Matt Glaze reports that Texas Parks and Wildlife has requested another revision to the Section 7 evaluation (Endangered Species requirements). We are waiting for the approval of these revisions. - TCEQ Municipal Solid Waste did recently approve our application to "Disturb the surface of the landfill", which Urban Engineering prepared on our behalf. The application proposes completion with this "regrading" in about a year. Subsequently, TCEQ enforcement has now closed our Notice of violation case, so everything is good, but we need to begin working towards completion of this regrading project.

b) CRG Limited Phase II Environmental Site Assessment of the Harbor of Refuge Tracts 16, 17, and 17Ar - Presenter Jody Weaver

- As you recall CRG prepared and submitted an Affected Property Assessment Report to TCED on our behalf. We have had no response yet from TCEQ.

c) Project #9250 of the Texas Coastal Resiliency Master Plan and associated GLO CEPRA Grant application - Presenter Jody Weaver

- 2023 - Coastal Resiliency Master Plan is now live on the GLO's website.
<https://www.glo.texas.gov/coast/coastal-management/coastal-resiliency/resources/files/2023-tcrmp-overview.pdf>
This is a link to the overview and lists Project #9250 in Region 2 as being included. This project has three parts: Shoreline protection for the east side of the old landfill; the east (bay) side of the peninsula that protects the Harbor of Refuge and the east side of the wetland's areas at the south tip of the Harbor of Refuge track. I am working with Mott McDonald to prepare and submit a CEPRA grant application for these projects. They are not charging a fee to prepare this application.

ACTION ITEMS: LEASES

7. **New Lease Agreement for City Harbor Tract # SLIP CH1 with adjacent land to Big Bear Shrimp and Seafood, LLC. - Presenter Jody Weaver**

Attached is a draft Standard Lease Agreement for Slip CH1 and adjacent land at the City Harbor, with a draft Exhibit A.

As shown in the proposed exhibit, there is 923 sf of land where the steps and the building are. The magenta line is the property line of Scully restaurant, and you can see the 15 ft public access easement across their parking lot to get to this leased tract. It is my understanding that Big Bear does occasionally access the boat slip via Curtis Miller's lease with Mr. Miller's approval.

For consideration:

- Per the Valdrige report, on average, the Miller lease is 0.22 per sf of land with no additional valuation for boat slips.
- Poor Boy pays \$0.20 per sf plus \$250 per shrimp boat slip.

So, if we agree that the location of Poor Boys is more of a prime location than Slip CH1, and we use \$0.15 per sf + \$250 for the slip, that equals \$388.45. (He currently pays \$361.12)

I am proposing a 2-year lease with one or more options to extend either once for another 2 years or twice at one-year each. Each anniversary would come with an MCI increase — either straight MCI or min 2% max 5%.

- Comments from Chairman Davila, table until next Regular Port Commission Meeting.
