Motions, Orders, and Resolutions

1. **Resolution 2025-001A: Concerning Commitment To All Residents of the Town of Randolph**
2. **Resolution 2025-001B: Resolution to All Residents of the Town of Randolph**

Councillor Gordon: This is a resolution that has gone through a process of over two months long. This is our final vote. We call it the Welcoming Town Resolution. It lays out what the Town of Randolph does

for a very large immigrant population. What we do is no more and no less than that the law requires. That is not the same as a sanctuary city. We had a very full discussion about that in the Subcommittee where the Police Chief came and discussed it. The Police will not ask you for your immigration status. It is not a sanctuary city which does less than what the law requires. It is not a deputization of ICE agenda which does more than what the law requires.

Councillor Huff-Larmond: Councillor Gordon and I authored this resolution because we thought it was important to share with our residents that this is a Town where we are protective of everyone's rights. With a large majority of residents in the Town of Randolph being new to the country, we wanted to make sure that this resolution spoke to our population. Here in Randolph, we want you to know you are welcome. We went to different organizations and individuals to help craft the resolution but also to give important information about their opinion about the resolution. We found overwhelmingly that people were excited and thought it was a good idea to have a resolution that spoke to a large population of residents. Some way this will bring attention to our Town but attention is already on the Town of Randolph because we have such a large population of new neighbors, or immigrants. Thank you to all of those who came forward in support of the resolution.

Town Attorney Christine Griffin read the Resolution 2025-001A.

Councillor Burgess: I had a difference of opinion than the presenters. What we were told is that the welcoming resolution was to welcome our immigrants, making sure that anyone who was here in our community felt that they were safe and they were not going to be unduly pressured by police or law enforcement. Words have meaning and in this resolution, it only references and affects the own Council, its employees, and its volunteers but has not responsibility to the members of the community. In my view, this is saying that the Town, Boards, Councils Commissions, are not holding up their end of the bargain. People who are most affected by what is going on should not be given false hope, or a false sense of security by thinking that a resolution is going to protect them.

Town Attorney Christine Griffin read the Resolution 2025-001B.

Councillor: This says that we are welcoming to all. We acknowledge that we are a nation of immigrants and that if you are a person who is undocumented you should be aware of what's going on. This resolution is not going to protect you. If you need help you should seek that help through your government, and we will do what we can or go to our Town's website where there is a list of agencies that can help.

Motion to continue the public hearings for Council Order 2025-013, Council Order 2025-014, and Council Order 11 until after the previous matter is resolved made by X, seconded by Councillor X.
Roll Call Vote: 8-0-0 (Absent: Egan)
Motion passes.

Councillor Clerger: It is clear that no matter what, you will not be in favor of this Resolution. This resolution is not misleading. They know this resolution is not a ticket out of jail. If you have a heart, let's vote for this and if it passes it passes.

Councillor Brewer: I'd like to offer an amendment that combines both resolutions that adds the language in Resolution 2025-001B to the bottom of Resolution 2025-001A. I don't think the wording in the resolution is out of line at all. If you accept that amendment, then we can move forward with the resolution.

Councillor Huff-Larmond: The problem with this second resolution is that it is not specific enough to the population. We want to make sure we are talking about a population of individuals who are being targeted every day. We not only want to protect that one population, we want to recognize that population being targeted, feeling unwanted, and feeling targeted. We've made changes to the resolution and we tried to implement the changes enough so it will continue to speak to the population we want to speak to and do what it needs to do.

Additional discussion of the Council was held concerning the language in the Resolutions and clarifying Councillor Brewer's proposed amendment.

Motion to approve Resolution 2025-001B made by Councillor Burgess. There was no second. The Motion dies.

Motion to combine Resolution 2025-001A and Resolution 2025-001B made by Councillor Gordon, seconded by Councillor Bower.

Public Comments:

1. Sandy Cohen, 63 Bittersweet Lane: 2. I've noticed blue lights attached to poles. Can someone please let me know what that is?
2. Ira Greene: I've lost three friends in the Randolph Police Department in the last three years- two tragically, and one unexpectedly. We have a Police Chief that's been on the job just a little over three years and he's dealt with a lot. He's been dealing with an officer that was injured and the State's given the Town a hard time about retiring. This is a family that has feelings and emotions and I would like the people of Randolph to stand behind them and support them.
