**PRESENTATION BY STAFF:**

Zach Abell reviewed the staff report, a copy of which is filed with the minutes.

**PRESENTATION BY THE APPLICANT:**

Charles Hollen, 925 Chautauqua Avenue, said they bought the house to remodel it for their daughter. As part of that, they added a utility room, but the exterior wall of the utility room would have been in the same plane as the existing garage. The garage was dilapidated and needed to be removed. The original garage was on the 1' line. They are asking for a variance of 4' to build a new garage on that 1' line. The adjacent neighbor to the north said he had no problems with it. He noted the diagram showing the proposed garage at the 5' setback with respect to the existing driveway. He asked what the rear setback needs to be; they were told 10' by one person and 5' by another.

Mr. Worster said it looks like there is a utility easement in the rear. Ms. Hoggatt stated that if there is a utility easement, it must be 1' off the easement.

Mr. Worster asked if they will have to have a 1-hour fire rating. Mr. Hollen responded that they have been told that, and they will comply with that.

Mr. Worster commented that a lot of the detached garages in the area are in similar locations, at or on the property line. He doesn't see a problem with the proposal as long as the eaves of the garage don't overhang the property line.
