NEW BUSINESS

1. 2027-2031 Capital Improvement Plan (CIP).

The discussion focused on developing a five-year Capital Improvement Plan (CIP) that organizes the village's major projects by priority, timing, and available funding. Scot Wrighton Village Administrator explained that the village has more available reserve funding than previously expected, including money that had been set aside for matching grants that have not yet materialized.

Scot's proposal is to increase funding for the residential street program from \$500,000 to approximately \$1 million per year. This would allow the village to address more deteriorating residential roads while also establishing a longer-term maintenance program, such as crack sealing, to extend pavement life. The plan also proposes moving forward with Main Street improvements in phases rather than attempting the entire project at once, since the full project is estimated to cost more than \$20 million.

The plan would also reconsider the timing of projects near the Rockton Road interchange, Love Road, and Willowbrook Road, placing some of those larger projects later in the five-year plan while focusing the earlier years on residential streets and Main Street. Scot emphasized that this does not eliminate the larger projects; rather, their timing may depend on future development, grants, and other funding opportunities.

Trustees generally supported the direction of the five-year plan but emphasized that the final numbers still need to be worked out during the 2027–2028 budget process. Scot and Staff will revise the plan to account for the Porter Park Phase Two project and parking lot, as well as other adjustments. No action was taken at this time.

2. Proposed Village Code Revisions, Part 1.

Scot Wrighton Village Administrator presented the first phase of proposals of Title II of the Village Code, explaining that many provisions and related policies are outdated and were written when the Village had fewer employees and Trustees performed more administrative work. The revisions are intended to distinguish the board's legislative, policy, and public-facing responsibilities from the administrator's internal management duties, strengthen the village administrator position, align the code with Illinois law and municipal best practices, and support future administrator recruitment. The draft identifies existing language, proposed additions, deletions, and explanatory commentary. Because it had not yet received a detailed legal review, Scot asked the board to provide initial direction before sending a more complete draft to the Village Attorney.

Trustees generally agreed that the 24-page proposal was too extensive for immediate approval, although some favored reviewing straightforward provisions while postponing more complicated issues. Proposed changes included allowing local meeting rules to supplement Robert's Rules of Order, generally requiring second readings only for ordinances rather than routine resolutions and motions clarifying the policy-development role of the Committee of the Whole, defining village departments and specifying appointment authority for department heads. Other Changes would permit an existing employee to serve as deputy village clerk, allow the village attorney to be excused from meetings when legal counsel is unnecessary, strengthen and clarify the village administrator's authority, and separate the controller and treasurer functions to improve financial oversight and maintain appropriate segregation of

duties. Scot also noted that the board could consider changing the title of village president to mayor without changing the municipality's legal status as a village.

Collective Bargaining received most immediate attention because negotiations were scheduled to begin October 1. Scot Village Administrator recommended reducing elected official participation on the bargaining team while preserving the full board's authority to establish bargaining parameters in executive session, receive updates, and approve or reject any resulting agreement. After discussing whether the upcoming meeting could proceed under the existing ordinance, Scot said the first session would primarily involve exchanging ideas and would not be harmed by delaying formal code action until October 6.

A motion was made by Trustee Broda move forward with just the Collective Bargaining only Sec 2-57 second by Trustee Sima. Voting yes: Trustees Mead, Broda, Sima, Wright. Voting No: Trustee Babcock 4-1-0.

A motion was made by Trustee Broda to update the pronouns language from his/her to their in the whole documents, second by Trustee Sima. Voting yes: Trustees Broda, Wright, Sima, Mead. Voting no: Trustee Babcock 4-1-0.

A motion was made by Trustee Broda to advance Articles I and II with changes, second by Trustee Sima Voting yes: Trustee Mead, Wright, Sima, Broda. Voting no: Trustee Babcock 4-1-0.

A motion was made by Trustee Broda to hold a special meeting on September 15, 2026, for ZBA and Collective Bargaining items, second by Trustee Mead. Voting yes: Trustees Babcock, Broda, Wright, Mead, Sima 5-0-0.

PUBLIC COMMENT (limited to 3 minutes per speaker)

Troy Taylor Public Works Supervisor stated starting Monday September 21, Public Works will be going back to the regular hour from 7-3:30.

Trustee Broda commended the Public Works and Police Departments for their efforts during this year's Fall Festival. The festival was described as a great success, with a happy crowd and no major issues. Appreciation was expressed for the departments' work in setting up, cleaning up promptly, and reopening the streets as soon as the rain stopped.

Trustee Wright raised question in regarding the Village's vehicle insurance and who is authorized to drive Village vehicles, particularly in connection with an upcoming trip to Chicago. Scot explained that the proposed policy language would limit Village vehicle use to individuals who have an employment or contractual relationship with the Village, as others may not be covered by the Village's insurance. Scot also noted that the Village has received the new vehicle but is still waiting for its license plates and will provide an update before the Chicago trip. The policy language is expected to be revised and is not yet final.

PRESENTATIONS

Brandon Boggs Village Engineer provided an update on the Residential Road Program, noting that the project has been completed and the contractor has finished the punch list. The project is currently

waiting on one subcontractor to agree to the final quantities, while the general contractor and all other subcontractors have agreed to their quantities. As of today, the project is tracking approximately \$100,000 under the expected budget, pending resolution with the remaining subcontractor. The contractor has been informed that the team would like to proceed with the final pay application.

EXECUTIVE SESSION (IF NECESSARY)

ADJOURNMENT

Trustee Wright asked for a motion to Adjourn the meeting.

Motion was made by Trustee Broda, second by Trustee Mead. All in favor Yea, no opposed.

Meeting Adjourned at 8:19 pm.

October 1, 2026

TO: President Gustafson & Roscoe Village Trustees
FROM: Scot Wrighton, Interim Village Administrator
RE: Committee-of-the-Whole

I would like to discuss two topics at the October 6 Committee-of-the-Whole: 1) future use of tax increment financing as an economic development and community revitalization tool, and options for the same; and 2) continue evaluating proposed revisions to the Village Code's Title II (Administration), which began on September 15 and was partially tabled.

Tax Increment Financing (TIF) as an Economic Development & Revitalization Tool

Once the Village Board ascertains that it wants to explore TIF as a tool to attract development into the village, the next step is to recruit consultants to assist with the process, and to give careful consideration to the exact locations for district boundaries, and in other ways direct the scope of a potential TIF district—subject to the requirements of Illinois TIF statutes.

A TIF consultant can be expected to perform the following functions:

- Evaluating the feasibility for a Tax Increment Financing (TIF) District.
- Designing and qualifying effective Redevelopment Project Areas, including annexations when necessary.
- Preparing an appropriate TIF Redevelopment Plan.
- Consulting with affected taxing bodies, analyzing potential impacts and recommending methods for preparing Intergovernmental Agreements when appropriate.
- Negotiating and preparing Redevelopment Agreements with Private Developers.
- Moderating all required meetings and public hearings.
- Coordinating all statutory procedures and assisting the city with properly executing the necessary ordinances and resolutions.

- Certifying the Redevelopment Project Area with county officials in advance of annually tracking the performance of the TIF District on a parcel-by-parcel basis.

Attached to this memo is a first draft of a request for proposals which, once it is finalized, can be used to solicit professional service proposals. It is recommended that the governing body provide feedback to staff about areas they would like included in a tax increment financing district (if it is determined to meet the statutory requirements), and that they direct staff to release a request for proposals (RFP) for TIF consultancy services as quickly as possible, and to return a recommendation for the appropriate consultant(s) at the conclusion of a competitive procurement process for final action by the Board.

Additional information about how TIF is a useful economic development tool for local government is also attached.

Administrative Code Revisions (cont'd)

It is requested that the Village Board continue discussion and review of proposed revisions to Title II, picking up where they left off on September 15. Those portions of Title II, not already approved and recommended to the Village Board for adoption on October 6, have been resubmitted and attached to this memo, and utilize the same ~~green strikeouts~~ for language proposed for deletion, **red bold italics** for proposed new language, and smaller font **bold blue text** for my commentary and discussion of background, options and rationale for changes. Commentary and options are not intended to ever be ordinance language, nor will they be included final versions for adoption by the Board.

The sections attached include Standing Committees, Village Departments, Village Officials, gift acceptance, boards & commissions, the fire & police commission, and ethics. When the Board has completed work on these sections of the Village Code, they will have gone through Chapters 20, 21, 22 and 23 of Title II. At a later date, I will present revisions to travel and other policies, purchasing & procurement policies, finance and taxation ordinances, fair housing, code enforcement policies and other policies of the Village in Chapters 24 through 27 of Title II (Part 2). As they did on September 15, the Board can postpone or table parts of this project if they need additional time to study them.

VILLAGE OF ROSCOE TAX INCREMENT FINANCING REQUEST FOR PROPOSALS

INTRODUCTION

The Village of Roscoe, Illinois, is located in northern Winnebago County and is part of the Greater Rockford metropolitan area. The Village of Roscoe is situated on Illinois Route 251 between South Beloit and Machesney Park, and has a population of 11,500. While the Village has seen modest growth as a suburb of Rockford, lack of sufficient access to utilities and other infrastructure, antiquated development patterns, the need for structure rehabilitation, problems with water drainage and pockets of EAV stagnation have all contributed to slowing of economic activity in some key areas of the Village. The Village hopes to stimulate economic growth and revitalize old industrial and commercial areas, and incentivize new development on tracts that have, so far, not been able to successfully attract development due to the limitations listed above. The only active TIF district in the Village is a small district created 15 years ago to assist in the recruitment of AAE Industries to a site that required environmental remediation.

PROPOSALS TO BE CONSIDERED

The Village is hereby requesting proposals from qualified consultants to develop a new TIF district(s). The selected firm will work with Village staff to determine the boundaries of

the district(s). The Village envisions the TIF district(s) encompassing much of the land currently zoned and/or used for industrial and commercial purposes, as well as including selected peripheral areas that have resisted development due to site, access, or financial constraints. A map of the Village with a colored overlay showing possible tracts for inclusion in a TIF district is attached for reference. After determining the proposed district's boundary, the selected consultant will evaluate the district(s) for eligibility, adjust the boundaries as appropriate, conduct any necessary studies, and create a redevelopment plan based on sound financial analysis and market realities.

As part of the TIF creation process, the selected firm will assist Village staff in coordinating all necessary public engagement activities and all public meetings, including those with other local taxing bodies. Some of this may be done in a hybrid or remote meeting format, but the most important meetings must be undertaken in person. This includes meetings with the local Joint Review Board.

The Village is interested in an expedited project timeline with an anticipated TIF district completion date late in the second quarter of 2027. Project costs should reflect this aggressive timeline and be commensurately competitive.

CONTENTS OF PROPOSAL

Responses must include a detailed explanation of the proposed services, budget, and project timeline. Proposals must also contain a description of the respondent's experience with similar clients. Respondents should highlight TIF districts they have

worked on that are similar in scope, with goals and conditions similar to those in the Village of Roscoe, Illinois. Proposals should also highlight the personnel who would work to provide consultancy services, with their respective levels of experience identified, with resumes provided. The Village prefers that legal services for the consultancy be combined/bundled together.

SUBMISSION OF PROPOSAL

Submissions must be received no later than Tuesday, November 24, 2026, at 4:00 PM. Proposals may be delivered in person or sent via mail with a tracking service. All submissions must be in sealed envelopes that include the following information on the outside cover:

Village Clerk, Village of Roscoe
10631 Main Street
Roscoe, IL 61073
ENCLOSED: Response to RFP – Roscoe TIF Consultancy

AWARDING CONTRACTS

Proposals shall be reviewed for experience, previous work history, references, insurance, bonds, subcontractors, and compatibility with the Village's community and economic development goals. The Village, at its sole discretion, shall decide after a review of all proposals, which respondent, if any, is successful. All bidding and award procedures undertaken by the Village regarding this project shall be consistent with the Village's adopted procurement procedures. Submitted proposals shall remain valid for 60 days after opening the proposals.

RESPONDENT RESPONSIBILITY

Respondents should perform their own due diligence on the Village of Roscoe. Each respondent shall be fully acquainted with conditions relating to the scope of work, any current government regulations pertaining to the work, and restrictions associated with acceptable execution of requested work. Failure or omission of the respondent to acquaint themselves with conditions shall in no way relieve them of any obligation with respect to their proposal or subsequent contract.

FEDERAL, STATE, AND LOCAL REPORTING COMPLIANCE

The respondent shall provide financial and programmatic information as required by the Village of Roscoe to comply with all Federal, State, and local law reporting requirements. The respondent shall also adhere to all applicable Federal, State, and local regulations.

TAX INCREMENT FINANCING (TIF)

BACKGROUND

Illinois adopted Tax Increment Financing (TIF) in 1977. A reform to this law was enacted in 1999. Since the first TIF statute was adopted by the State of California in 1952, 49 states have passed legislation authorizing the use of TIF. According to the most recently available data from the Illinois Office of Comptroller (IOC), there may be up to 1,513 TIF districts located in as many as 549 Illinois municipalities.

WHAT IS TIF?

TIF is a mechanism for municipalities to spur economic development in specific geographic areas that are blighted and deteriorating. To do this, local taxing bodies create a TIF redevelopment project area, or TIF district, whereby the Equalized Assessed Value (EAV) of the property in the area is set at a base amount. Property taxes collected on properties included in the TIF district at the time of its designation continue to be distributed to the school districts and all other affected taxing districts in the same manner as if the district did not exist. Establishment of a TIF does not reduce property tax revenues available to the overlapping taxing bodies.

A tax increment is the difference between the amount of property tax revenue generated before TIF district designation and the amount of property tax revenue generated after TIF designation. Only property taxes generated by the incremental increase in the EAV of these properties after that time are available for use in the TIF district by a municipality.

HOW IS A TIF DISTRICT CREATED?

In order to establish a TIF district, a local government must find that development or redevelopment of the area would not occur “but for” the creation and use of TIF. Illinois law specifies a number of requirements that must be satisfied for an area to qualify as a TIF district, beginning with identifying the district and the physical and economic deficiencies that need to be cured. Specifically, state law requires that the proposed area must meet one or more of three conditions:

1. Blighted conditions;
2. Conservation conditions; and,
3. Industrial park conservation conditions.

If one or more of these conditions is identified, municipal officials and a Joint Review Board, made up of representatives from affected local taxing bodies, must review a plan for the redevelopment of the TIF area. A public hearing must be held where residents and other interested parties can express their thoughts on the subject. If the plan for redevelopment is approved by the Joint Review Board, the municipality may adopt the plan by a majority vote of the corporate authorities. If the Joint Review Board rejects the plan for redevelopment, the municipality may proceed but the plan must be approved by a three-fifths vote of the corporate authorities. Finally, the mayor or village president will sign the ordinance into law. No state or federal approval is required for creation.

HOW DOES TIF WORK AFTER CREATION?

The growth of the EAV of property within the TIF district (the increment) is collected into a special fund for use by the municipality to make additional eligible investments in the TIF project areas. The reinvestment generates additional growth in property value, which results in more revenue growth for reinvestment. Once a redevelopment project is completed and has been paid for, the TIF district may be dissolved and the tax base returned to full use by all eligible taxing bodies.

HOW LONG DOES A TIF DISTRICT LAST?

Under Illinois law, a TIF district may last for up to a maximum of 23 years. This period can be extended by 12 additional years upon approval by the Illinois General Assembly. In some cases, the General Assembly has extended TIF districts twice, for a total of 47 years. Municipalities seeking extensions must receive approval from the General Assembly, which requires, by rule, letters of support from overlapping units of local government whose boundaries fall within the TIF district.

OTHER FUNDING SOURCES BESIDES TIF

TIFs are more frequently used now because other development tools, like Industrial Revenue Bonds and Urban Development and Infrastructure Grants, are no longer readily available to local governments.

Federal and state aid to local governments has been reduced. At the same time, unfunded federal and state mandates have increased the financial burden on most municipalities. Factor in state imposed property tax caps, and the funding problems facing local governments make it obvious that local governments are left to do more with less.

TIF offers local governments a resource to revitalize their communities by expanding their tax base, offsetting, in part, the federal and state funds that are no longer available to them without imposing increased taxes on the whole community.

WHAT CAN TIF BE USED FOR?

TIF funds may be used to reimburse eligible “redevelopment projects costs” as defined in the Act.¹ The statute provides a comprehensive list of associated project and reimbursement costs which may include, but are not limited to, the following actions occurring within the TIF district:

- Administration of a TIF redevelopment project;
- Property acquisition, renovation, rehabilitation and demolition;
- Construction of public works or improvements;
- Job training related to the TIF area;
- Financing costs, including interest assistance;
- Studies, surveys and plans;
- Marketing related to sites within the TIF; and,
- Professional services, such as architecture and design services.

DESIGNATION AND DISTRIBUTION OF SURPLUS FUNDS

The TIF Act provides that any portion of an annual ending balance of a TIF fund that has not been identified (or is not identified as being required, pledged, earmarked or otherwise designated for payment or securing of obligations or anticipated redevelopment project costs) shall be designated as surplus. (Section 11-74.4-7)

The Act also provides for the distribution of surplus funds annually, within 180 days after the close of a municipality's fiscal year. Surplus funds are paid by the municipal treasurer to the county collector, the Illinois Department of Revenue (IDOR) and to the municipality in direct proportion to the incremental tax revenue received. The county treasurer is then required to make distributions to the respective taxing districts.

TIF REPORTING REQUIREMENTS

The Act currently requires TIF municipalities to submit a report to IOC, and all taxing districts overlapping the redevelopment project area, no later than 180 days after the close of each municipal fiscal year detailing information about a TIF district. The report must include, but is not limited to, an analysis of the special tax allocation fund, a statement setting forth all activities undertaken in furtherance of the objectives of a TIF District Redevelopment Plan, a legal opinion that the municipality is in compliance with the TIF Act and any amendments to the redevelopment plan.

Enacted in 2021, [Public Act \(P.A.\) 102-0127](#) amends the TIF Act and expands mandated reporting requirements to include a comparison between the original projected increment and jobs for the TIF district, the actual amount of increment and jobs created to date, and an update on the stated rate of return for a development and the actual debt service on any notes issued by the municipality. In addition, P.A. 102-0127 authorizes municipalities to select a consultant to provide an analysis of the projected increment and the actual debt service on any notes issued by the municipality. The Illinois Municipal League (IML) opposed the legislation as an unfunded mandate.

IML ADVOCACY

IML and numerous local elected officials, as well as the General Assembly – shown through its continued actions granting and extending TIF designations – firmly believe in the value of TIF as a mechanism to spur economic development in communities across the state.

While IML will not advocate for proposals that would be harmful to or reduce the effectiveness of TIF, we remain committed to serving as a partner with and all stakeholders in improving and addressing perceived issues with the TIF Act.

ROSCOE CODE OF ORDINANCES – Proposed Revisions & Amendments

- **ARTICLE III. - STANDING COMMITTEES**

- **Sec. 2-56. - Committee of the whole.**

(a) *Creation.* The village has established a committee of the whole, of the village board of trustees.

(b) *General purpose.* The committee of the whole shall be **used primarily for the following purposes: (i) to discuss broad policy initiatives for which further direction from the Board is required before an item can be readied and finalized for a vote by the Board at a future meeting, and (ii) responsible** for investigating and issuing recommendations on any issues pertinent to village business or governance, including, but not limited to, matters of capital improvements, finance, village personnel, public safety, public works and parks, economic development, and zoning, **where at least three Board members have communicated to the village president or the village administrator in writing of their desire to add an item to a committee of the whole agenda at least one week before the next scheduled committee of the whole meeting.**

(c) *Membership and voting.* The committee of the whole shall consist of all six members of the village board of trustees, who shall be full voting members. The village president shall be an ex officio member of the committee, and shall serve in an advisory, non-voting role. In the case of a tie-vote, any such motions, if presented to the village board, shall be presented with neither the positive nor negative recommendation of the committee.

(d) *Selection of chairperson.* The chair of the committee of the whole shall be selected as follows. The chair of the committee shall be **a village trustee** selected after nomination made by any member of the committee, and approval of a majority vote of all voting committee members. The chair's term shall run a maximum of two years. However, irrespective of the chair's tenure of service, a new chairperson shall be selected as soon as practicable after the seating of those trustees elected to office at each biennial municipal election taking place within the village. Should the chair resign, a replacement chair shall be selected in the same manner as the original selection. Should a chair be absent from any particular meeting, the members of the committee shall nominate and select a temporary chair to serve for that meeting.

~~(e) *Agenda items.* Upon the request of the village administrator, the village president, or any village trustee, the village clerk shall place upon the committee agenda any item for discussion that pertains to, or is relevant to, the business or governance of the village.~~

~~(f) *Reports to the board.* The committee of the whole shall submit for action, its findings and recommendations to the village board of trustees. Such findings shall specifically reflect a positive recommendation, a negative recommendation, or no recommendation.~~

COMMENTARY & OPTIONS: I believe paragraphs “e” and “f” above are not necessary or practical. The Village Clerk produces agendas, but the Village Clerk does not decide what is to be placed on the agenda. When the committee of the whole is utilized as a working group to give clarity and direction to the staff, this direction often will not take the form of “a positive recommendation, a negative recommendation, or no recommendation.” Proposed revisions to the village administrator sections of the Code (below) make the administrator principally responsible for formulating and assembling Board agendas, in consultation with the village president and village trustees.

(g) *Meetings and schedule.* The committee of the whole shall convene immediately following each regularly scheduled meeting of the village board of trustees, or at such other times as shall be deemed necessary to carry out the functions and duties of the committee.

(Code 2007, § 30.15; Ord. No. 2015-17, 5-21-2015)

COMMENTARY & OPTIONS: A central tenet of local board governance is that it is a group activity—policy decisions are the result of ‘group process,’ and therefore “lone-wolf” members and vocal minority factions should not be able to take decision-making down paths unlikely to enjoy support when they come before the full Board of Trustees. However, trustees must still have recourse to deal with unresponsive village administrators and village presidents who fail to address, or do not recognize, the concerns of a significant number of trustees, and who may attempt to deny access to governing body members who want to discuss topics of major concern. Therefore, the revisions above provide a mechanism for going around the village president and village administrator, if and when necessary, in a manner consistent with the tenets of democratic group decision-making. At the same time, the process of insisting on an agenda item against the wishes of the village president and/or village administrator should not be implemented without sufficient notice for staff to prepare documentation and research on a topic, or be used as a mechanism for last-minute “gotcha” moves intended to embarrass village officials (appointed or elected). The recommended changes implement a balanced approach.

- **Sec. 2-57. - Collective bargaining.**

~~(a) The village has established a collective bargaining committee that shall consist of the village president, the village administrator, and two village trustees selected by the village president.~~

~~(b) One of the selected trustee members shall be designated as a primary member of the committee, and the other trustee member designated as an alternate member of the committee. The alternate trustee committee member shall participate in committee functions in the absence of the designated primary trustee.~~

~~(c) The terms of the committee membership shall be for duration of the bargaining of each collectively bargained contract.~~

~~(Code 2007, § 30.19; Ord. No. 2006-37, 7-20-2006; Ord. No. 2015-17, 5-21-2015; Ord. No. 2018-14, § 1, 9-18-2018)~~

COMMENTARY & OPTIONS: Proposed revisions to this Administrative Chapter delegate responsibility for conducting collective bargaining on behalf of the president and village trustees to the village administrator. Accordingly, the village administrator must obtain from the president and village trustees in advance parameters for negotiating contract revisions to be sought through collective bargaining, and must subsequently obtain the approval of the president and village trustees for enactment of any labor contract. In negotiations, the village administrator represents the collective interests of all seven (7) members of the governing body, and not just one or two of them. Having no members of the governing body routinely engaged in collective bargaining also gives the entire Board the ability to distance itself from initial results obtained by the village administrator, and greater freedom to instruct him/her to return to the bargaining table to obtain different results. Therefore, my preferred Option

(#1) is for there to be no elected officials participating in collective bargaining. At all times the village administrator is accountable to the entire Board for collective bargaining decisions and processes. However, if the governing body would nonetheless like one elected representative to participate, the ordinance could name the village president to perform this role (Option #2). Alternatively, the ordinance could allow the governing body's representative to be a trustee selected by majority vote of the Board (Option #3).

- Secs. 2-58—2-87. - Reserved.

- **CHAPTER 21. - VILLAGE DEPARTMENTS**

- **Sec. 2-88. - Created.**

(a) The village has created a *police department, a public works department, an administrative department and a* planning department, under the executive branch of the village government, *and* consisting of ~~a planning director, a plat officer and of~~ such other officials as shall be authorized by the village board of trustees.

(b) The village's zoning administrator shall serve ex officio as planning director and plat officer.

(c) The village's administrator shall serve as head of the Administrative Department, and as budget officer.

(Code 2007, § 37.01; Ord. No. 2007-67, 12-20-2007; Ord. No. 2015-49, 12-15-2015)

COMMENTARY & OPTIONS: Nowhere does the Village Code provide a complete listing of village departments. The amendments above correct this deficiency.

- **Sec. 2-89. - Appointment of employees.**

All ~~officers of the planning department~~ *village department heads* shall be appointed by the village president with the advice and consent of the village board of trustees.

~~(Code 2007, § 37.02; Ord. No. 2007-67, 12-20-2007; Ord. No. 2015-49, 12-15-2015)~~

- **Sec. 2-90. - Report of department.**

The ~~planning~~ departments shall provide a report to the president and the board of trustees quarterly and annually in relation to the department's work activities for each quarter and calendar year. (Code 2007, § 37.03; Ord. No. 2007-67, 12-20-2007)

- ~~**Sec. 2-91. - Powers and duties.**~~

~~The powers and duties of the planning department shall be those enumerated in 65 ILCS 5/11-12-5 through 5/11-12-7 and such full duties as are assigned to it by the village president. (Code 2007, § 37.04; Ord. No. 2007-67, 12-20-2007)~~

- **Sec. 2-92. - Subdivisions to comply with official plans.**

Following the adoption of the official plan by the village board of trustees, which plan may be amended from time to time, no plat or subdivision or re-subdivision presented for recordation affecting land within the corporate limits of the village, as now or hereafter existing, or in contiguous unincorporated territory outside of and distant not more than 1½ miles from the corporate limits, shall be entitled to recordation or shall be valid unless the plat, subdivision or re-subdivision thereon shall provide for streets, alleys, ways for public service facilities, storm or floodwater runoff channels and basins and public grounds in conformity with the requirements applicable thereto of the official plan and compliance with all applicable sections of this Code, and the planning department shall be responsible for the monitoring of compliance of this section. (Code 2007, § 37.05; Ord. No. 2007-67, 12-20-2007)

- **Secs. 2-93—2-112. - Reserved.**

COMMENTARY & OPTIONS: In some other village documents there are references to a “community development department” that includes planning, zoning, code enforcement and economic development. The Village Code does not provide for a Community Development Department, although this title is the one most commonly used to aggregate planning, zoning, code enforcement, neighborhood improvement and economic development. As I understand it, the village president, with the advice and consent of the Board of Trustees, has historically appointed department heads, but not appointed other employees—except for those called out in statute as being appointed by the village president with the advice and consent of the Board of Trustees, such as the village attorney, village treasurer, village engineer and deputy village clerk. The Village Code does not contain a complete listing of all village departments, so it has been added here. The village is at liberty to create or abolish departments in the future; it would just require an ordinance amendment to implement such a decision.

- **CHAPTER 22. - VILLAGE OFFICIALS**

- **ARTICLE I. - IN GENERAL**

(c) *Deposits; bank designated, liability of treasurer.* The treasurer shall keep all funds and money in his custody belonging to the village in such places of deposit as may be designated by ordinance, and, when requested by the treasurer, the corporate authorities shall designate a bank or banks in which may be kept the funds and money of the village, in the custody of the treasurer. When a bank has been designated as a depository, it shall continue as such until ten days have elapsed after a new depository is designated and has qualified by furnishing the statements of resources and liabilities as required by subsection (d) of this section. When a new depository is designated, the corporate authorities shall notify the sureties of the village treasurer of that fact, in writing, at least five days before the transfer of funds. He shall not be required to prosecute any suit or proceeding when, upon investigation of all the facts in the case, he becomes satisfied that there is no cause of action on the part of the village, unless he is required to do so by the president **and/or the Board of Trustees**. The village attorney may discontinue any suit or proceeding upon any terms as he shall deem just and equitable, provided that the president may require him to prosecute any suit that he shall deem necessary to the well-being of the village. When in his opinion the public interest requires it, he may appeal any proceeding from the judgment of the circuit court;

(5) Cause execution to issue on all judgments in favor of the village and see that all collections are made. He shall have referred to him all court fee bills and other bills of courts for his approval before the same are paid; and

- **Sec. 2-117. - Village engineer.**

The position of administrative hearing officer shall not be a civil service position and the village president shall have the authority to remove, replace or reappoint such individual or firm from time to time as he, in his sole discretion, may choose with any new appointment subject to the advice and consent of the village board of trustees.

There is hereby created the position of village administrator, who shall be the chief administrative officer of the village. Any references in the Village Code of Ordinances or any other ordinance or document to the title of director of village services and personnel shall mean village administrator.

(2) Appointment and selection of village administrator.

(a) The village administrator shall be chosen solely on the basis of executive and administrative qualifications with special reference to actual experience in, and knowledge of, accepted practices with respect to the duties as set forth herein and in the position description as established from time to time by the village president and village board.

Such letter shall be approved by majority vote of the village board. No purchase shall be made, contract let, or obligation incurred that first requires the village board approving a budget amendment authorizing supplemental funds. No purchase, acquisition, construction or any contract of any type shall be made in excess of twenty thousand dollars (\$20,000.00) except by approval of the village board or in the case of public emergency when affirmed by the village president and subsequently ratified by the village board. A public emergency shall mean an unexpected event which places human safety or property in immediate risk of harm. The village administrator shall issue such rules governing purchasing.

This section shall not be interpreted to grant any substantive employment rights in the village administrator and shall not alter the employment status of the village administrator as set forth in the "letter of agreement — conditions of employment."

COMMENTARY & OPTIONS: The village administrator ordinance language above is intended to completely replace and supplant the existing village administrator ordinance language below. While the use of an executive recruitment firm like MGT is recommended when there is a vacancy in the office of village administrator, it is inappropriate to proscribe a specific selection process in law, and thereby eliminate the Board's discretion in the matter. Besides the fact that the existing village administrator ordinance is far from best practice, there are too many vague words in the existing language like: "oversee" and "assist" and "encourage" which fall short of clarifying that the administrator is the chief administrative and operations officer of the village's departments and their service delivery apparatus, and that these management functions are separate and distinct from the village's policy-makers, to whom the administrator is fully accountable, i.e., the village president and board of trustees.

~~(a) *Establishment.* The village has created by the president and board of trustees of the village the full-time position of the village administrator, who shall be an employee of the village, and who shall be charged with the implementation of the policies and directives of the president and board of trustees of the village.~~

~~(3) The human resources administrator shall then coordinate interviews with the listed candidates to be scheduled with, and at such times that are convenient to the candidate, the village president, the board of trustees, village department heads, and other any other such staff deemed necessary by the village board of trustees.~~

~~(6) The village board shall then, by an affirmative vote of two-thirds of the village board of trustees then serving, select and appoint the candidate brought before it, or approve the candidate but with conditions to the terms of employment, select an alternate candidate from the list, or reject the full list of candidates, and request that the selection committee recruit and prepare a list of additional candidates.~~

~~(7) Once selected, the village administrator shall serve at the pleasure of the village board of trustees and may be removed with or without cause by an affirmative vote of two-thirds of the village board of trustees then serving.~~

COMMENTARY & OPTIONS: Presently, the Roscoe Village Treasurer serves simultaneously as the Village Comptroller. However, the village's human resources manager/office manager serves as an assistant to the treasurer. While the simultaneous appointment of the same person to serve as both treasurer and comptroller is not a violation of any laws, it is not compatible with accounting policies and practices requiring rigorous separation of duties in financial transactions and financial oversight. While both posts are technically appointed by the village president and board of trustees, one is accountable to, and supervised by, the Board of Trustees, and the other is accountable to, and supervised by, the village administrator. This, revised arrangement along with other changes to the village's financial policies will satisfy audit and accounting principles, and provide appropriate checks and balances.
