Mr. Hicks presented Item 5 to the Commission.

The Commission inquired if the screening requirements between office and single family will still apply if there is a floodplain between them.

Mr. Hoover responded that the space provided by the floodplain should be sufficient. However, if there are any gaps where there is not sufficient landscaping, the developers will be required to provide additional landscaping in those areas.

Chair Jackson opened the public hearing.

David Bond of Spiars Engineering commented that the project's landscaper determined the nearest house is approximately a quarter mile away. Therefore, a variance or waiver was not requested because the development complies with the buffering requirements.

The Commission inquired further into what uses are intended for the sports facility. Mr. Bond responded that the owner is seeking pickleball, table tennis, and badminton.

The applicant, Phani Chennuputi, commented that since many Prosper residents are currently going to nearby cities to play these sports, he hopes to provide a local facility for residents. He also mentioned the idea of potential additions of outdoor tennis courts and a swimming pool for children's lessons.

Chair Jackson closed the public hearing.
