AGENDA NO. 3(a)

TO: File

FROM: Susan Hartman, Community Development/Planning Director

SUBJECT: Noise Variance public hearing for PG&E contingency nighttime utility work along Pentz Rd, between Bille Rd and Arrowhead Dr, starting July 1, 2026 and ending no later than July 31, 2027

DATE: June 3, 2026

BACKGROUND:

An application has been received by PG&E requesting Town approval of a noise variance that will allow contingency nighttime underground utility work to be performed along lower Pentz Rd, between Bille Rd and Arrowhead Dr, starting July 1, 2026 and ending no later than July 31, 2027. Work would be performed during any combination of hours, including, but not limited to, after seven p.m. and before six a.m.

Between July 2026 and July 2027, PG&E will be performing underground utility work along the lower half of Pentz Rd. Pentz Rd construction is scheduled to be in the daytime, however, PG&E would like to reserve the right to conduct temporary nightwork should unforeseen circumstances arise such as weather delays and/or construction in areas of Pentz Rd that are too narrow for a single-lane closure. Nightwork could occur during any combination of hours, including, but not limited to, after 7:00 p.m. and before 6:00 a.m. and would except Sundays and holidays unless prior written approval was granted by the Town.

In accordance with Chapter 9.18 – *Noise Control* of the Paradise Municipal Code, notices were sent to surrounding landowners within 300’ of the lower Pentz Rd corridor at least 10-days prior to the scheduled public hearing. At time of agenda publication, no public comments have been received.

ANALYSIS:

The justification for the contingency nighttime noise variance includes the following:

- Less impact on the traveling public when single lane closures are not possible (3,200 average daily vehicles)
- Safer conditions for construction workers
- Keeps the project on schedule when unforeseen circumstances arise

ANALYSIS CONCLUSION:

Based upon Article VII of Chapter 9.18 – *Noise Control*, staff is recommending approval of the requested noise variance as the work is necessary as part of the Town’s recovery from the Camp Fire and the proposed contingency nightwork provides for the most expeditious completion of the work while minimizing traffic control impacts subject to the following findings and conditions of approval:

REQUIRED FINDINGS FOR APPROVAL

1. The requested noise variance is necessary and justified because there will be less impact upon the traveling public, increased safety for construction workers, and will keep the project on schedule.
2. The requested noise variance is exempt from the requirements of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15324 (Class 24).

GENERAL CONDITIONS

1. Construction activities shall not be conducted on Sundays or holidays without prior written approval from the Planning Director.
2. Nighttime construction activities shall be limited to the period between July 1, 2026 and July 31, 2027.

RECOMMENDED ACTION:

Adopt the findings for approval and project conditions as provided by staff and approve the PG&E noise variance.

LIST OF ATTACHMENTS FOR THE PROPOSED PG&E NOISE VARIANCE

1. Copy of the notice sent to surrounding property owners of public hearing for the proposed noise variance.
2. Mailing list of property owners notified of the public hearing.
3. Notice of Exemption prepared for the PG&E noise variance.

**TOWN OF PARADISE
NOTICE OF PUBLIC HEARING**

NOTICE IS HEREBY GIVEN by the Noise Control Office that a public hearing will be held on Monday, June 15, 2026 at 2:00 p.m. in the Town Hall Council Chambers, 5555 Skyway, Paradise, CA, regarding the following matter:

a. Noise Variance Consideration for Contingency Nighttime Construction Activity

PARADISE MUNICIPAL CODE CHAPTER 9.18 – NOISE CONTROL

PG&E is proposing an official Noise Variance be considered for contingency nighttime utility work along Pentz Rd. The project involves the undergrounding of electric distribution power lines along the lower half of Pentz Rd between Bille Road and Arrowhead Drive. Work is proposed to be performed during the daytime, however, unforeseen circumstances such as weather delays and/or construction in areas of Pentz Rd too narrow for a single-lane closure may necessitate temporary night-time construction during any combination of hours, including, but not limited to, after seven p.m. and before six a.m.

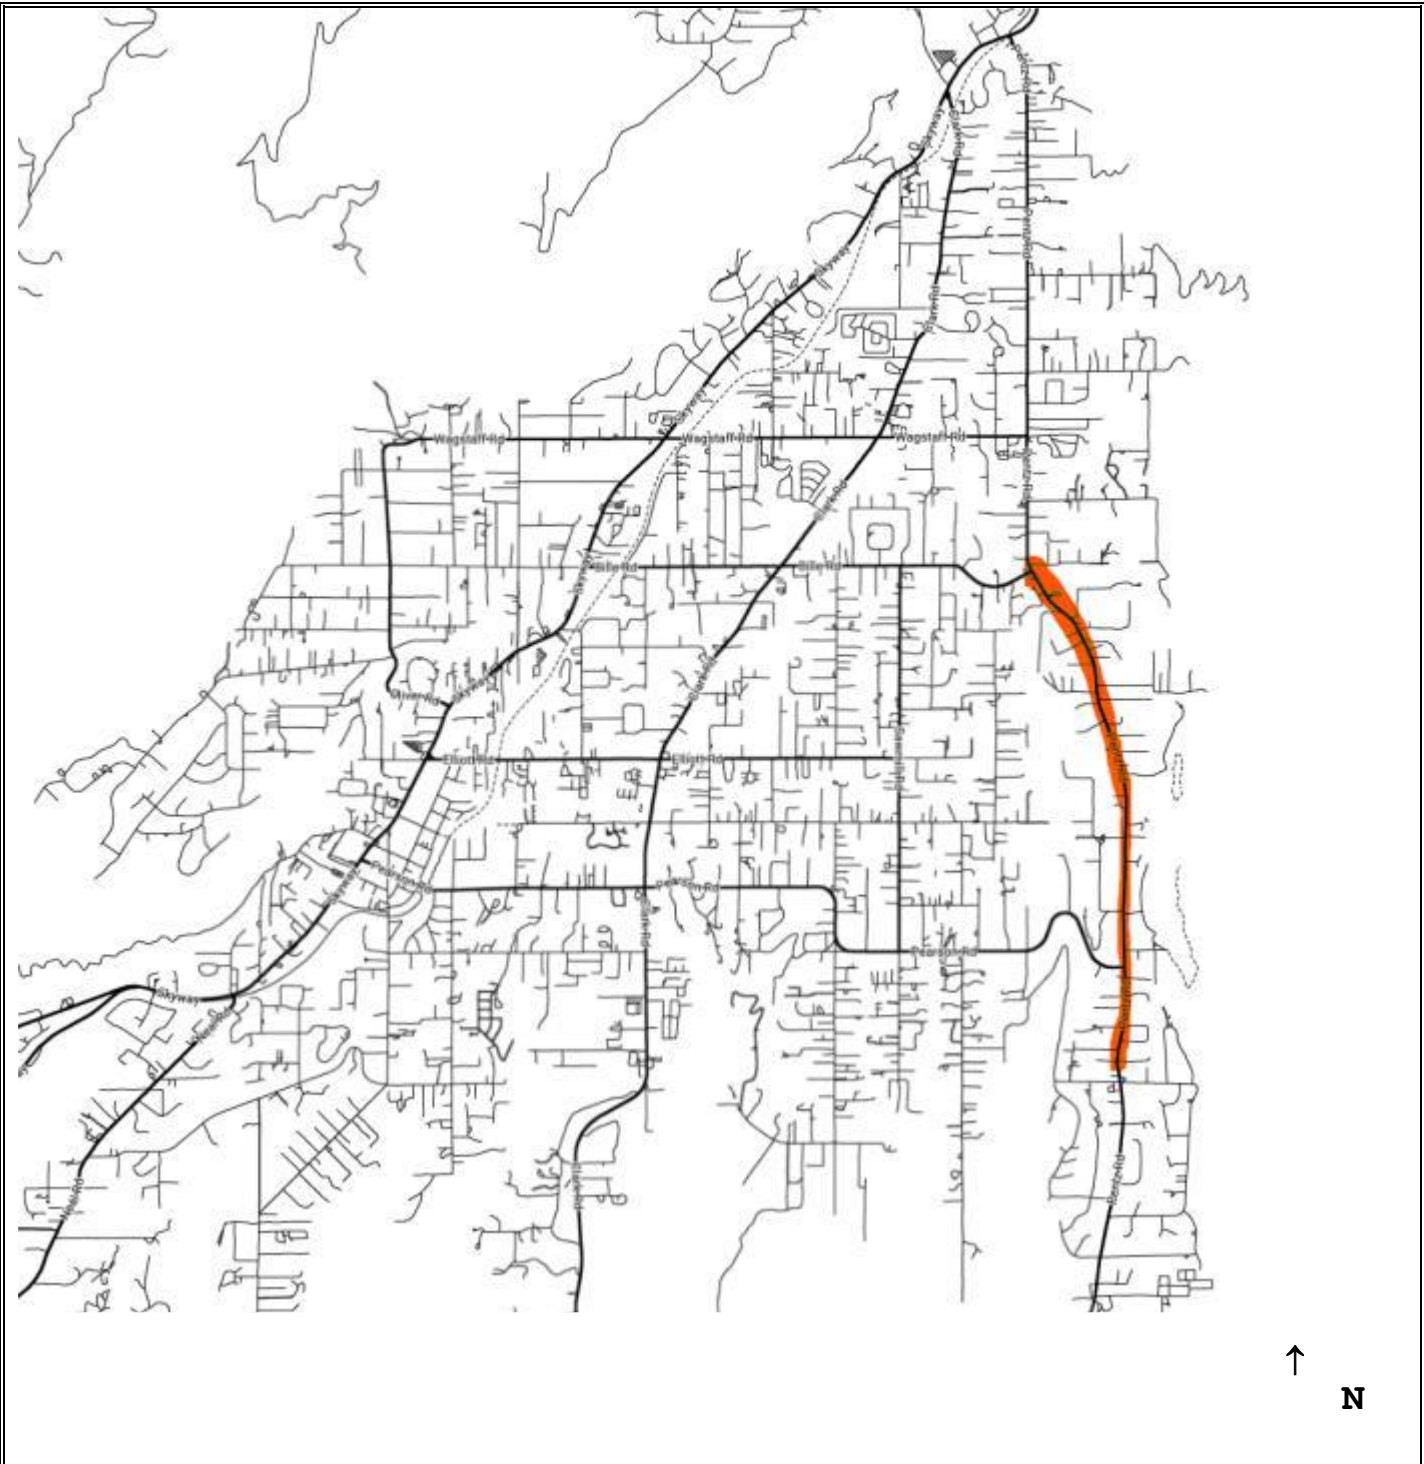

Justification for the contingency night work noise variance includes the following:

- (1) Less impact to the traveling public (3,200 average daily vehicles)
- (2) Safer conditions for construction workers in high-volume areas
- (3) Keeps the project within schedule so as not to prolong the impact on daytime traffic

The proposed contingency noise variance would be in effect starting July 1, 2026, and ending no later than July 31, 2027.

For further information please contact PG&E's Senior Outreach Specialist, Nick Tovar, at (530) 433-3442.
