ACTION ITEMS

PUBLIC HEARING ~ RESOLUTION 2023-21 ~ ENERGY SERVICE CONTRACT WITH ENGIE SERVICES U.S.

It is recommended to adopt Resolution 2023-21, Energy Services Contract with ENGIE Services U.S., to design, build and perform operations and maintenance services on the Comprehensive Energy and Sustainability Upgrades project.

Danny Friend and Arturo Ceja made a presentation to the Board on the ENGIE Energy Efficiency Project – Due Diligence/Peer Review. Mr. Friend noted the process and purpose of this project is what was addressed. The Due Diligence process included legal review by SBEMP, Engineering Review by Kenwood Energy and a Financial Review by Stradling Law (Bond Counsel). There are four distinct parts of the review: cost of the project, the ENGIE contract, project timing and financing. Mr. Friend pointed out that staff is still negotiating several points in the ENGIE Contract; cost, change order language, ownership of contract documents and plans and construction materials and specifications.

Mr. Ceja continued with the financial portion of the presentation. Key points/milestones he noted; the Board is not approving any financing today, just the ENGIE Energy Services Contract. Project timing/Key Milestones; Inflation Reduction Act, Bank of America Loan and the Net Energy Metering, project must be completed by March of 2026. Bank of America provided the best interest rate. Rate lock ends on October 13, 2023. Staff is still waiting for the final terms of the loan from BofA.

Ashu Jain of ENGIE Services U.S. presented last. He addressed the cost of the contract noting our project is far more complex than most. Additionally, he noted that since September of 2021, there has

been a 21% cost increase in construction costs. At this time, ENGIE has reduced the cost of the project by half a million dollars, which is the best they can do. According to the Inflation Reduction Act, if construction is not started in 2023, we will lose 10%.

Ashu and staff fielded questions from the Board.

AWARD OF CONTRACT AGREEMENT FOR THE SUPPLEMENTAL ENVIRONMENTAL PROJECT TO R.E. CHAFFEE CONSTRUCTION, INC.

It is recommended to authorize the Interim General Manager to execute a contract agreement to complete the Supplemental Environmental Project in the amount of \$390,877 plus a 10% contingency for a total of \$429,964.70, to R.E. Chaffee Construction, Inc., and augment the project budget an additional \$250,000 for the cost of construction, and inspection and authorize the Interim General Manager to do all things necessary to complete the project.

On July 18, 2023, MSWD started the advertising period for the Supplemental Environmental Project to connect 21 properties to MSWD sewers as required by the settlement of an enforcement action with the Colorado River Basin Water Board. On August 17, 2023, three bids were received from Legacy Craft Construction, R.E. Chaffee Construction and Tri-Star Contracting II, Inc.

Upon receipt, staff analyzed the bids, submittals, and the contractor's licenses of each of the bidders. The bid analysis revealed that the apparent lowest bidder at \$351,965.00, Legacy Craft Construction was deemed non-responsive as their bid did not include all the necessary information. The second bidder, RE Chaffee Construction, Inc. is licensed as a Class 'A' contractor and capable of performing the necessary work. Staff recommends awarding the SEP Project to RE Chaffee Construction, Inc. in the bid amount of \$390,877.00 plus a 10% contingency for a total of \$429,964.70.
