#### **MERCER ISLAND CITY COUNCIL:**

#### **LOCATION & CONTACT:**

Mayor Salim Nice, Deputy Mayor David Rosenbaum, Councilmembers: Lisa Anderl, Jake Jacobson, Craig Reynolds, Wendy Weiker, and Ted Weinberg Mercer Island City Hall and via Zoom 9611 SE 36th Street | Mercer Island, WA 98040 206.275.7793 | www.mercerisland.gov

We strive to create an inclusive and accessible experience. Those requiring accommodation for meetings should notify the City Clerk's Office 3 days prior to the meeting at 206.275.7793 or by emailing <a href="mailto:cityclerk@mercerisland.gov">cityclerk@mercerisland.gov</a>.

The hybrid meeting will be broadcast live on MITV Channel 21 and live streamed on the City Council's YouTube Channel

Registering to Speak for Appearances: Individuals wishing to speak live during Appearances (public comment period) must register with the City Clerk at 206.275.7793 or <a href="mailto:cityclerk@mercerisland.gov">cityclerk@mercerisland.gov</a> before 4 PM on the day of the Council meeting.

Please reference "Appearances" on your correspondence and state if you would like to speak either in person at City Hall or remotely using Zoom. If providing your comments using Zoom, staff will be prepared to permit temporary video access when you enter the live Council meeting. Please remember to activate the video option on your phone or computer, ensure your room is well lit, and kindly ensure that your background is appropriate for all audience ages. Screen sharing will not be permitted, but documents may be emailed to council@mercerisland.gov.

Each speaker will be allowed three (3) minutes to speak. A timer will be visible in Council Chambers, online to speakers, City Council, and meeting participants. Please be advised that there is a time delay between the Zoom broadcast and the YouTube or Channel 21 broadcast.

**Join by Telephone at 5:00 PM (Appearances will start sometime after 5:00 PM):** To listen to the meeting via telephone, please call **253.215.8782** and enter Webinar ID **892 8137 7148** and Password **730224** if prompted.

**Join by Internet at 5:00 PM (Appearances will start sometime after 5:00 PM):** To watch the meeting over the internet via your computer, follow these steps:

- 1) Click this link
- 2) If the Zoom app is not installed on your computer, you will be prompted to download it.
- 3) If prompted for Webinar ID, enter 892 8137 7148; Enter Password 730224
- 4) The City Clerk will call on you by name or refer to your email address when it is your turn to speak. Please confirm that your audio works prior to participating.

Join in person at Mercer Island City Hall at 5:00 PM (Appearances will start sometime after 5:00 PM): — Council Chambers - 9611 SE 36<sup>th</sup> Street

Submitting Written Comments: Email written comments to the City Council at council@mercerisland.gov.

#### **MEETING AGENDA - Revised**

CALL TO ORDER & ROLL CALL, 5:00 pm
PLEDGE OF ALLEGIANCE
AGENDA APPROVAL
CITY MANAGER REPORT

#### **APPEARANCES**

(This is the opportunity for anyone to speak to the City Council on any item.)

#### **CONSENT AGENDA**

1. AB 6231: February 24, 2023 Payroll Certification

**Recommended Action:** Approve the February 24, 2023 Payroll Certification (Exhibit 1) in the amount of \$940,925.26 and authorize the Mayor to sign the certification on behalf of the entire City Council.

#### 2. Certification of Claims:

- A. Check Register | 214824-215017 | 2/17/2023 | \$833,248.36

COUNCIL LIAISON:	n/a		
EXHIBITS:	<ol> <li>February 24, 2023 Payroll Certification</li> <li>FTE/LTE Counts</li> </ol>		
CITY COUNCIL PRIORITY:	n/a		

AMOUNT OF EXPENDITURE	\$ n/a
AMOUNT BUDGETED	\$ n/a
APPROPRIATION REQUIRED	\$ n/a

### **EXECUTIVE SUMMARY**

This agenda bill is to approve the payroll certification for the City of Mercer Island for the period from February 4, 2023 through February 17, 2023 in the amount of \$940,925.26 (see Exhibit 1).

#### **BACKGROUND**

RCW 42.24.080 requires that all claims presented against the City by performing labor must be certified by the appropriate official to ensure that the labor was performed as described, and that the claims are just, due, and unpaid obligations against the City, before payment can be made. RCW 42.24.180 allows the payment of claims to occur prior to City Council approval to expedite processing of the payment of claims, provided, however, that review and approval of the claims' documentation occurs at the next regularly scheduled public meeting. The Payroll Certification details the total payment to employees for labor performed and benefits payments made for each payroll. The City is on a bi-weekly payroll schedule with payments every other Friday.

### **ISSUE/DISCUSSION**

Each payroll varies depending on several factors (i.e., number of employees, pay changes, leave cash outs, overtime, etc.). In addition to regular pay for employees, this payroll has variants that are outlined below.

#### Additional payments:

- \$8,941.15 in leave cash outs for current employees.
- \$560.81 in service and recognition awards.
- \$49,211.91 in overtime earnings (see chart for overtime hours by department).

#### Overtime hours by department:

Department	Hours
Administrative Services	
City Attorney's Office	
City Manager's Office	
Community Planning & Development	2.00
Finance	
Fire	532.75
Municipal Court	
Police	95.75
Public Works	58.50
Thrift Shop	
Youth & Family Services	
Total Overtime Hours	689.00

### **NEXT STEPS**

#### **FTE/LTE COUNTS**

The table in Exhibit 2 shows the budgeted versus actual counts for Full Time Equivalents (FTEs) and Limited Term Equivalents (LTEs) for the current payroll. Casual labor employees (temporary and seasonal) are not included in the counts.

#### Casual Labor

In addition to FTE and LTE employees, the City utilizes casual labor to address workload needs that exceed the capacity or expertise of the City's regular staff and that are time limited or seasonal. Casual labor is used primarily to address seasonal workload needs and short-term workload issues created by special projects or position vacancies. Compared to an LTE position, a casual labor position has limited benefits and is filled for a shorter period of time (1-3 months, 6 months, or 9 months). The departments/divisions that utilize casual labor the most are Parks Maintenance, Recreation, Public Works, and the Thrift Shop.

#### RECOMMENDED ACTION

Approve the February 24, 2023 Payroll Certification (Exhibit 1) in the amount of \$940,925.26 and authorize the Mayor to sign the certification on behalf of the entire City Council.

# CITY COUNCIL MINUTES REGULAR HYBRID MEETING FEBRUARY 21, 2023

#### **CALL TO ORDER & ROLL CALL**

Mayor Salim Nice called the regular meeting to order at 5:00 pm in the Council Chambers at City Hall, 9611 SE 36th Street, Mercer Island, Washington.

Mayor Salim Nice, Deputy Mayor David Rosenbaum and Councilmember Jake Jacobson participated in person in the Council Chambers. Councilmembers Lisa Anderl, Craig Reynolds, Wendy Weiker, and Ted Weinberg joined via Zoom.

#### PLEDGE OF ALLEGIANCE

The City Council delivered the Pledge of Allegiance.

#### **AGENDA APPROVAL**

It was moved by Jacobson; seconded by Weinberg to:

Approve the agenda.

PASSED: 7-0

FOR: 7 (Anderl, Jacobson, Nice, Reynolds, Rosenbaum, Weiker, and Weinberg)

#### **SPECIAL BUSNIESS**

AB 6227: Public Hearing and First Reading of Ordinance No. 23C-02 (renews Ordinance No. 22C-14) on Interim Regulations in MICC 19.16.010 Related to Emergency Shelters and Housing, Transitional Housing, and Permanent Supportive Housing in Response to E2SHB 1220

CPD Director Jeff Thomas introduced the draft Ordinance No. 23C-02, explained the timeline for these proposed interim regulations, and discussed the next steps.

Mayor Nice opened the Public Hearing at 5:04 pm.

There being no public comment Mayor Nice closed the Public Hearing at 5:04 pm.

It was moved by Jacobson; seconded by Rosenbaum to:

Set Ordinance No. 23C-02 for second reading and adoption at an upcoming City Council Meeting. PASSED: 7-0

FOR: 7 (Anderl, Jacobson, Nice, Reynolds, Rosenbaum, Weiker, and Weinberg)

#### **CITY MANAGER REPORT**

Chief of Administration Ali Spietz reported on the following items:

- Council, Boards & Commission Meetings Updates: Upcoming City Council Hybrid Meeting on March 7. Upcoming Boards & Commission Hybrid Meetings Planning Commission Hybrid Meeting on February 22 and Parks & Recreation Commission Hybrid Meeting on March 2. Hybrid Prospective Council Candidate Workshop on March 30.
- City Services Updates: Calling all MI artists to enter into a competition to design Summer Celebration 2023 shirts, update on the turf blanket pilot project, Community Emergency Response Team (CERT) training begins on May 1, Mercer Island delegation to Olympia last week for AWC Action Days to meet with state legislators.

- **Upcoming Events:** Island Lanterns installation day on February 25, Leap for Green Earth Day Fair returns on April 22.
- News: MIYFS Foundation Breakfast thank you to all the community members who turned out for this
  event, MIHS Students head to Sister City Thonon les Bains.

#### **APPEARANCES**

Curtis Shugarts, Mercer Island, spoke about organic fertilizer.

#### **CONSENT AGENDA**

#### AB 6228: February 10, 2023 Payroll Certification

**Recommended Action:** Approve the February 10, 2023 Payroll Certification (Exhibit 1) in the amount of \$937,586.02 and authorize the Mayor to sign the certification on behalf of the entire City Council.

#### **Certification of Claims:**

- A. Check Register | 214733-214823 | 2/3/2023 | \$1,096,469.16
- B. EFT Payments | January 2023 | \$3,225,016.93

**Recommended Action:** Certify that the City Council has reviewed the documentation supporting claims paid and approved all checks or warrants issued in payment of claims.

#### City Council Meeting Minutes of February 7, 2023 Regular Hybrid Meeting.

Recommended Action: Approve the minutes of the February 7, 2023 Regular Hybrid Meeting.

AB 6222: Rare Disease Day Proclamation No. 301.

Recommended Action: Proclaim February 28, 2023 Rare Disease Day in Mercer Island.

#### AB 6226: Interlocal Agreement for Jail Services with King County.

**Recommended Action:** Authorize the City Manager to sign the updated Interagency Agreement for Inmate Housing between the City of Mercer Island and King County, substantially in the form attached as Exhibit 1 to this agenda bill.

It was moved by Reynolds; seconded by Weinberg to:

Approve the Consent Agenda and the recommended actions contained therein.

PASSED: 7-0

FOR: 7 (Anderl, Jacobson, Nice, Reynolds, Rosenbaum, Weiker, and Weinberg)

#### **REGULAR BUSINESS**

#### AB 6210: Comprehensive Plan Status Report and Acceptance of GMA Update Grant

CPD Director Jeff Thomas and Deputy CPD Director Alison Van Gorp presented updates on the status of the periodic update to the Comprehensive Plan. Deputy Director Van Gorp presented the work that has been done on the Housing Element, the Economic Development Element, and the creation of Parks Zone to be included in the Comp Plan. She also spoke about the reviews that have been completed by the Planning Commission. Deputy Director Van Gorp discussed the GMA Periodic Update Grant that is a state-funded grant program to support local jurisdictions with periodic updates to Comprehensive Plans.

It was moved by Weinberg; seconded by Rosenbaum to:

Accept the GMA Periodic Update Grant of \$125,000 from the Department of Commerce, authorize the City Manager to execute the grant agreements, and appropriate these funds to the

#### Comprehensive Plan periodic update in the 2023-2024 biennial budget.

PASSED: 6-0

FOR: 6 (Anderl, Jacobson, Nice, Reynolds, Rosenbaum, and Weinberg)

ABSENT: 1 (Weiker)

#### AB 6230: City Council Rules of Procedure Amendments (Resolution No. 1642)

Chief of Administration Ali Spietz presented the amendments to the City Council Rules of Procedure.

It was moved by Rosenbaum; seconded by Jacobson to:

Approve Resolution No. 1642 amending the City Council Rules of Procedure as set forth in Exhibit A.

PASSED: 6-0

FOR: 6 (Anderl, Jacobson, Nice, Reynolds, Rosenbaum, and Weinberg)

ABSENT: 1 (Weiker)

#### **OTHER BUSINESS**

#### **Planning Schedule**

Chief of Administration Ali Spietz spoke about the March 7 and March 21 City Council meetings.

#### **Councilmember Absences and Reports**

Councilmember Reynolds – Parks & Recreation Commission is meeting on March 2 will be looking at Aubrey Davis Trail safety design.

Councilmember Weinberg – Thank you to Sister City members chaperoning the delegation to Thonon les Bains.

#### **EXECUTIVE SESSION**

At 5:36 pm, Mayor Nice convened an Executive Session in the Caucus Room at City Hall, 9611 SE 36th Street, Mercer Island, WA and via Microsoft Teams. The Executive Session was to discuss with legal counsel pending or potential litigation pursuant to RCW 42.30.110(1)(I) and for planning or adopting the strategy or position to be taken by the City Council during the course of any collective bargaining, professional negotiations, or grievance or mediation proceedings, or reviewing the proposals made in the negotiations or proceedings while in progress pursuant to RCW 42.30.140(4)(b).

Mayor Salim Nice, Deputy Mayor David Rosenbaum, and Councilmembers Jake Jacobson participated in person in the Caucus Room at City Hall. Councilmembers Lisa Anderl, Craig Reynolds, Wendy Weiker, and Ted Weinberg joined via Microsoft Teams.

Mayor Nice adjourned the Executive Session at 6:16 pm.

#### **ADJOURNMENT**

The Regular Hybrid Council Meeting adjourned at 6:16 pm	
Attest:	Salim Nice, Mayo
Andrea Larson, City Clerk	

## BUSINESS OF THE CITY COUNCIL CITY OF MERCER ISLAND

AB 6232 March 7, 2023 Consent Agenda

#### **AGENDA BILL INFORMATION**

TITLE:	AB 6232: Second Reading of Ordinance No. 23C-02 (renews Ordinance No. 22C-14) on Interim Regulations in MICC 19.16.010 Related to Emergency Shelters and Housing, Transitional Housing, and Permanent Supportive Housing in Response to E2SHB 1220	☐ Discussion Only ☐ Action Needed: ☐ Motion ☐ Ordinance ☐ Resolution	
RECOMMENDED ACTION:	Adopt Ordinance No. 23C-02 extending the interim regulations for emergency, transitional and permanent supportive housing.

EXHIBITS:	1. Ordinance No. 23C-02 (renews Ordinance No. 22C-14) on interim regulations in MICC 19.16.010 related to emergency shelters and housing, transitional housing, and permanent supportive housing in response to E2SHB 1220		
CITY COUNCIL PRIORITY:	n/a		

AMOUNT OF EXPENDITURE	\$ n/a
AMOUNT BUDGETED	\$ n/a
APPROPRIATION REQUIRED	\$ n/a

#### **EXECUTIVE SUMMARY**

The purpose of this agenda bill is to conduct the second reading of Ordinance No. 23C-02 (renews Ordinance No. 22C-14) to consider the renewal of the interim regulations adopted in <a href="Mercer Island City Code">Mercer Island City Code</a> (MICC) <a href="MICC">19.16.010</a> related to emergency shelters and housing, transitional housing, and permanent supportive housing in response to E2SHB 1220.

- During the 2021 state legislative session, the legislature passed <u>E2SHB 1220</u>, requiring amendment of MICC Title 19. The timeline imposed by this legislation required the City to comply with the new requirements by September 30, 2021.
- Interim regulations were adopted by Ordinance No. 21C-23 at the September 21, 2021, City Council
  meeting. On September 21, 2022, Ordinance No. 22C-14 renewed the interim regulations for six
  months.
- The interim regulations are set to expire on March 21, 2023. The City must renew the interim regulations for another six months or adopt permanent regulations to comply with state law.

- The interim regulations allow the City to comply with state law while the Washington Department of Commerce (Commerce) develops guidance on how to comply with E2SHB 1220.
- The City anticipates developing permanent regulations after Commerce provides its final guidance later this year.
- The City Council conducted a public hearing and first reading for Ordinance 23C-02 on February 21, 2023 (AB 6227).

#### **BACKGROUND**

#### **E2SHB 1220: Emergency Shelters and Housing**

<u>E2SHB 1220</u> addresses transitional housing, emergency shelters, and permanent supportive housing. The bill contains new requirements for Comprehensive Plan housing element updates and creates new requirements for cities' zoning/development regulations regarding indoor shelters and housing for the homeless, summarized below:

- The bill forbids cities from prohibiting transitional or permanent supportive housing in residential zones or zones where hotels are allowed.
- The bill also forbids cities from prohibiting indoor emergency shelters and indoor emergency housing in any zones in which hotels are allowed (except for cities that authorize indoor emergency shelters/housing in a majority of zones within a one-mile proximity to transit).
- Any regulations regarding occupancy, spacing, and intensity of use requirements regarding the four types of housing listed above must be reasonable and designed to protect public health and safety.
- Finally, such restrictions cannot be used to prevent the siting of a sufficient number of housing units
  necessary to meet Mercer Island's projected need for such housing and shelter as determined by the
  WA Department of Commerce (Commerce).

The City's development code currently includes some spacing restrictions; staff recommends retaining these restrictions for now and will further evaluate them for compliance with E2SHB 1220 when developing a permanent code amendment after Commerce issues guidance.

#### **Projected Need**

E2SHB 1220 amended the Growth Management Act (GMA) to require cities to include in the housing element of their comprehensive plans "an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to manage projected growth, as provided by the department of commerce, including: (i) Units for moderate, low, very low, and extremely low-income households; and (ii) Emergency housing, emergency shelters, and permanent supportive housing" (RCW 36.70A.070(2)(a)). In addition to including this inventory and analysis, the City will be required to identify sufficient land capacity to accommodate the projected need (RCW 36.70A.070(2)(c)). Actions the City must take to comply with these requirements will depend on the projections and guidance Commerce is currently preparing.

In December 2022, Commerce provided a draft of the projected need for permanent supportive housing. The projected need is expected to be finalized later this year. At the same time, Commerce provided the first draft of guidance for how cities should determine the capacity for permanent supportive housing. That draft guidance is expected to be finalized later this year around the same time as the housing need projections. King County will complete its process of determining how the countywide need will be allocated to cities in the County once the final projected needs are provided from Commerce. The City can make permanent

amendments to development code related to permanent supportive housing after Commerce and King County have finished their processes.

The work to comply with the Comprehensive Plan requirements of E2SHB 1220 is currently underway as part of the periodic review and is scheduled to be completed by December 31, 2024. More information about E2SHB 1220 and the Comprehensive Plan period review is provided in AB 6156.

#### **ISSUE/DISCUSSION**

State law allows for interim ordinances to be renewed for 6 months provided a public hearing is held and findings of fact are made prior to each renewal. Ordinance No. 23C-02 will renew the interim regulations adopted in 2021 by Ordinance No. 21C-23 and renewed for a 6-month period by Ordinance No. 22C-14. The proposed renewal would extend the interim regulations for another six months from March 21 to September 21, 2023.

#### Ordinance No. 23C-02

E2SHB 1220 Section 4 requires the City to allow the following:

- Transitional housing and permanent supportive housing in any zones in which residential dwelling units or hotels are allowed, and
- Indoor emergency shelters and indoor emergency housing in any zones in which hotels are allowed.

The City currently allows social service transitional housing and special needs group housing as defined in MICC 19.16.010 in residential zones. The definitions for these uses include many uses similar to those required by E2SHB 1220 Section 4 and only require minor clarifying amendments to be consistent. Ordinance No. 23C-02 will renew the following interim definitions established by Ordinance No. 21C-23 and renewed by Ordinance No. 22C-14:

Service Transitional Housing: Noninstitutional group housing facilities for unrelated persons, other than special needs group housing or rooming houses, that are privately or publicly operated, including those facilities required to be licensed by the state or federal governments as well as those that may not be required to be licensed, that provide temporary and transitional housing to meet community social service needs including, but not limited to, work-release facilities and other housing facilities serving as an alternative to incarceration, halfway houses, emergency shelters, homeless shelters, domestic violence shelters and other such crisis intervention facilities. Social service transitional housing excludes institutional facilities that typically cannot be accommodated in a singlefamily residential structure. Further, the term shall include "emergency housing," and "transitional housing" as defined within RCW 84.36.043(2)(c) or as hereafter amended. The term shall further include "emergency shelter" as defined within RCW 36.70A.030 or as hereafter amended.

Special Needs Group Housing: Noninstitutional group housing that primarily supports unrelated persons with handicaps or persons protected by familial status within the meaning of the FHAA, but not including individuals whose tenancy would constitute a direct threat to the health and safety of other individuals or whose tenancy would result in substantial physical damage to the property of others. Special needs group housing includes, but is not limited to, foster family homes, adult family homes and residential care

facilities as provided in Chapter 70.128 RCW, but excludes facilities that typically cannot be accommodated in a single-family residential structure such as hospitals, nursing homes, assisted living facilities and detention centers. Further, the term shall include "permanent supportive housing" as defined in RCW 36.70A.030 or as hereafter amended.

#### **NEXT STEPS**

Permanent regulations will be developed once the Department of Commerce provides the projected needs for housing and shelter and King County allocates the projected need later in 2023.

#### **RECOMMENDED ACTION**

Adopt Ordinance No. 23C-02 extending the interim regulations for emergency, transitional and permanent supportive housing.

### CITY OF MERCER ISLAND ORDINANCE NO. 23C-02

AN ORDINANCE OF THE CITY OF MERCER ISLAND, WASHINGTON, RENEWING THE INTERIM REGULATIONS ADOPTED BY ORDINANCE NO. 21C-23 ON DEFINITIONS RELATING TO EMERGENCY SHELTERS AND HOUSING, TRANSITIONAL HOUSING, AND PERMANENT SUPPORTIVE HOUSING; PROVIDING FOR SEVERABILITY; AND ESTABLISHING AN EFFECTIVE DATE.

**WHEREAS**, the adoption of land use and zoning regulations is a valid exercise of the City's police power and is specifically authorized by RCW 35A.63.100; and

WHEREAS, within the express terms of the Growth Management Act, the Washington State Legislature has specifically conferred upon the governing bodies of Washington cities the right to establish and adopt interim development regulations; and

**WHEREAS,** in 2021, the Washington State legislature passed E2SHB 1220, which, among other things, requires cities to allow indoor emergency shelters and housing, transitional housing, and permanent supportive housing in certain zones; and

WHEREAS, E2SHB 1220 provides, in part, that a city shall not prohibit transitional housing or permanent supportive housing in any zones in which residential dwelling units or hotels are allowed, and

**WHEREAS**, E2SHB 1220 further provides, in part, that a city shall not prohibit indoor emergency shelters and indoor emergency housing in any zones in which hotels are allowed, except if the city has adopted an ordinance authorizing indoor emergency shelters and indoor emergency housing in a majority of zones within a one-mile proximity to transit; and

**WHEREAS,** E2SHB 1220 allows cities to adopt reasonable occupancy, spacing, and intensity of use requirements on permanent supportive housing, transitional housing, indoor emergency housing, and indoor emergency shelters to protect public health and safety so long as those reasonable restrictions do not prohibit the number of units assigned to the city by the Washington State Department of Commerce ("Commerce"); and

**WHEREAS,** Commerce has not yet assigned the City of Mercer Island a number of units for permanent supportive housing, transitional housing, indoor emergency housing, and indoor emergency shelters; and

WHEREAS, E2SHB 1220 included a September 30, 2021, deadline for cities to comply, and the City Council determined that to comply with the deadline and thoroughly analyze permanent regulations, interim development regulations adopted under the provisions of RCW 36.70A.390 are necessary to allow adequate time for the City to adopt permanent development regulations in compliance with E2SHB 1220; and

**WHEREAS**, the City is authorized under RCW 35A.63.220 and 36.70A.390 to pass an interim zoning and official control ordinance, provided it holds a public hearing on the same within sixty days after passage if it has not previously held a public hearing on the proposed ordinance; and

46

**WHEREAS**, an interim zoning and official control ordinance may be effective for up to one year if a work plan is developed for related studies providing for such a longer period; and

**WHEREAS**, on September 21, 2021, the City Council adopted Ordinance 21C-23 that established interim regulations relating to emergency shelters and housing, transitional housing, and permanent supportive housing; and

**WHEREAS**, the City is authorized under RCW 35A.63.220 and 36.70A.390 to renew an interim zoning and official control ordinance for one or more six-month periods provided a subsequent public hearing is held and findings of fact are made prior to each renewal; and

**WHEREAS**, on September 6, 2022, the City Council adopted by Ordinance 22C-14 to renew the interim regulations established by Ordinance 21C-23 for another six months; and

**WHEREAS**, the interim regulations renewed by Ordinance 22C-14 will expire on March 21, 2023; and

**WHEREAS,** it is necessary to renew the interim regulations established by Ordinance No. 21C-23 for an additional six months to allow additional time for Commerce to determine the City's projected need for emergency housing, emergency shelters, and permanent supportive housing; and

WHEREAS, on February 21, 2023, the City Council held a public hearing and had their first reading of this ordinance; and

WHEREAS, on March 7, 2023, the City Council had their second reading of this ordinance.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MERCER ISLAND, WASHINGTON DO HEREBY ORDAIN AS FOLLOWS:

- **Section 1. Findings.** The findings adopted for Ordinances No. 21C-23 and 22C-14, and the "Whereas Clauses" set forth in the recitals of this Ordinance are hereby adopted as the findings of the City Council for passing this Ordinance.
- Section 2. Interim Ordinance No. 21C-23 Renewed. The interim regulations established by Ordinance No. 21C-23 are renewed by this Ordinance and shall continue in effect for a period of six months from the effective date established in Section 4 of this Ordinance, unless repealed, extended, or modified by the City Council.
- **Section 3.** Severability. If any section, sentence, clause or phrase of this Ordinance or any municipal code section amended hereby should be held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity of any other section, sentence, clause or phrase of this ordinance or the amended code section.
- **Section 4. Effective Date.** A summary of this Ordinance consisting of its title shall be published in the official newspaper of the City. This Ordinance shall take effect and be in full force on March 21, 2023, provided five days have passed since publication.

## BUSINESS OF THE CITY COUNCIL CITY OF MERCER ISLAND

AB 6233 March 7, 2023 Consent Agenda

#### **AGENDA BILL INFORMATION**

TITLE:	AB 6233: Open Space Conserva	ancy Trust Annual Report	<ul><li>☐ Discussion Only</li><li>☑ Action Needed:</li><li>☑ Motion</li><li>☐ Ordinance</li><li>☐ Resolution</li></ul>	
RECOMMENDED ACTION:	Accept the Open Space Conser Report and the 2023 Work Plan			
DEPARTMENT:	Public Works			
STAFF:	Jason Kintner, Chief of Operations Alaine Sommargren, Deputy Public Works Director Sam Harb, Parks Operations Manager			
COUNCIL LIAISON:	Lisa Anderl			
EXHIBITS:  1. 2022 Annual Report 2. 2023 Work Plan				
CITY COUNCIL PRIORITY:	n/a			
	AMOUNT OF EXPENDITURE	\$ n/a		

AMOUNT OF EXPENDITURE	\$ n/a
AMOUNT BUDGETED	\$ n/a
APPROPRIATION REQUIRED	\$ n/a

#### **EXECUTIVE SUMMARY**

The purpose of this agenda bill is to present the Open Space Conservancy Trust 2022 Annual Report (see Exhibit 1) and 2023 Work Plan (see Exhibit 2).

#### **BACKGROUND**

In 1992, the City Council established the Mercer Island Open Space Conservancy Trust (OSCT) in response to the community's strong desire to maintain, protect, and preserve open space on Mercer Island. The Open Space Conservancy Trust holds Pioneer Park and Engstrom Open Space in trust as public open space. The board overseeing the Trust is comprised of seven appointed citizens, including one liaison from the City Council.

#### **ISSUE/DISCUSSION**

The ordinance that established the Open Space Conservancy Trust requires its Board of Trustees to report to City Council annually on the status of its properties. The Trust worked with City staff during the January 20, 2023, OSCT meeting to review and finalize the 2022 Annual Report to City Council and the Trust's 2023 Work

Plan. The Trust is presenting its 2022 Annual Report (see Exhibit 1) and the 2023 Work Plan (see Exhibit 2) for City Council review.

#### **RECOMMENDED ACTION**

Accept the 2022 Open Space Conservancy Trust Annual Report and the 2023 Work Plan.

#### TRUSTEE APPOINTMENTS AND ELECTIONS

In 2022, the Open Space Conservancy Trust held meetings in January, April, July, and October. Meetings were held online via Zoom in order to minimize risk of COVID-19 exposure. The annual election of officers took place at the July meeting. Trustee Carol Lynn Berseth was elected as Chair, Trustee Geraldine Poor was elected Vice Chair, and Trustee Hillary Ethe was elected Secretary.

#### MERCER ISLAND PARKS AND RECREATION, NATURAL RESOURCES PROGRAM

The Natural Resources program is tasked with managing forest restoration, tree risk mitigation, and trail construction and maintenance on Trust properties. In 2022, the Natural Resources team shifted staffing from two three-quarter time positions to two full-time positions, a Natural Resources Project Manager, and an Urban Forestry Project Manager. Both positions are supervised by the Parks Operations Manager.

In 2022, the team piloted a seasonal volunteer coordinator position to lead restoration and trails related volunteer events throughout the City's parks and open spaces, including many events on Trust Properties. Additionally, the program hired a seasonal trails and restoration crew, consisting of three staff for 6 months. At the end of 2022, program staff included:

Sam Harb, Parks Operations Manager Lizzy Stone, Natural Resources Project Manager Andrew Prince, Urban Forestry Project Manager

#### FOREST HEALTH AND MANAGEMENT

#### Background

Forest management on Trust properties is directed by the Open Space Vegetation Management Plan 10-Year Evaluation and Update, the Pioneer Park Forest Management Plan adopted in 2003, and recommendations outlined in the 2008 Pioneer Park Forest Health Survey. These plans emphasize the importance of protecting existing tree canopy and maintaining a resilient forest ecosystem by controlling invasive species and planting native species. Activities outlined in the plans include invasive tree treatment, ivy ring creation, ground ivy and herbaceous weed management, targeted maintenance around newly installed plants, and planting native trees and shrubs.

#### 2022 Accomplishments

In 2022, restoration tasks were performed on 21 acres of Trust properties. Work was performed by professional contractors, seasonal field staff, and volunteers. The following is a summary of 2022 accomplishments:

#### Professional contractors

Restoration Task	Pioneer Park	Engstrom Open Space
Planting maintenance and watering	(335 trees/ 165 shrubs)	n/a
Invasive tree treatment maintenance	8.3 acres	n/a
Ivy rings maintenance	8.3 acres	n/a
Ground ivy and herbaceous weed removal	8.3 acres	n/a

#### Volunteers

In 2022, the City piloted a seasonal volunteer coordinator position on the Natural Resources team, with the goal of providing regular engagement, education, and volunteer opportunities for the Mercer Island community. With the help of the volunteer coordinator, the City hosted 11 events on Trust properties, working with 179 volunteers for over 425 total volunteer hours. Volunteers removed ivy from trees and the forest floor, planted trees and shrubs, and repaired trails in the southeast and northwest quadrants. The volunteer coordinator role received very positive feedback from the community and the position will be expanded in the next year.

#### Seasonal Trails and Restoration Crew

In 2022, the seasonal Trails and Restoration Crew consisted of three crewmembers from April through September. The crew conducted planting maintenance on 5 acres in Pioneer Park, maintained ivy rings in 3 acres of Pioneer Park and Engstrom Open Space, managed invasive weeds along trails, and conducted noxious weed monitoring, mapping, and treatments throughout Trust properties.

In addition to their restoration and trail work, the seasonal Trails and Restoration Crew worked with the Parks Maintenance crew to complete a project to limit off-street parking along 84<sup>th</sup> Ave SE, near the intersection with SE 66<sup>th</sup> St. To aid in native plant establishment and habitat restoration, compacted gravel was broken up and mixed with wood chips several months before installing native trees and shrubs along the park edge. Semi-permanent parking delineators were also installed to clarify park boundaries.

#### Forest Health Plan Progress

The Natural Resources program implements the management recommendations and benchmarks outlined in the Forest Health Plan. The benchmarks serve as a guide to managing forest health on Trust properties. Between 2009 and 2014, the Natural Resources program was able to get ahead of schedule due to a favorable bidding climate and lower contracting costs. Beginning in 2015, the regional demand for qualified restoration contractors increased and restoration costs increased significantly. Implementation of the Forest Health Plan has slowed during the last two biennia, but Natural Resources staff continue to advance restoration priorities while addressing challenges and making effective use of available resources. The Forest Health Plan proposed starting comprehensive invasive species removal work in 2021 and enrolling 15.5 acres each year. Due to contracting costs and limited contractor availability, the first round of comprehensive removal was started on 8.3 acres of Pioneer Park in 2022.

The following outlines actual progress made to date compared with proposed benchmarks outlined in the 2008 Forest Health Plan:

Table 1. Forest Health Plan Cumulative Progress in Pioneer Park, 2009-2022

Restoration Task	Proposed (acres)	Actual (acres)
Invasive tree treatment and maintenance*	217	209
Ivy ring creation and maintenance*	223	130
Tree planting	93	75
Plant maintenance (1 year post-planting + additional depending on site conditions)	93	90
Ground ivy and herbaceous invasive weed management	31	9

<sup>\*</sup> Invasive tree treatment and ivy rings require a first round of treatment, followed by additional maintenance treatments as weeds grow back. Acreage listed shows both first and second round treatments combined.

#### LETTERBOXING PROGRAM

The Letterboxing Program is a collaborative effort between Parks and Recreation staff, OSCT Board Members, and community volunteers. Due to delays caused by COVID-19 and staffing changes, the program has been on hold since 2020. The Natural Resources team plans to restart the program in 2023.

#### LEASH POLICY EDUCATION EFFORTS

Leash policy education efforts were restarted in 2022 with educational posts on the City's website and social media channels, as well as distribution of educational brochures. In 2022 there were no law enforcement issues related to off-leash dogs in Pioneer Park or Engstrom Open Space.

#### **TRAILS**

In 2022, the Natural Resources team continued to maintain trails by conducting stair tread repairs and regular trail brushing. In addition to regular maintenance, the Trails and Restoration crew replaced water bars to redirect water flow on the Salal, Fir, and Perimeter trails in the SE quadrant.

In June, the Mercer Island Mountain Bike Alliance hosted a volunteer event to re-gravel and fill potholes on trails in the NW quadrant in partnership with City staff.

#### ENGSTROM OPEN SPACE TITLE TRANSFER

On September 20, 2022, the City Council passed a resolution to direct the City to transfer the title of Engstrom Open Space to the Open Space Conservancy Trust. The title transfer will be completed in early 2023.

#### SPECIAL EVENTS POLICY

In 2022, staff suggested several updates to the Pioneer Park and Engstrom Open Space Special Events Policy for the Trust's consideration. Staff worked with the Trust to update several outdated items in the policy, including fees, staff costs, and accepted conduct on Trust lands.

#### **URBAN FORESTRY**

Tree risk mitigation continues to be a primary focus of urban forestry efforts in Pioneer Park. Certified staff arborists make recommendations each year to remove dead, dying, or structurally defective trees to reduce the risk of trees failing and causing injury, property damage, or interference with utility lines or roadways. Trees are retained through corrective pruning or as wildlife snags when possible, but tree removals are occasionally necessary. In the case of whole tree removals, the wood from the tree is left to decompose on site as habitat and to improve soil conditions. Dead and dying trees continue to make up the majority of tree removal work. In 2022, seven trees were removed from Trust properties to reduce risk of failure. Staff continued to monitor park boundaries regularly for trees in need of pruning or removal.

# Mercer Island Open Space Conservancy Trust 2023 Work Plan

Meeting Date	Agenda Item		
	<b>Annual Report to Council:</b> The Trust is required in its bylaws to report to City Council each year on the status of Trust properties.		
	<b>OSCT Work Plan:</b> The Trust develops a list of topics that it intends to address during the year (this document). This work plan is submitted to City Council with the Annual Report as a courtesy.		
January 19	Parks Levy Update: Staff will update the Trust on the recent Parks Levy and impact to Pioneer Park and Engstrom Open Space		
	Herbicide protocol amendments: Staff proposes changes to the current herbicide use protocol		
	<b>Quadrant Reports (ongoing item):</b> Trustees will report on the condition of certain quadrants at Trust board meetings.		
	<b>Trail Work Plan:</b> City staff report to the Trust its intended maintenance activities in the spring of each year, and recap work completed in the previous year. This report includes status of recently decommissioned social trails on Trust properties.		
April 20	<b>Letterboxing program:</b> The Trust will reach out to letterboxing volunteers about the potential to launch the program.		
	<b>Restoration Work Plan:</b> City staff report to the Trust its planned restoration activities, and recap work completed in the previous year.		
	<b>Herbicide application report:</b> City staff will report on the use of herbicides on Trust properties each year, in accordance with the Herbicide Use Protocol.		
	<b>Election of Officers:</b> The Trust is required by its bylaws to elect officers at its July meeting each year.		
July 20	<b>Off-leash dogs:</b> The Trust will evaluate success of education measures over the past year and discuss possible changes.		
	Engstrom title transfer: Staff will provide an update on successes		
October 19	<b>Eagle Project recognition:</b> The Trust will recognize Eagle projects that have benefitted Trust Properties.		
	Climate Action Plan discussion: Staff will update the Trust on the Climate Action Plan		

Note: The listing of an item under a particular month indicates that the item will be introduced at that meeting. There may be follow-up discussions and decisions at subsequent meetings, as directed by the Chair.

## BUSINESS OF THE CITY COUNCIL CITY OF MERCER ISLAND

_		_		
	AMOUNT OF EXPENDITURE	\$ n/a		

AMOUNT OF EXPENDITURE	\$ n/a
AMOUNT BUDGETED	\$ n/a
APPROPRIATION REQUIRED	\$ n/a

#### **EXECUTIVE SUMMARY**

The purpose of this agenda bill is to introduce for first reading Ordinance No. 23C-03 (Exhibit 1), which sunsets the 2.7% interim utility tax seven months earlier than anticipated.

- On September 15, 2020, the City Council adopted Ordinance No. 20C-20, raising the utility tax on the water, sewer, and storm water utilities from 5.3% to 8% for a 36-month period from November 1, 2020 through October 31, 2023.
- Adopted that same evening, Resolution No. 1586 authorized the City's water and sewer utility Funds to lend \$750,000 each – for a combined total of \$1.5 million – to the General Fund to finance the cost of litigation to enforce the terms of the City's 2017 Settlement Agreement with Sound Transit.
- On December 6, 2022, the City and Sound Transit agreed to end litigation pertaining to the Mercer Island Transit Integration project. It is anticipated that by April 3, 2023, the 2.7% interim tax increase will have generated enough tax revenue to pay back the \$1.5 million principal and interest for the Water Utility and Sewer Utility Fund loans.
- Staff recommends the City Council sunset the 2.7% interim utility tax on April 3, 2023, thereby returning on April 4, 2023 the utility tax rate on the water, sewer, and storm water utilities to 5.3%.

#### **BACKGROUND**

Ordinance No. 20C-20 temporarily increased the utility tax rate on water, sewer, and stormwater utilities from 5.3% to 8.0% from November 1, 2020 through October 31, 2023. The temporary tax increase was adopted to pay principal and interest payments on two interfund loans from the City's Water and Sewer Utility Funds to the General Fund (Resolution No. 1586). The authorized total loan amount of \$1.5 million helped finance the cost of litigation with Sound Transit pertaining to the Mercer Island Transit Integration project.

The loans were scheduled to be paid back within a 36-month period at a fixed interest rate of 0.5%. The interest rate reimbursed to the Utility Funds was based on the opportunity cost the Funds would have earned in the local government investment pool (LGIP). When Resolution No. 1586 was adopted by the City Council in September 2020, the LGIP interest earnings were at a rate of 0.26%.

#### **ISSUE/DISCUSSION**

The maximum term for an interfund short-term loan is three years. As of January 31, 2023, the interim utility tax has generated \$1.38 million, an average of \$51,000 per month. Staff estimates the interim tax will have generated enough tax revenue by April 3 of this year to pay back the \$1.5 million principal and interest in full. There is no penalty for early repayment of the loan.

Staff recommends conducting the first reading of Ordinance No 23C-03 to sunset the 2.7% interim utility tax on April 3, 2023, thereby returning on April 4, 2023 the utility tax rate on the water, sewer, and storm water utilities to 5.3%.

#### **RECOMMENDED ACTION**

Set Ordinance No. 23C-03 for second reading and adoption on March 21, 2023.

### CITY OF MERCER ISLAND ORDINANCE NO. 23C-03

AN ORDINANCE OF THE CITY OF MERCER ISLAND, WASHINGTON, SUNSETTING THE INTERIM UTILITY TAX RATE INCREASE IMPOSED ON AND COLLECTED FROM WATER, SEWER, AND STORMWATER UTILITIES CONDUCTING BUSINESS WITHIN THE CITY OF MERCER ISLAND PURSUANT TO THE PROVISIONS OF CHAPTER 4.12 MICC; PROVIDING FOR SEVERABILITY; AND ESTABLISHING AN EFFECTIVE DATE

**WHEREAS**, the City of Mercer Island is classified as a non-charter code city under Title 35A of the Revised Code of Washington ("RCW"); and

WHEREAS, Ordinance No. 20C-20 implemented an interim utility tax rate increase on water, sewer, and stormwater utilities within the City from 5.3 percent to 8.0 percent from November 1, 2020 through October 31, 2023 to generate about \$1.5 million in new tax revenue to pay back loans from the City's water and sewer utility funds that were approved by Resolution No. 1586; and

**WHEREAS**, it is anticipated that by April 3, 2023, the 2.7% interim tax increase will have generated enough tax revenue to pay back the \$1.5 million principal and interest for the water utility and sewer utility fund loans;

## NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MERCER ISLAND, WASHINGTON, DO ORDAIN AS FOLLOWS:

- **Section 1.** Amendment to Section 4.12.030. Subject to the effective date described below in section 3, subsections G, H and I of MICC 4.12.030 are amended as follows:
  - G. A tax equal to eight percent effective November 1, 2020, through October 31 April 3, 2023, and a tax equal to 5.3 percent effective on and after November 1 April 4, 2023, of the total gross income derived from the sale, delivery, distribution, furnishing or maintenance of water services for residential, commercial, or public consumption and for the privilege of carrying on said business, such tax to be based on the total gross income from such business in the city; provided, however, that there shall not be any tax levied for water service connection or installation charge;
  - H. A tax equal to eight percent effective November 1, 2020, through October 31 April 3, 2023, and a tax equal to 5.3 percent effective on and after November 1 April 4, 2023, of the total gross income derived from the furnishing, operation, or maintenance of sewer services for residential, commercial, or public consumption and for the privilege of carrying on said business, such tax to be based on the total gross income from such

business in the city; provided, however, that there shall not be any tax levied for sewer service connection or installation charges;

- I. A tax equal to eight percent effective November 1, 2020, through October 31 April 3, 2023, and a tax equal to 5.3 percent effective on and after November 1 April 4, 2023, of the total gross income derived from the furnishing, operation, or maintenance of storm-water services for residential, commercial, or public use and for the privilege of carrying on said business, such tax to be based on the total gross income from such business in the city; provided, however, that there shall not be any tax levied for storm-water service fee-in-lieu or installation charges.
- **Section 2. Severability.** If any section, sentence, clause, or phrase of this ordinance should be held to be invalid or unconstitutional by a court of competent jurisdiction, or its application held inapplicable to any person, property, or circumstance, such invalidity or unconstitutionality shall not affect the validity of any other section, sentence, clause, or phrase of this ordinance or its application to any other person, property, or circumstance.
- **Section 3.** Publication and Effective Date of Ordinance. A summary of this ordinance consisting of its title shall be published in the official newspaper of the City. This ordinance shall take effect and be in full force five days after adoption and publication.

ADOPTED by the City Council of the City of Mercer Island, Washington, at its Meeting on the 21st day of March 2023 and signed in authentication of its passage.

#### **EXECUTIVE SUMMARY**

The purpose of this agenda bill is to review the input received on the draft Climate Action Plan (CAP) (see Exhibit 1), to discuss and provide direction on potential revisions, and to review next steps toward plan adoption. [Note: This Agenda Bill was revised after initial publication. Changes to Exhibits 7 & 8 are shown in yellow highlight within those documents.]

- The staff presentation will include an overview of the plan process to date and introduce documents that summarize the comments received on the draft plan.
- Public comments on the draft CAP were gathered through the Let's Talk engagement page, via an
  online commenting platform ("Konveio"), through a Public Hearing, via email, and through a handful
  of formal letters.

- The public comment period on the draft plan was open from January 11 to February 7, 2023. The City
  Council held a public hearing on the draft CAP at the February 7 Council meeting. In total,
  approximately 150 comments were received on the draft plan, some addressing multiple topics.
- Staff is seeking direction from the City Council on potential revisions to the plan which are summarized in the various exhibits and further detailed in the following sections of the agenda bill.

Adoption of the final CAP is anticipated in early April 2023.

#### **BACKGROUND**

In alignment with neighboring communities, the King County Growth Management Planning Council (GMPC), and the King County-Cities Climate Collaboration (K4C), the City of Mercer Island has established a goal to reduce community greenhouse gas (GHG) emissions 95% by 2050, with interim targets of 50% reduction by 2030 and 75% reduction by 2040 (see Resolution No. 1620, March 2022), compared to a 2007 baseline.

This Draft Climate Action Plan (CAP) outlines a roadmap for meeting this GHG emissions reduction commitment as well as achieving other important resiliency goals for the community, including preparing for unavoidable climate impacts, protecting valuable natural resources, and preserving quality of life on Mercer Island (see Exhibit 1).

The CAP is a long-term planning document that organizes GHG reduction actions and resiliency measures in a strategic manner. The CAP takes into account near-term and long-term resource needs and other considerations that will affect the City's ability to meet the emissions reductions targets. Staff expect to deliver an annual progress report to the City Council, provide online performance data updates to the public each year, and update the CAP approximately every 10 years.

#### **CAP Public Engagement to Date**

This CAP is the product of months of data collection and analysis, but also lengthy engagement with community members and organizations, the City Council, and City staff.

The CAP process launched in December 2021 and the City has used a range of measures to gather public input, including two online workshops, various outreach events and activities, online surveys, factsheets, the Let's Talk engagement platform, and the recent 4-week public comment period.

The City also conducted a citywide random sample survey in September 2022 (see AB 6180), sent by mail to 2,500 households. The survey had 264 responses (176 submitted via mail and 88 online). This 10% response allowed the City to achieve its desired 95% level of confidence, with a +/-6% margin of error. A parallel, general public, opt-in survey received another 123 responses online.

#### **Overview of Draft CAP Comment Period**

Staff promoted the public comment period widely via all City channels as well as local media. Over a four-week period comments were received via the following methods.

- Online commenting platform ("Konveio"):
  - 339 site views; 62 unique site visitors
  - o 120 comments; 10 unique commenters
- Email:
  - o 10 emails from 10 residents

- Letters:
  - 2 letters on behalf of Mercer Islanders for Sustainable Spending
  - 1 from a private citizen
  - o 1 from Seattle King County Realtors
  - 1 from Puget Sound Energy
- Let's Talk Public Engagement Site (numbers only cover the Draft CAP phase):
  - o 529 visitors to posted story about the Draft CAP comment period
  - o 1 online comment from 1 resident
  - o 3 online questions from 3 residents
- Public Hearing:
  - o 8 speakers testified

#### **Draft CAP Comment and Edit Summaries**

In addition to the public input listed above, the project team reviewed suggestions from discussions held during the November 29 public workshop for other actionable content not already represented. Members of the City Council also submitted a range of comments and questions upon the release of the Draft CAP.

The feedback and suggestions were used to prepare recommendations on potential revisions to the draft plan, which are further summarized below. Please also see **Exhibit 2 – Q & A Matrix**, for a list of comments and questions that were not identified for a specific plan revision.

#### **ISSUE/DISCUSSION**

Staff have gathered and distilled the feedback on the draft plan into several exhibits for City Council review. Direction on each exhibit is needed to inform development of the final CAP Plan.

- Exhibit 3 New Section: Executive Summary
  - This new section will be added to the beginning of the CAP Plan and was developed at the recommendation of the Sustainability Committee.
- Exhibit 4 New Callout Box: "The Cost of Inaction"
  - This new callout box related to the "cost of inaction" was developed based on public feedback and recommendations from the Sustainability Committee.
- Exhibit 5 New Callout Box: "Green Power"
  - Several comments and questions were received seeking additional information or clarification on PSE's green power program: this new text is recommended to address those comments.
- Exhibit 6 Revised Natural Systems Section Targets, Strategies and Actions
  - When the Draft CAP was published the section on "Natural Systems" was not complete. Exhibit 6 includes the entirety of the "Natural Systems" section and reflects comments and feedback received from the City Council and the public.
- Exhibit 7 Items Recommended for City Council Approval
  - This exhibit summarizes a list of recommended changes based on City Council and public input. The staff recommend the City Council approve these changes.
- Exhibit 8 Items Recommend for City Council Discussion
  - The final exhibit includes a list of items/topics that require discussion and direction from the City Council.

#### **NEXT STEPS**

Based on direction from the City Council, the project team will incorporate revisions into the plan and will return with a final version for Council adoption, which is currently anticipated for April 4, 2023.

This final CAP will be circulated as part of the materials for the April 4 City Council Meeting and will also be published on the Let's Talk engagement platform, where all other CAP documents are posted (these are all available at: <a href="https://letstalk.mercergov.org/climate-action-plan">https://letstalk.mercergov.org/climate-action-plan</a>).

#### **RECOMMENDED ACTION**

- 1. Approve Exhibits 3, 4 & 5, and direct staff to include the new text in the final CAP Plan.
- 2. Approve Exhibit 6 and direct staff to include the revisions to the "Natural Systems" section in the final CAP Plan.
- 3. Approve Exhibit 7 and direct staff to include the revisions in the final CAP plan.
- 4. Approve [insert specific motion based on discussion related to topics in Exhibit 8.]

01	Mayor Nice	General	Where do we stand with the CAP being population adjusted from 2007 to 2050? The incredible growth the region and the city have experienced and will experience is an overwhelming counterforce to all the CAP hopes to accomplish. I always believe that a successful plan needs to be set up for success. Implementing a CAP based on 2007 base year emissions with a 95% reduction by 2050 without considering the significant population growth is a recipe for failure.	The GHG goals in the CAP are drawn primarily from the modeling conducted by partner agencies, such as the K4C and PSRC, which take into account the expected population growth in the region. Cascadia's emissions projections also account for expected population increases: the main reason that the "Business as Usual" line on the GHG wedge analysis continues to climb upwards in the future is due to the expected emissions from an increasing population. Thus, the amount of emissions reduction needed in the future (i.e. further along the wedge) to meet the 2007-based targets also increases over time.
02	Council- member Reynolds	General	The big picture observation I have is that the goals here are often not very specific. A lot of goals are some variation on "consider" or "explore" or similar. I do not think these are sufficiently specific to be meaningful. For example, we "considered" these items by putting them in our plan. So are we done? I think we need to think about phrasing these as SMART (specific, measurable, actionable, realistic, and time bound) goals. (I recognize time bound may not be practical, given these will require council action, but maybe we can do SMAR goals.)	Staff advises against revisions that mandate specific actions. The language was drafted to allow flexibility for future administrations and Councils to pursue actions as resources allow.  Staff will incorporate changes to the strategies, goals, and actions as directed by the majority of the City Council.
03	Council- member Reynolds	General	Can you please provide spreadsheet or similar versions of all matrices so that I can sort and compare and pivot?	Staff will compile these as available and suggest providing to Council at the end of the editing phase so that action descriptions, action ID#, and implementation details are internally consistent.
04	Council- member Reynolds	General	Maybe I missed it, but I do not see anywhere a quantification of how much carbon each of the actions saves, or how much each contributes to the wedge. Or even the overall result. Do we have that information?	The wedge measures emissions reduction by focus area targets (for example, 22% reduction in communitywide energy use by 2030), not by each specific action. Actions were then selected that are known to support these targets based on climate action best practices, regional forecasts, current research, etc.  If the City Council desires each action to be analyzed separately, the staff and consultants can perform that work. Additional time and resources will be needed to perform this analysis.
05	Public	General	Concern over possible limitations on supply of electricity as more and more items, including vehicles, are electrified. And related concern over stability of the above-ground power grid in Mercer Island.	Communication from PSE indicates that they are currently planning to provide sufficient electricity to power 1 million EV's by 2050 (PSE currently has approx. 1 million electricity customers).

Log #	Name	Page #	Comment/Question	Staff Response
06	Public	General	Assertion that every CAP action should have a rigorous cost-benefit analysis, and that no action should be pursued if it has a breakeven ROI of longer than 5 years.	The proposal for a five-year ROI analysis is not feasible.  Some programs will take 2 to 5 years of ramp-up time before on-the-ground implementation can begin and may also be preparing for known State Legislation that does not take effect until several years into the future. For example, the WA Clean Buildings Act, that slowly ratchets down to eventually include buildings of the size found in Town Center (20-50,000sqft.) has an implementation timeline of 9 years from 2019.
07	Mayor Nice	3	Playing Our Part: Why doesn't the City section include the use of volunteers? They are local and have a low carbon impact compared to hiring labor which is likely to generate more emissions commuting to Mercer Island. This is even more impactful for episodic work like park clean-up when many volunteers/laborers are needed to accomplish a task.	All of the actions listed in this section are programs, which may be delivered through volunteers, staff, consultants/contractors, and/or other partnerships.  The Community Involvement section (page 39) is where the draft CAP promotes the use of volunteers.
08	Mayor Nice	8	2030 Targets: 5% reduction in regional air travel fuel use should be clarified to be per-capita/adjusted if that is true. The air travel target is a regional value ascribed to Mercer Island. If the region grows as expected, a 5% reduction could be offset by expected population growth, couldn't it? We can't expect a plan to be successful if population growth isn't accounted for.	The target was identified using Cascadia's wedge tool, which accounts for expected population growth to determine what reduction is needed to reach our 2030 and 2050 targets.  The target listed is not a per-capita value since the absolute amount of jet fuel burned is what matters most to the environment. While they can be useful for comparison purposes between cities or counties, using per-capita values can mask the severity of projected GHG impacts. In many cases, per-capita emissions in a certain sector are dropping, but total volumes of climate-altering GHG's emitted are still rising, and it is that total amount (Metric Tons) that alters climate, especially in the case of jet emissions directly into the upper atmosphere.
09	Council- member Reynolds	11	The goal for a 20% increase in public participation in "public programs devoted to climate resilience" seems way too modest. What is our baseline?	These targets could be adjusted at the direction of the City Council. Current participation in Emergency Preparedness training (which includes natural disaster topics) averages about 30 course graduates per year. There are also currently 67 fully-badged emergency volunteers who have undergone additional levels of training. New course material could be added to address emerging climate-related threats such as extreme heat, wildfire smoke, local flooding, etc.

Log #	Name	Page #	Comment/Question	Staff Response
10	Mayor Nice	16	Themes from community engagement: Are these select themes? All of the themes? Ranked themes? Can someone send me all of the themes if these are just a selection? Can we see the stack-ranked themes list if these are select themes? There is an appendix with a summary of the Community Survey. Why summarize it for the Appendix? We had detailed results from the Community Survey that might be more appropriate in an Appendix. The summary is something that I expect to see in the plan.	The full results of the survey will be added as a new appendix to the final CAP.  Verbatim public input from the mailed survey tool was included in the full report that was provided to Council as Exhibit 1 of AB6180 (15 Nov 2022).  Summaries from other public input tools used (such as online surveys; polling during public workshops; etc.) are available on Let's Talk (see: <a href="https://letstalk.mercergov.org/climate-action-plan">https://letstalk.mercergov.org/climate-action-plan</a> ) which will be retained as an archive once the CAP is adopted.
11	Mayor Nice	17	Random Sample Community Survey: The opening paragraph includes a sentence referencing Appendix D. Survey Summary that "provides the full detail on survey results." As a summary, it does not provide the full details of the survey results. Can we please put the full details of the Community Survey in the appendix?	The full survey results will be added as a new appendix
12	Mayor Nice	23	Page 23, Cross-Cutting and Municipal: The opening paragraph says city operations account for 1% of the total emissions, with most coming from employee commutes. The 2030 and 2050 targets in the chart below state 100% (Carbon neutral). What is the city's strategy to offset the GHG of employee commutes?	Actions CC2.1 (CTR participation & incentives) and CC2.2 (Alternate commuting incentives) highlight some of the initiatives planned to offset employee commutes. Alternative commute incentives may include incentives to drive electric vehicles, free ORCA transit passes that most other Lake WA cities provide to staff, e-bikes available to City staff, etc.

Log #	Name	Page #	Comment/Question	Staff Response
13	Council- member Reynolds	23	I know I have asked this before, but I don't recall getting an answer I really understand. What exactly does the premium paid by consumers for green power really do? Clearly we get the same electrons we always get. Does PSE really buy or produce more green energy when people pay this premium? How is this demonstrated/documented? I would love to see this discussed for the record in the council meeting.	The premiums accrue are then invested in local renewable energy projects that PSE then sources energy from. Increasing the portion of renewable energy in its energy mix reduces the PSE emissions factor (the amount of GHG emissions generated per kWh of electricity).  The individual paying the premium does not receive more electrons of renewable energy than their neighbor. Instead, they are sending a market signal: they are paying to add more renewable energy in the future to the PNW power-supply grid (along with electricity from other resources). The PSE program is monitored and certified by a third party, Green-e, which certifies similar programs nationally, and audits PSE's program annually.
14	Mayor Nice	28	Transportation: There is a citation that 3% of transportation emissions come from recreational boats. What is this in MTCO2e? What was the watercraft contribution in MTCO2e for the base year of 2007? Is a recreational power boat transportation?  As long as we're on the topic of transportation and now recreation, is there a potential strategy around recreational skiing and city-supported bus shuttle service to Crystal and Steven's? This could have a significant impact on the recreational GHG emissions related to recreational skiing.	To be more specific, the text says that 3% of emissions derive from "off road vehicles/equipment (including recreation boats)" – boats are thought to be the smallest share of this amount.  The data for off-road vehicles came originally from the EPA MOVES tool to measure emissions from mobile sources, including recreational boats; an exact number for boats-only is not available. Based on the backcasting conducted for the City's GHG Emissions Report (available on Let's Talk), the offroad portion of emissions was approximately the same in 2007. (The GHG Report is on the City website at: <a href="https://www.mercerisland.gov/GHG_Emissions">www.mercerisland.gov/GHG_Emissions</a> ) The City Council could explore future shuttle opportunities (such as a ski bus) as a program/service in support of CAP goals.
15	Council- member Reynolds	28	How could it be remotely possible to hit 100% EV by 2050? There are gas cars on the road today that will still be on the road in 2050. Is the state going to confiscate them?	This target is based on alignment with the Washington Internal Combustion Ban, which establishes a target that, "all publicly owned and privately owned passenger and light duty vehicles of model year 2030 or later that are sold, purchased, or registered in Washington state be electric vehicles." The wedge model assumes that vehicles are replaced on average every 15 years.

<sup>&</sup>lt;sup>1</sup> WA E2SHB 1287 (page 5): <a href="https://lawfilesext.leg.wa.gov/biennium/2021-22/Pdf/Bill%20Reports/House/1287-S2.E%20HBR%20FBR%2021.pdf?q=20210702143820">https://lawfilesext.leg.wa.gov/biennium/2021-22/Pdf/Bill%20Reports/House/1287-S2.E%20HBR%20FBR%2021.pdf?q=20210702143820</a>

1 "	Maria	D //		01 (( D
Log #	Name	Page #	Comment/Question	Staff Response
16	Council- member Reynolds	31	What is our current diversion rate for waste as compared to our 70% target?	Residential diversion rate averages about 68% per year; commercial about 57%.
17	Council- member Reynolds	31	The target of 11% reduction in landfill waste by 2030 and 60% by 2050 seems very backloaded / nonlinear. What is the justification for this pattern?	This target was generated based on the wedge target inputs to reduce the amount of recyclable and compostable waste sent to landfills by 5% by 2030 and 95% by 2050 (i.e., a 95% reduction in recyclable and compostable waste translates to a 60% reduction in overall landfill waste).  The 5% target was selected as a conservative target to reach in the short term, and 95% as a more ambitious target to reach in the long term.
18	Council- member Reynolds	31	Does MI have any power over landfill emissions?	Yes, in the sense that community members have influence over the amount of waste sent to landfills that in turn generate emissions.  Landfill emissions are also impacted by the amount of landfill gas collected on-site at landfills. Because Mercer Island's waste is sent to a landfill that is not controlled by the City, we do not, however, have the ability to impact emissions in this manner.
19	Council- member Reynolds	33	Tell me about tree canopy. The goals talk about 5% increase in tree canopy. But my recollection is that we are already growing tree canopy. What is our historical canopy growth rate?	This section of the CAP was not complete when the draft was released. Proposed new targets for the Natural System focus area is included as Exhibit 6 – Revised Natural Systems Section.
20	Council- member Reynolds	38	The "Monitoring, evaluating, and reporting" section talks about regularly updating the CAP webpage. "Regularly" is not defined. We should include a specific commitment to make more often (quarterly?) updates to things for which easy or automated data dumps are available.	Staff do not recommend making this change. Minor updates occur frequently. More extensive updates occur annually. This language is flexible to allow for both to occur.
21	Council- member Reynolds	A-8	Why is CC3.1 a \$\$\$ item? Where are the costs? Consultants? Can we create a process that volunteers can do?	Yes, the cost estimate was based on consultants supporting updates to the inventory; Mercer Island is exploring the cost efficiency of conducting its inventory using a partnership model along with 4 other eastside cities, which could bring down the cost.  Updating the inventory is labor intensive and complex. Staff do not recommend assigning this work to volunteers.

#### AB 6235 - Exhibit 2 - Q&A Matrix

3/07/20 Item 7.

Log #	Name	Page #	Comment/Question	Staff Response
22	Council- member Reynolds	C-1	Did we consider co-benefits when ranking items? In other words, did we ever consider that reducing gas powered yard tools addresses noise pollution as well? How about other co-benefits for other tasks?	Staff did a very preliminary analysis of the co-benefits, but it was not exhaustive and therefore not included in the MCA.

## Mercer Island CAP – New Section: Executive Summary (Draft)

#### **EXECUTIVE SUMMARY**

• Location in CAP: Page 1.

Taking decisive climate action has never been more urgent across the Pacific Northwest. People are already experiencing the economic and health impacts of changes to global climate patterns including rising temperatures, changes in rainfall and river flow, and reduced snowpack. Communities with significant topography like Mercer Island may be at risk for landslides from intense rain events in the winter, in addition to localized flooding. Conversely, hotter, drier summers are making wildfire increasingly likely even west of the Cascade Mountains. Air quality impacts from the persistent smoke plumes generated by regional fires are now all too familiar. <sup>1</sup>

According to experts at the University of Washington's Climate Impacts Group<sup>2</sup> there is no better example of the changes ahead than the unprecedented June 2021 heatwave that swept across the Pacific Northwest, with record-breaking temperatures that climbed 30°F above average. Seattle exceeded 100°F for three days straight, reaching a peak of 108°F, and Portland, Oregon reached 116°F. As one of the least air-conditioned regions in the United States (just 54% of homes in Seattle), the region experienced a significant spike in heat-related deaths and illnesses. Exacerbated by an unusually dry spring, the extreme "heat dome" event created additional widespread impacts, including damage to road surfaces, shutting down light rail, power outages, and wildfires. Unfortunately, heat events will become more common as average air temperatures are now anticipated to increase 5.5°F by 2050. Every action that communities take today will reduce the severity of future climate impacts, some of which are now unavoidable.

The Washington State Legislature has recently passed legislation such as the Climate Commitment Act<sup>3</sup>, which places an economy-wide cap on carbon to

<sup>&</sup>lt;sup>1</sup> Extensive detail is available in PNW chapter of the Fourth National Climate Assessment, led by the National Oceanic and Atmospheric Administration (NOAA); U.S. Global Change Research Program. 2018. "FOURTH NATIONAL CLIMATE ASSESSMENT." CHAPTER 24: NORTHWEST. https://nca2018.globalchange.gov/chapter/24/.

<sup>&</sup>lt;sup>2</sup> Climate Impacts Group, University of Washington. n.d. "CLIMATE MAPPING FOR A RESILIENT WASHINGTON." https://cig-wa-climate.nkn.uidaho.edu/.

<sup>&</sup>lt;sup>3</sup> Washington State Department of Ecology. n.d. *Climate Commitment Act.* https://ecology.wa.gov/Air-Climate/Climate-Commitment-Act.

meet state Greenhouse Gas (GHG) reduction targets. The State also passed the Clean Energy Transformation Act<sup>4</sup>, which will eliminate coal power from the electrical grid by 2025 and transition the state to 100% clean electricity by 2045.

Many of the actions required to reduce GHG emissions, improve resiliency, and protect the environment will occur at the local level. The Mercer Island Climate Action Plan (CAP) organizes and prioritizes strategies and actions to reduce GHG emissions, building on the long history of stewardship the community has already demonstrated. This history of climate actions includes two successful rooftop solar promotional campaigns, commercial green building requirements in Town Center, very high rates of green power enrollment among residents, and the purchase of 100% wind energy to power all City government operations. The City has converted almost all street and parking lot lighting to LED and has been able to increase its tree canopy by 8% from 2007 to 2017; other milestones can be found on the City's sustainability webpages<sup>5</sup>.

In 2007, the City adopted its first GHG reduction targets in alignment with State goals. In 2011, Mercer Island became a founding member of the King County-Cities Climate Collaboration (K4C): this alliance of 22 local governments helps support climate solutions, share success stories, advocate for legislation, and coordinate multi-city initiatives to achieve shared climate goals and targets. Through the K4C and guided by the King County Growth Management Planning Council's policies, the City of Mercer Island updated its GHG targets in 2022 to a reduction of 50% by 2030, 75% by 2040, and 95% by 2050, compared to a 2007 baseline.

Current GHG emissions (based on 2019 data, the last "normal" year before the COVID pandemic), were **358,777 Metric Tons,** or **14.7 Metric Tons per resident.** Calculations indicate that existing federal, state, and regional climate policies will reduce these emissions approximately 34% by 2030. That leaves an additional reduction of 16% that must be achieved at the local level to meet the "50% by 2030" goal.

This CAP provides a long-term cohesive planning document that organizes GHG reduction and adaptation actions and programs in a strategic manner, ranks implementation priorities, identifies a protocol for tracking progress on a regular schedule, incorporates extensive public input, and enhances the City's existing GHG Dashboard webpage.

### Mercer Island CAP – New Callout Box: The Cost of Inaction (Draft)

#### "THE COST OF INACTION" CALLOUT BOX

• Location in CAP: Implementation plan introductory sections (p.39)

Failure to act on climate change has implications not only for community health and wellbeing but also to local and global economies.

Delaying action incurs both direct costs from damages caused by climate impacts (such as destruction to infrastructure and increased insurance costs to address increased wildfire and flooding) as well as potential savings missed through advancements to lower cost energy and other technological advancements. Many experts predict that over several decades these costs could far outpace the costs of investing in climate action today. On a global scale, some models indicate, insufficient action could cost \$178 trillion over the next 50 years—a 7.6% cut to global gross domestic product (GDP) in the year 2070 alone.<sup>1</sup>

In Mercer Island, these costs of inaction could play out in several ways. For example, postponing the assessment of areas prone to local flooding in Mercer Island (**Action CR1.3**: *Urban flood management*) may result in neglecting key infrastructure upgrades that could save millions from avoided flood damage. Similarly, implementing **Action CR2.3**: *Electric grid resiliency* helps the Island avoid costly future electric outages that disrupt local businesses and often many hundreds of residents.

<sup>&</sup>lt;sup>1</sup> Deloitte. 2022. "The Turning Point: A Global Summary." https://www.deloitte.com/content/dam/assets-shared/legacy/docs/gx-global-turning-point-report.pdf.

### Mercer Island CAP – New Callout Box: Green Power (Draft)

#### **GREEN POWER CALLOUT BOX**

• Location in CAP: Buildings & energy action matrix (p.27)

#### How does the green power program affect emissions?

Residents enrolled in the PSE Green Power Program pay a premium on their energy bill that is then invested in local renewable energy projects that generate clean power sourced by PSE and other regional utilities. Increasing the portion of renewable energy in its energy mix reduces the overall carbon intensity of PSE's electricity for everyone, thereby reducing the emissions generated from powering Mercer Island homes and businesses. The PSE program is monitored and certified by a third party, Green-e, which certifies similar programs nationally. Green-e audits the PSE program annually to ensure that ratepayers' dollars are being invested appropriately.

The individual paying the premium does not receive more electrons of renewable energy than their neighbor. Instead, they are sending a market signal— by paying slightly more now, they are adding more renewable energy in the future to the Pacific Northwest power-supply grid for the benefit of all.

# Mercer Island CAP – Page 33 Revised Natural Systems Section (Draft)

Natural systems (e.g., trees, soil) store and capture carbon from the atmosphere and provide important climate resiliency services. For example, natural cooling from tree shade reduces extreme heat stress and decreases energy demand for air conditioning. Conserving valuable water resources also helps ensure that Mercer Island is resilient against future droughts and can maintain a healthy water supply in the years ahead.

**Focus area goal:** Foster climate resilient natural landscapes by protecting vital habitats, ecosystems, <del>and natural resources,</del> and conserving water resources.

resources.						
Strategy	KPI/Metric	2030 Target	2050 Target			
Increase urban tree canopy and green space.	Increase in tree canopy acreage <del>(%</del> of city coverage) and replacement counts <sup>1</sup>	Maintain current canopy and increase canopy by 5% compared to 2018 Ensure City's tree replacement ratio for trees lost on public lands is at least 5:1. Continue to prioritize retention of healthy, mature canopy in parks, rights-of way, and open space areas. Increase tree canopy on private land by 5%.2	Maintain current canopy and increase canopy by 15%  All new City plantings are climate-adapted species. Increase tree canopy on private land by 15%.

<sup>&</sup>lt;sup>1</sup> Target applies only to land acreage that could support tree canopy.

73

<sup>&</sup>lt;sup>2</sup> The most recent tree canopy assessment was completed in 2018; the next will be completed in 2028 and will inform future policy decisions.

	maintenance phase of management.	maintenance phase of management.
	Recruit landowners to participate in active restoration efforts and/or habitat conservation on private land. <sup>3</sup>	

#### Strategy #1: Increase urban tree canopy and green space.

Action ID	Short name	Action description	Icons
NS1.1	Tree planting incentive program	Develop programs to support and encourage residents and large property owners to plant the right tree in the right place and sustain existing trees with reduced cost or free trees. Offer tree-awareness campaigns and classes to educate the community and develop tree planting demonstration programs.	
NS1.2	Tree planting programs	Enhance City-led street tree planting in the right-of-way and assess long-term stewardship needs; promote street frontage plantings by businesses.	

#### Strategy #2: Foster healthy & resilient natural systems.

Action ID	Short name		
NS2.1	Water- efficient landscape standards	Utilize educational campaigns to encourage drought-resistant and/or native landscaping and design. Work with landscape companies to educate and incentivize drip irrigation and smart management technology. Develop demonstration programs.	4
NS2.2	Water conservation incentives	Partner with regional water conservation groups, such as the Saving Water Partnership, to develop and advertise incentives and installation programs to retrofit inefficient water fixtures.	4
NS2.3	Green stormwater infrastructure	Promote green stormwater infrastructure and low impact development (LID) through education and demonstration programs.	

<sup>&</sup>lt;sup>3</sup> "Monitoring and maintenance phase" is defined as open space areas with less than 5% invasive plant cover, greater than 60% native tree cover, and a diversity of plant species, tree ages, and forest structure.

Greywater reuse education

Develop campaigns to educate residents and businesses on the financial and environmental benefits of reusing rainwater and greywater.

### (New Natural Systems actions to cover the revised target language listed above)

NS2.5	Develop monitoring and maintenance baseline for all City open spaces	Complete an assessment of all City open spaces to establish a baseline for monitoring and maintenance phase. (Note: This work has already been completed for some, but not all, of the City's open space areas.)	
<u>NS2.6</u>	Open space restoration	Using the baseline date from NS2.5, expand acreage of forested open space undergoing intensive restoration in order to reach a more stable monitoring and maintenance phase of management. Expand contiguous areas of open space in the monitoring and maintenance phase to improve habitat connectivity and limit boundary effects.	
NS2.7	Private forest restoration	Engage private landowners (businesses, schools, churches, and residential properties) to participate in forest restoration programs. Develop programs and incentives to increase canopy cover, improve diversity of native species and forest structure, reduce invasive species, and add resilient, climate-adapted landscaping.	
NS2.8	10-Year Citywide tree Canopy Assessment	Continue to perform an assessment of the citywide tree canopy every ten years. Use data and findings to modify strategies and actions related to increasing forest canopy and improving forest health.	
NS2.9	<u>Carbon</u> <u>sequestration</u>	Assess the carbon sequestration (the rate of carbon stored in plants, soil, and habitats) of existing public land in Mercer Island and explore ways to increase sequestration levels through changes to land management practices.	

N7/20	Item	

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response	
Other	Other suggestions/feedback and staff recommendations				
1	Public	All	Adjustments to footnotes, typos, grammar.	Staff made these minor edits – can discuss as needed.	
2	Public	Gen	Confusion over the importance/relevance of climate resiliency actions that have no or little emissions impact, and why they would be prioritized for near term implementation.	Staff will add a new icon in the strategies and actions section of the plan to highlight actions that a have particularly high climate resilience impact.	
3	Councilmember Reynolds	V	The definition of EV seems flawed: "Vehicles that derive all or part of their power from electricity." I would say that all vehicles derive part of their power from electricity. After all, all cars have batteries. Though not all are EVs. Perhaps a better definition would be something like: "A vehicle that can be powered by an electric motor that does not utilize fossil fuels for power." Note, this would exclude plug in hybrids that also have internal combustion engines, which seems appropriate in this context. Also, both these definitions use the word "vehicle", which in some cases can include boats, trains, planes, and more. I am not sure that is intended, so perhaps the word vehicle should be reconsidered.	Staff will enhance this definition to: "A road vehicle solely propelled by an electric motor powered by batteries and not fossil fuels."	

3/07/20	Item 7.
---------	---------

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
4	Mayor Nice	2	Plan Summary: I see a footnote that 2007 is the base year. Could we mention that 2007 is the base year that 95%, 50%, and 75% reductions are targeted against in the Plan Summary opening paragraphs? There is no appendix item for the GHG emission of the base year. Could we add an appendix with the 2007 GHG emissions listed in the most granular and greatest detail practicable? Could the Plan Summary reference the 2007 base year GHG emissions and quantify the 95%, 75%, and 50% reduction targets? Can the Plan Summary mention where we ended 2022 or the latest measured year?	Yes, staff plan to add additional sentences explaining the base year concept and how 2007 emissions were calculated in the Emissions Reduction Targets narrative (p 20):  "As a founding member of K4C, Mercer Island has been actively working to reduce GHG emissions for more than 15 years. The graph below details a pathway for meeting the shared K4C targets to achieve 50%, 75%, and 95% emissions reductions from a 2007 baseline by 2030, 2040, and 2050, respectively. Setting the emissions reduction target based on a consistent baseline year allows Mercer Island and the other K4C cities to measure and compare progress over time. Mercer Island's emissions for 2007 were calculated by scaling the 2019 inventory results to 2007 based on the change in service population (residential population plus employment) between those years."  The full GHG report conducted by Cascadia (covering emissions through 2020) is available on the City's website (see: www.mercerisland.gov/sustainability), and Let's Talk (see: https://letstalk.mercergov.org/climate-action-plan). It could be included as another Appendix, but would add 16 more pages. A simpler solution would be to add the numerical tonnage values to the emissions bar graph on page 19 and staff will make this edit.  A new Exec Summary will also list current GHG emissions (in metric tons) and other helpful context. Proposed narrative is included as Exhibit 3 – New Section: Executive Summary
5	Councilmember Reynolds	2	The vision statement for consumption and disposal includes this statement: "The community practices circular economy principles, reducing the amount of resources used, reusing and repurposing materials, and recycling and composting <b>what's left</b> ." I think the bolded language implies a 100% effective reuse / recycle / compost system, which I am pretty sure is not literally practical. Perhaps insert "almost all of" before "what's left"	These phrases are meant to be aspirational; this statement was modeled after King County's RE+ Plan. Staff recommend keeping as is.

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
6	Mayor Nice	3	Focus Area/Future Vision: Transportation – Low-to-no carbon transportation options are safe, CLEAN, accessible, affordable, and widely used. Please consider removing the word "clean" when we've prefaced this future state with Low-to-no carbon. Clean adds nothing that the last phrase doesn't already capture more descriptively. If we want another descriptor, we could add that these transportation items are "preferred."	Since heavy freight vehicles are not expected to be 100% clean by 2030, or even 2050, staff believe retaining the word "clean" emphasizes the importance of focusing on the issue into the future.
7	Mayor Nice	3	Playing Our Part: Should we consider changing "Upgrading" to "Transition to electric, energy-efficient appliances in your homes and offices"? Many people will not consider an electric fireplace an "upgrade."	Staff concur with this suggestion and will change to: "Transition to electric, energy-efficient appliances in your homes and offices."
8	Mayor Nice	3	Playing Our Part: Rather than prescribing direct flights as the solution, could we encourage travelers to select carbon-efficient routing (those that produce the least emissions for the trip)? A half-empty flight to Oklahoma City isn't going to be as carbon efficient as a full flight to DFW and a smaller full flight to OKC.  Playing Our Part: Let's mention avoiding travel. In a Zoom, Teams, and GoToMeeting world, so much business travel has and can be replaced with virtual meetings.	Yes, staff will add: "Reduce business travel by prioritizing virtual meetings whenever feasible."  While airlines may depict the number of seats available at certain prices, this information is highly dynamic, and subject to market manipulation by the vendor. Google Flights has begun to provide average emissions, but these are only rough estimates. Currently, data on the true fullness of a given flight is not typically available at the time of booking, so the best proxy available for the average consumer is to select direct flights, and to sit in coach class, where one seat occupies less floorspace than business or first class. Some studies also indicate that up 50% or more of per capita flight emissions occur during takeoff and landing, suggesting that direct routes may be the best approach
9	Mayor Nice	3	Playing Our Part: "Add a solar panel" seems inaccurate to the goal. Should we be clearer by saying, "Add solar panels or a solar roof to your house or participate in the Green Power Program to help fund local renewable energy projects?"	Good point: staff will pluralize panel(s).
10	Mayor Nice	3	Playing Our Part: The section "What the City is doing and will continue to do:" should be retitled "What the City can do:" Phrasing it this way puts it on equal footing with the community bullets, many of which the community is also already doing.	The heading was intended to reflect the work the City has underway or has already done. Staff recommend keeping the heading as-is.

ltem חכודה	
------------	--

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
11	Councilmember Reynolds	3	The section on "what the community can do" includes the phrase: "Opt for the light rail instead of driving when commuting off island." I suggest you change "commuting" to "traveling", and also allow/add for bus and active transportation.	Staff will make this change: "Opt to take the light rail, bus, or bike instead of driving when traveling off island."
12	Mayor Nice	6	Targets Graphic: The 2030 and 2050 targets mention "(compared to a 2007 baseline)." Again, we should reference the 2007 baseline value as an appendix item. To be correct, the parenthetical should read "(compared to the 2007 baseline, see appendix X)."	Staff will add MTCO <sub>2</sub> e values to each column of the graph on page 19, to address this request.
13	Mayor Nice	7	Focus Area: Buildings & Energy (BE): Looking at the 2030 Target, the first bullet cites a 78% reduction in building GHG emissions. The same is true for the 2050 targets. I assume these are the GHG emissions from buildings and not the GHG emissions from buildings; maybe I'm wrong. The following bullet of a 35% reduction in building natural gas, propane, and fuel oil consumption seems duplicative. Most people consider the natural gas, propane, and fuel oil consumption of buildings as GHG emissions, which is covered by the first bullet. Can we be more explicit about what the difference is here?	Yes, the first bullet (78%) refers to overall emissions from operating a building. The second bullet (35%) is intended to encompass progress made towards greater efficiencies in the fuel consumed to heat buildings.  The 35% energy consumption target is a key performance indicator (KPI) of the overall 78% GHG reduction target. This target was called out separately because the City will track this KPI separately to assess whether it is on track to reaching the 78% target.  Staff will add the following footnote to describe this distinction in the plan: "This target is a measurable milestone in tracking progress toward reaching the overall reduction in building GHG emissions."
14	Councilmember Reynolds	8	The transportation targets section uses the word "vehicle" again in the context of vehicle miles traveled. I ASSUME this means cars, and maybe trucks, but we should make this clear. It might arguably include planes and trains.	Good point – Staff will add a footnote to clarify:  "Vehicle refers to passenger vehicles (motorcycles, cars, light trucks, SUVs, etc.) and freight trucks and does not include buses or trains."
15	Councilmember Reynolds	11	We frequently refer to "wildfire smoke", which is very relevant, but it seems to ignore the issue that, with sufficient climate change, we might actually have wildfire risk on MI. I think wherever we say "wildfire smoke" we should say "wildfires"	Staff believe that Mercer Island will continue to be faced with episodes of wildfire smoke, whereas actual risk of wildfire (absent small incidents in natural areas) is still unlikely. However, the topic of wildfire (not just smoke) has been added into the plan in several places, such as page 35, Action CR1.1 – for example, see Exhibit 8, comment #8.

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
16	Councilmember Reynolds	13	I really love the land acknowledgement. However, I think we should change the reference to "Duwamish" to instead be "Coast Salish". I think MI had more than Duwamish settlements, and, from what I understand, Coast Salish is a term that includes the Duwamish, Suquamish, Snoqualmie, and more. In the likely event that you or others on the team know more about this than me, please correct me as needed.	Based on research with local sources, staff agree, and propose changing "Duwamish" to "Coast Salish"
17	Councilmember Reynolds	13	The intro says we have 25,000 residents. Isn't 26,000 more accurate?	Yes, this will be updated in the final plan; according to the WA Office of Financial Management, Mercer Island is now closer to 26,000
18	Councilmember Reynolds	13	In the intro there is reference to "winter storms and wildfires" needs to be "winter storms, wildfires" since wildfires are not winter events. Also, should mention "flooding".	Staff have adjusted grammar accordingly:  "The Puget Sound region has warmed substantially—average annual temperatures are up 1.3°F since 1900¹—changing the seasonal weather patterns and leading to more frequent and severe winter storms, wildfires, heatwaves, and flood events, and drought in the summer months."
19	Mayor Nice	23	Cross-Cutting and Municipal: The blue section below the opening sentence reads, in part, "municipal operations account for <b>only</b> about 1%" I think we can drop the word "only."	The word "only" will be dropped in the final plan.

<sup>&</sup>lt;sup>1</sup> King County. 2017. "Climate change impacts in King County." https://kingcounty.gov/services/environment/climate/our-changing-climate/impacts

חכוד	Item	7
------	------	---

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
20	Public	24;	Support/ recommendations for expanding climate	Add the following bullet to CC1.3 (Climate outreach/education)
		A-4	outreach and education.	"Develop a climate outreach and education campaign or program to support ongoing community engagement in climate actions. Initiatives may include:
				<ul> <li>Educational campaigns aimed at helping residents understand the relative impact of various sources of GHG emissions and the potential benefits of existing and proposed policies."</li> </ul>
				Add the following implementation considerations to CC1.3 (Climate outreach/education):  "Spotlight stories of Mercer Island residents successful implementing sustainability efforts (i.e., residents who have purchased EVs, installed heat pumps, and/or bought PSE's Green Power Plan."
				"Promote PSE Green Power program at pop-up events."
21	Public	24	Support for working with the school district to encourage parents to carpool to school.	Edit CC1.1 (Low carbon schools) to read: "Support local schools in integrating climate and sustainability education into curriculum and adopting low carbon solutions in their building operations. This may include working with the schools on energy efficiency and electrification, waste reduction and recycling, sustainable purchasing, and behavior change (such as encouraging carpools to school)."
22	Public	26	Criticism of the PSE Green Power Program, confusion over how the program operates/how funds are used, and support for using the CAP to encourage PSE to expand its local renewable energy initiatives.	Add a new call out box in the Building & Energy section to describe how the Green Power Program works. Proposed narrative is included as Exhibit 5 – New Callout Box: Green Power.  Consider adding new language to BE1.7 ( <i>Green Power Program</i> ) to use the CAP to collaborate more directly with PSE, such as: "Partner with other neighboring communities served by the utility to advocate directly with PSE to expand renewable energy production that is local to Mercer Island."

Log #	Name -	Page	Comment/Question/Engagement Theme	Staff Response
23	Public	28	Confusion over transportation strategy #2 and how the corresponding targets relate.	Adjust strategy #2 to focus only on VMT reduction: "Reduce vehicle travel."  Add in language related to decarbonizing equipment to Strategy #1: "Plan for expansion of EV infrastructure and fleet electrification; decarbonize offroad equipment." Also move TR2.4 (Electric lawn & construction equipment) to Strategy #1.
24	Councilmember Reynolds	28	If we have 100% EV, and CETA is there, how do we not have a 100% reduction in carbon intensity?	The remaining emissions in 2050 are generated by freight vehicles, which are not expected to electrify at the same rate as passenger and transit vehicles. Staff will clarify this distinction in the plan with a footnote: "Remaining emissions in 2050 are generated from emissions from freight vehicles, which are expected to transition to electric at a slower rate than passenger and transit vehicles."
25	Councilmember Reynolds	29	TR 1.5 talks about developing education materials on EVs. Do these really need to be developed? Surely generic materials already exist.	Staff will change the word from "developing" to "providing."
26	Public	30	Support for strengthening aviation actions to better highlight the carbon intensity of air travel and promote a reduction in air travel.	Update TR3.1 ( <i>Air travel alternatives</i> ) to read: "Provide education materials around alternatives to air travel for conferences and business travel; educate residents on the carbon footprint of air travel and benefits of regional tourism."
27	Mayor Nice	31	Consumption & Disposal: The opening paragraph says consuming products also creates "upstream" emissions from the energy and fuel used to produce and distribute goods and materials. The next paragraph says, "The City can reduce emissions by promoting consumption" Isn't this the opposite of what is needed based on the first paragraph?	Yes, good revision, this was an editing error and the second paragraph should read "by promoting <u>sustainable</u> consumption" - this revision will be made in the final plan.
28	Public	33	Concern over lack of specific language addressing "preservation of mature trees"	Proposed new targets and actions for the Natural system focus area are included as <b>Exhibit 6 – Revised Natural Systems Section</b> .
29	Public	34	Support for providing technical assistance to support residents in participating in some natural system actions.	Adjust action descriptions for <b>NS2.3</b> ( <i>Green stormwater infrastructure</i> ) and <b>NS2.4</b> ( <i>Greywater reuse education</i> ) to include: "provide technical assistance, advice, and assistance to residents."

3/07/20	Item 7.
---------	---------

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
30	Public	35	Support for adding wildfire preparedness education for residents and ensure that the Mercer Island fire is prepared for future climate emergencies	Staff recommend revising the title of CR1.1 (Personal preparedness for wildfire smoke) to "Personal preparedness for wildfires."  Also, revise the description as follows: "Partner with Puget Sound Clean Air Agency and other regional organizations to educate the community on how to plan for and address periods of low air quality due to wildfire smoke conduct outreach and education to prepare residents for wildfire emergencies."
31	Public	38	Confusion over oversight/accountability/authority of the CAP implementation, including what role City departments play in implementation, which actions are required/in alignment with state law, and generally how the City will ensure actions are followed.	The authority to implement the actions in the plan rests with the City Council through biennial budget adoption and the establishment of the two-year work plan.  Add a paragraph in the Implementation Plan to clarify which actions require code updates and the process for enacting them, as well as the tie between state climate policy and applicable actions (e.g., BE1.4 Building code updates):  "Several CAP actions may require revisions to the city code to implement. For example, several code amendments are required by current and upcoming state law, including BE1.4: Building code updates, and CD1.2: Mandatory composting/recycling. All future code amendments will be incorporated into the biennial workplan that is directed and approved by City Council."

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
32	Mayor Nice	38	Monitoring, Evaluation & Reporting: Should we consider specifically calling out new technologies and at-scale market opportunities that could reshape or add strategies not previously considered or that were infeasible? The 10-year cycle should have a provision to allow these types of breakthroughs into the plan if and when they exist.	This suggestion was made by the Sustainability Committee as well. Staff recommend acknowledging the dynamic CAP landscape: more science/tech breakthroughs are likely to occur before the next CAP updates, and new climate-related legislation is a near certainty. Staff added text describing this in the new Executive Summary. Proposed narrative is included in Exhibit 3 – New Section: Executive Summary.  Staff will also add edit the introduction to the Monitoring, Evaluation, and Reporting section of the Implementation Plan:  "Monitoring, evaluating, and reporting on CAP programs and policies is important to understanding the City's progress and will include:  • Conducting a communitywide GHG inventory every two years, ideally aligned with partner cities in King County's Eastside.  • Updating the Climate Action Plan approximately every 10 years, incorporating lessons learned from CAP implementation, updated climate science, and new or revised targets, strategies, and actions. In the meantime, plan strategies and actions may need to be adapted to address new technologies, legislation, and market opportunities that may emerge before the next formal update.
33	Public	A-1	Recommendations for expansion of community park & ride stations as well as more bike security at stations (lockers and bike room).	Add the following implementation consideration to TR2.2 ( <i>Last-mile light rail connection</i> ): "Explore options to install more bike lockers at park and ride stations."
34	Public	A-2	Support for partnering with local businesses and community groups to support CAP implementation.	Highlight additional community-based organizations and business groups, in the CAP Implementation Matrix, including the Mercer Island Boys & Girls Club, Mercer Island Chamber of Commerce, and the Mercer Island Farmer's Market.
35	Public	A-6	Concern over City emergency capacity to address wildfire emergencies (particularly in relation to transitioning to electric fleet vehicles).	Clarify in implementation considerations for CC2.4 ( <i>Municipal fleet electrification</i> ) that the "City will ensure that transition will be deliberately timed with technological advancements to ensure that EV transition does not impede the City's ability to serve residents, particularly during emergencies."

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
36	Public	A-9 thru A-13	Concern over the equity implications of some Building & Energy actions related to home upgrades/retrofits, specifically that some demographics will not have sufficient resources to participate.	Add the following language into implementation considerations for applicable actions:  BE1.1 (Heat pump rebates & education): "Ensure equitable access through incentives and other financial support for low-income residents"  BE1.5 (Furnace and water heater replacement "burn out" program): "Ensure equitable access through incentives and other financial support for low-income residents"  BE1.6 (Solar panel expansion): "Ensure equitable access through incentives and other financial support for low-income residents"  BE2.4 (Point-of-sale green building requirements): "Ensure equitable access through incentives and other financial support for low-income residents"
37	Public	A-10	Recommendation that the City provide references to approved contractors as part of implementing <b>Action BE1.3</b> : <i>Contractor incentive &amp; training program</i> .	Add the following implementation consideration to BE1.3 ( <i>Contractor incentive &amp; training program</i> ): "Promote PSE's pre-screened lists of Recommended Energy Professionals.".
38	Councilmember Reynolds	A-10	Why is BE1.4 not an NT item? Doesn't it have to be to keep up with state law?	Yes, you are correct. This has been revised to "NT"  The MT timeframe was based on the original language for this action, which did not focus specifically on state building codes.  Staff also recommends adjusting the timeframe for CD1.2 (Mandatory composting/recycling) BE2.3 (Promote Washington Clean Buildings Act) and to "NT" to align with state building code requirements that take effect in 2024 and 2027, respectively.
39	Public	A-11 A-13	Concern that two proposed actions (Require electric panel upgrades upon sale/turnover of a building; and Require point-of-sale disclosures) would be onerous mandates for relators and homebuyers.	Commenters on this topic were viewing outdated prior draft language; current text in the draft CAP for BE1.8 ( <i>Electric panel upgrades</i> ) & BE2.4 ( <i>Point-of-sale green building requirements</i> ) reflect that these would be voluntary programs.

1 // //		

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
40	Public	A-11	Support for more community scale solar since many homes can't support rooftop solar.	Add the following implementation considerations to <b>BE1.6</b> ( <i>Solar panel expansion</i> ): "Explore community scale solar projects by identifying potential sites and funding opportunities.
41	Public	A-11 A-13	Recommendation to explore subsidies to fund solar projects and EV chargers.	Add the following as implementation considerations to BE1.6 (Solar panel expansion) and TR1.1 (Public EV infrastructure plan), respectively:  "Explore subsidies to fund solar panels."  "Explore subsidies to fund EV chargers."
42	Public	A-13	Desire to install more fast chargers on the island in partnership with PSE, particularly at multi-family residences and along south end of Island and commercial sites.	Add the following implementation considerations for TR1.1 ( <i>Public EV infrastructure plan</i> ):  "Work with local businesses to install fast chargers at commercial sites, particularly on the South End of the island. Prioritize installation of fast chargers as funding becomes available."
43	Public	A-15	Support for prioritizing bike safety in future updates to the Pedestrian and Bicycle Plan.	Add an implementation consideration to <b>Action TR2.1</b> ( <i>Update the Pedestrian and Bicycle Plan</i> ): "Prioritize projects that create safer bicycle and pedestrian infrastructure.
44	Public	A-17	Concern about the potential emissions impact of Recology waste hauler drivers taking longer routes to go to cheaper (but farther) transfer stations.  Recommendation to provide support to haulers to optimize routes.	Add the following implementation consideration to CD1.2 (Mandatory composting/recycling): "Encourage waste haulers to optimize their routes to the nearest transfer stations."
45	Public	A-17	Recommendation to work with schools and community organizations to encourage gardening education as part of action CD2.1: Community gardens.	Add the following implementation consideration to CD2.1 (Community gardens): "Partner with regional schools and community organizations to promote gardening to students and other community members."  Add Mercer Island School District as an outside partner for this action.
46	Public	A-19	Recommendation to expand volunteer tree planting programs on private property.	Add the following implementation consideration to <b>NS1.2</b> ( <i>Tree planting programs</i> ): "Expand the volunteer tree planting program on private property to support action implementation."

וכודר	Item

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
47	Public	A-19	Concern over increased operational requirements and the corresponding emissions impact of clearing fallen leaves from increased tree canopy.	Add the following implementation considerations to <b>NS1.1</b> ( <i>Tree planting incentive program</i> ):
			Concern that increasing the tree canopy could reduce sunlight and impact views.	"Consider the operational and emissions impact of clearing fallen leaves when considering the "right" types of trees planted on the Island (e.g., deciduous versus evergreen trees)."
				"Prioritize planting new trees in areas that limit obstruction to views, sunlight, and solar panels."

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
Part A:	Recommended dis	scussio	n items based on City Council comments	
01	Mayor Nice	13	Climate Change and Equity: This paragraph addresses the impacts outside our borders and global inequities, many of which are grounded in economic and political factors. The statement is silent about importing dirty coal-generated electricity or environmentally impactful	Note: Staff is seeking direction from the City Council on the equity language revisions. Multiple comments and suggestions were posed on the topic of equity, including a lengthy discussion with the Sustainability Committee.
			hydroelectricity and the inequity of a transition to electrification in this region. In contrast, the transition's pollution or environmental impacts are deposited or borne in another community. Should this equity	If a majority of Council agrees, staff will incorporate language exploring how the proposed GHG mitigation and adaptation actions could be made more equitable (this often involves grants, or full cost-coverage for low-income residents).
			statement be more inclusive of the inequities the CAP targets create or contribute to? Minimally, we need to understand the role of the equity statement in the plan and ensure it serves a purpose that doesn't conflict with the plan. Equity could have a role in each strategy's implementation.	Staff also agree that the equity statement could integrate language that is more specific to the Puget Sound region and the potential inequities that could result from climate action if equity is not considered as the plan is implemented. Again, seeking direction from the City Council on the areas of focus for revisions to the equity language.
02	Mayor Nice	18	Page 18, Who is most vulnerable?: Again, this statement doesn't speak to the vulnerabilities of the frontline communities that this CAP might directly and negatively impact. What are we saying to the communities that house PSE's coal-fired plants? What are we saying to low-income individuals that proposed CAP strategies could negatively impact? I'm generally confused by the equity language that is trying to attach to an empirically driven CAP. We are saying that climate change has disparate impacts while ignoring that the CAP might have those same impacts. Again, we need to understand the intent of the equity language and how it has a role in the CAP strategies being assessed and potentially implemented at a future date. What is the equity lens for CAP implementation?	Staff is seeking direction from the City Council on the equity language revisions.  In CAP's from other communities, the cost or health impacts of implementing proposed GHG reduction and climate resiliency measures are often mitigated using social service programs, adaptation grants, or full cost-coverage.  For instance, Issaquah's CAP included an energy efficiency incentive program with free services for low-income residents: <i>BE1.1: Develop energy efficiency outreach and incentive programs for residents and businesses, including targeted campaigns to contractors and the public, focused on specific retrofits (e.g., weatherization, energy efficient appliances, LED lighting). Develop free home energy audits and upgrade programs for income-eligible residents.  In the case of PSE's power supply, state law (CETA, passed in 2019) already requires it to cease delivery of coal-fired power by 2025, and includes financial provisions for workforce transition and community impacts.</i>

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
03	Councilmember Reynolds	30	TR 2.4 on gas leaf blowers should be a requirement.	Staff assumes this is a request for a text revision and will seek direction from the majority of the City Council on this requested change.
04	Mayor Nice	38	Add a new bullet to "Implementation Plan" under the sub-heading "MONITORING, EVALUATING, & REPORTING," which addresses per capita emissions.	Add a bullet as follows: "Report communitywide GHG emissions on a gross and per-capital adjusted basis as compared to a 2007 baseline."  Staff will also modify the graph on page 19 to include a depiction of percapital emissions data (currently found in the City's GHG Report)
Part B:	Suggestions/feed	back fro	m the community for City Council discussion	
05	Public	8	Finalizing Transportation targets to use either K4C or PSRC numbers.	Staff recommend sticking with the more aspirational K4C targets that the City has endorsed via its ongoing K4C Commitments, but to include a footnote detailing that recent PSRC modeling indicates there may not be enough tools currently under its control to achieve the targeted levels of VMT reduction in 2030 nor in 2050. For example, some 2022 PSRC research indicates that a road usage charge (which would be imposed by the State Legislature, not PSRC) may be necessary to achieve sufficient driving reductions and higher use of transit. These discussions are ongoing.
06	Public	28- 30	Concern of over minimal focus on car alternatives (e.g. bike & scooter, etc). Shouldn't there be a KPI that tracks E-Bike ownership, miles of bike lane? The City's Ped-Bike Plan has been in existence since 1996, but has barely been implemented. We don't need a Ped-Bike Plan rewrite, we just need to elevate bike transportation as a solution in the CAP.	Some other cities, such as Shoreline, use the following KPI's to address this topic: miles of bike lane and sidewalks added; number of bike commuters; average community 'WalkScore.'  E-bike ownership is not a current KPI and would be difficult to measure given the bikes are not (currently) registered.  If the City Council would like to include bike lane miles as a KPI, this could be researched and drafted for the next meeting.

Log #	Name	Page	Comment/Question/Engagement Theme	Staff Response
07	Public	31	Support for CAP focusing more on reducing single use plastic waste	Consider adding an action focused on exploring a single use plastic ban in alignment with upcoming state laws that take effect in 2024.
				Two possible actions to incorporate into the Consumption and Disposal Section on page 31 as specific actions:  - "Prepare for Washington's expanded polystyrene bans by enacting a local single-use plastic ban. Conduct outreach and technical assistance to support implementation.  - Enact ban on select single use plastic containers in alignment with Washington state policy."

01	Mayor Nice	General	Where do we stand with the CAP being population adjusted from 2007 to 2050? The incredible growth the region and the city have experienced and will experience is an overwhelming counterforce to all the CAP hopes to accomplish. I always believe that a successful plan needs to be set up for success. Implementing a CAP based on 2007 base year emissions with a 95% reduction by 2050 without considering the significant population growth is a recipe for failure.	The GHG go modeling cor and PSRC, we growth in the account for account for ethat the "Bus continues to emissions for emissions rewedge) to mime.
02	Council- member Reynolds	General	The big picture observation I have is that the goals here are often not very specific. A lot of goals are some variation on "consider" or "explore" or similar. I do not think these are sufficiently specific to be meaningful. For example, we "considered" these items by putting them in our plan. So are we done? I think we need to think about phrasing these as SMART (specific, measurable, actionable, realistic, and time bound) goals. (I recognize time bound may not be practical, given these will require council action, but maybe we can do SMAR goals.)	Staff advises The language administratio allow. Staff will inco actions as die
03	Council- member Reynolds	General	Can you please provide spreadsheet or similar versions of all matrices so that I can sort and compare and pivot?	Staff will com Council at the descriptions,

# **Exhibit 3 – New Executive Summary**

Exhibit 3
New Section:
Executive Summary

- 2-page summary suggested by Sustainability Committee
- One footnote reference to be slightly modified

City of Mercer Island
CLIMATE ACTION PLAN

#### Mercer Island CAP – New Section: Executive Summary (Draft)

#### **EXECUTIVE SUMMARY**

• Location in CAP: Page 1.

Taking decisive climate action has never been more urgent across the Pacific Northwest. People are already experiencing the economic and health impacts of changes to global climate patterns including rising temperatures, changes in rainfall and river flow, and reduced snowpack. Communities with significant topography like Mercer Island may be at risk for landslides from intense rain events in the winter, in addition to localized flooding. Conversely, hotter, drier summers are making wildfire increasingly likely even west of the Cascade Mountains. Air quality impacts from the persistent smoke plumes generated by regional fires are now all too familiar. <sup>1</sup>

According to experts at the University of Washington's Climate Impacts Group<sup>2</sup> there is no better example of the changes ahead than the unprecedented June 2021 heatwave that swept across the Pacific Northwest, with record-breaking temperatures that climbed 30°F above average. Seattle exceeded 100°F for three days straight, reaching a peak of 108°F, and Portland, Oregon reached 116°F. As one of the least air-conditioned regions in the United States (just 54% of homes in Seattle), the region experienced a

### Mercer Island CAP – New Callout Box: The Cost of Inaction (Draft)

#### "THE COST OF INACTION" CALLOUT BOX

• Location in CAP: Implementation plan introductory sections (p.39)

Failure to act on climate change has implications not only for community health and wellbeing but also to local and global economies.

Delaying action incurs both direct costs from damages caused by climate impacts (such as destruction to infrastructure and increased insurance costs to address increased wildfire and flooding) as well as potential savings missed through advancements to lower cost energy and other technological advancements. Many experts predict that over several decades these costs could far outpace the costs of investing in climate action today. On a global scale, some models indicate, insufficient action could cost \$178 trillion over the next 50 years—a 7.6% cut to global gross domestic product (GDP) in the year 2070 alone.<sup>1</sup>

CLIMATE ACTION PLAN

#### Mercer Island CAP – New Callout Box: Green Power (Draft)

#### **GREEN POWER CALLOUT BOX**

• Location in CAP: Buildings & energy action matrix (p.27)

#### How does the green power program affect emissions?

Residents enrolled in the PSE Green Power Program pay a premium on their energy bill that is then invested in local renewable energy projects that generate clean power sourced by PSE and other regional utilities. Increasing the portion of renewable energy in its energy mix reduces the overall carbon intensity of PSE's electricity for everyone, thereby reducing the emissions generated from powering Mercer Island homes and businesses. The PSE program is monitored and certified by a third party, Green-e, which certifies similar programs nationally. Green-e audits the PSE program annually to ensure that ratepayers' dollars are being invested appropriately.

The individual paying the premium does not receive more electrons of renewable energy than their neighbor. Instead, they are sending a market signal—by paying slightly more now, they are adding more renewable energy in the future to the Pacific Northwest power-supply grid for the benefit of all.

 Council comments

City of Mercer Island
CLIMATE ACTION PLAN

#### Mercer Island CAP - Page 33

#### **Revised Natural Systems Section (Draft)**

Natural systems (e.g., trees, soil) store and capture carbon from the atmosphere and provide important climate resiliency services. For example, natural cooling from tree shade reduces extreme heat stress and decreases energy demand for air conditioning. Conserving valuable water resources also helps ensure that Mercer Island is resilient against future droughts and can maintain a healthy water supply in the years ahead.

**Focus area goal:** Foster climate resilient natural landscapes by protecting vital habitats, ecosystems, <del>and natural resources,</del> and conserving water resources.

Strategy	KPI/Metric	2030 Target	2050 Target
		Maintain current canopy and increase canopy by 5% compared to 2018	Maintain current canopy and increase canopy by 15%
Increase urban tree canopy and green space.	Increase in tree canopy acreage (% of city coverage) and replacement counts <sup>1</sup>	Ensure City's tree replacement ratio for trees lost on public lands is at least 5:1.  Continue to prioritize retention of healthy, mature	All new City plantings are climate-adapted species. Increase tree canopy on private land by 15%.

### **Suggested Motion**

Motion to approve Exhibits 3, 4, 5 & 6.

Item 7.

Other suggestions/feedback and staff recommendations							
1	Public	All	Adjustments to footnotes, typos, grammar.				
2	Public	Gen	Confusion over the importance/relevance of climate resiliency actions that have no or little emissions impact, and why they would be prioritized for near term implementation.				
3	Councilmember Reynolds	V	The definition of EV seems flawed: "Vehicles that derive all or part of their power from electricity." I would say that all vehicles derive part of their power from electricity. After all, all cars have batteries. Though not all are EVs. Perhaps a better definition would be something like: "A vehicle that can be powered by an electric motor that does not utilize fossil fuels for power." Note, this would exclude plug in hybrids that also have internal combustion engines, which seems appropriate in this context. Also, both these definitions use the word "vehicle", which in some cases can include boats, trains, planes, and more. I am not sure that is intended, so perhaps the word vehicle should be reconsidered.

01	Mayor Nice	13	Climate Change and Equity: This paragraph addresses the impacts outside our borders and global inequities, many of which are grounded in economic and political factors. The statement is silent about importing dirty coal-generated electricity or environmentally impactful hydroelectricity and the inequity of a transition to electrification in this region. In contrast, the transition's pollution or environmental impacts are deposited or borne in another community. Should this equity statement be more inclusive of the inequities the CAP targets create or contribute to? Minimally, we need to understand the role of the equity statement in the plan and ensure it serves a purpose that doesn't conflict with the plan. Equity could have a role in each strategy's implementation.

#### **Proposed Revision:**

Climate change disproportionately impacts frontline communities globally, regionally, and locally. Those with the least ability and resources to adapt are likely to fare the worst and already do in many locations. To ensure everyone can participate in CAP actions, the City will consider access through incentives, grants, and other financial support, particularly among low-income and under-resourced residents.

# Exhibit 8.2 – Climate Change & Equity

			•
02	Mayor Nice	18	Page 18, Who is most vulnerable?: Again, this statement doesn't speak to the vulnerabilities of the frontline communities that this CAP might directly and negatively impact. What are we saying to the communities that house PSE's coal-fired plants? What are we saying to low-income individuals that proposed CAP strategies could negatively impact? I'm generally confused by the equity language that is trying to attach to an empirically driven CAP. We are saying that climate change has disparate impacts while ignoring that the CAP might have those same impacts. Again, we need to understand the intent of the equity language and how it has a role in the CAP strategies being assessed and potentially implemented at a future date. What is the equity lens for CAP implementation?

#### **EXECUTIVE SUMMARY**

The purpose of this agenda bill is to present the 30% Design for a new Bike Skills Area facility at Deane's Children's Park (Exhibit 1) and to seek authorization for completing the design and proceeding with construction.

- On July 19, 2022, the City Council appropriated \$75,000 from the Capital Improvement Fund to support the design of a new Bike Skills Area facility at Deane's Children's Park (AB 6120).
- The City retained American Ramp Company to develop the 30% design, which was informed by community feedback gathered through two community meetings, two online surveys, three Parks & Recreation Commission meetings, and Let's Talk.
- The Parks & Recreation Commission approved the 30% design on February 2, 2023. On March, 2, 2023, the PRC endorsed the west trail as the preferred option to access the Bike Skills Area.
- The City Council approved a \$302,500 project budget in the 2023-2024 Capital Improvement Program
  to construct the new bike skills area (PA0165). Staff anticipate construction will be completed Q3 of
  2023.
- On Tuesday, staff will seek the City Council's approval of the 30% design and authorization to complete the design and proceed with construction.

Page 1

#### **BACKGROUND**

The Bike Skills Area (BSA), formerly known as the BMX park, was originally created by neighborhood riders in the 1970s in the Upper Luther Burbank Park area. Over the years, increased use and unauthorized expansion of the facility caused damage and degradation to the surrounding hillsides and vegetation. The City closed the BSA in October 2021 to restore vegetation and evaluate whether Upper Luther Burbank Park could safely and sustainably serve as a BSA location.

Through July 2022 staff and the Parks & Recreation Commission (PRC) engaged the community in determining the best path forward for a BSA facility. The City completed a site assessment of the Upper Luther Burbank Park area, and the community provided input via an active Let's Talk page, two community surveys, a public meeting, and other methods. After discussing the issue over the course of three regular PRC meetings and several subcommittee meetings, the PRC recommended that Deane's Children's Park be selected as the site for a new BSA facility.

On July 19, 2022, the City Council accepted the PRC's recommendation and appropriated \$75,000 from the Capital Improvement Fund to design a new BSA facility at Deane's. (More background details provided in <u>AB 6120</u> and on <u>Let's Talk</u>.)

#### **ISSUE/DISCUSSION**

In October 2022, American Ramp Company was retained to lead the public engagement process and develop the 30% design for a new BSA facility at Deane's Children's Park. Community members were invited to provide feedback throughout the 30% design process through a variety of channels, including:

- Two digital community surveys (369 total responses)
- One on-site community meeting (50+ participants)
- One virtual community meeting (26 participants)
- Let's Talk (2,200 total page visits, October 2022-present)

A summary of community outreach methods and findings is provided as Exhibit 2.

#### PARKS & RECREATION COMMISSION RECOMMENDATION

The PRC discussed the 30% design for a BSA over three meetings, paying close attention to how the design would mitigate impacts on trees and vegetation; prevent park user conflicts and trail congestion in Island Crest Park and surrounding neighborhoods; and, provide rider and spectator safety through a mix of built features, signage, and education. On February 2, 2023, the PRC received the final draft of the 30% design and voted to recommend (3-2, 2 absences) the concept to the City Council for approval.

At the March 2, 2020 PRC meeting, the Commission voted to endorse the west trail as the preferred access to the Bike Skills Area.

On Tuesday, staff will present the recommended 30% design to the City Council and seek authorization to complete the project with construction anticipated later this summer/fall.

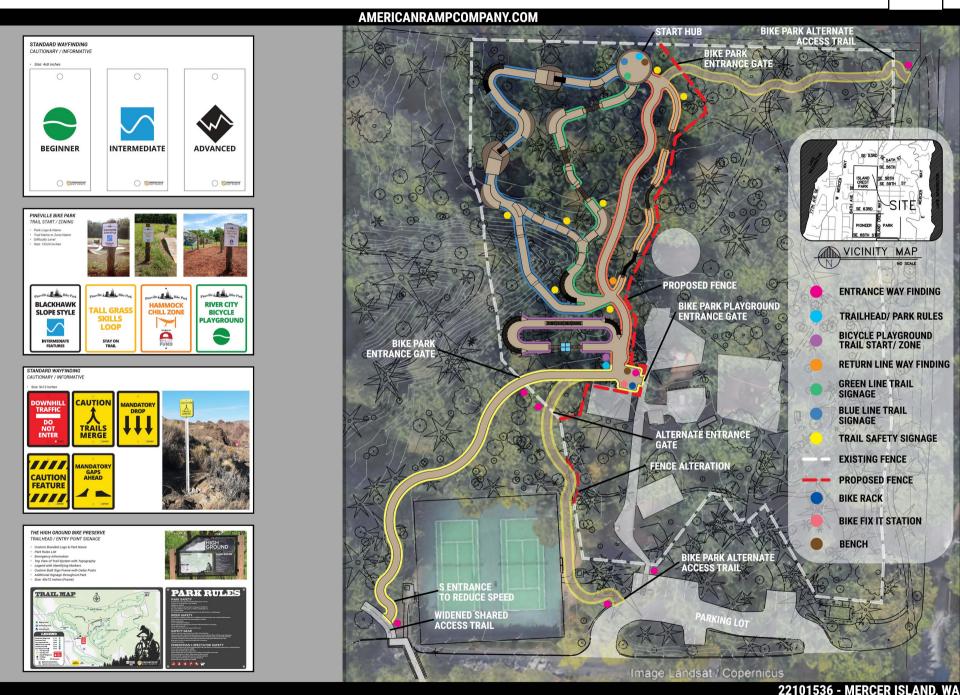

#### **NEXT STEPS**

During the next stages of the design process, a few elements will continue to be studied and fine-tuned. These include selecting the preferred location for the BSA entrance path and identifying additional measures to mitigate user conflicts on the surrounding trails in Island Crest Park. Staff will continue to engage the community in resolving these design elements and will publish future opportunities to comment on Let's Talk. This project is tentatively scheduled to commence construction in late summer/early fall 2023. The design team is also identifying ways to engage community volunteers to assist with building elements of the final design.

#### **RECOMMENDED ACTION**

Approve the 30% design of the Bike Skills Area at Deane's Children's Park and authorize staff to complete the project.

Deane's Children's Park - Bike Skills Area Summary of Outreach

AB 6236: Bike Skills Area 30% Design
City Council | March 7, 2023

# BSA Background and Transition to Deane's Children's Park

- October 2021: BSA in Upper Luther Burbank Park closed
- October 2021-July 2022: Community engagement and further study to identify path forward for a BSA facility
  - o Conducted site assessment of Upper Luther Burbank Park
  - Collected community input via Let's Talk, two community surveys, a public meeting, and other methods
  - PRC discussed during 3 board meetings/several subcommittee meetings
- July 19, 2022: City Council accepted PRC's recommendation to locate a new BSA at Deane's Children's Park and appropriated \$75k from the Capital Improvement Fund to begin design.

# Community Outreach Activities

- Let's Talk: 2,200 visits
- 2 online surveys: 369 responses
- 1 in-person community meeting: 50+ participants
- 1 virtual community meeting: 26 participants
- 3 PRC meetings: 16 public appearances

# Community Outreach Methods

Let's Talk

# Themes of Community Outreach

- Jumps and other features Interest in mix of wood and dirt features, with preference for dirt features and intermediate jumps
- Safety and access Interest in mitigating user conflicts on the surrounding trails in ICP and incorporating safety measures such as signage, fencing, and opportunities for training/education on shared-use spaces
- Trees and vegetation Interest in mitigating impacts to existing trees and vegetation, including providing opportunities for restoration

126

### PRC Discussion

- February 2: Recommended the 30% design
- March 2: Endorsed the west trail as the preferred entrance for the BSA

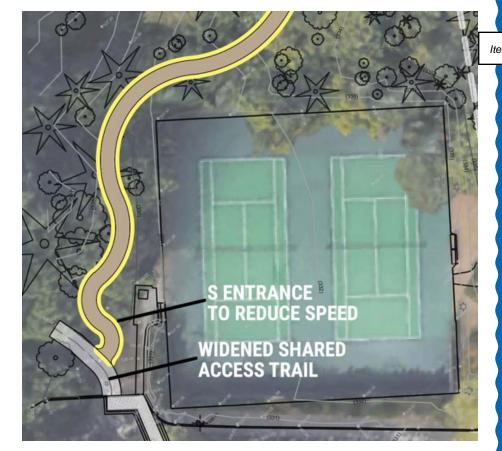

## Entrance Examples

- Walking and bike path lanes can be divided to prevent riders from hopping the path using a variety of methods, including:
  - Material changes
  - Physical dividers
  - Signage

# Integrating Restoration

- Design minimizes impact to trees
- Current site has little or no forest understory
- Areas between jump lines are ripe for restoration!
- Following course construction, initial restoration tasks: soil improvement & plant installation
- Focus on low growing shrubs and young trees to preserve sight lines through BSA
- Opportunities for community events: planting, mulching, and maintaining vegetation

#### Item 8.

## Next Steps

- Work with user groups regarding surrounding trail management, wooden features, and other small design elements.
  - Neighbors of Island Crest Park/Deane's Children's Park
  - Mercer Island Mountain Biking Team
  - o Evergreen Mountain Bike Alliance
  - o Others as needed
- Permitting (including SEPA requirements)
- Finalize design and proceed with construction
  - Project in approved 2023-2024 CIP
  - Parks Levy funds are not being used for this project

#### tem 8.

### Recommended Action

 Approve the 30% design of the Bike Skills Area at Deane's Children's Park and authorize staff to complete the project.

#### **EXECUTIVE SUMMARY**

The purpose of this agenda bill is to approve talking points related to SB 5466, a bill related to Transit Oriented Development.

- The 2023 Washington State Legislature Regular Session began in January 2023 and is scheduled to end April 23, 2023.
- The City Council approved the 2023 Legislative Priorities, which serve as a guide for lobbying efforts. The legislative priorities were recently amended to reflect a change in a grant ranking, (see Exhibit 1).
- This year's state legislative session has seen an unprecedented number of consequential bills brought forward, especially related to housing and land use. The City has been actively engaged with legislators on these matters. One such bill, SB 5466, which relates to Transit Oriented Development, has passed the Senate and will be under consideration in the House.
- City staff are seeking approval of talking points related to SB 5466 for use in future communications with legislators, lobbyists, the Association of Washington Cities, and others, (See Exhibit 2).

Page 1

The City Council recently approved a letter opposing HB 1110, a bill regarding increasing middle
housing in areas traditionally dedicated to single-family detached housing, and the rationale for the
opposition, (see Exhibit 3 and AB 6220).

#### **BACKGROUND**

On February 7, 2023, the City Council adopted an updated version of the City's legislative priorities for the 2023 State legislative session. The legislative priorities were recently amended to reflect a change in a grant ranking for Luther Burbank Park, (see Exhibit 1). The City is focused on five legislative priorities in 2023:

- Funding for operations, basic infrastructure, and capital projects
- Support for mental and behavioral health services
- Policing for a safe Mercer Island
- Support for housing availability
- Preserving and protecting the environment.

The City is supported by contract lobbyists, Federici, Esser & Gallagher (see AB 6114).

This year's state legislative session has seen an unprecedented number of consequential bills brought forward, especially related to housing and land use. The City of Mercer Island has many concerns about the consequence of these housing bills if they are passed. The City Council and City staff, in coordination with the City's contract lobbyists, are in constant communication with the City's legislative representatives on these bills and other matters impacting Mercer Island.

At the February 7, 2023 City Council meeting, the Council approved a letter opposing HB 1110 (AB 6220), regarding increasing middle housing in areas traditionally dedicated to single-family detached housing, as explained in the approved letter. The City has been actively advocating opposition to this bill through lobbying efforts and engagement with legislators, lobbyists, other cities, and the Association of Washington Cities.

The tenets included in the City's letter opposing HB 1110 also apply to HB 1245/SB 5364. These bills, if passed, would mandate code revisions allowing the splitting of residential lots statewide. In short, a property owner could split their lot in two as long as the new lot was at least 2,000 square feet, allowing a second home to be built on the new lot.

The City is concerned about the "compounding effect" if multiple housing bills are passed. For example, the "lot splitting" bills, combined with HB 1110, could result in up to 12 units constructed on what is currently a single-family zoned lot on Mercer Island.

SB 5466, the "Transit-Oriented Development (TOD)" bill is another housing bill that recently passed off the Senate floor, although the mechanism for accommodating additional density is different than the other housing bills. The City staff, in consultation with the City's lobbyists and Council leadership recommend the City Council take a position to support SB 5466, with changes as described in Exhibit 2.

#### **ISSUE/DISCUSSION**

#### What is SB 5466 and Transit-Oriented Development?

Transit-Oriented Development, or TOD, is a planning concept of concentrating growth around existing and future high-capacity transit resources.

SB 5466, as currently written, would create flexible standards for cities to allow mid-sized apartment buildings, office and commercial space, and retail within three-quarters of a mile walking distance of high-capacity transit stops, and larger buildings within a quarter-mile walking distance of light rail stations. On Mercer Island the future Sound Transit light rail station would be the only trigger for these standards.

The bill uses mandated standards around floor-area-ratio, or FAR, to achieve this growth. FAR is the total floor area of a building divided by the area of the parcel of land it is built on. A one-story building that completely covers its lot has a FAR of one. A four-story building that only covers half of its lot has a FAR of two. The higher the FAR, generally the more development capacity. Mercer Island now uses FAR as the regulatory standard in Town Center for street level commercial requirements.

SB 5466 would generally require a FAR of 6.0 around a quarter-mile walking distance from the light rail station, and a FAR of 4.0 between a quarter mile and three quarter-mile walking distance from the light rail station. The bill gives cities the flexibility to reduce the building intensity in some areas within the TOD area as long as density is increased in other areas to maintain the FAR at or above the minimum requirement.

The bill provides incentives for housing built to be affordable, and generally gives flexibility to cities to tailor affordability requirements to their specific needs as detailed in HB 1220 (2021).

Additional details of how the bill would affect Mercer Island and other provisions of the bill will be presented during the City Council meeting.

#### Why is Transit-Oriented Development and this Bill Potentially Appropriate for Mercer Island?

Concentrating growth around high-capacity transit leverages the region's billions of dollars of investment in transportation infrastructure to improve mobility and minimize impacts on the environment.

This bill is also in line with the goals of <u>Puget Sound Regional Council's VISION 2050</u>. VISION 2050 incorporates a strong focus on locating growth near current and future high-capacity transit facilities, with a goal for 65% of the region's population growth and 75% of the region's employment growth to be in regional growth centers and areas within walking distance of high-capacity transit.

#### City Talking Points on SB 5466

City staff are seeking approval of the talking points on SB 5466 (see Exhibit 2). The proposed talking points include recommended changes to the bill language related to increased flexibility on the placement of the TOD area and removal of restrictions on requiring parking. Council leadership, City staff, and the City's lobbyists will use these talking points to push for needed changes in the bill and to demonstrate the City's commitment to reasonable housing affordability solutions while continuing to oppose bills that would be damaging to the Mercer Island community.

#### **NEXT STEPS**

The approved talking points related to SB 5466 will be used for future communications with legislators, lobbyists, the Association of Washington Cities, and others.

#### **RECOMMENDED ACTION**

Approve proposed talking points on SB 5466 as presented in Exhibit 2 of AB 6243.

### CITY OF MERCER ISLAND 2023 State Legislative Priorities

#### Funding for Operations, Basic Infrastructure, and Capital Projects

The City supports legislation that provides funding to support city operations and to finance basic infrastructure such as water, sewer, stormwater, parks, transportation, and green infrastructure projects. Priorities include:

- a. Fully funding the **Public Works Assistance Account** and refraining from fund transfers or diversions.
- b. Supporting the once in a generation **\$7.5 million Luther Burbank Park Waterfront and Dock Replacement Project** by fully funding the following grant programs:
  - Washington Wildlife and Recreation Program (WWRP) Water Access grant: \$1.5 million funding request, project is ranked 7 out of 10.
  - Boating Facilities Program (BFP): \$1 million funding request, project is ranked 4 out of 14.
  - Aquatic Lands Enhancement Account (ALEA) grant: \$500,000, project is ranked 2 out of 4.
- c. Supporting the **\$2 million Luther Burbank Park Boiler Building Renovation Project** by fully funding the Heritage Capital Grant Program: \$500,000 funding request, project ranked 22 out of 30.

#### **Support for Mental and Behavioral Health Services**

The City is committed to providing access to quality mental and behavioral health services through the Youth & Family Services Department. Continued state funding is needed to help communities provide options for individuals suffering from behavioral health issues. Priorities include:

- Funding to expand and enhance community-based behavioral health services, including mental health, substance use disorder, and dual diagnosis treatment facilities.
- Supporting resources for **certification and training to increase the number of behavioral health professionals** available to the community.

#### Policing for a Safe Mercer Island

The City encourages legislation and resources to ensure a safe community for residents, businesses, and visitors. Priorities include:

- Supporting clarification around the ability for law enforcement to conduct effective and safe vehicle pursuits using a reasonable suspicion standard in specific circumstances when there is an immediate threat to public safety.
- Requesting clarification around the crime of possessing a controlled substance so that individuals, law enforcement, and treatment providers can respond appropriately.
- The City of Mercer Island State-certified Marine Patrol Unit was founded in 1982 and provides marine patrol services to Medina, Bellevue, Renton, Yarrow Point, and Hunts Point for their water-based services with just three vessels. Two of the vessels are near the end of their useful life and the City is seeking funding for the \$1.1 million in estimated replacement costs.

#### **Support for Housing Availability**

The City supports a proactive, collaborative, and flexible approach that creates new tools, incentives, and revenues that cities can use to help increase housing supply and address affordability. Priorities include:

- The City supports **solutions that enhance already successful state and regional programs** such as *A Regional Coalition for Housing (ARCH)*, serving cities in east King County since 1992.
- The City encourages the legislature to **review the impacts of E2SHB 1220 in collaboration with local jurisdictions** to ensure the legislation will produce housing for all income levels.

#### **Preserving and Protecting the Environment**

It is essential to preserve and protect the environment today and for future generations with equity in mind. The City encourages legislation, partnerships, and funding that incentivizes and supports clean energy, carbon reduction and the implementation of potential climate action plan programs, including but not limited to heat pump adoption and electric vehicle charging infrastructure.

AB 6243 | Exhibit 1 | Page 5

#### **City Council Approved Talking Points on SB 5466**

#### Seeking changes to SB 5466 (Transit-Oriented Development)

- Mercer Island is generally supportive of higher density housing with affordability requirements
  around existing and future high-capacity transit. Concentrating growth around transit leverages the
  region's billions of dollars of investment in transportation infrastructure to improve mobility and
  minimize impacts on the environment.
- Mercer Island believes this bill is in line with the goals of Puget Sound Regional Council's VISION 2050. VISION 2050 incorporates a strong focus on locating growth near current and future high-capacity transit facilities, with a goal for 65% of the region's population growth and 75% of the region's employment growth to be in regional growth centers and areas within walking distance of high-capacity transit.
- Mercer Island is seeking several changes to this bill before we can fully endorse and support this bill.
   The bill should include increased flexibility on the placement of the Transit-Oriented Development (TOD) area and removal of restrictions on requiring parking.
- The City is concerned with the inclusion of "Frequent Bus Stops" as a trigger for a TOD area. While it is not anticipated that this would affect Mercer Island, it is bad policy to use a specific bus frequency as a sole measure for increasing development capacity.

#### Preserve ability of cities to regulate parking

- The bill should remove the preemption of city's ability to regulate parking.
- Even near high-capacity transit, most Mercer Island households will continue to own and operate cars. The City must be able to ensure new development provides enough off-street parking.
- Otherwise, Mercer Island will be left with an expensive problem to solve -- a parking shortage, borne by regulatory overreach that fails to acknowledge the unique circumstances of each community.
- Mercer Island is currently undergoing a town center parking study that intends to optimize the
  management and regulation of existing and future parking. This data-driven approach, tailored to
  the unique needs of the island, is better suited to addressing the problem of out-sized parking
  requirements.

#### Increased flexibility on the placement of the TOD area

- The new allowance for FAR averaging is an important addition providing much needed flexibility within the designated station areas/hubs.
- The bill should provide cities the flexibility to apply the additional density in a configuration other than a circle or walkshed centered on a station. Geographic constraints, infrastructure capacity and other contextual factors should be considered in establishing the boundaries for station areas and hubs. For example, a large portion of the ¾ mile circle around Mercer Island's station falls in Lake Washington.
  - The most recent amended bill attempted to address this issue, but we believe further clarification is needed. Current text says a city can "adopt a station hub variance, but only after consultation with and approval by WSDOT" (Section 5, subsection 30 and 31). "Variance" is not defined, neither is the criteria WSDOT would use to make a decision on a variance application.

- O We would ask for clarification of the language as follows "A city planning under RCW 36.70A.040 may adopt a station area variance, but only after consultation with and approval by the WSDOT. A station area variance is used to approve an alternate station area and/or station hub boundaries. The modified station area and station hub must contain at least the same development capacity as the development capacity contained within the area that is a ¾ mile walking distance from the transit station and ¼ mile walking distance from the station, respectively. However, the station area and station hub may be configured to address geographic constraints, infrastructure capacity limitations, and other local considerations to the extent that no portion of the station area is located more than 1 mile from the transit station.
- Specific to Mercer Island, we would prefer the TOD area to be focused within the existing Town Center and multifamily zones rather than a broad circle around the light rail station. This change would not reduce the intended increase in development capacity, rather it would focus it in the area already served by the infrastructure and amenities necessary for higher density development.

#### **February 9, 2023**

Representative Tana Senn and Representative My-Linh Thai Washington State House of Representatives PO Box 40600 Olympia, WA 98504

Via email

#### Dear Representative Tana Senn and Representative My-Linh Thai:

We write today to express our opposition to HB 1110 and urge you to vote "No" on this bill. HB 1110, if approved as currently amended, will authorize the development of at least four units **on all residential lots on Mercer Island**, or up to six units if two are affordable. The bill language further authorizes the development of up to six units within one half-mile of a major transit stop or community amenity (schools or public parks). This bill will not produce any meaningful amount of affordable housing, it fails to provide the resources and tools needed to plan for and address critical infrastructure needs, and by mandating one-size-fits-all regulations, usurps the long-held collaborative planning approach undertaken by counties and cities under the Growth Management Act.

#### HB 1110 Fails to Meet 2021 Legislative Mandate to Plan for Affordable Housing

HB 1110, similar to legislation proposed last legislative session, is being marketed as an affordable housing bill to address the "missing middle." This is a misnomer as the bill will produce almost exclusively market-rate housing. This means, especially in Mercer Island, that housing produced under this bill will be out of reach for low-and moderate-income families.

More specifically, HB 1110 fails to tie back to HB 1220, a statewide measure passed in 2021 mandating that cities plan for and accommodate affordable housing across a range of income bands. Nearly two years later, cities are still waiting on final direction from the Department of Commerce to begin their work implementing this legislation. The delays in implementation, though no fault of the cities, means that critical planning work needed to implement this affordable housing legislation at the local level will not be in place ahead of the passage of this market-rate housing bill. Consequently, the "supply" created under HB 1110 will likely be all taken up by market rate housing by the time affordable housing policies are implemented and the funding to construct affordable housing becomes available.

If the legislature stands by the affordable housing goals created in 2021, <u>all housing legislation</u> must directly tie back to the affordable housing target mandates prescribed by HB 1220, up to and including allowing cities to require that any up zoning of single-family zones shall include affordable housing.

#### HB 1110 Fails to Provide Resources to Plan for and Construct Critical Infrastructure

The upzoning of all single-family zones will force the City into an expensive and protracted planning process to study and right size infrastructure densities far beyond anything contemplated. The bill has no funding for these impacts, meaning the cost would fall on local taxpayers throughout Washington, as cities face significant financial challenges in the near future.

Much of the Mercer Island sewer infrastructure was constructed in the late 1950's and early 1960's. The City's system is complex, unique to the Island's geography, and requires the use of a Lakeline System and 17 pump stations that convey flow around the perimeter of the island.

The Mercer Island General Sewer Plan was updated in 2018 to accommodate the City's anticipated growth and was based on the 2015 Comprehensive Plan. The unplanned housing sprawl contemplated in HB 1110 would be unpredictable and likely impossible to model.

Other utility infrastructure impacts may result from this legislation, including water utility infrastructure issues, water storage capacity issues, and fire flow issues. Stormwater concerns are also anticipated.

Under HB 1110 Mercer Island will be required to plan to provide infrastructure for all residential lots (more than 7,000), which will require multiple studies, modeling, significant work for an already strained city staff, and at a significant cost to the City.

#### **HB 1110 is a One Size Fits All Regulatory Overreach**

HB 1110 places unworkable regulatory conditions on cities. Using parking as an example, cities will be prohibited from requiring off-street parking for housing units built within one half-mile of a transit stop.

A typical Mercer Island single-family lot developed under HB 1110 with six units will have anticipated demand of six to twelve vehicles, depending on the size of the units developed.

Fourteen miles of the Mercer Island perimeter is almost exclusively private drives, shared among many lot owners, with little or no opportunity for on-street parking due to steep hills and other natural impediments. Where will homeowners park?

It appears that cities will be left to problem solve and fund a parking shortage, borne by a regulatory process that overreaches and fails to acknowledge the unique circumstances of each community. The Growth Management Act (GMA) intends for local jurisdictions to

plan for, and within their communities on a neighborhood level, to accommodate unique circumstances.

#### HB 1110 Removes the Ability of Cities and Counties to Carefully Steward Growth

Finally, there are longstanding processes in place to collaboratively plan for and accommodate growth, guided by the framework of the GMA. In March 2022, Mercer Island completed a multi-year, county-wide planning process to update King County Countywide Planning Policies, including adopting revised housing and job growth targets. Mercer Island has consistently delivered net new housing units on pace with long-term housing targets adopted since the inception of the GMA.

Currently, the City is working on its Comprehensive Plan periodic update, required by the GMA to be completed by December 2024. Concurrently, the City is also planning for the affordable housing and racially disparate impact requirements prescribed by HB 1220. This bill already has missing middle-housing requirements, which would allow cities to identify and zone areas with available infrastructure capacity and transit access without competing with market-rate housing.

HB 1110 mandates widespread market rate housing sprawl and completely disregards the long-held collaborative planning framework set forth by the GMA while creating yet another unexpected multi-year planning exercise for Washington cities.

#### In Closing

As we always have been, the City of Mercer Island remains committed to sustainable and effective growth management, both for our community and our region. We understand that there is a lack of housing at all levels, and we are committed to working on solutions to address this issue. These efforts are best done at the local level and in collaboration with regional and statewide stakeholders, under the guidance of the Growth Management Act—a comprehensive planning framework. Washington is a diverse state, in many ways, and a one size fits all mandate is simply unlikely to yield positive results for Washingtonians.

Sincerely,

Salim Nice

Mayor

CC Mercer Island City Council

AB 6243: Approve Talking Points on SB 5466 Related to Transit Oriented Development

March 7, 2023

#### Overview

- Update on HB 1110 Missing Middle Housing
- Overview of HB 1245 / SB 5364 Lot Splitting Bills
- Overview of SB 5466 Transit Oriented Development Bill
- Review and approve talking points related to SB 5466

## City Legislative Session Strategy

- The State legislative session has seen an unprecedented number of consequential bills brought forward, especially related to housing and land use. Most of these bills are still "alive."
- The City has significant concerns on many of the housing bills.
- City remains opposed to HB 1110 (middle housing) and HB 1245 (lot splitting).
- There are also concerns about the "compounding effect" if multiple housing bills are passed.

## HB 1110 Update – Missing Middle

- Amended version of HB 1110 passed the House last night.
- The bill as currently written provides multiple options for Mercer Island to be in compliance, each with various trade-offs.
- Added option for Mercer Island to allow three units per lot instead of four. Six units allowed within  $\frac{1}{2}$  mile of transit. Additional fourth unit allowed on all lots if affordable.
- Added option for Mercer Island to only apply the density requirements to 75% of the lots in the city if certain requirements are met. The 25% of lots excluded from density changes must also meet certain requirements.

## HB 1245/SB 5346 Lot Splitting

- HB 1245 requires city's to allow for the splitting of a residential lot into two lots, if certain conditions are met.
- Resulting lots must be at least 2,000 square feet, meet certain
   City regulations, and may not be split again.
- HB 1245 places some restrictions on City's ability to regulate parking, frontage, and rights-of-way.
- HB 1245 passed House floor, Senate version (SB 5346) appears unlikely to make it to floor vote by cutoff.

## SB 5466 – Transit Oriented Development Bill

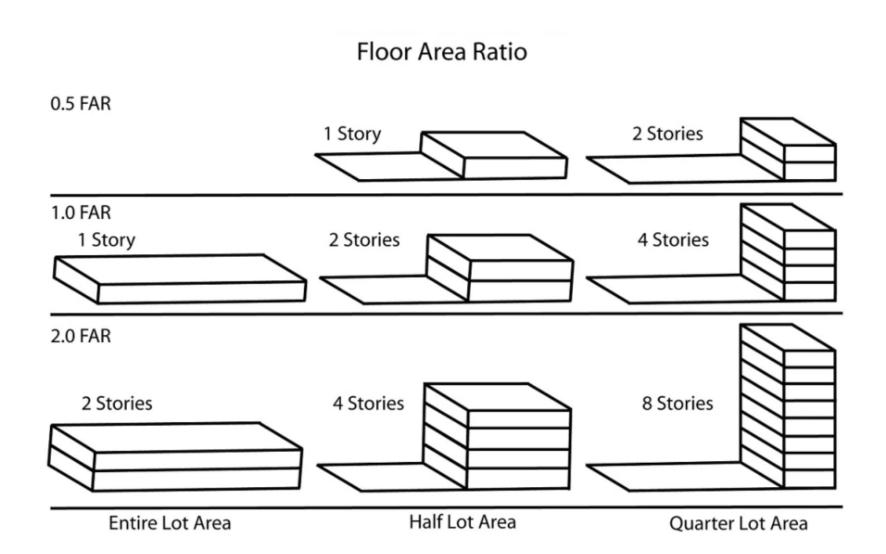

- SB 5466, the "Transit-Oriented Development (TOD)" bill is another housing bill that recently passed off the Senate floor.
- The City staff, in consultation with the City's lobbyists and Council leadership recommend the City Council take a position to support SB 5466, with changes as described in this presentation and the proposed talking points

- SB 5466, as currently written, requires cities to allow additional development, such as apartments buildings, office, and commercial space, and retail, by high-capacity transit, while giving cities some flexibility on how to implement these standards
- These standards would be mandated within three-quarters of a mile walking distance of high-capacity transit stops, with larger buildings allowed within a quarter-mile walking distance.
- On Mercer Island the future Sound Transit light rail station would be the only trigger for these standards.

- The bill uses mandated standards around floor-area-ratio, or FAR, to achieve this growth.
- Mercer Island already uses FAR in the Town Center's commercial development regulations.
- FAR is the total floor area of a building divided by the area of the parcel of land it's built on.
- For example, a one-story building that completely covers its lot has a FAR of one. A four-story building that only covers half of its lot has a FAR of two.
- The higher the FAR, the more development capacity

## FAR illustration

- SB 5466 requires a FAR of 6.0 within a quarter-mile walking distance from the light rail station, and a FAR of 4.0 between a quarter-mile and three quarter-mile walking distance from the light rail station.
- For example, a FAR of 6.0 would result in a building with a minimum of 6 stories if entire lot is used for each floor.
- The bill mandates city codes allow this level of FAR, but smaller buildings (lower FAR) could still be built.
- The current bill language <u>does not</u> mandate the type of development (housing vs offices vs retail).
- Flexibility to reduce FAR in some areas if FAR is increased equally in others (FAR averaging).

- SB 5466 provides incentives for building affordable housing and homeownership, 3 bedroom+ homes, childcare, and for small businesses.
- The bill language is generally, in line with HB 1220 (2021) requirements around anti-displacement measures and affordable housing.
- Mechanism for state grants assisting cities with implementation and planning, assistance financing affordable housing projects
- Bill removes ability of city to require parking within TOD area but includes ability for city to apply for exemption.
  - City is seeking changes to bill on this subject.

## Why support this bill?

- If this bill passes, and the other housing bills fail, the City will be required to accommodate additional density in Mercer Island's Town Center area. This is preferred over the other housing bills, which significantly impact single-family zones.
- Bill is in line with goals of Puget Sound Regional Council's VISION 2050. VISION 2050 incorporates a strong focus on locating growth near current and future high-capacity transit facilities

#### Amendments to SB 5466 Still Needed

- The bill should include increased flexibility on the placement of the TOD station area and removal of restrictions on requiring parking.
- Prefer the TOD area be focused within the existing Town Center rather than a broad circle around the light rail station.

# Seeking Council Approval of SB 5466 Talking Points

- Seeking approval of talking points (as opposed to a formal letter) to use in future communications with legislators, lobbyists, AWC, other cities, etc.
- The timing of action on these bills rarely aligns with City Council meetings, hence the reason we are asking City Council review and approval now.
- This bill is likely to see a lot of action in the coming months.
- Support of this bill is conditional on requested changes to the bill language.
- Legislative strategy also includes continued opposition to HB 1110 and HB 1245/SB 5364.

#### **2023 PLANNING SCHEDULE**

Please email the City Manager & City Clerk when an agenda item is added, moved, or removed.
