ADJOURNMENT

**BOROUGH OF PENNINGTON
ORDINANCE 2024-12**

BOND ORDINANCE PROVIDING FOR REPAIRS TO WELLS FOR THE WATER AND SEWER UTILITY IN AND BY THE BOROUGH OF PENNINGTON, IN THE COUNTY OF MERCER, NEW JERSEY, APPROPRIATING \$80,000 THEREFOR AND AUTHORIZING THE ISSUANCE OF \$80,000 BONDS OR NOTES OF THE BOROUGH TO FINANCE THE COST THEREOF.

BE IT ORDAINED BY THE BOROUGH COUNCIL OF THE BOROUGH OF PENNINGTON, IN THE COUNTY OF MERCER, NEW JERSEY (not less than two-thirds of all members thereof affirmatively concurring) AS FOLLOWS:

Section 1. The improvement described in Section 3(a) of this bond ordinance is hereby authorized to be undertaken by the Borough of Pennington, in the County of Mercer, New Jersey (the "Borough"). For the improvement or purpose described in Section 3(a), there is hereby appropriated the sum of \$80,000. No down payment is required as the purpose authorized herein is deemed self-liquidating and the bonds and bond anticipation notes authorized herein are deductible from the gross debt of the Borough, as more fully explained in Section 6(e) of this bond ordinance.

Section 2. In order to finance the cost of the improvement or purpose, negotiable bonds are hereby authorized to be issued in the principal amount of \$80,000 pursuant to the Local Bond Law. In anticipation of the issuance of the bonds, negotiable bond anticipation notes are hereby authorized to be issued pursuant to and within the limitations prescribed by the Local Bond Law.

Section 3. (a) The improvement hereby authorized and the purpose for the financing of which the bonds are to be issued is repairs to wells for the Water and Sewer Utility, including all work and materials necessary therefor and incidental thereto.

(b) The estimated maximum amount of bonds or bond anticipation notes to be issued for the improvement or purpose is as stated in Section 2 hereof.

(c) The estimated cost of the improvement or purpose is equal to the amount of the appropriation herein made therefor.

Section 4. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the chief financial officer; provided that no bond anticipation note shall mature later than one year from its date, unless such bond anticipation notes are permitted to mature at such later date in accordance with applicable law. The bond anticipation notes shall bear interest at such rate or rates and be in such form as may be determined by the chief financial officer. The chief financial officer shall determine all matters in connection with bond anticipation notes issued pursuant to this bond ordinance, and the chief financial officer's signature upon the bond anticipation notes shall be conclusive evidence as to all such determinations. All bond anticipation notes issued hereunder may be renewed from time to time subject to the provisions of the Local Bond Law or other applicable law. The chief financial officer is hereby authorized to sell part or all of the bond anticipation notes from time to time at public or private sale and to deliver them to the purchasers thereof upon receipt of payment of the purchase price plus accrued interest from their dates to the date of delivery thereof. The chief financial officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the bond anticipation notes pursuant to this bond ordinance is made. Such report must include the amount, the description, the interest rate and the maturity schedule of the bond anticipation notes sold, the price obtained and the name of the purchaser.

Section 5. The Borough hereby certifies that it has adopted a capital budget or a temporary capital budget, as applicable. The capital or temporary capital budget of the Borough is hereby amended to conform with the provisions of this bond ordinance to the extent of any inconsistency herewith. To the extent that the purposes authorized herein are inconsistent with the adopted capital or temporary capital budget, a revised capital or temporary capital budget has been filed with the Division of Local Government Services.

Section 6. The following additional matters are hereby determined, declared, recited and stated:

- (a) The improvement or purpose described in Section 3(a) of this bond ordinance is not a current expense. It is an improvement or purpose that the Borough may lawfully undertake as a self-liquidating purpose of a municipal public utility. No part of the cost thereof has been or shall be specially assessed on property specially benefitted thereby.
- (b) The period of usefulness of the improvement or purpose within the limitations of the Local Bond Law, according to the reasonable life thereof computed from the date of the bonds authorized by this bond ordinance, is 20 years.
- (c) The Supplemental Debt Statement required by the Local Bond Law has been duly prepared and filed in the office of the Clerk, and a complete executed duplicate thereof has been filed in the office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State of New Jersey. Such statement shows that the gross debt of the Borough as defined in the Local Bond Law is increased

by the authorization of the bonds and notes provided in this bond ordinance by \$80,000, but that the net debt of the Borough determined as provided in the Local Bond Law is not increased by this bond ordinance. The obligations authorized herein will be within all debt limitations prescribed by the Local Bond Law.

- (d) An aggregate amount not exceeding \$7,000 for items of expense listed in and permitted under N.J.S.A. 40A:2-20 is included in the estimated cost indicated herein for the purpose or improvement.
- (e) This bond ordinance authorizes obligations of the Borough solely for purposes described in N.J.S.A. 40A:2-7(h). The obligations authorized herein are to be issued for a purpose that is deemed to be self-liquidating pursuant to N.J.S.A. 40A:2-47(a) and are deductible from the gross debt of the Borough pursuant to N.J.S.A. 40A:2-44(c).

Section 7. The Borough hereby declares the intent of the Borough to issue bonds or bond anticipation notes in the amount authorized in Section 2 of this bond ordinance and to use the proceeds to pay or reimburse expenditures for the costs of the purposes described in Section 3(a) of this bond ordinance. This Section 7 is a declaration of intent within the meaning and for purposes of the Treasury Regulations.

Section 8. Any grant moneys received for the purpose described in Section 3 hereof shall be applied either to direct payment of the cost of the improvement or to payment of the obligations issued pursuant to this bond ordinance. The amount of obligations authorized but not issued hereunder shall be reduced to the extent that such funds are so used.

Section 9. The chief financial officer of the Borough is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of obligations of the Borough and to execute such disclosure document on behalf of the Borough. The chief financial officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Borough pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the “Rule”) for the benefit of holders and beneficial owners of obligations of the Borough and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Borough fails to comply with its undertaking, the Borough shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

Section 10. The full faith and credit of the Borough are hereby pledged to the punctual payment of the principal of and the interest on the obligations authorized by this bond ordinance. The obligations shall be direct, unlimited obligations of the Borough, and the Borough shall be obligated to levy *ad valorem* taxes upon all the taxable property within the Borough for the payment of the obligations and the interest thereon without limitation of rate or amount.

Section 11. This bond ordinance shall take effect 20 days after the first publication thereof after final adoption, as provided by the Local Bond Law.

**BOROUGH OF PENNINGTON
ORDINANCE NO. 2024-13**

**ORDINANCE UPDATING BOROUGH STORMWATER CONTROL ORDINANCE IN
ACCORDANCE WITH CURRENT REGULATIONS OF NEW JERSEY DEPARTMENT OF
ENVIRONMENTAL PROTECTION**

WHEREAS, the Borough of Pennington seeks to update its stormwater control ordinances to reflect amendments to the Stormwater Management Rules at N.J.A.C. 7:8, adopted March 2, 2020 and July 17, 2023;

WHEREAS, the updates involve (a) elimination of the "Rational Method" for calculation of stormwater runoff and groundwater recharge, and (b) revising current precipitation adjustment factors and future precipitation change factors;

NOW THEREFORE BE IT ORDAINED by the Borough Council of the Borough of Pennington as follows:

1. Sections 163-20.5 of the Code of the Borough of Pennington, concerning calculation of stormwater runoff and groundwater recharge, are hereby amended (with new language underlined and deleted language crossed out) as follows:

A. Stormwater runoff shall be calculated in accordance with the following:

(1) The design engineer shall calculate runoff using ~~(a) the~~ USDA Natural Resources Conservation Service (NRCS) methodology, including the NRCS Runoff Equation and Dimensionless Unit Hydrograph, as described in Chapters 7, 9, 10, 15 and 16, Part 630, Hydrology National Engineering Handbook, incorporated herein by reference as amended and supplemented. This methodology is additionally described in Technical Release 55- Urban Hydrology for Small Watersheds (TR-55), dated June 1986, incorporated herein by reference as amended and supplemented. Information regarding the methodology is available from the Natural Resources Conservation Service website at https://www.nrcs.usda.gov/Internet/FSE_DOCUMENTS/stelprd1044171.pdf; or at United States Department of Agriculture Natural Resources Conservation Service, 220 Davidson Avenue, Somerset, New Jersey 08873.

~~(b) The Rational Method for peak flow and the Modified Rational Method for hydrograph computations. The Rational and Modified Rational Methods are described in "Appendix A-9 Modified Rational Method" in the Standards for Soil Erosion and Sediment Control in New Jersey, January 2014. This document is available from the State Soil Conservation Committee or any of the Soil Conservation Districts listed at N.J.A.C. 2:90-1.3(a)3. The location, address, and telephone number for each Soil Conservation District is available from the State Soil Conservation Committee, PO Box 330, Trenton, New Jersey 08625. The document is also available at <http://www.nj.gov/agriculture/divisions/anr/pdf/2014NJSoilErosionControlStandardsComplete.pdf>.~~

(2) For the purpose of calculating runoff coefficients and groundwater recharge, there is a presumption that the pre-construction condition of a site or portion thereof is a wooded land use with good hydrologic condition. The term "runoff coefficient" applies to ~~both the NRCS methodology at § 163-20.5A(1)(a) and the Rational and Modified Rational Methods at § 163-20.5A(1)(b).~~ A runoff coefficient or a groundwater recharge land cover for an existing condition may be used on all or a portion of the site if the design engineer verifies that the hydrologic condition has existed on the site or portion of the site for at least five years without interruption prior to the time of application. If more than one land cover have existed on the site during the five years immediately prior to the time of application, the land cover with the lowest runoff potential shall be used for the computations. In addition, there is the presumption that the site is in good hydrologic condition (if the land use type is pasture, lawn, or park), with good cover (if the land use type is woods), or with good hydrologic condition and conservation treatment (if the land use type is cultivation).

(3) In computing pre-construction stormwater runoff, the design engineer shall account for all significant land features and structures, such as ponds, wetlands, depressions, hedgerows, or culverts, that may reduce pre-construction stormwater runoff rates and volumes.

(4) In computing stormwater runoff from all design storms, the design engineer shall consider the relative stormwater runoff rates and/or volumes of pervious and impervious surfaces separately to accurately compute the rates and volume of stormwater runoff from the site. To calculate runoff from unconnected impervious cover, urban impervious area modifications as described in the NRCS Technical Release 55 - Urban Hydrology for Small Watersheds and other methods may be employed.

(5) If the invert of the outlet structure of a stormwater management measure is below the flood hazard design flood elevation as defined at N.J.A.C. 7:13, the design engineer shall take into account the effects of tailwater in the design of structural stormwater management measures.

- B. Groundwater recharge may be calculated in accordance with the following: the New Jersey Geological Survey Report GSR-32, A Method for Evaluating Ground-Water Recharge Areas in New Jersey, incorporated herein by reference as amended and supplemented. Information regarding the methodology is available from the New Jersey Stormwater Best Management Practices Manual; at

<http://www.state.nj.us/dep/njgs/>; or at the New Jersey Geological Survey website at <https://www.nj.gov/dep/njgs/pricelst/greport/gsr32.pdf>; or at New Jersey Geological and Water Survey, 29 Arctic Parkway, PO Box 420 Mail Code 29-01, Trenton, New Jersey 08625-0420.

2. The aforesaid Section 163-20.5 is hereby supplemented with a new subsection C as follows:

C. The precipitation depths of the current two-, 10-, and 100-year storm events shall be determined by multiplying the values determined in accordance with items 1 and 2 below:

(1.) The applicant shall utilize the National Oceanographic and Atmospheric Administration (NOAA), National Weather Service’s Atlas 14 Point Precipitation Frequency Estimates: NJ, in accordance with the location(s) of the drainage area(s) of the site. This data is available at:

https://hdsc.nws.noaa.gov/hdsc/pfds/pfds_map_cont.html?bkmrk=nj; and

(2.) The applicant shall utilize Table 5: Current Precipitation Adjustment Factors below, which sets forth the applicable multiplier for the drainage area(s) of the site, in accordance with the county or counties where the drainage area(s) of the site is located. Where the major development lies in more than one county, the precipitation values shall be adjusted according to the percentage of the drainage area in each county. Alternately, separate rainfall totals can be developed for each county using the values in the table below.

(3.) Table 6: Future Precipitation Change Factors provided below sets forth the change factors to be used in determining the projected two-, 10-, and 100-year storm events for use in this chapter, which are organized alphabetically by county. The precipitation depth of the projected two-, 10-, and 100-year storm events of a site shall be determined by multiplying the precipitation depth of the two-, 10-, and 100-year storm events determined from the National Weather Service’s Atlas 14 Point Precipitation Frequency Estimates pursuant to C (1) above, by the change factor in the table below, in accordance with the county or counties where the drainage area(s) of the site is located. Where the major development and/or its drainage area lies in more than one county, the precipitation values shall be adjusted according to the percentage of the drainage area in each county. Alternately, separate rainfall totals can be developed for each county using the values in the table below.

WHEREAS, attached to this Resolution are copies of the Proposal by Scorpion Outdoors presented to Pennington in June 2020 describing their methodology and terms of engagement (16 pages);

WHEREAS, services will include a pre-season site survey to designate hunting locations, the establishment of bait stations, camera monitoring, hunting sessions, deer harvest, deer removal and deer donation, among a range of additional activities as described in the attached Proposal;

WHEREAS, the \$170 fee per harvested deer shall be an all-inclusive fee and the only compensation paid to Scorpion Outdoors, meaning there shall be no reimbursement for the cost of bait, for the processing of harvested deer, or for any other cost or expense, provided the harvested deer can be donated at no cost;

WHEREAS, Scorpion Outdoors promises to exert best efforts to donate harvested deer without incurring expense, but if it does not succeed in doing so, the contract will be suspended and there shall be no further hunting until an outlet for processing the deer (“Separate Outlet”) can be identified and the Borough enters into a separate contract with it at the Borough’s sole cost and expense;
