESOLUTION _____

Closing a Portion of Main Street for Halloween Celebration

8/7/2026

FLOCK SAFETY

LET ME TELL YOU WHAT FLOCK REALY IS AND WHAT FLOCK REALLY DOES. There are lots of misconceptions so let's separate fact from fiction.

Across the United States, law enforcement agencies are facing increasingly mobile criminals. Vehicle theft rings, organized retail theft, human trafficking, narcotics trafficking, and violent offenders frequently travel across multiple jurisdictions, making traditional policing methods less effective. Automatic License Plate Reader (ALPR) technology, such as the Flock Safety system, has become one of the most effective tools available to help officers identify criminal vehicles while minimizing unnecessary contact with law-abiding citizens.

Unfortunately, misconceptions about Flock Safety have created unnecessary concern. Understanding what the system actually does—and what it does not do—is essential.

-Flock Is Not Mass Surveillance

Perhaps the most common criticism is that Flock allows the government to “track everyone.”

That claim is inaccurate.

Flock cameras do not continuously track individual people through GPS or monitor a person's movements in real time. Instead, they capture a still image of the rear (or occasionally front) of a passing vehicle, record the license plate number, vehicle characteristics (make, model, color), and the date, time, and location where that vehicle passed a camera.

It is no different in principle than an officer observing a vehicle driving down the road and recording the license plate. The difference is that the camera can perform this task accurately 24 hours a day.

-Flock Does Not Use Facial Recognition

Another common misconception is that Flock identifies drivers or passengers.

It does not.

Flock Safety's system **is designed to read license plates** and identify vehicle characteristics. It is not intended to identify individuals through facial recognition. Images are focused primarily on the vehicle rather than the occupants.

CITY OF MARIETTA POLICE

-Flock Does Not Issue Tickets

Unlike many traffic camera systems, Flock cameras do not automatically issue speeding tickets or red-light citations, or tickets for no insurance.

The system is an investigative tool.

Its purpose is to notify officers when a vehicle associated with criminal activity is detected.

How Flock Actually Works

When a vehicle passes a Flock camera, the system records:

- * License plate number
- * Vehicle make
- * Vehicle model
- * Vehicle color
- * Distinguishing characteristics (roof rack, decals, trailer, etc.)
- * Date and time
- * Camera location

If the vehicle has been entered into the National Crime Information Center (NCIC) or another authorized database as:

- * Stolen
- * Connected to a felony investigation
- * Associated with a missing person
- * Linked to an AMBER Alert or Silver Alert
- * Connected to another legitimate law enforcement investigation

the system immediately alerts officers.

This allows law enforcement to locate suspects in minutes instead of days.

Helping Recover Stolen Vehicles

CITY OF MARIETTA POLICE

-Historically, stolen vehicles often disappeared before officers even knew where to begin searching.

Today, Flock cameras can notify officers almost immediately when a stolen vehicle enters their jurisdiction.

Many stolen vehicles are recovered within hours rather than days.

Solving Serious Crimes

Although license plate readers are often associated with vehicle theft, they are used in investigations involving:

- * Murder
- * Aggravated assault
- * Kidnapping
- * Human trafficking
- * Child abduction
- * Sexual assault
- * Burglary
- * Organized retail theft
- * Narcotics trafficking

In many cases, investigators may have only a vehicle description or partial license plate. Flock can narrow thousands of vehicles to a manageable number of investigative leads.

Protecting Officer Safety

Rather than stopping random vehicles in hopes of finding a suspect, officers can focus on vehicles that have already been linked to criminal activity.

This means:

- * Fewer unnecessary traffic stops
- * Better use of officer time
- * Safer interactions

CITY OF MARIETTA POLICE

* More effective deployment of limited resources

Rural Communities Benefit the Most

Small communities like Marietta often serve as pass-through corridors between larger cities and interstate highways. (Dallas, OKC, Ardmore, Winstar via Interstate 35)

Criminals frequently avoid major highways where state troopers are more visible and instead travel secondary roads through rural communities.

Without automated license plate readers, these vehicles often pass unnoticed.

Strategically placed Flock cameras can provide immediate notification when wanted vehicles enter or leave the community, allowing officers to respond quickly.

Strong Privacy Protections

Flock Safety includes safeguards designed to protect civil liberties.

These typically include:

- * Limited data retention periods
- * Access restricted to authorized personnel
- * Audit logs recording every search
- * Searches tied to legitimate criminal investigations (requiring legitimate case numbers)
- * Compliance with state and federal law

Every search leaves a permanent record, making misuse detectable and subject to discipline or prosecution.

-Addressing Common Criticisms

“The government is tracking everyone.”

No. The system documents vehicles passing fixed locations. It cannot continuously monitor where people go.

“Police can watch me anytime they want.”

CITY OF MARIETTA POLICE

No. Officers can only search recorded vehicle data within the agency's authorized access, and searches are logged and auditable.

"Flock invades privacy."

People generally have a reduced expectation of privacy in license plates displayed on public roads. Courts have long recognized that officers may observe and record license plates visible to anyone traveling on those roads.

"Only criminals should worry about it."

The goal is not to monitor ordinary drivers. The value of the system is that it helps identify the small number of vehicles associated with crimes while reducing the need for broad investigative stops affecting innocent motorists.

"It's just another expensive gadget."

Many agencies report that ALPR systems have helped recover stolen vehicles, identify suspects, and generate investigative leads that would have been difficult or impossible to obtain through traditional methods alone. For smaller departments with limited staffing, these systems can extend investigative capability without requiring additional personnel.

Conclusion

Flock Safety is not a replacement for police officers—it is a force multiplier. It enables officers to work more efficiently, respond more quickly to serious crimes while reducing unnecessary contacts with law-abiding citizens.

For communities like Marietta, where criminals increasingly use rural roadways to avoid heavily patrolled highways, strategically placed Flock cameras provide a practical way to protect residents, support investigations, and improve public safety. Like any law enforcement technology, Flock will be governed by clear policies, transparency, and accountability. When used appropriately, it can be a valuable investigative tool that enhances both public safety and responsible policing.

CITY OF MARIETTA POLICE

SUCCESS-

Since June 2026, Marietta has had cameras installed, for a brief trial period to test the benefits of FLOCK Safety system. During this time, through present date, the cameras have been utilized to investigate multiple hit-and-run suspects, providing insurance information of suspect vehicles to victims. Who would have been required to file on their own insurance instead of the driver at fault due to fleeing the scene of the accidents.

A/C theft suspects have been investigated in the areas of A/C thefts, narrowing down suspects, without interrupting or disturbing uninvolved citizens. With the ability to monitor FLOCK cameras, it's like having eyes in the area, helping Marietta PD with the investigations, where we are hopeful to bring to a conclusion soon.

In the first week of August, FLOCK cameras were utilized to aid in the welfare check of a juvenile, who had been listed as endangered by Texas CPS. Non-custodial parents fled Houston with the juvenile and Texas CPS had concerns for the juveniles safety. Marietta PD was contacted due to the known direction of travel (NB Interstate 35), and was found to have travelled through Marietta, based on information gathered by the FLOCK cameras. This created a timeline for Harris County Deputies, ultimately locating the juvenile in Kansas, safe and unharmed. The timeline was provided to Harris County Deputies along with information from other Agency FLOCK cameras (Ardmore, Purcell, OKC and more) and with this information, was able to solve an endangered juvenile case.

OPINION > OPINION COLUMNISTS

Column: Virginia took an important step to regulate license plate readers

By **GARRETT LANGLEY** | Guest Columnist
PUBLISHED: May 22, 2025 at 6:05 PM EDT

There are several key sections in the law recently signed into law by Gov. Glenn Youngkin that not only establishes clear protocols surrounding how long law enforcement can retain data for crime-solving purposes, but also balances the privacy of Virginians.

aclu_nationwide

In an important step, Virginia signed into law a bill limiting how police can use the data collected by license plate readers. It will also prohibit police from storing this data for over 21 days.

We will continue to fight to rein in mass surveillance and protect all of our privacy.

- ✓ Data is 100% owned by customers and will never be sold.
- ✓ Private customers never have access to government data or hotlists.
- ✓ Flock automatically deletes data after 30 days by default.
- ✓ Flock LPR only take images of publicly available information.
- ✓ Only your agency decides who to share with, not Flock.
- ✓ No facial recognition

A large flock of birds, possibly geese, is captured in flight against a vibrant sunset sky. The birds are arranged in a loose V-shape, with their silhouettes appearing as dark specks against the warm, orange and yellow hues of the low sun. The sky transitions from a deep orange near the horizon to a soft purple and blue at the top. The overall mood is serene and majestic.

Built with
Privacy in Mind

A public safety system you can stand behind

Flock prioritizes built-in controls and audit tools that make system use visible, reviewable, and aligned with policy.

Agency Controlled Sharing

Every external access request requires explicit approval with no hidden sharing.

Transparency Portals

Publish policies, usage, and access rules in a public-facing portal.

Encrypted Data

Protect data so only authorized users can view it.

Mandatory Offense Types & Filters

Log search reasons and block restricted use cases automatically based on policy.

Audit Assistance Tool

Surface atypical activity early and review it quickly with a clear, documented workflow.

30-Day Data Retention

Automatically delete footage after 30 days by default to reduce risk.

All data is stored with end-to-end data safety including:

- FBI (CJIS)
- NDAA
- SOC2 (Type II)
- ISO 27001 (Data Security)
- ISO 27701 (Data Privacy)
- ISO 42001 (AI)
- Higher Education Community Vendor Assessment Tool (HECVAT)

We are also aligned with the security protocols established by NIST Cybersecurity as well as the Cloud Security Alliance CAIQ framework. Stored on the AWS GovCloud.

- Customizable for each agency
- Display technology policies
- Publish usage metrics

- ✓ **Every search** requires a registered ID with an offense type
- ✓ Offense type and user ID are saved in a **permanent audit trail**.
- ✓ Flock encourages all agencies to conduct **regular audits to ensure proper usage**.
- ✓ Optional **audit assistance tool** to flag atypical search patterns.

Audit Assistance

- Surfaces atypical search patterns and flags them for admin review, making it easier to have oversight on how the system is used.
- Flock recommends [Best Auditing Practices](#) for customers, encouraging a reliable rhythm of oversight.

† Flock

Myth

LPRs can track people and show police everywhere they go.

Fact

LPRs take a point-in-time image of the rear of vehicles on public roadways. They do not continuously track vehicles. Any images not used for an investigation are deleted. Courts have consistently found that taking images of public documents (license plates) on public roads is not a violation of privacy.

Myth

LPRs violate the Fourth Amendment.

Fact

Appellate and federal district courts in at least fourteen states, including the 9th and 11th Circuits, have upheld using evidence from license plate readers as constitutional without requiring a warrant.

Myths and Facts

Myth

Flock sells customer data, compiling all of it into a national database.

Fact

Your community owns 100% of your data and it will never be sold. Only your agency decides who to share your data with, not Flock, and all data is deleted after 30 days by default.

Myth

Flock's private customers can access law enforcement data.

Fact

Flock's private customers use our services for issues like organized retail theft and can choose to share access to their cameras with explicit consent, but they **do not have access to law enforcement data.**

Myths and Facts

Myth

Flock's LPR cameras use facial recognition.

Fact

Flock's LPR cameras **do not use facial recognition** and the Flock LPR system **cannot be searched for human characteristics** like race or gender.

Myth

LPR cameras collect private information

Fact

Flock's LPR system does not collect **private information or DMV records** such as names, addresses, or SSNs. It only contains images of vehicles and license plates which are government documents meant to be publicly displayed on public roadways.

A photograph of a family of three walking away from the camera on a paved path through a park. A woman with long dark hair, a man in a blue checkered shirt, and a small child in a light blue shirt are holding hands. The path is surrounded by lush green trees and foliage.

Myths and Facts

Myth

LPR cameras negatively impact communities of color.

Fact

Groups such as the historic Oakland, CA Chapter of the NAACP have endorsed Flock LPR **specifically because it reduces bias in policing:**

“These cameras are designed to detect only vehicles associated with a crime, removing the subjective judgment that too often leads to disproportionate stops and harmful interactions with Black and Brown residents.”

Myth

LPRs don't have an impact on crime.

Fact

San Diego Mayor Todd Gloria attributed the **20% decline in auto theft** to Flock LPR. San Francisco Mayor Daniel Lurie credited credited Flock LPR for the **41% decrease in auto theft while increasing arrests for auto theft cases by 46%.**

Flock has been used to solve **30% of homicides in Oakland and San Diego.**

Proven Impact, *Trusted Partner*

"By utilizing technology like Flock's License Plate Recognition (LPR) camera system, we have seen remarkable results. **Over 100 missing children cases have been resolved thanks to the swift action enabled by this technology.**"
-NCMEC

"We believe that any technology that **increases post-crash responsiveness and accountability** will help to raise awareness and change behaviors to avoid impaired driving"
-MADD

“In a moment when our communities are demanding both public safety and equitable justice, Flock Safety’s LPR technology offers a powerful tool to reduce bias in policing.

These cameras are designed to detect only vehicles associated with a crime, removing the subjective judgment that too often leads to disproportionate stops and harmful interactions with Black and Brown residents. It is a clear example of how technology can support safer, fairer policing.”

Protecting Vulnerable Communities

Recent Court Cases Challenging LPR

Schmidt v. City of Norfolk (US District Court, Eastern District of Virginia)

“The Court must conclude that that the limited number of photographs available on a 21-day rolling basis from 75 camera track clusters in Norfolk does not ‘track’ the whole of a person's movements nor does it provide an ‘intimate’ window into where citizens drive, park, visit, linger, sleep, or patronize.”

State v. Simonson (Washington State Court of Appeals)

“Based on established legal precedent and constitutional principles, no privacy right exists for the mere act of photographing a license plate in plain view on a public road.”

Courts are uniform that the use of LPRs does not require a warrant

The Only Safety-as-a-Service Vendor

Nothing in the Terms gives Flock ownership of Customer Data. Nothing permits Flock to sell Customer Data.

Under Section 4.1, Flock may only use and disclose Customer Data as permitted under the agreement. Specifically:

- ✓ Customer Data may be used and disclosed to provide the services the customer has purchased;
- ✓ Customer data may be used to support and improve Flock's products and services.

Reference to "disclosure" in Section 4.1 is limited to standard operational needs, such as working with trusted vendors or subcontractors (e.g., cloud hosting providers) or sharing data with third parties at the customer's direction.

Clarifying the “Perpetual” License

Some have also asked about the use of the term “perpetual” in connection with Flock’s ability to use Customer Data to support and improve products and services.

This is a standard software industry provision.

Flock provides products and services to many customers over time. The right to use data to support and improve those services must extend beyond the duration of a single customer’s contract.

This does not grant ownership of Customer Data or permit the sale of Customer Data.

It does not create new rights. It simply ensures continuity in providing and improving services.

Case Study - Auto Theft

Chamblee, GA

Chamblee PD

Stranger on Stranger Abduction | August, 28 2020

When every second matters, Flock Safety's platform is critical

Additional Case Law

These cases collectively reinforce the principle that while privacy in broader movement patterns is constitutionally significant, limited and targeted use of ALPR data by law enforcement may not violate that privacy interest.

United States v. Yang, 958 F.3d 851 (9th Cir. 2020)

The Ninth Circuit held that Yang had no reasonable expectation of privacy in a vehicle he failed to return to a rental company, thus rejecting his Fourth Amendment claim. Judge Bea, concurring, emphasized that LPR data use did not violate constitutional rights.

United States v. Wilcox, 415 F. App'x 990 (11th Cir. 2011)

The Eleventh Circuit upheld the use of LPR technology, finding no Fourth Amendment violation when law enforcement used it to identify the location of a suspect's vehicle.

United States v. Toombs, 671 F. Supp. 3d 1329 (N.D. Ala. 2023)

The court concluded that the use of LPR technology to monitor a suspect's vehicle did not infringe upon constitutional rights, as there was no reasonable expectation of privacy on public roads.

United States v. Rubin, 556 F. Supp. 3d 1123 (N.D. Cal. 2021)

The court determined that the deployment of LPR systems to gather vehicle location data did not constitute a search under the Fourth Amendment.

Hernandez-Lopez v. State, 319 Ga. App. 662, 738 S.E.2d 116 (2013)

The Georgia Court of Appeals found that the use of LPR data to identify a suspect's vehicle was permissible and did not violate constitutional protections.

United States v. Brown, No. 19 CR 949, 2021 WL 4963602 (N.D. Ill. Oct. 26, 2021)

The court held that utilizing LPR data to track a vehicle's movements over time did not amount to a constitutional violation, as the data pertained to public travel.

Junction City Police Dep't v. \$454,280 U.S. Currency, 531 P.3d 539 (Kan. Ct. App. 2023)

In this asset forfeiture case, the court ruled that LPR data used to establish probable cause for seizure did not infringe upon constitutional rights.

Additional Case Law Cont.

Trafft v. Commonwealth, 539 S.W.3d 647 (Ky. 2018)

The Kentucky Supreme Court found that the use of LPR technology to read a suspect's license plate did not violate the Fourth Amendment, as there was no expectation of privacy in public movements.

Commonwealth v. McCarthy, 484 Mass. 493 (2020)

The Massachusetts Supreme Judicial Court concluded that short-term use of LPR data did not constitute a search under the state constitution, thus no violation occurred.

United States v. Jiles, No. 8:23-CR-98, 2024 WL 891956 (D. Neb. Feb. 29, 2024)

The court determined that the use of LPR data to locate a suspect's vehicle was lawful and did not breach constitutional protections.

United States v. Yang, No. 2:16-cr-231-RFB, 2018 WL 576827 (D. Nev. Jan. 25, 2018)

This earlier district court decision found that the use of LPR data in tracking a rental vehicle did not violate the Fourth Amendment, as the defendant lacked a reasonable expectation of privacy.

United States v. Graham, No. CR 21-645 (WJM), 2022 WL 4132488 (D.N.J. Sept. 12, 2022)

The court held that the collection of LPR data over a limited period did not constitute a search, and thus did not violate constitutional rights.

Chaney v. City of Albany, No. 6:16-CV-1185, 2019 WL 3857995 (N.D.N.Y. Aug. 16, 2019)

In this habeas corpus case, the court found that the use of LPR data in the investigation did not infringe upon the petitioner's constitutional rights.

People v. Bushey, 29 N.Y.3d 158, 75 N.E.3d 1165 (2017)

The New York Court of Appeals ruled that the use of LPR technology to identify a vehicle's location did not violate the Fourth Amendment, as there was no reasonable expectation of privacy.

United States v. Bowers, 2021 WL 4775977 (W.D. Pa. 2021)

The court concluded that the deployment of LPR systems to identify a suspect's vehicle locations did not constitute a search under the Fourth Amendment.

Uhunmwangho v. State, No. 09-19-00119-CR, 2020 WL 1442640 (Tex. App. Mar. 25, 2020)

The Texas Court of Appeals found that the use of LPR data to identify a suspect's vehicle locations did not violate constitutional protections, as the information pertained to public travel.

United States v. Salcido-Gonzalez, No. 4:23-CR-00049-DN, 2024 WL 2305478 (D. Utah May 21, 2024)

The court held that the use of LPR technology to identify a vehicle's locations did not infringe upon the defendant's constitutional rights, as there was no reasonable expectation of privacy on public roads.

Antisemitic hate crime solved

Cathedral City PD - Cathedral City, CA

- ! Two Los Angeles men who were wearing traditional Jewish attire were shot by an AK-style rifle one day apart. Both survived, but the suspect escaped
- ! LAPD released the license plate number of the suspect, a 28-year-old who had shared antisemitic commentary online
- ! The day of the second shooting, CCPD received a gunfire report from a witness who saw a man with a gun near a Honda Civic. CCPD's Flock LPR system also confirmed that the LA shootings suspect vehicle had entered the city
- ! When officers arrived, they found the suspect standing near the front door of the car with an AK-style rifle and .380-caliber handgun, both visible on the driver's seat. He was arrested without further incident and admitted guilt
