**Project Description:**

Annual replacement of a patrol vehicle. These vehicles endure many miles annually and that doesn't take into consideration the tens of thousand of "run time" hours. There is a specific need to maintain a vehicle rotation plan. Our present system has reduced vehicle maintenance costs. It is imperative that we maintain a rotation plan to continue to see costs savings on maintenance and future acquisition. In recent years, we have seen a reduction in vehicle line expenses, due to the return to a regular vehicle rotation. The reduction in maintenance costs aided us in maintaining or slightly increasing the overall vehicle maintenance line, despite the significant increases in fuel costs. This cost estimate covers vehicle purchase, some lighting replacement & equipment install. The newly acquired hybrid police package vehicles have allowed for a fuel savings. We would anticipate continuing down this path.

**Project Description:**

The Oelwein Police Department, back in 1990, was the smallest police department to ever be accredited. That accreditation was allowed to expire, in the mid-90's, due to cost at the tiime. Law enforcement, each day, is faced with various court rulings or actions that impact how the job is performed. This project allows for a complete policy and procedures revision that includes legally tested policies that are specific to the state of Iowa. In addition, it provides officers with daily training bulletins to keep them current on policy and court rulings. This in turn reduces errors and also litigation. This software will provide supervisors with legally defensible documentation of each employees training and understanding of the department's policy. The City's relationship with EMC Insurance allows us to receive a 10% discount plus a 10% premium discount.

**Project Description:**

The Oelwein Police Department Tactical Team trains regularly to respond to high risk situations, tactical entries, and active shooter incidents. This past year, the department has been sharing training events and working to combine tactical teams with the newly created tactical team for the Independence Police Department. The current tactical body armor utilized by the Oelwein team is approximately 15 years old and not capable of stopping a round fired by a rifle. This project would acquire six tactical vests with armor plates rated to stop a rifle round.

**Project Description:**

The Oelwein Police Department follows the traditional model of utilizing a leather basket-weave duty belt to organize accessible equipment to perform law enforcement duties. Recent studies indicate that the utilization of duty belts in this manner provides for an increase risk in lower back issues and hip issues for the officers. Additionally, officers entering the law enforcement profession in these current times desire to remove the heavy load from their hips and lower back and utilize an upper body out vest carrier that houses equipment traditionally placed on the hips. The department will seek to obtain outer vest carries and under shirts that continue to provide a professional and respectful appearance.

**Project Description:**

The Oelwein Fire Department, under NFPA guidelines, replaces fire members turn-out gear every 10 years for those that are active in fire suppression. In order to maintain this practice for the authorized strength of 30 members, we need to budget for three to four sets a year. This covers the rotation and also provides for the acquisition of gear for new/rotating members.

## FY2024 Budget Letter to Oelwein City Council

Honorable Mayor and Council,

Walking into FY2024 City Council will have to face many difficult decisions. The City is posed to lose \$126,426 in FY2023 in the general fund bringing the reserve to an estimated \$976,906. The projected FY2024 general fund end balance balance is an estimated \$798,343. The financials continue to be tight as the state legislature is punishing local government by restricting tax growth through property taxes. The City of Oelwein has not seen an increase in valuation for two straight years and this results in less money for the general fund. Cost for wages and supplies have not gone down and will never go down. The lack of tax dollars from property taxes will require the city to make hard decisions about our budget in next year. The services council wants to provide will need to be prioritized and strategic cuts may need to be made. City Administration will work closely to ensure council is able to continue to provide services that are required by the community.

With the gloom and doom portion of the budget letter over, council can reflect on another positive year in serving the community. Improvements to roads, water lines, and parks were made that will serve the community for years to come. Public Safety continues to be outfitted to ensure an effective service. The Fire Department has gone through a transformation in the building and with their volunteers. Oelwein has the strongest group of volunteer firefighters they have had in years. The city is walking into FY2024 with a comprehensive plan working toward completion and full staff ready to implement. Community Development is fully staffed and working towards Council's goals to improve and require safe housing in Oelwein.

### **Tax Rate**

The City Council adopted a tax rate of \$17.92728 for the year 2022-2023 (FY 2023). The proposed tax rate is \$17.99215. The City Administrator continues to recommend raising the levy to open space in the debt service levy and the continued rise in health insurance. Pushing for a higher debt service levy allows Oelwein to tackle more general fund projects, street improvements, and trail improvements. While the city's tax rate is high, it must be, to continue the expected service from the community.

The Oelwein tax rate is high, because tax values are low and require a high tax rate. Council has done a great job ensuring spending has been conservative, and services are being delivered as expected from the public. This conservative spending shows the community Council is doing their due diligence and tasking staff with the need to be flexible and innovative when spending public dollars.

Oelwein has a high levy because 55 percent of the homes were built before 1940 and have an average assessed value of \$37,184. A house valued at \$37,184 pays just over \$350.00 in property tax annually. The \$350.00 of taxes is spread out among the city and other taxing entities, the school district, county, community college, and other smaller levies. This is a challenge for the city as low revenues from property tax will continue to restrict revenues and put a strain on city services that are already being offered. The following table shows how the city takes in revenue from property taxes.

FY2024	Valuation	Roll Back	Taxable Valuation	Per 1000	Oelwein FY2024 Levy	Property Taxes City Only
Residential	\$100,000	0.541302	\$54,130.20	\$54.13	17.99215	\$973.92
Commercial	\$100,000	0.900000	\$90,000.00	\$90.00	17.99215	\$1,619.29
Industrial	\$1,000,000	0.900000	\$900,000.00	\$900.00	17.99215	\$16,192.94

FY2023	Valuation	Roll Back	Taxable Valuation	Per 1000	Total Levy	Tax Bill
Residential	\$100,000	0.541302	\$54,130.20	\$54.13	39.22800	\$2,123.42
Commercial	\$100,000	0.900000	\$90,000.00	\$90.00	39.22800	\$3,530.52
Industrial	\$1,000,000	0.900000	\$900,000.00	\$900.00	39.22800	\$35,305.20

The city saw a drop in valuations this year. This is from the state lowering the rollback of residential homes and the multi-family home rate matching residential rollback. The state continues to restrict funding to local governments. The tax rate has stayed consistent even with the large ups and downs of the economy. Supply chains still do not make sense and the city is two years out from the 2020 epidemic. Oelwein needs

more commercial tax base and will need a great deal of home improvements to boost the valuation. The community sees a large amount of services for their tax bill. Tax increase will need to come over the next two years to meet the demands required to provide services.

**Loss of the State Backfill**

The state of Iowa has decided to no longer fund the local tax cuts they made in the 1980s. The state will be using those dollars in another format. The City of Oelwein now must work as state provided revenue will drop over the next five years. The city will lose just over \$100,000 spread-out over the next five years. Most cities will experience an eight-year period, but Oelwein was tagged at having an expedient amount of growth, so Oelwein was paced on the five-year schedule. The City Administrator will monitor revenues to ensure they align with expenses over the next five years.

Backfill History	FY2017	FY2018	FY2019	FY2020	FY2021	FY2022
	\$74,546	\$70,846	\$81,192	\$104,564	\$114,332	\$111,382
Future Backfill	FY2022	FY2023	FY2024	FY2025	FY2026	FY2027
	\$111,382	\$89,105	\$66,829	\$44,553	\$22,276	\$0

**General Fund**

Council will need to decide what services are most important in the summer and fall of 2023 to ensure a balanced budget can be made for FY2025. This may require hard decisions on police, fire, parks, library, recreation, community development, pool, cemetery, campground, and administration. The current trajectory for the general fund is only sustainable for two years. The miracle that was traffic cameras was dashed as Council allocated \$100,000 annually to the event center. All proceeds from the traffic cameras

after the payment for the event center must be used to keep the general fund solvent. Any future revenues that can be created by the general fund must be created.

*The Community Development Department is funded through general fund and Local Option Sales Tax. Administration is split three ways between general fund, water, and wastewater. This chart shows only the general fund expenditures.*

**Franchise Fees**

Franchise Fees are the five percent taxes on gas and electric. They can be used for several purposes including public safety, public buildings, equipment, and economic development. The revenue for FY2024 is estimated at \$751,000. This revenue is dependent on weather and utility usage.

- FY 2024 (proposed)
  - \$751,000
    - Plan to spend
      - \$254,855 Police Station Loan
      - \$150,200 property tax relief (general fund)
      - \$518,783 Capital Improvement Plan (CIP)
      - \$30,000 public safety transfer

The City will be using reserves this year in franchise fee to fund more improvements to City Hall. The CIP program is balanced to meet the needs of each general funded department. The CIP items are voted on and approved by Council when the budget is approved.

**Economic Development**

The City of Oelwein uses local option sales tax for economic development and property tax relief. This funding is used to better the community and accomplish the goals set by Council. A high priority of Council is to improve housing. The City Council has the option this year to make a large impact in housing. I have outlined the dollars and how the city can use them below:

Local Option Sales Tax Revenue (projected FY2024)

- \$700,000
  - \$490,000 economic development
  - \$210,000 property tax relief
- \$490,000
  - This money is used for multiple economic development activities
    - \$50,000 Oelwein Chamber and Development
    - \$45,000 Abatement (Code enforcement officer)
    - \$35,000 Oelwein Regional Tech Complex (Tec Spec)
    - \$35,000 Library Accreditation
    - \$25,000 Residential tear down grant
    - \$65,000 Junk house removal
    - \$15,000 Fayette County Housing Trust Fund
    - \$15,000 CDBG Housing Grant
    - \$30,000 Wellness Center Loss
- The City will need to continue to use its teardown funds to ensure houses which need to be removed are being removed

**Reserves**

The City of Oelwein is working toward having strong accounts help the city remain fiscally stable and prepare the city for future loans and emergency expenses. Having stable reserves saves the city money and prepares the city for emergency expenses. It is generally considered a best practice to have 20 percent of expenses in reserves. This percentage can fluctuate based on availability and City Council determination. The following are reserves for the City of Oelwein starting in Fiscal Year 2023. The City Administrator is working toward a formal policy. Franchise Fees are lower due to the aggressive capital improvement program.

Reserve		
Fund	Reserve Goal	Actual Reserve
General Fund	\$597,741	\$1,103,332
Franchise Fee	\$152,400	\$87,656
Economic Development	\$89,834	\$676,481
Road User Tax	\$169,437	\$698,585
Water	\$293,921	\$398,288
Sewer	\$359,145	\$936,008

*Starting reserves for the City of Oelwein FY 2023.*

### **Capital Improvement Program (CIP)**

The Capital Improvement Program (CIP) is now in its fifth year for the City of Oelwein. Franchise fees will play a key role in purchasing equipment and infrastructure in the Capital Improvement Program. The complete CIP is included in the budget book. Additional funding sources for the CIP include Road Use Tax, Utilities, Municipal Trust, Grants, and Economic Development.

### **Comparable Cities**

The City uses several cities in Iowa to make comparable evaluations. This is based on population, location, income, and general characteristics. The city uses the following comparable cities:

- Estherville
- Maquoketa
- Red Oak
- Centerville
- Nevada
- Atlantic
- Washington
- Charles City
- Vinton
- Independence
- Manchester

### **FY2024 and Beyond**

Council will need to discuss service levels in the summer of 2023 and determine what can be funded and what cannot be funded. The City must either raise over \$250,000 in general fund revenue or cut \$250,000 in expenditures from the general fund. Council will also need to plot out an aggressive increase schedule in utility rates to ensure demands of repairs and replacement can be met. Oelwein is doing great, and the community is excited. Unfortunately, continued state of Iowa interference in property taxes has put the city in a place where revenues must increase, or expenditures must decrease. While I am excited for all the good happening in 2023, hard decisions must be made to set the city up for a sustainable budget moving forward.

Thank you for your time,

Dylan Mulfinger, City Administrator

**Project Description:**

Annual replacement of a patrol vehicle. These vehicles endure many miles annually and that doesn't take into consideration the tens of thousand of "run time" hours. There is a specific need to maintain a vehicle rotation plan. Our present system has reduced vehicle maintenance costs. It is imperative that we maintain a rotation plan to continue to see costs savings on maintenance and future acquisition. In recent years, we have seen a reduction in vehicle line expenses, due to the return to a regular vehicle rotation. The reduction in maintenance costs aided us in maintaining or slightly increasing the overall vehicle maintenance line, despite the significant increases in fuel costs. This cost estimate covers vehicle purchase, some lighting replacement & equipment install. The newly acquired hybrid police package vehicles have allowed for a fuel savings. We would anticipate continuing down this path.

**Project Description:**

The Oelwein Police Department, back in 1990, was the smallest police department to ever be accredited. That accreditation was allowed to expire, in the mid-90's, due to cost at the tiime. Law enforcement, each day, is faced with various court rulings or actions that impact how the job is performed. This project allows for a complete policy and procedures revision that includes legally tested policies that are specific to the state of Iowa. In addition, it provides officers with daily training bulletins to keep them current on policy and court rulings. This in turn reduces errors and also litigation. This software will provide supervisors with legally defensible documentation of each employees training and understanding of the department's policy. The City's relationship with EMC Insurance allows us to receive a 10% discount plus a 10% premium discount.

**Project Description:**

The Oelwein Police Department follows the traditional model of utilizing a leather basket-weave duty belt to organize accessible equipment to perform law enforcement duties. Recent studies indicate that the utilization of duty belts in this manner provides for an increase risk in lower back issues and hip issues for the officers. Additionally, officers entering the law enforcement profession in these current times desire to remove the heavy load from their hips and lower back and utilize an upper body out vest carrier that houses equipment traditionally placed on the hips. The department will seek to obtain outer vest carries and under shirts that continue to provide a professional and respectful appearance.

The Oelwein Police Department duty weapons are approximately fourteen years old. The duty life of a police firearm is projected to be twelve to fourteen years with many departments rotating firearms out of service every eight to ten years. The springs in the magazines begin to develop a memory, subjecting the firearms to malfunctions, and other parts of the firearms start to wear.

Additionally, federal studies indicate law enforcement officers are now better served by utilizing a 9 mm firearm. The Oelwein Police Department presently utilizes a 40 caliber firearm. This project would replaced the current firearms, sights, gun lights, and holsters.
