Interim City Manager Weaver advised Council that the Matagorda Bay Mitigation Trust issued Requests for Proposals on September 1, 2022 for their 2022-2023 funding cycle.

The application is requesting \$200,000.00 for Phase 1 engineering costs for needed shoreline protection along approximately 1,800 linear feet of the east side of the former City Landfill at the Harbor of Refuge. Earlier in the year, we submitted this project for inclusion in the General Land Office (GLO) 2023 Coastal Resiliency Master Plan and it was accepted. This Phase 1 engineering will accomplish 30% engineering design, the application for a GLO CEPR grant and submittal-ready Regulatory permitting. On January 4, 2023 staff was notified that the project application entitled "Harbor of Refuge Old Landfill Shoreline Erosion Response and Protection - Phase 1 Engineering" was approved for funding.

Weaver advised that staff is working with Texas Commission on Environmental Quality (TCEQ) on an immediate resolution to the erosion being seen on the northeast length of this shoreline. Staff has proposed a solution that involves cutting back the bank to a slope that is less susceptible to erosion. If approved, costs for this initial work will likely be paid for with Community Development Block Grant Mitigation (CDBG-MIT) appropriations. In the CEPRA grant application, the plan is to apply to construct a concrete revetment mat that would provide long-term protection of this shoreline. If the CEPRA grant application is approved, since the project is in the 2023 CRMP, GLO would use GOMESA funds to pay for 100% of the construction costs along with 60% of the engineering costs. It is staff's recommendation to approve the contract with the Matagorda Mitigation Trust for \$200,000.00 in grant dollars.

Motion made by Councilman District Ward
