7.14.2025 @ 6:30 – Regular Meeting

### M. ADJOURN

Mayor- Ronald Chapman

Vice Mayor - Michelle Covert

Council Members: David Hempstead, Bernice Kube, Olivia Barrow, Rebecca McGehee,

Vacant

Staff: Nicole Washington, Town Manager, Stephanie Dorman, Town Clerk, Kelly Singletary, Town Treasurer, Robert Sproul, Town Attorney

Town Council meets for its regular session on the second Monday of each month at 6:30 p.m. Persons wishing to be heard or having an item to be placed on the agenda should make their

request to the Clerk of Council by the final Monday of the month preceding the meeting.				

### MINERAL TOWN COUNCIL AGENDA ITEM REPORT Meeting Date:

6.9.2025

**TO: Mineral Town Council** 

FROM:

**SUBJECT: Public Hearing – Real Estate Taxes** 

### **Background:**

Due to assessment increases by the County, the Town must have a Public Hearing because it impacts the amount of tax revenue.

### **Recommended Action:**

Discussion regarding tax rate.

### **Attachments:**

Public Hearing Ad FY26 Fee Structure

Section F, Item 1.

Publisher may wrap or break notice between pages.

Width: 5.54 in., Height: 4.83 in.

### TOWN OF MINERAL NOTICE OF PROPOSED REAL PROPERTY TAX INCREASE

The Town of Mineral proposes to increase property tax levies.

- 1. Assessment Increase: Total assessed value of real property, excluding additional assessments due to new construction or improvements to property, exceeds last year's total assessed value of real property by 4.3 percent.
- 2. Lowered Rate Necessary to Offset Increased Assessment: The tax rate which would levy the same amount of real estate tax as last year, when multiplied by the new total assessed value of real estate with the exclusions mentioned above, would be \$0.197 per \$100 of assessed value. This rate will be known as the "lowered tax rate" or "equalized tax rate."
- 3. Effective Rate Increase: The Town of Mineral proposes to adopt a tax rate of \$0.20 per \$100 of assessed value. The difference between the equalized tax rate and the proposed rate would be \$0.003 per \$100, or 0.03 percent. This difference will be known as the "effective tax rate increase."
  - Individual property taxes may, however, increase at a percentage greater than or less than the above percentage.
- 4. Proposed Total Budget Increase: Based on the maximum proposed real property tax rate and changes in other revenues, the total budget of the Town of Mineral will be more than last year's by 0.5 percent. The Town Manager's proposed Fiscal Year 2026 budget is based on a real property tax rate of \$0.20 per \$100 assessed value.

Pursuant to Va. Code § 58.1-3321, the MINERAL TOWN COUNCIL will hold a public hearing on the proposed real property effective tax rate increase on JUNE 9, 2025 at 6:30 p.m. in the Mineral Town Hall, 312 Mineral Avenue, Mineral, Virginia, 23117, at which time all persons desiring to speak or provided written comments on the matter will be given an opportunity to do so. Said public hearing shall be prior to, and separate and distinct from the public hearing on the FY26 budget. If the public hearing is canceled for any unforeseen reason, the public hearing will be continued to the next Town Council meeting. Any person wishing to comment on the aforementioned matter may appear and be heard. Written comments regarding this item can be submitted at the Town's Offices or to townclerk@ townofmineral.net by 3:00pm on the day of the meeting during which the hearing will be held. Members of the public may access and participate in this hearing virtually by visiting <a href="https://www.townofmineral.com/town-council">https://www.townofmineral.com/town-council</a> and clicking on "Town Council Meeting Minutes and Agenda."

### MINERAL TOWN COUNCIL AGENDA ITEM REPORT Meeting Date:

6.9.2025

**TO: Mineral Town Council** 

FROM: Stephanie Dorman, Clerk

**SUBJECT: Minutes** 

### **Background:**

I have attached multiple meeting minutes for review.

### **Recommended Action:**

Approval or amendment of minutes.

### **Attachments:**

4.29.2025 Minutes 5.7.2025 Minutes 5.12.2025 Minutes 5.21.2025 Minutes

### MINERAL COUNCIL SPECIAL MEETING MINUTES

April 29, 2025 at 6:30 PM 312 Mineral Avenue Mineral Virginia 23117

Phone: 540-894-5100 | townclerk@townofmineral.net

### **B. ROLL CALL**

### **PRESENT**

Ronald Chapman, Mayor

Michelle Covert, Vice Mayor

Bernice Kube (via Zoom)

Olivia Barrow

Rebecca McGehee

**David Hempstead** 

JoAnna Von Arb

### C. PLEDGE OF ALLEGIANCE

All in attendance stood for the Pledge of Allegiance.

### D. NEW BUSINESS

### 1. Discussion regarding water system and solutions.

The Town Manager and Utilities Committee Chair explained the timeline of action once the violation letter was received as well as the corrective process.

The Town Manager asked that Council consider passing a resolution so that staff can work with Louisa County's staff relating to administrative services.

Motion to authorize the Town Manager to draft a resolution connecting town staff with the county staff as needed.

Motion made by Barrow, Seconded by Covert.

Voting Yea: Covert, Barrow, McGehee, Hempstead, Von Arb

Voting Abstaining: Kube

Staff will put out a "Can vs. Cannot" graphic instead of a formal statement.

Council and the Water Superintendent discussed the well status and output.

### 2. Discussion and action regarding Misuse of Authority by a Council Member.

Eric Washington submitted a statement to Council on this matter.

Council discussed if Council Member Hempstead misused his authority by placing a DPOR complaint as David E. Hempstead, Councilman.

Council asked the Town Attorney to provide advise in open session. The Town Attorney provided Council options on how to proceed should they find misuse of authority.

Motion for two resolutions: 1) the Council recognizes that no individual member of this body has the authority on any matter to make a statement on behalf of this Council or the Town without direct prior authorization by vote of this Council; and 2) this Council does not support or claim to be a part of this complaint it was not filed on behalf of the Council and the matter was not voted on and therefore we are actively condemning that.

Motion made by Barrow.

Voting Yea: Covert, Kube, Barrow, McGehee, Von Arb

Voting Nay: Hempstead

Language for these resolutions will be voted on at the May meeting.

### E. ADJOURN

Motion to adjourn.

Motion made by Barrow, Seconded by Covert.

### MINERAL TOWN COUNCIL - BUDGET WORKSHOP MINUTES

May 07, 2025 at 6:30 PM 312 Mineral Avenue Mineral Virginia 23117

Phone: 540-894-5100 | townclerk@townofmineral.net

### A. CALL TO ORDER

### **B. ROLL CALL**

### **PRESENT**

Michelle Covert, Vice Mayor

Olivia Barrow

Rebecca McGehee

JoAnna Von Arb

### **ABSENT**

Ronald Chapman, Mayor

Bernice Kube

**David Hempstead** 

### C. PLEDGE OF ALLEGIANCE

All present stood for the Pledge of Allegiance.

### D. ADOPTION OF AGENDA

Motion to adopt agenda.

Motion made by McGehee, Seconded by Covert.

### **E. OLD BUSINESS**

1. Continued discussion of FY26 Budget

The Town Manager presented a balanced budget for FY26.

Council, the Town Manager, and the Town Treasurer reviewed the budget and discussed line items as needed, mainly funds for the water system.

The Town Manager presented the FY26 fee schedule.

Council, the Town Manager, and the Town Treasurer reviewed the fee structure and analyzed new fees, including the new zoning fees. The changes to the veteran cemetery fees were also taken into consideration.

### F. ADJOURN

Motion to adjourn.

Motion made by Von Arb, Seconded by McGehee.

Voting Yea: Covert, Barrow, McGehee, Von Arb

Council adjourned at 7:34 pm.

### MINERAL COUNCIL MEETING MINUTES

May 12, 2025 at 6:30 PM 312 Mineral Avenue Mineral Virginia 23117

Phone: 540-894-5100 | townclerk@townofmineral.net

### A. CALL TO ORDER

### **B. ROLL CALL**

### **PRESENT**

Ronald Chapman

Michelle Covert

Bernice Kube (via Zoom)

Olivia Barrow

Rebecca McGehee

**David Hempstead** 

JoAnna Von Arb

### C. PLEDGE OF ALLEGIANCE

All in attendance stood for the Pledge of Allegiance.

The Mayor gave two proclamations:

- 1) Proclamation making May 12, 2025 Roy Lee Payne Day
- 2) Proclamation making May 16, 2025 Staff Appreciation Day

The Mayor thanked Hank Staudinger for five years of service to the Town of Mineral.

### D. ADOPTION OF AGENDA

Motion to adopt agenda.

Motion made by Covert, Seconded by Barrow.

Voting Yea: Covert, Kube, Barrow, McGehee, Hempstead, Von Arb

### E. PUBLIC COMMENT

Jen Sorosi - Suggested planting a tree for Roy Lee Payne.

Debbie Moon - Commented regarding the water restrictions.

Becky McGehee - Complemented the Town on a good job at the last meeting.

### F. APPROVAL OF MINUTES

### 1. 4.14.2025 Minutes

Motion to approve minutes as submitted.

Motion made by Covert, Seconded by Von Arb.

Voting Yea: Covert, Kube, Barrow, McGehee, Von Arb

Voting Abstaining: Hempstead

### **G. OLD BUSINESS**

### 1. Bylaws Review

Approval of Bylaws as submitted.

Motion made by Barrow, Seconded by McGehee.

Voting Yea: Covert, Kube, Barrow, McGehee, Von Arb

Voting Nay: Hempstead

### 2. Park Use Policy

The Committee did meet but a policy has not been drafted yet.

### 3. Scheduling Budget Public Hearing

Public Hearing for Budget FY26 will be held on June 2, 2025 @ 6:30 pm.

### 4. Mineral Planning Commission Discussion

Motion to write a proposed censure of Chairman Kube.

Motion made by McGehee, Seconded by Covert.

Voting Yea: Covert, McGehee

Voting Nay: Kube, Barrow, Hempstead, Von Arb

### 5. Discussion regarding amount of MPC members

Motion to reverse action taken on August 12, 2024 allowing seven MPC members.

Motion made by Kube, Seconded by Barrow.

Voting Yea: Covert, Kube, Barrow, McGehee, Hempstead, Von Arb

### 6. Discussion and Action Regarding Misuse of Authority by a Council Member.

### Resolution 2025-12

Council Member Barrow read aloud Resolution 2025-12.

Council took a 15 minute recess. Council Member Kube left the meeting during the recess.

Motion made by Barrow, Seconded by covert.

Voting Yea: Barrow, Covert, McGehee, Von Arb

Noting Nay: Hempstead

### Resolution 2025-13

Council Member Barrow read aloud Resolution 2025-13.

Motion made by Covert, Seconded by Barrow.

Voting Yea: Covert, Barrow, McGehee, Von Arb

Voting Abstaining: Hempstead

### H. NEW BUSINESS

### 1. Recommendation from MPC: Review of documents from Thomas Jefferson Planning District Commission for feedback

The Mayor provided background on what a historic overlay district is.

Council discussed the TJPDC proposal and the cost.

Council would like a historic overlay district, however, they would not like to move forward with the TJPDC proposal at this time.

Council suggests for the Mineral Planning Commission putting together alternative recommendations or this matter can be reviewed again after the water situation has been resolved.

### 2. Recommendation from MPC: Zoning Signage

Council and the Town Manager discussed the need for zoning signage.

This matter was sent back to MPC for the creation of language.

### I. REPORTS

### 1. Town Manager's Report

The Town Manager gave an overview of her report. The Manager's report is attached to this corresponding packet.

### 2. Treasurer's Report & Accounts Paid

The Treasurer's report is attached to this corresponding packet.

### 3. DMV Report

The DMV report is attached to this corresponding packet.

### 4. Committees' Report

### Cemetery:

Signage for the cemetery is wanted.

### **Fire Department:**

New truck should be here by July or August.

### Water:

Asked that individual Council members not reach out to VDH.

### **Economic Development:**

Business Spotlight was cancelled at the last minute for this month. Next month's business spotlight will be the daycare.

### 5. Mayor's Report

The Mayor advocated for fixing the water problem quickly but also correctly.

### 6. Council Comments

**Council Member McGehee:** Read a quote from the Central Virginian regarding the water system stating she felt like it was misleading.

**Council Member Von Arb:** Vocalized the need for transparency. Vice Mayor Covert responded to these concerns.

### J. CALENDAR OF UPCOMING EVENTS

Next Meeting: June 9, 2025

Next Meeting: June 9, 2025

### K. ADJOURN

Motion to adjourn.

Motion made by Barrow, Seconded by McGehee.

### MINERAL COUNCIL SPECIAL MEETING MINUTES

### **Recommended Action:**

### **Attachments:**

Manager's Report VDH Letter Water Main Break – After Actions Royal Well Drilling

Section K, Item 1.

### **Town Council**

### REPORT SUMMARY

Meeting Date: June 9, 2025

**TO: Town of Mineral Council** 

FROM: Nicole Washington, Town Manager

**SUBJECT: Manager Report** 

### **Finance**

1. FY23 Audit – Working with our contact at Brown Edwards on this audit. Our goal is to have this finished in a few months, but they are in audit season and summer.

2. Budget: We are addressing the fund balances, but the bottom line does match.

### Park Update (administrative)

- 1. Luck Field bathrooms Nothing from the LL on bathrooms or the policy.
- 2. Lights for the park working to another quote
- 3. New Park (Old School) The park looks great. The public works division has worked endlessly on getting it cleaned. We had all of the trash hauled away and now it can be enjoyed by the community. We do need to get some signs for the structure for liability purposes: something like "DO NOT CLIMB on STRUCTURE Town of Mineral". I will work on the language with the attorney and get a sign created to post around that structure.

### **Roads**

1. I have looked at public roads vs non-public roads in the Town. I will establish a map that will highlight what roads are public and what roads are considered private town roads. With this I would like to establish a well-guided agenda for addressing roads (what we would like to do) and then work with VDOT on how that happens. This is not a process that will take place in the near future, but it is a item that we need to address as the Town and the County grow with more and more access points in the Town. I will also work with the attorney to establish a more detailed ordinance for the Town's street development.

### Water

1. Well Contractor- The Town was given the green light to use Royall Pump & Well Company, Inc for our well projects. I have been in contact with Mr. Royall and we are setting up a meeting to get started on the first projects. Royall is used by Louisa County for their wells. This partnership will help the Town continue building the bridge with the County of Louisa and the Water Authority. I am hoping the next time we meet I will have even more news to report on our wells.

Section K. Item 1.

### **Town Council**

REPORT SUMMARY

Meeting Date: June 9, 2025

/ -----

2. Water Main Break May 14, 2025 – Louisa County. I received a call from Hank at 7:20 am letting me know that there was a water main break at the authority and they plus us may lose water. We addressed the issue in the office, and put a notice out for water conservation, explaining there was a water main break. I had staff contact the businesses in Town to let them know there was a water break in Louisa, and we may go to a boil water advisory (BWA). Some businesses closed, others stayed open taking precautions from what we know. The Town's tank is not full, and we are receiving all of water from LCWA, because of this we maintained the BWA and followed the actions of LCWA. I stayed in communication with the County Administrator, Hank and VDH (I didn't' not speak to the GM of LCWA until later in the day. We exchanged cell phone numbers to ensure direct communication. However, Pam and I have met a few times and have communicated several times on water information and/or questions. We are continuing to build the relationship between the LCWA and the Town of Mineral). We coordinated our communication with the County to ensure we were putting out the best information and that it was not conflicting. Once the leak was repaired Hunter Martin, our water "operator" (he collects our samples and monitors our consumption through the vault from the authority), pulled samples day one of the break and then day two of the break. Everything came back clear of contamination, and we lifted the BWA, as did the authority. This was a team effort and the staff at the authority along with the staff in the Town did an amazing job in this critical situation. We did get an after-action items report (this is what we are calling it) from VDH Office of Drinking Water (attached). This report talks about the event and how things were handled, then it gives some recommendations by VDH, but in all everything was done very well. A meeting was held to discuss after actions items and communication between all four parties: LCWA (GM, Deputy GM, Communications Liaison, Business Manager, Water Operator, Operations Manager, Field Operators), Louisa County (Chief Hawk, County Administrator, Cindy King for their communication efforts, Deputy County Administrator, Wanda Colvin), Town of Mineral and Town of Louisa. We are working to establish a plan for stronger communication between us; maybe setting up in a conference room so we are all on the same page, possibly using teams as the go to conference room, making sure there is one point of contact for all four parties involved (or three or two depending on the situation). The action items that stemmed from that meeting are Developing EOP (Emergency Operation Procedure), Notification plan for all that are involved in the situation (every situation is different), Contact list for the necessary people to receive firsthand information. This is a great step forward for the Town of Mineral and shows the compassion and support that the Town has from the County and the Water Authority.

During this event I started a Standard Operating Procedure for the Town of Mineral, to capture processes and procedures that we have to take (first steps- Contact Mayor and Utility Chair and council, how to get the word out (make calls to the businesses, post signs, etc). I will add to this SOP some language from the EOP that is coming soon. I will also have a copy of the EOP for the Town, we will need to follow this in certain situations.

### MuniCode

1. The process has started for establish a database with Municode. There are no updates on this, other than we are continuing to work with Cviciplus to give them what they need.

May 9, 2025

Ms. Nicole Washington, Town Manager Town of Mineral PO Box 316 Mineral, Virginia 23117

Re: Exceeding Waterworks Permitted Design Capacity- Clarifications

Dear Ms. Washington:

Per your conversation with Azhar Mirza, District Engineer, on May 7, 2025, the Town reports they did not receive the letter dated February 5, 2025, regarding potential issues with source capacity at the waterworks in a timely manner. Looking at email documentation, it does not appear that an email copy of the letter was sent on February 5, 2025. In addition, this Office has received similar feedback from other waterworks that mail sent through the postal service has arrived several weeks later. Based on this information, the previous date of February 5, 2025, which established when the Town needed to pause approval on water expansion projects, has been modified to March 7, 2025. March 7, 2025, was the date that email communication between this office and the Town clarified the pause on water expansion projects and is the first communication relating to the pause since the February 5, 2025, letter. Please see the modifications to the May 6, 2025, letter to include this revision in date.

We have received some questions about the pause of waterworks expansion and offer this letter to provide some additional clarifications on what is expected.

- 1. Projects approved prior to March 7, 2025, may be completed.
- 2. Existing connections may transfer to new tenants.
- 3. Modifications to existing connections may be conducted including additions to existing
- 4. Routine operations and maintenance activities such as: water meter replacement at existing

- connections, water line repairs and replacement with similar sized piping (like for like), and water line flushing to maintain water quality may continue.
- 5. Construction of private wells to serve new construction are not included in the scope of the February 5, 2025, letter. Those wishing to construct private wells should consult the Town of Mineral for any applicable ordinances and Blue Ridge Health District for private well regulatory requirements. Cross connections between private wells and the municipal water supply must be avoided.
- 6. The pause on water system expansion does not require any increased water conservation efforts such as water restrictions.
- 7. The pause on water system expansion does not prohibit the use of municipal water for fire fighting activities.
- 8. The Town may resume services at existing connections that may have been connected to the water system and using water previously, but were temporarily stopped due to vacancy, billing issues, construction, etc.
- 9. The Town cannot approve projects after March 7, 2025, which may extend new water lines or otherwise expand the water system and increase water demands until additional source capacity is provided and evaluated. This includes the connection of <u>new</u> services after March 7, 2025.

If you have any questions or concerns regarding this matter, please contact Azhar Mirza, District Engineer, at 804-664-4404 or email at Azhar.mirza@vdh.virginia.gov.

Sincerely,

mes Reynolds, PE Field Director

Author: James Reynolds, PE- Field Director, Richmond Field Office

**Date**: May 19, 2025

Incident: Louisa County Water Authority 12-inch Water Main Break (PWSID 2109510)

Date of Incident: May 14, 2025

The Office of Drinking Water, Richmond Field Office, responded to a 12-inch water main break in the Louisa County Water Authority (LCWA) waterworks distribution system on May 14, 2025, which resulted in a Boil Water Advisory (BWA). The BWA was issued on May 14, 2025, and lifted on May 16, 2025.

### Water system general description

Louisa County Water Authority operates a water system that has a permitted capacity of 1 million gallons per day (MGD) and consists of one well source, one surface water treatment plant, one elevated storage tank, one ground storage tank, and distribution system. The water system wholesales water to Town of Louisa (PWSID 2109450) and Town of Mineral (PWSID 2109525).

### **LCWA facilities**

- Permitted capacity 1 MGD (694 gpm)
- One well with a capacity of 23 gallons per minute (gpm) or 33,120 gpd (0.033 MGD)
- One surface water treatment plant with conventional treatment (rapid mix, flocculation, sedimentation filtration) ahead of nanofiltration.
  - o Nanofiltration is used for disinfection byproduct precursor removal.
  - The capacity of the treatment plant is 1.0 MGD (694 gpm)
  - Plant feeds alum, soda ash, lime, gas chlorine for disinfection, fluoride, sodium permanganate
- One elevated atmospheric storage tank with an effective storage capacity of 224,090 gallons (0.22 MG)
- One standpipe type atmospheric storage tank with a reported nominal size of 570,000 gallons (0.57 MG). This standpipe was previously dormant and offline, but has been recently been placed back online

### Town of Louisa facilities

- Permitted capacity 350,000 gpd (0.35 MGD, 243 gpm)
- Two master meter connections to LCWA, all water is purchased from LCWA
- Two elevated storage tanks
  - o Downtown tank- 75,000 gallons (0.075 MG) effective storage capacity
  - Acme tank- 100,000 gallons (0.10 MG) effective storage capacity

### Town of Mineral facilities

- Permitted capacity 120,000 gpd (0.12 MGD, 83 gpm)
- Two drilled wells are listed on the operation permit, however both wells are currently offline due to declining well yields and require rehabilitation or replacement to be placed back online
- One elevated storage tank with an effective storage capacity of 60,000 gallons (0.06 MG)

Figure 1. Map of combined service areas of Town of Louisa (left), LCWA (center), Town of Mineral (right)

### **Timeline**

The following is a timeline of events as observed and reported. Speculation on how break occurred is in the next section:

May 14, 2025 0130- LCWA receives low tank water level alarm. On-call operator begins response, reports to water treatment plant

May 14, 2025 0230- LCWA WTP started, LCWA WTP does not run 24/7

May 14, 2025 0530- LCWA WTP starts a high service pump, observes finished water flow increase and tank level dropping quickly. Operator contacts Water Operations Manager. Water Operations Manager contacts general manager for LCWA and maintenance crew. General Manager attempts to

contact Town of Mineral, but it was before work hours and couldn't reach anyone. Communications between LCWA, Louisa County, Town of Louisa, Town of Mineral occur throughout the day between various parties.

May 14, 2025 0545- LCWA maintenance crew and operations staff look for water main leak

May 14, 2025 0551- Water Operations Manager contacts Richmond Field Office Director. Indicates may lose system pressure due to a break

May 14, 2025 0645- LCWA staff locate leak approximately 0.5 miles west of WTP on Jefferson Highway. Staff put in emergency ticket with Miss Utility to come out and mark water line location. Additional maintenance crews called in to assist with repairs. Equipment staged and ready to go.

The highway is rural with no development on either side of the road and grass shoulders that slope to divert surface water runoff from the road into a vegetated swale. The line is a 12-inch major transmission main that takes water from WTP to the distribution system and is made of ductile iron. The pipe appears to be located near the bottom of the swale. There are no customers between WTP and break site.

Operations indicate that tank level drop over 5 minutes estimates flow through break at around 3,100 gpm. The water treatment plant was also sending about 800 gpm of water through the main, resulting in around 4,000 gpm of water flowing from the main at the time of catastrophic failure.

LCWA staff observe what appears to be tire tracks at location of break on top of the water line. It is thought that someone may have veered off the road overnight but did not have an accident. Rains occurred overnight and saturated soil.

Figure 2. Location of break site

Figure 3. Break site. Appears to be tire tracks over pipe location

May 14, 2025 0700- LCWA issues Boil Water Advisory for its service area. Town of Louisa and Town of Mineral still have water in their tanks and maintaining pressure

May 14, 2025 1043-1110- Low tank level alarm at Town of Louisa Downtown tank. Other Town of Louisa tank levels dropping.

May 14, 2025 1130- Boil Water Advisory expanded to Town of Louisa, Town of Mineral. Anticipate imminent pressure loss to both consecutive systems based on Town of Louisa tank level drop

May 14, 2025 1200- Water main repair completed. Exposed break site shows an approximately 9 foot void around leak location when digging. Water main at break site was cut and replaced. Approximately 15-inch longitudinal split on bottom of excavated pipe observed. Marking of underground utilities took approximately 2-3 hours.

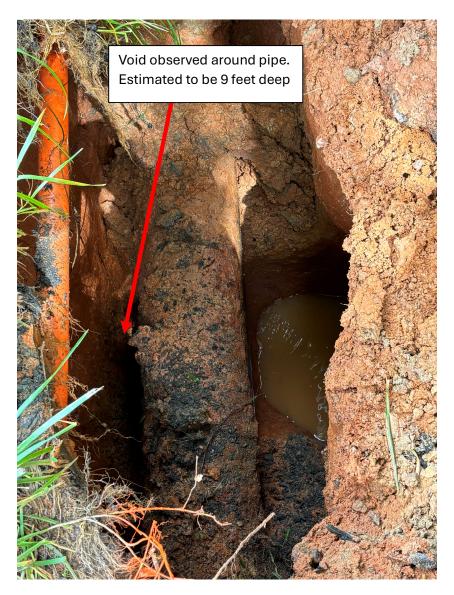

Figure 4. Exposed water main at break site

Figure 5. Excavated and replaced water main break

May 14, 2025 1251- RFO Director talks to Town of Mineral, still maintaining positive pressure. At this time there is possibility that Town of Mineral will not lose pressure if the LCWA WTP starts up and starts sending out water. Mineral has smaller population (300-400) than Town of Louisa and majority of event occurred while people most likely at work which helped maintain tank levels in comparison to Town of Louisa

May 14, 2025 1300- LCWA WTP started back up, begin to fill tanks. Valve off standpipe to allow more water to go to Town of Louisa and Town of Mineral

May 14, 2025 1500- Tanks maintaining level and slowly rising. LCWA begins flushing in preparation of taking first set of bacti samples for LCWA and Town of Louisa.

May 14, 2025 1600- First set of bacti samples collected for LCWA and Town of Louisa. Town of Mineral collects bacti samples in its distribution system

May 15, 2025 0000- All tanks in LCWA and Town of Louisa except for valved off standpipe are completely full

May 15, 2025 Morning-Standpipe valve opened

May 15, 2025 1030-1130- Second set of bacti samples collected in all three waterworks

May 15, 2025 1400- All tanks including standpipe full, LCWA WTP shutdown

May 15, 2025 1600- First set of bacti sample results absent total coliform and E. coli

May 15, 2025 1156- Second set of bacti sample results absent total coliform and E. coli

May 16, 2025 1217- LCWA and Town of Louisa lift Boil Water Advisory. Town of Mineral lifts Boil Water Advisory around the same time

### What Possibly Happened

Based on conversations with LCWA staff and previous technical experience with similar situations, this appears to be a likely way things occurred:

- 1. A small leak has possibly been occurring at the break site for an extended period of time. LCWA reported there were no visible standing water in this location in the days leading up to the event and that they travel past this location frequently. The leak was small enough that it did not appear visible on the surface. This may have primed the soil for further pipe damage by undermining support bedding and allowing pipe to settle in softened soil
- 2. A vehicle runs off the road overnight during rainy conditions. No accident occurred, but tire tracks indicate vehicle could have been directly over water main and appear to be parallel to water main for several feet. This increased stress along the length of the pipe and possibly causing the leak to grow to the point it was observable by dropping tank levels overnight when the plant was offline
- 3. LCWA WTP starts a high service pump which causes an internal surge in water pressure which completes the longitudinal break in the pipe and results in a large main break that began dropping tank levels rapidly. Figure 5 appears to show failure going from inside the pipe outward (internal pressure) vs outside the pipe inward (crushing force).

### Observations

The RFO Director was the primary point of contact throughout the boil water advisory event and observed the following:

- 1. Response to overnight alarm appeared to be quick with plant going from offline to online within an hour of the alarm
- Flow of communications between operator, operations manager, and general manager appeared to be handled appropriately and as soon as large increase in demand and rapid drop in tank levels observed. Operations manager responded and was on site quickly
- 3. Communication to ODW was within 20 minutes of catastrophic failure of main and would meet 2-hour reporting deadlines of new legislation starting July 1, 2025
- 4. Repair was conducted as quickly as possible with crew and equipment staged to act as soon as utilities were marked

- 5. Coordination between Town of Louisa, LCWA, Louisa County, and ODW appeared to be fairly good with several standing meetings and involvement of upper management.
- Coordination between ODW Emergency Preparedness and VDEM appeared to be good with constant communication and advanced planning of bottled water distribution, etc. very early into the event
- 7. Town of Mineral representatives were reported to be in communication with LCWA and Louisa County Administrator throughout the day. A contractor who was on the scene of the repair was also on the Town of Mineral's Utility Committee and provided updates per LCWA. LCWA general manager and Town of Mineral manager have since exchanged cell phone numbers for communication during emergency events. An incident command structure to include the Town of Mineral should be established for use during emergencies. Due to the Town of Mineral maintaining pressure, the coordination was more focused on LCWA and Town of Louisa. Town of Mineral has less experience handling emergency situations and establishing an incident command structure may have allowed them to lean on the expertise of others a little more.
- 8. Town of Mineral indicated some mixed communication between Town and local health department, with Town issuing a boil water advisory without a drop below 20 psi and local health telling restaurants since they have pressure they were ok to not boil water
- 9. Assuming the ductile iron pipe is the original pipe from the inception of LCWA around 1984, the pipe is around 41 years old. Ductile iron pipe should have a service life around 70-100 years on average.

### **Recommendations- Short Term**

- 1. Standing meetings between LCWA and others should include operations to provide a perspective of current events and allow for technical input.
- 2. LCWA may experience an increase in heavy machinery traffic on Jefferson Highway as construction of a data center campus begins across from the WTP site. Heavy machinery should be transported with care and avoid driving on the shoulder where the water main is located.
- 3. Related, LCWA should develop a communications plan- if not already in development to request data centers to isolate from the distribution system and rely on on-site storage during high impact main breaks and other similar events. As large water users, this may potentially help avoid significant impacts from main breaks or shorten recovery times.
- 4. This event put additional stress on already stretched thin operations staff and maintenance and distribution crew. LCWA should evaluate the need for additional utility staff to provide adequate coverage to respond to main breaks and other emergency response without relying on existing staff to work excessive hours. Exhausted staff may be prone to more errors after the immediate response to the event.
- 5. Town of Mineral should develop standard operating procedures and emergency response plans for handling situations like main breaks, including boil water advisories, bacteriological sampling requirements, etc. LCWA and Town of Louisa should review their documents to see if they need revisions in response to the event.

- 6. Town of Mineral is working on re-establishing groundwater wells in their water system. The LCWA consecutive connection appears to be intended as a supplemental source and not a primary source. Bringing wells back online or drilling new wells would introduce some resiliency to the Town of Mineral system.
- 7. Joint tabletop exercises between LCWA, Town of Louisa, and Town of Mineral would help establish lines of communication and improve coordination between all parties.

### Recommendations- Medium Term

- 1. LCWA should investigate the use of variable frequency drive motors for high service pumps for higher level of operator control of pumps. High service pumps at LCWA utilize a star delta starter which ramps up the speed of the pump motor over a set period of time. While this results in a stepped increase in motor speed and potentially increases water pressure in a stepwise manner, it does not provide a controlled stop in similar fashion. Water hammer may still be experienced on the stop of the pump. In addition, the operator has less control over the ramp up time as that is set by the starter. If the ramp up time is not in tune with the hydraulics of the system, there may still be a water hammer as flow is not developed until the pump head overcomes the system pressure. If this occurs after the pump reaches full speed, it would act similar to a direct on and off pump starter.
- 2. LCWA should investigate, in conjunction with the Town of Mineral, having the ability to remotely monitor Town of Mineral tank levels to have a better understanding of both consecutive systems during routine and emergency operations.
- 3. Town of Louisa should investigate the reliability of the current tank level monitoring system.
- 4. LCWA should investigate alternatives to protecting the critical water main through conversations with VDOT.
- 5. LCWA should evaluate main break historical information to determine if ductile iron piping is approaching the end of its useful life. If so, LCWA should investigate why service life of ductile iron piping is shorter than industry averages.

### Recommendations-Long Term

- LCWA should investigate creating a complete loop of the water system by running water main to connect to the other side of the Town of Mineral. This would provide added resiliency to a major break on the 12-inch line near the vicinity of the WTP.
- 2. LCWA should investigate the possibility of providing a secondary water source to the distribution system from the Ferncliff WTP once it is online. Ferncliff WTP will primarily serve the Zion Crossroads area.
- 3. LCWA should investigate the potential benefits of additional storage in the distribution system. This should be balanced with the potential detrimental effects of increased water age and disinfection byproducts formation.
- 4. During future pipe replacement projects, LCWA should investigate if ductile iron is the best pipe material for locations like unprotected shoulders that may experience occasional spikes in loading by vehicles, etc. Casing of water main in the area or other materials such as HDPE may provide extra protection against breaks.

# MINERAL TOWN COUNCIL AGENDA ITEM REPORT Meeting Date:

6.9.2025

**TO: Mineral Town Council** 

FROM: Kelly Singletary, Treasurer

**SUBJECT: Treasurer's Report** 

#### **Background:**

Enclosed is the monthly Treasurer's Report.

#### **Recommended Action:**

#### **Attachments:**

Treasurer's Report Budget Analysis Report Transaction Report Monthly Water Consumption Summary of Bank Balance

Section K, Item 2.

#### **Town of Mineral**

P.O. Box 316 312 Mineral Avenue Mineral, Virginia 23117 Phone 540-894-5100

May 30, 2025

#### Treasurer's Notes:

#### **Budget Analysis Report:**

- Total revenues and expenditures for the month of May 2025 are accurately reflected in this report.
- The only exception to YTD revenues and expenditures reporting is for the month of July 2024, the month of our software conversion, which is still in our old software system. We are working with the auditor to achieve and report these transactions using best practices.

#### Transaction Report:

• This reflects all bills paid this month by check and cash disbursement

#### Monthly Water Consumption:

• Water loss was down significantly. This is likely due to a combination of repairing known leaks and the two days of water conservation/restriction because of the water main break in Louisa.

#### Other Items:

- If you are interested in receiving your utility bill by email, please let the Town office know.
- Staff continue to collect past due utility bill payments. Past Due water bill notices were mailed May 15, 2025, for bills that were due April 15, 2025 (and prior). At the time of this report, disconnect notices are scheduled to be delivered June 4, 2025. Staff continue to work with customers who have difficulty paying their outstanding water bill by establishing a payment plan with them. We have collected approximately 56% of the past due amounts since May 15.

Respectfully submitted,

Kelly Singletary Treasurer

# MINERAL TOWN COUNCIL AGENDA ITEM REPORT Meeting Date:

6.9.2025

**TO: Mineral Town Council** 

FROM: Kendra Ellis, DMV Manager

**SUBJECT: DMV Report** 

#### **Background:**

Enclosed is the monthly DMV Report.

**Recommended Action:** 

#### **Attachments:**

**DMV** Report

#### Town Council Meeting June 2025

Agenda Item: Monthly Report - Mineral DMV Select 361

Date: June 2025

Report Prepared By: Kendra Ellis

May 2025 monthly revenue totals:

Total monthly revenue: \$728,697.46Town monthly revenue: \$35,922.73

- The Mineral DMV Select office has continued to operate without interruption, in providing exceptional customer service and titling transactions, etc. to the customers of this community and surrounding communities. This also includes our title vendors that visit our office daily. Many thanks to the DMV Select Team for their hard work and dedication.
- A DMV Select Compliance Audit/Site Review was performed on our Mineral DMV Select office on April 22, 2025 by the DMV Select HQ Team. Our office overall received a good report. There were a few action items from previous years (2022-2023) that were addressed and are being corrected moving forward.
  - Motor Voter report retention now sending out on a weekly basis
  - Voided Items addressed the reason for the large number of voided items. Details are in the voided transactions report printed at the end of the day.
  - A follow-up visit was held with Barry Browning on May 13, 2025 to discuss details from the initial Site Review visit. We discussed the previous findings and new processes that would be implemented for the remainder of this year and going forward.
    - CY & FY Inventory/Reports Mineral DMV Select FY Inventory will be completed on June 25, 2025
      - CY Inventory will not be required in December
    - QRT Reports (Quality Review Tracking) new process being implemented

#### Town Council Meeting June 2025

- In addition to the Site Review, our office was commended on our professionalism and organized structure. Kudos to the DMV Select Team!
- The DMV Select Contract for 2025-2026 will be coming soon for review to sign and return, July 1, 2025.
