Hello, my name is Perry Jordan. I've been involved in radio control car racing for a number of years (30+) and traveled all over the country doing what I love. This hobby is a great opportunity for our community to bring families together, meet new people and attract tourism here locally. I've seen racers ages 7 to 70, with disabilities and from all walks of life enjoying the hobby. This is a great family hobby for learning mechanical skills, hand eye development, competitive improvement and flat out fun. I believe this hobby can and will bring enjoyment and recreational fun, not only to our own local community, but will also bring in out of state travelers from all over the region here to enjoy our beautiful town and top notch RC facility. The hobby is growing exponentially across the United States and all over the world and we would love to usher in that growth locally. Myself along with a few other people in this hobby community would be happy and grateful to answer any questions and concerns you might have. We would enjoy to show and demonstrate this family friendly hobby to you. We are looking for a suitable property to build a world class RC facility and bring this hobby to life here in Wyoming.

The committee members will be myself.
