Planning Commission Agenda Summary

Agenda Item: 6(a)

Date: September 19, 2023

ORIGINATED BY: Nick Bateman, Associate Planner
REVIEWED BY: Susan Hartman, Community Development Director

SUBJECT: Review of the Integrity Builders Conditional Use Permit Application (PL22-00095).

COMMISSION ACTION REQUESTED:

1. Adopt findings of approval and approve the Integrity Builders Conditional Use Permit Application (PL22-00095) to allow the reconstruction of a legal nonconforming single-family residence on a Community Commercial (CC) zoned property.

General information:

Applicant: Integrity Builders
6635 Clark Road
Paradise, CA 95969

Location: 1440 Coldren Road, Paradise

Purpose: To rebuild a legal nonconforming single-family dwelling.

Present Zoning: "C-C" Community Commercial

General Plan Designation: "T-C" Town Commercial

Existing Land Use: Vacant lot. The property previously held an identical residence that was destroyed in the 2018 Camp Fire.

Surrounding Land Use:

North:	Three parcels, two share the CC zoning designation. Another has a residential zoning. Both commercial parcels have commercial structures
East:	Skyway, a public street
South:	A vacant parcel sharing the CC zoning designation
West:	A residentially zoned parcel with a residence under construction.

Parcel Size: ±1.04 acres

CEQA Determination: Categorically Exempt – CEQA Section 15302, Class 2

Other: An appeal of the Planning Commission's decision can be made within

seven (7) days of the decision date.

Background:

The permit applicant, Integrity Builders, requests Conditional Use Permit approval from the Town of Paradise to rebuild a single-family dwelling on property with a Community Commercial zoning. The property is currently vacant after the previously existing home burned in the 2018 Camp Fire. The previous residence was built in 1945, prior to the Town's incorporation. When the home was originally constructed, no planning entitlement was required. Upon subsequent adoption of the Town's zoning ordinance, single-family residences in the Community Commercial zone were not permitted, making the previously existing residence legal non-conforming.

The +/-1.04-acre parcel contains no structures but retains the septic infrastructure from the 2-bedroom home lost in the 2018 Camp Fire. The project site is in the Community Commercial zoning district, abbreviated as "C-C". Access to the site is provided by Coldren Road, a private road.

Surrounding land uses include several parcels sharing the community commercial (CC) zoning as well as parcels with the Rural Residential zoning with a 1-acre minimum. The property is bordered by two commercial properties, with existing commercial uses including a flooring warehouse and a new commercial warehouse. The project parcel is also bordered by two residential parcels to the north and west. One is being rebuilt. The property is bordered by Skyway to the east. Across Skyway is another property sharing the community Commercial (CC) zoning. A vacant commercial parcel is located south of the property. The neighborhood has a mix of residential and commercial uses.

Analysis:

The proposed development is considered a single-family land use, which is not permitted in the Community Commercial zoning district. The single-family residence is only able to be reestablished through planning commission approval of this conditional use permit application.

The project has received favorable responses from the commenting agencies and is proposed in a location that appears to be reasonable for a single-family dwelling due to its proximity to residential zoning and the pre-fire characteristics of the neighborhood.

Environmental Review:

This project can be found exempt from California Environmental Quality Act under Section 15302, Class 2, *Replacement or Reconstruction*. This project consists of the rebuilding of a single-family dwelling. This reconstruction is like for like, meaning no substantial changes to the pre-fire residence are proposed.

Recommendation:

Adopt the required findings for approval as provided by staff and approve the Integrity Builders Conditional Use Permit application (PL22-00095) to allow the construction of the proposed single-family residence.

Required Findings for Approval:

- a. Find that the proposed project is categorically exempt from the requirements of the California Environmental Quality Act (CEQA) pursuant to Section 15302 (Class 2) of the CEQA guidelines.
- b. Find that the project, **as conditioned**, is compatible with surrounding land uses and would not be detrimental to the health, safety, and general welfare of the residents of the Town of Paradise.
- c. Find that, **as conditioned**, approval of the Integrity Builders Conditional Use Permit can be found to be consistent with Title 17 of the Paradise Municipal Code and the goals and land use policies of the current 1994 Paradise General Plan.

GENERAL CONDITIONS

1. If any land use for which a use permit has been granted and issued is not established within three years of the use permit's effective date, the use permit may become subject to revocation by the Town of Paradise.
2. Pay any applicable development impact fees prior to issuance of building permits for project construction in accordance with Paradise Municipal Code requirements.
3. Development on the property shall comply with the site development regulations outlined in Paradise Municipal Code (PMC) Section 17.20.400.

CONDITIONS TO BE MET PRIOR TO ISSUANCE OF BUILDING PERMIT(S)

5. Meet the requirements of PMC Section 8.58.060 including the use of noncombustible materials within 5 feet of the proposed structure.

Grading and Drainage

6. If disturbing more than 50 cubic yards of soil outside of the building footprint, secure a grading permit and meet the requirements of the Engineering Division.
7. Submit Erosion and Sediment control plan for review by the Engineering Division.

Site Development

8. Submit a site plan to the Engineering Division for approval **prior to** building permit issuance (site plan must show all grading as required per Town Municipal Code Section 15.02.150.1 - Section J104.2, including, but not limited to: finished floor, finished grade, contours, slopes, limit of grading, cut/fill, grades, etc.). Show slopes and limits of grading near building (include flow direction arrows, slope percentage, what is existing, and delineate any cut/fill).

9. All structures related to the residential development of this parcel shall abide by the minimum setbacks of the Rural Residential 1-acre minimum (RR-1) zoning designation.

CONDITIONS TO BE MET PRIOR TO FINAL BUILDING INSPECTION AND CERTIFICATE OF OCCUPANCY
