Discussions

1. Discussion of Charlie Shannon's petition to return ownership of 516 1st Ave NE.

Seeders was concerned the house had not been worked on in several years and if provided more time the work may still not get done.

Shannon discussed the difficulty he has had trying to get the house back together in the last two years.

He expressed he is fixing the home for his brother to purchase. Shannon said a tile line is in need of fixing and then he can get the rest of the house in order.

Weber wanted to see progress on the home this year and if an agreement could be created by the City Attorney that required progress before the home going back to Shannon. Weber said a plan should be created to address the issues.

Weber motioned to recommend to Council, the City return the house to Shannon provided he make several improvements this year and a contract be worked out with the City Attorney. Seeders seconded. All voted aye.
