SUBJECT: Skyway/Black Olive Signalization Project Acceptance

COUNCIL ACTION REQUESTED:

1. Adopt Resolution No. 20-___, A Resolution of the Town Council of the Town of Paradise accepting Contract No. 16-08, Skyway/Black Olive Drive Signalization Project, performed by ST Rhoades Construction of Redding, CA.

Background:

In 2015, the Town of Paradise procured Federal funding for one Highway Safety Improvement Program project, the signalization of the Skyway at Black Olive Drive intersection. The purpose of this program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance.

On April 12, 2016, Town Council approved Program Supplement Agreement No. F016 for Project HSIPL-5425 (035).

On July 14, 2016, staff issued a formal Request for Proposals (RFP) utilizing Small Purchase Procedures in accordance with 23 CFR 172.5(a)(2) modified by FHWA Memorandum dated June 26, 1996 and 49 CFR 18.36(d). The RFP stated the scope of work for the preliminary engineering services which were needed.

In late 2016, Town Council awarded a contract to Traffic Works for the professional services to design the Skyway/Black Olive Signal.

Following completion of signal design in late 2017, a need for a five-foot by fifteen-foot easement at the southwest corner of the Skyway and Black Olive Drive was identified. This easement was required to facilitate the installation of a signal pole and foundation.

On February 13, 2018, Town Council awarded a contract to Bender Rosenthal Incorporated to prepare and facilitate the easement acquisition. Final escrow closed on September 25, 2018.

On January 8, 2019, Town Council adopted a resolution approving the Plans, Specifications and Estimates for the Skyway / Black Olive Drive Signalization Project and authorized staff to seek formal bids for the project.

On May 14, 2019, Town Council awarded contract 16-08 to ST Rhoades Construction of Redding, CA in the amount of their bid \$683,816.00 for the Skyway/Black Olive Drive Signalization Project. With the award, Council identified construction contingency funds, bringing the total construction budget to \$752,116.00

Analysis:

Construction for the Skyway-Black Olive Drive Signalization Project was largely delayed to manufacturing lead times for the specialized traffic signal poles identified for the project intersection. Unfortunately, typical lead times for these products have increased from 3 months to 6-12 months.

Actual construction efforts began on April 7, 2020 and continued through June 12, 2020. Work was completed while implementing safety best practices such as social distancing where possible and wearing masks to slow the spread of COVID-19. No major construction issues were experienced through the course of construction.

Financial Impact:

The total construction cost of the Skyway / Black Olive Drive Signalization Project, including a 10% contingency, is \$752,116.00. The actual total construction cost is \$670,209.89. The Highway Safety Improvement Program participating costs are \$662,859.89 and are covered 100% through the allocated grant. Remaining funds will come from local utilities for project-related relocation work.

A total breakdown of project phases and predicted final costs is provided in the table below:

Item / Phase	Highway Safety Improvement Program	Other Funding	Total
Preliminary Engineering	\$60,000	\$0.00	\$60,000
Right of Way	\$0.00	\$17,000	\$17,000
Construction Contract	\$662,860	\$7,350	\$670,210
Construction Engineering	\$40,000	\$0.00	\$40,000
Total	\$762,860	\$24,350	\$787,210

WHEREAS, the Town of Paradise has heretofore contracted with ST Rhoades Construction for certain work performed under that certain project known as the Skyway-Black Olive Drive Signalization Project, being Contract No. 16-08; and

WHEREAS, said work of improvements, as called for by the contract between the Town of Paradise and ST Rhoades Construction., referable to said project was completed on June 12, 2020 to the satisfaction of the Town; and

Agenda No. 2(e)

ORIGINATED BY: Marc Mattox, Public Works Director / Town Engineer
REVIEWED BY: Lauren Gill, Town Manager
SUBJECT: Paradise Broadband Feasibility Study Contract Funding

COUNCIL ACTION REQUESTED:

1. Authorize the expenditure of \$20,300 from General Fund reserves to leverage a \$50,000 grant given by the North Valley Community Foundation Butte Strong Fund for the Broadband Feasibility Study.

Background:

As a component of the 2018 Camp Fire Recovery, the Town of Paradise is seeking avenues to promote a thriving rebuild, including possible deployment of Town-wide broadband capabilities. The expanded vision of the Town of Paradise is to provide a world-class community broadband infrastructure to our community for the 21st century and beyond, facilitated by new access to the public's local broadband assets. Broadband is a critical service for quality of life and economic development. Every home, business, nonprofit organization, government entity, and education institution should have the opportunity to connect affordably, easily and securely. Town-wide broadband service facilitated by the Town of Paradise has potential to distinguish our community as a destination for telecommuting and economic activity.

The Town of Paradise is seeking a professional feasibility study which would allow the Paradise Town Council to make informed decisions on how to proceed in making our vision a reality.

On April 30, 2020, staff issued a Request for Proposals for the Paradise Broadband Feasibility Study. The scope of work for the study is provided below:

1. Evaluate the current and future demand for broadband products and services in the Town of Paradise through private stakeholders (e.g. local businesses, business organizations, health care providers, digital divide advocates, and interest groups), public stakeholders (e.g. educational partners and first responders), and broadband providers regarding the demand for, and adoption of, their products.
2. Research and evaluate the current supply of broadband communications assets, products and services in the Town of Paradise.
3. Consider how the town might use its own existing broadband infrastructure to enable world-class, cooperative public/private broadband services, while enhancing service quality, synchronous speeds, cost-effectiveness and competition in Paradise.
4. Consider opportunities to pursue a broader regional approach and expansion of the existing town broadband infrastructure; leveraging broadband assets in support of regional cooperation. Assist and participate in regional outreach and planning efforts.
5. At a point in the analysis that proves most advantageous, prepare and aid in the administration of an exploratory Request for Information (RFI) that will be distributed to potential partners to gauge private interest in using public infrastructure to expand broadband services in Paradise.

6. Identify additional funding options that may be available to the town to support the development and maintenance of its broadband infrastructure, including grants, contracts, General Obligation (GO) Bonds, Telecommunications Revenue Bonds, etc.
7. Other tasks as determined necessary to advance the overall project through project approval and environmental review and up to assisting in Internet Service Provider selection.

On June 9, 2020 Paradise Town Council awarded a contract to the Geographical Information Center for their proposal/scope of work. Their cost proposal was for \$79,020.

The Town of Paradise is grateful to have received notice for award of \$50,000 towards this project and needs to secure allocate additional funds to complete the work effort.

Analysis:

Since last Council action, staff has assembled the Broadband Feasibility Study Project team including the Geographical Information Center and new resources such as CalOES, FEMA and the National Telecommunications and Information Administration. These additional resources on the project team have allowed staff to work further to reduce costs of the Feasibility Study. The total cost of the Feasibility Study is \$70,300. A revised Scope and Schedule of Fees is attached to this Agenda Summary.

Staff is recommending Paradise Town Council approve an allocation of \$20,300 in unassigned General Fund reserves towards this project. Due to the timeline of the proposed project, with expected completion in October 2020, staff is unable to apply for, secure and implement the project with potential grant funding sources. Staying on schedule will allow the Town to complete the study and make critical decisions which affect long-term deployment of broadband infrastructure.

Financial Impact:

As stated previously, the Paradise Broadband Feasibility Study has been approved for a \$50,000 grant through the Butte Strong Fund administered by the North Valley Community Foundation. Staff recommends \$20,300 in unassigned general fund reserves for the remaining contract portion.

Alternatives:

Adopt an amended resolution and/or amended Operating and Capital Budget.

Background:

In general, it is staff's goal to bring forward the final Capital and Operating Budget for adoption by June 30th, of each fiscal year as a best practice. This year; however, due to the impacts of the Camp Fire and COVID, along with staff turnover, additional time was required to compile a meaningful budget by the normal deadline.

Discussion:

This year, we presented the preliminary 2020/21 budget and presentation to the Town Council on June 30, 2020. That budget and presentation are posted on the Town's website for thorough examination and review by the Town Council and the Community.

In summary, the 2020/21 budget will be very dynamic and quickly evolving. It will be necessary to bring frequent updates and budget adjustments forward to Town Council as grants and projects for Long-Term Recovery progress. The current, proposed budget is a snapshot in time of what is required to maintain services and advance known projects during the 2020/21 fiscal year.

- ✓ The General Fund is balanced though backfill of property taxes by the State of California and insurance proceeds.
- ✓ Measure C and General Fund cash flow reserves are maintained.
- ✓ Building Safety and Wastewater Fund has an adequate reserve to be able to ramp up services as needed in support of the rebuild effort.
- ✓ Gas Tax/Street Maintenance funding is secured until the 2020 census is implemented sometime in 2021.
- ✓ Thirty three percent of City-wide expenditures are for Capital Projects and Disaster Recovery.
- ✓ Measure C sunsets and Measure V begins in April 2021 (transition plan to be presented to Council in August for discussion/action.)
- ✓ This budget includes a Resolution to apportion the Town's PG&E settlement funds to ensure they provide adequate funding for operations for the next 15-18 years.
- ✓ This budget also includes direction from the Town to solicit proposals for a financial investment firm to ensure long-term financial sustainability through sound investment practices.

Fiscal Impact:

The Camp Fire of November 2018 has immediate and long-lasting impacts to the Town's finances. This 2020/21 proposed budget is another step in creating the Town's long-term financial recovery plan. Highlights of the 2020/21 budget are indicated above and throughout the 2020/21 budget presentation.

Town of Paradise Resolution 20-__ Attachment

Background:

The Camp Fire of November 2018 drastically impacted the Town of Paradise's long-term financial stability, and its ability to maintain critical public services. Its primary revenue sources to fund services were the homes, businesses and commerce destroyed in the wildfire. With the losses the Town has continued to endeavor to sustain current operations at pre-fire levels. This in large part has been through the assistance of State and insurance revenue backfills. While restoration of the Town has been and will continue to be priority backfills are coming to an end next fiscal year.

Pacific Gas and Electric Company (PG&E) has been found liable for the Camp Fire and settlement with the Town of Paradise will result in an estimated \$218 million after various costs related to the lawsuit are paid.

In order to continue restoration and rebuild efforts towards the development of a strong and vibrant community for the Town of Paradise, maintaining public services is critical since low crime, safe neighborhoods, maintained roads, health care options and good schools are pertinent to revitalizing Paradise. It's recognized that current revenues and funding at this juncture of recovery is not sufficient to support normal operations. Through the determined efforts of the Town of Paradise, its Town Council, residents, and businesses, resilience to endeavor towards the future will require the use of PG&E settlement funds to support the vision of a new, restored, and vibrant community.

What follows is an outline set forth as a means to bring back the Town of Paradise over the long-term, which is understood as a time frame not under twenty years.

1. Potential Investment Yield / Safety, Liquidity, and Yield

Use of PG&E settlement proceeds will support essential services and functions of the Town of Paradise. Investment of proceeds as a long-term plan towards future sustainability will include safety, liquidity, and yield as codified through the California Government Code Sec. 56301.

Over the next eighteen years it is estimated that an addition \$160 million is required to support the Town of Paradise's normal operations. It has been estimated that an investment of \$146 million at 1% will provide the \$14 million funding gap for a total of \$160 million, or the needed \$8.9 million per fiscal year.

Higher yield may accelerate additional resources made available through interest earnings based on principle held for investment. Also, an accelerated rebuild may

provide additional resources toward sustainability. These unknown variables will be part of the overall preservation of principle and use of investment earnings.

2. *Unfunded Liability and Pension Obligation Bond*

Despite all the Town's valiant efforts after the recession to minimize the CalPERS Pension liability, including reducing benefit plans for new hires and reducing staffing levels, the obligation is currently \$21.8 million. This is based on the actuarial assumption of a 7% discount rate (rate of return on investments) for CalPERS investments. CalPERS is not always able to achieve their goal rate of return which causes the unfunded liability to increase. Over the last 10 years their average return was 9.1%, but over 20 years the average return was 5.8%. With COVID-19, it is very likely the goal will not be achieved for the current year causing the unfunded liability to increase.

CalPERS has issued strict contribution requirements for agencies to begin funding their obligations. As discussed in the past, the amortization is over 25 years and will continue to put a squeeze on operating budgets.

It would be prudent for the Town to set aside monies to fund this obligation. This could be done in one of three ways:

- a. Through a Section 115 IRS- complaint Pension Stabilization Trust
- b. Through a traditional investment
- c. By giving the monies directly to CalPERS to pay off the obligation

More study and consultation with an investment professional is recommended before deciding; however, the final option is the least desirable and most risky.

The Other Post Employment Benefit Obligation (OPEB) currently sits at an actuarially determined \$10.4 million. When first measured, this obligation was \$48 million. Through capping benefits and establishing an irrevocable trust the Town has greatly reduced and contained the obligation.

Since the fire, the Town has been unable to contribute any more funding to the trust. The trust currently contains about \$191,000. It would be prudent and recommended that \$10.2 million be contributed to the trust. With proper investment, monies could be drawn to fund the annual retiree health premiums without impacting operating funds.

Resolution 20-
Use of PG&E Settlement Funds

Finally, there are 10 more years of payments remaining on the Pension Obligation Bond and a total of \$11.9 million owed. As researched before, this bond cannot be refinanced and must be paid according to the amortization schedule. However, if the Town invested \$10.2 million now in a trust that earns 3% per year, it could draw needed funds to make the payments without impacting operations.

3. Hazard Mitigation Grant Program

The Town has committed to funding the 25% match on the following important Hazard Mitigation Grant projects. The Town will seek to obtain funding for this match through CDBG-DR or other grant resources. However, until other funding is secured, it would be wise to set those funds aside.

Project	FEMA Share 75%	25% Match
Category 4 Tree Removal	\$6,899,992	\$2,299,998
Residential Ignition Resistant Improvements	6,349,490	2,116,497
Early Warning System	283,498	94,500
Hazardous Fuel Reduction Program	1,219,404	406,468
Defensible Space Code Enforcement	518,595	172,865
Storm Drain Master Plan	330,293	110,098
Reseeding Program	657,056	219,019
Totals	\$16,258,327	\$5,419,445

4. Deferred Maintenance and Equipment Replacement

The Town historically has not been able to properly fund equipment replacement and facility maintenance. This has resulted in unplanned expenditures and impacts to operation efficiency as staff dealt with broken equipment and vehicles.

A modest program over 18 years may look like the following:

Resolution 20-
Use of PG&E Settlement Funds

Description	Annual	Over 18 Years
3 police cars per year	225,000	\$4,050,000
1 Fire Engine		650,000
2 Vehicles per year for Public Works, Animal Control, Community Development or Administration	140,000	2,520,000
Facility Maintenance – Carpet, Paint, Windows, HVAC, Roof etc.	75,000	1,350,000
Total		\$8,570,000

\$7.85 million invested over 18 years would allow the Town to draw \$476,000 per year to fund equipment replacement and deferred maintenance.

4. Cash Flow and Contingency Reserves

The Town Council and staff worked extremely hard and made tough decisions to build back a \$1.2 million cash flow reserve for the General Fund. To have appropriate cash flow to cover operations without borrowing from other funds or from outside organizations, the Town should maintain a cash flow reserve of about 21.5% of general fund operating expenses. This is a reserve of \$2.8 million or 2 ½ months. Thus, the Town will need to add \$1.59 million to achieve this goal.

Further the Town should consider establishing a contingency reserve for emergencies or other significant economic downturns. We do not know the full extent of the COVID-19 Pandemic on the Town’s finances yet. It is believed the impacts will be minimal compared to other communities because rebuild efforts do not seem to be deterred. However, if another major recession or global event happens in the 18 years of this plan, it would be prudent to set aside funds that could be used to maintain services. 20% is recommended or about \$2.5 million.

Finally, the Town was just notified that along with a higher premium, the property insurance renewal for the Town includes a \$2.5 million dollar wildfire deductible. While it is unlikely that another wildfire of that size or intensity would impact the Town, a small wildfire that destroyed even one Town facility would create financial hardship. Also, we do not know if the event would be covered by FEMA. The most cautious approach is to set aside the \$2.5 million deductible.

5. FEMA Match and Insurance Ineligible Expenses

It will take several more years to complete and reconcile the FEMA Public Assistance and Insurance claims. To date the Town has submitted claims of about \$8 million. The Town still has facilities to rebuild and equipment to replace that is not yet factored into these submitted claims. Also, FEMA has matching requirements that the Town has not secured funding for. Finally, it is inevitable that some expenditures submitted with the claims will be determined ineligible or certain administrative expenses are not covered. It would be very prudent of the Town to set aside about \$2 million to cover matches and ineligible expenses.

Conclusion and Fiscal Analysis:

The PG&E Settlement is for \$270 million. However, litigation fees are estimated at 1% of the gross amount and attorney fees are 18% of the net. This results in the Town receiving about \$218 million.

In summary, following is a conservative yet prudent plan for the Town to consider in the appropriation of the settlement:

	Millions
Funding for Critical Public Services	\$146.0
Unfunded Liability and Pension Obligation Bond	42.2
Hazard Mitigation Grant Program Match	5.4
Deferred Maintenance and Equipment Replacement	7.9
Cash Flow and Contingency Reserves	6.6
FEMA PA Match and Insurance Ineligible Expenses	2.0
Total Commitments	<u>\$210.0</u>
Remaining Available for other Town Priorities	\$8

As demonstrated through this exercise, most of the PG&E settlement is committed and Resolution 20-XX sets forth a plan towards a future of a vibrant community that shows resiliency in the face of the drastic and unthinkable event of the Camp Fire. Through proper management and prudent investment of PG&E settlement funds the Town of Paradise will be able to sustain critical public services while endeavoring towards rebuilding both the Town and fiscal solvency.

EXHIBIT A
for
Town of Paradise
Resolution 20-__

Background:

The Camp Fire of November 2018 drastically impacted the Town of Paradise's long-term financial stability, and its ability to maintain critical public services. Its primary revenue sources to fund services were the homes, businesses and commerce destroyed in the wildfire. With the losses the Town has continued to endeavor to sustain current operations at pre-fire levels. This in large part has been through the assistance of State and insurance revenue backfills. While restoration of the Town has been and will continue to be priority backfills are coming to an end next fiscal year.

Pacific Gas and Electric Company (PG&E) has been determined to be responsible for the Camp Fire for which PG&E and the Town have entered into a settlement agreement that will result in an estimated \$219 million to the Town after various costs related to the lawsuit are paid.

In order to continue restoration and rebuild efforts towards the development of a strong and vibrant community for the Town of Paradise, maintaining public services is critical since low crime, safe neighborhoods, maintained roads, health care options and good schools are pertinent to revitalizing Paradise. It's recognized that current revenues and funding at this juncture of recovery is not sufficient to support normal operations. Through the determined efforts of the Town of Paradise, its Town Council, residents, and businesses, resilience to endeavor towards the future will require the use of PG&E settlement funds to support the vision of a new, restored, and vibrant community.

What follows is an outline set forth as a means to bring back the Town of Paradise over the long-term, which is understood as a time frame not under twenty years.

1. *Potential Investment Yield / Safety, Liquidity, and Yield*

Use of PG&E settlement proceeds will support essential services and functions of the Town of Paradise. Investment of proceeds as a long-term plan towards future sustainability will include safety, liquidity, and yield as codified through the California Government Code Sec. 56301.

Over the next eighteen years it is estimated that an addition \$160 million is required to support the Town of Paradise's normal operations. It has been estimated that an investment of \$146 million at 1% will provide the \$14 million funding gap for a total of \$160 million, or the needed \$8.9 million per fiscal year.

Higher yield may accelerate additional resources made available through interest earnings based on principle held for investment. Also, an accelerated rebuild may provide additional resources toward sustainability. These unknown variables will be part of the overall preservation of principle and use of investment earnings.

2. Unfunded Liability and Pension Obligation Bond

Despite all the Town's valiant efforts after the recession to minimize the CalPERS Pension liability, including reducing benefit plans for new hires and reducing staffing levels, the obligation is currently \$21.8 million. This is based on the actuarial assumption of a 7% discount rate (rate of return on investments) for CalPERS investments. CalPERS is not always able to achieve their goal rate of return which causes the unfunded liability to increase. Over the last 10 years their average return was 9.1%, but over 20 years the average return was 5.8%. With COVID-19, it is very likely the goal will not be achieved for the current year causing the unfunded liability to increase.

CalPERS has issued strict contribution requirements for agencies to begin funding their obligations. As discussed in the past, the amortization is over 25 years and will continue to put a squeeze on operating budgets.

It would be prudent for the Town to set aside monies to fund this obligation. This could be done in one of three ways:

- a. Through a Section 115 IRS- complaint Pension Stabilization Trust
- b. Through a traditional investment
- c. By giving the monies directly to CalPERS to pay off the obligation

More study and consultation with an investment professional is recommended before deciding; however, the final option is the least desirable and most risky.

The Other Post Employment Benefit Obligation (OPEB) currently sits at an actuarily determined \$10.4 million. When first measured, this obligation was \$48 million. Through capping benefits and establishing an irrevocable trust the Town has greatly reduced and contained the obligation.

Since the fire, the Town has been unable to contribute any more funding to the trust. The trust currently contains about \$191,000. It would be prudent and recommended that \$10.2 million be contributed to the trust. With proper investment, monies could be drawn to fund the annual retiree health premiums without impacting operating funds.

Finally, there are 10 more years of payments remaining on the Pension Obligation Bond and a total of \$11.9 million owed. As researched before, this bond cannot be refinanced and must be paid according to the amortization schedule. However, if the Town invested \$10.2 million now in a trust that earns 3% per year, it could draw needed funds to make the payments without impacting operations.

3. Hazard Mitigation Grant Program

The Town has committed to funding the 25% match on the following important Hazard Mitigation Grant projects. The Town will seek to obtain funding for this match through CDBG-DR or other grant resources. However, until other funding is secured, it would be wise to set those funds aside.

Project	FEMA Share 75%	25% Match
Category 4 Tree Removal	\$6,899,992	\$2,299,998
Residential Ignition Resistant Improvements	6,349,490	2,116,497
Early Warning System	283,498	94,500
Hazardous Fuel Reduction Program	1,219,404	406,468
Defensible Space Code Enforcement	518,595	172,865
Storm Drain Master Plan	330,293	110,098
Reseeding Program	657,056	219,019
Totals	\$16,258,327	\$5,419,445

4. Deferred Maintenance and Equipment Replacement

The Town historically has not been able to properly fund equipment replacement and facility maintenance. This has resulted in unplanned expenditures and impacts to operation efficiency as staff dealt with broken equipment and vehicles.

A modest program over 18 years may look like the following:

Resolution 20-
Use of PG&E Settlement Funds

Description	Annual	Over 18 Years
3 police cars per year	225,000	\$4,050,000
1 Fire Engine		650,000
2 Vehicles per year for Public Works, Animal Control, Community Development or Administration	140,000	2,520,000
Facility Maintenance – Carpet, Paint, Windows, HVAC, Roof etc.	75,000	1,350,000
Total		\$8,570,000

\$7.85 million invested over 18 years would allow the Town to draw \$476,000 per year to fund equipment replacement and deferred maintenance.

4. Cash Flow and Contingency Reserves

The Town Council and staff worked extremely hard and made tough decisions to build back a \$1.2 million cash flow reserve for the General Fund. To have appropriate cash flow to cover operations without borrowing from other funds or from outside organizations, the Town should maintain a cash flow reserve of about 21.5% of general fund operating expenses. This is a reserve of \$2.8 million or 2 ½ months. Thus, the Town will need to add \$1.59 million to achieve this goal.

Further the Town should consider establishing a contingency reserve for emergencies or other significant economic downturns. We do not know the full extent of the COVID-19 Pandemic on the Town’s finances yet. It is believed the impacts will be minimal compared to other communities because rebuild efforts do not seem to be deterred. However, if another major recession or global event happens in the 18 years of this plan, it would be prudent to set aside funds that could be used to maintain services. 20% is recommended or about \$2.5 million.

Finally, the Town was just notified that along with a higher premium, the property insurance renewal for the Town includes a \$2.5 million dollar wildfire deductible. While it is unlikely that another wildfire of that size or intensity would impact the Town, a small wildfire that destroyed even one Town facility would create financial hardship. Also, we do not know if the event would be covered by FEMA. The most cautious approach is to set aside the \$2.5 million deductible.

5. FEMA Match and Insurance Ineligible Expenses

It will take several more years to complete and reconcile the FEMA Public Assistance and Insurance claims. To date the Town has submitted claims of about \$8 million. The Town still has facilities to rebuild and equipment to replace that is not yet factored into these submitted claims. Also, FEMA has matching requirements that the Town has not secured funding for. Finally, it is inevitable that some expenditures submitted with the claims will be determined ineligible or certain administrative expenses are not covered. It would be very prudent of the Town to set aside about \$2 million to cover matches and ineligible expenses.

Conclusion and Fiscal Analysis:

The Town and PG&E settlement agreement is for \$270 million. However, litigation fees and costs are estimated at 1% of the gross amount and attorney fees are 18% of the net. This results in the Town receiving about \$219 million.

In summary, following is a conservative yet prudent plan for the Town to consider in the appropriation of the settlement funds:

	Millions
Funding for Critical Public Services	\$146.0
Unfunded Liability and Pension Obligation Bond	42.2
Hazard Mitigation Grant Program Match	5.4
Deferred Maintenance and Equipment Replacement	7.9
Cash Flow and Contingency Reserves	6.6
FEMA PA Match and Insurance Ineligible Expenses	2.0
Total Commitments	<u>\$210.0</u>
Remaining Available for other Town Priorities	\$9

As demonstrated through this exercise, most of the PG&E settlement is committed and Resolution 20-XX sets forth a plan towards a future of a vibrant community that shows resiliency in the face of the drastic and unthinkable event of the Camp Fire. Through proper management and prudent investment of PG&E settlement funds the Town of Paradise will be able to sustain critical public services while endeavoring towards rebuilding both the Town and fiscal solvency.

I. GENERAL

A. INTRODUCTION

The Town of Paradise ("Town") is seeking proposals from a qualified individual or firm to provide service as Investment Advisory Services.

The Town seeks advice as to the most appropriate approach to manage Pacific Gas and Electric ("PG&E") settlement funds.

B. BACKGROUND

The Town of Paradise was incorporated on November 27, 1979. Nestled in the foothills of California's Sierra Nevada Mountains, Paradise is located on a ridge with elevations ranging from 2,000 to 2,800 feet above sea level. The neighboring town of Chico is twelve miles west, and Sacramento is just ninety miles north. Before the CAMP Fire on November 8, 2018, the Town's population was over 26,000 and Paradise was the second largest city in Butte County. Paradise was known for its tall pines and towering oaks, and an engaging environment and friendly people.

On November 8, 2018 the deadliest and most destructive wildfire in California history known as the CAMP fire, came through the Town and destroyed over 90% of homes and businesses within the first six hours. In the aftermath nearly two years later Pacific Gas and Electric (PG&E) was held responsible for the deaths and destruction of the CAMP fire. Finally, on June 16, 2020, settlements between PG&E and the various agencies affected by the CAMP fire were reached. Paradise's net settlement totaled \$219 million.

The Town of Paradise is seeking proposals from qualified firms to provide investment advisory services for its PG&E settlement funds. Currently the Town uses LAIF for cash on hand for liquidity purposes. The Town's investment objectives for the use of PG&E settlement funds has been adopted by resolution and lays the foundation for a long-term plan for the Town's operational sustainability necessary for the rebuild efforts of the Town of Paradise for years to come.

Council Agenda Summary
Date: July 14, 2020**

Agenda Item: 6(b)

ORIGINATED BY: Garrett Sjolund, Fire Chief
REVIEWED BY: Lauren M. Gill, Town Manager
Dwight L. Moore, Town Attorney
SUBJECT: Consider Introducing an Ordinance Amending Chapter 8.58 of the Paradise Municipal Code Relating to Defensible Space and Hazardous Fuel Management

COUNCIL ACTION REQUESTED: Upon conclusion of public discussion of this agenda item adopt either the recommended action or an alternative action.

RECOMMENDATION: Adopt a **MOTION TO:**

1. Consider waiving the first reading of Town Ordinance No. _____ and read by title only (roll call vote); **AND**
2. Introduce Town Ordinance No. _____. "An Ordinance Amending Paradise Municipal Code Section 8.58.060 Relating to Defensible Space and Hazardous Fuel Management"; **OR**
3. Adopt an alternative directive to Town staff.

BACKGROUND: Attached with this council agenda summary for your consideration and recommended adoption for introduction purposes is a copy of an ordinance document recently prepared by town staff and reviewed by the Town Manager and Town Attorney. Recommended text amendments to the ordinance are shown in "shaded" (additions) and "~~strike-out~~" (deletions) font.

On June 11, 2019, Town Council reviewed and approved directives to pursue the possible adoption of 9 of 20 "Post Camp Fire Paradise Visioning Process" action options that were facilitated by Urban Design Associates (UDA). In accordance with and among the Town Council adopted directives staff was authorized to proceed with creating an ordinance amending the Paradise Municipal Code to include a chapter of "defensible space and hazardous fuel management" regulations for consideration and possible adoption by the Town Council. At the September 10, 2019 Town Council meeting, the Town Council approved the ordinance, but upon review, the Town Attorney made corrections to the ordinance requiring that it be brought back to Council for re-consideration.

In March 2020, the Fire Prevention Officer and CalFire staff began conducting town-wide inspections of properties for compliance with the defensible space and hazard fuel management ordinance. Based on existing conditions in the field with the large amount of vacant properties and subsequent conversations with landowners, it became apparent that additional refinements to the ordinance were needed so that minimum fuel modification standards for vacant lots were clearly stated in the Paradise Municipal Code (PMC).

ANALYSIS: The attached ordinance proposes to amend Section 8.58.060 of the PMC relating to defensible space and hazardous fuel management requirements in order to enhance the health and safety of the Town’s “Post Camp Fire” community.

The ordinance would modify section 8.58.060 C and add section E as follows:

- C. An unimproved parcel of one and one-half (1.5) acres or less in size shall be required to provide fuel modification to the entire parcel. Fuel modification requirements shall consist of the following:
 - 1. Weeds, dry grass and brush are required to be mowed to a height of four (4) inches.
 - 2. Ladder fuels (vegetation, brush and small trees under mature trees) shall be removed.
 - 3. Trees shall be pruned up to six (6) feet from the ground. For shorter height trees, pruning shall not exceed 1/3 of the overall tree height. Tree placement shall be planned to ensure the mature canopy is no closer than ten (10) feet to the edge of any structure.Unimproved parcels greater than one and one-half (1.5) acres in size shall be required to maintain a fuel break a minimum (30) feet from the property line. The fuel break requirements shall consist of the same requirements as unimproved parcel of one and one-half (1.5) acres or less.

- E. Prior to transfer of ownership of a parcel from the owner to another, the owner shall obtain a Certificate of Compliance from the Town that the parcel is not in violation of this section.

Lastly, the Town Planning Director has determined that this proposed ordinance is a class of project that has been determined not to have a significant effect on the environment. Therefore, the proposed ordinance action is exempt from the requirements of the California Environmental Quality Act (CEQA), pursuant to CEQA Guidelines section 15308 (Actions by Regulatory Agencies for Protection of the Environment). **NOTE:** This subject CEQA determination finding is embodied within the attached proposed ordinance document.

FINANCIAL IMPACT: There is no financial impact associated with the first reading and introduction of the ordinance.

ORDINANCE NO. ____**

**AN ORDINANCE AMENDING PARADISE MUNICIPAL CODE SECTION 8.58.060 RELATING TO
DEFENSIBLE SPACE AND HAZARDOUS FUEL MANAGEMENT**

SECTION 1. Section 8.58.060 of the Paradise Municipal Code is amended to read as follows:

8.58.060 Defensible Space/Hazardous Fuel Management Requirements

A. Any person that owns, leases, controls, operates, or maintains any real property in the Town of Paradise shall continuously do the following:

1. Maintain immediately around and adjacent to any building or structure free of combustible materials. Combustible materials shall not be stored under decks and the area under decks shall be maintained free of vegetative material. Fencing material constructed of combustible material shall not be within five (5) feet from any structure. Only low-growing vegetation with high-moisture content, such as flowers and ground covers and green lawns, free of dead vegetative debris, shall be allowed within five (5) feet of any structure.
2. Remove or prune flammable plants and shrubs near windows and under eave vents (a recommended no-planting zone).
3. Clean roofs and gutters of dead leaves, debris and pine needles. In addition to the management of combustible material around a structure, the following shall be required: 1) Replace or repair any loose or missing shingles or roof tiles to prevent ember penetration. 2) Provide and maintain a screen over the outlet of every chimney or stovepipe that is attached to any fireplace, stove, or other device that burns any solid or liquid fuel. The screen shall be constructed of nonflammable material with openings that are not more than 1/2 inch.
4. Maintain an area adjacent to any structure with a one-hundred (100)-foot fire break made by removing and clearing away all flammable vegetation or other combustible growth from the structure on each side thereof or to the property line, whichever is closer. Within the one hundred (100)-foot fire break: 1) weeds and dry grass shall be required to be mowed to a height of four (4) inches; 2) ladder fuels (vegetation, brush and small trees under mature trees) shall be removed; 3) trees shall be pruned up to six (6) feet from the ground. For shorter height trees, pruning shall not exceed 1/3 of the overall tree height. Tree placement shall be planned to ensure the mature canopy is no closer than ten (10) feet to the edge of the structure. Trees and shrubs shall be limited to small clusters of a few each to break up the continuity of the vegetation across the

landscape. This subsection does not apply to single tree specimens, ornamental shrubbery, or similar plants which are used as ground cover and provided they do not form a means of rapidly transmitting fire from the native growth to any building or structure.

5. Remove the portion of any tree which extends within ten (10) feet of the outlet of any chimney or stovepipe. Maintain any tree adjacent to or overhanging any structure free of dead and dying wood.
 6. Clear flammable vegetation on each side of a street or driveway for a horizontal distance of ten (10) feet and a vertical height of fourteen (14) feet. Cut vegetation within ten (10) feet of a street or driveway on the property to four (4) inches above ground. The Fire Chief, or his or her designee, may require a distance greater than ten (10) feet. This applies to public and private driveway(s) and any public or private streets that border or bisect property.
- B. No property owner shall permit on improved or unimproved parcel any accumulation of combustible materials, dead, dying or diseased trees, or green waste within thirty (30) feet of the property line when such accumulation endangers or encroaches on the required Defensible Space for structures or buildings on an adjacent property. The Fire Chief, or his or her designee, may require a distance greater than thirty (30) feet but not to exceed one hundred (100) feet, when it is determined that the greater distance is necessary to provide Defensible Space for structures or building on an adjacent property.
- ~~C. Pursuant to section 8.58.110, the Fire Chief, or his or her designee, may require fuels modification on the entire parcel(s) of vacant land that pose a threat to additional parcels in order to reduce the fire hazard to a building, structural improvement, crop or other property.~~
- C. An unimproved parcel of one and one-half (1.5) acres or less in size shall be required to provide fuel modification to the entire parcel. Fuel modification requirements shall consist of the following:
1. Weeds, dry grass and brush are required to be mowed to a height of four (4) inches.
 2. Ladder fuels (vegetation, brush and small trees under mature trees) shall be removed.
 3. Trees shall be pruned up to six (6) feet from the ground. For shorter height trees, pruning shall not exceed 1/3 of the overall tree height. Tree placement shall be planned to ensure the mature canopy is no closer than ten (10) feet to the edge of any structure.

Unimproved parcels greater than one and one-half (1.5) acres in size shall be required to maintain a fuel break a minimum (30) feet from the property line. The fuel break requirements shall consist of the same requirements as unimproved parcel of one and one-half (1.5) acres or less.

D. In the event the Fire Chief, or his or her designee, finds that additional fuel management is necessary to significantly reduce the risk of transmission of flame or heat to adjacent properties and means of egress and ingress, the Fire Chief, or his or her designee, may mandate fuel modification of an area more or less than the preceding widths or heights of this section.

E. Prior to transfer of ownership of a parcel from the owner to another, the owner shall obtain a Certificate of Compliance from the Town that the parcel is not in violation of this section.

SECTION 2. Pursuant to California Environmental Quality Act (CEQA) Guidelines section 15308 this ordinance is exempt from CEQA in that it is a Class 8 categorical exemption for actions taken by a regulatory agency to establish procedures for the protection of the environment.

SECTION 3. This ordinance shall take effect thirty (30) days after the date of its passage. Before the expiration of fifteen (15) days after its passage, this ordinance or a summary thereof shall be published in a newspaper of general circulation published and circulated within the Town of Paradise along with the names of the members of the Town Council of Paradise voting for and against same.

Town of Paradise
Council Agenda Summary
Date: July 14, 2020

Agenda Item: 6 (c)

ORIGINATED BY: Susan Hartman, Community Development Director
REVIEWED BY: Lauren M. Gill, Town Manager
SUBJECT: Town Council Adoption of a Text Amendment to Urgency Ordinance No. 593 Relating to Interim Housing

COUNCIL ACTION REQUESTED: Adopt a **MOTION TO:**

1. Consider waiving the reading of entire Town of Paradise Ordinance No. ___ and Adopt Town of Paradise Ordinance No. ___, “An Urgency Ordinance of the Town Council of the Town of Paradise Repealing Urgency Ordinance No. 593 and Adopting New Ordinance Relating to Interim Housing, Accessory Building(s) and Unoccupied Recreational Vehicle Inside the Camp Fire Area”; **OR**
2. Direct an alternative directive to town staff.

BACKGROUND:

Since December 11, 2018, Town Council and staff have worked to respond to changing circumstances witnessed in the field as well as community feedback as to the application of the interim housing urgency ordinance. Those ordinance changes have consisted of:

- May 22, 2019 – ordinance amended to allow an accessory building to be constructed prior to the primary residence with an obligation to the owner to submit house plans by the end of the urgency ordinance.
- January 14, 2020 – ordinance amended to allow for RV storage.
- February 11, 2020 – ordinance amended to specify that only an owner, who is also a displaced person, or his/her authorized agent can secure a Temporary Use Permit for an RV, all occupied RVs must have garbage service and be connected to a functioning septic system and tied to electrical service.
- February 18, 2020 – ordinance text correction that an owner, who owned the property at the time of the fire (not necessarily displaced), or his/her authorized agent can secure a Temporary Use Permit for an RV.

DISCUSSION:

It is important to acknowledge and realize that since its original December 2018 adoption and its subsequent revisions adoptions that the Town Urgency Ordinance relating to interim housing, etc. in the Camp Fire area is scheduled to expire as of **December 31, 2020**.

With less than 6 months left in the urgency ordinance, it is time to consider transitioning the ordinance standards to meet the final intent which is to have active rebuild permits issued on each site that currently has temporary occupied RVs by the end of 2020.

To avoid and minimize anticipated future code enforcement circumstances and meet the Town's intent of the urgency ordinance, staff recommends that its eligibility criteria for temporary use permits sanctioning RV housing be revised to include the direct association with previous and/or concurrent submittal of a building permit application for construction of the permanent dwelling on the affected property. In addition, staff recommends new text language stipulating issuance of temporary use permits linked directly with construction of the new permanent dwelling not be sooner than the issuance date of its related construction building permit. This would bring the urgency ordinance in line with the existing temporary use regulations contained in the zoning ordinance pertaining to occupancy of a temporary dwelling while constructing the permanent residence.

Staff has developed the attached proposed amended urgency ordinance that, if adopted by the Town Council, would repeal Urgency Ordinance No 593 and replace it with a revised urgency ordinance that further refines the standards to secure a temporary use permit to occupy an RV with utilities hook-ups on any eligible property provided it is directly associated with a previous and/or concurrent submittal of a building permit application for construction of the permanent dwelling on the affected property (added text located within section 7 in the attached ordinance is shown as shaded).

FINANCIAL IMPACT:

The cost for publication of the ordinance summary within the local newspaper will be borne by the Town of Paradise.

**TOWN OF PARADISE
URGENCY ORDINANCE NO. _____**

**AN URGENCY ORDINANCE OF THE TOWN COUNCIL OF THE
TOWN OF PARADISE REPEALING URGENCY ORDINANCE NO. 593
AND ADOPTING NEW URGENCY ORDINANCE RELATING TO INTERIM
HOUSING, ACCESSORY BUILDING(S) AND UNOCCUPIED RECREATIONAL
VEHICLE INSIDE THE CAMPFIRE AREA**

The Town Council of the Town of Paradise does ordain as follows:

Section 1. Ordinance No. 593 is hereby repealed.

The Town Council of the Town of Paradise does ordain as follows:

Section 2. Emergency Findings.

This Urgency Ordinance is adopted pursuant to California Government Code Section 36934 and shall take effect immediately upon its approval by at least a four-fifths vote of the Town Council. The Council, based on determinations of the Butte County Local Health Officer, finds that this Ordinance is necessary for the immediate preservation of the public peace, health and safety, based upon facts set forth in Section 3 of this Ordinance.

Section 3.

A. Conditions of extreme peril to the safety of persons and property within the Town of Paradise were caused by the Camp Fire, commencing on the 8th day of November, 2018, at which time the Town Council was not in session.

B. California Government Code Section 8630 empowers the Town Director of Emergency Services (Director) to proclaim the existence of a local emergency when the Town is affected or

1 likely to be affected by a public calamity, subject to
2 ratification by the Town Council at the earliest practicable
3 time.

4 C. On November 8, 2018, the Director proclaimed the existence of
5 a local emergency within the Town due to the Camp Fire.

6 D. On November 8, 2018, the Acting Governor of the State of
7 California proclaimed a State of Emergency for Butte County
8 pursuant to the California Emergency Services Act, commencing
9 with Section 8550 of the Government Code, and on November 14,
10 2018, the Governor issued Executive Order B-57-18 concerning
11 the Camp Fire.

12 E. On November 9, 2018, the Camp Fire was still burning through
13 the Town and despite firefighters' best efforts, the wildfire
14 was not contained. Evacuation orders were in place and
15 numerous severe public health and safety hazards were present
16 in the Camp Fire area, including many blocked roads from
17 fallen power lines, burned trees and vehicles, numerous
18 burned vehicles were left throughout the Camp Fire area due
19 to survivors fleeing their vehicles in efforts to survive the
20 wildfire, no available utilities, no available public
21 services and the presence of human remains and animal
22 carcasses. At the time, the Town estimated that 2,000
23 structures had burned in the Camp Fire.

24 F. On November 9, 2018, Dr. Andrew Miller, Butte County's Local
25 Health Officer, issued a Declaration of Health Emergency
26 pursuant to California Health and Safety Code section 101080.

1 Dr. Miller's declaration stated that the local health
2 emergency was a consequence of the debris resulting from the
3 Camp Fire that contains hazardous material in the ash of the
4 burned qualifying structures. The purpose of the Declaration
5 was to address the immediate threat to the public health and
6 the imminent and proximate threat of the introduction of
7 contagious, infectious or communicable disease, chemical
8 agents, non-communicable biologic agents, toxins and/or
9 radioactive agents present at the time in the Camp Fire area.
10 The threats included (1) the enormous amount of fire debris
11 present in the Camp Fire area, including ash and debris
12 containing hazardous materials and probable radioactive
13 materials present in ash and debris from qualifying
14 structures, (2) the threat of infectious or communicable
15 disease and/or non-communicable biologic agents due to animal
16 carcasses, radioactive waste and perishable foods, (3) the
17 potential contamination or destruction of the residential and
18 commercial water supply in the Camp Fire area and (4) the
19 potential pollution of the drinking water downstream from the
20 Camp Fire area if weather conditions caused the spread of the
21 hazardous materials in the ash and debris of burned qualifying
22 structures.

23 G. On November 12, 2018, the President of the United States
24 declared the existence of a major disaster in the State of
25 California, thereby providing assistance from many federal
26

1 agencies, including the Federal Emergency Management Agency
2 (FEMA).

3 H. On November 13, 2018, the Butte County Board of Supervisors
4 ratified Dr. Miller's Declaration of Health Emergency.

5 I. On November 21, 2018, the status of the Camp Fire area was as
6 follows: firefighters had contained the Camp Fire; the
7 Sheriff had lifted evacuation orders; work crews had removed
8 fallen power lines, burned vehicles and trees blocking the
9 roads; utilities including electric power, gas and non-
10 potable water had become available; no local businesses were
11 open to serve the public; and no public services were
12 available. Further, preliminary actions had been taken to
13 mitigate the risk from animal carcasses, radioactive waste
14 and perishable foods in the Camp Fire area, however, concerns
15 regarding the threats remained. The public health hazards
16 present in the Camp Fire area included (1) the public health
17 hazards from the enormous amount of fire debris, (2) the
18 public health hazard from the hazardous materials and
19 probable radioactive materials present in the ash and debris
20 from destroyed qualifying structures, (3) the threat of
21 infectious or communicable disease and/or non-communicable
22 biologic agent due to the presence of animal carcasses,
23 perishable foods and radioactive waste and (4) the potential
24 pollution of the drinking water downstream from the Camp Fire
25 area if weather conditions caused the spread of the hazardous
26 materials in the ash and debris of burned qualifying

1 structures. At the time, the Camp Fire had destroyed thousands
2 of structures.

3 J. On November 21, 2018, Dr. Miller issued a Hazard Advisory
4 strongly suggesting residents should not reside on property
5 with qualifying structures damaged or destroyed by the Camp
6 Fire until the property had been cleared of hazardous waste,
7 ash and debris and certified clean by the County Department
8 of Public Health, Environmental Health Division. The County
9 Department of Public Health provided residents with re-entry
10 packets which included personal protective equipment and
11 information on the dangerous conditions and toxic materials
12 present in the Camp Fire area. The re-entry packets were
13 intended to improve the safety of the residents who chose to
14 visit their properties to collect valuables and not intended
15 to encourage long-term visitation or habitation. The purpose
16 of the Hazard Advisory was to address the public health
17 hazards present at the time in the Camp Fire area, including
18 (1) the enormous amount of fire debris present in the Camp
19 Fire area, (2) the hazardous materials and probable
20 radioactive materials present in ash and debris from
21 qualifying structures, (3) the lessened but still present
22 threat of infectious or communicable disease and/or non-
23 communicable biologic agents due to animal carcasses,
24 radioactive waste and perishable foods, (4) the potential
25 contamination or destruction of the residential and
26 commercial water supply in the Camp Fire area and (5) the

1 potential pollution of the drinking water downstream from the
2 Camp Fire area if weather conditions caused the spread of the
3 hazardous materials in the ash and debris of burned qualifying
4 structures.

5 K. The Camp Fire to date has consumed 153,336 acres and has led
6 to the destruction of 13,696 residences, damage to 462
7 residences, the destruction of 276 multiple family
8 residences, the destruction of 528 commercial buildings,
9 damage to 102 commercial buildings, the destruction of 4,293
10 other minor structures, and resulted in the evacuation of
11 over 50,000 people. As a result, the Camp Fire has created an
12 enormous amount of debris.

13 L. There exists the potential for widespread toxic exposures and
14 threats to public health and the environment in the aftermath
15 of a major wildfire disaster, and debris and ash from
16 residential and commercial structure fires contain hazardous
17 materials and the harmful health effects of hazardous
18 materials produced by a wildfire are well-documented.

19 M. The combustion of building materials such as siding, roofing
20 tiles, and insulation results in dangerous ash that may
21 contain asbestos, heavy metals and other hazardous materials.
22 Household hazardous waste such as paint, gasoline, cleaning
23 products, pesticides, compressed gas cylinders, and chemicals
24 may have been stored in homes, garages, or sheds that may
25 have burned in the fire, also producing hazardous materials.
26

1 N. Exposure to hazardous materials may lead to acute and chronic
2 health effects and may cause long-term public health and
3 environmental impacts. Uncontrolled hazardous materials and
4 debris pose significant threats to public health through
5 inhalation of dust particles and contamination of drinking
6 water supplies. Improper handling can expose residents and
7 workers to toxic materials, and improper transport and
8 disposal of fire debris can spread hazardous substances
9 throughout the community.

10 O. Standards and removal procedures are needed immediately to
11 protect the public health and environment, and to facilitate
12 coordinated and effective mitigation of the risks to the
13 public health and environment from the health hazards
14 generated by the Camp Fire disaster.

15 P. The Camp Fire has created hazardous waste conditions in the
16 Town of Paradise in the form of contaminated debris from
17 household hazardous waste/materials and structural debris
18 resulting from the destruction of thousands of structures.
19 This hazardous waste debris poses a substantial present or
20 potential hazard to human health and the environment until
21 the property is certified clean. The accumulated exposure to
22 hazardous waste debris over an extended period of time poses
23 a severe hazard to human health.

24 Q. The Town of Paradise previously approved Ordinance No. 572,
25 Ordinance No. 573, and Ordinance No. 575 as urgency measures
26 relating to the Camp Fire disaster recovery on December 12,

1 2018, The actions addressed the need for the regulation of
2 debris removal to alleviate the public health, safety and
3 welfare concerns associated with the ash and debris of
4 qualifying structures and temporary emergency housing
5 options.

6 R. As of February 4, 2019, the status of the Camp Fire disaster
7 recovery **was** as follows: (1) Phase I cleanup by the U.S.
8 Environmental Protection Agency and the California Department
9 of Toxic Substances Control is complete, which has reduced
10 the public health concerns relating to the most hazardous
11 materials present in the Camp Fire area, (2) Phase II of the
12 cleanup pursuant to the Government (CalOES) Program and the
13 Alternative Program has commenced, (3) utilities are
14 available (except for potable water), (4) numerous businesses
15 have opened to serve the public, (5) public services are
16 available, including a FEMA and CalOES jointly-operated
17 Disaster Recovery Center in Paradise, California. Current
18 threats include (1) the enormous amount of fire debris present
19 in the Camp Fire area, (2) hazardous materials and probable
20 radioactive materials present in ash and debris from
21 qualifying structures, (2) the potential pollution of the
22 drinking water downstream from the Camp Fire area if weather
23 conditions caused the spread of the hazardous materials in
24 the ash and debris of burned qualifying structures. The
25 purpose of this Ordinance is to allow residents to live on
26 properties in the Camp Fire area that do not contain fire ash

1 and debris from a qualifying structure destroyed or damaged
2 by the Camp Fire.

3 S. The Debris Removal Operations Plan for the Camp Fire prepared
4 by the CalOES/CalRecycle Incident Management Team provides
5 that the DTSC has issued reports regarding the assessment of
6 burn debris from wildfires in the past. The studies of burned
7 residential homes and structures from large scale wildland
8 fires indicated that the resulting ash and debris can contain
9 asbestos and toxic concentrated amounts of heavy metals such
10 as antimony, arsenic, cadmium, copper, lead, and zinc
11 (qualifying structures). Additionally, the ash and debris may
12 contain higher concentrations of lead if the home was built
13 prior 1978 when lead was banned from household paint in the
14 United States. The reports indicated that the residual ash of
15 burned residential homes and structures has high
16 concentrations of heavy metals that can be toxic and can have
17 significant impact to individual properties, local
18 communities, and watersheds if the ash and debris is not
19 removed safely and promptly. The plan also indicates that the
20 purpose of the structural debris removal program is to remove
21 debris that poses a risk to health and/or the environment.
22 Debris from structures smaller than 120 square feet are not
23 included in the program.

24 T. The Butte County Local Health Officer Dr. Miller has indicated
25 that the Phase II cleanup of the properties containing ash
26 and debris from a qualifying structure mitigates the public

1 health hazards of the Camp Fire. Further, failing to clean
2 properties containing ash and debris from a qualifying
3 structure can have severely negative long term consequences
4 to the public health and environment. Therefore, the focus
5 must be on accomplishment of the Phase II cleanup to address
6 the public health hazards. The standard for determining when
7 a property is clean from ash and debris from a qualifying
8 structure is when the Phase II cleanup work is complete and
9 the property is certified clean by the County Department of
10 Public Health, Environmental Health Division. Ash and debris
11 of qualifying structures is the focus of the Phase II cleanup
12 work. The significance of the public health risks is higher
13 on properties with ash and debris from a qualifying structure.
14 Given the progress the Camp Fire disaster recovery has made
15 with respect to the hazards identified in the findings above,
16 the remaining significant public health hazard is the ash and
17 debris from qualifying structures. Based on the foregoing
18 properties that contain ash and debris from qualifying
19 structures constitute a significant public health risk.
20 Therefore, those properties should be ineligible for
21 temporary emergency housing until Phase II cleanup work is
22 completed on the property and is certified clean by the
23 Department of Public Health, Environmental Health Division.
24 Properties that do not contain ash and debris from a
25 qualifying structure do not pose a significant public health
26 risk and should be eligible for temporary emergency housing.

1 U. Due to the magnitude of the destruction, there is a need to
2 provide for sufficient housing options both inside and
3 outside of the Camp Fire affected area. Thus, on February 4,
4 2019, the Town of Paradise adopted Ordinance No. 575 that
5 repealed Ordinance No. 573 and established an ordinance that
6 temporarily relaxes some building and zoning regulations to
7 allow for additional interim housing both inside and outside
8 of the Camp Fire affected area for displaced persons.

9 V. There exists an immediate need to provide accessory buildings
10 to accommodate storage of personal property of persons
11 displaced by the Camp Fire who own Eligible Property that has
12 been certified clean pursuant to Phase II requirements by the
13 County Department of Public Health, Environmental Health
14 Division. This Ordinance temporarily relaxes some Town zoning
15 regulations to allow for establishment of an accessory
16 building on property both inside and outside of the Camp Fire
17 affected area for the displaced persons for the storage of
18 essential equipment necessary to the recovery from the
19 damages caused by the Camp Fire. Due to the magnitude of the
20 destruction and its related and significant impacts on
21 properties, there is a need to provide displaced property
22 owners with the option of constructing accessory buildings
23 both inside and outside of the Camp Fire affected area without
24 first obtaining building permits for primary residences on
25 their properties.
26

1 W. It is essential that this Ordinance become immediately
2 effective (1) to mitigate the harm that could be caused to
3 the public health and safety and to the environment from the
4 improper disturbance, removal and/or disposal of debris
5 containing hazardous materials, and to facilitate the orderly
6 response to the Camp Fire disaster; and (2) to allow the
7 fastest possible transition of homeless and displaced
8 residents to interim and long-term shelter; and (3) to allow
9 displaced persons who own Eligible Property certified clean
10 pursuant to Phase II requirements an option to establish an
11 accessory building on their property to better facilitate and
12 further expedite their property maintenance and storage of
13 essential equipment required to allow for the property
14 rebuild process.

15 **Section 4. Purpose.**

16 13,696 homes were destroyed by the Camp Fire in the Town of
17 Paradise and surrounding unincorporated areas. This disaster has
18 created a need for housing on a scale that cannot be accommodated
19 through the existing available housing in the Town. To meet the
20 immediate need for housing, the Town relaxed some building and
21 zoning regulations in a prior Ordinance to allow for additional
22 temporary housing. However, this additional temporary housing may
23 not be sufficient to meet the large and immediate need. This
24 Ordinance relaxes some building and zoning regulations to allow
25 for additional temporary housing inside the Camp Fire affected
26 area. Persons moving back to the area do so at their own risk and

1 should make themselves aware of the health hazards of doing so.
2 The Ordinance allows persons to place temporary housing as well as
3 temporary recreational vehicle storage on an Eligible Property.
4 This Ordinance also provides an option for affected property owners
5 to establish an accessory building on their Eligible Property
6 without first obtaining a building permit for a primary residence.
7 The purpose of this Ordinance is to develop reasonable standards
8 that allow persons to move back into the Camp Fire affected area
9 while a massive debris removal program is implemented and, at the
10 same time, provide interim shelter as well as an option of an
11 accessory building for property maintenance equipment and rebuild
12 materials storage for Town residents on private property during
13 this housing crisis.

12 roll of the Butte County Assessor's office. The notice shall
13 specify what constitutes the public nuisance together with an
14 order to abate the public nuisance within a specific time
15 period, advise the property owner of the right to an appeal
16 hearing where the property owner may present evidence in
17 defense, and advise the property owner that the Town may assess
18 the property for the cost of abatement.

19 C. The appeal hearing shall be requested in writing by the
20 property owner to the Town Clerk within ten (10) calendar days
21 after the date on which the notice is mailed. If the property
22 owner fails to request an appeal hearing within such ten (10)
23 calendar days, the abatement notice shall be final.

24 D. After receiving a timely appeal, the Town shall set a
25 noticed hearing on the appeal by an impartial hearing officer.
26 The decision of the hearing officer shall be made in writing

1 within fourteen (14) calendar days after the hearing. The
2 decision of the hearing officer shall be final. If the public
3 nuisance is determined to exist, the hearing officer shall
4 specify in his or her decision the time period for the property
5 owner to abate the public nuisance.

6 E. In any event, if the public nuisance is not abated within
7 the time specified in either the initial notice and order or the
8 hearing officer's decision, the Town may abate the public
9 nuisance in accordance with this Ordinance.

10 F. The Town's costs to abate the public nuisance shall be
11 subject to the procedures set forth in Paradise Municipal Code
12 sections 8.04.100, 8.04.110, 8.04.120 and 8.04.130.

25 commencing with Section 8550 of the California Government Code.

2 Ordinance is for any reason held to be unconstitutional or invalid,
3 such decision shall not affect the validity of the remaining
4 portion of this Ordinance. The Town Council hereby declares that
5 it would have passed this Ordinance and every section, subsection,
6 sentence, clause or phrase thereof irrespective of the fact that
7 any one or more sections, subsections, sentences, clauses or
8 phrases be declared unconstitutional or invalid.

9 **Section 17. Effective Date and Publication.**

11 full force and effect immediately upon its passage by a four-
12 fifths (4/5) or greater vote. The Town Clerk of the Town of
13 Paradise is authorized and directed to publish a summary of this
14 Ordinance before the expiration of fifteen (15) days after its

SUBJECT: Underground Utilities Update & CPUC Complaint Form

COUNCIL ACTION REQUESTED:

1. Receive informational update relating to the status of Town-wide undergrounding of utilities; and,
2. Consider authorizing staff to set a public hearing date of August 11, 2020 for the creation of a Rule 20A Underground Utility District consisting of all parcels with property boundaries along On-System Federal-Aid Arterials and Collectors.
3. Consider authorizing staff to file a formal complaint to the California Public Utilities Commission relating to the public welfare and safety issues arising out of Comcast and AT&T's lack of participation in a Town-wide joint trench opportunity.

Background:

During the 2018 Camp Fire, evacuation corridors in Paradise were adversely affected by burned wooden utility poles carrying electric and telecommunication lines which had fallen into the roadway, creating extremely hazardous and precarious situations for the evacuating general public, as well as first responders in their attempt to assist with evacuations, firefighting and saving lives and property.

Immediately following the fire, temporary poles were erected to serve customers with standing homes.

In conjunction with the Town's preparation of a Long-Term Recovery Plan, PG&E announced in May 2019 that it would begin an unprecedented project of undergrounding all electric distribution infrastructure in Paradise. The goal of reducing wildfire risk, meeting the community's desire for unobstructed egress and the Town's community engagement process helped drive this decision.

In July 2019, Paradise Town Council adopted the community's Long-Term Recovery Plan which identified Underground Utilities as one of the highest priority Partner-led projects, a critical component to the rebuilding of Paradise. The Plan also reinforces the Town's expectation that communication companies, Comcast and AT&T, will follow suit as utility poles are combustible and can block egress routes in a fire. This plan was created and vetted by the residents immediately following the Camp Fire for the express purpose of guiding and directing the disaster recovery process.

In late 2019, Paradise Town Council adopted and enacted a "Dig-Once" Policy, which states by ordinance that the Town of Paradise and servicing utility companies must continuously communicate and coordinate relating to underground joint-trench opportunities. This Policy, however, does not mandate any utility company to join underground trenches against their own will.

Since the adoption of the Long-Term Recovery Plan, PG&E has completed over 28 miles of undergrounding work in Paradise and is currently ramping up for an additional 20 miles to be installed by the end of 2020. At the time of this report, Comcast and AT&T have not installed **any** infrastructure in any of these trenches and have indicated to the Town of Paradise they have no intention to do so in the future.

On June 9, 2020 staff reported to Paradise Town Council that neither Comcast nor AT&T have indicated a willingness to participate in the joint trench opportunity with PG&E. Staff also reported on two potential approaches which could encourage or create pressure for these companies to help the community fully realize its safety objectives:

1. Advance a competing service by exploring and undertaking a Broadband Feasibility Study (underway), and;
2. Create a formal Rule 20A Underground Utility District on all eligible federal-aid collectors and arterials (mapped below).

The intent of the creation of the Underground Utility District, while it would not include all roadways as is desired by the Council and Community, however, it would allow the framework of the established legal Rule 20A program to be utilized and create a mandate for telecommunications providers to participate in the joint trench on critical roadways at their own cost – regardless if PG&E was using traditional Rule 20A tariff apportionments for their respective work.

Council gave direction to staff to set a public hearing date of July 14, 2020 for the creation of this Underground Utility District and asked for a return report and action item for filing a formal complaint to the California Public Utilities Commission (CPUC).

Analysis:

Since the June 9, 2020 Paradise Town Council meeting, staff was contacted by CPUC staff and was advised to hold off on issuing a Public Hearing Notice for quite possibly the largest Rule 20A Underground Utility District considered. Town Staff complied with this request and received feedback from CPUC Rule 20A Program staff, not CPUC legal opinion, that they did not believe creation of this Underground Utility District would achieve desired results. Alternatively, CPUC staff further encouraged the Town to pursue the formal complaint process through the CPUC in an effort to engage all stakeholders at one time on this issue.

Hearing the advice from the CPUC staff, Town staff did not issue the Notice of Public Hearing as directed by Town Council, understanding a report on this development could be made at the next scheduled Council meeting and further action could be deliberated. Staff understands the CPUC stance on the creation of the District and concurs that there is risk in the effort (and mailing cost) may not be effective. However, no action, will certainly not achieve any results.

As mentioned previously, an additional route for this topic and ultimate desire to see all telecommunications lines underground and removal of all wooden/combustible utility poles is the formal filing of a complaint to the CPUC. A copy of the Formal Complaint Procedures and Alternative Dispute Resolution Program is attached to this agenda summary.

Staff is seeking further direction on both the decision to issue a Public Hearing Notice for a potential underground utility district and filing a formal complaint to the CPUC.

**INFORMAL AND FORMAL COMPLAINT PROCEDURES and
ALTERNATIVE DISPUTE RESOLUTION PROGRAM**

The California Public Utilities Commission and its staff are always ready to answer questions about regulation of investor-owned utilities. Many of these utilities operate under tariff rates and rules, which are on file with the Commission and are open to public inspection at utility offices. Each utility also posts their tariff rates on their website. Consumers should seek information on rules, service, or rates directly from the utility. In general, utilities answer most consumer questions and satisfactorily settle disputes. If they do not, please contact the Commission and we will assist you through our informal or formal complaint processes, or Alternative Dispute Resolution Program.

Informal ComplaintsResolution of Informal Complaints

A customer who questions the accuracy of a utility bill may deposit the disputed amount with the Commission to prevent discontinuance of service. However, the Commission cannot accept deposits for rate protests, rules or service complaints.

Commission staff reviews the customer's complaint, the utility's position, the utility's compliance with its rates and rules, and the analysis of collected data. The staff then issues an informal opinion on the dispute, notify each party of its findings, and send money on deposit to either the customer or to the utility. Often the matter is resolved at this point.

Appeal of Staff Findings in an Informal Complaint

If you are dissatisfied with the staff's opinion, you may appeal it to the Consumer Affairs Branch Manager in writing within 15 days of the mailing of the staff's findings. If you are still not satisfied after the Manager's review, you may file a formal complaint with the Commission. See next section.

We Prefer Receiving Informal Complaints in Writing

Although we will accept informal complaints by telephone, we prefer receiving them in writing. Written complaints must be complete and clear in describing the dispute with the utility, and include copies of any relevant documents.

Formal Complaints

Through the Formal Complaint procedure, the Commission can order the utility to take corrective action on a variety of Formal Complaints, including an adjustment to a customer's bill. The Commission can also order reparations if a service which has been paid for has not been provided. It is important to note, however, that the Commission is not allowed to award damages for such things as personal injury, property damage, emotional distress, or loss of wages or profits. To request compensation for damages, the customer must file a claim in a civil court.

Alternative Dispute Resolution Program (ADR)

ADR commonly describes processes, such as facilitation, negotiation, mediation, and early neutral evaluation, to help disputants resolve a conflict without a formal decision by a court or agency. When successful, ADR may achieve results that a court or agency could not order, give the parties more ownership in the result, and reduce litigation and agency costs.

Our Administrative Law Judge (ALJ) Division administers the ADR program and trained experienced ALJs serve as neutrals in the program.

Because ADR focuses on the parties' basic interests, a dispute may be settled on terms more favorable to each of the parties. Since the process is voluntary, free, and normally confidential, parties have little "down-side" risk in trying ADR. If it results in a full settlement, ADR may save time and litigation expenses. Even if a complete settlement is not possible, agreement may be reached on some important points and this, also, may save time.

ADR can occur at any time during a formal proceeding. We encourage the early use of ADR to save the parties' time and money and to avoid unnecessary escalation of a dispute. On occasion, ADR may be available to help resolve disputes that are still informal and have yet to be filed as formal complaints. Most ADR sessions are completed in ½ to 2 days. Some ADR sessions continue over several weeks, with the parties meeting for a day or two at a time.

INSTRUCTIONS FOR FILLING OUT THE ENCLOSED FORMAL COMPLAINT FORM

This step-by-step guide is designed to assist you in filing your formal complaint. You may file a complaint by mail as described in these instructions, or you may file electronically by visiting www.cpuc.ca.gov and clicking on “E-File Documents” link. We do not charge fees for filing a formal complaint.

We have tried to simplify the process by assigning letters corresponding to the blanks on the form. However, you should become familiar with the CPUC's Rules of Practice and Procedure, as they must be followed in all formal proceedings. A complete set of Rules may be obtained upon request from the Public Advisor's office, and is also available on our website www.cpuc.ca.gov, first click on “online documents” and then “General Orders, Codes, Laws, Policies, Rules of Practice & Procedure”.

- A. The individual filing the complaint is the complainant. Provide the name(s) of each complainant.
Example: Mary Smith
- B. The defendant is the utility you have a complaint against. Provide the name(s) of defendant(s).
Example: Acme Utility Company
- C. A complaint that does not allege that the matter has first been brought to the Commission staff for informal resolution (see page 1) may be referred to the staff to attempt to resolve the matter informally. (Rule 4.2(c)).
- D. Provide mailing address and **daytime** telephone number.
Example: Mary Smith, 444 W. 4th Street, Los Angeles, CA, 90012, (213) 400-5005
- E. Provide the utility (defendant's) name and address. Use the address on your bill or contact the Public Advisor's office for the address.
- F. Clearly describe your complaint: Explain the problem you are having with the utility.
- G. You must provide your suggestions regarding several things the Commission will need to consider in order to handle your case (this is called Scoping Memo Information). These items include: The proposed category “adjudicatory” or “ratesetting”. See Categorization of Proceedings Section on page 12 for additional information. Most complaints are “adjudicatory” unless they challenge the reasonableness of a utility’s rate; do you believe that there are facts in dispute that require a hearing before a judge; see page 11 on difference between regular and expedited complaints; the issues to be considered; and a proposed schedule. Include as attachments copies of any documentation you feel will support your case. **NOTE: Please see page 11 for information regarding various ways to challenge the reasonableness of a rate (Rule 4.1).**
- H. You must state the exact relief you are requesting.
Example: The utility should refund the overbilled amount of \$78.00.
- I. (OPTIONAL) If you would like to receive the defendant’s answer and other filings, including information and notices from the Commission, by electronic mail (e-mail) instead of by U.S. Mail, provide your e-mail address.

REMINDER: BY LAW, THE COMMISSION CANNOT AWARD DAMAGES. For example, the Commission cannot order the utility to pay you \$40.00 to replace a shrub the utility drove over. If you are unsure whether the relief you are requesting is an award of damages, please call the Public Advisor's Office.

J. Date and Sign. Example: Los Angeles this 22nd day of April 2009.

K. Provide information for your representative, if applicable.

L, M. Sign Verification Form. Example for individual: April 22, 2009 at Los Angeles Ms. Mary Smith

EXPEDITED AND REGULAR COMPLAINT PROCEDURES

The Commission has two kinds of formal complaints: The expedited complaint procedure (ECP) and the regular complaint procedure. The following explains the major differences.

EXPEDITED COMPLAINT (ECP)

Only for cases where the disputed amount is under \$7,500 if filed by a natural person or under \$5,000 if filed by a Corporation or other group.

No attorneys may represent either party.

No court reporter present and no hearing transcript prepared.

Hearing held usually within 30 after defendant utility's answer is filed.

If appealed by either party, and rehearing is granted, the whole case must be reheard under regular complaint procedure.

In filing your formal complaint, you may request that your complaint be handled under the Commission's regular formal complaint procedure. If you do not indicate which procedure you prefer (and if the amount is less than \$7,500 in a complaint filed by a natural person or \$5,000 in a complaint filed by a corporation or other group), the Docket Office will generally consider it as an expedited complaint.

Regardless of the type of formal complaint you have filed, you have the burden to present your case and prove any act or thing done or omitted to be done by the utility which you allege violates the utility's tariff rules, a Commission order or the law.

If your complaint concerns the reasonableness of a utility's rates, it must be signed by the mayor or president or chairperson of the board of trustees or a majority of the council, commission or other legislative body of the city or city and county within which the alleged violation occurred, or by not less than 25 actual or prospective consumers or purchasers of the utility's service. (Rule 4.1)

If requested in your complaint and if administratively possible, the hearing may be held in a location within your community. If you have a situation that prevents you from traveling, please indicate your restriction in your request.

WHAT WILL HAPPEN NEXT

The Docket Clerk will review your formal complaint to ensure it complies with all of the Rules of Practice and Procedure, and that you have provided all of the needed information.

If your formal complaint has been rejected for any reason, the Docket Clerk will notify you why it was not accepted, and what you must do to correct the filing. They may refer to the Commission's "Rules of Practice and Procedure" which is available from the Public Advisor's Office and is on our web site www.cpuc.ca.gov.

Once the formal complaint has been accepted for filing, the Docket Clerk will issue a case number. If you want the Docket Office to send you an official copy of your complaint with the case number, you should send an extra copy of the complaint with a self-addressed, stamped envelope at the time you file your complaint.

You are not required to serve the complaint to the defendant utility. Instead, the Docket Office will mail a copy of the formal complaint to the defendant utility, with the instruction sheet directing an answer in 30 days, or 20 days under the expedited procedure. You will receive a copy of the instruction sheet that was sent to the defendant utility with the case number and the date the answer is due from the defendant utility. The instruction sheet will indicate the Administrative Law Judge (ALJ) that has been assigned to hear your case. If your complaint is a regular complaint, and not an ECP, the instruction sheet will also note the category assigned to your case. The utility will send you a copy of its answer to your complaint. The ALJ may schedule a prehearing conference. Prehearing conferences may be held by telephone or in person. A prehearing conference is held to determine the parties, the issues and the hearing schedule. You will be notified of the date, time and location for the hearing, the positions of the parties and other procedural matters.

Under the expedited procedure, a hearing date may be set at the time the complaint is served on defendant utility, or it may be deferred until after the Answer has been filed. A hearing is usually held within 30 days after the Answer of defendant utility has been filed. ECP hearings will usually be held on Thursday in San Francisco and on Friday in Los Angeles with some exceptions to this schedule as necessary. If you request your hearing be held in a location other than San Francisco or Los Angeles, it may not be possible to set the hearing within 30 days of the answer but it will be as close to that time frame as possible.

If you cannot attend the scheduled hearing date, you should notify the ALJ as soon as possible to avoid any unnecessary expenditures by the parties. Please call the ALJ through the Commission's toll-free number 1-800-848-5580.

CATEGORIZATION OF PROCEEDINGS

Formal proceedings are divided into three categories: Adjudicatory, Ratesetting and Quasi Legislative. Most formal complaints will be Adjudicatory. Those formal complaints which require 25 signatures are not considered adjudicatory. They will likely be categorized as Ratesetting. (Rule 1.3)

Adjudicatory proceedings require a Commission final decision within 12 months of the filing date, barring unusual circumstances. The 12 month time period begins when the complaint is accepted for filing with the Commission's Docket Office.

The ALJ will write a draft decision for the Commission. The five-member Commission can accept, reject or modify the ALJ's draft decision, and the Commission considers and issues its ultimate decision at its publicly noticed business meetings. The Commission can award an adjustment to your bill if you prove you are entitled to it (reparation), but it cannot award damages, such as lost wages.

In adjudicatory proceedings where hearings have been held, the presiding officer's (ALJs) draft decision becomes the Commission's final decision 30 days after the draft decision is mailed to the parties in the proceeding, but only if no appeal or request for review was filed during that 30 day period. If an appeal or request for review is filed, the Commission will consider the draft decision at a Business Meeting, and adopt a final decision.

Commission final decisions in adjudicatory cases can be appealed. To appeal a final decision, a complainant must first file an application for rehearing with the Commission. If, after the Commission issues a decision on the application for rehearing (or 60 days after filing the application for rehearing), the Complainant is not satisfied, he/she may appeal the Commission's decision to the State Court of Appeal, in the District in which he/she resides.

Applications for rehearings shall follow Article 16 of the Rules of Practice & Procedure, and in any appeal you are responsible to specifically explain in what manner the Commission's Decision is unlawful or erroneous.

EX PARTE INFORMATION

Special restrictions apply to conversations with the ALJ or Commissioners when the conversations are about substantive issues in your case. Such "ex parte communications" are prohibited in adjudicatory cases. An ex parte communication is a written communication (including a communication by letter or electronic medium) or oral communication (including a communication by telephone or in person) that:

- (1) concerns any substantive issue in a formal proceeding, and
- (2) takes place between an interested person (like yourself) and a decisionmaker (like the ALJ), and
- (3) does not occur in a public hearing, workshop, or other public setting, or on the record of the proceeding, where all interested parties would have the opportunity to attend.

Communications limited to inquiries regarding the schedule, location, or format for hearings, filing dates, identity of parties, and other such nonsubstantive information are likely to be considered procedural inquiries not subject to any restriction or reporting requirement. If you need help in determining the nature of an intended communication, call the Public Advisor's Office for assistance.

If your case is not classified as adjudicatory, different ex parte rules may apply. Please refer to the "Guide To Public Participation" and its summary of ex parte communications. The complete text of the ex parte rules can be found in Article 8 of the Commission's Rules of Practice and Procedure. You may also want to refer to the law upon which the rules are based (Public Utilities Code Sections 1701.1, 1701.2 and 1701.3). If you have any questions, please contact the Public Advisor's Office.

Reminder

If you have any questions about any part of the formal complaint procedures, please feel free to call the Public Advisor's Office in San Francisco or Los Angeles. We will be glad to answer your questions regarding the process.

**Town of Paradise
Council Agenda Summary
Date: July 14, 2020**

Agenda Item: 6(e)

Originated by: Colette Curtis, Assistant to the Town Manager

Reviewed by: Lauren Gill, Town Manager

Subject: 6265 Skyway License Area Expansion

Council Action Requested:

1. Consider authorizing the Town Manager to execute a license agreement with Nicki Jones relating to the proposed license area expansion at 6265 Skyway, Paradise.

Background:

At the May 2020 Council Meeting, Council authorized the Town Manager to enter into a license agreement with Nicki Jones relating to right of way use for her property located at 6265 Skyway. Nicki Jones is the property owner of 6265 Skyway and operates a business, Nic's Restaurant, at this location. Recently, Ms. Jones indicated her desire to construct a deck which would encroach on the public right of way. The proposed deck would allow Ms. Jones to accommodate additional outdoor seating for her restaurant.

Discussion:

The Town Engineer has reviewed Ms. Jones request and recommends approval with the following conditions:

1. The proposed deck which encroaches into the public right of way shall be constructed of ignition-resistant materials.
2. The proposed deck could be required to be removed at the direction of the Town Council at any time, at the owner's expense.

The proposed deck does not conflict with the build-out improvement plans for the downtown area which are slated for completion in 2021. This proposal is in line with the Town's economic development goals for the downtown area, and helps a local business comply with COVID 19 guidelines.

Fiscal Impact Analysis:

None.

TOWN OF PARADISE
Council Agenda Summary
Date: July 14, 2020

Agenda No. 6(f)

ORIGINATED BY: Marc Mattox, Public Works Director / Town Engineer

REVIEWED BY: Lauren Gill, Town Manager

SUBJECT: Joint Trench Spare Conduit Agreement

COUNCIL ACTION REQUESTED:

1. Consider authorizing the Town Manager to enter into an Agreement between the Town of Paradise and Pacific Gas and Electric Company relating to transference of 2" conduit from the ongoing joint trench work for electrical undergrounding.

Background:

As a component of the 2018 Camp Fire Recovery, the Town of Paradise is seeking avenues to promote a thriving rebuild, including possible deployment of Town-wide broadband capabilities. The expanded vision of the Town of Paradise is to provide a world-class community broadband infrastructure to our community for the 21st century and beyond, facilitated by new access to the public's local broadband assets. Broadband is a critical service for quality of life and economic development. Every home, business, nonprofit organization, government entity, and education institution should have the opportunity to connect affordably, easily and securely. Town-wide broadband service facilitated by the Town of Paradise has potential to distinguish our community as a destination for telecommuting and economic activity.

To further these goals, the Town of Paradise is seeking transference of 2" conduit from the ongoing joint trench work for electrical undergrounding by Pacific Gas and Electric Company (PG&E). This transference would include a spare 2" conduit which has already been installed by PG&E in addition to future installations of a spare 2" conduit for trenches which have yet to be excavated.

Analysis:

A proposed Agreement has been prepared by the Town of Paradise and has been reviewed by legal teams from the Town of Paradise and PG&E. A copy of this Agreement is included in this Agenda Summary.

This agreement is unique and benefits both the Town of Paradise and PG&E. The primary benefit to the Town of Paradise includes potential realization of community-wide broadband deployment by the Town of Paradise or a new third-party Internet Service Provider. The primary benefit to PG&E includes the reduction in probability and costs of future joint trench utility relocations – meaning, with the Town of Paradise a participant in the trench, where PG&E and potential other trench participants exist, the Town of Paradise will have a vested interest in close coordination and conflict avoidance in future capital improvement projects.

Currently, if the Town of Paradise undertakes a capital project such as road widening, storm drain or future sewer, all conflicts which the Town's design creates are required to be relocated at the affected utility's expense, whereas if the Town is also in the joint trench, and a new conflict is created by the Town for a capital project, the Town will bear the trenching expenses required to eliminate such conflict.

Financial Impact:

There are no associated costs with executing the proposed Agreement. At which the time the Town of Paradise decides to implement a future telecommunications project, costs can be anticipated for actual infrastructure work in addition to required memberships with Underground Service Alert North and utility locating requirements. Other costs will be reviewed and analyzed as a component of the Paradise Broadband Feasibility Study, expected to be completed in late 2020.

**AGREEMENT BETWEEN THE TOWN OF PARADISE AND
PACIFIC GAS AND ELECTRIC COMPANY**

THIS AGREEMENT is made on _____, 2020 between the Town of Paradise, a California municipal corporation (Town) and Pacific Gas and Electric Company (PG&E).

WHEREAS, Town and PG&E have determined that it is in the public interest for PG&E to install 2" HDPE conduit for the Town as a component of PG&E's project described in Paradise Encroachment Permit EN-20-00121, a copy of which is attached as Exhibit A; and

WHEREAS, Town and PG&E have agreed to the terms of this Agreement to implement the understanding between them relating to such conduit.

NOW, THEREFORE, Town and PG&E agree as follows:

1. At no cost to Town, PG&E shall install one 2" HDPE spare conduit in mainline and service lateral trenches where electrical undergrounding is taking place in the public right of way and/or public utility easements originating from the public right of way within the Town limits for the purposes of future telecommunications use. These HDPE spare conduits shall be transferred to the Town with the Town having sole ownership, access and maintenance upon completion and the Town's final inspection of each permitted project. Any future use of such conduits by Town shall be coordinated with PG&E to avoid potential utility conflicts.
2. Town agrees that if it allows an existing third-party telecommunications provider serving Town residents to use the spare conduit, by lease, license or other agreement, that the Town shall condition such use on such third-party telecommunications provider contributing to PG&E the proportionate cost allocation for occupying the joint trench as set forth in PG&E's Joint Trench Standard (S.5453). The Town shall require such contributions be reimbursed to PG&E prior to the third-party use. If the conduit is used by the Town or a new telecommunications provider, by lease or other agreement, the Town shall not reimburse PG&E the incremental costs to PG&E for such conduit.
3. PG&E shall provide to Town a GIS-shape file and PDF of construction drawings of each installed town-owned conduit.
4. Town shall dedicate public utility easements as required to implement the project authorized by the encroachment permit where Town has authority to do so.
5. Whenever PG&E installs conduit for the Town in accordance with this Agreement, the Town shall provide PG&E rights typically associated with a public utility easement (PUE) where Town has authority to do so. Town will make every effort

possible to avoid future conflicts from road improvements or installation of a sewer that would require utility relocation. If future underground utility relocation is required due to an unavoidable conflict, the Town will bear the trenching expenses required to eliminate such utility conflict.

6. Upon telecommunications project implementation by Town, Town shall become a member of USA North related to its operation of underground utilities and joint trench participation. The Town shall install and maintain any communication facilities in the spare conduit in conformity with all applicable rules, codes, laws, orders and regulations, including those that pertain to the safety of personnel working in proximity to energized conductors.

7. Except as provided in Section 5, nothing in this Agreement shall affect PG&E's obligation, pursuant to its gas and electric franchises with the Town (Ordinance Nos. 11 and 12, respectively) or applicable law, to indemnify and hold harmless the Town, its officers and employees from any and all liability proximately resulting from any operations under the franchises.

The Town shall defend, indemnify, and hold harmless PG&E, against all loss, damage, expense, and liability arising out of or in any way connected with its use and operation of the Town-owned conduit, except such damages or losses arising from the active negligence, omission or misconduct of PG&E.

8. Town understands that installing telecommunication facilities in conduit near energized conductors involves a risk of damage to such telecommunication facilities. By entering into this Agreement, the Town assumes the risk of any loss or damage to its telecommunication facilities from PG&E's energized conductors, unless such loss or damage is caused by PG&E's intentional actions or active negligence.

Town also assumes the risk of consequential damages, including loss of use, loss of profits, or revenue, capital costs or increased operating costs resulting from damage to its conduit or telecommunication facilities that may result from work by PG&E in, on, or near PG&E energized conductors.

9. The parties shall attempt in good faith to resolve any dispute arising out of this Agreement by negotiations between an officer or designated representative of each party. If the dispute has not be resolved within 30 days of notice of the dispute, the parties agree to submit the matter to JAMS for mediation within thirty (30) days thereafter. Except as provided herein or by written agreement of the parties, the mediation shall be conducted pursuant to the JAMS rules.

10. This Agreement has been prepared jointly by the parties and it shall not be construed move favorably to one party or the other.

11. Notwithstanding any other provision of this Agreement, all rights, duties and obligations under this Agreement shall be expressly conditioned on PG&E obtaining the necessary and appropriate regulatory approvals of the California Public Utilities Commission (CPUC) or other regulatory body. PG&E and Town shall cooperate in good faith to secure such regulatory approvals. Town acknowledges and agrees that such approval shall not be deemed to have occurred for purposes of this Agreement unless and until the CPUC approves the Agreement in a form that is final, unconditional and unappealable, including exhaustion of all administrative appeals or remedies before the CPUC, and such approval is approved by PG&E in its reasonable discretion, including PG&E's approval of the proposed accounting and ratemaking treatment of the transaction. In the event PG&E determines, in its sole discretion, that approval of the bankruptcy court or any other court having jurisdiction over PG&E's chapter 11 cases currently pending before the United States Bankruptcy Court for the Northern District of California (Lead Case No. 19-30088 (DM)) is necessary or required in order to enter into this Agreement or to perform the transactions contemplated under this Agreement, to the extent such approvals have not already been obtained, PG&E may seek approval of such court of competent jurisdiction, and in such event, PG&E's obligations under this Agreement will be subject to and conditioned upon receipt of such approval from such court.

12. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

13. This is an integrated Agreement and contains the complete understanding of the parties and shall be modified only by the mutual written agreement of the parties.

IN WITNESS WHEREOF, the Town and PG&E have executed this Agreement below.

THE PARADISE MUNICIPAL CODE AND ADDING SECTION 8.46.025 TO THE
PARADISE MUNICIPAL CODE RELATING TO
PROHIBITING THE SALE OF FLAVORED TOBACCO**

WHEREAS, tobacco use remains the leading cause of preventable death in the United States, killing more than 480, 000 people each year. It causes or contributes to many forms of cancer, as well as heart disease and respiratory diseases, among other health disorders. Tobacco use remains a public health crisis of the first order, in terms of the human suffering and loss of life it causes. the financial costs it imposes on society, and the burdens it places on our health care system; and

WHEREAS, flavored tobacco products are commonly sold by California tobacco retailers. For example: 97.4% of stores that sell cigarettes sell menthol cigarettes; 94.5% of stores that sell little cigars sell them in flavored varieties; 84.2% of stores that sell electronic smoking devices sell flavored varieties; and 83.8% of stores that sell chew or snus sell flavored varieties; and

WHEREAS, each day, approximately 2,500 children in the United States try their first cigarette; and another 8,400 children under 18 years of age become new regular, daily smokers. 81% of youth who have ever used a tobacco product report that the first tobacco product they used was flavored. Flavored tobacco products promote youth initiation of tobacco use and help young occasional smokers to become daily smokers by reducing or masking the natural harshness and taste of tobacco smoke and thereby increasing the appeal of tobacco products. As tobacco companies well know, menthol, in particular, cools and numbs the throat to reduce throat irritation and make the smoke feel smoother, making menthol cigarettes an appealing option for youth who are initiating tobacco use. Tobacco companies have used flavorings such as mint and wintergreen in smokeless tobacco products as part of a "graduation strategy" to encourage new users to start with tobacco products with lower levels of nicotine and progress to products with higher levels of nicotine. It is therefore unsurprising that young people are much more likely to use menthol-, candy and fruit-flavored tobacco products, including not just cigarettes but also cigars, cigarillos, and hookah tobacco, than adults. Data from the National Youth Tobacco Survey indicate that more than two-fifths of U.S. middle school and high school smokers report using flavored little cigars or flavored cigarettes. Further, the Centers for Disease Control and Prevention has reported a more than 800% increase in electronic cigarette use among middle school and high school students between 2011 and 2015. Nicotine solutions, which are consumed via electronic smoking devices such as electronic cigarettes, are sold in thousands of flavors that appeal to youth, such as cotton candy and bubble gum; and

WHEREAS, much as young people disproportionately use flavored tobacco products including menthol cigarettes, the same can be said of certain minority groups. In one survey, the percentage of people who smoke cigarettes that reported smoking menthol cigarettes in the prior month included, most dramatically, 82.6% of Blacks or African-Americans who smoke cigarettes. The statistics for other groups were: 53.2% of Native Hawaiians or other Pacific Islanders who smoke cigarettes; 36.9% of individuals with multiracial backgrounds who smoke cigarettes; 32.3% of Hispanics or Latinos who smoke cigarettes; 31.2% of Asians who smoke cigarettes; 24.8% of American Indians or Alaska Natives who smoke cigarettes; and 23.8% of Whites or Caucasians who smoke cigarettes. People who identify as LGBT and young adults with mental health conditions also struggle with disproportionately high rates of menthol cigarette use. The disproportionate use of menthol cigarettes among targeted groups, especially the extremely high use among African-Americans, is troubling because of the long-term adverse health impacts on those groups; and

WHEREAS, between 2004 and 2014, overall smoking prevalence decreased, but use of menthol cigarettes increased among both young adults (ages 18-25) and other adults (ages 26+). These statistics are consistent with the finding that smoking menthol cigarettes reduces the likelihood of successfully quitting smoking. Scientific modeling has projected that a national ban on menthol cigarettes could save between 300,000 and 600,000 lives by 2050.

NOW THEREFORE, the Town Council of the Town of Paradise does ordain as follows:

SECTION 1. Paradise Municipal Code Section 8.46.020 [Definitions] is hereby amended to include as follows:

“Characterizing flavor” means a taste or aroma, other than the taste or aroma of tobacco, imparted either prior to or during consumption of a tobacco product or any byproduct produced by the tobacco product, including, but not limited to, tastes or aromas relating to menthol, mint, wintergreen, fruit, chocolate, vanilla, honey, candy, cocoa, dessert, alcohol beverage, herb, or spice. A tobacco product shall not be determined to have a characterizing flavor solely because of the use of additives or flavorings or the provision of ingredient information. Rather, it is the presence of a distinguishable taste or aroma, or both, as described in the first sentence of this definition, that constitutes a characterizing flavor.

“Flavored tobacco product” means any tobacco product that imparts a characterizing flavor.

“Tobacco product flavor enhancer” means a product designed, manufactured, marketed or sold to produce a characterizing flavor when added to a tobacco product.

SECTION 2. Section 8.46.025 is hereby added to the Paradise Municipal Code to read as follows:

8.46.025 Sale or offer for sale of flavored tobacco products prohibited.

(a)The sale or offer for sale, by any person, business or entity of any flavored tobacco product or a tobacco product flavor enhancer is prohibited and no person, business or entity shall sell, or offer for sale, any flavored tobacco product.

(b)There shall be a rebuttable presumption that a tobacco product is a flavored tobacco product if a manufacturer or any of the manufacturer's agents or employees, in the course of their agency or employment, has made a statement or claim directed to consumers or to the public that the tobacco product has or produces a characterizing flavor including, but not limited to, text, color, and/or images on the product's labeling or packaging that are used to explicitly or implicitly communicate that the tobacco product has a characterizing flavor.

SECTION 3. This ordinance shall be repealed when and if the State of California enacts statutes that comprehensively prohibit the sale of flavored tobacco products.

SECTION 4. This ordinance shall take effect thirty (30) days after the date of its passage. Before the expiration of fifteen (15) days after its passage, this ordinance or a summary thereof shall be published in a newspaper of general circulation published and circulated within the Town of Paradise along with the names of the members of the Town Council of Paradise voting for and against same.

Subject: Town Manager Contract Agreement with Kevin Phillips

Council Action Requested:

1. Consider approving the Employment Agreement with Kevin Phillips for the Town Manager position.

Background:

On January 14, 2020, Council gave direction to staff to begin recruitment efforts for a new Town Manager due to the retirement of the current Town Manager, Lauren Gill. Town Council directed staff to work with Koff and Associates to recruit and coordinate the interview process and selected two Council members – Mayor Bolin and Councilmember Jones to serve on the preliminary selection committee.

Koff and Associates advertised the position through various channels and received 91 applications by the deadline of March 18, 2020. Koff and Associates screened those applications and narrowed the list down to 20 applications which were reviewed by the selection committee and then further narrowed down to seven. On June 11, 2020, the seven applicants were interviewed via teleconference by the Town Council and three final candidates were chosen. On the morning of June 23, 2020, the three finalists met with a community panel comprised of several Town Department Directors and Local Agency Directors, and then faced a final interview that same afternoon with the Town Council in closed session.

At the end of the final interview, the Council gave direction to the Manager to work with the Consultant and the top candidate on conditions and terms of employment to be approved at a public meeting by the Town Council.

Discussion:

The attached contract specifies the terms and conditions of employment for Kevin Phillips, who was the top candidate chosen for the position. Mr. Phillips has reviewed the contract and agrees with the terms.

Fiscal Impact Analysis:

The term of the contract will be for two (2) year(s) beginning August 31, 2020, for an annual salary of \$172,099.20. The Total benefit/salary compensation package will be a \$241,932 cost to the Town of Paradise. At the end of the term, a new contract will be negotiated between the Manager and the Town Council.

Council Action Advised by August 31, 2020

June 30, 2020

TO: Mayors, City Managers and City Clerks

**RE: DESIGNATION OF VOTING DELEGATES AND ALTERNATES
League of California Cities Annual Conference & Expo – October 7 – 9, 2020**

The League's 2020 Annual Conference & Expo is scheduled for October 7 – 9. An important part of the Annual Conference is the Annual Business Meeting (during General Assembly) on Friday, October 9. At this meeting, the League membership considers and takes action on resolutions that establish League policy.

In order to vote at the Annual Business Meeting, your city council must designate a voting delegate. Your city may also appoint up to two alternate voting delegates, one of whom may vote in the event that the designated voting delegate is unable to serve in that capacity.

Please complete the attached Voting Delegate form and return it to the League's office no later than Wednesday, September 30. This will allow us time to establish voting delegate/alternate records prior to the conference.

Please note the following procedures are intended to ensure the integrity of the voting process at the Annual Business Meeting. These procedures assume that the conference will be held in-person at the Long Beach Convention Center as planned. Should COVID-19 conditions and restrictions prohibit the League from holding an in-person conference, new procedures will be provided.

- **Action by Council Required.** Consistent with League bylaws, a city's voting delegate and up to two alternates must be designated by the city council. When completing the attached Voting Delegate form, please attach either a copy of the council resolution that reflects the council action taken, or have your city clerk or mayor sign the form affirming that the names provided are those selected by the city council. Please note that designating the voting delegate and alternates **must** be done by city council action and cannot be accomplished by individual action of the mayor or city manager alone.
- **Conference Registration Required.** The voting delegate and alternates must be registered to attend the conference. They need not register for the entire conference; they may register for Friday only. Conference registration will open by the end of July at www.cacities.org. In order to cast a vote, at least one voter must be present at the Business Meeting and in possession of the voting delegate card. Voting delegates and alternates need to pick up their conference badges before signing in and picking up the voting delegate card at the Voting Delegate Desk. This will enable them to receive the

special sticker on their name badges that will admit them into the voting area during the Business Meeting.

- **Transferring Voting Card to Non-Designated Individuals Not Allowed.** The voting delegate card may be transferred freely between the voting delegate and alternates, but *only* between the voting delegate and alternates. If the voting delegate and alternates find themselves unable to attend the Business Meeting, they may *not* transfer the voting card to another city official.
- **Seating Protocol during General Assembly.** At the Business Meeting, individuals with the voting card will sit in a separate area. Admission to this area will be limited to those individuals with a special sticker on their name badge identifying them as a voting delegate or alternate. If the voting delegate and alternates wish to sit together, they must sign in at the Voting Delegate Desk and obtain the special sticker on their badges.

The Voting Delegate Desk, located in the conference registration area of the Long Beach Convention Center, will be open at the following times: Wednesday, October 7, 8:00 a.m. – 6:00 p.m.; Thursday, October 8, 7:00 a.m. – 4:00 p.m.; and Friday, October 9, 7:30 a.m.–11:30 a.m.. The Voting Delegate Desk will also be open at the Business Meeting on Friday, but will be closed during roll calls and voting.

The voting procedures that will be used at the conference are attached to this memo. Please share these procedures and this memo with your council and especially with the individuals that your council designates as your city's voting delegate and alternates.

Once again, thank you for completing the voting delegate and alternate form and returning it to the League's office by Wednesday, September 30. If you have questions, please call Darla Yacub at (916) 658-8254.
