## ***Budget Message – Fiscal Year 2025–2026***

The Fiscal Year 2025–2026 budget reflects Micanopy’s commitment to fiscal responsibility, community priorities, and long-term sustainability. Guided by our Vision Statement and Guiding Principles, this budget seeks to balance the needs of today while preparing for tomorrow.

Key themes in this year’s budget include:

- **Fiscal Stewardship:** Conservative revenue forecasting, strategic use of reserves, and pursuit of grants ensure a balanced budget that maintains essential services without burdening taxpayers.
- **Investment in Infrastructure:** Capital projects focus on water system improvements, roadway maintenance, and preservation of public facilities. These investments are aligned with our Five-Year Capital Improvement Plan (CIP).
- **Community Character:** Funding is allocated to historic preservation, parks, and beautification efforts that honor Micanopy’s heritage and support our tourism economy.
- **Public Service & Staff Support:** Personnel costs reflect fair wages, benefits, and a continued commitment to training and retention.
- **Resilience & Preparedness:** Resources are dedicated to emergency management planning and environmental stewardship to ensure the town is equipped to meet future challenges.

While revenues show modest growth, we continue to face pressure from rising costs and aging infrastructure. The Town is leveraging grants—including CDBG funding for water meters and State Revolving Fund assistance for water quality projects—to supplement local resources.

This budget is more than a financial document; it is a roadmap for maintaining the quality of life our residents cherish while advancing the long-term vision of Micanopy as a thriving, connected, and resilient community.

Respectfully submitted,

*Sara Samario*

**Water Rate Adjustments**

In October 2024, the Town implemented a 25% increase in water rates while eliminating the 10% utility tax on water. This change was designed to simplify billing and ensure rate revenues are directly reinvested into the water system. For Fiscal Year 2025–2026, an additional **25%** increase is proposed to support ongoing infrastructure improvements, meet regulatory requirements, and maintain reliable water service for our residents.

**Water System Improvements – Funding Update**

In February 2023, the Town secured placement on the Florida Department of Environmental Protection’s Drinking Water State Revolving Fund (DWSRF) priority list for water distribution system upgrades. The initial planning and design phase was approved at \$505,000, with 50% loan forgiveness. American Rescue Plan Act (ARPA) funds were committed as the Town’s local match.

The Town has since submitted a construction application to DWSRF for the filtration system. The construction phase is estimated at \$1,565,000 and will address critical infrastructure needs to improve water quality and service reliability for

**Water Fund – Personnel and Operations**

Personnel expenses in the Water Fund include the full salary of the Deputy Clerk, along with 50% of the salaries for the Public Works Supervisor and the Administrative Assistant. To ensure compliance with regulatory standards and maintain high-quality service, the Town contracts with US Water Services for a licensed water operator to oversee the daily operation and maintenance of the water plant.

**Water Fund – Capital Projects and Financial Outlook**

Capital improvements in the Water Fund are being funded through the American Rescue Plan Act (ARPA), the State Revolving Fund (SRF) programs, and Community Development Block Grant (CDBG). While recent rate adjustments are projected to produce a modest surplus this year, this amount is not sufficient to meet long-term debt service requirements or to establish adequate reserves for future capital replacement.

**Solid Waste Services**

Since 2019, Waste Pro has served as the Town’s contracted solid waste hauler, providing weekly collection of household garbage, recycling, and yard waste. Given the narrow and historic character of many roads in Micanopy, Waste Pro also provides hand collection service in areas where larger trucks with tipper cans cannot operate.
