32		Note: The highest priority of the language describing Reserved and Rural areas is to preserve or otherwise conserve those sensitive areas. References to development "in these contexts are intended to refer to projects that would betray this foundational objective."
41		Amendment: 2045 Reserve area western border along east 48 th Ave; eastern border along east 72 nd Ave from Cedar Lane to Indian Hills, and the southern border along Post Oak.
49, 51	Protect and/or preserve wetlands when developing east towards the 2045 Reserve	Prioritize the protection and preservation of wetlands east toward the 2045 Reserve by restricting development and maintaining natural hydrology and ecological integrity. Development should be discouraged in these areas to safeguard water quality and wildlife habitats.
52	New Developments in this area should be done with sensitivity and only when City services are available to adequately serve future use.	New development in this area should be strongly discouraged to protect the natural character and environmental integrity of the Reserve Area. Any future development, if considered, must demonstrate a clear environmental benefit and be consistent with preservation goals.
52	Future connections to infrastructure	Infrastructure expansions into this area should be avoided to preserve the area's ecological integrity.
52	...development in this area may be permitted such that:	Development in this area should be prohibited unless a clear and overriding public benefit is demonstrated, and it must align with conservation goals.
53	Infrastructure extensions into these areas have been fully developed, or as identified in appropriate master plans.	Infrastructure extensions into the Reserve Area should be avoided to prevent environmental degradation and to maintain open space for wildlife and natural recharge.
53	Monitor future corridor planning of a north-south turnpike segment for potential changes in land use.	Land use policy in the 2045 Reservation Area should not be influenced by transportation infrastructure projects that could undermine conservation goals.
53	Develop detailed land use plans for geographically limited areas around proposed interchanges that include proper buffering for lower intensity uses and rural landscape and protection and expansion of wetlands and wildlife habitat.	Establish conservation easements and protective buffers around sensitive areas to prevent development pressure from adjacent transportation infrastructure.
53, 55, 165, 165	Update regulations to protect and/or preserve wetlands when developing east towards the 2045 Reserve.	Strengthen regulations to protect and preserve wetlands, prioritizing conservation over development when considering any activity east toward the 2045 Reserve. Development should be discouraged in or near wetland areas to maintain ecological integrity and natural water filtration functions.
59	UR: Urban Reserve. These areas extend out to approximately 72 nd Avenue East and represent the likely limit of Norman's Future urban development outside of the life of this plan. Acreage subdivision would compromise the feasibility of future urban services.	These areas extend to approximately 72 nd Avenue East and are intended to serve as a long-term buffer to protect Norman's rural character and environmental integrity including that of the watershed feeding Lake Thunderbird. They represent the outer limit of potential urban development beyond the life of this plan and should be preserved primarily for agricultural, open space, and natural resource protection. Acreage subdivision should be avoided to maintain ecological health and prevent compromising the future feasibility of efficient urban services.
64, 66		Add to 'Utility Access' bullet point list: <ul style="list-style-type: none"> Existing homes and structures rely on septic and private wells. Electrical service should remain limited to support very low-intensity development consistent with rural character unless complemented by high-speed fiber internet.
165	Monitor future corridor planning of a north-south turnpike segment for potential changes in land use policy.	Oppose changes in land use policy that would encourage development along a future north-south turnpike corridor. Prioritize conservation and rural character preservation over transportation-driven development pressures.

MISCELLANEOUS COMMENTS

Supportive Housing Project on Triad Village Drive

Ms. Nancy Ashton, Ward 1, spoke about the proposed Supportive Housing Project on Triad Village Drive. She said there are safety risks with putting this sort of housing near a Senior Living Facility and a daycare. She is concerned that individuals with mental health and addiction issues will be housed without adequate supervision.

Ms. Veronica Hawkins, Ward 1, said it is not fair to the senior citizens at Triad Village or to the kids at the daycare for this proposed housing project to go up right next to them, it is not safe.

Mr. Trey Kirby, Ward 5, talked about the proposed housing on Triad Village and said the shortage of firemen and emergency responders would be felt more because homeless people increase emergency calls.

*

Homelessness

Mr. David Davila, Ward 1, said Council and the Mayor have failed to take care of the issue with the homeless, they need space like Griffin Memorial mental health and medication assistance.

*

Miscellaneous Comments, continued

Thank you

Mr. Rob Norman, Ward 3, thanked Mayor Heikkila for his service and hopes he remains active and involved with the City. He talked about wanting to put the airport hangar on the National List of Historic Places. He recognized Amy Cerato as President of Pikeoff OTA.

*

AIM Resolutions

Ms. Amy Cerato, Ward 5, said that Council ignored Councilmember Nash's amendments and the City needed a way to be more transparent with its citizens so they could better understand language in ordinances.

Ms. Cynthia Rogers, Ward 4, said that it was unfortunate there was so much information with the AIM project, it would have been better to space it out more.

Ms. Tiffany Stephens, Ward 5, suggested Council come up with a different plan if meetings go past 10:00 p.m. and said two days to review the AIM policies is not enough time.

*

Cleveland County Economic Development Coalition (CCEDC)

Mr. Stephen Ellis, Ward 4, made comments on the Norman Economic Development Coalition transition to CCEDC. He said they are pushing policies and the City will not succeed. He said Council should keep looking at the AIM policies to make them better.

ADJOURNMENT

The meeting adjourned at 12:41 a.m.
