5. Crook County Health Department Update – Muriel Delavergene-Brown

Ms. Delavergene-Brown explained she had sent three documents to share regarding information since the last update to Council. Those documents were on Crook County being approved for reopening on the 6th; a contact tracing graphic on how that works; and a re-opening guidance tool that makes it really simple to go through what is required for each type of business.

June 9, 2020 Page 2 of 6

Ms. Delavergene-Brown continued her update explaining that for opening there are six metrics that the state measures us on, we have met six out of six and Deschutes and Jefferson had to have discussion with Governor and they were able to eventually re-open once a few questions were answered; everything is posted on CCHD website; OSHA is really responsible regarding the business side, but CCHD still gets complaints, however they are still following up; Crook County is still maintaining at 6 cases on the state website, however there are a couple more that will show up in the next couple of days; Lincoln County had 160 cases in a couple of days; St. Charles had health educators get trained as tracers and will assist as needed; if there are five or more cases in the work place, they will be announced; went through recovery statistics and will probably be more that have recovered. Testing continues to increase from 31.1 per 10,000; there is a new testing group that just had their first meeting last Thursday; otherwise we are moving forward and continue to give guidance.

Councilor Hutchison asked how long it takes to get test results. Rapid test is within 45 minutes but they are not being used for everyone, otherwise about 3 days.

Discussions continued regarding: if the rapid tests are as accurate; there still being an issue with supply; still waiting on conversation with Walmart from three weeks ago being able to do pop up testing and state is still working on contract with them; Central Oregon was chosen as location to do testing for patients/clients in long term facilities, however is not sure it is in Crook County yet; anyone that is going in for a procedure in St. Charles is getting tested too and numbers will go up. Where you have to get tested would depend on who you are seeing because they all have different labs and would play a role in it.

St. Charles has 4 COVID patients in their system, so far nothing in a long term facility or any deaths.

Councilor Papke asked about hearing a high school in Redmond that decided to have a crawl here in Crook County and asked whose prevue does that fall under? Ms. Delavergene-Brown responded that is incredibly frustrating and was told they said it is happening in Crook County because they said nothing will happen to them. They reached out to that group but didn't get a response. She continued that it really comes down to education. Health Directors in Montana can make it stricter than the Governor however not in Oregon. It is harder with private gatherings than with a public facility.

Discussions continued about various venues that are privately owned that do weddings, etc. and whose authority they fall under. It would probably fall to law enforcement; and Crook County Health Department could get involved if there is perhaps catering.

Ms. Delavergene-Brown explained it is not like the virus has gone away and we still have to be cognizant.

There were no further questions.

7. Temporary Expansion of Utility Bill Assistance Related to COVID-19 City Policies – Lori Hooper

Lori Hooper, Finance Manager presented highlights of the staff report.

Ms. Hooper was asked to go through what that looks like and explained that they are trying to offer a payment program and a credit. The Finance Department will start noticing at the end of June for past due customers, again at the end of July and likely follow up with calls to get them on payment plan which would be approximately 4-6 months.

Discussions continued regarding there are currently about 113 customers that are past due and that today would have been a shut off day that would have shut off those 113 customers when it would normally be around 50.

Mayor Uffelman asked Ms. Hooper to read entire staff report.

Councilor Rodriguez asked why a credit doesn't apply for water only or sewer only accounts. Staff explained that sewer only accounts cannot be turned off, and number of water only accounts is very small. Staff said it could be looked into.

Mayor Uffelman commented he thought it is a great program.

City Attorney, Jered Reid explained that no motion is needed, and will continue to work with Lori Hooper on developing the payment plan agreement.

There were no further questions.

Matt Wiederholt, Railway Operations Manager provided a Railroad update. Mr. Weiderholt explained that we had a single car derail. The cars were being pushed backwards and hit a bad switch and derailed one car; no one was hurt; after reviewing the incident and response, everyone did exactly what they were supposed to do. There is some damage to two private crossings and track which is getting fixed. This occurred right in front of Brightwood and he is grateful how the city teams works together.

Councilor Hutchison asked for an update about that tank that was found in city parking lot.

Eric Klann, City Engineer provided the details.

Agency shall notify the other Party in writing of any contact information changes during the term of this Agreement.

STATE OBLIGATIONS

GENERAL PROVISIONS

- 1. This Agreement may be terminated by mutual written consent of both Parties.
- 2. State may terminate this Agreement effective upon delivery of written notice to Agency, or at such later date as may be established by State, under any of the following conditions:
 - a. If Agency fails to provide services called for by this Agreement within the time specified herein or any extension thereof.
 - b. If Agency fails to perform any of the other provisions of this Agreement, or so fails to pursue the work as to endanger performance of this Agreement in accordance with its terms, and after receipt of written notice from State fails to correct such failures within ten (10) days or such longer period as State may authorize.
 - c. If State fails to receive funding, appropriations, limitations or other expenditure authority sufficient to allow State, in the exercise of its reasonable administrative discretion, to continue to make payments for performance of this Agreement.

- d. If federal or state laws, regulations or guidelines are modified or interpreted in such a way that either the work under this Agreement is prohibited or State is prohibited from paying for such work from the planned funding source.
- 3. Any termination of this Agreement shall not prejudice any rights or obligations accrued to the Parties prior to termination.
- 4. If any third party makes any claim or brings any action, suit or proceeding alleging a tort as now or hereafter defined in ORS 30.260 ("Third Party Claim") against State or Agency with respect to which the other Party may have liability, the notified Party must promptly notify the other Party in writing of the Third Party Claim and deliver to the other Party a copy of the claim, process, and all legal pleadings with respect to the Third Party Claim. Each Party is entitled to participate in the defense of a Third Party Claim, and to defend a Third Party Claim with counsel of its own choosing. Receipt by a Party of the notice and copies required in this paragraph and meaningful opportunity for the Party to participate in the investigation, defense and settlement of the Third Party Claim with counsel of its own choosing are conditions precedent to that Party's liability with respect to the Third Party Claim.
- 5. With respect to a Third Party Claim for which State is jointly liable with Agency (or would be if joined in the Third Party Claim), State shall contribute to the amount of expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred and paid or payable by Agency in such proportion as is appropriate to reflect the relative fault of State on the one hand and of Agency on the other hand in connection with the events which resulted in such expenses, judgments, fines or settlement amounts, as well as any other relevant equitable considerations. The relative fault of State on the one hand and of Agency on the other hand shall be determined by reference to, among other things, the Parties' relative intent, knowledge, access to information and opportunity to correct or prevent the circumstances resulting in such expenses, judgments, fines or settlement amounts. State's contribution amount in any instance is capped to the same extent it would have been capped under Oregon law, including the Oregon Tort Claims Act, ORS 30.260 to 30.300, if State had sole liability in the proceeding.
- 6. With respect to a Third Party Claim for which Agency is jointly liable with State (or would be if joined in the Third Party Claim), Agency shall contribute to the amount of expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred and paid or payable by State in such proportion as is appropriate to reflect the relative fault of Agency on the one hand and of State on the other hand in connection with the events which resulted in such expenses, judgments, fines or settlement amounts, as well as any other relevant equitable considerations. The relative fault of Agency on the one hand and of State on the other hand shall be determined by reference to, among other things, the Parties' relative intent, knowledge, access to information and opportunity to correct or prevent the circumstances resulting in such expenses, judgments, fines or settlement amounts. Agency's contribution amount in any instance is capped to the same extent it would

- have been capped under Oregon law, including the Oregon Tort Claims Act, ORS 30.260 to 30.300, if it had sole liability in the proceeding.
- 7. The Parties shall attempt in good faith to resolve any dispute arising out of this Agreement. In addition, the Parties may agree to utilize a jointly selected mediator or arbitrator (for non-binding arbitration) to resolve the dispute short of litigation.
- 8. This Agreement may be executed in several counterparts (facsimile or otherwise) all of which when taken together shall constitute one agreement binding on all Parties, notwithstanding that all Parties are not signatories to the same counterpart. Each copy of this Agreement so executed shall constitute an original.
- 9. This Agreement and attached exhibits constitute the entire agreement between the Parties on the subject matter hereof. There are no understandings, agreements, or representations, oral or written, not specified herein regarding this Agreement. No waiver, consent, modification or change of terms of this Agreement shall bind either Party unless in writing and signed by both Parties and all necessary approvals have been obtained. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. The failure of State to enforce any provision of this Agreement shall not constitute a waiver by State of that or any other provision.

THE PARTIES, by execution of this Agreement, hereby acknowledge that their signing representatives have read this Agreement, understand it, and agree to be bound by its terms and conditions.
