Thursday: 1pm-3pm

RIDGEWAY

208 Jarvis Street | Suite A | Ridgeway, WI 53582

Iowa County, Wisconsin

To: Park and Recreation Commission/Board of Trustees

RE: Bike Racks for Park

From: Hailey Roessler, Clerk/Treasurer

August 29, 2023

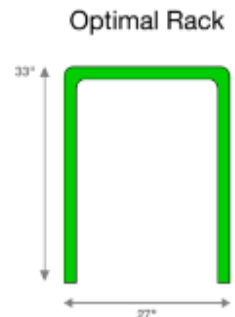

The Ridgeway Community Park currently has one bike rack at the trail head (by the Reeson memorial bench and kiosk/picnic table north of Larson’s barn, *pictured below*) with 26 holes for bikes. The Vibrant Spaces Grant, and Ridgeway Farmer’s Market Grant award from Iowa County Tourism, requested funds for a bike rack. The CDI Vibrant Spaces Grant award included additional funding for picnic tables, benches, monument lighting, planter boxes, trash cans, and a fire pit. The DNR also has a possible donation available of blue wave racks that need to be mounted in cement.

Utilizing fund requests from CDI-VS for the \$369 and Ridgeway Farm Market’s Tourism Grant from Iowa County for \$700 the village could place bike racks in different areas.

Best practice recommendations are the staple bike racks that allow two points of securement for bicycles. Info links:

The Circle/Staple Racks require concrete and maintenance is less (trimming/mowing). DPW prefers any additions be placed on a concrete slab for permanent mounting and ease of mowing and upkeep.

The Grid racks can be placed in the grass and hold more bikes. Usage on these was noted as questionable (bikers don't utilize them as intended either because their tire is too big or they don't know how etc.) in some forums.

I did have two people tell me while I was taking pictures that no one uses the rack that is over there in response to telling them what I was doing. The current rack is a DNR bike rack the Friends of the Military Ridge Trail requested because bike riders stop at the kiosk to get information and had nowhere to park their bikes. This rack is currently located on DNR property, pictured on page 1.

Possible locations:

Village Green Area:

People do park here to unload bikes and utilize the trail. This was indicated in the Vibrant Spaces Grant as the location. I have seen people using the trees as a resting spot for their bikes until they are ready.

Park Restrooms:

They also make a bollard style bike rack, pictured bottom of page, if you want to keep the bollards there? People clearly just drive to the left of them and the DNR wasn't sure what purpose they continued to serve or who put them in. My understanding was that the village put them in to limit traffic from driving through there. The Friends didn't know either, but they are the ones that painted them last.
