- Vice-chair Thompson explained he has been thinking about what permits are required when it comes to the construction or renovation of a building.
- Secretary Adair explained there might be times when a special use permit might need to be required, but for the most part a building permit is only required for new construction. He then explained the zoning grid will be to give a quick aide to look up what is permitted in specific areas and continued the discussion.
- Vice-chair Thompson said this is a long document, pointed out some changes needing to be made on Section 4-3-5, and said he feels they will need some time to dissect. He then said he believes Economic Development should be included because it might affect them and began a discussion.
- Secretary Adair said if we can modify the zoning grid to make sense, such as having more than one zone that a bakery can be in, and each type of zone should have an easy-to-understand paragraph summary.

- Chair Scroggins asked if the descriptions of the city are clear compared to other cities.
- Manager Dr, Moore said they are not as clear as they should be, but they could most likely be defended in court, but the ordinance should be clearer so that it will without a doubt be defensible in court. The discussion continued.
- Chair Scroggins said if there is ever a time where conditional use permit is required, they would have to come before the commission anyway.
- Manager Dr. Moore said if it is not clearly zoned for a specific type of use, they must come before the commission. He explained the grid was just to make it easy to figure out what is permitted in a specific zone and because the grid did not exist before the ordinance was written, it would have to be added to the ordinance and continued the discussion.
- Chair Scroggins began a discussion regarding codification of the zoning ordinance.

- Manager Dr. Moore said that by adding the zoning grid to the zoning ordinance it would become a legal document and began a discussion.

He then said we will work with people who are diligently to clean up and will be writing citations to those who are not complying.
